

# 2024 Homeless Count: Raw Data Totals Gardena

## Raw Data Gathered During the Homeless Count

### Actual Persons Counted:

Sheltered:	0
Unsheltered:	38
<b>Total Actual Persons:</b>	<b>38</b>

### Improvised Dwellings Counted:

Cars:	9
Vans:	4
RVs:	12
Tents:	0
Makeshift shelters:	6
<b>Total Dwellings:</b>	<b>31</b>

## Estimated Number of People in Dwellings (derived using multipliers from SPA-wide surveys)

Please note: multipliers are designed for accuracy at the SPA level. Use of multipliers in areas smaller than the full SPA can be helpful for planning purposes, but the result should not be regarded as definitive.

Dwelling Type	Multipliers:	Avg. Occupancy	+/- Error	# Counted	Raw Count x Multiplier
Cars:		1.43	0.15	9	12.88
Vans:		1.43	0.19	4	5.70
RVs:		1.64	0.08	12	19.70
Tents:		1.57	0.10	0	0.00
Makeshift shelters:		1.42	0.12	6	8.50

Low Est. High Est.

### Rough estimated range of people in dwellings using multipliers (rounded):

**43 — 51**

The Low Estimate and High Estimate are the endpoints of the statistical 95% confidence interval (95% CI) around the estimated number of how many people experiencing unsheltered homelessness (unsheltered PEH) were sleeping in cars, vans, RVs, tents, or makeshift shelters (CVRTM) on the night of the Point-in-Time (PIT) Count. Having 95% confidence means there is a very good (19 in 20) chance the true number of unsheltered PEH sleeping in CVRTM was between the Low Est. and the High Est. (a 1 in 20 chance remains that the true number was lower than the Low Est. or higher than the High Est.). If required to ignore estimation uncertainty and report a single number, rather than a range like the 95% CI, halfway between the endpoints is the best, single point estimate from the Demographic Survey of unsheltered PEH...

## Estimated Total Persons

<b>Actual Sheltered Persons*:</b>	<b>0</b>
<b>Actual Unsheltered Persons:</b>	<b>38</b>
<b>Roughly Estimated Range of Persons in Dwellings:</b>	<b>43 — 51</b>
<b>Roughly Estimated Gardena Total Range:</b>	<b>81 — 89</b>

\*Please note: Sheltered counts do not include clients sheltered with vouchers or in programs with confidential addresses, such as shelters for clients fleeing domestic violence. Voucher-based program data is not available at the census tract level. Data for confidential sites is included only in summaries at the SPA-level or larger to protect their confidentiality.
