

## \$75 Minimum with Vehicle Example

**DO NOT FORGET THE \$4.00 STATE FEE.**

**1.**

- Let's imagine that your Gross Receipts are \$70,077 and you own 1 vehicle doing business.
- The \$75 minimum is for up to \$50,000 in Gross Receipts.
- You will subtract \$50,000 from \$70,077 which equals \$20,077:

**Ex.**

Take: \$70,077 (Your Gross Receipts)  
Subtract: -\$50,000 (The Minimum Gross Receipts)  
Equaling: = \$20,077

**2.**

Convert: \$20,077  
By Dividing: ÷ 1,000  
Equaling: = 20.08

**3.**

Take: 20.08  
Multiply: x .50 (Cost per \$1,000 over minimum)  
Equaling: = 10.04

**4.**

Take: 10.04  
Add: + 75.00  
Equaling: = \$85.04 (Business Tax Total)

**5. Vehicle Fees**

- It costs \$2 per vehicle doing business in the City of Gardena.

Take: 85.04  
Add Vehicle fees: + \$2.00 (Cost per vehicle doing business)  
Equaling: = \$87.04

**6.**

Take: \$87.04  
Add: + 4.00 (State fee)  
Equaling: = \$91.04

**Final Total: = \$91.04**
