CITY MANAGER'S BUDGET MESSAGE

PROPOSED AMENDED BUDGET – FISCAL YEAR 2023/2024

HONORABLE MAYOR AND CITY COUNCIL:

Presented for City Council is the proposed amended budget for Fiscal Year 2023/2024. This proposed amended budget details the City's plan to continue fiscal prudence and transparency while expanding valuable programs and services for our community.

We have the largest proposed amended all funds expenditure budget in the City's history with a total of \$291 million which includes; \$81.8 million budgeted General Fund, \$50.1 million budgeted for the City's GTrans Fund, \$70.4 million budget for the City's Special Revenue funds, \$16.5 million in Internal Service Funds, \$19.4 million in Debt Service Funds, \$2.1 million in Sewer Fund, and \$50.9 million in Capital Improvement Project budget.

This will be the City's largest Capital Improvement Project (CIP) budget in the history of the City with the amount of \$50.9 million. The City continues to make significant capital investments with \$16 million budgeted for the Gardena Community Aquatic & Senior Center, \$1 million for the new Rosecrans Community Center and \$7.6 million for the Mas Fukai Park Rehabilitation. The remaining \$26.3 million will be utilized to maintain City streets, sewers, storm drains, sidewalks, curbs, crosswalks, signs, various park & facility projects, and traffic signals.

FISCAL YEAR 2023/2024 PROPOSED AMENDED BUDGET:

As background, staff developed the original two-year budget for the fiscal years 2022/2023 & 2023/2024, which was approved by City Council on June 28, 2022. At the time the original budget was developed, the outlook for the economy was bleak with a forecasted recession looming, increasing inflation and rising costs throughout the economy.

As we go through fiscal year 2022/2023, we did not see the previously predicted recession materialize and it was the opposite as the City's financial position improved during that time compared to the budgeted amounts. We are currently projecting an increase in General Fund revenues for Fiscal Year 2022/2023 with total of \$76.6 million and projected revenue of \$79.6 million or an increase of an estimated \$3 million compared to the budget. General Fund expenditures for Fiscal Year 2022/2023 were originally adopted at \$76.6 million and is currently projected to be \$79.3 million for an increase of \$2.6 million. As a result of these projections, the City's original adopted surplus of \$37,008 has been estimated to increase to \$327,458. Based on the positive projected economic conditions in Fiscal Year 2022/2023, staff completed a comprehensive review of the revenues and expenditures originally budgeted for and worked in conjunction with the various City departments to amend the Fiscal Year 2023/2024 Budget to be more in line with the current economic environment and meet the updated needs of all the departments.

The total proposed amended City budget consists of General Fund revenues, Special Revenue Funds such as grant funds, and Enterprise Funds for the Transportation Department and City Sewer Maintenance Program. Only General Fund revenue is at the full discretion of the City Council for spending appropriations. All other revenue is otherwise restricted because of the funding sources. Proposed amended expenditures are based upon meetings and discussions with departments to determine their needs for their present and future department expectations. Proposed amended revenue forecasts are based on historical revenue trends, discussion with the various departments to see current and upcoming trends, consultant based professional forecasted projections, and current economic conditions. The proposed amended budget for the General Fund will be structurally balanced with a revised projected surplus of \$170,857. Special Revenue Funds are budgeted based on *all available funds* which includes the total of projected new revenue for the fiscal year and any carry-over funds which have already been received but not yet spent. Special Revenue Funds are structurally balanced including carry-over funds from the prior fiscal years. The proposed amended budget shows a surplus with General Fund revenue budgeted for Fiscal Year 2023/2024 at \$82,002,199 an increase of \$4.4 million or 5.7% from the originally adopted budget and proposed amended expenditures of \$81,831,342 an increase of \$4.2 million or 5.5% from the originally adopted budget for a net surplus of \$170,857 an increase of \$133,849. Proposed Amended Fiscal Year 2023/2024 total revenues for all funds, including transfers, are \$281,993,104 with expenditures, including transfer out, at \$291,181,312. The delta for total revenues and total expenditures for all funds is due to the timing of the Special Revenue Funds.

BUDGET PROCESS

MISSION OF THE BUDGET PROCESS: To help decision makers make informed choices about the provision of services and capital assets and to promote stakeholder participation in the process. - Government Finance Officers Association (GFOA)

BUDGET GOAL: To develop and maintain a structurally balanced budget that maximizes City resources necessary to build, sustain and enhance the City's future.

Preparation and adoption of the fiscal year budget is guided by the following five organizational principles set by the City Council:

1. Fiscal Integrity and Long-Term Financial Stability
2. Quality Economic Development
3. Workforce Excellence
4. Continually Improving Quality of Life for Residents
5. Maintaining an Attractive, Vital Livable Community

BUDGET OBJECTIVES: These organizational principles translate into the following budget objectives:

1. Establishing budgetary and fiscal policies that address current needs and set the foundation for future decisions.
2. Adopting a structurally balanced budget with realistic annual revenue projections and expenditures below revenue projections.
3. Pursuing grant and other special funds to augment City services in specific program areas.
4. Building adequate reserve funds to meet the City's current and future obligations.
5. Creating public-private partnerships with mutual economic and service benefit.
6. Setting charges and users fees to recover City costs for providing services as much as possible but without overburdening citizens, businesses, and property owners.

7. Replacing or upgrading vehicles and other capital equipment based on comparative cost of required maintenance for safety and performance efficiency.
8. Implementing efficiencies in service delivery and departmental operations that improve customer service and the quality of life in the community.
9. Enhancing employee skills and compensation to attract and maintain the best qualified staff and highest level of public service possible.
10. Providing superior public safety including community-based policing to reduce crime.
11. Providing community service programs that meet a variety of interests and needs.
12. Improving the public image and physical appearance of the City with proper maintenance of public rights-of-way and code enforcement of private properties.

BUDGET ROLES AND RESPONSIBILITIES

Citizens, property owners and businesses are encouraged to share ideas and provide input concerning the community and budgetary programs. This can be accomplished by discussing issues with City's commissions and committees or directly with program managers. Citizen input received during public hearings or other correspondence is not only invited but needed to ensure that public needs are met.

Finance Committee, comprised of two councilmembers (appointed by the Mayor) and the City Treasurer, reviews the City's revenues and

BUDGET PROCESS

expenditures each quarter and the City Manager's proposed budget before submitting to the City Council for adoption.

City Council provides direction for the preparation of the budget through adoption of policies and ongoing input. Council is responsible for the review and adoption of the City budget.

City Manager is responsible for:

- ❖ providing staff direction for budget preparation
- ❖ considering departmental budget requests and requests for supplemental budget items
- ❖ reviewing projected revenues and expenditures with the Director of Administrative Services
- ❖ formulating a comprehensive budget proposal for submission to the City Council
- ❖ presentation of a proposed budget
- ❖ overseeing budget administration throughout the fiscal year

Director of Administrative Services is responsible for:

- ❖ evaluating and reporting the City's fiscal condition
- ❖ providing comprehensive revenue forecasts
- ❖ providing budget orientation and training to all departments
- ❖ monitoring budget throughout the year and providing updates to the City Manager and City Council

OVERVIEW OF CITY BUDGET PROCESS

The City's annual budget process commences in February with the distribution of the updated Budget Manual that details the City's general budgetary policy and the specific goals and objectives for the upcoming fiscal year. Departments are given specific instructions and timelines, the City's chart of accounts, a rate schedule for apportioned costs such as liability and health insurance, and budget forms and formats.

Each department head is required to select a responsible individual in the department to be the Budget Coordinator. Following the budget kickoff by

the City Manager and Director of Administrative Services, all correspondence and meetings are conducted with the departments' Budget Coordinators and the Finance Budget Team.

In March, the Director of Administrative Services provides the City Manager with the tentative General Fund Revenue Projections. These set the parameters for the development of a budget. In turn, the preliminary departmental budget worksheets are returned to the Fiscal Resources Division with instructions for modified expenditure requests based upon the available monies projected.

Target Budget Requests: It is the responsibility of each department to submit, as part of the budget request to the City Manager, a complete Statement of Justification. The statement must provide a formal and comprehensive explanation and justification of the proposed departmental budget program. This is important because the initial budget request submitted by each department is based on maintaining the current level of service. The **"Target Budget"** provides a point of origin for the detailed study and evaluation of each budget request by the City Manager compared to available revenue. The Target Budget has four basic components:

1. **Proposed Work Plan:** Department and program narratives, major accomplishments for fiscal year ending, major goals and objectives for the new fiscal year, workload/performance indicators and projected revenues/cost recovery from department programs.
2. **Proposed Staffing Plan:** Departmental organization chart, personnel worksheets (benefits calculations), personnel schedules, staffing levels, and personnel by program activity.
3. **Proposed Spending Plan:** Department line-item worksheets, expenditure request worksheets, justification statements (if required), computer repair and replacement fund summary and capital expenditures one-year request and justification statement.
4. **Revenue Projections:** Department revenues based on the fees collected as part of the department's operation. Emphasis

BUDGET PROCESS

is placed on maximizing cost recovery as appropriate and justification for new or increase in existing fees.

Supplemental Budget Requests: Separate from the Target Budgets, departments submit a “wish list” of additional personnel, new or replacement equipment, or funding for new or expanded programs. All Supplemental Budget Requests are reviewed jointly with priority given to funding requests that best meet the objectives for the fiscal year and improve services across departmental lines. Unfunded requests are set aside until additional funding can be identified. This process will be expanded over the next fiscal year with a goal of developing a multi-year budgeting plan for rebuilding staffing levels, equipment replacement and program expansion.

Capital Outlay Requests: Capital requests are submitted separately with priority given to the replacement of aging and outdated equipment. With the Fiscal Year 2001-2002 Budget, a “Computer and Technology Maintenance and Replacement” fund was instituted to protect the City’s investment in technology by ensuring funds to properly maintain and replace equipment when needed. This is funded through departmental contributions based on a usage formula.

City Managers Review: At the end of April, the City Manager reviews a draft budget summary presented by the Director of Administrative Services. Following the review and approval, the Proposed Budget, or City Manager’s Budget as it is sometimes called, is finalized and printed for distribution. Much of the focus of the annual budget process is on General Fund programs since this is the only funding area that is fully discretionary. Grant funded programs follow a similar process but are more specifically directed by the regulations of the particular funding source. The City’s adopted budget incorporates all City programs and specifically identifies the funding source for each.

Preliminary Budget: In May, a preliminary budget document is created, and the City Manager meets independently with each department head to review the department’s goals, objectives, programs and funding needs for the upcoming fiscal year. It is also the department head’s opportunity to ensure that all the needs of his/her department are understood and carefully considered in the allocation of funds.

Budget Hearing: A public workshop hearing is held approximately one month before the adoption of the City’s budget for the upcoming fiscal year. The City Manager presents to the Council the overall goals and objectives for the fiscal year, along with a review of significant factors affecting proposed revenues and expenditures.

Public comment is heard throughout the month and revisions may be made to the budget as directed by the City Council.

Adoption: City Council shall adopt the budget by Resolution at the conclusion of the budget hearings. The adoption of the budget must occur prior to July 1, which is the beginning of the new fiscal year.

Budget Control and Amendments: Since the budget is a planning document, throughout the fiscal year there may be a need for adjustments in the spending plan. As new revenues are identified, or unexpected expenditures arise, departments may need to re-prioritize the expenditure plan for their operations. If the modification can be made within the department’s approved appropriation, then the Department Head may make a written request for a budget transfer to reallocate funds as needed. The budget transfer request is sent to Fiscal Resources for review and approval. Accounting staff verifies that funds are available as requested, and the Director of Administrative Services approves the transfer. However, if the department is unable to make the needed adjustments within their department appropriation, additional approval is needed. The City Manager is authorized to transfer funds between departments up to ten thousand dollars. Amounts exceeding ten thousand dollars must have the approval of the City Council.

BUDGET DOCUMENT GUIDE

The “Adopted Budget” is the document that sets the expenditure policies for all monies received by the City. The budget is based on a “fiscal year” that begins each year on July 1 and ends twelve-months later on June 30. City staff develops a proposed budget under the direction of the City Manager. The “Proposed Budget” is presented at a Public Hearing with the City Council for consideration. The City Council makes whatever changes they deem appropriate and vote to adopt the budget for the next fiscal year.

The budget is designed to give the City Council a clear roadmap of the City’s expenditure needs and available resources so that the Council can make sound budgetary decisions. It is through the appropriation of funds that the Council sets the program and project priorities for the ensuing fiscal year. This one-year amended budget was presented to the City Council for consideration. This proposed amended budget will cover fiscal year 2023-2024.

The budget document begins with the City Manager’s budget message, which provides an overview of the Fiscal Year Operating Budget by highlighting programs and major projects. Economic factors, changes in revenue, expenditures, and staffing levels are also addressed in the budget message. The budget document is divided into the following sections:

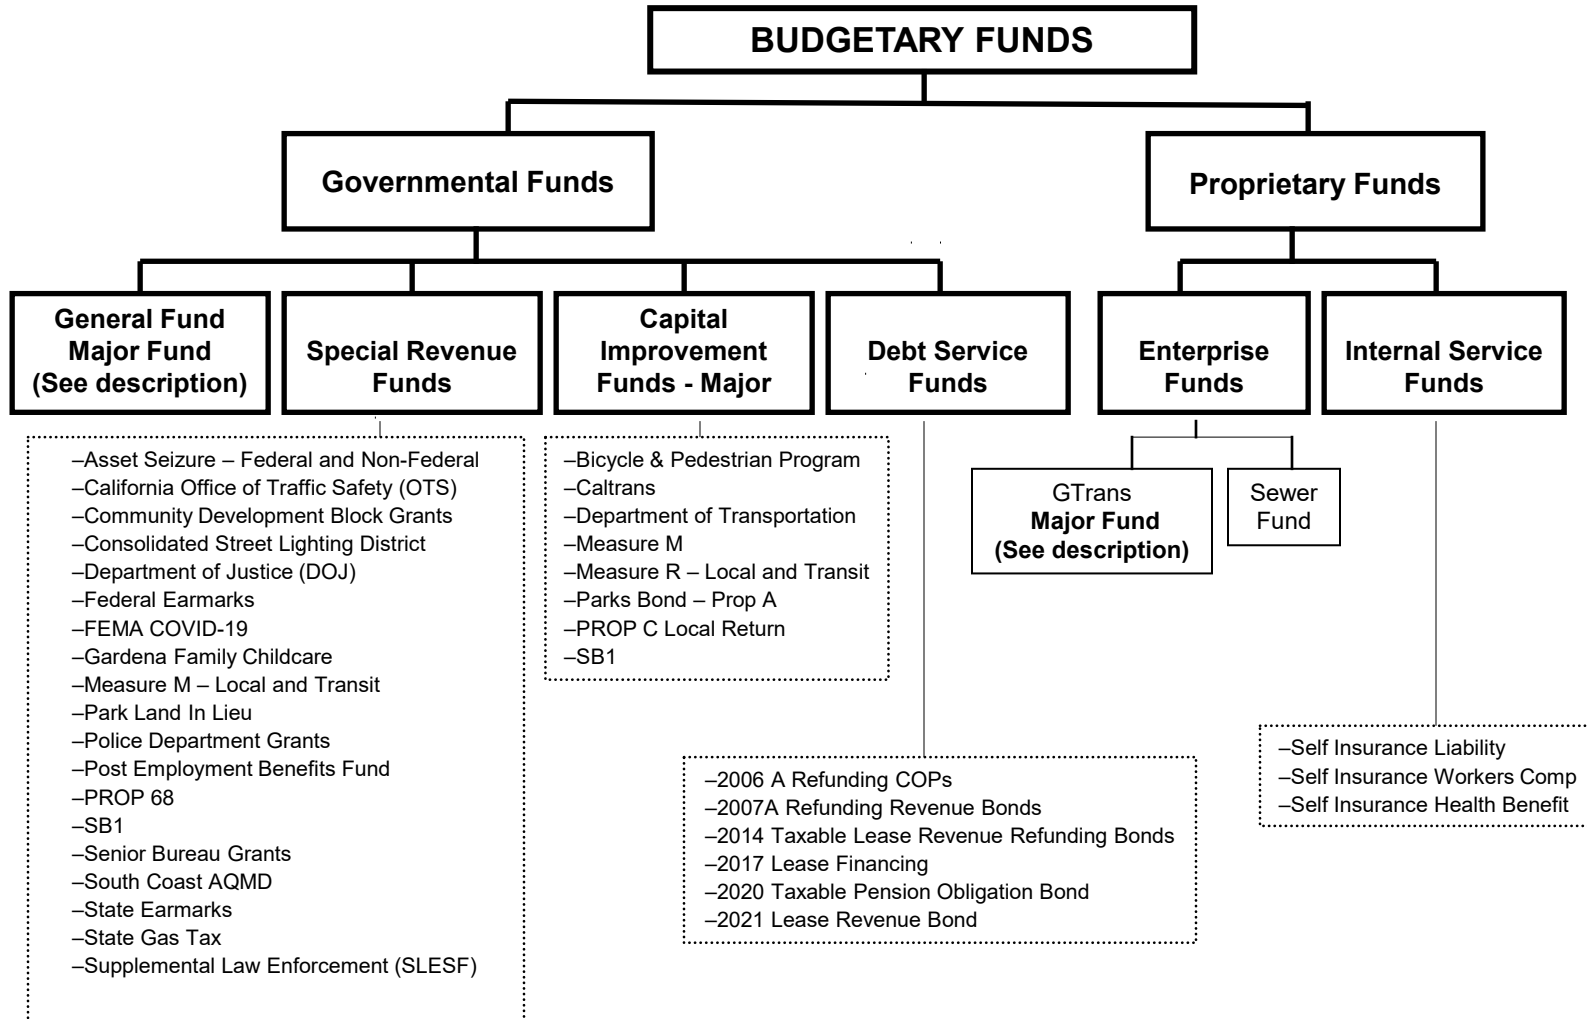

- Budget Message
- Introduction
- Budget Summaries
- Operating Budget – General Fund with corresponding Special Revenue Funds
- Operating Budget – Enterprise Funds
- Debt Service Funds
- Internal Service Funds
- Capital Improvement Program
- Appendix

The Budget Summaries section provides revenue and expenditure analysis. This section presents historical data for comparative purposes along with staffing levels.

The Operating Budgets section contains program description and public service goals. All Special Revenue Funds are grouped by operating department to provide a complete picture of department resources and functions.

The Appendix section contains the glossary of terms, abbreviations and acronyms, and index.

CITY OF GARDENA FUND STRUCTURE

A major fund is classified as any fund which is at least 10% of the total appropriation

FUND DESCRIPTIONS

GENERAL FUND (Major Fund)

The General Fund is the chief operating fund of the City and the only totally unrestricted fund that can be used for general operating expenses such as public safety, parks, recreation, engineering, planning and administration.

SPECIAL REVENUE FUNDS (Grants)

Currently the City receives additional funding from various sources to provide many services which otherwise would be impossible for the City to support. Special revenue funds are restricted to a specific purpose and for a certain time frame. Continued or new funding is based on the federal, state or county which is providing the resources. The City is always seeking new grants for the betterment of the citizens and community. Following is a description of the major grant funding that the City receives.

Artesia Landscaping District: To account for monies received for the maintenance of medians on Artesia Boulevard.

American Rescue Plan: Funding to address the devastating economic and health effects of the COVID-19 pandemic.

Asset Seizure: Monies seized from criminal activities and used solely for law enforcement purposes.

Community Development Block Grant (CDBG): The CDBG program works to ensure decent affordable housing, to provide services to the most vulnerable citizens in our communities, and to create jobs through the expansion and retention of businesses. This federal funding is received through the Department of Housing and Urban Development (HUD) and is an important tool for assisting local government in tackling the serious economic challenges facing the community.

Consolidated Street Lighting: To account for monies received for the maintenance and improvement of streetlights.

Federal and State Earmarks: Funds provided by legislators for projects or programs that curtail the ability of the Executive Branch to manage critical aspects of the funds allocation process.

FEMA COVID-19: This Treasury Department allocation provides funding to local government to support the public health response and lay the foundation for a strong and equitable economic recovery.

Gardena Family Childcare: This grant provides low-cost childcare to low-moderate income families as well as offering early education and development classes. This program through Cal SAFE also helps pregnant and parenting students and their children. These programs are funded through the California Department of Education.

FUND DESCRIPTIONS

PROPRIETARY FUNDS

A proprietary fund accounts for business type activities of the City that receive a significant portion of funding through user charges with the intent to fully recover the cost of service. The Enterprise and Internal Services Funds are proprietary type funds.

Enterprise Funds:

GTrans (Major Fund) accounts for user charges, fees, federal, state and county grants and all operating costs associated with the operation of the City's bus lines. Although the GTrans is a separately operating enterprise fund, it is still operationally a department of the City.

Sewer Fund accounts for fees charged to users of the City's sewer system. The fee is based upon the amount of domestic water used. The revenue is used to replace, rehabilitate, maintain, and improve the City's sewer system.

Internal Service Funds:

The Internal Service Funds account for financing of goods or services provided by one City department to other departments of the City on a cost-reimbursement basis and consist of the following funds:

Self-Insurance Liability Fund

Self-Insurance Workers' Compensation Fund

Self-Insurance Health Benefit Fund

FIDUCIARY FUNDS

Account for assets held by the City in a trustee capacity. Fiduciary funds are normally **not budgeted** because typically the trust agreement or law already provides adequate control over the trust fund resources.

ACCOUNTING PRINCIPLES AND POLICIES

FUND ACCOUNTING

The accounts of the City are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures as appropriate. Government resources are allocated to, and accounted for, in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The financial section in this budget is grouped by generic fund types and broad fund categories as follows:

Governmental Funds

General Fund
Special Revenue Funds
Capital Improvement Funds
Debt Service Funds

Proprietary Funds

Enterprise Funds
Internal Service Funds

BASIS OF ACCOUNTING AND BUDGETING

The City's **Governmental Fund Types** (General, Special Revenue, Debt Service and Capital Projects Funds) are accounted for and budgeted using the modified accrual basis of accounting. Revenues are recognized when they become measurable and available as net current assets. Revenue considered susceptible to accrual includes property taxes, sales taxes, interest and motor vehicle license fees. Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred. An exception to the general rule is compensated absences not payable within one year, and interest and principal on long-term debt which are recorded when due.

Proprietary Fund Types are accounted for on an "income determination" or "cost of services" measurement focus. Accordingly, all assets and all liabilities are included on the balance sheets, and the reported fund equity (total reported assets less total reported liabilities) provides an indication of the economic net worth of the funds. The operating statements for the City's Proprietary Fund Types report increases (revenues) and decreases (expenses) in total economic net

worth. All Proprietary Fund Types are accounted for and budgeted using the accrual basis of accounting. Revenues are recognized when earned, and expenses are recognized when incurred.

FINANCIAL POLICIES

The following financial policies represent the long-standing principles and traditions which guide the City in its fiscal decisions.

FINANCE COMMITTEE

The City's Finance Committee is comprised of two councilmembers, (appointed by the Mayor) and the City Treasurer. The Committee meets quarterly with the City Manager to review and make recommendations on the City's budget, debt, and other financial actions.

AUDITING AND FINANCIAL REPORTING

- California state statute requires an annual audit of the books of account, financial records and transactions of all administrative departments of the City by Independent Certified Public Accountants.
- The City will produce annual financial reports in accordance with Generally Accepted Accounting Principles (GAAP) as outlined in Governmental Accounting, Auditing and Financial Reporting (GAAFR).

REVENUE POLICY

- The City will try to maintain a diversified and stable revenue system to shelter it from short run fluctuations in any one-revenue source.

ACCOUNTING PRINCIPLES AND POLICIES

- The City will follow an aggressive policy of collecting revenues, augmented in Fiscal Year 2002 by the implementation of the City's new cashing system.
- The City will establish all user charges and fees at a level closely related to the full cost (operating, direct, indirect and capital) of providing the service. The City will continue to review fees/charges periodically.

INVESTMENT OF IDLE FUNDS

- The safeguarding of all public monies shall be of the highest priority. Public money shall not be invested or managed in any manner, which would jeopardize the safety of the principal pursuant to California Government Code Section 53635.
- The City's investment policy is reviewed and approved annually by the City Council.
- Direct responsibility for managing the City's investment portfolio rests with the City Treasurer.
- All investments are made in accordance with the following criteria, stated in order of priority: safety, liquidity and yield.

PURCHASING POLICY

- The City's departments will purchase the best value obtainable, securing the maximum benefit for each tax dollar expended, while giving all qualified vendors an equal opportunity to do business with the City.
- All purchases \$30,000 - \$50,000 require written quotes and must be ratified by the City Council.
- All purchases with a total cost over \$50,000 must be procured by a formal bid and can only be authorized and awarded by the City Council.
- Whenever possible, local vendors shall be included as sources for all purchases.

RISK MANAGEMENT POLICY

- The City is self-insured against each general liability claim for the first \$750,000 and each workers' compensation claim for the first \$500,000 and \$750,000 for each GTrans claim against the City. The City carries insurance in excess of these amounts.
- The City's role in managing its risk management program is to be proactive, in nature, which will be accomplished through careful monitoring of losses, working closely with the third-party administrator and designing and implementing programs to minimize risk and reduce losses.

FIXED ASSET POLICY

- To safeguard the investment in fixed assets.
- To use the fixed asset system as a management tool for replacement of recurring items to avoid duplication and inefficient use of fixed assets.
- To comply with state laws and regulations.
- To provide information for preparation of financial statements in accordance with GAAP with emphasis placed on completion of GASB 34 requirements.
- When disposing of fixed assets, every effort should be made to recover some of the original cost by selling and or trading in the fixed asset.

CAPITAL IMPROVEMENT POLICY

- The City will develop a multi-year plan for capital improvements, update it annually and make all capital improvements in accordance with this plan.
- Immediate capital replacement needs and smaller capital projects are funded on a pay-as-you-go basis through a budget transfer.

ACCOUNTING PRINCIPLES AND POLICIES

- Capital improvements involve the outlay of substantial funds; therefore, the City prioritizes the use of non-general fund monies to support these expenditures.

DEBT POLICY

- To provide for proper planning of capital expenditures, financing requirements and guidelines for issuance of various debt instruments.
- To hold borrowing costs at a minimum and maintain ratios within established standards.
- To secure favorable ratings and competitive lower interest rates on all types of borrowing instruments, thereby providing a savings to all taxpayers.

BORROWING INSTRUMENTS

- Tax and Revenue Anticipation Notes to be issued no more than once a year. Maximum maturity of notes will be twelve months from date of issue. Notes will be rated by Moody's Investor Service, Standard and Poor's Ratings Group or Fitch Investors Service, L.P.
- Certificates of Participation (COPS) can be used as a financial alternative for acquiring assets.
- Revenue Bonds – City Council will evaluate all requests.
- Mello-Roos financing – City Council will evaluate all requests.

BUDGET – GENERAL POLICY

- City staff will present to the City Council a structurally balanced budget proposal that does not rely on “one-time” revenues. Annual recurring expenditures will be funded with annual recurring revenues.

- The City Council will, by June 30 of each year, adopt a structurally balanced operating and capital improvement spending plan for the ensuing fiscal year, where operating revenues are equal to, or exceed, operating expenditures.
- The City will align and amend as appropriate its operating and capital spending plan with its strategic action plan priorities and economic development plan.
- City staff will complete and present a quarterly Budget and Economic Condition Analysis to the Finance Committee. Recommended budget adjustments will be submitted to the City Council for consideration and approval.
- The City will establish and maintain a General Fund Reserve equal to at least twenty five percent (25%) of its annual General Fund operating budget. The amount will be revised annually and such funds will be expended only with the approval of the City Council.

BUDGET – REVENUE

- Revenue projections will be based on multiple sources of information including, but not limited to, historical trends, federal, state and regional economic forecasts, service levels, changes in legislation and mandates and other statistical resources generally available.
- The City will develop and incorporate into each spending plan revenue and expenditure projections for five (5) additional years into the future and amend the projection annually as part of the budget review.
- When projecting revenues, the City will take into consideration the diversity, volatility and stability of its revenue stream and will as much as possible base its core operating cost on historically stable revenue sources.
- The City will stabilize its revenue base by forecasting its annual operating expenditures on diverse revenue sources and limiting revenue growth projections in each revenue category.

ACCOUNTING PRINCIPLES AND POLICIES

- Revenues received in excess of the budgeted projections will be used for one-time expenditures or set aside as reserve.

BUDGET – EXPENDITURES

- Expenditures will be budgeted realistically for each expenditure category and can be adjusted internally as may become necessary but will not exceed appropriation limits.
- Contingency funds will be included in the annual budget to provide funding for unanticipated operating cost increases, one-time purchasing opportunities and one-time emergency expenditures to repair equipment and facilities. Unexpended funds will carry-over to the next fiscal year.
- In considering reductions in service levels, program cuts, or staffing reductions, the city will first assess options to improve operational efficiencies and develop additional revenues to cover the cost to continue the existing level of public service with existing Budget Policies.

- Limiting Cost with Fees for Service: Certain services are used selectively by a limited number of participants and, therefore, are not mandated City services. These services are provided based on individual interest and are provided only as funding is available. To fund these programs without limiting basic services necessary for the general public, the City will perform a cost analysis to identify the city's fully burdened cost for providing those services and, to the extent reasonable, set the fee based on full cost recovery. Such fees shall be updated frequently to ensure that the fees are reflective of actual city costs for the delivery of services.
- Unexpended funds within a fiscal year will be held in reserve or appropriated for one-time expenditures.

BUDGET – CAPITAL IMPROVEMENT

- Capital improvements will be financed primarily through special revenue funds, user fees, service charges, and developer agreements when benefits can be specifically attributed to users of the facilities.
- The City will analyze the impact of capital improvements to ensure that operational and maintenance costs are balanced with on-going revenue to support facility operations.

A "structurally balanced budget" projects revenues to exceed expenditure appropriations within the term of the budget. The City's fiscal year (term) is from July 1 - June 30 so expenditure appropriations must be made within revenue projections. The variance between revenue and expenditures is referred to as the "delta" (^) and may be positive, reflecting a structurally balanced budget, or negative, indicating a structural imbalance. A structural imbalance is normally the result of the revenue being received in a prior fiscal year. When a positive delta exists at the end of a fiscal year, revenues may be appropriated to expend in the next fiscal year or may be set aside as a reserve to be used for an emergency or one-time opportunities. Fund balance reserves are not intended to offset normal operating cost or to balance an unstructured budget. The General Fund is the only fund that is totally discretionary and therefore must balance a negative delta in any fund; conversely other funds may not be used to balance a negative delta in the General Fund.

INTERNAL SERVICE FUNDS PROPOSED AMENDED BUDGET FISCAL YEAR 2023/2024

INTERNAL SERVICE FUNDS

PUBLIC SERVICE GOAL: *To continually build and maintain adequate reserves through annual budget contributions to protect the City's investment in the cost of insurance and other ongoing administrative obligations.*

Internal Service Funds are established to cover the cost of insurance and other ongoing administrative obligations and to separate these funds from the General Fund account. The City is self-insured for general liability, worker's compensation and employee health benefits coverage. Funds in these accounts are used to pay all self-insured losses and related administrative costs with the balance in each account at the end of the fiscal year accumulated as reserves against future liabilities.

SELF - INSURANCE PROGRAMS

The City retains the services of Third-Party Administrators (TPA) to handle claims for general liability, worker's compensation and health care claims. Current services are provided by:

General Liability Claims – Carl Warren & Co.

Workers Compensation Claims – LWP Claims Solutions

Health Benefits Plan – Pinnacle Claims Management

- **General Liability**

The General Liability Fund provides for the City's general liability, self-insurance program, and other insurance needs in order to reduce cost and provide better control; to provide for the administration and legal service necessary for the operation of this program; to provide insurance protection against catastrophic loss or losses and to provide payment of liability insurance purchased in excess of the City's self-insurance limits.

Charges to departments are established by the Director of Administrative Services and included in the budget manual. Upon recommendation from the finance committee, additional reserves may be transferred at year-end from the General Fund reserves.

- **Workers Compensation**

The Workers Compensation Fund is established to pay administrative and legal services necessary for the operation of this program; to provide payment of compensation benefits and medical expenses associated with industrial injuries; to provide insurance protection against a catastrophic loss or losses; to review and analyze the City's industrial injury risks and determine the most suitable means of reducing employee exposure, and to develop procedures for the administration of the City's Self-Insurance Compensation and Safety Program.

Charges to departments are established by the Director of Administrative Services and included in the budget manual.

- **Health Benefits**

The City is self-insured for health benefits for its employees and purchases reinsurance to transfer some of its risk. Rates are set by the Health Benefits Committee, which is comprised of management and one employee from each of the employee bargaining groups. The committee reviews the cost of health care, changes in benefits, and market trends in order to establish the rate for health insurance. Fund levels are set at a 70% confidence rate.

The fund is supported through contributions of both employees and the City as negotiated each year with the employee bargaining groups. The City's contribution is \$1,498 per month for the employee and one dependent. Employees contribute an additional \$494 per month if they have more than one dependent insured. Rates for life insurance varies depending on the bargaining group.
