GARDENA CITY COUNCIL

Regular Meeting Notice and Agenda

Council Chamber at City Hall
1700 West 162nd Street, Gardena, California
Website: www.cityofgardena.org

Tuesday, December 12, 2023
Closed Session 7:00 p.m.
Open Session 7:30 p.m.

TASHA CERDA, *Mayor*
MARK E. HENDERSON, *Mayor Pro Tem*
RODNEY G. TANAKA, *Council Member*
PAULETTE C. FRANCIS, *Council Member*
WANDA LOVE, *Council Member*

MINA SEMENZA, *City Clerk*
GUY H. MATO, *City Treasurer*
CLINT OSORIO, *City Manager*
CARMEN VASQUEZ, *City Attorney*
LISA KRANITZ, *Assistant City Attorney*

If you would like to participate in this meeting, you can participate via the following options:

1. **VIEW THE MEETING live on SPECTRUM CHANNEL 22 or ONLINE at** youtube.com/CityofGardena

2. **PARTICIPATE BEFORE THE MEETING** by emailing the Deputy City Clerk at publiccomment@cityofgardena.org by 5:00p.m. on the day of the meeting and write "Public Comment" in the subject line.

3. **ATTEND THE MEETING IN PERSON**

   PUBLIC COMMENT: The City Council will hear from the public on any item on the agenda or any item of interest that is not on the agenda at the following times:

   - Agenda Items – At the time the City Council considers the item or during Oral Communications
   - Non-agenda Items – During Oral Communications
   - Public Hearings – At the time for Public Hearings listed on the Agenda

   If you wish to address the Council, please complete a "Speaker Request" form and present it to the City Clerk or Sergeant of Arms. You will be called to the podium by name when it is your turn to address the Council. The City Council cannot legally take action on any item not scheduled on the Agenda. Such items may be referred for administrative action or scheduled on a future Agenda. Members of the public wishing to address the City Council will be given three (3) minutes to speak.

4. The City of Gardena, in complying with the Americans with Disabilities Act (ADA), requests individuals who require special accommodations to access, attend and/or participate in the City meeting due to disability, to please contact the City Clerk's Office by phone (310) 217-9565 or email cityclerk@cityofgardena.org at least 24 business hours prior to the scheduled general meeting to ensure assistance is provided. Assistive listening devices are available.

STANDARDS OF BEHAVIOR THAT PROMOTE CIVILITY AT ALL PUBLIC MEETINGS

- Treat everyone courteously;
- Listen to others respectfully;
- Exercise self-control;
- Give open-minded consideration to all viewpoints;
- Focus on the issues and avoid personalizing debate; and
- Embrace respectful disagreement and dissent as democratic rights, inherent components of an inclusive public process, and tools for forging sound decisions

Thank you for your attendance and cooperation

---

1. **ROLL CALL**

   PUBLIC COMMENT ON CLOSED SESSION

2. **CLOSED SESSION**

   2.A CONFERENCE WITH LEGAL COUNSEL- ANTICIPATED LITIGATION
   Significant exposure to litigation, pursuant to Gov. Code Section 54956.9(d)(2)-November 13, 2023, correspondence from attorney Kim Savage on behalf of Clear Recovery Center, Inc. regarding project at 1921 146th Street, Gardena
   11132023 correspondence from attorney K. Savage.pdf

   CITY ATTORNEY REPORT OUT OF CLOSED SESSION

3. **PLEDGE OF ALLEGIANCE**

   Brooklyn Grayson and Devine Egboh
   153rd Street Elementary School

4. **INVOCATION**

   Bishop Jones
   Church of Jesus Christ of Latter Day Saints

5. **PRESENTATIONS**

   5.A Gardena Events Video Presentation

6. **PROCLAMATIONS**

7. **APPOINTMENTS**

   7.A Council Appointments to Commissions, Committees, Councils and Boards (Appointees to be Ratified and Sworn In)

   Youth Commission - Aidan Madison
   (Appointed by Mayor Cerda)

8. **CONSENT CALENDAR**

NOTICE TO THE PUBLIC - Roll Call Vote Required On The Consent Calendar
All matters listed under the Consent Calendar will be enacted by one motion unless a Council Member requests Council discussion, in which case that item will be removed from the Consent Calendar and considered separately following this portion of the agenda.

PUBLIC COMMENT ON CONSENT CALENDAR

Re: Request for Fair Housing Reasonable Accommodation – Municipal Code § 18.74 et seq.
Subject Property - 1921 146th Street, Gardena, California

Dear Ms. Vasquez and Ms. Kranitz:

This office represents Mr. Michael E. Joly, CEO, Clear Recovery Center, Inc., in the planning approval process for the proposed development at 1921 146th Street in the City of Gardena. More specifically, this letter is a request for a fair housing reasonable accommodation pursuant to City of Gardena Municipal Code § 18.74 et seq., to permit in the R-3 zone the proposed use for housing for individuals with disabilities currently in recovery for substance use and abuse. The fair housing reasonable accommodation would waive Section 18.16.010 which requires that a § 18.04 "group care facility" be subject to a conditional use permit to operate in medium density residential zone.

Proposed Development - Housing for Individuals With Disabilities Currently In Recovery

Clear Recovery Center, Inc. (CRC), an experienced substance abuse and mental health treatment provider, proposes to develop a California Department of Health Care Services (DHCS) licensed non-medical alcohol and drug treatment program for 20 adults who have voluntarily chosen to address their substance use and abuse. The subject parcel, identified as 1921 146th Street, will provide residential treatment within four dwelling units, each with a separate address. Two new units, each with a six-person occupancy, will acquire the addresses of 1925 and 1927 146th Street. The new 1923 A and 1923 B 146th Street dwellings will each have a four-person occupancy. The fifth dwelling unit, 1921 146th Street, will be used for individual and group sessions only for residents of the facility. The 12, 541 sq. ft. parcel is located in the R-3 multi-family zone and surrounded by large apartment and condominium developments. The City of Gardena has approved the construction plans for development including the provision of seven parking spaces which will accommodate staff vehicles. Residents are not permitted to have a vehicle at the facility. We are providing a rendering of the parcel development, not previously submitted, which we believe enhances an understanding of how the DHCS licensed facility will be integrated within the residential block.

Federal and State Fair Housing Law Reasonable Accommodation Mandate

Under both the federal Fair Housing Amendments Act of 1988 and California's Fair Employment and Housing Act, local governments have an affirmative duty to provide reasonable accommodations in land use and zoning regulations, policies, practices and procedures where it may be necessary to provide individuals with disabilities equal opportunity in housing. Fair Housing Amendments Act, 42 U.S.C. § 3604(f)(3)(B); California Fair Employment and Housing Act, Cal. Gov't. Code §12927(c)(1). Developers and providers of housing for individuals

with disabilities may seek from local government flexibility in the application of land use and zoning regulations or waiver of certain restrictions or requirements because they are necessary to achieve equal access to housing. Turning Point, Inc. v. Caldwell, 74 F.3d 941 (9th Cir. 1996).

California has long recognized that local land use and zoning restrictions have impeded the development of housing for individuals with disabilities, whether motivated by discriminatory intent or unintentional but, with a resulting disparate impact. Our state has a strong commitment to furthering housing opportunities for individuals with disabilities through fair housing reasonable accommodation processes. California Attorney General, Bill Lockyer, in a letter to all California cities and counties, cautioned against using the conditional use permit process when reviewing land use and zoning matters related to housing for individuals with disabilities because this entitlement process relies on the wrong legal standard. In contrast to a "general welfare standard" (the conditional use permit standard), a fair housing reasonable accommodation analysis correctly evaluates the need for a regulatory or procedural exception to overcome barriers to housing opportunities for individuals with disabilities. Equally important, the Attorney General advised against entitlement public notice and hearing processes in decision-making related to housing for individuals with disabilities because all too frequently it leads to unfounded community opposition, potentially discriminatory decision-making and liability for fair housing violations. Letter of Attorney General Bill Lockyer (May 15, 2001), available at www.hcd.ca.gov.

Subsequent to the Attorney General's statewide letter strongly urging the adoption of reasonable accommodation procedures for land use and zoning determinations, the State of California, effective 2002, has required that local government identify constraints to the development of housing for individuals with disabilities and adopt fair housing reasonable accommodation procedures. Gov't Code §§ 65583(a)(4) and 65583(c)(3). Municipalities' fair housing reasonable accommodation procedures provide, specifically for housing for individuals with disabilities, a separate procedure and analysis distinguishable from land use and zoning entitlement approval processes.

The California Civil Rights Department (CRD) (formerly the Department of Fair Employment & Housing) has adopted regulations identifying public and private land use and zoning practices that either intentionally discriminate or unintentionally have the effect of discriminating against housing for individuals with disabilities. 2 CCR §§ 12161 and 12162. The regulations pointedly address the legal obligation of cities and counties to use a fair housing reasonable accommodation procedure in land use decision-making for housing for individuals with disabilities, not other entitlement processes which typically rely on a "general welfare standard." This civil rights enforcement department through its regulations further clarifies California's commitment to using a reasonable accommodation decision-making process that considers increasing housing opportunities for individuals with disabilities. An illegal decision-making practice is one that:

> Refuses or fails to make reasonable accommodations in public or private land use practices or services related to the enjoyment of residence, land ownership, tenancy, or any other land use benefit related to residential use, or in connection with residential real estate or existing or proposed dwellings, including charging a fee for seeking or processing a reasonable or other accommodation, or using land use permitting processes for variances, conditional use permits, land use approvals rather than a reasonable accommodation process to respond to a request for a reasonable accommodation if the variance or conditional use process takes into consideration different criteria or uses different procedures than those required by this article for considering requests for a reasonable accommodation;
>
> 2 CCR 12161(b)(8) (emphasis added).

The fair housing reasonable accommodation mandate is interpreted broadly in land use and zoning decision-making and encompasses flexibility in use and occupancy deviations for furthering housing opportunities. See Joint Statement of the Department of Housing & Urban Development and the Department of Justice, *State and Local Land Use Laws and Practices and the Application of The Fair Housing Act* (November 10, 2016). There is no categorical list of permitted or unpermitted fair housing reasonable accommodations as each request is a highly fact specific inquiry and decided on a "case-by-case" basis. Mengistu v. Housing Authority of the City of Los Angeles, 742 Fed. Appx. 247 (9th Cir. 2018). A jurisdiction may not pre-determine what exceptions are permissible.

The Clear Recovery Center Fair Housing Reasonable Accommodation Request, Gardena Municipal Code, Section 18.74 et seq.

The specific request is to permit Clear Recovery Center, Inc. to provide a California DHCS Alcohol and Drug Treatment Program for up to 20 adults with disabilities currently in recovery for substance use and abuse at 1921 146th Street, Garden Grove, California. CRC requests that the City waive Section 18.16.010 which requires that a § 18.04 "group care facility" be subject to a conditional use permit to operate in medium density residential zone. The City should authorize the requested use as a fair housing reasonable accommodation in lieu of a conditional use permit review and approval process.

This request for a fair housing reasonable accommodation is analyzed in accordance with the findings required under Section 18.74.070.

1. That the housing, which is the subject of the request for reasonable accommodation, will be used by people with disabilities protected under fair housing laws:

Individuals currently in recovery for substance abuse are within the statutory definition of "disability" and protected from discrimination under federal and state fair housing laws. Pacific Shores Properties, LLC v. City of Newport Beach, 730 F. 3d 1142 (9th Cir. 2013), cert. denied, 135 S Ct. 436 (2014); Hernandez v. Hughes Missile Sys. Co., 298 F. 3d 1030 (9th Cir. 2002); Schwarz v. City of Treasure Island, 521 F. Supp. 2d 1307 (2007). The proposed CRC facility will be licensed by DHCS for an adult residential alcohol and drug treatment program.

> (a) As used in this chapter, "alcoholism or drug abuse recovery or treatment facility" or "facility" means any premises, place, or building that provides residential nonmedical services to adults who are recovering from problems related to alcohol, drug, or alcohol and drug misuse or abuse, and who need alcohol, drug, or alcohol and drug recovery treatment or detoxification services.
>
> California Health & Safety § 11834.02.

There should be no dispute that CRC's proposed DHCS licensed Alcohol and Drug Recovery Facility is housing specifically for individuals with disabilities within the fair housing law protections. The federal and state civil rights statutes also extend protections to prospective residents who are currently in recovery and Mr. Joly as a provider of housing for individuals with disabilities. Judy B. v. Borough of Tioga, 889 F. Supp. 792 (M.D. Pa 1995) and Epicenter of Steubenville v. City of Steubenville, 924 F. Supp. 845 (S.D. Ohio 1996).

2. That the accommodation is necessary to afford people with disabilities an equal opportunity to use and enjoy the dwelling:

The requested fair housing reasonable accommodation will provide a high-quality residential treatment opportunity for 20 adults with disabilities who would not otherwise have an opportunity to address their addiction in this type of residential setting, an environment which has consistently proven effective in addressing substance abuse disorders and co-occurring disorders. City of Edmonds v. Wash. State Bldg. Code Council, 18 F.3d 802 (9th Cir. 1994); Oconomowoc Residential Programs, Inc. v. City of Milwaukee, 300 F.3d 775 (7th Cir. 2002). Nationwide, substance abuse is at epidemic proportions and the need for a wide range of treatment and recovery models, including state licensed residential rehabilitation facilities, far outweighs the availability. In California, approximately 2.9 million Californians (9%) age 12 and older had a substance use disorder in 2022. Six percent reported symptoms that met the criteria for abuse of or dependence on alcohol, and about 4% reported meeting criteria for abuse of or dependence on illicit drugs. *Substance Use In California, 2022: Prevalence and Treatment*, California Health Care Foundation, www.chcf.org. In 2019, there were only 1797 licensed residential (nonhospital) facilities statewide with only 717 providing detoxification from multiple drugs. Only 58% of the licensed facilities were providing services to individuals with co-occurring disorders. www.samhsa.org.

The City of Gardena, like other California cities, is facing an ever-increasing challenge in address substance use and abuse. In 2020, Gardena had an estimated 13.6 opioid overdose deaths per 100,000 population. An estimated 14.3% of adults reported frequent mental distress in 2020 and a similar rate of Gardena adults, 14.5%, were estimated to have engaged in binge drinking in 2020. Substance use and abuse cases continue to rise annually. See, Cityhealthdashboard.com. There are few opportunities for licensed alcohol and drug treatment within Gardena despite the pressing need. According to the DHCS most recent data, only one other nearby provider operates a licensed residential treatment facility with detox services within close proximity to Gardena, providing little opportunity for individuals with disabilities in recovery to access treatment within their community, close to family, friends, work and school.

A closer examination of alcoholism rates within the City of Gardena further substantiates the need for residential treatment to address this disease which has far-reaching damaging consequences. The County of Los Angeles Department of Public Health, as part of its study, has compiled city-by-city data on alcohol access and the related consequences of alcohol use and abuse. The City of Gardena has a high number of both on-site (restaurants and bars) and off-site (store sales in sealed containers) alcohol outlets and reports a trend of increasing density of on-site alcohol outlets annually. In 2020, the most recent available data, Gardena had 16.1 on-site alcohol outlets for every 10,000 persons and 7.7 off-site alcohol outlets for every 10,000 persons. Alcohol-related consequences are classified as high for the City of Gardena: 43.4 violent crimes; 4.5 vehicle crashes; 61.8 emergency hospital visits; 48 hospitalizations and 2.7 death per every 10,000 persons within the City. While substance use and abuse and the number of alcohol outlets increases annually, access to residential treatment for substance abuse has fallen far short of the need. The Department of Public Health's recommendations to address alcoholism, with its wide-ranging adverse societal and economic impacts, includes increasing access to substance abuse disorder treatment services. *Alcohol Outlet Density and Consequences by City and Community in Los Angeles County, 2020,* Los Angeles County Department of Public Health (December 2022).

The City's zone code requirement of a conditional use permit for any "group care facility" in an R-3 zone is a deterrent to developing much-needed State licensed residential facilities for those in recovery for substance use and abuse. "It is equally well established that zoning practices that discriminate against disabled individuals can be discriminatory, and therefore violate § 3406 if they contribute to "mak[ing] unavailable or deny[ing]" housing to those persons. Pacific Shores Properties, LLC v. City of Newport Beach, 730 F. 3d 1142 (9th Cir. 2013) (emphasis added.) Likewise, Title II of the Americans With Disabilities Act prohibits local governments from discriminating against individuals with disabilities currently in recovery through zoning.

Bay Area Addiction Research & Treatment, Inc. v. City of Antioch, 179 F.3d 725 (9th Cir.1999). Multi-family apartment buildings within the R-3 zone with potentially significant density are not required to secure approval through a conditional use permit process. In contrast, State licensed facilities with seven or more residents, including CRC's proposed use, are subject to a costly and lengthy public notice and hearing process. Further, as noted earlier, the California's CRD requires use of a fair housing reasonable accommodation procedure when housing for individuals with disabilities is the subject of the request for deviation from a local zoning rule.

Clear Recovery Center has established the need for the proposed Gardena treatment facility for individuals with disabilities currently in recovery and the City should grant the requested fair housing reasonable accommodation. CRC will also confirm that granting the accommodation will not impose any burden on the City.

3. That the requested accommodation will not require a fundamental alteration to zoning laws, rules, policies, practices and procedures:

Once a housing provider establishes protection under the law and that the requested accommodation is necessary, as CRC has confirmed, then the accommodation must be provided unless the local government presents persuasive evidence that doing so would "fundamentally alter" the zoning code or result in an undue financial or administrative burden for the jurisdiction. In the land use and zoning context, "fundamental alteration" means an alteration so far-reaching that it would change the essential zoning scheme of a municipality. The courts have generally held that the granting of a single exception in furtherance of housing for individuals with disabilities does not change the residential character of a neighborhood and therefore does not result in a fundamental alteration in the nature of the program. Smith & Lee Assocs. v. City of Taylor, supra,; Martin v. Constance, 843 F. Supp. 1321 (E.D. Mo. 1994); Oxford House v. Babylon, 819 F. Supp. 1179 (E.D.N.Y. 1993).

The subject parcel, 1921 146th Street, is located in the R-3 multi-family residential which has nearby large-scale apartment complexes and condominiums. CRC's property permits five dwelling units and the development rendering reflects careful consideration of neighborhood scale. While aesthetics is not a permissible factor of consideration in reasonable accommodation determinations, CRC's proposal offers the City a beautiful and unobtrusive development which will update and elevate the current block. The proposed 20-person State licensed residential treatment program is an appropriate and compatible density within the R-3 medium density residential zone and will not fundamentally alter the City's zoning code.

4. That the requested accommodation will not impose an undue financial or administrative burden on the city.

As for "undue financial or administrative burden," Mr. Joly's request, like many others in the land use and zoning context, seeks waiver of a regulation. It costs a jurisdiction nothing to waive a rule, meaning that " . . . the accommodation amounts to nothing more than a request for non-enforcement of a rule." Geibeler v. M&B Assocs., 343 F. 3d 1143 (9th Cir. 2003); Proviso Ass'n v. City of Westchester, 914 F.Supp.1555 (N.D. Ill.1996). See also, Joint Statement of The Department of Housing and Urban Development and The Department of Justice, *State and Local Land Use Laws and Practices and The Application of the Fair Housing Act* (November 2016), pp. 14-15. In this instance, the City of Gardena cannot demonstrate that granting the requested accommodation would result in an undue financial or administrative burden.

While some jurisdictions are concerned that granting a fair housing reasonable accommodation will "open the floodgates," this assertion has been rejected as every request for an accommodation is considered on a case-by-case basis and is fact specific. Schwarz v. City of Treasure Island, 544 F.3d 1201 (11th Cir. 2008). Mr. Joly's proposed treatment facility development offers a creative use of a parcel with compatible dwellings within the R-3 zone.

We look forward to discussions with the City for moving this important development forward, one which will certainly evidence the City of Gardena affirmatively furthering housing opportunities for individuals with disabilities. Mr. Joly and CRC will need to submit to the DHCS for licensure a written confirmation of the City's granting the requested fair housing reasonable accommodation. Thank you in advance for your consideration.

Sincerely,

Kim Savage

Kim Savage
Attorney At Law

Absent: None

10. PLANNING & ENVIRONMENTAL QUALITY COMMISSION ACTION SHEET

10.A NOVEMBER 7, 2023 MEETING

SECOND REQUEST FOR EXTENSION
The Planning Commission considered a second request for an extension of time for Tentative Parcel Map No. 82410, to subdivide a 17,221 square foot property at 15906-15908 S. Manhattan Place creating two separate parcels in the Low-Density Multiple-Family Residential (R-2) zone.
LOCATION: 15906-15908 S. Manhattan Place
APPLICANT: Nancy Hurt Canady

Commission Action: The Planning Commission approved a second request for an extension of time for Tentative Parcel Map No. 82410 (TM #1-18), by a vote of 4-0, granting an additional 12-month extension.

City Council Action: Receive and file, call for review (by way of two votes).

This Item was Received and Filed

10.B NOVEMBER 7, 2023 MEETING

FIRST MODIFICATION TO CONDITIONAL USE PERMIT #13-17
The Planning Commission reviewed a request for a modification to Conditional Use Permit #13-17, to add to an additional prefabricated storage container to the

property and other site changes for a landscaping contractor's yard and determination that the project qualifies for both a Class 3 and Class 11 categorical exemption, pursuant to the California Environmental Quality Act. LOCATION: 1650 W 130th Street (APN: 6102-006-005)
APPLICANT: Antonio Valenzuela (Mariposa Landscapes Inc)

Commission Action: The Planning Commission approved Resolution No. PC 15-23, by a vote of 4-0, approving Modification to CUP #13-17, and directed staff to file a Notice of Exemption.

City Council Action: Receive and File or Call for review (by way of two votes).

This Item was Received and Filed

10.C NOVEMBER 7, 2023 MEETING

ZONE TEXT AMENDMENT #6-23
The Planning Commission considered a recommendation to the City Council on adoption of Ordinance No. 1860 to repeal and readopt Chapter 18.43 of the Gardena Municipal Code relating to Density Bonus Laws, and finding the Ordinance to be exempt pursuant to the common sense exemption of CEQA Guidelines Section 15061(b)(3).

Commission Action: The Planning Commission approved Resolution No. PC 19-23, by a vote of 4-0, recommending that the City Council adopt Ordinance No. 1860.

City Council Action: Receive and File. This item will be brought forth to the Council for review at a future City Council meeting.

This Item was Received and Filed; it was noted that this Item required No Action by the City Council and would be brought back to the Council for review at a future City Council meeting by way of an Ordinance.

11. ORAL COMMUNICATIONS

1) Irvin Samuel, commented on all the recent improvements and many investments being made to the infrastructure of the community and expressed his concerns about bike riders, pedestrian safety, and damaged sidewalks.
2) Pouya Yousef, expressed his concerns with his new auto body business and the recent business closure by the City. He asked for the City Council's assistance and consideration in this matter. Mayor Cerda thanked Mr. Yousef for bringing it to the Council's attention and that she was familiar with the situation and asked that he speak to our Community Development Director.
3) Brandon Smith verbalized his thoughts on the matter of the Gardena Boulevard Revitalization and gave his recommendations. Mayor Cerda thanked him for the information and asked that he stay tuned and that there is still discussion going on and upcoming meetings moving forward.
4) Travis Hernandez, Interim Manager for the Masao W. Sato Library; he came to announce library events for the Gardena Mayme Dear and the Masao W. Sato Libraries.

11.A **PUBLIC COMMENT**

1) City Clerk Mina Semenza, noted for the record two (2) emails that were received from the public and made part of the packet. She stated that the emails will be received and filed and made part of the record.

12. DEPARTMENTAL ITEMS - ADMINISTRATIVE SERVICES – ***No Items***

13. DEPARTMENTAL ITEMS - COMMUNITY DEVELOPMENT

13.A Continuation of Public Hearing Adoption of Fees Relating to Home Sharing.

City Manager Osorio presented the Staff Report.

Mayor Cerda asked if anyone asked to speak on this item and if the Council had any comments or questions. There were no public speakers.

This Item Required No Action by the City Council. This Item will be brought to the City Council at a future meeting in January.

14. DEPARTMENTAL ITEMS - ELECTED & CITY MANAGER'S OFFICES

14.A Discuss and Consider Changing Council Meeting Start Time

City Manager Osorio presented the Staff Report.

Mayor Cerda asked if anyone asked to speak on this item and if the Council had any comments or questions. There were no public speakers.

Questions and comments were made by all Members of the Council, providing staff with direction, that the Council Meeting Start Time would remain the same.

City Manager Osorio and City Attorney Vasquez provided advice and answered all questions.

This Item Required No Action by the City Council.

14.B Discussion of Amending Section 2.04.170 of the Gardena Municipal Code Pertaining to City Council Compensation in Light of Senate Bill 329

City Manager Osorio presented the Staff Report.

Mayor Cerda asked if anyone asked to speak on this item and if the Council had any comments or questions. There were no public speakers.

Questions and comments were made by all Members of the Council regarding the compensation amount for all Members of the Council. Staff was given direction to amend the City Council Compensation section of the Gardena Municipal Code as follows: 1st: $1,600 max for all Council Members; 2nd: An additional $1, 000 for the Mayor only – it received 4 out of 5 votes.

City Manager Osorio and City Attorney Vasquez advised the Council and answered all questions.

This Item Required No Action by the City Council.

14.C ORDINANCE NO. 1859, Amending Section 2.66.090 (Compensation) of Chapter 2.66 (Gardena Economic Business Advisory Commission) and Section 2.68.110 (Compensation) of Chapter 2.68 (Gardena Beautification Commission) of Title 2 (Administration and Personnel) of the Gardena Municipal Code; and RESOLUTION NO. 6646, Amending Resolution No. 4868 by Adding Subsections (E) and (F) to Section 1 of Said Resolution Relating to the Compensation of Members of the Gardena Economic Business Advisory Commission and Gardena Beautification Commission

ORDINANCE NO. 1859

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF GARDENA, CALIFORNIA, AMENDING SECTION 2.66.090 (COMPENSATION) OF CHAPTER 2.66 (GARDENA ECONOMIC BUSINESS ADVISORY COMMISSION) AND SECTION 2.68.110 (COMPENSATION) OF CHAPTER 2.68 (GARDENA BEAUTIFICATION COMMISSION) OF TITLE 2 (ADMINISTRATION AND PERSONNEL) OF THE GARDENA MUNICIPAL CODE

RESOLUTION NO. 6646

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF GARDENA, CALIFORNIA, AMENDING RESOLUTION NO. 4868 BY ADDING SUBSECTIONS (E) AND (F) TO SECTION 1 OF SAID RESOLUTION RELATING TO THE COMPENSATION OF MEMBERS OF THE GARDENA ECONOMIC BUSINESS ADVISORY COMMISSION AND GARDENA BEAUTIFICATION COMMISSION

City Manager Osorio presented the Staff Report.

Mayor Cerda asked if anyone asked to speak on this item and if the Council had any comments or questions. There were no public speakers.

Comments were made by Council Member Francis and Mayor Pro Tem Henderson.

Ordinance No. 1859 was introduced by Mayor Pro Tem Henderson.

It was moved by Mayor Pro Tem Henderson, seconded by Council Member Tanaka, and carried by the following roll call vote to Introduce Ordinance No. 1859 and Adopt Resolution No. 6646:

Ayes: Mayor Pro Tem Henderson, Council Members Tanaka, Francis, and Love, and Mayor Cerda
Noes: None
Absent: None

15. DEPARTMENTAL ITEMS – POLICE – *No Items*

16. DEPARTMENTAL ITEMS - PUBLIC WORKS

16.A Approve a Construction Contract Change Order to Ruiz Concrete and Paving, Inc., in the amount of $11,062.50 for the Traffic Detour and Temporary Pavement for UPRR Improvements Phase of the Artesia Boulevard Arterial Improvement Project from Western Avenue to Vermont Avenue, JN 935

City Manager Osorio presented the Staff Report.

Mayor Cerda asked if anyone asked to speak on this item and if the Council had any comments or questions. There were no public speakers.

Questions and comments were made by Mayor Pro Tem Henderson and Council Member Francis. City Manager Osorio explained why the item was being brought forth.

It was moved by Council Member Love, seconded by Mayor Pro Tem Henderson, and carried by the following roll call vote to Approved Contract Change Order to Ruiz Concrete and Paving, Inc:

Ayes: Council Member Love, Mayor Pro Tem Henderson, Council Members Tanaka and Francis, and Mayor Cerda
Noes: None
Absent: None

17. DEPARTMENTAL ITEMS - RECREATION & HUMAN SERVICES – *No Items*

18. DEPARTMENTAL ITEMS - TRANSPORTATION

18.A Amend Purchase of Zero-Emission Buses to Include Purchase of Zero-Emission Bus Chargers a Revised Total of $9,134,691, and an Overall Program Total of $10,048,161.

City Manager Osorio presented the Staff Report.

Mayor Cerda asked if anyone asked to speak on this item and if the Council had any comments or questions. There were no public speakers.

Questions were asked by Council Member Francis asking if the infrastructure is already in place.

City Manager Osorio explained the details of the contract amendment and answered all questions.

It was moved by Council Member Tanaka, seconded by Council Member Love, and carried by the following roll call vote to Approve Amendment to Purchase:

Ayes: Council Members Tanaka and Love, Mayor Pro Tem Henderson, Council Member Francis, and Mayor Cerda
Noes: None
Absent: None

18.B Approve Purchase of a Two-Year Service Level Agreement with ABB for Electric Bus Chargers for $65,885 and a Project Total of $72,474

City Manager Osorio presented the Staff Report.

Mayor Cerda asked if anyone asked to speak on this item and if the Council had any comments or questions. There were no public speakers.

Questions were asked by Council Member Francis asking if this agreement is automatically renewable.

City Manager Osorio explained the warranty and answered all questions.

It was moved by Council Member Francis, seconded by Council Member Love, and carried by the following roll call vote to Approve Purchase with ABB:

Ayes: Council Members Francis and Love, Mayor Pro Tem Henderson, Council Member Tanaka, and Mayor Cerda
Noes: None
Absent: None

19. COUNCIL ITEMS – *None*

20. COUNCIL DIRECTIVES

Council Member Francis

1) To provide Council with a long-term reporting of what will be done at the Willows Wetland Preserve in working with Vector Control regarding the mosquitoes, short of total eradication of plant species - ***Mayor Cerda seconded it.***

Purpose: Because City Council are stewards of our parklands; we want to make sure it's well maintained.
Reason: El Nino is coming and there will be a lot more mosquitoes.
Benefit: Raise the quality of life and community safety.

Council Member Love

1) Would like to have Director Rigg look into restriping Normandie Avenue (northbound just before getting to Redondo Beach Blvd.) adjacent to Walgreens - ***Council Member Francis seconded it.***

Purpose: When coming up Normandie (northbound) before getting to Redondo Beach Blvd, the lane needs to be widened where the curb curves to the right
Reason: To make it safer and prevent us from getting wheel alignments on our cars.
Benefit: To make it safe; it is only a matter of time before an accident happens.

21. CITY MANAGER REMARKS RE: DIRECTIVES / COUNCIL ITEMS

City Manager Osorio gave a verbal report of information to follow-up on matters that had been directed or requested by the Mayor and Members of Council. Those items were, as follows:

1) Memo regarding the CDBG Eligible Activities that was prepared by Director Tsujiuchi and staff.
2) Memo regarding the advertising of City Job Openings on other platforms.

City Manager Osorio reminded staff that there will be cake after the meeting in celebration of Council Member Love's birthday. He also wished everyone a Happy Thanksgiving.

22. COUNCIL REMARKS

(1) COUNCIL MEMBER LOVE – Since the last Council Meeting, Councilmember Love attended the Senior Health Fair, iHop Grand Opening, Veteran's Day event, the dedication of the gym floor at Rowley Park, and the Holiday Helping Hands Organization. She commented on how Helping Hands was doing phenomenal work by housing the homeless and going above and beyond to ensure the houses are furnished and the kitchens are full. She wanted to take the time to thank all of those who donated for her birthday sneaker ball, the non-perishable food items to put together, as well as 3-5 days of non-perishable ready to eat food that they are going to distribute to the homeless people that are living in the mobile homes on Redondo Beach Boulevard. On Thanksgiving Day, when they go out to distribute these bags, they are also distributing 200 bags of ready to eat foods, that means any food that does not require a can opener, along with 200 plates of Thanksgiving lunch that were being donated by iHop and they will also get a hygiene kit. All of this is going out on Thanksgiving Day so if anybody would like to come out with them and help serve the homeless on that day, they are more than welcome. They are doing a food drive on Saturday, it is a sneaker ball and that means you get dressed up fancy and put on your tennis shoes and your entrance is some more non-perishable food, so anybody that wants to attend, they can find it on social media.

(2) MAYOR PRO TEM HENDERSON – Attended the Senior Health Fair and the 2023 Eddy Awards and congratulated the City of Long Beach for being business friendly and for all the things they are doing over there. He shared with us that Long Beach is now starting something called Silicone Beach trying to attract technology companies. Attended the iHop ribbon cutting, South Bay Work Investment Board Awards, honoring those that passed through their programs and gained gainful employment coming from different circumstances and remarked that it is always great to see stories of triumph. He conducted his Independent Cities Association Executive Board and reminded everyone that they are going to have their conference in Santa Barbara in February. He thanked our Police Department for being available for presentations and the Chief as well. He said he always likes to highlight the great things we are doing in our city in regard to Public Safety, Community Development, Public Works, and everything. So, any time he gets an opportunity to share what we are doing in the City Clerk's Office or City Manager's Office, he really likes to always take time to highlight some of the great things we do because he doesn't think we talk about the things we do well enough with our peer cities. He

attended the SCAG Community Economic Housing Development Committee and our Regional Council Meeting. He is a Regional Council Member for the South Bay City Council of Governments, which represent Gardena, Hawthorne, and Inglewood. They had some robust discussion there about our regional transportation plan 2020, he thinks they will be doing a presentation to the COG on Thursday, so he'll be there for that as well as Councilmember Tanaka. Also did his SCAG District Evaluation Committee and there was a discussion about the viability of SCAG and the membership and which cities and areas get the votes and how do we push initiatives through which is an ongoing discussion. He wanted to thank the city for giving him the opportunity to be the host of the Veterans event. He said it was a great event and always wants to make sure we congratulate and recognize our veterans for their service, both past and present, and always keep them in our hearts and in our minds. Right after that he went to Rowley Park to see the new gym, commented that it looks lovely, and the pop-up event that occurred with Steph Curry's company. He said it was great, a lot of people were there, free food, and it was good to see laughter in the park. He also had another meeting with some elected officials, and they were talking about their plight as elected officials in their communities, and somebody posed the question, "what makes a good, elected official?", which is a subjective question with a myriad of answers. His answer was, he thinks what makes a good, elected official is that you have your vision, and you work with staff to help you bring your vision to life for the community. He told the group that their goal should always be collaborative and work with staff to get some of these things done because they are paid professionals in their subject matter area so, they need to lean on them and if there are things you don't understand, you definitely then work through that process so you can have your vision for what you think the community needs or wants and include the community in some of those processes. Shared that again, everybody can kind of lead differently and bring their thoughts to life differently, but it is good when you start to work with staff and collaborate so they can help bring your vision to life.

(3) COUNCIL MEMBER FRANCIS – Attended Too Cute to Spook event at Nakaoka Community Center, the Gardena Holly Park Homeowner's Association, Greater Los Angeles Vector Control District, Beautification Commission, and the Homeless Workshop that was hosted by Human Services. She said if you did not get a chance to attend the workshop it was excellently presented. She liked one of the activities where they carried you through a scenario where you have a certain amount of money to show how easy it is to become homeless, which she thinks gave a lot of folks food for thought. Attended the Veterans Day program which was very nice and well done. After that, she ran over to Rowley Park to look at the new Tuff Crowd gym floor, and said it is very nice. She commented on how she was telling Senator Bradford earlier, with the initial 3 million dollars that he's dedicated to the Rowley Park restoration, we might have enough money to complete the whole gym, which would be excellent. She met Brandon Jennings, our hometown fellow who grew up here in Gardena, played at Rowley Park, played at that gym, and he's come back to donate that floor to us, and it was great. She told him how much she appreciated how much he does. He remembered us and came back because a lot of folks go off and do what they do, and they never give back, so she appreciates that he did. She congratulated Guiliano's. She was looking though the LA Times on Sunday and saw they were selected as the best deli in the South Bay or in Los Angeles. Urged people to go by and get themselves a sandwich and tell them congratulations. Wants to wish everybody a Happy Thanksgiving and also wants to remind everyone that November is Native American Heritage Month so, if you have the opportunity to tell the true story about the pilgrims and how that went, to let folks know the role that they

played, and that the reason it was a happy Thanksgiving was because of Native Americans. She wished everyone a Happy Thanksgiving.

(4) MAYOR CERDA – Attended one of the rotary meetings and gave a little bit of an update as far as what's going on in the City of Gardena and they were very appreciative to know all the things that we're doing and all the different events that we have. Later that evening, she attended the Gardena PD Fundraiser, for the upcoming Baker to Vegas run, that was over at Islands. She was happy to be able to donate to help our officers go to that. The next day, she was the keynote speaker for the South Bay Association of Realtors breakfast. She spoke to about 75 members and did a 45-minute presentation about Gardena and why as realtors they should point people in the direction of Gardena. For not only how great our homes are, but some of the additional services we offer all our community including kids, seniors, and even our fur babies event. She said they were very taken aback by all the different things that we have for our community members, and she told them when they're showing houses to direct them to Gardena because our homes are still affordable. She said it was great, plus, she did about a 10 minute or so question and answer afterwards which was a lot of fun. Right after that she attended Fire Station 158's barbeque, that they had next door, where they invited them all to celebrate the reopening of Station 158 since their remodel. On the following weekend she attended the Halloween Scare Zone and there were a lot of people there for that. She wanted to thank not only our Parks and Recreation department, but all our departments that participated because, again, all our departments, whether it's Public Works putting up the barriers and lights, maintenance crews, and police officers, it takes everybody to make these events happen. She also wants to thank a lot of the non-profits that were out there, too. She said she knows often times non-profits usually have a separate event and she tells everybody it's great when you can partner with Gardena because you may not have enough people to work your event at your location, and it's great when you can come here, the kids are already here, and just have an additional booth. She saw a few different non-profits out there doing that, so she just wants to thank them for partnering with us because she thinks it made the event that much greater and grander. On the following Sunday she was the guest speaker for the Gardena Holly Park Methodist Church for their Lady Sunday. She did another 40-minute presentation there to the church speaking on Lady and how that related to the City there. She went to Japan with her colleague, Councilmember Tanaka, City Clerk Mina Semenza, as well as 3 of our Directors and she called it a great trip. She remarked on how she's been to Japan before, but by far this was the best trip yet. They did a lot of things this time around, like visiting their new City Hall. She shared that they have something called a courtesy call, where you go to their City Council Chambers and they have 42 City Council members versus our 5 so, you can imagine what their council meetings are like. They participated in the traditional Mayor to Mayor gift exchange, but they also did some things differently this time because they brought some of their Directors with them. For instance, the Police Chief took advantage of going to their Police Department to see how theirs is running, some of the comparisons and things that are done differently there. She pointed out that some of the female training, Kendo, was really interesting to watch as some of the young ladies were practicing and it was really enlightening. They got a chance to go to their Fire Department and they did a couple fire drills for them. They also had a ladder truck that went up 40 meters high and some of our staff got on there. She got a picture of Director Greg Tsujiuchi going way up high and joked that might be a second career for him. She said it was really scary, but a lot of fun.

They also had earthquake module drills, where you go inside of a fire truck, and it shakes. What she didn't realize about Ichikawa is that they have a lot of earthquakes there which she didn't know. She thought wow, they're leaving California earthquake country to go to Ichikawa which is also earthquake country. They visited a school in which the kids participated in singing songs and networking. A lot of them didn't know English, but with the little they did know, they came up and introduced themselves, asked a question and it was just really neat to be able to talk to them. They had anniversary dinners, where they got a chance to speak with their Council Members. They even got a chance to have a karaoke competition. Just like when they were here before at our dinners, we sang, they sang, and it was a lot of fun really getting to know them better. They took them to see a variety of attractions in Ichikawa. They attended a Citizen's Festival, which is similar to our Heritage Festival, and they're preparing for the 90th anniversary of their city being incorporated, which will be next November. Their festival had lots of people and was like a farmers' market. They had the chance to meet officials from one of their universities and one of the Congress members from Japan. They were able to talk to them and learn the difference of how their Congress works versus ours. They did a sign unveiling showing the bond between our sister city and theirs, were lots of performances were done. They also attended where the factory work was made at a little mini shrine. She thinks the best part was, especially with our directors, was kind of comparing the departments, they got a chance to meet with one of their Community Development Directors and they were showing them things that they were doing as it related to what they're looking at new development with and were able to ask them questions. She was glad our City Clerk was able to go as well and experience some of the same things that they've seen over the years with it. She can't reiterate enough how much of the native food they got to try out and that was a lot of fun. They had such a great group there that was open to trying everything and she knows how much Chief Saffell loved trying all the raw fish they ate. She believes there was a tea ceremony that she missed, about learning the proper way to drink tea. She added that there's a great picture of the Chief in a kimono and a sword in his hand. Not only was it a great trip, but she thinks everybody really benefited from it so much. They had a great time with an amazing group, probably the best group she could ever think of to travel with. Their Mayor and City Council, she thinks had a great time also, in fact, they invited them back next year for their 90th anniversary. She said they would do their best to see if they could go back because as mentioned they had a great time with them. The bond that she thinks us celebrating our 60th year now was really amazing. That was their trip, it took them 11 ½ hours to fly up there and 10 ½ hours to fly back. She's still trying to catch up on her sleep, but it was a good time. Immediately coming back from Japan, she attended a Mayor's round table that was hosted by Mayor Rex Richardson in Long Beach, where they talked about a lot of great things like what Mayors are doing for their cities and maybe some suggestions for some of us that aren't doing some of those items there, so they had a lot of good conversation with that. Later that evening she attended the Eddy Awards with Mayor Pro Tem Henderson. As mentioned earlier, the City of Long Beach won so congratulations to them. The next day she attended the iHop Grand Opening, later that night she attended the SBWIB's 28th Annual Award Ceremonies where there were 3 students recognized from Gardena. The first was Eduardo Santiago who completed his adult program, the second was Jose Sanchez who completed his veteran's program, and the third was Ronald Patterson who completed his prison to employment program. She tells everybody that if they want to work there are opportunities out there, the SBWIB and One Stop, they are available to help people get

retrained to go back to work and it's always great to hear these success stories, of not just people finding jobs, but actual careers that they can take care of their families and just have better lives. This past Saturday she attended the Veteran's Day ceremony as well as the Under Armor event with Brian Jennings. As was said earlier, she thinks it's great that he was open to coming back and doing something here in Gardena. She asked him if he would be open to future things like our parades and he said absolutely so she definitely wants to call him for those things. Afterwards, she attended a memorial for one of our residents, Mr. Huey Meador. Some may remember him from our Veteran's Day ceremony, he was in a wheelchair, but he had his full military outfit on and a lot of times you could see where he sewed and mended it up himself. He passed away earlier this year, and they had a really nice ceremony for him. She said it was going to be sad not seeing him at our Veteran's Day events, but she's glad they got a chance to attend his services. She let his family know, because they weren't from Gardena and they didn't realize he was coming to our Veteran's ceremony, how proud we were that he was there. He did get the opportunity to receive our veteran's recognition here and the coin. They had the coin at the memorial service and were really excited to know that we recognized him for that. One last thing she wanted to share was that she was talking to a resident on Monday, and she was mentioning to her that one of our Public Works guys, who handles the trees, had planted a tree in front of her house a couple of years ago that she had requested. She said that Public Works guy comes by just to make sure her tree is still in good condition and that she's taking care of it and just checks up on it. She couldn't tell her how much she appreciates how nice he is and just what a great job he does, and just wanted to let her know, to please share that with him. The Mayor concluded by saying she appreciates that our staff goes above and beyond just to make sure our residents are happy with their trees and making sure they are taken care of as well because that's important for us to keep trees and the landscape of our City looking good.

(5) COUNCILMEMBER TANAKA – Attended the Employee Mixer, did the South Bay Cities Council of Government board meeting, which he said is always interesting because they talk about a lot of stuff within the South Bay. He attended Fire Station 158's reopening and called it a great barbeque. He went to Ichikawa and, as the Mayor said, it was a very great trip and very informative for our staff. They got to see and relate to what we do to what they do. It wasn't just a tour of Ichikawa to see all the sights, it was more of a working trip, which he thought was really important to both of our cities. He was really impressed with the new sign that we have, our new street sign in the park that they unveiled, he said, it's a great looking sign. There were a lot of great things that they did. He attended the South Bay COG Volunteer Recognition Dinner which our Maria Fonseca got recognized for and she is one of the top people that volunteers at the COG for their environmental projects. Attended the iHop ribbon cutting, did the South Bay Workforce Awards Dinner at the Marriott and commented that it's always great to see all the things that we're doing to get people back on their feet working. He attended the Veteran's Day ceremony for us and thanked the City for allowing him to do the invocation. Attended Coffee with a Cop at El Pollo Inka this morning and said it was a great event. Lastly, he attended the State of the City address for El Segundo Mayor Drew Boyles. He then addressed our Chief Mike Saffell and shared with him that El Segundo's Police Department is doing everything that our Chief is doing so we're a great influence on that city right now. It was a great event, lunch was great, and the city is doing a lot of stuff in San Pedro, they are heads above almost everybody in the South Bay area for economics and what they are doing.

23. ANNOUNCEMENT(S)

Mayor Cerda announced:

1) Annual Helping Hands Program, beginning in October through Friday, December 11, 2023. MINA SEMENZA
City Clerk of the City of Gardena and
Ex-officio Clerk of the Council

APPROVED:

_____
Tasha Cerda, Mayor

By:_____
Becky Romero, Deputy City Clerk

MINUTES
Special Meeting of the
Gardena City Council
Thursday, December 7, 2023

The Special Meeting of the Gardena City Council of the City of Gardena, California, was called to order at 5:30 PM on Thursday, December 7, 2023, in the Council Chamber at City Hall 1700 West 162nd Street, Gardena, California; Mayor Tasha Cerda presiding.

1. ROLL CALL

Present: Mayor Tasha Cerda; Mayor Pro Tem Mark E. Henderson; Council Member Rodney G. Tanaka; Council Member Paulette C. Francis and Council Member Wanda Love; Other City Officials and Employees present: City Manager Clint Osorio; City Attorney Carmen Vasquez; City Treasurer Guy H. Mato; City Clerk Mina Semenza; and Deputy City Clerk Becky Romero.

2. SPECIAL MEETING

3. PUBLIC COMMENT - *None*

4. DEPARTMENTAL ITEMS - ELECTED & CITY MANAGER'S OFFICES

4.A Consideration of a Purchase and Sale Agreement for the Acquisition of Property Located at 15016 Daphne Avenue / 15016 Nader Place, Gardena, CA 90249 (APN: 4064-023-024) and Declare California Environmental Quality Act (CEQA) Exemption.

City Manager Osorio presented the Staff Report.

Mayor Cerda asked if anyone asked to speak on this item and if the Council had any comments or questions. There were no public speakers.

Questions and comments were made by Council Member Francis asking for confirmation of the name of the building and its location, the appraisal amount, and if this is a good thing for the City; she then asked City Manager Osorio if he could elaborate more on that.

City Manager Osorio and City Attorney Vasquez answered all of her questions. Community Development Director Greg Tsujiuchi was present and answered her question regarding the appraisal amount.

It was moved by Mayor Cerda, seconded by Council Member Love, and carried by the following roll call vote to Approve the Purchase and Sale Agreement for the acquisition of 15016 Daphne Avenue / 15016 Nader Place, Gardena CA 90249 (APN: 4064-023-024), and direct staff to file the attached Notice of Exemption pursuant to Categorical Exemption Guidelines section 15061(b)(3)-commonsense exemption:

Ayes: **Mayor Cerda, Council Member Love, Mayor Pro Tem Henderson, and Council Members Tanaka and Francis**
Noes: **None**
Absent: **None**

4.B Consideration of a Purchase and Sale Agreement for the Acquisition of Property Located at 1112 W. Gardena Boulevard, Gardena, CA 90247 (APNs: 6111-004-032,033) and Declare California Environmental Quality Act (CEQA) Exemption.

City Manager Osorio presented the Staff Report.

Mayor Cerda asked if anyone asked to speak on this item and if the Council had any comments or questions. There were no public speakers.

Questions and comments were made by Mayor Pro Tem Henderson and Council Member Francis regarding having further discussions if we do acquire the property, what it will be used for; the location and its size, the appraised amount, if there is an alley behind the property, and the entrance to the property.

City Manager Osorio, City Attorney Vasquez, Economic Development Manager Jackie Choi, and Community Development Director Tsujiuchi answered all questions.

It was moved by Council Member Love, seconded by Mayor Pro Tem Henderson, and carried by the following roll call vote to Approve the Purchase and Sale Agreement for the acquisition of two parcels located at 1112 W. Gardena Boulevard, Gardena CA 90247 (APNs: 6111-004-032,033), and direct staff to file the attached Notice of Exemption pursuant to Categorical Exemption Guidelines section 15061(b)(3)-commonsense exemption:

Ayes: Council Member Love, Mayor Pro Tem Henderson, Council Members Tanaka and Francis, and Mayor Cerda
Noes: None
Absent: None

5. ADJOURNMENT

At 5:44p.m., Mayor Cerda adjourned the Gardena City Council Meeting to the Closed Session portion of the City Council Meeting at 7:00 p.m., and the Regular City Council Meeting at 7:30 p.m. on Tuesday, December 12, 2023.

MINA SEMENZA
City Clerk of the City of Gardena and
Ex-officio Clerk of the Council

APPROVED:

_____
Tasha Cerda, Mayor

By:_____
Becky Romero, Deputy City Clerk

Regular PEQC Meeting Notice and Agenda of the Planning and Environmental Quality Commission Tuesday, September 5, 2023

The Regular PEQC Meeting Notice and Agenda of the Planning and Environmental Quality Commission of the City of Gardena, California, was called to order at 7:00 PM on Tuesday, September 5, 2023, in the Council Chambers at 1700 W. 162nd Street, Gardena, California.

PARTICIPATE BEFORE THE MEETING by emailing the Planning Commission at planningcommissioner@cityofgardena.org by 5:00 PM on the day of the meeting and write "Public Comment" in the subject line.

1. **CALL MEETING TO ORDER**
   The meeting was called to order at 7:00 PM

2. **ROLL CALL**
   Present: Chair Deryl Henderson; Vice Chair Stephen P. Langley; Commissioner Steve Sherman; Commissioner Jules Kanhan; Commissioner Ronald Wright-Scherr

3. **PLEDGE OF ALLEGIANCE**
   Chair Deryl Henderson led the pledge of allegiance.

4. **ORAL COMMUNICATIONS**
   No members of the public wished to speak to the Planning Commission under oral communications.

5. **OTHER MATTERS**

6.A **PUBLIC CONVENIENCE OR NECESSITY DETERMINATION FOR CONDITIONAL USE PERMIT #5-22**

For a determination of Public Convenience or Necessity to allow the on -site sale and consumption of beer and wine ancillary to a new karaoke bar business at 15210 Western Avenue, pursuant to a Type-42 On-Sale General license with the California Department of Alcoholic Beverage Control (ABC) and determination that the project is exempt from the provisions of the California Environmental Quality Act (CEQA) Guidelines pursuant to Section 15301 and Section 15061(b)(3).
Project Location: 15210 S Western Ave
Applicant: Kyeang Linda Jo (DBA Sul Bar)
Staff Report PCN for Sul Bar.pdf
Attachment A - ABC Form 245.pdf
Attachment B - Staff Report for CUP #5-22.pdf
Attachment C - Resolution No. PC 16-23 Sul Bar FINAL.pdf

Planning Assistant, Kevin La, presented the staff report to the Planning Commission.

Chair Henderson opened and closed the public comment.

MOTION: It was moved by Commissioner Kanhan and seconded by Commissioner Wright-Scherr to approve Resolution PC No. 16-23, for a determination of Public

Convenience or Necessity to allow the on-site sale and consumption of beer and wine to a new karaoke bar business at 15120 S. Western Ave.

The motion was passed by the following roll call vote:

Ayes: Kanhan, Wright-Scherr, Sherman, Langley, Henderson
Noes:

7. PUBLIC HEARING ITEMS

7.A **CONDITIONAL USE PERMIT #6-23**

A request for a conditional use permit, per section 18.32.030.B of the Gardena Municipal Code, to allow the on-site sale and consumption of beer and wine in an existing restaurant located in the General Commercial (C-3) zone and determination that the project qualifies for a Class 1 categorical exemption as an existing facilities project, and exempt pursuant to Section 15061(b)(3) of the California Environmental Quality Act.

Project Locationn: 1845 W Redondo Beach Blvd.

Applicant: Sun Ja Lee

Staff Report (CUP #6-23).pdf
Resolution (CUP #6-23).pdf
Exhibit A: COA (CUP #6-23).pdf
Exhibit B: Project Plan (CUP #6-23).pdf

Mr. La presented the Conditional Use Permit #6-23 to the Planning Commission.

Chair Henderson opened the public hearing.

The applicant's representative, Steve Kim, spoke about the business and the reasons the applicant requested a Conditional Use Permit.

Vice Chair Langley inquired about any difficulties in parking at the plaza.

Mr. Kim explained that there are no issues with parking for patrons visiting Crown Plaza.

Commissioner Kanhan asked if there are other establishments that consume alcohol on the property.

Mr. La responded that there are two restaurants with a CUP for the sale of beer and wine.

Chair Henderson closed the public hearing.

MOTION: It was moved by Commissioner Wright-Scherr and seconded by Chair Henderson to approve Resolution PC No. 14-23, to make the necessary findings and approve Conditional Use Permit #6-23 subject to the attached conditions of approval and direct staff to file a notice of exemption.

The motion was passed by the following roll call vote:

Ayes: Wright-Scherr, Henderson, Sherman, Kanhan, Langley
Noes:

7.B **MODIFICATION OF CONDITIONAL USE PERMIT #13-17**

Continuation to a later Planning Commission meeting.
Project Location: 1650 W 130th St. Applicant: Antonio Valenzuela
Continuation Memo CUP #7-23

Mr. La explained to the Planning Commission that the modification of Conditional Use Permit #13-17 has been continued to a later Planning Commission meeting date and will be re-noticed to the public.

7.C **ZONE TEXT AMENDMENT #4-23**

Reconsideration of an Ordinance Amending Chapter 18.13 of the Gardena Municipal Code relating to Accessory Dwelling Units and making a determination that the Ordinance is exempt from CEQA pursuant to the Public Resources Code Section 21080.17. The Planning Commission is being asked to reconsider additional changes to the draft Ordinance and to make a recommendation to the City Council.
Project Location: Citywide
Staff Report (ADU Recondsideration).pdf
Attachment A - Resolution PC No. 17-23 (ADUs).pdf
Draft Ordinance No. 1856 (ADU2-).pdf
Attachment B - Public Hearing Notice.pdf
Attachment C - Previous Public Comment.pdf

Community Development Director, Greg Tsujiuchi, presented the Zone Text Amendment to the Planning Commission.

Assistant City Attorney, Lisa Kranitz, elaborated that these are mandatory provisions that the State imposed for local governments to follow.

Chair Henderson opened the public hearing.

Vice Chair Langley asked what would happen if the Planning Commission denied this Zone Text Amendment.

Ms. Kranitz responded that the city would default to the State's ADU interpretations and development standards rather than what is proposed in this Zone Text Amendment.

Commissioner Wright-Scherr asked if there were more restrictions on SB9 developments comparatively.

Ms. Kranitz provided examples of mandatory ADUs compared to SB9 developments.

Chair Henderson inquired how many ADU permits had been received within the past year.

Mr. La answered that there have been around 20-30 ADU permits he plan checked in the time frame.

Chair Henderson asked why the Planning Commission must approve this Zone Text Amendment.

Ms. Kranitz explained that the State law applies no matter what as there are already provisions by the State for mandatory ADU approvals.

Vice Chair Langley wanted to confirm if this Zone Text Amendment gives the city more governance than if it was not adopted.

Ms. Kranitz confirmed that would be the case.

Chair Henderson closed the public hearing.

MOTION: It was moved by Vice Chair Langley and seconded by Commissioner Wright-Scherr to approve Resolution PC No. 17-23, to adopt Resolution PC No. 17-23, recommending that the City Council adopt Ordinance No. 1856, amending Chapter 18.13 of the Gardena Municipal Code relating to Accessory Dwelling Units, with input on the size of ADUs, and made a determination that the Ordinance is exempt from CEQA pursuant to the Public Resources Code Section 21.080.17.

The motion was passed by the following roll call vote:

Ayes: Langley, Wright-Scherr, Sherman, Kanhan, Henderson
Noes:

8. **COMMUNITY DEVELOPMENT DIRECTOR'S REPORT**

Mr. Tsujiuchi reminded the Planning Commission of upcoming city events: Keep Gardena Beautiful Day on September 16th from 8 AM to 12 PM and registration started on September 1st, Employee Recognition Day on September 21st from 12 PM to 2 PM, with the theme of "All-Star Cast," and the Annual Food, Wine, and Brew, on September 23rd from 12 PM to 7 PM.

9. **PLANNING & ENVIRONMENTAL QUALITY COMMISSIONERS' REPORTS**

No commissioners had items to report.

10. **ADJOURNMENT**

Chair Henderson adjourned the meeting at 7:52 PM.

Respectfully submitted,

GREG TSUJIUCHI, SECRETARY
Planning and Environmental Quality Commission

DERYL HENDERSON, CHAIR
Planning and Environmental Quality Commission

Regular PEQC Meeting Notice and Agenda of the Planning and Environmental Quality Commission Tuesday, November 7, 2023

The Regular PEQC Meeting Notice and Agenda of the Planning and Environmental Quality Commission of the City of Gardena, California, was called to order at 7:00 PM on Tuesday, November 7, 2023, in the Council Chambers at 1700 W. 162nd Street, Gardena, California.

PARTICIPATE BEFORE THE MEETING by emailing the Planning Commission at planningcommissioner@cityofgardena.org by 5:00 PM on the day of the meeting and write "Public Comment" in the subject line.

1. **CALL MEETING TO ORDER**
   The meeting was called to order at 7:00 PM

2. **PLEDGE OF ALLEGIANCE**
   Commissioner Sherman led the pledge of allegiance.

3. **ROLL CALL**
   Present: Vice Chair Stephen P. Langley; Commissioner Steve Sherman; Commissioner Jules Kanhan; Commissioner Ronald Wright-Scherr

   Absent: Chair Deryl Henderson

4. **APPROVAL OF MINUTES**

   4.A August 15, 2023 MEETING
   23_08_15 PCMIN.pdf

   A motion was made by Commissioner Wright-Scherr and seconded by Commissioner Sherman to approve the minutes of the meeting on August 15, 2023.

   The motion was passed by the following roll call vote:
   Ayes: Wright-Scherr, Sherman, Kanhan, Langley
   Noes:

5. **ORAL COMMUNICATIONS**
   No members of the public wished to speak to the Planning Commission at this time.

6. **OTHER MATTERS**

   6.A **SECOND REQUEST FOR EXTENSION**
   Second request extension of time for Tentative Parcel Map No. 82410, to subdivide a 17,221 square foot property at 15906-15908 S. Manhattan Place creating two separate parcels in the Low-Density Multiple-Family Residential (R-2) zone
   LOCATION: 15906-15908 S. Manhattan Place
   APPLICANT: Nancy Hurt Canady
   Staff Report (15906-15908 Manhattan).pdf
   Attachment A - Statement of Reasons for Extension of Time.pdf Attachment B - Tentative Parcel Map No. 82410.pdf

Senior Planner, Amanda Acuna, presented the second request for extension to the Planning Commission.

Vice Chair Langley opened the public comment.

Commissioner Kanhan wished to be reminded about the reasoning for the second extension.

The applicant's representative, Carl Remert, stated that the reason for the second request for extension is because of financial constraints that have lasted since COVID.

Vice Chair Langley closed the public comment.

MOTION: It was moved by Commissioner Kanhan and seconded by Commissioner Wright-Scherr to approve and grant the second request for extension of Tentative Parcel Map No. 82410 at 15906-15908 S. Manhattan Pl.

The motion was passed by the following roll call vote:

Ayes: Kanhan, Wright-Scherr, Sherman, Langley
Noes:

7. PUBLIC HEARING ITEMS

7.A FIRST MODIFICATION TO CONDITIONAL USE PERMIT #13-17

A request for a modification to Conditional Use Permit #13-17, to add an additional prefabricated storage container to the property and other site changes for a landscaping contractor's yard and determination that the project qualifies for both a Class 3 (new construction/conversion of small structures) and Class 11 (accessory structures) categorical exemption, pursuant to the California Environmental Quality Act
LOCATION: 1650 W 130th Street (APN: 6102-006-005)
APPLICANT: Antonio Valenzuela (Mariposa Landscapes Inc)
Staff Report - Landscape Contractor (Mod to CUP #13-17).pdf
Attachment A - Resolution No. PC 15-23.pdf
Exhibit A - Modified Conditions of Approval (Mod to CUP #13-17).pdf
Exhibit B - Project Plans.pdf
Attachment B - Original Staff Report.pdf

Planning Assistant, Kevin La, presented the staff report to the Planning Commission.

Vice Chair Langley opened and public hearing.

Vice Chair Langley asked if Golden State Water had been notified about the gravel area and if water would percolate into the drinking water.

Ms. Acuna answered that the original permits were reviewed by Building and Safety but expired and are required to be resubmitted and reviewed again through plan check, which includes a review of groundwater exposure.

The applicant, Antonio Valenzuela, stated that the permits expired because of COVID. Mr. Valenzuela will work with Building and Safety to continue with the plan check review.

Vice Chair Langley closed the public hearing.

MOTION: It was moved by Commissioner Wright-Scherr and seconded by Commissioner Kanhan to approve a request for modification to Conditional Use Permit #13-17 to the attached conditions of approval and direct staff to file a notice of exemption.

The motion was passed by the following roll call vote:

Ayes: Wright-Scherr, Kanhan, Sherman, Langley
Noes:

7.B **ZONE TEXT AMENDMENT #6-23**

Recommendation to the City Council on adoption of Ordinance No. 1860 to repeal and readopt Chapter 18.43 of the Gardena Municipal Code relating to Density Bonus Laws, and finding the Ordinance to be exempt pursuant to the common sense exemption of CEQA Guidelines Section 15061(b)(3)

Staff Report - Density Bonus Ordinance.pdf
Attachment A - Resolution PC No. 19-23 (Density Bonus).pdf
Exhibit A - Draft Ordinance No. 1860.pdf
Attachment B - Public Hearing Notice.pdf

Ms. Acuna presented the Zone Text Amendment to the Planning Commission.

Vice Chair Langley opened and public hearing.

Commissioner Wright-Scherr asked if the new state law allows the city to have a say in what the developer can propose including in height and parking.

Ms. Acuna stated that if a property were zoned for a certain level of density, they could increase the density based on the percentage of affordable housing. If there are certain development standards in the city's codes that would physically preclude that development, then the city would have to allow for that increase in height. The state law sets aside its own parking regulations for density bonus projects and the new residential zoning districts the city had adopted, through the new housing overlays, are similar in standards, but the state's law sets the parking requirements and there will be less parking required typically.

Assistant City Attorney, Rosemary Koo, further added that the purpose of the Zone Text Amendment is to make sure that every time the State comes out with new laws, for density and affordability, the city will be in compliance by reference to the State law.

Community Development Director, Greg Tsujiuchi, stated that this is not unusual to adopt by reference as the city's building codes are adopted by reference as well.

Commissioner Kanhan asked who decides the types of units that are provided for low-income and if there is a discrepancy between at-market units compared to affordable units.

Ms. Acuna responded that the State law requires the affordable housing units to have the same quality as the rest of the units in the development while still meeting the minimum requirements.

Vice Chair Langley asked if the city could put a requirement into a project to make sure that the affordable units are of the same quality and size as the other at-market units.

Ms. Acuna responded that there have been more density bonus projects proposed during this time and would like to see more mixed types of units between studio and multi-bedroom units. Staff pursues to have those mixed types of units to allow for one affordable unit to be able to move up the bedroom types based on the income. The density bonus projects will still come before the Planning Commission for project consideration.

Commissioner Wright-Scherr inquired if the city could enforce the different types of mixed units for affordable housing by state guidelines.

Ms. Koo responded that the density bonus project, by state law, is to allow for negotiation back and forth between the developer and the city. There is a lot of back and forth that is built into the statute and as a whole, the state law, requires that the affordable units cannot be different and to make them comparable and in proportion to the at-market units.

Vice Chair Langley replied that if the city has the right to turn down a project if it is not balanced enough.

Ms. Koo answered that the density bonus project cannot be denied because if a housing project is a by right use, the discretion to deny the project is taken away. However, there are concessions and waivers that can be negotiated between the city and developers.

Mr. Tsujiuchi mentioned that a lot of current projects are for apartment housing. Even then, there are at most two-bedroom units proposed at this current time.

Vice Chair Langley and Commissioner Wright-Scherr want to clarity if the projects going for density bonuses will not discriminate on affordable housing at the location or size of the units.

Ms. Acuna answered that per the Gardena Municipal Code section 18.43.040.G, the city adopted similar language required that the affordable unit shall be similar to market rate units in regard to interior finish for amenities and all have access in the same way as the market rate unit.

Ms. Koo mentioned that the agenized item is to make sure that we have a code that is in line with the state density bonus law and does not affect the section that Ms. Acuna had brought up.

Vice Chair Langley closed the public hearing.

MOTION: It was moved by Commissioner Wright-Scherr and seconded by Vice Chair Langley to adopt Resolution PC no. 19-23, recommending that the City Council adopt Ordinance 1860, to repeal and readopt Chapter 18.43 of the Gardena Municipal Code relating to Density Bonus Laws, and finding the Ordinance to be exempt pursuant to the common sense exemption of CEQA Guidelines Section 15061(b)(3).

The motion was passed by the following roll call vote:

Ayes: Wright-Scherr, Langley, Kanhan, Sherman
Noes:

8. **COMMUNITY DEVELOPMENT DIRECTOR'S REPORT**

Mr. Tsujiuchi announced the following upcoming events: Homeless Workshop on November 8th at 6:00 PM, at the Nakaoka Center, Community Workshop on November 13th from 6:00 PM to 8:00 PM, at 14600 Western Ave, for a new residential apartment building along Western Ave., and Veterans Day ceremony on November 11th in front of City Hall.

Commissioner Wright-Scherr inquired if the city has services to help homeless people if he sees them.

Mr. La responded that the Gardena Police Department and Recreation and Human Services Department have a homeless taskforce that can help assess and provide resources to the individual in need.

9. **PLANNING & ENVIORNMENTAL QUALITY COMMISSIONERS' REPORTS**

No commissioners had items to report.

10. **ADJOURNMENT**

Chair Henderson adjourned the meeting at 8:07 PM.

Respectfully submitted,

GREG TSUJIUCHI, SECRETARY
Planning and Environmental Quality Commission

DERYL HENDERSON, CHAIR
Planning and Environmental Quality Commission

Important Disclosures

Chandler Asset Management, Inc. (“Chandler”) is an SEC registered investment adviser. For additional information about our firm, please see our current disclosures (Form ADV). To obtain a copy of our current disclosures, you may contact your client service representative by calling the number on the front of this statement or you may visit our website at www.chandlerasset.com.

Information contained in this monthly statement is confidential and is provided for informational purposes only and should not be construed as specific investment or legal advice. The information contained herein was obtained from sources believed to be reliable as of the date of this statement, but may become outdated or superseded at any time without notice.

Custody: Your qualified custodian bank maintains control of all assets reflected in this statement and we urge you to compare this statement to the one you receive from your qualified custodian. Chandler does not have any authority to withdraw or deposit funds from/to the custodian account.

Valuation: Prices are provided by IDC, an independent pricing source. In the event IDC does not provide a price or if the price provided is not reflective of fair market value, Chandler will obtain pricing from an alternative approved third party pricing source in accordance with our written valuation policy and procedures. Our valuation procedures are also disclosed in Item 5 of our Form ADV Part 2A.

Performance: Performance results are presented gross-of-advisory fees and represent the client’s Total Return. The deduction of advisory fees lowers performance results. These results include the reinvestment of dividends and other earnings. Past performance may not be indicative of future results. Therefore, clients should not assume that future performance of any specific investment or investment strategy will be profitable or equal to past performance levels. All investment strategies have the potential for profit or loss. Economic factors, market conditions or changes in investment strategies, contributions or withdrawals may materially alter the performance and results of your portfolio.

Source ice Data Indices, LLC ("ICE"), used with permission. ICE PERMITS USE OF THE ICE INDICES AND RELATED DATA ON AN "AS IS" BASIS; ICE, ITS AFFILIATES AND THEIR RESPECTIVE THIRD PARTY SUPPLIERS DISCLAIM ANY AND ALL WARRANTIES AND REPRESENTATIONS, EXPRESS AND/OR IMPLIED, INCLUDING ANY WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR USE, INCLUDING THE INDICES, INDEX DATA AND ANY DATA INCLUDED IN, RELATED TO, OR DERIVED THEREFROM. NEITHER ICE DATA, ITS AFFILIATES OR THEIR RESPECTIVE THIRD PARTY PROVIDERS GUARANTEE THE QUALITY, ADEQUACY, ACCURACY, TIMELINESS OR COMPLETENESS OF THE INDICES OR THE INDEX DATA OR ANY COMPONENT THEREOF, AND THE INDICES AND INDEX DATA AND ALL COMPONENTS THEREOF ARE PROVIDED ON AN "AS IS" BASIS AND LICENSEE'S USE IS AT LICENSEE'S OWN RISK. ICE DATA, ITS AFFILIATES AND THEIR RESPECTIVE THIRD PARTY DO NOT SPONSOR, ENDORSE, OR RECOMMEND CHANDLER, OR ANY OF ITS PRODUCTS OR SERVICES.

Index returns assume reinvestment of all distributions. Historical performance results for investment indexes generally do not reflect the deduction of transaction and/or custodial charges or the deduction of an investment management fee, the incurrence of which would have the effect of decreasing historical performance results. It is not possible to invest directly in an index.

Ratings: Ratings information have been provided by Moody’s, S&P and Fitch through data feeds we believe to be reliable as of the date of this statement, however we cannot guarantee its accuracy.

Security level ratings for U.S. Agency issued mortgage-backed securities (“MBS”) reflect the issuer rating because the securities themselves are not rated. The issuing U.S. Agency guarantees the full and timely payment of both principal and interest and carries a AA+/Aaa/AAA by S&P, Moody’s and Fitch respectively.

CITY of GARDENA

Report No. P-2023-19

TO: THE HONORABLE MAYOR AND CITY COUNCIL

SUBJECT: PERSONNEL REPORT

1. Request City Council approval to revise the City's Classification and Compensation Plan to reflect contractual cost-of-living increase previously approved through the Gardena Management Employees Organization (GMEO) Memorandum of Understanding (MOU), effective the first pay period in July 2023, for the City Manager. *Plan Attached; Attachment 1*

RECREATION INSTRUCTOR

Job Summary

Recreation Instructors are responsible for planning, organizing, and conducting instructional lessons for classes in assigned recreation programs presented to adults and youth. Instructors for these programs teach or instruct a variety of activities which may include homework help, active games, music, dance, arts and crafts, fitness, cooking, and various other recreational, educational, and cultural enrichment areas. Develop course objectives and class plans, scheduling class times, obtaining necessary supplies, equipment, and resources. A high level of independent judgement is necessary.

Instructors include following areas, but we remain ***open to suggestions and presentations*** of other types of classes:

- Culinary
- Dance
- Fitness
- Floral Design
- Cake Decorating
- Arts & Crafts

Distinguishing Characteristics

Part-time, seasonal position conducting instructional lessons. The Recreation Instructor is a broad classification and encompasses various assignments with department flexibility to assign employees based on the meeting of wage qualifiers. Employees will be assigned utilizing a formula which incorporates the following characteristics:

Wage Qualifiers

An individual assigned to Recreation Instructor will be reviewed and placed according to the meeting of the below qualifiers. It is important to note the Recreation Instructor is subject to regular review upon initial placement and each time the same class/program is proposed/submitted/held, a new/revised class/program is submitted/held and/or to ensure the individual is meeting the noted qualifiers and placement to wage is or remains appropriate. Each class is looked at individually to determine a rate of pay, using a formula that is based on the following:

- Determined number of hours an instructor will need to work in a given class/program session;
- Determined charge/rate for class/program and use of that rate to assist in determining the instructor's rate of pay;
- The facility capacity to meet the minimum and maximum class/program size standards;
- Minimum and maximum required to teach a successful class/program;
- Minimum and maximum numbers to cover cost of said instructor's minimum rate; and
- Job performance will be evaluated and increased/decreased based on the instructor's evaluation and the number of participants enrolled.

Representative Duties

- Develops, plans, schedules, and conducts recreation classes in the specialized area in connection with the fee instruction program being offered to the public. Secures materials and equipment used for each class;
- Determines appropriate class sill and age levels necessary for participants to be successful and engaged to educate the participants;
- Prepares and conducts class instructional activities or general camp activities, prepares a course outline or schedule and a list of necessary course materials for class participants.

- Enforces site, classroom and department policies and rules;
- Assures proper maintenance of recreational facilities and equipment to ensure a safe and sanitary environment and notifies immediate supervisor of any problems and/or concerns.
- Sets up and cleans up facilities;
- Receives, stores and issues class equipment and supplies as needed;
- Monitors class participants throughout instruction, ensures adherence to safety practices and to department policies and procedures. Follow appropriate emergency procedures to protect the well-being of the participants;
- Responds to and resolves participant complaints and notifies supervisor when necessary;
- Completes required forms and activity records and reports;
- Communicates with parents of school age participants, as needed;
- Obtains and evaluates feedback regarding the effectiveness of the instructional process and the success of the program activity;
- Maintains a positive relationship with staff, co-workers, participants, and spectators;
- Provides excellent and proficient customer service to both internal and external customers;
- Communicates and acts in a professional manner with the public, co-workers, and work contacts;
- Regular attendance is an essential function of this job to ensure continuity;
- May be required to work early mornings, evenings, weekends and holidays as needed;
- Performs all work duties and activities in accordance with City policies and procedures; follows safety policies and practices, works in a safe manner, and reports unsafe activity and conditions;
- Performs related duties as assigned.

Organizational Responsibilities

This position reports directly to the Recreation Coordinator or Recreation Supervisor and general supervision of the Recreation and Human Services Director.

Incumbents will be assigned supervisory responsibilities over class participants.

QUALIFICATIONS GUIDE

Education and Experience

High school diploma or G.E.D. equivalent AND three (3) years' experience as a teacher, tutor, counselor, or coach in an organized recreational program or related field at the level of recreation assistant or recreation volunteer; OR a combination of the appropriate type and level of education and experience in the program area assigned.

Physical Demands and Working Conditions

Work is performed in an office environment and at indoor and outdoor facilities; Incumbents may be exposed to inclement weather conditions and loud noise; Duties require the ability to speak, hear, touch, and see; Acute hearing is required in providing customer service to public and/or assistance in facilities, classroom, or outdoors; This position requires near and far vision for reading written documents and in observation of participants during activities; Position requires incumbent to work and/or walk on various surfaces including slippery or uneven surfaces; Also required is the ability to exert a small amount of physical effort in sedentary to light work involving moving from one area to another; occasionally bending, twisting, turning, stooping, crouching, kneeling, reaching, grasping, pushing, pulling, and making repetitive hand movement in the performance of daily duties; May involve sitting or standing for prolonged periods of time; Incumbents may be required to lift, carry and/or push materials weighing 50 pounds or more; Requires sufficient hand/eye coordination to perform semi-skilled repetitive movements, such as typing on a keyboard, filing, data entry and/or use of a personal computer or other office equipment and supplies; Finger dexterity is needed to access, enter, and

retrieve data using a computer keyboard, typewriter, or calculator; Must have the ability to operate a motor vehicle to travel to different sites and locations. Available to work varied shifts, including evenings, early mornings, weekends, and holidays.

Gardena City Council Meeting

AGENDA REPORT SUMMARY

Agenda Item No. 8.H
Section: CONSENT CALENDAR
Meeting Date: December 12, 2023

TO: THE HONORABLE MAYOR AND MEMBERS OF THE GARDENA CITY COUNCIL

AGENDA TITLE: SECOND READING AND ADOPTION OF ORDINANCE NO. 1859 , Amending Section 2.66.090 (Compensation) of Chapter 2.66 (Gardena Economic Business Advisory Commission) and Section 2.68.110 (Compensation) of Chapter 2.68 (Gardena Beautification Commission) of Title 2 (Administration and Personnel) of the Gardena Municipal Code

CONTACT: CITY MANAGER

COUNCIL ACTION REQUIRED:

RECOMMENDATION AND STAFF SUMMARY:

During the October 10, 2023, City Council meeting, a directive was given to staff by Councilwoman Francis and seconded by Councilmember Love for staff to prepare an Ordinance to allow for the Gardena Economic Business Advisory Commission (GEBAC) and Gardena Beautification Commission to receive compensation similar to other City Commissions.

Currently, members of the Human Services, Recreation and Parks, and Senior Citizens Commissions as well as Rent Mediation Board are compensated $50.00 per month, if in attendance at their regularly scheduled monthly meeting. Members of the Youth Commission are compensated $25.00 per month if in attendance at their regularly scheduled monthly meeting and members of the Planning Commission are compensated $50.00 per regularly scheduled meeting attended. Members of all the previously mentioned Commissions/Boards may also be reimbursed for any reasonable and necessary expenses incurred by them in their performance of Commission duties, provided such expenses have been authorized in the City Council's adopted budget.

As it pertains to GEBAC, proposed Ordinance No. 1859 amends the Gardena Municipal Code to allow for members of GEBAC to be compensated in an amount established by resolution of the council. Resolution No. 6646 would establish that members of GEBAC are compensated $50.00 per month, if in attendance at their regularly scheduled monthly meeting. GEBAC members may also be reimbursed for any reasonable and necessary expenses incurred by them in their performance of Commission duties, provided such expenses have been authorized in the City Council's adopted budget.

With regards to Gardena Beautification Commission, proposed Ordinance No. 1859 amends the Gardena Municipal Code to allow for members of Gardena Beautification Commission, with the exception of any member of the Gardena City Council, to be compensated in an amount established by resolution of the council. Pursuant to Government Code Section 36516 unless specifically authorized by state law, a city council may not enact an ordinance to pay itself a salary for serving on other boards and commissions. Because there is no state law that allows for the Gardena City Council to pay itself to serve on the Gardena Beautification Commission, no compensation may be received by any councilmember that is a member of the Gardena Beautification Commission. Resolution No. 6646 would establish that members of the Gardena Beautification Commission are compensated $50.00 per month, if in attendance at their regularly scheduled monthly meeting, with the exception of any member of the Gardena City Council. Gardena Beautification Commission members may also be reimbursed for any reasonable and necessary expenses incurred by them in their performance of Commission duties, provided such expenses have been authorized in the City Council's adopted budget.

Ordinance No. 1859 was introduced at the November 14, 2023, City Council meeting by Mayor Pro Tem Henderson.

Staff respectfully recommends that the City Council Adopt Ordinance No. 1859.

FINANCIAL IMPACT/COST:

Gardena Economic Business Advisory Commission: $3,300 per year from General Fund.
Gardena Beautification Commission: $4,800 per year from General Fund.

ORDINANCE NO. 1859

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF GARDENA, CALIFORNIA, AMENDING SECTION 2.66.090 (COMPENSATION) OF CHAPTER 2.66 (GARDENA ECONOMIC BUSINESS ADVISORY COMMISSION) AND SECTION 2.68.110 (COMPENSATION) OF CHAPTER 2.68 (GARDENA BEAUTIFICATION COMMISSION) OF TITLE 2 (ADMINISTRATION AND PERSONNEL) OF THE GARDENA MUNICIPAL CODE

THE CITY COUNCIL OF THE CITY OF GARDENA, CALIFORNIA, DOES HEREBY ORDAIN, AS FOLLOWS:

SECTION 1. Section 2.66.90 of the Gardena Municipal Code is amended to read, as follows:

2.66.090 Compensation.

The members of the Gardena Economic Business Advisory Commission shall be compensated in an amount established by resolution of the council. ~~Members of the GEBAC shall receive no compensation. However, the members shall be reimbursed for any expense incurred in the performance of their duties.~~

SECTION 2. Section 2.68.110 of the Gardena Municipal Code is amended to read, as follows:

2.68.110 Compensation.

The members of the Gardena Beautification Commission shall be compensated in an amount established by resolution of the council; however, no member of the Gardena City Council shall be compensated for serving on the Gardena Beautification Commission. ~~Members of the Gardena beautification commission shall receive no compensation. However, the members shall be reimbursed for any expense incurred in the performance of their duties.~~

SECTION 3. Severability. If any section, subsection, subdivision, paragraph, sentence, clause or phrase of this ordinance, or any part thereof is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portion of this ordinance or any part thereof. The City Council hereby declares that it would have passed each section, subsection, subdivision, paragraph, sentence, clause or phrase thereof, irrespective of the fact that any one or more section, subsection, subdivision, paragraph, sentence, clause or phrase be declared unconstitutional.

DocuSign Envelope ID: B8EBFA9E-93AC-482C-AB81-25A8AD455541

SECTION 4. Certification. The City Clerk shall certify the passage of this ordinance and shall cause the same to be entered in the book of original ordinances of said City; shall make a minute passage and adoption thereof in the records of the meeting at which time the same is passed and adopted; and shall, within fifteen (15) days after the passage and adoption thereof, cause the same to be published as required by law, in a publication of general circulation.

SECTION 5. Effective Date. This ordinance shall not become effective or be in force until thirty (30) days from and after the date of its adoption.

Passed, approved, and adopted this_____day of _____, 2023.

AGENDA REPORT SUMMARY

Agenda Item No. 8.I
Section: CONSENT CALENDAR
Meeting Date: December 12, 2023

TO: THE HONORABLE MAYOR AND MEMBERS OF THE GARDENA CITY COUNCIL

AGENDA TITLE: Acceptance and Notice of Completion for the Traffic Detour and Temporary Pavement for UPRR Improvements Phase of the Artesia Boulevard Arterial Improvement Project from Western Avenue to Vermont Avenue, JN 935.
CONTACT: PUBLIC WORKS

COUNCIL ACTION REQUIRED:

RECOMMENDATION AND STAFF SUMMARY:

Staff respectfully recommends that the City Council accept the work performed by Ruiz Concrete and Paving, Inc. (RCPI) and order the recordation of the Notice of Completion for the Traffic Detour and Temporary Pavement for UPRR Improvements Phase of the Artesia Boulevard Arterial Improvement Project from Western Avenue to Vermont Avenue, JN 935.

This project implemented a traffic detour plan during the Railroad rehabilitation work and paved the adjacent roadway to allow for a transition to the modified railroad tracks.

Sufficient funds to complete this project were appropriated by the Council during the Fiscal Year 2022-2023 Capital Improvement Budget.

FINANCIAL IMPACT/COST:
Amount of Expense: $191,162.50

Source of Funds: Project Budget: $2,523,000 (Measure R Highway) and $1,650,000 (Prop C).

Gardena City Council Meeting

AGENDA REPORT SUMMARY

Agenda Item No. 8.J
Section: CONSENT CALENDAR
Meeting Date: December 12, 2023

TO: THE HONORABLE MAYOR AND MEMBERS OF THE GARDENA CITY COUNCIL

AGENDA TITLE: Approve Purchase of Mobile Bus Chargers for $157,914 and Authorize a Program Total of $173,705
CONTACT: TRANSPORTATION

COUNCIL ACTION REQUIRED:

RECOMMENDATION AND STAFF SUMMARY:
In March of 2022, City Council approved the purchase of seven zero-emission, battery electric buses which are scheduled to arrive in early 2024. In November 2023, Council also approved the purchase of seven depot chargers which will be a part of the overall electric charging, solar and battery storage project that is currently in the design phase.

In order to provide temporary charging while the charging infrastructure is being constructed, GTrans wishes to purchase three mobile chargers. These mobile chargers will also be used in our maintenance bays to charge electric buses and vehicles as needed during routine repairs or preventative maintenance, as well as for a general backup. GTrans has selected the Heliox 50kW charger as the best option for our operation. This particular unit is used by a multitude of transit agencies across the US, including at LA Metro. The chargers can be used for our buses, vans and our electric service vehicles. While not intended to serve as a replacement for depot fast charging for buses in regular service, these mobile chargers will allow us to immediately deploy and rotate our new electric buses in service until the charging station is ready for operation, in early 2025.

These Buy America compliant Heliox 50kW chargers are available through the State of Virginia Cooperative from Gillig, at a cost of $47,200 per charger for a total of $157,914, inclusive of freight and sales tax. The mobile chargers will come with CCS-1 connectors and a two-year warranty. The FTA encourages grant recipients to procure goods and services jointly with other recipients or participate in purchasing cooperatives to obtain better pricing through volume purchases. The chargers are available now, and will be ready to use with the electric buses arriving in early 2024. GTrans also wishes to include a 10 percent contingency, or $15,791, to account for any unforeseen changes, only to be approved in advance by GTrans staff.

Therefore staff recommends that Council authorize GTrans to purchase Heliox 50kW

chargers, related components, two-year warranty from Gillig for a total $157,914, and a program total of $173,705 which includes a 10 percent contingency. Staff also recommends authorizing the City Manager, or his designee to sign any subsequent documents required by the purchase.

FINANCIAL IMPACT/COST:

GTrans has local, state and federal capital funds available and designated for the purchase of these chargers, and included in FY24 capital budget previously approved by the City Council. There is no impact to the General Fund.

Mobile 50 kW

Simple. Durable. Portable.

With durable and portable design, the Heliox Mobile DC charger is built with the daily activities of service and maintenance personnel in mind. And with no fixed installation required, you'll save thousands on infrastructure costs as well.

Manufactured and tested in the United States ensuring Buy America Act compliance.

Perfect for getting started with EV or scaling up. Simply connect to a 480V AC wall socket and start charging.

With a compact design and no fixed installation, Mobile 50 can be moved to charge anywhere it can be plugged in.

All product designs and specifications are subject to change without notice

Mobile 50 kW

Durable: A strong metal casing and wheel system means Mobile 50 kW stands up to daily wear and tear in ways other portable chargers simply cannot. And with a NEMA 3R rated enclosure, Mobile can be safely operated both indoors and outside.

Future-proof: The Mobile 50 kW is the perfect EV charging companion, now and in the future. No matter what direction your business is headed, this charger will always be by your side, providing reliable charging when and where you need it.

PUBLIC COMMENT #1
UNDER: ORAL COMMUNICATION

CITY CLERK'S OFC
'23 NOV29AM 8:40

From: jonathan hawes
To: Public Comment
Subject: General public comment to be read at the next city council meeting
Date: Wednesday, November 29, 2023 7:35:46 AM

Caution! This message was sent from outside your organization.

Good evening. My name is Jonathan Hawes. I served as El Monte City Clerk from 2013 to 2018. Since 2015 I have been a whistleblower on Andre Quintero and Team El Monte's embezzlement of $10 million from the El Monte Promise Foundation scholarship fund. I have interviewed dozens of El Monte residents who have privately confirmed that Promise funds were used for fraudulent trips to Vietnam and Haiti, a bogus consultant in Salt Lake City, house repairs, and other unlawful expenditures. I have myself been interviewed by the FBI about two dozen times. Documents proving the embezzlement have been submitted to the FBI and the Los Angeles County District Attorney's Office.

A week ago, an El Monte resident with a documented history of harassing and fabricating lies about other residents, Gabby Leos, told a string of lies on cable news about El Monte Mayor Jessica Ancona. These lies were spoon-fed to her by City Manager Alma Martinez. El Monte Police Chief Jake Fisher, who went on record confirming one of Leos/Martinez's lies, needs to be fired for interfering in ongoing litigation by commenting publicly on said litigation, and for lying in his official capacity. Both Martinez and Fisher dislike Mayor Ancona due to her efforts to rid our city of the baleful influence of Andre Quintero and his Team El Monte minions, of which Martinez and Fisher are two. Martinez and Fisher have frequently made significant decisions without a vote from the council, which is unlawful, and Ancona has called out such improprieties, furthering their animosity towards her and her anti-corruption efforts.

I am asking the Gardena City Council to pass a resolution condemning these crimes and schemes in order to protect the greatest mayor El Monte has ever had, Mayor Jessica Ancona, and the vulnerable residents of one of the poorest cities in Southern California. If this criminal, FBI-investigated cabal succeeds in removing her from office via well-orchestrated, mendacious smear campaigns, we will be back to full dictatorship under Andre Quintero or one of his puppets. El Monte children, who should've been provided with college scholarships, were robbed by his embezzlement. Andre Quintero and Team El Monte members must go to prison. If you have any questions, please call or text me at [redacted]. Thank you.

City of Gardena

Gardena City Council Meeting

AGENDA REPORT SUMMARY

Agenda Item No. 12.A
Section: DEPARTMENTAL ITEMS - ADMINISTRATIVE SERVICES
Meeting Date: December 12, 2023

TO: THE HONORABLE MAYOR AND MEMBERS OF THE GARDENA CITY COUNCIL

AGENDA TITLE: Approve Citywide Classification and Total Compensation Study Contract with Gallagher Benefit Services, Incorporated (Doing Business as Koff & Associates) in the amount of $205,940 and a project total of $236,831

COUNCIL ACTION REQUIRED:
Staff Recommendation: Approve Proposal

RECOMMENDATION AND STAFF SUMMARY:
In 2019, the City launched a citywide classification study with Koff & Associates, to develop an updated and well-structured classification system that is legally compliant, internally aligned, and reflective of current roles and responsibilities, duties and qualifications.

The COVID-19 Pandemic struck mid-study in 2020, impacting employment levels and service levels, by way of layoffs and furloughs. The study came to a halt.

The City is once again undertaking this project, as job descriptions serve as an essential tool for the City to effectively manage its workforce. Job descriptions lay the framework for developing effective recruitment and selection procedures, conducting objective performance appraisals, designing training plans and succession planning, and providing employees an understanding of their role within the City. With the passing of time, positions evolve and require assessment of current responsibilities and qualifications. These changes can be due to a number of items, including organizational changes, legal requirements and technological advancements.

The City has worked with Koff & Associates to analyze their prior work performed, in order to salvage and utilize any of the work that may still be relevant. In addition to the Classification study portion of job descriptions, the City has added a second and equally important component, a Total Compensation Study. In order to attract and retain a qualified and talented workforce, it is important to maintain parity in the labor market. This study will evaluate pay as well as benefits in one comprehensive package to show how competitive the City is compared to the median market.

A 15% contingency is being requested for this project for an additional $30,891, to accommodate any unforeseen expenditures that may arise during this complex project. Such

expenditures would not be allowed unless agreed upon and approved in advance by the City. The total project is estimated to be completed in 32 weeks

Therefore, staff respectfully recommends that the City Council approve the Classification and Total Compensation Study with Koff & Associates, in the amount of $205,940 with a project total of $236,831, which includes a 15% contingency.

FINANCIAL IMPACT/COST:

Fund Type	FY 2023-2024	FY 2024-2025	Total
General Fund	$140,288	$46,763	$187,050
Gtrans Fund	$35,229	$11,743	$46,972
Sewer Fund	$2,106	$702	$2,809
Total	$177,623	$59,208	$236,831

AGREEMENT BETWEEN
THE CITY OF GARDENA
AND
GALLAGHER BENEFIT SERVICES, INC.

This contract, hereinafter referred to as Agreement is entered into this 1st day of December, 2023, by and between THE CITY OF GARDENA ("City") and Gallagher Benefit Services, Inc., a Delaware Corporation ("Consultant"). Based on the mutual promises and covenants contained herein, the Parties hereto agree, as follows.

1. Recitals.

A. Whereas, City requires the services of a professional to complete a citywide classification and compensation study; and

B. Whereas, Consultant has represented that it is qualified by virtue of experience, training, education and expertise to provide these services; and

C. Whereas, City has determined that the public interest, convenience and necessity require the execution of this Agreement.

D. WHEREAS, no official or employee of City has a financial interest, within the provisions of sections 1090-1092 of the California Government Code, in the subject matter of this Agreement.

2. Services.

A. The services to be performed by Consultant shall consist of the following ("Services"): As specified in **Exhibit "A**", attached hereto and incorporated herein by reference, unless otherwise instructed by City.

B. The Services shall be performed in accordance with the Project Schedule set forth in **Exhibit A**. Consultant shall not be liable for any failure or delay in furnishing proposed Services resulting from fire, explosion, flood, storm, Act of God, governmental acts, orders or regulations, hostilities, civil disturbances, strikes, labor difficulties, difficulty in obtaining parts, supplies, or shipping facilities, inability to obtain or delays in obtaining suitable material or facilities required for performance, temporary unavailability of qualified personnel, failure by City to provide appropriate access to equipment or personnel, or other causes beyond Consultant's reasonable control.

3. Additional Services. If City determines that additional Services are required to be provided by Consultant in addition to the Services set forth above, City shall authorize Consultant to perform such additional Services in writing ("Additional Services"). Such Additional Services shall be specifically described and approved by City in writing prior to the performance thereof. Consultant shall be compensated for such Additional Services

DocuSign Envelope ID: C702B174-42AA-462D-A780-FF4EF1C0B64F

in accordance with the amount agreed upon in writing by the Parties. No compensation shall be paid to Consultant for Additional Services which are not specifically approved by City in writing.

4. Consultant's Proposal. This Agreement shall include Consultant's proposal or bid which is incorporated herein as **Exhibit A.** In the event of any inconsistency between the terms of the proposal and this Agreement, this Agreement shall govern.

5. Timing of Performance. Time is of the essence with respect to Consultant's performance of the Services required by this Agreement. Consultant shall diligently and timely pursue and complete the performance of the Services required of it by this Agreement as set forth in **Exhibit A.** City, in its sole discretion, may extend the time for performance of any Service.

6. Compensation. Compensation for the Services shall be billed as set forth in **Exhibit A**, attached hereto. The Compensation is inclusive of all costs that may be incurred by Consultant in performance of the Services, including but not limited to such items as travel, copies, delivery charges, phone charges, and facsimile charges, unless otherwise. In no event shall compensation under this Agreement exceed **Two Hundred Five Thousand Nine Hundred Forty Dollars and 00/00 ($205,940.00)** without the prior written authorization of the City Council.

7. Term of Agreement/Termination. This Agreement shall commence on the Effective Date and continue for a period of one (1) year, ending on November 30, 2024, unless previously terminated as provided herein or as otherwise agreed to in writing by the parties.

A. This Agreement shall be effective as of the date of execution by the City and shall remain in effect until all Services are completed or until terminated as provided for herein.

B. City may terminate this Agreement without cause by providing written notice to Consultant not less than ten days prior to an effective termination date. City's only obligation in the event of termination will be payment of fees and allowed expenses incurred up to and including the effective date of termination.

C. Unless for cause, Consultant may not terminate this Agreement. If Consultant is terminating this Agreement for cause, it must provide the City with thirty (30) days written notice.

D. Upon receipt of a termination notice, Consultant shall: (1) promptly discontinue all Services, unless the notice directs otherwise; and (2) within ten (10) days, deliver to City all files, data, reports, estimates, summaries, and such other information and materials as may have been accumulated or prepared to date by Consultant in performing the Services under this Agreement, whether completed or in progress. Consultant shall provide these documents by both hard copy and in electronic format if

DocuSign Envelope ID: C702B174-42AA-462D-A780-FF4EF1C0B64F

available. In the event of termination for other than cause attributable to Consultant, Consultant shall be entitled to reasonable compensation for the Services it performs up to the date of termination and shall be deemed released from liability for any work assigned but not completed as of the effective date of termination.

8. Agreement Administrator. For purposes of this Agreement, City designates Ray Beeman or designee as the Agreement Administrator who shall monitor Consultant's performance under this Agreement. Consultant shall be notified in writing of any deficiency in the performance of this Agreement in a timely manner by Agreement Administrator Consultant shall have five (5) business days from receipt of the notification to cure any deficiency to the reasonable satisfaction of the Agreement Administrator. All costs for such corrections shall be borne by Consultant and shall not increase Consultant's fees due hereunder. Should the Agreement Administrator determine that Consultant has not performed its obligation as stated in this Agreement in a satisfactory manner, City may terminate this Agreement for cause as specified in Section- Term of Agreement/Termination. All notices, invoices or other documents shall be addressed to the Agreement Administrator, as well as all substantive issues relating to this contract. City reserves the right to change this designation upon written notice to Consultant.

9. Invoices and Payments.

A. Payment shall be made upon receipt and approval of invoices for Services rendered. In order for payment to be made, Consultant's invoice must include an itemization as to the services rendered, date(s) of service, direct and/or subcontract costs, and be submitted on an official letterhead or invoice with Consultant's name, address, and telephone number referenced.

B. The Agreement Administrator shall review the invoices to determine whether services performed and documents submitted are consistent with this Agreement. Payment shall be made within forty-five (45) days following receipt of the invoice or the Agreement Administrator shall provide Consultant with a written statement objecting to the charges and stating the reasons therefore.

C. Payment by City under this Agreement shall not be deemed a waiver of defects, even if such defects were known to City at the time of payment.

10. Records/Audit.

A. Consultant shall be responsible for ensuring accuracy and propriety of all billings and shall maintain all supporting documentation for a minimum of three (3) years from the completion date of the Services under this agreement the following records:

1. All accounts and records, including personnel, property and financial, adequate to identify and account for all costs pertaining to this Agreement and assure proper accounting for all funds;

DocuSign Envelope ID: C702B174-42AA-462D-A780-FF4EF1C0B64F

2. Records which establish that Consultant and any subconsultant who renders Services under this Agreement are in full compliance with the requirements of this Agreement and all federal, state and local laws and regulations

3. Any additional records deemed necessary by City to assume verification of full compliance with this Agreement.

B. City shall have the right to audit Consultant's invoices and all supporting documentation for purposes of compliance with this Agreement for a period of three years following the completion of Services under this Agreement.

C. Upon reasonable notice from City or any other governmental agency, Consultant shall cooperate fully with any audit of its billings conducted by, or of, City and shall permit access to its books, records and accounts as may be necessary to conduct such audits.

11. Successors and Assignment. This Agreement covers professional services of a specific and unique nature. Except as otherwise provided herein, Consultant shall not assign or transfer its interest in this Agreement or subcontract any services to be performed without amending this Agreement. This Agreement shall be binding upon the heirs, executors, administrators, successors and assigns of the parties hereto.

12. Change in Name, Ownership or Control. Consultant shall notify the Agreement Administrator, in writing, of any change in name, ownership or control of Consultant's firm or subconsultant. Change of ownership or control of Consultant's firm may require an amendment to the Agreement.

13. Key Personnel. City has relied upon the professional training and ability of Consultant to perform the Services hereunder as a material inducement to enter into this Agreement. Consultant shall provide properly skilled professional and technical personnel to perform all Services under this Agreement. In the event that City, in its sole discretion, at any time during the Agreement, desires the removal of any person or persons assigned by Consultant to perform Services pursuant to this Agreement, Consultant shall remove any such person immediately upon receiving notice from City.

14. Performance By Consultant. Consultant shall maintain or exceed the level of competency presently maintained by other similar practitioners in the State of California, for professional and technical soundness, accuracy and adequacy of all work, advice and material furnished under this Agreement.

15. Use of Materials.

A. City shall make available to Consultant such materials from its files as may be required by Consultant to perform Services under this Agreement. Such materials shall remain the property of City while in Consultant's possession. Upon termination of this Agreement and payment of outstanding invoices of Consultant, or completion of work

DocuSign Envelope ID: C702B174-42AA-462D-A780-FF4EF1C0B64F

under this Agreement, Consultant shall return to City any property of City in its possession and any calculations, notes, reports, electronic files, or other materials prepared by Consultant in the course of performance of this Agreement.

B. City may utilize any material prepared or work performed by Consultant pursuant to this Agreement, including computer software, in any manner, which City deems proper without additional compensation to Consultant. Consultant shall have no responsibility or liability for any revisions, changes, or corrections made by City, or any use or reuse pursuant to this paragraph unless Consultant accepts such responsibility in writing.

16. Nonuse of Intellectual Property of Third Parties. Consultant shall not use, disclose or copy any intellectual property of any third parties in connection with work carried out under this Agreement, except for intellectual property for which Consultant has a license. Consultant shall indemnify and hold City harmless against all claims raised against City based upon allegations that Consultant has wrongfully used intellectual property of others in performing work for City, or that City has wrongfully used intellectual property developed by Consultant pursuant to this Agreement.

17. Ownership of Work Product. All documents or other information created, developed, or received by Consultant shall, for purposes of copyright law, be deemed works made for hire for City by Consultant and shall be the sole property of City. Consultant shall provide City with copies of these items upon demand, and in any event, upon termination of this Agreement. Notwithstanding the foregoing, City shall own all final deliverables provided to City by Consultant as part of the services provided under this Agreement, provided however, Consultant shall retain sole and exclusive ownership of all right, title, and interest in, and to, its intellectual property and derivatives thereof which no data or Confidential Information of the City was used to create and which was developed entirely using Consultant's own resources, including any and all pre-existing or independently developed know-how, methods, processes and other materials prepared by Consultant. To the extent Consultant's intellectual property is necessary for the City to use the deliverables provided under this Agreement, Consultant grants to City a non-exclusive, royalty-free license to Consultant's intellectual property solely for City's use of such deliverables.

18. Confidentiality Clause. Consultant acknowledges that some of the material and information that may come into its possession or knowledge in connection with this Agreement or its performance may consist of information that is exempt from disclosure to the public or other unauthorized persons under either state or federal statutes ("Confidential Information"). Confidential Information includes, but is not limited to, names, addresses, Social Security numbers, e-mail addresses, telephone numbers, financial profiles, credit card information, driver's license numbers, medical data, law enforcement records, agency source code or object code, agency security data, or information identifiable to an individual that relates to any of these types of information. Consultant agrees to hold Confidential Information in strictest confidence and not to make use of Confidential Information for any purpose other than the performance of this

DocuSign Envelope ID: C702B174-42AA-462D-A780-FF4EF1C0B64F

Agreement, to release it only to authorized employees or Sub-consultants requiring such information for the purposes of carrying out this Agreement, and not to release, divulge, publish, transfer, sell, disclose, or otherwise make the information known to any other party without City's express written consent or as provided by law. Consultant agrees to release such information or material only to employees or Sub-consultants who have signed a nondisclosure agreement. Consultant agrees to implement physical, electronic, and managerial safeguards to prevent unauthorized access to Confidential Information.

"Personal information" including, but not limited to, "Protected Health Information" (PHI) under Health Insurance Portability And Accountability Act (HIPAA), individuals' names, addresses, phone numbers, birth dates, and social security numbers collected, used, or acquired in connection with this Agreement shall be protected against unauthorized use, disclosure, modification or loss.

HIPAA establishes national minimum standards for the use and disclosure of certain health information. The Consultant must comply with all HIPAA requirements and rules when determined applicable by the City. If City determines that (1) City is a "covered entity" under HIPAA, and that (2) Consultant will perform "business associate" services and activities covered under HIPAA, then at City's request, Consultant agrees to execute City's Agreement in compliance with HIPAA.

Consultant shall ensure its directors, officers, employees, Sub-consultants or agents use personal information solely for the purposes of accomplishing the services set forth herein. Consultant and its Sub-consultants agree not to release, divulge, publish, transfer, sell or otherwise make known to unauthorized persons personal information without the express written consent of the City or as otherwise required by law.

Any breach of this provision may result in termination of the Agreement and demand for return of all personal information. Moreover, Consultant will indemnify and hold the City harmless from and against all losses and damages resulting from any unauthorized or improper disclosure, dissemination or use of the information as a result, in whole or in part, of Consultant’s action or inaction.

19. Legal Requirements.

A. Consultant shall secure and maintain all licenses or permits required by law, including a City business license, and shall comply with all ordinances, laws, orders, rules, and regulations pertaining to the work.

B. Consultant warrants that it shall perform the Services required by this Agreement in compliance with all applicable Federal and California employment laws, including, but not limited to, those laws related to minimum hours and wages; occupational health and safety; fair employment and employment practices; workers’ compensation insurance and safety in employment; and all other Federal, State and local laws and ordinances applicable to the services required under this Agreement. Consultant shall indemnify and hold harmless City from and against all

DocuSign Envelope ID: C702B174-42AA-462D-A780-FF4EF1C0B64F

claims, demands, payments, suits, actions, proceedings, and judgments of every nature and description including attorneys' fees and costs, presented, brought, or recovered against City for, or on account of any liability under any of the above-mentioned laws, which may be incurred by reason of Consultant's performance under this Agreement.

C. Consultant covenants that there shall be no discrimination based upon race, color, creed, religion, sex, marital status, age, handicap, national origin or ancestry, or any other category forbidden by law in performance of this Agreement.

20. Conflict of Interest and Reporting.

A. Consultant shall at all times avoid conflicts of interest or the appearance of a conflict of interest in the performance of this Agreement. If required, Consultant shall comply with the City's Conflict of Interest reporting requirements. Consultant understands that pursuant to Gardena Municipal Code sections 2.24.020H and 2.24.025G, it is forbidden to make any contribution to a candidate or committee of a candidate for a municipal office of the City, or to an officeholder, until the completion of Services to be performed under this Agreement.

B. Consultant and its representatives shall refrain from lobbying City of Gardena officials, employees and representatives for the duration of this Agreement.

21. Guarantee and Warranty. Consultant warrants to City that the material, analysis, data, programs and Services to be delivered or rendered hereunder will be of the kind and quality designated and will be performed by qualified personnel. Without waiver of City's other rights or remedies, City may require Consultant to re-perform any of said Services, which were not performed in accordance with these standards. Consultant shall perform the remedial Services at its sole expense.

22. Insurance.

A. Commencement of Work. Consultant shall not commence work under this Agreement until it has obtained City approved insurance. Before beginning work hereunder, during the entire period of this Agreement, for any extensions hereto, and for periods after the end of this Agreement as may be indicated below, Consultant must have and maintain in place all of the insurance coverage required in this Section. Consultant's insurance shall comply with all items specified by this Agreement. Any subcontractors shall be subject to all of the requirements of this Section and Consultant shall be responsible to obtain evidence of insurance from each subcontractor and provide it to City before the subcontractor commences work.

B. Insurance Company Requirements. All insurance policies used to satisfy the requirements imposed hereunder shall be issued by insurers admitted to do business in the State of California. Insurers shall have a current Best's rating of not less than A-:VI, unless otherwise approved by City.

DocuSign Envelope ID: C702B174-42AA-462D-A780-FF4EF1C0B64F

C. Coverage, Limits and Policy Requirements. Consultant shall maintain the types of coverage and limits indicated below:

1. Commercial General Liability Insurance - a policy for occurrence coverage for bodily injury, personal injury and property damage, with coverage at least as broad as Insurance Services Office Form CG 00 01, with no special limitations affecting City. The limit for all coverage under this policy shall be no less than one million dollars ($1,000,000.00) per occurrence.

2. Commercial Auto Liability Insurance - a policy with coverage at least as broad as Insurance Services Office form CA 0001, including Symbol 1 (any auto). The limit for bodily injury and property damage liability shall be no less than one million dollars ($1,000,000.00) per accident.

3. Policy Requirements. The policies set forth above shall comply with the following, as evidenced by the policies or endorsements to the policies:

a. The City, its appointed and elected officers, employees, agents and volunteers shall be added as additional insured to the Commercial General Liability policy.

b. Any cancelled or non-renewed policy will be replaced with no coverage gap and a current Certificate of Insurance will be provided to the City.

c. For any claims with respect to the Services covered by this Agreement, Consultant's Commercial General Liability insurance coverage shall be primary insurance as respects the City, its elected and appointed officers, employees, agents and volunteers. Any insurance or self-insurance maintained by the City, its elected and appointed officers, employees, agents and volunteers shall be excess of Consultant's insurance and shall not contribute with it.

4. Worker's Compensation and Employer's Liability Insurance - a policy which meets all statutory benefit requirements of the Labor Code, or other applicable law, of the State of California. The minimum coverage limits for said insurance shall be no less than one million dollars per claim. The policy shall be issued by an insurance company which is admitted to do business in the State of California.

5. Professional Errors & Omissions - a policy with minimum limits of one million dollars ($1,000,000.00) per claim and aggregate. This policy shall be issued by an insurance company which is admitted to do business in the State of California.

D. Additional Requirements. The procuring of such required policies of insurance shall not be construed to limit Consultant's liability hereunder or to fulfill the indemnification provisions and requirements of this Agreement. There shall be no recourse against City for payment of premiums or other amounts with respect thereto. City shall notify Consultant in writing of changes in the insurance requirements. If

DocuSign Envelope ID: C702B174-42AA-462D-A780-FF4EF1C0B64F

Consultant does not deposit copies of acceptable insurance endorsements with City incorporating such changes within sixty (60) days of receipt of such notice, Consultant shall be deemed in default hereunder.

E. Deductibles. Any deductible or self-insured retention over $25,000 per occurrence must be declared to and approved by City.

F. Verification of Compliance. Consultant shall furnish City with original endorsements effecting coverage required by this Agreement. The endorsements are to be signed by a person authorized by the insurer to bind coverage on its behalf. All endorsements are to be received and approved by City before work commences.

G. Termination for Lack of Required Coverage. If Consultant, for any reason, fails to have in place, at all times during the term of this Agreement, including any extension hereto, all required insurance and coverage, City may immediately obtain such coverage at Consultant's expense and/or terminate this Agreement.

23. Indemnity.

A. Consultant assumes all risk of injury to its employees, agents, and contractors, including loss or damage to property.

B. Consultant agrees to defend, indemnify, hold free and harmless the City, its elected officials, officers, agents, employees and volunteers, at Consultant's sole expense, from and against any and all claims, actions, suits or other legal proceedings brought against the City, its elected officials, officers, agents, employees and volunteers arising out of the performance of the Consultant, its employees, and/or authorized subcontractors, of the work undertaken pursuant to this Agreement. The defense obligation provided for hereunder shall apply without any advance showing of negligence or wrongdoing by the Consultant, its employees, and/or authorized subcontractors, but shall be required whenever any claim, action, complaint, or suit asserts as its basis the negligence, errors, omissions or misconduct of the Consultant, its employees, and/or authorized subcontractors, and/or whenever any claim, action, complaint or suit asserts liability against the City, its elected officials, officers, agents, employees and volunteers based upon the work performed by the Consultant, its employees, and/or authorized subcontractors under this Agreement, whether or not the Consultant, its employees, and/or authorized subcontractors are specifically named or otherwise asserted to be liable. Notwithstanding the foregoing, the Consultant shall not be liable for the defense or indemnification of the City for claims, actions, complaints or suits arising out of the sole negligence or willful misconduct of the City. This provision shall supersede and replace all other indemnity provisions contained either in the City's specifications or Consultant's Proposal, which shall be of no force and effect. NOTWITHSTANDING ANYTHING TO THE CONTRARY IN THIS AGREEMENT, CONSULTANT SHALL NOT BE LIABLE FOR ANY SPECIAL, INDIRECT, CONSEQUENTIAL, LOST PROFITS, OR PUNITIVE DAMAGES SUSTAINED OR INCURRED IN CONNECTION WITH THIS AGREEMENT, WHETHER OR NOT SUCH DAMAGES ARE FORESEEABLE.

DocuSign Envelope ID: C702B174-42AA-462D-A780-FF4EF1C0B64F

C. No official, employee, agent or volunteer of City shall be personally liable for any default or liability under this Agreement.

24. Independent Contractor. Consultant agrees to furnish consulting services in the capacity of an independent contractor and neither Consultant nor any of its employees shall be considered to be an employee or agent of City.

25. PERS Eligibility Indemnification. In the event that Consultant or any employee, agent, or subcontractor of Consultant providing Services under this Agreement claims or is determined by a court of competent jurisdiction or the California Public Employees Retirement System (PERS) to be eligible for enrollment in PERS as an employee of the City, Consultant shall indemnify, defend, and hold harmless City for the payment of any employee and/or employer contributions for PERS benefits on behalf of Consultant or its employees, agents, or subcontractors, as well as for the payment of any penalties and interest on such contributions, which would otherwise be the responsibility of City.

Notwithstanding any other agency, state or federal policy, rule, regulation, law or ordinance to the contrary, Consultant and any of its employees, agents, and subcontractors providing service under this Agreement shall not qualify for or become entitled to, and hereby agree to waive any claims to, any compensation, benefit, or any incident of employment by City, including but not limited to eligibility to enroll in PERS as an employee of City and entitlement to any contribution to be paid by City for employer contribution and/or employee contributions for PERS benefits.

26. Notices. Any notice or communication given under this Agreement shall be effective when deposited, postage prepaid, with the United States Postal Service and addressed to the contracting parties. Name, address, telephone and facsimile numbers of the parties are as follows:

City of Gardena:
1700 West 162nd Street
Gardena, California 90247-3732
Attn: Ray Beeman
Title: Director of Administrative Services
Email: rbeeman@cityofgardena.org
Telephone: (310) 217-9502

To Consultant: Gallagher Benefit Services, Inc.
2835 Seventh Street
Berkeley, CA 94710
Attn: Georg S. Krammer
Email: georg_krammer@ajg.com
Telephone: (510) 658-5633

Either party may change the information to which notice or communication is to be sent

DocuSign Envelope ID: C702B174-42AA-462D-A780-FF4EF1C0B64F

by providing advance written notice to the other party.

27. Severability. If any provision of this Agreement shall be held illegal, invalid, or unenforceable, in whole or in part, such provision shall be modified to the minimum extent necessary to make it legal, valid, and enforceable, and the legality, validity, and enforceability of the remaining provisions shall not be affected thereby.

28. Jurisdiction and Venue. This Agreement shall be deemed a contract under the laws of the State of California and for all purposes shall be interpreted in accordance with such laws. Both parties hereby agree and consent to the exclusive jurisdiction of the courts of the State of California and that the venue of any action brought hereunder shall be Los Angeles County, California.

29. Waiver. No delay or failure by either Party to exercise or enforce at any time any right or provision of this Agreement shall be considered a waiver thereof or of such Party's right thereafter to exercise or enforce each and every right and provision of this Agreement. To be valid a waiver shall be in writing but need not be supported by consideration. No single waiver shall constitute a continuing or subsequent waiver.

30. Electronic Signatures. The parties hereby acknowledge and agree that electronic records and electronic signatures, as well as facsimile signatures, used in connection with the execution of this Agreement and electronic signatures, facsimile signatures or signatures transmitted by electronic mail in so-called pdf format shall be legal and binding and shall have the same full force and effect as if a paper original of this Agreement had been delivered and had been signed using a handwritten signature. City and Consultant (i) agree that an electronic signature, whether digital or encrypted, of a party to this Agreement is intended to authenticate this writing and to have the same force and effect as a manual signature, (ii) intend to be bound by the signatures (whether original, faxed or electronic) on any document sent or delivered by facsimile or, electronic mail, or other electronic means, (iii) are aware that the other party will reply on such signatures, and (iv) hereby waive any defenses to the enforcement of the terms of this Agreement based on the foregoing forms of signature. If this Agreement has been executed by electronic signature, all parties executing this document are expressly consenting under the United States Federal Electronic Signatures in Global and National Commerce Act of 2000 ("E-SIGN") and California Uniform Electronic Transactions Act ("UETA")(Cal. Civ. Code § 1633.1, et seq.), that a signature by fax, email or other electronic means shall constitute an Electronic Signature to an Electronic Record under both E-SIGN and UETA with respect to this specific transaction.

31. Joint Drafting. Each party acknowledges that it has had an adequate opportunity to review each and every provision in this Agreement and to submit the same to counsel and other consultants for review and comment and that the parties jointly drafted this Agreement. No provision of this Agreement or any Assignment shall be construed more strictly against one party than the other party by reason that one or the other party proposed, drafted or modified such provision or any other existing or proposed provision.

DocuSign Envelope ID: C702B174-42AA-462D-A780-FF4EF1C0B64F

32. Public Records Act Disclosure. Consultant has been advised and is aware that this Agreement and all reports, documents, information and data, including, but not limited to, computer tapes, discs or files furnished or prepared by Consultant, or any of its subcontractors, pursuant to this Agreement and provided to City may be subject to public disclosure as required by the California Public Records Act (California Government Code section 7920.000 *et seq*.). Exceptions to public disclosure may be those documents or information that qualify as trade secrets, as that term is defined in the California Government Code section 7924.510, and of which Consultant informs City of such trade secret. The City will endeavor to maintain as confidential all information obtained by it that is designated as a trade secret. The City shall not, in any way, be liable or responsible for the disclosure of any trade secret including, without limitation, those records so marked if disclosure is deemed to be required by law or by order of the Court.

33. Authority to Execute. The persons executing this Agreement on behalf of the parties warrant that they are duly authorized to execute this Agreement.

34. Attorney's Fees. In the event that legal action is necessary to enforce the provisions of this Agreement, or to declare the rights of the parties hereunder, the parties agree that the prevailing party in the legal action shall be entitled to recover attorney's fees and court costs from the opposing party.

35. Section Headings. The Section headings used in this Agreement are for reference purposes only and shall have no binding effect.

36. Entire Agreement. This Agreement contains the entire understanding between City and Consultant. Any prior agreement, promises, negotiations or representations not expressly set forth herein are of no force or effect. Subsequent modifications to this Agreement shall be effective only if in writing and signed by both parties. This Agreement may be signed by the parties hereto in separate counterparts, including both counterparts that are executed on paper and counterparts that are in the form of electronic signatures. Electronic signatures include facsimile or email electronic signatures. Each executed counterpart shall be deemed an original. All counterparts, taken together, constitute the executed Agreement.

37. Section Headings. The Section headings used in this Agreement are for reference purposes only and shall have no binding effect.

38. Counterparts. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original. All counterparts shall be construed together and shall constitute one agreement.

Koff & Associates
Human Resources and Recruiting since 1984

November 15, 2023

Mr. Ray Beeman, CPA
Director of Administrative Services
1700 West 162nd Street
Gardena, CA 90247

Dear Mr. Beeman:

Thank you for the opportunity to provide a proposal for a **Classification and Total Compensation Study** for the **City of Gardena** ("City"). We are most interested in assisting the City with this important study and feel that we are uniquely qualified to provide value to your organization based on our experience working with other cities, counties, special districts, joint-powers associations, and other public agencies.

Koff & Associates, now a Gallagher company, is an experienced Human Resources and Recruitment Services firm providing human resources services to cities, counties, special districts, courts, educational institutions, and other public agencies for 39 years. The firm has achieved a reputation for working successfully with management, employees, and governing bodies. We believe in a high level of dialogue and input from study stakeholders and our proposal speaks to that level of effort. Our firm's extra effort has resulted in close to *100% implementation* of all our classification and compensation studies.

Koff & Associates ensures that each of our projects is given the appropriate resources and attention, resulting in a high level of quality control, excellent communication between clients and our office, commitment to meeting timelines and budgets, and a consistently high-caliber work product.

As a Managing Director of Koff & Associates, I would assume the role of Project Director and be responsible for the successful completion of project. I can be reached at our Berkeley address and the phone number listed on the cover page. My email is **georg_krammer@ajg.com**.

This proposal will remain valid for at least 90 days from the date of submittal. Please call if you have any questions or wish additional information. We look forward to the opportunity to provide professional services to the **City of Gardena**.

Sincerely,

Georg S. Krammer
Managing Director, Compensation and Rewards Consulting

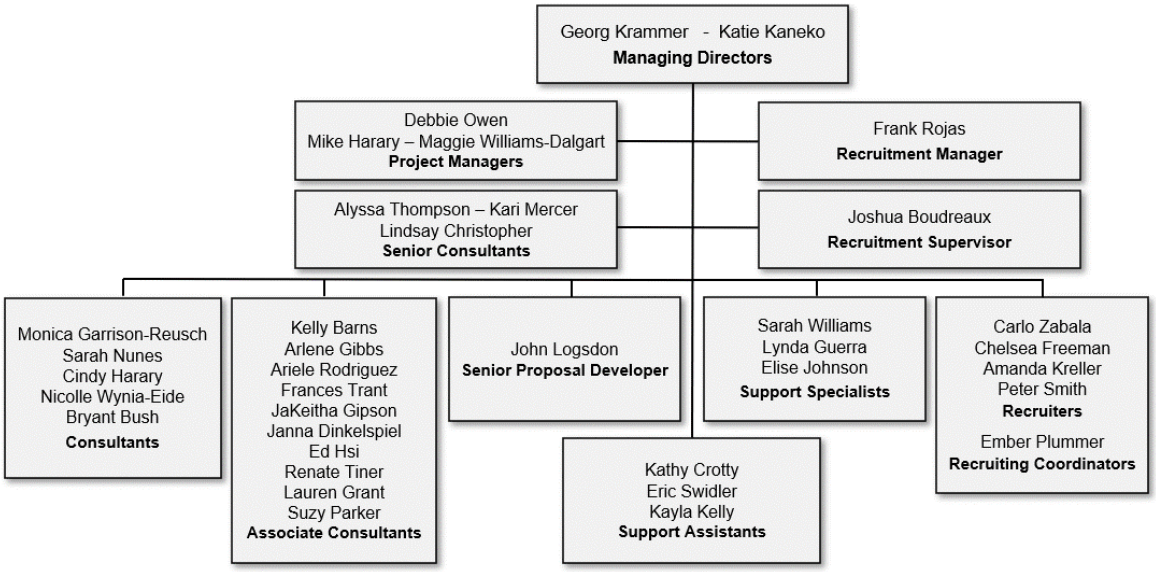
FIRM QUALIFICATIONS

Koff & Associates ("K&A") is a full-spectrum, public-sector human resources and recruitment services firm that was founded in 1984 by Gail Koff; K&A has been assisting cities, counties, special districts, other public agencies, and non-profit organizations with their human resources needs for 39 years.

On April 30, 2021, we merged with Arthur J. Gallagher and are now officially a Gallagher Division. Our headquarters are in Berkeley, CA, and we have satellite offices in Southern California, the Central Valley, the Sacramento Region, and the Western Region.

We are familiar with the various public sector organizational structures, agency missions, operational and budgetary requirements, and staffing expectations. We have extensive experience working in both union and non-union environments (including service as the management representative in meet and confer and negotiation meetings), working with City Councils, County Commissions, Boards of Directors, Boards of Supervisors, Boards of Trustees, Merit Boards, and Joint Power Authorities.

The firm's areas of focus are classification and compensation studies (approximately 70% of our workload); executive search and staff recruitments; organizational development/assessment studies; performance management and incentive compensation programs; development of strategic management tools; policy/procedure development and employee handbooks; training and development; public agency consolidations and separations; Human Resources audits; and serving as off-site Human Resources Director for smaller public agencies that need the expertise of a Human Resources Director but do not need a full-time, on-site professional.



Without exception, all our classification and compensation studies have successfully met all of our intended commitments; communications were successful with employees, supervisors, management, and union representatives; and we were able to assist each agency in successfully implementing our recommendations. All studies were brought to completion within stipulated time limits and proposed budgets.

Our long list of clients (please see https://koffassociates.com/our-clients/) is indicative of our firm's reputation as being a quality organization that can be relied on for producing comprehensive, sound, and cost-effective recommendations and solutions. K&A has a reputation for being "hands on" with the ability and expertise to implement its ideas and recommendations through completion in both union and non-union environments.

K&A relies on our stellar reputation and the recommendations and referrals of past clients to attract new clients. Our work speaks for itself and our primary goal is to provide professional and technical consulting assistance with integrity, honesty and a commitment to excellence. We are very proud of the fact that in working with hundreds of public agency clients and completing hundreds of classification and/or compensation and other types of studies, we have only had a handful of formal appeals in our entire history.

DocuSign Envelope ID: C702B174-42AA-462D-A780-FF4EF1C0B64F

Our team consists of 37 employees as shown below in our organizational chart.

No subcontractors will be assigned to this study.

TEAM MEMBER QUALIFICATIONS

All members of our team have worked on multiple comprehensive classification and total compensation studies and are well acquainted with the wide array of public sector organizational structures, compensation structures, classification plans, as well as the challenges and issues that arise when conducting studies such as this one for the City.

KEY PERSONNEL

Our project team will be led by Co-Project Directors Georg Krammer (Managing Director), and Debbie Owen (Project Manager). They will coordinate all of K&A's efforts, attend all meetings with the City, and be responsible for all work products and deliverables.

CONSULTANTS

Lindsay Christopher (Senior Consultant), Kari Mercer (Senior Consultant), Alyssa Thompson (Senior Consultant), Monica Garrison-Reusch (Consultant), Arlene Gibbs (Associate Consultant), Sarah Nunes (Consultant), Ariele Rodriguez (Associate Consultant), Janna Dinkelspiel (Associate Consultant), Edi Hsi (Associate Consultant), Nicolle Wynia-Eide (Consultant), Kelly Barns (Associate Consultant), Cindy Harary (Consultant) and Renate Tiner (Associate Consultant) will conduct classification analysis and interviews with employees and management, compensation data collection and analysis, internal job analysis, develop recommendations and implementation strategies.

WORKLOAD

We currently have a team of 25 HR consultants and five administrative support staff – resources that we are able to pool base on each project's needs, to execute projects and to meet clients' needs and expectations. Each time we are selected as the successful bidder on a project, we strategize to determine project timelines, deliverable deadlines, and the resources that are required to produce the deliverables as promised. We are poised to accommodate the City's classification and compensation study and plan to devote the necessary resources for the successful execution of the project.

Biographies of the specific staff who will be assigned to this study can be found in the Appendix.

EXECUTIVE SUMMARY, APPROACH, METHODOLOGY

The City desires human resources assistance to conduct an objective analysis of its current classification and compensation practices; recommend changes that result in equitable, competitive and legally defensible classification and pay practices that will enrich the attraction and retention of qualified individuals as well as enhance opportunities for growth and professional development; evaluate the current employee benefit and compensation plan against local and regional markets, and comparable employers; and provide recommendations for adjustments.

The City employs approximately 500 full- and part-time employees in seven City departments:

[1] Elected and Administrative Offices;
[2] Administrative Services;
[3] General Services;
[4] Recreation and Human Services;
[5] Community Development;
[6] Transportation; and
[7] Police.

There are three bargaining units:

[1] Gardena Municipal Employees Association;
[2] Gardena Management Employees Organization; and
[3] Gardena Police Officers Association.

K&A conducted a classification study for the City in 2019 and developed recommendations for a classification plan, classification concepts, position allocations, and 77 new/updated classification descriptions. The study was then put on pause and City now wishes to resume the classification study and add a total compensation study component. The scope of work for this study is limited to a specified number of positions in each department, and the classification description work associated with that scope, as outlined in Appendix B; there are approximately 138 positions for the classification study only, and any ongoing reference to that work is limited to only those 138 positions; however, the total compensation study is City-wide for all classifications.

The study's first level of effort is to initially develop an updated and well-structured classification system and classification descriptions for all study positions that are legally compliant (including Fair Labor Standards Act ("FLSA") and Americans with Disabilities Act ("ADA") requirements), internally aligned, reflective of contemporary standards, and accurately descriptive of current roles, responsibilities, duties, and qualifications. The classification analysis process includes orientation and briefing sessions with study employees, management, Human Resources, union representation, and other stakeholders, as appropriate; the completion of a position description questionnaire by study employees; and interviews with supervisors and management to address any classification issues. All participating employees will be allocated to an appropriate classification; draft classification descriptions will be developed, and sent back to the City management for additional feedback and concurrence.

A second level of effort will be to review the City's compensation structure for the studied classifications and to conduct a total compensation market survey (salaries plus benefits) using a set of appropriate comparator agencies. The identification of comparator agencies, benchmark classifications, and benefits to be collected is an iterative process that includes all stakeholders. We have found this open discussion philosophy to be critical to our success for organizational buy-in. Once the external data development is

DocuSign Envelope ID: C702B174-42AA-462D-A780-FF4EF1C0B64F

completed, we will make specific recommendations for internal equity for non-benchmarked classifications and classifications without a large enough market sampling.

The compensation study will contain specific recommendations regarding the integration of all study classifications into the City's compensation structure, with the goal of developing a clearly designed, internally equitable format that is flexible for career opportunity and future growth. Our study will make recommendations regarding a salary structure that takes the City's compensation preferences into consideration as well as the appropriate placement of each classification on the City's salary schedule.

The study includes a significant number of meetings with the Study Project Team, Human Resources, employees, union representation, and the City Council, as desired. We have expertise in labor/management relations and understand the importance of active participation by all stakeholders to ensure a successful outcome. The meetings and "stakeholder touch-points" that we recommend ensure understanding of the project parameters, enhance accurate intake and output of information, and create a collaborative and interactive approach resulting in greater buy-in for study recommendations. This interactive approach has resulted in almost 100% implementation success of K&A's studies.

The majority of our clients are unionized and our larger city and county clients typically have multiple unions. Due to the multitude of stakeholder groups who are affected by any compensation study K&A conducts, our team understands the importance of accurate and validated data that withstands any scrutiny, effective and ongoing communication throughout each effort, and collaboration with the various stakeholder groups to ensure organizational buy-in to our findings and recommendations. We have developed a unique methodology of stakeholder "touchpoints" and collaboration that has made us highly successful and effective and has earned our team respect, agreement, and understanding from all stakeholders. In addition, we adjust and customize our methodology based on each individual client's unique needs and circumstances.

We also recognize that both the City and union representatives have obligations to employees and members to ensure that any study is conducted in a fair and equitable manner. Our project work plans are designed for transparency and we strongly encourage dialog with all stakeholders on study deliverables so they in turn can express their concerns; we all have a shared goal of ensuring the process followed is fair and equitable.

This intense and comprehensive stakeholder engagement and our transparent study processes are also a mechanism of quality control. The fact that our information, data, and recommendations have to be able to withstand utmost scrutiny by diverse stakeholders require an in-depth multi-step quality control process for deliverables. This involves K&A team member validation of classification analyses and compensation data, K&A Project Manager review of all classification and compensation analyses, recommendations and deliverables, and finally K&A Principal (Project Director) review of deliverables before submittal to the client.

Study Objectives

Classification Objectives:

- To analyze and update the City's classification system and each study position's classification description and structure through a comprehensive process of job analysis and evaluation, including review of existing documentation, position description questionnaire completion, employee interviews, management interviews, analysis of existing positions

DocuSign Envelope ID: C702B174-42AA-462D-A780-FF4EF1C0B64F

and working situations, analysis of levels of duties and responsibilities, and other professional methods, as appropriate;

- To recommend each study position for title change or reclassification (as appropriate), create new classifications (if applicable), eliminate outdated classifications (if applicable), and consolidate classifications assigned to similar functional areas (as appropriate);
- To provide for growth and flexibility of assignment within the new classification structure, where feasible, in recognition that some job duties and responsibilities may evolve over time, as well as to provide adequate career paths and class series/job families that will foster career service within the City;
- To clearly state definitions of job classifications, the typical job functions, and minimum required and preferred/desired qualifications such as education, prior work experience, knowledge, skills, abilities, licenses, certifications, and physical demands and working conditions;
- To provide a classification structure that ensures regulatory compliance, including allocation of each study position to the correct classification with appropriate FLSA designation as well as meeting ADA and EEO regulations;
- To provide for adequate educational, review, and appeal processes that will result in a product that is understood by all levels of personnel and is internally equitable; and
- To ensure sufficient documentation and training throughout the study, on methods used to determine appropriate classification and level, methods for logical progression of movement between classifications, classification concepts and distinguishing characteristics, as well as the delivery of final reports and recommendations to guide the organization in implementing, managing, and maintaining the classification system.

Compensation Objectives:

- To make recommendations regarding a list of appropriate, logical and defensible comparator agencies, benchmark classifications, and benefits to be collected prior to beginning the compensation portion of the study;
- To collect accurate salary and benefit data from the approved group of comparator agencies and to ensure that the information is analyzed in a manner that is clear and comprehensible to the Study Project Team, Human Resources, management, employees, union representation, and the City Council;
- To carefully analyze the scope and level of duties and responsibilities, requirements for successful work performance, and other factors for survey classes, according to generally accepted compensation practices;
- To review the City's compensation structure and practices and develop compensation recommendations that will assist the City in recruiting, motivating, and retaining competent staff;
- To develop solutions that address pay equity issues, analyze the financial impact of addressing pay equity issues, and create a market adjustment implementation strategy supporting the City's goals, objectives, and budget considerations;
- To evaluate benefit offerings in the labor market and make recommendations for better alignment and/or different benefit offerings as indicated by the analysis and best practices;
- To create a comprehensive final report summarizing the compensation study approach and methodology, analytical tools, findings, and recommended compensation structure;

DocuSign Envelope ID: C702B174-42AA-462D-A780-FF4EF1C0B64F

- To recommend appropriate internal salary relationships and allocate classes to salary ranges in a comprehensive salary range plan; and
- To ensure sufficient documentation and training throughout the study, on methods used to determine appropriate salary ranges, methods for logical progression of movement within the salary scale for each classification, and other practices, so that our recommendations can be implemented and maintained in a competent and fair manner.

Overall Objectives:

- To review and understand all current documentation, rules, regulations, policies, budgets, procedures, class descriptions, organizational charts, memoranda of understanding, personnel policies, wage and salary schedules, and related information so that our recommendations can be operationally incorporated with a minimum of disruption;
- To conduct start-up Study Project Team meetings with management, study project staff, and other stakeholders to discuss any specific concerns with respect to the development of classification and compensation recommendations; finalize study plans and timetables; conduct orientation sessions with management, union leadership, and study employees in order to educate and explain the scope of the study and describe what are and are not reasonable study expectations and goals;
- To work collaboratively and effectively with the City and its stakeholders while at the same time maintaining control and objectivity in the conduct of the study;
- To develop a classification and compensation structure that meets all legal requirements, that is totally non-discriminatory, and that easily accommodates organizational change, growth, and operational needs;
- To document all steps in the process and provide documentation and training for Human Resources and other staff, as appropriate, in classification and compensation analysis methodologies so that the City can integrate, maintain, administer, and defend any recommended changes after the initial implementation; and
- To provide effective ongoing communications throughout the duration of the project and continued support after implementation.

Methodology / Work Plan / Deliverables

This section of the proposal identifies the actual work plan. We believe that our detailed explanation of methodology and work tasks clearly distinguishes our approach and comprehensiveness.

Our approach is to complete the classification and job evaluation before completing the compensation review. The reasons for this include:

- The description of the work performed and the requirements for that work are, in the minds of the employees and their supervisors, inextricably associated with the "worth of that work" or compensation, which is often a highly emotional issue. Separating the two phases of the study, even though elements of phases may be conducted concurrently, tends to produce more objective classification results.
- The compensation review will be completed when there is a full understanding of the work of the City, thereby ensuring that the data developed from the labor market and the City's classifications is accurate.

Given these parameters, our approach is as follows:

DocuSign Envelope ID: C702B174-42AA-462D-A780-FF4EF1C0B64F

PHASE I: CLASSIFICATION STUDY

Deliverable A: Meetings with Study Project Team and Management Staff, Initial Documentation Review, and Development of Communications and Engagement Plan

This phase includes identifying the City's Study Project Team, contract administrator, and reporting relationships. Our team of Project Managers and H.R. Associates will conduct an orientation and briefing session with the Study Project Team to explain process and methodology; create the specific work plan and work schedule; identify subsequent tasks to be accomplished; reaffirm the primary objectives and specific end products; determine deadline dates for satisfactory completion of the overall assignment; determine who will be responsible for coordinating/scheduling communications with employees, management, union representation, and the Council; and develop a timetable for conducting the same.

In preparation for this study, we conducted initial meetings with Department Heads to communicate any areas of concerns and pain points they are experiencing with the current classification and compensation system, and to identify those classifications/positions that needed to be studied or revisited since the 2019 study. Included in this task will be the gathering of written documentation, identifying current incumbents, and assembling current class descriptions, organizational charts, salary schedules, budgets, memoranda of understanding ("MOU"), personnel policies, previous classification and compensation studies, and any other relevant documentation to gain a general understanding of City operations.

City terminology and methods of current classification and compensation procedures, as well as the written questionnaire instrument for the classification study that will be used in the job analysis phase will be reviewed and agreed to. We will discuss methodology, agree to formats for class descriptions and compensation results, identify appropriate comparator agencies, benchmark classifications, and benefits to be surveyed for compensation survey purposes. We will respond to any questions that may arise from the various stakeholders.

We will develop a communications and engagement plan to foster organizational buy-in and acceptance of study outcomes and consultant recommendations throughout the project by City stakeholders including employees. The goal of the communications and engagement plan is to build positive and effective relationships with the study stakeholders and achieve consensus whenever possible and to strive to understand and take into consideration stakeholders' ideas, opinions, desires, and issues, and to fully address their concerns. The variety of communication and engagement channels will help inform, consult, involve, collaborate with, and empower City stakeholders and ensure that our methodology and "stakeholder touch-points" are followed and executed at each study milestone.

We are committed to working closely with City study advisors (Human Resources, City leadership, employee representatives, if any, and other stakeholders) to understand the needs of the mutual constituencies (employees) and to ensure that the Study Project Team, K&A team, management, and any employee representatives meet the highest standards of stakeholder interaction, including communicating clearly, politely, honestly, and promptly, and treating everyone fairly, equally, and with respect.

The communications and engagement plan will enable us to respond to questions or concerns in a timely and professional manner. Our typical communication model includes at least weekly or biweekly written status updates to keep the City informed on where we are for every element of the project. Over the last two years, we have learned that most communication can be managed through email and teleconferences

DocuSign Envelope ID: C702B174-42AA-462D-A780-FF4EF1C0B64F

and that the work we do can be accomplished successfully and, in fact, more efficiently, by performing it virtually and remotely.

In addition, the study includes a significant number of meetings with the Study Project Team, Human Resources, management, study employees, and the City Council, as desired. The meetings and "stakeholder touchpoints" that we recommend ensure understanding of the project parameters, enhance accurate intake and output of information, and improve a collaborative and interactive approach that will result in greater buy-in for study recommendations. This interactive approach, although time-consuming, has resulted in almost 100% implementation success of K&A's studies.

Deliverable B. Orientation Meetings with Employees

We will facilitate orientation meetings with study employees and distribute our Position Description Questionnaire ("PDQ") to start the classification portion of the study. While these meetings are not mandatory, they form the beginning of the educational process that continues throughout the study. We will discuss the importance of the employees' involvement in the study and their participation in PDQ completion and job analysis interviews. Project processes will be explained, expectations will be clarified, and elements that are not a part of the study will also be covered. Questions will be answered and a detailed explanation and examples for completing the PDQ will be given.

The Position Description Questionnaire ("PDQ") will be discussed with the Study Project Team and customized as needed to meet the study objectives prior to distributing copies to employees.

In the past, we have typically conducted these orientation sessions in person, onsite, and at various client locations. We have experience in conducting business virtually and have found that it can be a much more efficient and cost effective approach of our clients. We can provide the City with many technological options to ensure a smooth process, as we have with many of our clients during the last two years. Examples include:

- Orientations: Providing more flexible options for employee orientation sessions by offering fewer options per day over a higher number of days to accommodate employee schedules; onsite meetings require a larger number of daily sessions over a more limited number of days.
- FAQs: Preparing a series of FAQ's for each study which are made available to employees after the orientation sessions.
- Recording meetings: Videotaping our employee orientation sessions (we also do this for onsite sessions) for employees who cannot attend a session; or simply recording a video-conference orientation session that employees could watch later.
- Chat lines: Training our staff on the use of communication tools such as chat lines; we intersperse our employee orientation session presentations with multiple points when questions can be asked.
- Post-meeting help: Remaining in the orientation session for about 5-10 minutes after it has "officially" ended in the event some employees want to stay behind to ask questions.
- Safeguards: For employee interviews, as we generally do, we prepare the schedules of dates and times for each employee and the client coordinates scheduling employees with departments, using agreed upon meeting options for employees. Safeguards are in place to ensure that only the employee/ employees (for group interviews) in that time slot can access the meeting, such as virtual "waiting rooms."
- Telephone support: Providing a direct telephone number for the K&A Project Manager to departments in the event there are scheduling or access issues.

DocuSign Envelope ID: C702B174-42AA-462D-A780-FF4EF1C0B64F

- Time between meetings: Scheduling 10-15 minutes between meetings, versus on-site back-to-back meetings; this change results in slightly fewer meetings per day, but provides a less "hurried" nature to the meetings; and because the meetings are not onsite, clients do not need to reserve multiple meeting rooms for multiple days.

Our clients have received these operational changes very positively. We continue to ask our clients for feedback so we can implement continuous improvements. We recognize not all clients have the same technology as we do, which means we must provide viable technology options. While we provide multiple options, the expertise of our associates in asking relevant and probing questions of each study participant to better understand each employee's work is critical to the job evaluation interview process (see more information regarding employee interviews below). Our client-centric approach and methodology does not change with the venue.

Deliverable C. Collection and Review of PDQs

We recommend giving employees in the same classification the option of collaborating on completing a PDQ together, if the employees so choose. At the same time, we will invite employees to complete an individual PDQ if they prefer and if they wish to be interviewed separately. We provide an electronic version of our questionnaire so that employees can more easily complete it. Employees complete the questionnaire and then send it to their supervisor for review, comment, and signature. We typically require a second level of review by the next level of management in the reporting structure. This ensures that all staff have an opportunity to provide information as to what the nature of the job is for each job classification.

Upon receipt of the PDQs in our office, K&A staff will review and analyze the PDQs in detail along with other documentation to obtain an understanding of the duties and responsibilities assigned to each position.

Deliverable D. Interviews with Employees, Supervisors, and Management

Interviews will be scheduled with employees. Because this is a critical step in the information-gathering and educational process, we typically recommend scheduling interviews with at least one employee, in each classification. We expect that the majority of interviews will be individual. However, we do invite employees in multi-incumbent classifications to choose either individual interviews or to be interviewed together as a group, if the work they perform is sufficiently similar. We want to ensure that the process is designed to make employees feel comfortable to speak openly and to have a voice, whether they prefer to speak with us individually or as a group.

Interviews will then be held with supervisory and management staff (division managers, department heads, etc.), who will clarify their own responsibilities and/or confirm the information we have received in the interviews with their staff (we allow more time for these interviews).

The purpose of the interviews is to clarify and supplement the questionnaire data and to respond to potential perception differences regarding roles, tasks, scope, and supervisory responsibilities. The appropriateness of the following will be assessed:

- Work being completed and relationships of positions to each other within a division/department as well as across the organization; and
- Classification structure and reporting structure.

DocuSign Envelope ID: C702B174-42AA-462D-A780-FF4EF1C0B64F

Deliverable E. Classification Concept and Preliminary Allocation

Prior to developing detailed class descriptions, our job evaluation will result in a classification concept and employee allocation document that will be submitted to the City for review and approval. We will compare changes in business need and operations, as well as any reorganizations, with the established classification system and job families as well as review internal relationships between classifications to define the reasons for, and effects of, the proposed changes.

Our job analysis method is the whole position analysis approach. Objective factors in the whole position job analysis methodology include:

1. Decision making/judgment
2. Difficulty and complexity of work
3. Supervisory responsibilities
4. Non-supervisory responsibilities
5. Minimum qualifications
6. Working conditions/risk factors
7. Contacts

This document will list broad class concepts and highlight where significant changes may be recommended, such as creating or collapsing class series in the same functional area and/or separating or combining classifications assigned to different functional areas. We will review and analyze potential career ladders and promotional opportunities, including clearly delineated and distinguished levels within classification series. We will also review, and update established titling guidelines for the studied classifications for appropriate and consistent titling.

A detailed, incumbent-specific allocation list for each position included in the study will be prepared, specifying current and proposed classification title and the impact of our recommendations (reclassification – upgrade or downgrade, title change, or no change).

After we have completed this process, a meeting will be arranged to review any recommended changes to the classification plan with the Study Project Team and department heads.

Deliverable F. Draft Class Description Development

After preliminary approval of the class concepts and allocation lists, new and/or updated class descriptions will be developed for each proposed classification, following the format approved by the City.

From the review of the PDQs and employee interviews, we will update duties, responsibilities, and minimum qualifications of each class specification, as necessary. We will develop new class specifications if duties, responsibilities, and minimum qualifications have changed significantly, and/or if we recommend new classifications/class levels, and/or if operational changes, business needs, or reorganizations, have occurred.

Following EEO Uniform Guidelines, we will review, analyze, and update, as appropriate, knowledge, skills, abilities, education and experience, position definitions, purpose, distinguishing characteristics, supervision received and exercised, position functions and special requirements including licensing and certifications that are required and desirable. We will address relevance and hierarchical consistency of each classification and each class series.

DocuSign Envelope ID: C702B174-42AA-462D-A780-FF4EF1C0B64F

We will also review and update physical demands based on the most typical job functions of each classification in accordance with the ADA.

Finally, we will review each classification's typical job functions and determine exempt vs. non-exempt status in accordance with "white collar" exemptions under the FLSA.

Deliverable G. Facilitation of Draft Class Description Review and Employee Feedback Process

A draft copy of the revised/new class description with allocation recommendation will be submitted to the Project Team and subsequently to each department head so they may provide comments and concerns regarding any modifications to the classification structure and specifications.

Deliverable H. Classification Plan and Draft of Interim Report and Final Report

A Draft Interim Report of the Classification Study will be completed and submitted to the Study Project Team for review and comment. The report will contain:

- Classification recommendations for each studied position, including documentation regarding study goals and objectives, classification methodology, approach, and process as well as all findings, analysis, and resulting recommendations;
- The recommended allocation list, classification title changes, job family and career ladder/career growth issues, reporting relationships, and other factors will all be included;
- The recommended classification structure will be in alignment with current business/ operational needs of the City; and
- Classification concepts and guidelines as well as methods used to determine appropriate classification and level, methods for logical progression of movement between classifications, distinguishing characteristics and other pertinent information for implementation and continued maintenance of the recommendations will be detailed.

Once we have received the City's comments regarding the Draft Interim Report and have made any necessary changes, a Final Classification Report will be developed.

PHASE II: TOTAL COMPENSATION STUDY

Deliverable A. List of Comparator Agencies, Benchmark Classifications, and Benefits to be Collected

During the initial meeting with the Study Project Team, we will discuss and agree to the compensation study factors. We will confirm appropriate, logical and defensible comparator agencies that will be included in the external market survey, which will be the foundation for ensuring that the City's salaries for the studied classifications are competitively aligned with the external labor market. We will also confirm those classifications that will be surveyed in the market (i.e., benchmark classifications), with the intention of internally aligning the remaining classifications with those that were surveyed.

Finally, we will determine the list of benefits that the City wants to include in the total compensation data gathering process.

1. Determination of Comparator Agencies

The selection of comparator agencies is a critical step in the study process. It is our understanding that the City has bargaining unit agreements which stipulate agencies to be used in surveys, and the budget proposed for this study assumes up to 12 comparator agencies. We typically use the

DocuSign Envelope ID: C702B174-42AA-462D-A780-FF4EF1C0B64F

following factors to identify appropriate comparators and will receive approval before proceeding with the total compensation study.

Our recommended methodology is that we involve management, Human Resources, employee representation, and the City Council, in the decision-making process of selecting which comparable agencies are included, **PRIOR** to beginning the study. Our experience has shown that this is the most successful approach. The factors that we typically review when selecting and recommending appropriate comparator agencies include:

- ***Organizational type and structure*** – While various organizations may provide overlapping services and employ some staff having similar duties and responsibilities, the role of each organization is somewhat unique, particularly in regard to its relationship to the citizens it serves and level of service expectation. During this iterative process, the City's current/ previous list of comparators, if any, and the advantages/disadvantages of including them or others would be discussed.
- ***Similarity of population served, City demographics, City staff, and operational budgets*** – These elements provide guidelines in relation to resources required (staff and funding) and available for the provision of services.
- ***Scope of services provided*** – While having an organization that provides all of the services at the same level of citizen expectation is ideal for comparators, as long as the *majority* of services are provided in a similar manner, sufficient data should be available for analysis. When reviewing this factor, the City's unique services would be evaluated in order to ensure that the majority of comparators provide the same services. This ensures that each comparator yields a sufficient number of matches for the City's jobs.
- ***Labor market*** – The reality of today's labor market is that many agencies are in competition for the same pool of qualified employees, because large portions of the workforce don't live in the communities they serve, are accustomed to lengthy commutes, and are more likely to consider changing jobs in a larger geographic area than in the past. Therefore, the geographic labor market area (where the City may be recruiting from or losing employees to) is taken into consideration when selecting potential comparator organizations. As part of this analysis, we will determine whether the City has identified agencies that it competes with for qualified talent; those agencies are taken into consideration for purposes of our analysis. It is important to understand and consider the City's competitive landscape and include agencies in the study to whom the City loses talent.
- ***Cost-of-living*** – The price of housing and other cost-of-living related issues are some of the biggest factors in determining labor markets. We review overall cost-of-living of various geographic areas, median house prices, and median household incomes to determine the appropriateness of various potential comparator agencies.

We typically recommend using 10-12 comparator agencies for all survey benchmarks in order to achieve statistical significance but are flexible and can easily use a different approach based on the City's preferences.

2. Determination of Benchmark Classifications

In the same collaborative manner as described in Step 1 above, we will work with the City's stakeholders to select those classifications that will be surveyed.
"Benchmark classes" are ordinarily chosen to reflect a broad spectrum of class levels. In addition, those that are selected normally include classes that are most likely to be found in other similar

DocuSign Envelope ID: C702B174-42AA-462D-A780-FF4EF1C0B64F

agencies, and therefore provide a sufficient valid data sample for analysis. Internal relationships will be determined between the benchmarked and non-benchmarked classifications and internal equity alignments will be made for salary recommendation purposes. Due to the fact that the labor market typically yields reliable data, we recommend using approximately 60-65% of all classifications as benchmarks but we are happy to use a different model.

3. Determination of Salary and Benefits Data to Be Collected

In addition to base salaries, benefit data elements for a total compensation study normally include at least the following (which are generally available to all staff in a specific job classification):

- **Monthly Salary –** The top of the normal, published salary range. All figures are presented on a monthly or annual basis. We normalize the salary data to reflect number of hours in the work week and/or roll-up of retirement or other benefits in base salaries.
- **Employee Retirement –** This includes two figures: the amount of the employee's State or other public or private retirement contribution that is contributed by the agency and the amount of the agency's Social Security contribution.
- **Insurance –** This typically includes Health, Dental, Vision, and other insurance coverage.
- **Leave –** Other than sick leave, which is usage-based, leave is the amount of days off for which the organization is obligated. We will discuss with the City whether leave days/hours should be converted to direct salary cost in dollars or represented in days/hours.
    - **Vacation:** The number of vacation days available to all employees after five years of employment.
    - **Holidays:** The number of holidays (including floating) available to the employee on an annual basis.
    - **Administrative/Personal Leave:** Administrative leave is normally the number of days available to management staff to compensate for the lack of payment for overtime. Personal leave may be available to other groups of employees to augment vacation or other time off.
- **Deferred Compensation –** We report any employer contribution made on the employee's behalf, whether dollar amount or percentage of salary, which does not require an employee-matching contribution. We can also report employer contributions that do require an employee match and would do so as a separate report.
- **Other –** This category includes any other benefits that are available to all employees within a classification and not already specifically detailed.

Deliverable B. Data from Comparators and Preliminary Analysis of Data

K&A does not collect market compensation data by merely sending out a written questionnaire. We find that such questionnaires are often delegated to the individual in the department with the least experience in the organization and given a low priority. Our experienced compensation analysts conduct all of the data collection and analysis to ensure validity of the data and quality control. This approach also ensures that we compare job description to job description and not just job titles, therefore ensuring true "matches" of at least 70%, which is the percentage we use to determine whether to include a comparator classification or not.

As mentioned above in the Classification methodology, our job analysis method is the whole position analysis approach.

DocuSign Envelope ID: C702B174-42AA-462D-A780-FF4EF1C0B64F

We typically collect classification descriptions, organization charts, salary schedules, personnel policies, budgets, master plans, operational information, MOUs, and other information via website, by telephone, or by an onsite interview. With the prior knowledge from the data gathered directly from each comparator agency and our experience in the public sector human resources field, our compensation analysts make preliminary "matches" and then schedules appointments by telephone, or sometimes in person, with knowledgeable individuals to answer specific questions. We find that information collected using these methods has a very high validity rate and allows us to substantiate the data for employees, management, and governing bodies.

Data will be entered into spreadsheet format designed for ease of interpretation and use. The information will be presented in a format that will identify the comparator positions used for each classification comparison. Information will be calculated based upon both average and median figures allowing the City to make informed compensation decisions. Other elements of the compensation survey report are agencies surveyed; comparable class titles; salary range maximum/control point; number of observations; and percent of the City's salary range is above/below the market values.

In addition, we will include any type of statistical representation and analysis that the City desires such as 60th, 70th, or any other percentiles per the City's compensation philosophy.

Benefits data will be displayed in an easy-to-read format. You will receive three sets of spreadsheets per classification, one with base pay, one with the benefits detail, and one with total compensation statistical data. In addition, we are often asked to collect "other" benefits (as listed in the benefits section above), which we typically report on a separate spreadsheet.

Deliverable D. Draft Compensation Findings/Additional Analysis/Study Project Team Meetings

As part of our transparent approach and communication strategy to ensure organizational buy-in to the study, we share the market survey with the organization. We first distribute our draft findings to the Study Project Team. After their preliminary review, K&A will meet with the Study Project Team and other stakeholders (including Human Resources, management, employees) to clarify data, to receive requests for reanalysis of certain comparators, and to answer questions and address concerns. This provides an opportunity for the Study Project Team and other stakeholders to review and question any of our recommended benchmark comparator matches. If questions arise, we conduct follow-up analysis to reconfirm our original analysis and/or make corrections as appropriate.

Deliverable E. Analysis of Internal Relationships and Alignment

To determine internal equity for all studied positions, considerable attention will be given to this phase of the project. It is necessary to develop an internal position hierarchy based on the organizational value of each classification. Again, we utilize the whole position analysis methodology as described earlier.

By reviewing those factors, we will make recommendations regarding vertical salary differentials between classes in a class series, for example, as well as across departments. This analysis will be integrated with the results of the compensation survey and the City's existing compensation plan.

The ultimate goal of this critical step in the process is to address any potential internal equity issues and concerns with the current compensation system, including compaction issues between certain classifications. We will create a sound and logical compensation structure for the various levels within each class series, so that career ladders are not only reflected in the classification system but also in the compensation system, with pay differentials between levels that allow employees to progress on a clear

DocuSign Envelope ID: C702B174-42AA-462D-A780-FF4EF1C0B64F

path of career growth and development. Career ladders will be looked at vertically, as well as horizontally, to reflect the City's classification structure that was developed during the classification phase of the study, and to identify/resolve any compaction issues.

Deliverable F. Compensation Structure

Depending on data developed as a result of the internal analysis, we will review and make recommendations regarding internal alignment and the salary structure (set of salary ranges, salary differentials, steps within ranges, and/or alternative compensation plans) within which the classes are allocated, based upon the City's preferred compensation model. In addition, we will develop externally competitive benefit comparisons for all classifications.

We will conduct a competitive pay analysis using the market data gathered to assist in the determination of external pay equity and the recommendation of a new base compensation structure, if desired. We will conduct a comparative analysis to illustrate the relationships between current pay practices and the newly determined market conditions and develop solutions to address pay equity issues, analyze the financial impact of addressing pay equity issues, and create a market adjustment implementation strategy supporting City goals, objectives, and budget considerations.

Draft recommendations will be discussed with the Study Project Team and management for discussions and decisions on overall pay philosophy and the practicality of acceptance and prior to developing an Interim Report.

Deliverable G. Final Report and Guidelines for Implementation

Volume II (Draft Interim Report of the Compensation Study) will be completed and submitted to the Study Project Team for review and comment. The report will provide detailed compensation findings, documentation, and recommendations. The report will include:

- An executive summary of the compensation study results;
- A set of all market data spreadsheets;
- A proposed Salary Range Placement document;
- A procedure to address employees whose base pay exceeds the maximum of their newly assigned pay range;
- Implementation issues and cost projections surrounding our recommendations; and
- A guide for rules, policies and procedures for the City in implementing, managing and maintaining the compensation system, as appropriate.

Once all of the City's questions/concerns are addressed and discussed, a Final Classification and Compensation Report will be created and submitted in the City's preferred format. The Final Report will incorporate any appropriate revisions identified and submitted during the review of the draft report.

Deliverable H. Formal Appeals Process

Should the City have a formal appeals process regarding the allocation of positions to classifications and of classifications to salary ranges, this proposal does not cover time regarding a formal appeal process. As mentioned above, however, our internal process usually addresses any of these issues.

Deliverable I. Final Presentation

Our proposal includes multiple meetings and weekly oral and written status/progress updates to the Study Project Team and a final presentation to the team, department heads, and the City Manager.

DocuSign Envelope ID: C702B174-42AA-462D-A780-FF4EF1C0B64F

❖ Expectations of City Support:

In order to conduct this study in the most timely and cost-effective manner, we ask for support in the following areas:

- Timely provision of written documentation, such as current class specifications, union contracts, organizational charts, budget documents, requests for audits, past studies, etc.;
- Assistance in the notification and scheduling of orientation and other meetings and the provision of adequate interview space and resources;
- Assistance in the compilation of current descriptions with the PDQ; collecting and forwarding questionnaires; and in ensuring that materials are complete and returned in a timely manner;
- Assistance in scheduling study project team, bargaining unit, management, employee audit, and other meetings; and
- Meeting agreed-upon timelines.

In terms of time commitment for City staff, we understand that the City hires an outside consultant to conduct and coordinate the entire effort. Therefore, it is our goal to reduce the time commitment of City staff as much as possible and to only request assistance in the coordination of some of the steps in the process, such as scheduling employee orientation meetings, duplicating PDQs, scheduling employee interviews/desk audits, disseminating information, and in general, being a channel of communication between our firm and employees.

❖ Communication with the City:

Our typical communication model includes at least weekly or biweekly written status updates to keep the City informed on where we are during each phase of the project.

In addition, the study includes a significant number of meetings with the Study Project Team, human resources, management, employees, and other stakeholders, as desired. The meetings and "stakeholder touch-points" that we recommend ensure understanding of the project parameters, enhance accurate intake and output of information, and foster a collaborative and interactive approach that will result in greater buy-in for study recommendations. This interactive approach, although time-consuming, has resulted in almost 100% implementation success of K&A's studies.

❖ Post-Implementation Consultation and Support:

We are committed to providing the City with the highest-quality product and service. Providing ongoing consultation and support after study implementation is a service that is included in our professional fees and a continued relationship-building aspect of our client relationship that we highly value.

We often find that clients will call or email with follow-up questions and to discuss certain aspects of the study, ask why decisions and recommendations were made, and other important components of the study. We consider post-implementation support as part of our customer service.

Should the City request any additional onsite meetings and/or training after implementation of the study and/or other specific, identifiable work efforts, such as position reclassification studies, creating new class descriptions, or conducting annual surveys, we would honor our composite hourly rate for actual hours spent at the City. However, from experience, we expect that most follow-up support will be conducted via telephone, email and is absolutely included in our "Not To Exceed Fee" for this project.

DocuSign Envelope ID: C702B174-42AA-462D-A780-FF4EF1C0B64F

❖ Stakeholder Engagement:

The meetings and communications with stakeholders that we recommend ensure understanding of the project parameters, enhance accurate intake and output of information, and encourage a collaborative and interactive approach that will result in greater buy-in for study recommendations. This interactive approach, although time-consuming, has resulted in almost 100% implementation success of K&A's studies.

We believe in an interactive and collaborative process with the whole organization and in a high level of stakeholder contact and interaction to ensure organizational buy-in of the study throughout the entire process. Following are the major milestones at which we touch base with Human Resources, employees, managers, employee representation, and other stakeholders, as appropriate:

- Initial study kick-off and employee/management orientation meetings;
- PDQ completion and review;
- Employee and management interviews;
- Management, and Human Resources review of draft class descriptions;
- Contact with management to address final classification issues;
- Stakeholder input regarding a list of appropriate comparator agencies, benchmark classifications, and benefits to be collected;
- City stakeholder review of compensation study data and contact with them to address any challenges to the market comparables we identified for each classification;
- Stakeholder input on internal salary relationship analysis and recommendations; and
- Stakeholder input regarding final compensation plans and structure recommendations.

These steps will ensure that the study results in a product that is accepted and trusted by all levels within the organization. Beyond sound mechanics, our approach includes sufficient communication steps to ensure that the study methodology is understood and the results are regarded as expert, impartial, and fair.

DocuSign Envelope ID: C702B174-42AA-462D-A780-FF4EF1C0B64F

TIME REQUIREMENTS

Our professional experience is that classification and compensation studies of this scope and for this size organization take approximately eight months to complete, allowing for adequate PDQ completion, interview time, classification description review and/or development, compensation data collection and analysis, review steps by the City, the development of final reports, any appeals, and presentations.

The following is a suggested timeline (which can be modified based on the City's needs):

Deliverables	Phase I - Classification Study	Completion
A.	Meetings with Study Project Team and Management Staff and Initial Documentation Review	Week 1
B.	Orientation Meetings with Employees and Distribution of PDQ	Week 3
C.	Collection and Review of PDQs	Week 9
D.	Interviews with Employees, Supervisors, and Management; Position Allocations for Study Employees	Week 12
E.	Meetings with Department Heads re Final Recommendations	Week 16
F.	Draft Class Description Development	Week 22
G.	Facilitation of Draft Class Description Review	Week 24
H.	Classification Plan and Draft of Interim Report and Final Report	Week 32
I.	Final Presentation	As Scheduled
Deliverables	**Phase II – Total Compensation Study**	**Completion**
A.	List of Comparator Agencies and Benchmark Classifications	Week 3
B.	Data Collection, Analysis and Preliminary Data Review	Week 20
C.	Draft Compensation Findings and Meeting with Project Team	Week 22
D.	Internal Job Analysis	Week 26
E.	Compensation Structure Development	Week 26
F.	Preparation of Draft Final and Final Report and Deliverables	Week 32
G.	Final Presentation	As Scheduled

DocuSign Envelope ID: C702B174-42AA-462D-A780-FF4EF1C0B64F

COST PROPOSAL

We have often found our process requires a very high level of time commitment, which sometimes results in a higher proposal cost. We believe that our methodology and implementation success rate is attributable to the significantly greater level of contact we have with employees, employee representation, management, and the governing body. The time we commit to working with the employees (orientations and briefings, meetings with employees via personal interviews, sharing of compensation survey data, management review and feedback processes, etc.) results in significantly greater buy-in throughout the process and no formal appeals at the end of the study.

In fact, our firm has only had a handful of formal appeals to any of our studies in our 39 years in business. It has been our experience that the money and time invested in stakeholder communication throughout the study are money and time saved during implementation. Numerous times our firm has been hired after an agency has gone through an unsuccessful study whose results were rejected or appealed and whose implementation was very controversial. The result was a divided organization with hostility and animosity between employees/employee representation and management. Whenever our firm was hired after such an unfortunate experience, study stakeholders were amazed at our open and all-inclusive process, our efforts to elicit equal stakeholder input, and our development of recommendations that were accepted as fair and reasonable and understood by management, employees, and the governing body. Our success rate is also attributable to the fact that we have 39 years of experience working with employees of all types of backgrounds, educational levels, and work experiences, and we are accustomed to successfully communicating with and educating them throughout the process.

Over the last few years, K&A and all our clients have become accustomed to conducting our organizational, classification, and compensation studies virtually. From that experience, we have learned that studies can be conducted successfully by using virtual technologies and performing the work remotely. We have also learned that this represents a significant cost savings for our clients, both in terms of consultant travel time and travel expenses, as well as less disruption and reduced non-productivity for the client's workforce. We have several technological solutions that can easily facilitate the entire process (see proposal narrative above). Conducting meetings and orientations virtually means that the client's employees do not have to spend time traveling from one location to another and will not be pulled away from their workstations for lengthy periods of time. They can simply click on a link or call in from a phone to participate. This approach also represents significantly less logistical planning on part of the client in order to reserve meeting rooms and making space available for large employee groups, as well as multiple consultants coming onsite to conduct interviews within a condensed period of time. Conducting orientations and interviews virtually provides us with much more flexibility in scheduling and accommodating multiple different shifts and schedules among a large workforce.

In addition, K&A strives to be as "green" an organization as possible and we are certainly concerned about our carbon footprint. We find that multiple trips to client sites that can sometimes involve multiple consultants flying on planes and/or driving cars, is not as environmentally conscious as we would like to be. Considering the effectiveness of virtual meetings, especially when meetings are only one hour or one-and-a-half hours at a time, onsite travel does appear to create a larger footprint than necessary. This can especially be true for final presentations to leadership teams and governing bodies that are often less than 60, or even 30, minutes long.

DocuSign Envelope ID: C702B174-42AA-462D-A780-FF4EF1C0B64F

For purposes of this cost proposal, we are assuming that all meetings and presentations will be conducted virtually/remotely and no onsite travel to City offices will occur. Should the City desire onsite meetings, we will be happy to provide our per diem cost for onsite meetings based on travel time and market rate travel cost at the time.

Task/ Deliverable	Phase I - Classification Study Estimated No. of Positions to be Reviewed – 138	Cost
A.	Meetings with Study Project Team and Management Staff and Documentation Review	$1,480
B.	Orientation Meetings with Employees and Distribution of PDQs; *note that PDQ's will be short version to facilitate completion* and that 138 positions have been identified as requiring this level of review (see Attachment A); where possible we will use focus group sessions in Public Works (no new PDQ's required for this group but we will review those from the original study) and Recreation and Human Services	$4,440
C.	Collection and Review of PDQs - based on 130 PDQ's to be reviewed	$7,400
D.	Interviews with Employees, Supervisors, and Management- based on an interview rate of 80% - or a total of 120 employees, using group/focus group sessions where needed; the budget for this task includes allocations for proposed study positions in Appendix A only. Current employees who did not complete a PDQ (including those who joined the City after the initial study) will be placed in the most relevant classification recommended in the original study and/or will be assigned to the same classification as their current peers. New classification specifications and/or changed allocations will be provided only for the total number of positions identified in Appendix A.	$28,860
E.	Meetings with Department Heads to Discuss Original Classification Plan and Concepts and Extent of Final Recommended Classifications – research and resolve classification and allocation recommendation issues.	$8,510
F.	Draft Class Description Development ***Completed:*** *We have developed 77 of the original 103 classifications recommended from the 2019; based on department feedback, we anticipate another 60 will need to be prepared (for a total of 137); and some modification of the original 77 will be needed.* ***Work to be done:*** *Develop approximately 60 new classification specifications; minor revisions to 77 classification specifications*	$37,370
G.	Facilitation of Draft Class Description Review and Feedback Process ***Proposed work:*** *We recommend working with HR and Management to review all 134 classifications; due to the amount of time that has passed, we anticipate this process to take a more significant amount of time, i.e., approximately one hour per classification.* ***Not included:*** *At this time, we are not budgeting time to work with individual employees to receive feedback from them regarding the new classifications,*	$24,790

DocuSign Envelope ID: C702B174-42AA-462D-A780-FF4EF1C0B64F

Task/ Deliverable	Phase I - Classification Study Estimated No. of Positions to be Reviewed – 138	Cost
	we anticipate that the City would handle that; this is due to the fact that 165 have left the City since the last study and 87 employees are new. If the City would like our assistance, we would do this work at our standard hourly rate.	
H.	Classification Plan and Draft of Interim Report and Final Report	$6,660
I.	Final Presentation (virtual meeting)	$740
	Additional unanticipated meetings with study stakeholders	$1,850
	Total Classification Project Fee	**$122,100**
	Combined professional and clerical composite total	**$122,100**
Task/ Deliverable	**Phase II - Compensation Study**	**Cost**
A.	Initial Documentation Review, Meetings with Study Project Team and Management Staff	$2,220
B.	List of Comparator Agencies, Benchmark Classifications, and Benefits to Be Collected	$2,960
C.	Data Collection, Analysis and Preliminary Data Review *Up to 75 benchmarks, up to 12 comparator agencies, **total compensation**, including benefits*	$55,500
D.	Draft Compensation Findings and Meeting with Project Team	$12,800
E.	Internal Job Analysis	$2,220
F.	Compensation Structure Development	$2,960
G.	Preparation of Draft Final and Final Report and Deliverables	$2,960
H.	Final Presentation (Virtual)	$1,110
	Anticipated hours for additional unscheduled meetings and phone calls	$1,110
	Combined professional and clerical composite total	**$83,840**
	Expenses are **included** in the composite hourly rate:	**N/A**
	Expenses include but are not limited to duplicating documents, binding reports, phone, supplies, postage, parking, meals, travel time, etc.	
	TOTAL PROJECT COST NOT TO EXCEED:	**$205,940**

Our cost proposal does not include time to support the City during any labor negotiations that may follow this study. If we are needed for this work, our composite hourly rate will apply and we will charge on a time-and-materials basis.

DocuSign Envelope ID: C702B174-42AA-462D-A780-FF4EF1C0B64F

Billing Structure

The following is how the City will be invoiced upon the completion of each milestone:

Milestone	Phase I - Classification Deliverables	Amount
Milestone #1	10% of total project fee will be charged upon execution of the contract	**$12,210**
Milestone #2	Completion of Deliverables A, B, C and D	**$37,962**
Milestone #3	Completion of Deliverables E and F	**$41,292**
Milestone #4	Completion of Deliverable G	**$22,311**
Milestone #5	Remainder of project fee upon delivery of final report - Deliverables H and I, and additional meeting fee	**$8,325**
Milestone	**Phase II - Compensation Deliverables**	**Amount**
Milestone #1	10% of total project fee will be charged upon execution of the contract	**$8,384**
Milestone #2	Completion of Deliverables A, B, and C	**$54,612**
Milestone #3	Remainder of project fee upon delivery of final report – Deliverables D, E, F, G and H and additional meetings	**$20,844**
	TOTAL:	**$205,940**

DocuSign Envelope ID: C702B174-42AA-462D-A780-FF4EF1C0B64F

CONTRACTUAL CONSIDERATIONS

We will be pleased to sign the City's professional services agreement for a Classification and Compensation Study. We respectfully request that the City will allow for a period of negotiation of certain terms in the professional services contract related to liability, indemnity, insurance, and other terms. We have found that we have always come to an agreement with all of our clients in the past and appreciate the City's flexibility in reviewing certain terms in a collaborative fashion between our legal counsels.

It is our practice to provide the coverage below in lieu of the City contract insurance language. We therefore propose to replace the insurance language in the RFP's sample agreement with coverage language provided by Gallagher as follows (we attach our Memorandum of Insurance for your review as well):

Gallagher shall at all times during the term of this Agreement and for a period of two (2) years thereafter, obtain and maintain in force the following minimum insurance coverages and limits at its own expense:

- Commercial General Liability (CGL) insurance on an ISO form number CG 00 01 (or equivalent) covering claims for bodily injury, death, personal injury, or property damage occurring or arising out of the performance of this Agreement, including coverage for premises, products, and completed operations, on an occurrence basis, with limits no less than $2,000,000 per occurrence;
- Workers Compensation insurance with statutory limits, as required by the state in which the work takes place, and Employer's Liability insurance with limits no less than $1,000,000 per accident for bodily injury or disease. Insurer will be licensed to do business in the state in which the work takes place;
- Automobile Liability insurance on an ISO form number CA 00 01 covering all hired and non-owned automobiles with limit of $1,000,000 per accident for bodily injury and property damage;
- Umbrella Liability insurance providing excess coverage over all limits and coverages with a limits no less than $10,000,000 per occurrence or in the aggregate;
- Errors & Omissions Liability insurance, including extended reporting conditions of two (2) years with limits of no less than $5,000,000 per claim, or $10,000,000 in the aggregate;
- Cyber Liability, Technology Errors & Omissions, and Network Security & Privacy Liability insurance, including extended reporting conditions of two (2) years with limits no less than $2,000,000 per claim and in the aggregate, inclusive of defense cost; and
- Crime insurance covering third-party crime and employee dishonesty with limits of no less than $1,000,000 per claim and in the aggregate.
- All commercial insurance policies shall be written with insurers that have a minimum AM Best rating of no less than A-VI, and licensed to do business in the state of operation. Any cancelled or non-renewed policy will be replaced with no coverage gap, and a Certificate of Insurance evidencing the coverages set forth in this section shall be provided to Client upon request.

APPENDIX A

K&A Staff Resumes

DocuSign Envelope ID: C702B174-42AA-462D-A780-FF4EF1C0B64F

Key Personnel Biographies

Georg S. Krammer, M.B.A., S.P.H.R.
Managing Director

Georg brings over 22 years of management-level human resources experience to Koff & Associates with an emphasis in classification and compensation design; market salary studies; organizational development; executive recruitment; performance management; and employee relations, in the public sector and in large corporations as well as small, minority-owned businesses.

After obtaining a Master of Arts in English and Russian and teaching credentials at the University of Vienna, Austria, Georg came to the United States to further his education and experience and attained his Master of Business Administration from the University of San Francisco. After starting his HR career in Wells Fargo's college recruiting department, he moved on to HR management positions in the banking and high-tech consulting industries. He had five years in the private sector where he served as an HR Manager, and Administrative Officer, and then HR Director before entering the public sector. With his wide-ranging and deep experience as a well-rounded senior HR generalist, his education in business and teaching, his depth and breadth of experience with public sector HR needs, programs, and functions, Georg's contribution to K&A's variety of projects greatly complements the Koff & Associates Human Resources and Recruitment Services team.

He has spearheaded several hundred classification, compensation, organizational, strategic planning, etc., studies for hundreds of cities, towns, counties, and special districts throughout the State of California and has contributed to more than quadrupling the size of Koff & Associates as a result of the success of his projects and the subsequent expansion of the business through referrals from satisfied clients. Georg joined K&A in 2003 and has been the firm's Chief Executive Officer since 2005.

In the last few years, Georg has been the Project Director/Key Personnel for classification and/or compensation studies, organizational assessments, and other HR projects, at the following agencies:

Debbie Owen, CCP
Project Manager

Debbie has over 28 years of experience providing classification and compensation services to public sector clients spanning local government sectors including cities, counties, special districts, and transit agencies. Prior to beginning her public sector career, Debbie worked as a Compensation and Benefits Specialist in the private sector for five years.

In 1992, Debbie obtained her certification as a Certified Compensation Professional (“CCP”) from the American Compensation Association (now *WorldatWork*); to ensure current knowledge of compensation and benefits program trends and best practices, she maintains active membership in the *WorldatWork* organization.

DocuSign Envelope ID: C702B174-42AA-462D-A780-FF4EF1C0B64F

Debbie's practitioner and project management experience has been primarily focused on the design and development of classification and compensation programs for a diverse range of public sector clients with varying project needs. For the last 20 years, Debbie has served in a project management capacity, working with clients to evaluate their classification and compensation systems and needs; she directs and reviews the work of project teams to provide clients with high quality deliverables consistent with best practices; and she prepares/delivers presentations designed to inform clients on study processes, activities, methodologies and outcomes.

Since joining K&A, Debbie has worked on classification and/or compensation studies, organizational assessments, and other HR projects for the following agencies, either as Co-Project Director or as a Project Manager:

- **Cities/Towns:** Bakersfield, Campbell, Coachella, Davis, El Monte, Gardena, Hemet, Long Beach, Murrieta, National City, Newman, Palm Desert, San José, Redwood City, Santa Clara, Seattle (WA), Spokane (WA), West Sacramento, Yreka.
- **Counties:** Contra Costa, El Dorado, Fresno, Humboldt, Mendocino, Sonoma, Trinity.
- **Education:** Los Angeles Unified School District, Riverside Community College District Victor Valley Community College District, Yuba Community College District.
- **Special Districts:**
    - Community Services Districts: El Dorado Hills Community Services District, Livermore Area Recreation and Parks District.
    - Housing/Economic Development: Housing Authority of the County of San Bernardino, Housing Authority of Santa Clara County, Los Angeles County Development Agency (LACDA), San Diego Housing Commission.
    - Public Utilities: Sacramento Municipal Utility District.
    - Transportation: AC Transit, El Dorado County Transit Authority, Port of Oakland, San Francisco Bay Area Water Emergency Transportation Authority, Bay Area Rapid Transit (BART), Orange County Transportation Authority (OCTA), San Mateo County Transit District.
    - Wastewater/Water: Beaumont-Cherry Valley Water District, Coachella Valley Water District, Cucamonga Valley Water District, Eastern Municipal Water District, Inland Empire Utility District, Leucadia Wastewater District, Napa Sanitation District, Sammamish Plateau Water District (WA), Sonoma County Water Agency, State Water Contractors, Sweetwater Authority, Trabuco Canyon Water District, Truckee Sanitary District, Western Municipal Water District.
- **Other:** California State Auditor's Office, Contra Costa County Employee Retirement Association, Orange County Mosquito and Vector Control District, Tri-City Mental Health Authority.

Debbie will serve as the Co-Project Director for this study; together with Georg, she will coordinate all of K&A's efforts, will attend all meetings with the City, and will be responsible for all work products and deliverables.

Kari Mercer, SPHR
Project Manager

Kari has over 13 years of human resources experience serving on staff for private and public sector organizations in addition to serving in a consulting capacity. Her experience includes work in classification

DocuSign Envelope ID: C702B174-42AA-462D-A780-FF4EF1C0B64F

and compensation, labor relations, MOU administration, policy development and administration, recruitment and examination, and general human resources administration.

As a human resources consultant, Kari has specialized in managing and conducting a diverse range of classification and compensation studies for public sector agencies throughout California and agencies in Arizona, New Mexico, Texas, and Maryland. As a project manager, she provides leadership to project teams and works closely with client stakeholder groups to ensure quality deliverables and successful project outcomes.

Since joining Koff & Associates, Kari has worked on a wide variety of classification and compensation projects for the following agencies:

- **Cities/Towns:** Anaheim, Arroyo Grande, Atascadero, Belmont, Hayward, Madera, Manteca, Merced, Milpitas, Oakland, Perris, Pleasant Hill, Redwood City, San Pablo, Santa Clara, Saratoga, Seal Beach, Seaside, Tracy, Vallejo
- **Counties**: El Dorado, Fresno, Humboldt, Merced, Monterey, Orange, San Joaquin
- **Special Districts**: Coachella Valley Public Cemetery District, Cosumnes Community Services District, First 5 of Alameda County, Foothill-DeAnza Community College District, Housing Authority of the City of Santa Barbara, Housing Authority of the County of San Bernardino, Livermore Area Recreation and Park District, Mendocino Coast Recreation and Park District, Port of Oakland, Orange County Fire Authority, Santa Clara County Housing Authority, Superior Court of California-Kern County, Sweetwater Authority, Travis Unified School District, Truckee Sanitary District, West Valley Mission Community College District, Valley County Water District

She earned her B.S. degree in Business Administration with an emphasis on Human Resources Management at California State University, Fresno and is a certified Senior Professional in Human Resources (SPHR). Kari serves as a Personnel Commissioner for the City of Clovis and is a member of Central California SHRM.

Kari will provide managerial project support throughout this effort, including classification analysis, interviews with employees and management, compensation data collection and analysis, internal job analysis, development of recommendations, and implementation strategies.

Alyssa Thompson, Ph. D.
Senior Consultant

Alyssa has over 22 years of human resources experience in classification and compensation analysis and development, performance management, affirmative action program development, and recruitment.

Alyssa also has experience in designing and conducting quantitative and qualitative research studies.
Since joining K&A in 2007, Alyssa has led and worked on well over 300 classification, compensation, organizational assessment, and recruitment projects for cities, counties, and special districts, including but not limited to some of these more recent projects:

- **Cities and Towns**: Concord, Danville, Discovery Bay, Fremont, Hayward, Hillsborough, Los Altos Hills, Monterey, Napa, Oakland, Orange, Palm Desert, Piedmont, Redlands, Sacramento, San Diego, Santa Barbara, Santa Rosa, Vallejo
- **Counties**: Bernalillo (New Mexico), Humboldt, Orange, Placer, San Joaquin, San Mateo, Solano, Tehama, Tuolumne

DocuSign Envelope ID: C702B174-42AA-462D-A780-FF4EF1C0B64F

- **Special Districts**:
  - Community Services District: Cosumnes CSD, Hayward Area Recreation and Park District, Heritage Ranch CSD, Tualatin Hills Park & Recreation District (OR)
  - Fire and Police Protection: Sacramento Metropolitan Fire District
  - Housing/Economic Development: Housing Authority of the County of Alameda, Oakland Housing Authority, San Diego Housing Commission, Santa Clara County Housing Authority
  - Open Space: Midpeninsula Regional Open Space District
  - Public Utilities: East Bay Municipal Utility District, Northern California Power Agency
  - Transportation: Alameda County Transportation Commission, Livermore Amador Valley Transit Authority, Metropolitan Transportation Commission, Ontario International Airport, Port of Hueneme, Port of Long Beach, Riverside County Transportation Commission, SACOG (Sacramento Area Council of Governments), Western Riverside Council of Governments
  - Wastewater: Central Contra Costa Sanitary District, Central Marin Sanitation Agency, Encina Wastewater Authority, Orange County Sanitation District, Vallejo Flood and Wastewater District
  - Water: Alameda County Water District, Bay Area Water Supply & Conservation Agency, Coastside County Water District, Contra Costa Water District, Dublin San Ramon Services District, Mid-Peninsula Water District, San Bernardino Valley Water Conservation District, Santa Clara Valley Water District, Santa Clarita Valley Water Agency, South Coast Water District, Valley County Water District, Zone 7 Water Agency
- Education: Alameda Unified School District, Berkeley Unified School District, Cutler-Orosi Unified School District, Foothill-De Anza Community College District, Mount San Antonio College, Salinas Union High School District, Travis Unified School District, West Valley Mission Community College District
- Courts: Habeas Corpus Resource Center, Superior Court of California-County of Orange

She earned a Bachelor's degree in Psychology with a minor in Sociology-Organizational Studies from the University of California, Davis, and a Ph.D. in Organizational Psychology from Alliant International University.

Alyssa will provide consultant support throughout the effort, including classification analysis, interviews with employees and management, compensation data collection and analysis, internal job analysis, development of recommendations, and implementation strategies.

Lindsay Christopher
Senior Consultant

Lindsay's professional qualifications include ten years of experience working in the public sector, mostly with Alameda County. In her role as Human Resources Analyst, she was responsible for classification and compensation projects, as well as recruitment and selection, in a Civil Service, merit-based, environment. Mostly recently, she continued to focus on classification and compensation projects at East Bay Regional Park District.

Since joining K&A in 2019, Lindsay has worked on studies for the following:

DocuSign Envelope ID: C702B174-42AA-462D-A780-FF4EF1C0B64F

- **Cities:** Gardena, Hemet, Milpitas, Tracy, Corona, Seattle (Library), Napa, Dinuba, Town of Truckee, san Leandro, Pleasant Hill, San Jose, Upland, Phoenix,
- **Counties:** Humboldt, **Butte, Kings,** San Diego, Contra Costa
- **Special Districts:** Contra Costa County Employees' Retirement Association, Greater LA County Vector Control District, Orange County Sanitation District, Purissima Hills Water District, Marin Municipal Water District, Housing Authority of the City of Santa Barbara, Tri-City Mental Health Authority, Victor Valley College, Buena Park Library District, East Bay Regional Park District, Tualatin Hills Park and Recreation District, Valley Water, San Luis and Delta Mendota Water Authority,_ Desert Recreation District, Santa Clara Valley Water District, Regional Government Services, Compton Community College District, Port of Oakland, LA County Development Agency, Albuquerque Housing Authority, Metropolitan Transportation Commission

A Bay Area native, Lindsay earned her B.A. degree in Sociology with a concentration in Criminology from San Jose State University.

Lindsay will provide Senior H.R. Associate support throughout this effort, including classification analysis, interviews with employees and management, compensation data collection and analysis, internal job analysis, development of recommendations, and implementation strategies.

Monica Garrison-Reusch, B.A., M.B.A.
Consultant

Monica has over 15 years of human resource program experience, all of which have been spent serving as either a team consultant or project manager on projects working with public sector agencies. Monica's primary professional focus over the last several years has been on classification and compensation practices.

Prior to joining K&A, Monica performed classification and compensation consulting services as either a team member or project manager on varied projects including large scale studies done for the Counties of Madera, Sacramento, Bernalillo (in New Mexico), and the California State Department of Personnel Administration. Monica also developed and served as a Co-Trainer for a two-day course on Classification and Compensation.

Monica's depth of experience allows her to provide a broad range of human resources services to public agencies. She specializes in compensation projects focusing on both base salary and total compensation analysis studies. Monica has also worked on project teams conducting classification studies and organizational analysis, including performing the full range of classification analysis and conducting in-depth survey and analysis of organizational structures and past organizational practices.

Since joining K&A, Monica has worked on studies for the following clients:

- **Cities:** Cotati, Crescent City, Pleasant Hill, Sacramento, Vallejo
- **Counties:** El Dorado, Mendocino, Monterey, Trinity
- **State**: California State Auditor's Office
- **Special Districts:** AC Transit, Cosumnes Community Services District, East Bay Municipal Utility District, Eastern Municipal Water District, El Dorado County Transit Authority, First 5 Contra Costa County, First 5 Santa Clara County, Hayward Area Recreation and Park District, Livermore Amador Valley Transit Authority, Mendocino Coast Rec and Park District, Mojave Water Agency, North Tahoe Public Utility District, Orange County Transportation Authority, State Water Contractors, Trabuco Canyon Water District

DocuSign Envelope ID: C702B174-42AA-462D-A780-FF4EF1C0B64F

She earned an MBA with an emphasis in Marketing at Golden Gate University and a Bachelor of Science in Business Administration from the University of Southern California.

Monica will provide Senior H.R. Associate support for this project, including classification analysis, interviews with employees and management, compensation data collection and analysis, internal job analysis, development of recommendations, and implementation strategies.

Arlene Marks Gibbs, BS, MPA, SPHR, IPMA-CP
Associate Consultant

Arlene Gibbs possesses over thirty years of Human Resources management experience including spending over twenty years in the public sector working for both large and small education, municipal and special district organizations in California.

Her public sector experience includes serving as the Chief Human Resources Officer for San Diego State University which is the largest California State University campus with over 6,700 faculty and staff. While at San Diego State, Arlene led the HR Directors Committee for the 23 campus system of HR service delivery. Her experience also includes senior and executive HR management roles with several small and large public agencies including the City of San Jose, the City of Tustin as well as air and water/wastewater special districts.

Arlene's experience includes all facets of Human Resources, Employee & Labor Relations. She is an experienced labor contract negotiator having negotiated many public sector labor agreements while serving as the Chief Spokesperson/Labor Negotiator. In addition, her experience includes managing recruitment and selection processes for all types of public sector positions, handling employee benefits functions, responding to labor and employee relations issues, coordinating classification and compensation studies, complying with labor laws, conducting personnel investigations, and managing a wide variety of general human resources functions.

Arlene holds a Masters' Degree in Public Administration from California State University Northridge and a Bachelor of Science Degree in Business Administration with an emphasis in Labor Relations from California State University Long Beach. She also is certified as an IPMA-CP and as a Senior Professional in Human Resources (SPHR).

Arlene has also led and participated in local, regional as well as statewide efforts in small and large agencies with the League of California Cities, IPMA as well as serving as a resource for City, County, State and Local Boards, Councils, Committees and Commissions.

Some of the K&A classification and compensation projects Arlene has worked on include but are not limited to:

- **Cities/Counties/Towns**: County of Butte, City of Bellflower, City of Concord, City of Cupertino, Humboldt County, City of Los Altos, Town of Los Altos Hills, and the City of Pinole.
- **Special Districts**: Dublin San Ramon Services District, Garfield County Public Library District (CO), Coachella Valley Water District, Foothill De Anza Community College District, and the Los Angeles County Development Authority.

Arlene will provide Senior H.R. Associate support throughout each effort, including classification analysis, interviews with employees and management, compensation data collection and analysis, internal job analysis, development of recommendations, and implementation strategies.

DocuSign Envelope ID: C702B174-42AA-462D-A780-FF4EF1C0B64F

Sarah Nunes, M.A.
Consultant

Sarah's professional qualifications include over 19 years of public sector experience with the Human Resources Department of the City of San José. Starting at the analyst level and eventually rising to Division Manager, she gained experience in recruitment and selection, classification and compensation, and general human resources administration.

Since joining Koff & Associates in 2017, Sarah has worked on Classification and Compensation studies for the following agencies:

DocuSign Envelope ID: C702B174-42AA-462D-A780-FF4EF1C0B64F

- **Counties**: Del Norte, Fresno, Imperial, Lake, Madera, Marion, Monterey, Montgomery, North, Placer, Sonoma, Ventura
- **Special Districts**: Alameda County Superior Court, California Department of Corrections and Rehabilitation, California Department of Public Health, CAL FIRE, CalVans, Central California Alliance for Health, Department of Transportation, Department of Water Resources, East Bay Regional Park District, Elk Grove Water District, Hayward USD, Hidden Valley Lake CSD, High Speed Rail, Kern Superior Court, Kings County Firefighters Assoc, LA County Sanitation, LACERA, Lakeside USD, League of CA Cities, Las Virgenes MWD, Merced USD, Montgomery College, Merit System Protection Board (MD), North County Transit District, Orange County Transportation Agency, CA Public Employment Relations Board, Rio Linda Elverta CWD, Sacramento Superior Court, Sacramento Area Flood Control Agency, San Diego Association of Governments, Santa Ana Water Resources, Sacramento Municipal Utilities District, Stanislaus Superior Court, CA State Bar, Ventura Regional Sanitation District, Western Area Power Administration

Since joining K&A in August of 2020, Ariele has worked on recruitments for the following agencies:

- City of Richmond, City of Sacramento, Dublin San Ramon Services District

Prior to joining K&A, Ariele performed full cycle recruiting for a large state-funded social services agency for six years. In this time, she screened, interviewed, hired, and performed onboarding duties for over 200 employees at all levels from clerical to executive. Additionally, she performed employee relations and labor relations work, conducted internal investigations, created and presented management training, wrote and delivered adverse employment actions, and served as liaison to the local SEIU chapter.

Ariele earned her B.A. degree in Interpersonal and Small Group Communication Studies and M.A. degree in Organizational and Instructional Communication Studies from California State University, Sacramento. She holds the HR professional certification SHRM-CP and is certified in Basic Mediation Skills.

Janna Dinkelspiel
Associate Consultant

Janna Dinkelspiel came to Koff & Associates in August 2022 with over 15 years' experience in private and public sector human resources. Most recently Janna was a Senior Employee Relations Analyst in a municipality where she gained well rounded experience in recruitment and retention, employee relations, labor relations, policy development, performance management, training and development and classification and compensation. Janna was the City's subject matter expert for classification and compensation while conducting and implementing three large-scale compensation studies for the City, as well as assisting the executive team with creation of a compensation policy.

Janna has a degree in Business Administration from the University of Washington and holds a Senior Professional Human Resources Certificate from HRCI.

Edward Hsi
Associate Consultant

Edward Hsi has over 5 years of public-sector human resources experience with over 4 years in classification and compensation. His experience includes public sector work for California Public Utilities Commission and Glendale Community College. Edward joined Koff and Associates in November 2022.

DocuSign Envelope ID: C702B174-42AA-462D-A780-FF4EF1C0B64F

Prior to joining Koff and Associates in 2022 he worked as a Classification and Compensation Analyst for Glendale Community College including taking part in managing, coordinating and participating in its District-wide classification study.

Edward earned his B.A. degree in Psychology at the University of California, Riverside and his M.S. degree in Industrial/Organizational Psychology at San Jose State University.

Kelly Barns
Associate Consultant

Kelly Barns has over 17 years of experience in a variety of leadership and technical public-sector human resources and risk management roles, from analyst to, Risk Manager to, Assistant Director and Director of Human Resources in municipal government. While a well-rounded practitioner and generalist with experience in talent acquisition, labor relations, classification and compensation, policy and contract development, performance management, employee engagement, Leaves and ADA administration and management, training and development, workplace investigations, health and safety, workers' compensation, employee benefits, liability administration and management, and general Human Resources and Risk Management administration. Kelly joined Koff & Associates in March 2022.

Kelly has a degree in Business Administration and Management, is a Human Resources Certified Professional through International Public Management Association of Human Resources (IPMA-CP) and has a Senior Professional Human Resources Certificate (SPHR).

Kelly will provide Human Resources Associate support throughout each project role, primarily consist of project and technical support in, classification analysis, interviews with employees and management, compensation data collection and analysis, internal job analysis, and development of recommendations. Kelly has a passion for engaging, collaborating with, and supporting clients, strengthening employee relations and community partnerships.

Cindy Harary, B.A.
Consultant

Cindy's professional qualifications include over 32 years of experience in the Human Resources field, primarily in classification and compensation. She spent the first 11 years in the public sector working for the City of Whittier, California, where she started out in their Public Works Department before moving to the Human Resources Department. She gained experience in classification and compensation, recruitment and selection, employee training and development, labor relations, and general human resources administration.

For the next 16 years, Cindy worked as a Human Resources Consultant for a consulting firm where she specialized in conducting classification and compensation studies for multiple public sector agencies including cities, counties, and special districts as well as several private sector clients. Some of the Orange County Cities she worked on in partnership with other consultants at that firm were: Cities of Brea, Laguna Beach, Lake Forest, La Palma, Los Alamitos, Placentia, San Clemente, Stanton and Tustin. In Los Angeles County, her work includes: Cities of Corona, Downey, El Monte, Manhattan Beach, and Upland. Finally, in San Bernardino County she has worked on the City of Rancho Cucamonga.

Since joining Koff & Associates in 2015, Cindy has worked on Classification and/or Compensation studies for:

DocuSign Envelope ID: C702B174-42AA-462D-A780-FF4EF1C0B64F

- **Cities/Towns**: Anaheim, Big Bear Lake, Campbell, Carmel, Corona, Danville, Davis, Indian Wells, Laguna Niguel, Los Altos, Manteca, Menifee, Murrieta, National City, San Diego, Santa Ana, Santa Barbara, Seal Beach, Tracy, Yucca Valley
- **Counties**: Orange
- **Education**: Compton College
- **Special Districts:** Alameda Housing Authority, Altadena Library District, Bay Area Water Supply and Conservation Agency, Cosumnes Community Services District, Eastern Municipal Water District, Encina Wastewater Authority, Housing Authority of Alameda County, Housing Authority County of San Bernardino, Housing Authority for the County of Santa Barbara, Humboldt Waste Management Authority, Inland Empire Utilities Agency, Monte Vista Water District, North Coast County Water District, Orange County Fire Authority, Orange County Mosquito & Vector Control District, Oro Loma Sanitary District, Port of Hueneme, Rincon del Diablo Municipal Water District, Riverside County Transportation Commission, Santa Clarita Valley Water Agency, South Coast Air Quality Management District, Sweetwater Authority, Trabuco Canyon Water District, Vallecitos Water District, Water Replenishment District of Southern California, Western Municipal Water District

Cindy earned her B.A. degree in Broadcast Journalism at California State University, Long Beach.

Cindy will provide H.R. Associate support throughout this effort, including classification analysis, interviews with employees and management, compensation data collection and analysis, internal job analysis, development of recommendations, and implementation strategies.

Renate Tiner, B.Sc.
Associate Consultant

Renate's professional qualifications include five years of both non-profit and private sector Human Resources experience. Starting in Human Resources administration and rising into Human Resources management, she gained experience in full-cycle recruitment, orientation and on-boarding, Health and Safety, Worker's Compensation, licensing and accreditation, policy development, and general Human Resources administration. - **Special Districts:** Alameda County Transportation Commission, Bay Area Water Supply and Conservation Agency, Eastern Municipal Water District, Dublin-San Ramon Services District, Foothill-De Anza Community College District, Groveland Community Services District, Los Angeles County Employees Retirement Association, Metropolitan Transportation Commission, Midpeninsula Regional Open Space District, Port of Long Beach, Riverside Community College District, and San Joaquin County Superior Court, Truckee Donner Public Utility District, Monterey Peninsula Regional Open Space District, Santa Clara Valley Open Space Authority, Triunfo Water & Sanitation District, Port of Stockton, Antelope Valley-East Kern Water Agency, Coachella Valley Water District, Foothill Municipal Water District, Orange County Sanitation District, Los Angeles Unified

DocuSign Envelope ID: C702B174-42AA-462D-A780-FF4EF1C0B64F

School District, Tahoe Transportation District, San Luis & Delta Mendota Water Authority, Habeas Corpus Resource Center

Renate earned her B.Sc. degree in Psychology from the University of Northern British Columbia, in Prince George BC, Canada. She was a Canadian Human Resource Professional (CHRP) Candidate before moving to the United States.

She will provide H.R. Associate support throughout this effort, including classification analysis, interviews with employees and management, compensation data collection and analysis, internal job analysis, development of recommendations, and implementation strategies.

Nicolle Wynia-Eide
Consultant

Nicolle Wynia-Eide has over 25 years of experience in the Human Resources profession including work in Classification and Compensation, Total Rewards, Benefits, and general human resources administration, the majority of which was in public sector. She has experience in designing and conducting small and large scall classification and compensation studies, pay equity evaluations, and organizational development.

Prior to joining Koff & Associates in 2023 she was a Senior Classification and Compensation Consultant for a large nonprofit heath care agency. Her public sector roles have included Human Resources Analyst for the City of Beaverton (Oregon) and 13 years working with and then supervising the Classification and Compensation team for the City of Portland.

Nicolle has a degree in Biology from Lewis and Clark College and a Human Resources Certification for Portland State University. She earned her Certified Compensation Professional in 2007 and her Senior Professional Human Resources Certificate (SPHR) in 2012. She is also a member of World at Work.

DocuSign Envelope ID: C702B174-42AA-462D-A780-FF4EF1C0B64F

APPENDIX B

Scope of Work by Department

DocuSign Envelope ID: C702B174-42AA-462D-A780-FF4EF1C0B64F

City of Gardena
List of Positions to be Reviewed by Department

Department	Number of Positions for Review/New Specs or Major Re-Writes	Comments/Class Specs Currently Developed
Administrative Services (Finance, HR and IT)	18/7	All positions to complete a PDQ; 9 class specs were written for the initial study; anticipate 7 new specs will be required and or major re-writes to original specs
City Wide Administrative Positions	14/10	Recommend all positions complete a PDQ; expect to write 10 new class specs (none were developed in the first study)
City Manager – Clerk of the Board	0	Does not anticipate staff need to be re-reviewed. Some title changes; minor revisions to 3 class specs.
Community Development	6/6	Does not anticipate many staff need to be re-reviewed but there are some new positions which need new specs and/or major revisions; expect 6 new class specs or rewrites
Police	25/8	Review maintenance position (PDQ required); Police Records Technician (3 individuals completing group PDQ); Police Records Assistant (3 individuals completing group PDQ); Police Services Officer (Jailer) (3 individuals completing a group PDQ – approximately 10 Jailers); 7 individual PDQ's and interviews from various administrative classes. Approximately 25 employees in these classes.
Public Works	30/4	There will be consolidation of maintenance positions into 3 broad maintenance classifications plus leads and this will affect about 30 positions; suggest we use the original PDQ's from these functional areas and levels and conduct 4 focus/group interviews with 4-5 incumbents in each to be sure all work elements are captured. Class specs have been developed for original series, and will need some re-work for consolidation; no comments were made on engineering classes so presume little, if any work, is needed on this class series; note Home Improvement series may not be necessary; no comments on director, manager and supervisory class specs, so again presume not much re-work needed.
Recreation and Human Services	50/20	This department needs major work; original study interviewed positions but the department was undergoing significant changes; only the Director spec was written originally, and the PDQ's are now outdated based on organizational changes; anticipate interviews for 25-30 people (groups where possible) and 20 new class specs.

City of Gardena

Gardena City Council Meeting
AGENDA REPORT SUMMARY

Agenda Item No. 12.B
Section: DEPARTMENTAL ITEMS - ADMINISTRATIVE SERVICES
Meeting Date: December 12, 2023

TO: THE HONORABLE MAYOR AND MEMBERS OF THE GARDENA CITY COUNCIL

AGENDA TITLE: City of Gardena Audit Reports for Fiscal Year Ended June 30, 2023; Annual Comprehensive Financial Report (ACFR), Family Child Care and GTrans

COUNCIL ACTION REQUIRED:
Staff Recommendation: Receive and File Audit Reports for Fiscal Year 2022-2023

RECOMMENDATION AND STAFF SUMMARY:
Presented for the City Council to receive and file are the audited financial reports for the fiscal year ended June 30, 2023, as prepared by the City's contracted auditing firm, The Pun Group, LLP, an independent public accounting firm fully licensed and qualified to perform audits of state and local governments within the State of California. The goal of the independent audit is to provide reasonable assurance that the financial statements of the City for the fiscal year ended June 30,2023, are free of material misstatement. There were no findings in the audit of the financial statements.

- Annual Comprehensive Financial Report (ACFR), June 30, 2023
  - The financial statements included in the ACFR represent all City funds. City management is responsible for the accuracy of the data, the fairness and completeness of the presentation, and the inclusion of all disclosures that are necessary for the reader to understand the City's operations. The report contains a citywide view of all governmental and business-type activities, as well as a focus on the financial position and operating results of the City's major funds.
  - The auditors issued an unmodified opinion that based upon their audit, the City's financial statements are presented fairly, as of June 30, 2023, and changes in the financial position and cash flows are in accordance with Generally Accepted Accounting Principles (GAAP) in the United States.
- Family Child Care Program Report, June 30, 2023
  - Issued with an unmodified opinion that the financial statements are presented fairly, in all material respects, the financial position of the Family Child Care Program as of June 30, 2023, and the results of its operations for the year ended in conformity with Generally Accepted Principles (GAAP) in the United States.
- GTrans Enterprise Fund, June 30, 2023
  - Issued with an unmodified opinion that the financial statements are presented fairly, in all material respects, the financial position of GTrans as of June 30, 2023,

and the results of its operations and cash flows for the year then ended in conformity with Generally Accepted Accounting Principles (GAAP) in the United States.

Members of the City Council,
and Citizens of Gardena

ANNUAL COMPREHENSIVE FINANCIAL REPORT
FISCAL YEAR 2022-2023
LETTER OF TRANSMITTAL

It is our pleasure to submit the Annual Comprehensive Financial Report (ACFR) of the City of Gardena (the City) for the fiscal year ended June 30, 2023 (FY 22-23). The report is intended to update readers on the status of the City's financial position and results of operations for the past fiscal year.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements. This ACFR has been prepared in accordance with Generally Accepted Accounting Principles (GAAP) in the United States of America as promulgated by the Government Accounting Standards Board (GASB).

The report contains a Citywide view of all governmental and business-type activities, as well as a focus on the financial position and operating results of the City's major funds.

The City's financial statements have been audited by The Pun Group LLP, an independent public accounting firm fully licensed and qualified to perform audits of the State and local governments within the State of California. The financial statements included in this ACFR represent all City funds.

The goal of the independent audit is to provide reasonable assurance that the financial statements of the City for the fiscal year ended June 30, 2023, are free of material misstatement. The auditors concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the City's financial statements for the fiscal year ended June 30, 2023, were fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of the ACFR. Management's Discussion and Analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

PROFILE OF THE GOVERNMENT

The City of Gardena is located just miles from the beautiful California coast, near the interchange of the Harbor, San Diego, and Gardena freeways, and just 13 miles south of the City of Los Angeles, in the South Bay Area. Gardena is a part of the Los Angeles-Long Beach-Glendale Metropolitan Statistical Area.

Gardena has the singular distinction of having within its borders both the first legal card club licensed in the State of California, granted in 1936, and the newest club in the state, which opened in 2000. At one time only five-card draw and lowball poker could be played. During the 1960s, Gardena was the only City in Los Angeles County to have legal gambling. In the mid-1980s, a tremendous Asian influence arrived with the introduction of a number of California games. A complete listing is contained in the City of Gardena Resolution No. 6581.

The City of Gardena, incorporated on September 11, 1930 as a general law City, operates under the Council-Manager form of government. Policy-making and legislative authority are vested in a governing council consisting of four members of the City Council and a Mayor elected on a non- partisan basis at-large for four-year terms, with an election every two years. The Council is responsible for, among other things, establishing policy, passing ordinances, adopting an annual budget, appointing members to various City Commissions and Boards and hiring the City Manager and City Attorney. The City Manager is responsible for carrying out the policies and ordinances of the City Council, for overseeing the day-to-day operations of the government, and for appointing the heads of the various departments.

Gardena offers a full range of municipal services, including police and code enforcement; recreation and human services; public works; streets and parks; planning and building services; engineering; transportation services (enterprise fund); and general administration. Fire services are contracted with Los Angeles County.

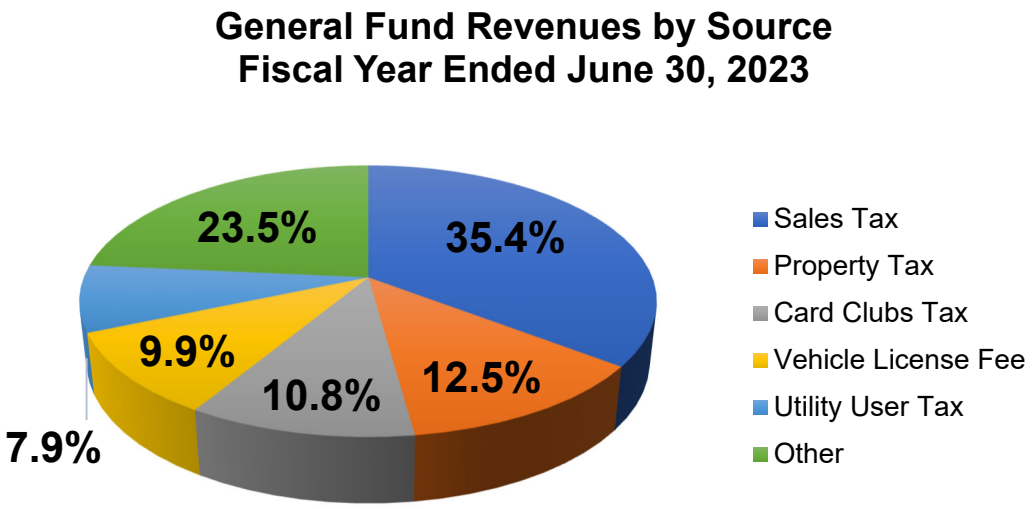
BUDGET PROCESS

The City is required to adopt an initial budget for the fiscal year no later than June 30 preceding the beginning of the fiscal year on July 1. This annual budget serves as the foundation for the City of Gardena's financial planning and control. The budget is prepared by fund, function (e.g. public safety), and department (e.g., police). Department heads may transfer resources within a department as they see fit. The City of Gardena adopts biennial budget, but the second fiscal year is being adopted in the subsequent fiscal year in the same manner and process.

The City's annual budget process commences in February with the distribution of the updated Budget Manual that details the City's general budgetary policy and the specific goals and objectives for the upcoming fiscal year. Departments are given specific instructions and timelines, the City's chart of accounts, a rate schedule for apportioned costs such as liability and health insurance, and budget forms and formats.

The Director of Administrative Services, in coordination with all operating departments, provides the City Manager with proposed revenue projections. These revenue estimates are reviewed with the department budget requests to determine available funding levels for the fiscal

year. Supplemental requests for new personnel, services or capital/equipment purchases are subject to City Manager review and approval before becoming part of the proposed operating budget. This process applies to all governmental and enterprise funds.

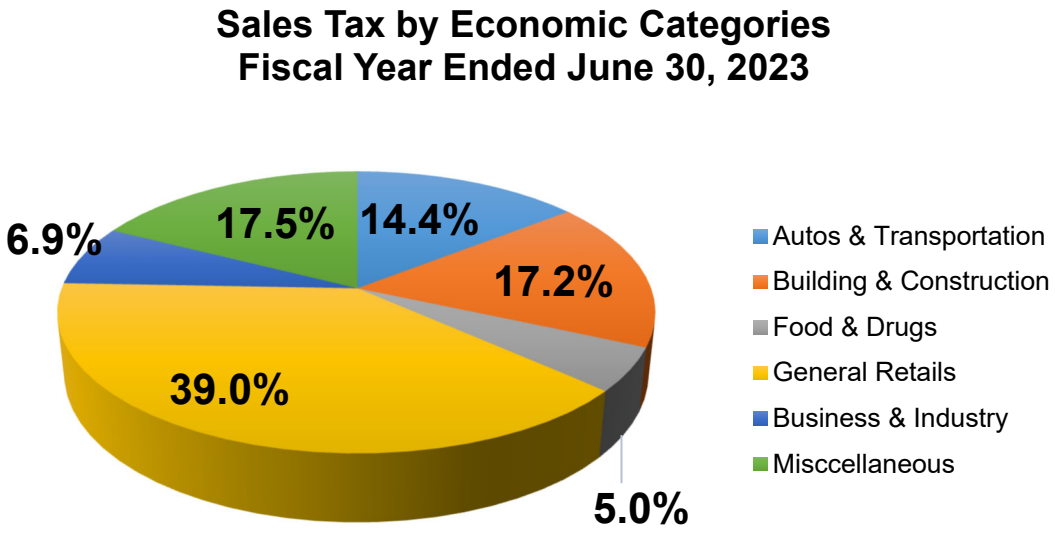


The City Manager and Director of Administrative Services meet with the Department Heads to review all operating expenditures, budget change requests, department's goals and programs for the upcoming fiscal year. After this final review and approval by the City Manager, a proposed budget will be presented to the Finance Committee for review and recommendation.

Budget study sessions and a public hearing are then presented to City Council in May. A separate community budget forum will follow to present the proposed budget and address questions from the stakeholders. Then budget is adopted by a resolution prior to June 30.

Throughout the fiscal year, actual expenditures and revenues are being presented to the Finance Committee for review on quarterly basis. The budget can be amended as necessary to meet the City's needs during the fiscal year. The City Council has the legal authority to amend the budget at any time. Department Heads may only authorize expenditures based on appropriations approved by City Council. Actual expenditures may exceed budget appropriations by line-item. However, total expenditures within each fund may not exceed the total appropriation for that fund. The City Manager has the authority and discretion to approve interdepartmental appropriation transfers if they are within the same fund.

LOCAL ECONOMIC CONDITIONS AND OUTLOOK



Top 5 sources of General Fund revenue account for 76.5% or $61M. The remaining revenues account for 23.5% of the total and are represented by a broad range of sources.

Sales Tax

Sales Tax represents the single largest source of General Fund revenue at $28.2M or 35.4%. It is made up from the 6 categories below. The general retail category includes department stores, gas

stations, general merchandise, restaurants, and hotels. General retail is the largest economic sector which generates 39% of the sales tax for Gardena. For fiscal year 2022-23, actual sales tax exceeds budget by 12.2% or $3M. For Measure G 0.75%, the fiscal year actual of $12.6M includes a one-time payment. Overall, the City of Gardena's sales per capita is higher than Los Angeles County average and consistently outperforms projections, a strong indicator of a vibrant local economy and strong business support.

Property Tax

Gardena has a diverse land use for its 6 square miles. The City has a total assessed valuation of $8.65B, an increase of 7.2% over prior year. Of the City's 14,430 parcels, 87.7% are residential, 9.3% are commercial/industrial and the remaining 3% for other miscellaneous uses.

Property tax is the second highest source of General Fund revenue at 12.5% or $9.9M. The year-over-year increase of 8.7% and 11% over the budget amount from increased assessment value and recent developments in the City. Overall, the City and the South Bay region are experiencing an increase in housing prices.

Card Club Tax

City of Gardena is fortunate to have two card clubs within the City limits, Lucky Lady Casino and Hustler Casino. The City receives 12% of the gross revenue from both casinos. For the fiscal year 2022-23, the City collected card club tax of $8.6M or 10.8% of General Fund revenue. This reflect a decrease of 2.3% or $200K vs the budgeted amount.

Vehicle License Fee (VLF)

The City receives $7.9M or 9.9% of the General Fund revenue. This is the fourth largest source of General Fund revenue.

When a vehicle is registered in California, a license fee is charged by the State of California. This

fee includes a small administrative fee and a property tax in-lieu fee. The in-lieu fee is based on the depreciated value of the vehicle and declines over the useful life of the vehicle. This in-lieu fee is allocated to cities and counties based on a per capita basis.

In 2005, the VLF was permanently reduced to 0.65% from 2.0% of the vehicle's fair market value. Any loss to cities by this rate reduction at that time was made up with an allocation from the Couty's Educational Revenue Augmentation Fund property tax account. This allocation will grow with any corresponding growth in the City's secured property tax valuation.

Utility User Tax (UUT)

The Utility User Tax revenue received by the City is based on adopted ordinances. The current UUT rate is 5% for telecommunications (wired and wireless), electricity, gas, and water. Effective in 2016, the UUT rate for prepaid wireless is 3.5%.

For the fiscal year, the City received $6.3M or 7.9% of the total General Fund revenue. This is an increase of $1.4M or 28.9% when compared to the budget. The main factor for the increase is due to higher utility prices and increased usage from the recent extreme weather.

The top 5 General Fund revenue sources account for 76.5%, which is comparable to prior fiscal year. The remaining 23.5% comprise of various sources including business license tax, franchise tax, transient occupancy tax (TOT), charges, license and permits, use of money & property, miscellaneous and intergovernmental. Use of money & property revenue has increased by $2.6M mainly due to higher interest income and the reversal of fair value market adjustment. Overall, the total General Fund revenue increased by 6.1% or $4.6M. This modest increase is mainly attributed to the increase in sales tax revenue, indicative of a healthy local economic condition.

LONG-TERM FINANCIAL PLANNING AND MAJOR INITIATIVES

As a result of the City's fiscally conservative approach taken these past couple of years, the City finds itself in a financially stable position, which allowed the City in its adopted budget for fiscal year 2023-2024, to budget for and add a total of 27 additional positions to the City's staffing resources (11-Full Time and 16-Part Time), as well as investments in seniors, youth and community service programs and the largest Capital Improvement Program budget in the Cities history with over $50 million.

The City maintains an existing lease rating of "A+" rating from Standard & Poor's and an "A1" rating with Moody's for its general fund lease supported debt as of June 30, 2023. The City's issuer ratings are "AA- with S&P and "Aa3" with Moody's. Which is reflective of a stable fiscal outlook and the expectation that Gardena will continue to maintain balanced operational costs with substantial fiscal reserves.

Aligning with the City's vision of making Gardena as one of the most desired communities to live, do business, work, and play in the South Bay region. The City will maintain a safe community environment by implementing Building Development Safety and Security Standards, as well as continue street and sidewalk improvements Citywide.

To further the City's vision, in 2021 the City took a proactive approach to take advantage of the

historical low interest rates and used its excellent issuer credit rating of AA- with S & P to obtain a Lease Revenue Bond in the amount of $15 Million dollars with a 20-year term at 1.98% true interest cost over the life of the bond. These bonds will be used to fund various capital projects including the Gardena Community Aquatic & Senior Center, a multigenerational community building to provide public access and recreational activities to residents.

In November of 2022, the City of Gardena was awarded the prestigious Eddy Award for the "Most Business-Friendly City" (population over 60,000) from the Los Angeles County Economic Development Corporation (LAEDC). This was the City's third time being nominated for the award and first ever win. Since 1966, the LAEDC Eddy awards celebrate individuals, organizations, and educational institutions that demonstrate exceptional contributions to inclusive economic development in the region. LAEDC also recognizes local cities in categories based on their population size for creating environments that foster creation and growth of enterprises that provide good jobs and build wealth for our communities.

In June 2023, the National Civic League nominated the City of Gardena as an All-America City Award finalist. Gardena was one of the 19 cities nominated for the 2023 All-American City Award. The City won the award in 1980 and was one of few cities to have received this award in California. The All-America City Award recognizes communities that leverage civic engagement, collaboration, inclusiveness, and innovation to successfully address local issues.

CAPITAL IMPROVEMENT PROJECTS

The City continues to devote significant resources to maintenance and improvement of its top rated streets and roads. Gardena's current street pavement condition index (PCI) of 81 is one of the highest in California.

The fiscal year 2022-23 capital budget is highlighted by the two major community projects: The Community Aquatic & Senior Center and a new Mas Fukai Park building. The City is aggressively reinvesting in the community via various infrastructure projects by adopting $40.5M CIP budget for 40 different projects. It was the single largest CIP budget to date in City history. 50% of the budget is dedicated for parks and facilities, 46.9% for road and street projects and the remaining 3.1% is for sewer and stormwater projects.

Most of the projects are multi-year projects so at the end of the fiscal year only 4 of the 40 budgeted projects were completed. Two street projects were completed; the 170th Street Improvement and Pedestrian Safety Improvements, which significantly enhanced safety for street sidewalks and ramps on various intersections in the City.

Significant progress has been made with the two community projects. The Community Aquatic & Senior Center project is moving forward to the construction phase with the target completion date of Fall 2025. As for the Mas Fukai Park building, the initial design has been presented to the City Council.

In June 2023, the City adopted its Fiscal Year 2023-24 CIP budget of $50.9M, the single largest fiscal year CIP budget in the City's history. With 55% or $28M of the CIP budget for park and facility projects including the construction of the Community Aquatic & Senior Center. $21.8M or 43% for 19 street projects; including $3.7M for the Artesia Boulevard Traffic Signal Improvement project. This project will significantly address existing and future traffic conditions as well as improving landscape on a major City's corridor.

PENSION & OPEB STABILIZATION FUNDS

The City issued $101M in Taxable Pension Obligation Bonds in 2020 at 3.29% to save the City $51M over the 19-year life of the bond. The City adopted an Unfunded Accrued Liability (UAL) Policy to address future pension liability. Under this policy, UAL Funds were created so each fiscal year the City must budget a contribution toward future pension liability. As of June 30, 2023, these funds have a balance of $2.2M.

With the desire to address Other Post-Employment Benefits (OPEB) liability and take advantage of higher interest yields, in 2017 the City established California Employers' Retiree Benefit Trust (CERBT) accounts, IRC Section 115 Trust Accounts, with CalPERS. During the fiscal year 2022-23, the City made a $1.75M contribution to the trust. As of June 30, 2023, the City's CERBT trust has a combined balance of $7.2M, $1.9M from the City and $5.3M from GTrans' CERBT account.

CASH MANAGEMENT

The City manages a pooled investment program for all funds in which temporarily idle cash is invested in a variety of instruments. The investment program is managed in accordance with the Investment Policy approved by the City Council on an annual basis. Safety, liquidity, and yield, in that order, are the objectives of the investment program. Investments are diversified among investment tools including certificates of deposit, Federal agency securities, State of California Local Agency Investment Fund (LAIF), corporate medium-term notes, money market mutual funds, California Asset Management Program (CAMP) Pool.

At the fiscal year end on June 30, 2023, the City had a total investment portfolio of $84.8M. Almost half of the portfolio is with CAMP, which is completely liquid and increased investment earnings substantially. The investment report is presented to City Council for review and approval monthly. It is also made available on the Financial Transparency Dashboard at www.cityofgardena.org.

RISK MANAGEMENT

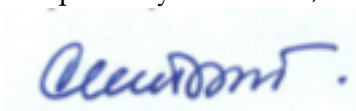
The City maintains self-insurance programs for worker's compensation and general liability insurance up to a maximum of $750,000 per occurrence. General liability claims that exceed the Self-Insured Retention (SIR) are covered by Public Risk Innovatin Solutions Management (PRISM). Worker's compensation claims that exceed the SIR are insured by the PRISM up to the California statutory limits for workers' compensation. For the City's transit department, GTrans, the SIR is $250,000 and is being covered by California Transit Indemnity Pool (CalTIP).

The City also carries stop-loss insurance of individual health benefit claims in excess of $75,000 for Medicare retirees and $50,000 for all other members. The City contracts with third party administrators who manage the claims filed against the City.

RELEVANT FINANCIAL POLICIES

The City has adopted a set of financial policies. GASB Statement No. 54, titled "Fund Balance Policy for the General Fund is the policy that provides the users of the financial statements greater information about the availability of reported fund balance and the City's commitment of financial resources. Note 13 of the Notes to Basic Financial Statements, presents more detailed information about the five categories of fund balance – non-spendable, restricted, committed, assigned and unassigned fund balance.

During the current fiscal year, the City adopted new accounting procedures and policy to comply with the new Governmental Accounting Standard Board (GASB) Statement 96 for software subscriptions. The object of this statement is to better meet the information needs of financial statements users by improving accounting and financial reporting for software subscriptions. This Statement will enhance the relevance of consistency of information about government's subscription activities.



AWARDS and ACKNOWLEDGEMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Gardena for its ACFR for the fiscal year ended June 30, 2022. This was the thirty-seventh consecutive year that the government has achieved this prestigious award. In order to be awarded a Certificate of Achievement, the government had to publish an easily readable and efficiently organized ACFR that satisfied both generally accepted accounting principles and applicable program requirements.

A Certificate of Achievement for Excellence in Financial Reporting is valid for a period of one year only. However, we believe that our current ACFR continues to meet the Certificate of Achievement for Excellence in Financial Reporting Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report could not have been accomplished without the collaborative assistance of the Department Heads and staff in all City departments. First and foremost, we want to recognize the dedicated employees of the Administrative Services Department. Their professional expertise and unassuming commitment to excellence is constantly manifested in the quality of the City's financial records and reporting. Appreciation is also expressed to the audit staff of The Pun Group, LLP, for their advice and assistance in the preparation of this report. Finally, we would like to thank the members of the City Council for their support in planning and conducting the financial operations of the City in a responsible and progressive manner.

INDEPENDENT AUDITORS' REPORT

To the Honorable Mayor and the Members of the City Council
of the City of Gardena
Gardena, California

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Gardena, California (the "City"), as of and for the year ended June 30, 2023, and the related notes to the basic financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City, as of June 30, 2023, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS"), and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*"Government Auditing Standards")*. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Other Matters

Change in Accounting Principle

As described in Note 1 to the financial statements, the City adopted new accounting guidance, Governmental Accounting Standards Board ("GASB") Statement No. 96, *Subscription-based Information Technology Arrangements* . Our opinion is not modified with respect to this matter.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the Budgetary Comparison Schedules – General Fund and Major Special Revenue Funds, the Schedule of Changes in Net Pension Liability and Related Ratios, the Schedule of City's Proportionate Share of the Net Pension Liability and Related Ratios, the Schedules of Contributions – Pensions, the Schedules of Changes in Net Other Postemployment Benefits Liability and Related Ratios, and the Schedules of Contributions – Other Postemployment Benefits as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the Required Supplementary Information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS and *Government Auditing Standards*. In our opinion, the combining and individual nonmajor fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and the statistical sections but does not include the basic financial statements and our auditors' report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 7, 2023, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

The Pun Group, LLP

Santa Ana, California
December 7, 2023

As management of the City of Gardena (City), California, we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended June 30, 2023. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found in the introductory section of this report, as well as with the City's financial statements, which follow this discussion.

Financial Highlights

- The liabilities and deferred inflows of resources of the City exceeded its assets and deferred outflows of resources at the close of the 2022-2023 fiscal year by ($18,994,010), which resulted in the City having a negative net position. The negative positions were due primarily to GASB Statements No. 68, *Accounting and Financial Reporting for Pensions*, GASB No. 75 *Accounting and Financial Reporting for Postemployment benefits other than pensions and Long-Term Liabilities -Due in more than one year*. The Net Pension Liabilities and Other post-employment benefits (OPEB) were included within the government-wide financial statements for both governmental and business-type financial reporting. At the close of 2022-2023 fiscal year, the City's Net Pension Liabilities were $16,120,826 and $3,233,030 for governmental and business-type activities for a total of $19,353,856. The City's Other post-employment benefit liabilities were $64,768,264 and $8,020,898 for governmental and business-type activities for a total of $72,789,162. The Long-Term Liabilities were $136,971,162 and $23,001,398 for governmental and business-type activities, respectively for a total of $159,972,560 including the amounts both due in one year and due in more than one year. of which $94,620,000 is for the 2020 Taxable Pension Obligation Bonds; $73,832,926 for governmental and $20,787,074 for business-type activities. The Long-Term Liabilities due in more than one year were of $124,731,948 and $21,553,550 for governmental and business-type activities, respectively for a total of $146,285,498.

- The City's total net position decreased by $11,722,047 in 2022-2023. Net position of governmental activities decreased by $11,732,421 while net position of business type activities increased by $10,374. The changes for governmental activities were due primarily to 1) Additional Sales Tax Revenue compared to the prior year in the amount of around $3 million as the economy continued to improve. 2) The Utility User Tax increased by $1.4 million from additional usage and higher utility prices. 3) The City's OPEB liability decreased by $11.5 million due to higher discount rate used for the actuarial valuation. 4) The City's expenses increased by about $46 million mainly due to the increase in pension liabilities.

- At the close of the 2022-2023 fiscal year, the City's governmental funds reported combined fund balances of $86,505,397, an increase of $12,835,393 in comparison to the prior year. General Fund increased by $8,312,823. The increase is due primarily to increases in Sales Tax Revenue for the Bradley Burns and Measure G sales tax revenue, which was higher than prior year by about $1.7 Million. The City's Use of Money and Property, primarily its return on investments increase by $3.4 million compared to the prior year because of higher investment returns and a greater fair market value on its investments. The City's General Fund expenditures, increased by approximately $5.5 million compared to the prior year as the City was over budget in the general fund by $992k. The Economic development grants special revenue fund increased by $200k, as a result of the City receiving additional Park in Lieu revenue due to the increase in City projects. The City Capital Projects fund remained the same ending fund balance compared to the last year. The City Debt Service fund increased by $396k as it maintained its principal and interest payments throughout the fiscal year.

Financial Highlights (Continued)

- At the end of the 2022-2023 fiscal year, the unrestricted fund balance (the total of the committed, assigned, and unassigned components of fund balance) for the General Fund was $49,811,191 or approximately 77% of total General Fund expenditures.

- The City's long-term debt decreased by $4,887,660 compared to prior year based on the City paying the annual debt service principal payments for the applicable debts during the fiscal year. In 2021-2022, the City issued a 2021 Lease Revenue Bond in the amount of $13.2 million dollars with a 20-year term at 1.98% true interest cost over the life of the bond.

Overview of the Financial Statements

The discussion and analysis provided here are intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements consist of three components: 1) government-wide financial statements; 2) fund financial statements; and 3) the notes to financial statements. This report also includes supplementary information intended to furnish additional detail to support the basic financial statements themselves.

Government-wide Financial Statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The *statement of net position* presents financial information about all of the City's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The *statement of activities* presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City include general government, public safety, public works, community development, and recreation and human services. The business-type activities of the City include GTrans and the City's Sewer Maintenance Program.

The government-wide financial statements can be found on pages 20-23 of this report.

Fund Financial Statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Overview of the Financial Statements (Continued)

Governmental Funds. *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in assessing a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities.*

The City maintains thirteen (13) individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, the Economic Development Grants Special Revenue Fund, City Debt Service Fund, and the Capital Projects Fund, which are considered to be major funds. Data from the other ten (9) governmental funds are combined into a single aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements in the combining and individual fund statements and schedules section of this report.

The City adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

The governmental fund financial statements can be found on pages 28-34 of this report.

Proprietary Funds. The City maintains two (2) different types of proprietary funds. *Enterprise Funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The City uses enterprise funds to account for its transit operation and for its sewer maintenance. *Internal Service Funds* are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City uses internal service funds to account for the management of its retained risks which includes liability insurance, workers' compensation, and health insurance. Because all of these services predominantly benefit governmental rather than business-type functions, they have been included within *governmental activities* in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the transit operation and for the sewer maintenance, both of which are considered to be major funds of the City. Conversely, internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds are provided in the form of combining statements in the combining and individual fund statements and schedules section of this report.

The proprietary fund financial statements can be found on pages 36-41 of this report.

Overview of the Financial Statements (Continued)

Notes to the Financial Statements. The notes provide additional information that is necessary to acquire a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 45-97 of this report.

Other Information. In addition to the basic financial statements and accompanying notes, this report also presents *required supplementary information* concerning the City's funding its obligation to provide pension and OPEB benefits to its employees and includes Budgetary Comparison schedules for the General Fund and the Economic Development Grants Special Revenue Fund. Required supplementary information can be found on pages 101-123 of this report

The combining statements, referred to earlier in connection with nonmajor governmental funds and internal service funds, are presented immediately following the required supplementary information. Combining and individual fund statements and schedules can be found on pages 130-161 of this report.

Government-wide Overall Financial Analysis

As noted earlier, net position, over time, may serve as a useful indicator of a government's financial position. In the case of the City, liabilities and deferred inflows of resources exceeded assets and deferred outflows of resources by $18,944,010 at the close of the 2022-2023 fiscal year.

* 2022 balances were restated due to the implementation of GASB 96

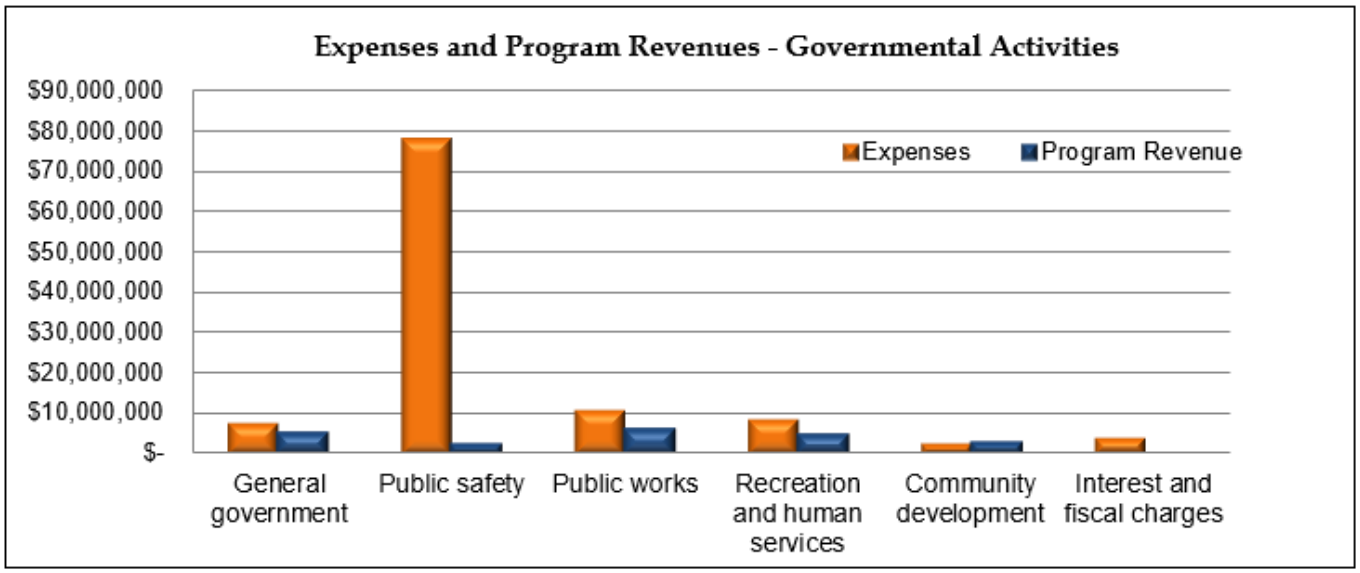
Government-wide Overall Financial Analysis (Continued)

By far, the largest portion of the City's net position reflects its net investment in capital assets (e.g., land, buildings, machinery, equipment, vehicles, and infrastructure), less any related outstanding debt that was used to acquire those assets. The City uses these capital assets to provide a variety of services to its citizens. Accordingly, these assets are not available for future spending. Although the City's investment in capital assets is reported net of related debt, it should be noted that the resources used to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The City's largest liabilities are their Long-term liabilities - Due in more than one year, which increased from $120,071,123 in 2021-2022 to $124,731,948 in fiscal year 2022-2023, or an increase of $4,660,825, mainly from the increase in claim payables, compensated absences, and the recording of subscription liability due to the implementation of GASB 96 *Subscription-Based Information Technology Arrangements* ("SBITA"). The other additional long-term liabilities are Other Post-Employment Benefits (OPEB) of $64,768,264, a decrease of $11.5 million compared to the prior year; this decrease is related to the increase of actuarial discount rate from 2.16% to 3.54%. for 20-year Municipal Bond Index, which helped reduce the estimated liabilities. These two liabilities total $189,500,212 for Governmental Activities, or 82%, of the total liability balance of $231,026,495 at June 30, 2023. The remaining noncurrent liability is the pension liability, which has an increase to $16,120,826 from having a net pension asset in the amount of $38,527,341 in fiscal year 2021-2022..

An additional portion of the City's net position (Restricted) represents resources that are subject to external restrictions on how they may be used. The remaining balance of $(147,662,529) is unrestricted and if positive, may be used to meet the government's ongoing obligations to its citizens and creditors which include the net debt, net pension liabilities, and OPEB liabilities.

At the end of the 2022-2023 fiscal year, the City is able to report positive balances in all reported categories of net position with the exception of unrestricted, both for the government as a whole, as well as for its separate governmental and business-type activities. The negative in unrestricted net position is a result of 1) Long term Liabilities- Due in more than one year which includes the pension bond debt as a result of the 2020 Taxable Pension Obligation Bond 2) GASB 75, which is for other post-employment benefit liabilities; 3) GASB 68, which is for pension liabilities.



The City's overall net position decreased by $11,722,047 from the prior fiscal year. The reasons for this overall decrease are discussed in the below sections for governmental activities and business-type activities.

Governmental Activities. During 2022-2023 fiscal year, net position for governmental activities decreased by $11,732,421 from the prior fiscal year for an ending balance of $(45,439,243). The decrease in the overall net position was primarily related to: 1) Total public safety expenses increased by $50.3 million compared to the prior year, which is due primarily to pension expense adjustment, lead overall expenses to increase by $46 million or 72% compared to the prior year. Revenues were up $1.6 million or 2% compared to the prior year.

Government-wide Overall Financial Analysis (Continued)

Business-type Activities. In the 2022-2023 fiscal year, the City's *business-type activities* increased the net position by $10,374 compared to the prior year balance for the fiscal year ended June 30, 2023. Business-type activities revenue increased by $379k or 1.3% compared to the prior year for a total of $30,636,211 in revenues at year-end. In comparison to the prior fiscal year, the charges for services increased by $12,201 or 0.3% with charges for services remaining constant with prior years. Operating grants and contributions increased by $726,078 or 3.3% compared to the prior fiscal year, primarily due to increased liability claims and higher fuel prices. Therefore, GTrans used more operating subsidies to cover the shortfall. Capital grants and contributions decreased by $728,784 or 18.6% primarily due higher capital related expenses incurred in fiscal year 21-22 for the installation of the CNG station; the project is nearing completion resulting a decrease in the capital grants and contributions from the fiscal year 2021-2022 to the fiscal year 2022-2023. Investment income and miscellaneous increased by $369,394 or 540% compared to the prior year due to the City exploring additional investment options within its investment policy and earning significantly higher interest rates. Expenses for operations increased by $719,806 or 2.4% compared to prior year, which was largely due cost of living expenses paid to employees, higher increased liability claims and higher fuel prices.

Financial Analysis of Governmental Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the City's *governmental funds* is to provide information about near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, an unassigned fund balance may serve as a useful measure of a government's net resources available for discretionary use as they represent the portion of fund balance which has not yet been limited to use for a particular purpose by either an external party, the City itself, or a group or individual that has been delegated authority to assign resources for use for particular purposes by the City's Council.

On June 30, 2023, the City's governmental funds reported combined fund balances of $86,503,397 an increase of $12,835,393 or 17% in comparison with the prior year. Approximately (0.1%) of this amount is ($47,129) and constitutes an *unassigned fund balance,* which is available for spending at the government's discretion. The remainder of the fund balance is either *nonspendable, restricted, committed,* or assigned to indicate that it is: 1) not in spendable form $638,503; 2) restricted for purposes $36,402,832 ; 3) committed for purposes $26,848,674 ; or 4) assigned for purposes $22,662,517.

The General Fund is the chief operating fund of the City. At the end of the 2022-2023 fiscal year, the unassigned fund balance of the General Fund was $300,000, while the total fund balance increased from $41,825,774 to $50,138,597, an increase of $8,312,823 or a 20% increase from the prior year. As a measure of the General Fund's liquidity, it may be useful to compare both the unassigned fund balance and the total fund balance to total general fund expenditures. Unassigned fund balance represents approximately 0.5% of total general fund expenditures, while total fund balance represents approximately 77% of that same amount.

Financial Analysis of Governmental Funds (Continued)

The fund balance of the City's General Fund increased by $8,312,823 during the 2022-2023 fiscal year. The Top 5 Revenue generators, which make up 74% of the General Fund Original Adopted Budget for Fiscal Year 2022-2023, was up $5.7 million compared to the budgeted amount or 10% ; 1) Sales Tax revenue for the Bradley Burns 1.0% was up $807k compared to budget and Sales Tax from Measure G .75% was up $2.3 million compared to the budget for a total increase of overall sales tax of $3.1 million as a majority of the sales tax generators did significantly better than expected ; 2) Card Club revenue was down $207k compared to the budget as mainly due to slow recovery from Lucky Lady Casino; 3) Property Taxes were up $981k compared to budget with the continued thriving development in the City and higher housing prices in the region; 4) Utility Users Tax increased by $1.4 million from higher utility prices; and 5) Motor Vehicle In-Lieu increased by $443k from the budget primarily based on updated fee rates.

The Economic Development Grants Special Revenue Fund, a major fund, had an increase of $213k in fund balance during the fiscal year primarily due to an additional park in lieu related fees for the various development projects within the city that were completed in the fiscal year.

The Debt Service Fund, a major fund, had an increase of $396k in fund balance during the fiscal year, due to the interest income from remaining project balance in the 2021 Lease Revenue Bond. The 2021 Lease Revenue Bond will be used to fund a portion of the new Gardena Community Aquatic & Senior Center, the cost of acquiring and renovating an existing building to be converted into a new Community Center and various park improvements.

The Capital Projects Fund, a major fund, had a fund balance of $301,897. During the fiscal year, the expenditures for this fund were being reimbursed by the project funding sources such as local and state grants. Therefore, no changes in the fund balance for the fiscal year.

Proprietary Funds. The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net position of GTrans at the end of the fiscal year was $(24,503,020) and for the Sewer Fund was $2,530,500. The total decrease in net position for GTrans was $522k and the Sewer Fund net position increased by $568k, respectively. GTrans decrease in net position was due to the increases in transit operation. The Sewer Fund increase is based on the delay in starting several capital projects and the expenditures savings related to that.

General Fund Budgetary Highlights

The final budget for revenue was not amended and stayed the same as the original adopted budget of $72,607,910. Actual revenue compared to the final budget was up by $7.2 million or 10% compared to the final budget. This is primarily a result of an increase in sales tax revenue compared to the budget of about $3 million, an increase of $1.4 million for utility users tax compared to budget and overall, a rebound for the economy. A detailed budgetary comparison schedule for the year ended June 30, 2023, is presented as required supplementary information following the notes to the financial statements.

General Fund Budgetary Highlights (Continued)

The final amended budget for combined General Fund expenditures was the same as the original budget, of $63,812,789. Actual expenditures were more than the final budget by around $990k or 1.6% percent, which was primarily the result of additional capital expenditures. A detailed budgetary comparison schedule for the year ended June 30, 2023, is presented as required supplementary information following the notes to the financial statements.

Capital Assets and Debt Administration

Capital Assets. The City's investment in capital assets for its governmental and business-type activities as of June 30, 2023, amounts to $119,740,584 (net of accumulated depreciation and amortization). This investment in capital assets includes land, buildings, machinery, equipment, vehicles, park facilities, roads, highways, and right to use assets – lease and SBITA assets. The total increase in capital assets compared to prior year was $4,426,943 or 3.8%, primarily due to more capital projects being started in 2022-2023 fiscal year.

Capital Assets and Debt Administration (Continued)

Major capital asset events during the 2022-2023 fiscal year included the following:

- Acquisition of a property locate at 1731 W 162nd Street
- Completion of 170th Street Improvement project
- Completion of Pedestrian Safety Improvement project
- Acquisition of a new street sweeper truck

Additional information on the City's capital assets can be found in Note 7 on pages 67-68 of this report.

Long-term Debt. At the end of the 2022-2023 fiscal year, the City had total bonded debt outstanding of $130,485,822. The City's long-term debt decreased by $4,887,660 or 3.6% compared to prior year based on the City paying the annual debt service principal payments for the applicable debts below during the fiscal year.

The City maintains an existing lease rating of "A+" rating from Standard & Poor's and an "A1" rating with Moody's for its general fund lease supported debt as of June 30, 2023. The City's issuer ratings are "AA-" with S & P and "Aa3" with Moody's.

Additional information about the City's long-term debt can be found in Note 8 on pages 69-76 of this report.

Economic Factors and Next Year's Budget and Rates

As a result of the City's fiscally conservative approach taken these past couple of years, the City finds itself in a financially stable position, which allowed the City in its adopted budget for fiscal year 2023-2024, to budget for and add a total of 20 full-time equivalent (FTE) positions, as well as investments in seniors, youth and community service programs and the largest budgeted Capital Improvement Program in the Cities history with over $50 million budgeted for the next fiscal years.

Economic Factors and Next Year's Budget and Rates (Continued)

The City adopted Fiscal Year 2023-2024 budget on June 27, 2023. The General Fund Revenue Budget for 2023-2024 was $82,002,199 with expenditures of $81,831,342 for a surplus of $170,857.

In 2023-2024 the Top 5 Adopted Budgeted General Fund revenue sources, which make up 73% of the City's General Fund, include: 1) Sales and Use Tax - $27.2 million (33%), 2) Property Taxes - $9.9 million (12%), 3) Card Club Gross Revenue Fees - $9.2 million (11%) 4) Vehicle License Fees - $7.9 million (10%), and 5) Utility Users Tax - $6.1 million (7%).

In 2023-2024 the General Fund expenditures were $81,831,342, with the Police Department making up $34.8 million or 43%, Non-Departmental (including the Fire Department and our South Bay Regional Public Communications Authority) $14.6 million or 18%, Transfers Out at $8.6 million or 11%, Public Works at $7 million or 9%, Recreation and Human Services at $5.1 million or 6%, Debt Service Payments at $3 million or 4%, Elected and City Managers Offices at $2.9 million or 3%, Community Development Department at $3 million or 3% and the Administrative Services Department at $2.7 million or 3%.

As we look to futures years the economy and threats on an economic slowdown loom, however the City is well prepared to face these events if they do occur as we are very fortunate to have a stable diverse economic base, which somewhat shields our economy from downturns in any specific category.

Requests for Information

This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the City's and to show the city's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Administrative Services Department, 1700 W. 162nd Street, Gardena, CA 90247.

GOVERNMENTAL FUND FINANCIAL STATEMENTS

General Fund - To account for and report all financial resources not accounted for and reported in another fund.

Economic Development Grants Special Revenue Fund - To account for the fourteenth funds used for housing, environmental issues, and land use improvement. Six of the funds receive pass-through funding from the California U.S. Department of Housing and Urban Development ("HUD") or program income to assist cities and counties to create and retain affordable housing and community projects. Eligible activities include housing rehabilitation loans to benefit lower income owners and loans for development of the low-income senior rental property. One fund is used to provide park or recreational facilities using fees received from the developers as required by the City's ordinance. Two funds receive funding from the U.S. Environmental Protection Agency ("EPA"). These grants are used to empower communities and other stakeholders in economic redevelopment to work together in a timely manner to prevent, assess, safely clean up, and sustainably use brownfields (previously unusable land) reuse contaminated properties. Two funds receive funding from the California Department of Housing and Community Development ("HCD") to assist local government for the preparation, adoption, and implementation of planning and process improvements that streamline housing approvals and accelerate housing production. One fund to account for development impact fee to provide infrastructure and facility improvements as required by City's ordinance. One fund to account for a community project grant from the California Department of Technology (DOT).

City Capital Projects Fund - Represents the financial resources that are restricted, committed or assigned to expenditures for capital outlay.

City Debt Service Fund - To account for and report financial resources that are restricted, committed or assigned to expenditure for principal and interest.

Nonmajor Governmental Funds - To account for the aggregate of all the nonmajor governmental funds.

Reconciliation of the Governmental Funds Balance Sheet to the Government-Wide Statement of Net Position
June 30, 2023

Total Fund Balances - Total Governmental Funds		$ 86,505,397
Amounts reported for governmental activities in the statement of net position are different because:		
Capital assets used in governmental activities are not financial resources and are not reported in the funds:		
Amount reported in government-wide statement of position:		
Capital assets, not being depreciated	$ 18,595,006	
Capital assets, depreciable	117,086,015	
Less accumulated depreciation	(77,775,984)	
Right-to-use lease assets	729,511	
Right-to-use lease assets accumulated amortization	(272,476)	
Right-to-use subscription assets	1,456,363	
Right-to-use subscription assets accumulated amortization	(337,642)	59,480,793
Interest is recognized when due, and therefore, interest payable is not reported in the governmental funds.		(938,691)
Long-term liabilities were not due and payable in the current period. Therefore, they were not reported in the Governmental Funds' Balance Sheet.		
Long-term debt - due within one year		(5,574,058)
Long-term debt - due in more than one year		(103,831,770)
Compensated absences - due within one year		(1,853,798)
Compensated absences - due in more than one year		(7,371,178)
Net pension liability and the related deferred outflows of resources and deferred inflows of resources are not due and payable in the current period or not available for current expenditures and are not reported in the governmental fund financial statements:		
Pension related deferred outflows of resources		37,950,104
Aggregate net pension liabilities		(16,120,826)
Pension related deferred inflows of resources		(33,463,248)
Net other postemployment benefits liability and the related deferred outflows of resources and deferred inflows of resources are not due and payable in the current period or not available for current expenditures and are not reported in the governmental fund financial statements:		
OPEB related deferred outflows of resources		13,643,783
Aggregate net OPEB liabilities		(64,768,264)
OPEB related deferred inflows of resources		(14,968,157)
Internal service funds are used by management to charge the costs of general liability, workers' compensation and health benefit claims to individual funds. The assets and liabilities of the internal service funds are included in the governmental activities in the Government-Wide Statement of Net Position (net of $10,670,445 allocated to business-type activities).		4,420,205
Revenues earned but not available to pay for current expenditures for governmental funds are unavailable.		1,450,465
Net position of governmental activities		$ (45,439,243)

See accompanying Notes to the Basic Financial Statements.

City of Gardena

Reconciliation of the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances to the Government-Wide Statement of Activities and Changes in Net Position
For the Year Ended June 30, 2023

Net change in fund balances - total governmental funds:		$ 12,835,393
Amounts reported for governmental activities in the Statement of Activities are different because:		
Acquisition of capital assets was reported as expenditures in the governmental funds. However, in the Government-Wide Statement of Activities, the cost of those assets was allocated over the estimated useful lives as depreciation expense. The following was the amount of capital assets recorded in the current period:		
Capital outlay ($1,061,597) of capital outlay expenditures were for current public works expenditures for repairs and maintenance and therefore, were not capitalized).		7,755,245
The net effect of disposal of capital assets.		(3,577)
Depreciation and amortization expenses on capital, lease, and subscription assets were reported in the Government-Wide Statement of Activities, but they did not require the use of current financial resources. Therefore, depreciation and amortization expenses were not reported as an expenditure in the governmental funds.		(3,514,917)
The fund financial statements record interest expenditures on the current financial resources measurement focus whereas the Government-Wide financial statements recognize interest expense on the accrual basis. The reconciling amount was the change in accrued interest from the prior year.		(28,843)
Long-term compensated absences expense was reported in the Government-Wide Statement of Activities, but it did not require the use of current financial resources. Therefore, the change in long-term compensated absences was not reported as an expenditure in the governmental funds.		(466,145)
Other postemployment benefits and pension expenses were reported in the Government-Wide Statement of Activities, but it did not require the use of current financial resources. Therefore, the increase in other postemployment benefits liability and net pension liabilities were not reported as an expenditure in the governmental funds.		
OPEB expense net of contribution made after measurement date reported in deferred outflows of resources in the Government-Wide Statement of Net Position but reported as OPEB expenditures in the governmental funds in the amount of $4,966,034.		2,051,830
Pension credit net of contribution made after measurement date reported in deferred outflows of resources in the Government-Wide Statement of Net Position but reported as pension expenditures in the governmental funds in the amount of $4,130,399.		(35,402,200)
Proceeds from long-term debt provided current financial resources to governmental funds, but issuing debt increased long-term liabilities in the Government-Wide Statement of Net Position. Repayment of bond principal was an expenditure in the governmental funds, but the repayment reduced long-term liabilities in the Government-Wide Statement of Net Position.		
Principal repayments of long-term debt	$ 5,052,989	
Interest accrual on loans payables	(86,224)	
Proceeds from issuance of long-term debt	(1,048,143)	
Amortization of bond premium	106,654	
Amortization of bond discount	(13,884)	4,011,392
Internal service funds were used by management to charge the costs of certain activities, such as insurance, to individual funds. The net revenue of the internal service funds was reported with governmental activities (net of ($35,737) allocated to business-type activities).		1,092,895
Unavailable revenue is not recognized as revenue in the governmental funds since the revenue is not available to fund expenditures of the current year.		(63,494)
Change in net position of governmental activities		$ (11,732,421)

See accompanying Notes to the Basic Financial Statements.

PROPRIETARY FUND FINANCIAL STATEMENTS

GTrans Enterprise Fund - To account for user charges, fees, federal, state and county grants and all operating costs associated with the operation of the City's bus line.

Sewer Enterprise Fund (Nonmajor) - To account for user charges, fees and all operating costs associated with the operation, maintenance, upgrade and periodic reconstructions of the City's sanitary sewer system.

Internal Service Funds - To account for financing of goods and services provided by one department (general liability, workers' compensation, and health benefits) to other departments of the City on a cost-reimbursement basis.

Note 1 – Summary of Significant Accounting Policies

The basic financial statements of the City of Gardena, California, (the "City") have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") as applied to governmental agencies. The Governmental Accounting Standards Board ("GASB") is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The following is a summary of the significant policies:

A. Financial Reporting Entity

The City was incorporated September 11, 1930, under the General Laws of the State of California. The City is governed by an elected five-member council.

Blended Component Unit

In evaluating how to define the City for financial reporting purposes, management has considered all potential component units. The primary criteria for including a potential component unit within the reporting entity are the governing body's financial accountability and a financial benefit or burden relationship and whether it is misleading to exclude. A primary government is financially accountable and shares a financial benefit or burden relationship, if it appoints a voting majority of an organization's governing body and it is able to impose its will on the organization, or if there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on the primary government. A primary government may also be financially accountable if an organization is fiscally dependent on the primary government regardless of whether the organization has a separately elected governing board, a governing board appointed by a higher level of government, or a jointly appointed board, and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on the primary government.

Management determined that the following component unit should be blended based on the criteria above:

Although the following is legally separate from the City, it has been "blended" as though it is part of the City because the component unit's governing body is substantially the same as the City's and there is a financial benefit or burden relationship between the City and the component unit; management of the City has operational responsibilities for the component unit; and/or the component unit provides services entirely, or almost entirely, to the City or otherwise exclusively, or almost exclusively, benefits the City, even though it does not provide services directly to it.

City of Gardena Financing Agency - The City of Gardena Financing Agency ("the Agency") was created primarily to finance the acquisition of a public parking structure. The members of the City Council serve as the governing board of the Agency and there is a financial benefit or burden relationship between the City and the Agency. The Agency does not issue separate financial statements.

The City had no discretely presented component units.

B. Basis of Accounting and Measurement Focus

The accounts of the City are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures or expenses, as appropriate. City resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

Note 1 – Summary of Significant Accounting Policies (Continued)

B. Basis of Accounting and Measurement Focus (Continued)

Government-Wide Financial Statements

The Government-Wide Financial Statements are presented on an *"economic resources"* measurement focus and the accrual basis of accounting. Accordingly, all of the City's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, including capital assets, as well as infrastructure assets, and long-term liabilities, are included in the accompanying Statement of Net Position. The Statement of Activities presents changes in net position. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned while expenses are recognized in the period in which the liability is incurred. Fiduciary activities are not included in these statements.

Certain types of transactions are reported as program revenues for the City in three categories:

- Charges for services
- Operating grants and contributions
- Capital grants and contributions

Certain eliminations have been made in regards to interfund activities, payables and receivables. All internal balances in the Statement of Net Position have been eliminated except those representing balances between the governmental activities and the business-type activities, which are presented as internal balances and eliminated in the total primary government column. In the Statement of Activities, internal service fund transactions have been eliminated; however, those transactions between governmental and business-type activities have not been eliminated. The following interfund activities have been eliminated:

- Due from and to other funds
- Transfers in and out

Governmental Fund Financial Statements

All governmental funds are accounted for on a spending or *"current financial resources"* measurement focus and the modified accrual basis of accounting. Accordingly, only current assets and current liabilities are included on the Balance Sheet. The Statement of Revenues, Expenditures and Changes in Fund Balances present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in fund balances. Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become both measurable and available to finance expenditures of the current period.

Revenues are recognized as soon as they are both "*measurable*" and "*available*". Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For these purposes, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. The primary revenue sources, which have been treated as susceptible to accrual by the City, are property taxes, other local taxes, franchise fees, forfeitures and penalties, motor license fees, rents and concessions, interest revenue, and state and federal grants and subventions. Expenditures are recorded in the accounting period in which the related fund liability is incurred.

Reconciliations of the fund financial statements to the Government-Wide Financial Statements are provided to explain the differences.

Certain indirect costs are included as part of the program expenses reported for individual functions and activities.

Note 1 – Summary of Significant Accounting Policies (Continued)

B. Basis of Accounting and Measurement Focus (Continued)

Governmental Fund Financial Statements (Continued)

The City reports the following major governmental funds:

- General Fund - The General Fund is used to account for and report all financial resources not accounted for and reported in another fund.

- Economic Development Grants Special Revenue Fund - The Economic Development Grants Special Revenue Fund is used to account for and report of housing, environmental activities, and land use improvement, including funding received from the U.S. Department of Housing and Urban Development (HUD), the U.S. Environmental Protection Agency, and California Department of Housing & Community Development (HCD) and to account for fees received from developers to fund park and recreation facilities.

- City Capital Projects Fund - Represents the financial resources that are restricted, committed or assigned to expenditures for capital outlay.

- City Debt Service Fund - The City Debt Service Fund is used to account for and report financial resources that are restricted, committed or assigned to expenditure for principal and interest.

Proprietary Fund Financial Statements

Proprietary funds are accounted for using the "*economic resources*" measurement focus and the accrual basis of accounting. Accordingly, all assets and liabilities (whether current or noncurrent) are included on the Statement of Net Position. The Statement of Revenues, Expenses and Changes in Net Position presents increases (revenues) and decreases (expenses) in total net position. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned while expenses are recognized in the period in which the liability is incurred.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the proprietary funds are charges to customers for sales and services. Operating expenses for the proprietary funds include the costs of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

A separate column representing internal service funds is also presented in these statements. However, internal service balances and activities have been combined with the governmental activities and business-type activities in the Government-Wide Financial Statements. The City's internal service funds include three individual funds which provide services directly to other City funds. These areas of service include general liability, workers' compensation, and health benefits.

The City reports the following proprietary funds:

- GTrans Enterprise Fund - The GTrans Fund accounts for user charges, fees, federal, state and county grants and all operating costs associated with the operation of the City's bus line.

Note 1 – Summary of Significant Accounting Policies (Continued)

B. Basis of Accounting and Measurement Focus (Continued)

Proprietary Fund Financial Statements (Continued)

- Sewer Enterprise Fund (Nonmajor) - The Sewer Fund accounts for user charges, fees and all operating costs associated with the operation, maintenance, upgrade and periodic reconstruction of the City's sanitary sewer system.
- Internal Service Funds – The Internal Service Funds account for financing of goods and services provided by one department (general liability, workers' compensation, and health benefits) to other departments of the City on a cost-reimbursement basis.

The City considers the GTrans Enterprise Fund to be a major fund for the year ended June 30, 2023.

C. Cash, Cash Equivalents, and Investments

The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturity of three months or less from the date of acquisition. All cash and investments of proprietary funds are held in the City's investment pool. These cash pools have the general characteristics of a demand deposit account, therefore, all cash and investments in the proprietary funds are considered cash and cash equivalents for Statement of Cash Flows purposes.

Investments are stated at fair value.

D. Cash and Investments with Fiscal Agents

Cash and investments with fiscal agents are restricted for the redemption of bonded debt and for acquisition and construction of capital projects.

E. Fair Value Measurement

U.S. GAAP defines fair value, establishes a framework for measuring fair value and establishes disclosure about fair value measurement. Investments, unless otherwise specified at fair value in the financial statements, are categorized based upon the level of judgment associated with the inputs used to measure their fair value. Levels of inputs are as follows:

- Level 1 – Inputs are unadjusted, quoted prices for identical assets or liabilities in active markets at the measurement date.
- Level 2 – Inputs, other than quoted prices included in Level 1, that are observable for the assets or liabilities through corroboration with market data at the measurement date.
- Level 3 – Unobservable inputs that reflect management's best estimate of what market participants would use in pricing the assets or liabilities at the measurement date.

F. Interfund Transactions

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due from/to other funds" (i.e., current portion of interfund loans). Any residual balances outstanding between the governmental activities and business-type activities are reported in the Government-Wide Financial Statements as "internal balances".

Note 1 – Summary of Significant Accounting Policies (Continued)

G. Inventories and Prepaid Items

Inventories within the various fund types consist of materials and supplies which are valued at cost on a first-in, first-out basis. Reported expenditures reflect the consumption method of recognizing inventory-related expenditures.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements by using purchase method.

A nonspendable fund balance has been reported in the governmental funds to show that inventories and prepaid items do not constitute "available spendable resources," even though they are a component of current assets.

H. Capital Assets

In the Government-Wide Financial Statements, capital assets are recorded at cost where historical records are available and at an estimated original cost where no historical records exist. Donated capital assets are valued at their acquisition value. City policy has set the capitalization threshold for reporting capital assets at $5,000.

The City defines infrastructure assets as the basic physical assets that allow the City to function. The assets include streets, bridges, sidewalks, drainage systems, and lighting systems, etc. Each major infrastructure system can be divided into subsystems. For example, the street system can be subdivided into pavement, curb and gutters, sidewalks, medians, streetlights, landscaping and land. These subsystems were not delineated in the basic financial statements. The appropriate operating department maintains information regarding the subsystems.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Capital assets acquired under capital lease are capitalized at the net present value of the total lease payments.

For all infrastructure systems, the City elected to use the "Basic Approach".

The intangible right-to-use asset includes lease assets or subscription-based information technology arrangements ("SBITA") assets ("subscription asset"). These intangible assets are recorded at the amount of the initial measurement of the lease liabilities or SBITA liabilities ("subscription liabilities") and adjusted by any lease made to the lessor or subscription payments to the SBITA vendor at or before the commencement of the lease or subscription term, less any incentives received from the lessor or SBITA vendor at or before the commencement of the lease or subscription term along with any initial direct costs that are ancillary charges necessary to place the lease assets into service or subscription implementation costs. Lease assets are amortized using the straight-line method over the shorter of the lease term or the useful life of the underlying asset, unless the lease contains a purchase option that the City has determined is reasonably certain of being exercised. In this case, the lease asset is amortized over the useful life of the underlying asset. Subscription assets are amortized over the shorter of the subscription term or the useful life of the underlying Information Technology assets.

Capital assets used in operations are depreciated over their estimated useful lives using the straight-line method. The lives used for depreciation purposes are as follows:

Buildings/structures and improvements	40 years
Machinery and equipment	3-15 years
Buses	12 years
Furniture and fixtures	3-10 years
Infrastructure	30-60 years

Note 1 – Summary of Significant Accounting Policies (Continued)

I. Deferred Outflows and Inflows of Resources

The statement of net position and balance sheet – governmental funds reports separate sections for deferred outflows of resources and deferred inflows of resources, when applicable.

Deferred Outflows of Resources represent a consumption of net assets that applies to future periods.

Deferred Inflows of Resources represent an acquisition of net assets that applies to future periods.

J. Interest Payable

In the Government-wide Financial Statements, interest payable on long-term debt is recognized as the liability incurred for governmental activities and business-type activities.

In the Fund Financial Statements, only proprietary fund types recognize the interest payable when the liability is incurred.

K. Unearned Revenue

Unearned revenue is recognized for transactions for which revenue has not yet been earned. Typical transactions recorded as unearned revenues are prepaid charges for services and grants received but not yet earned.

L. Compensated Absences

It is the City's policy to accrue annual leave when incurred in the Government-wide Financial Statements and the proprietary funds. In governmental funds, the costs for annual leave that are expected to be liquidated with expendable available financial resources are reported as an expenditure and reported as a liability of the governmental fund only if they have matured.

A liability is recorded for unused sick leave balances only to the extent that it is probable that the unused balances will result in termination payments. This is estimated by including in the liability the unused balances of employees currently entitled to receive termination benefits, as well as those who are expected to become eligible to receive termination benefits as a result of continuing their employment with the City. Other amounts of unused sick leave are excluded from the liability since their payment is contingent solely upon the occurrence of a future event (illness) which is outside the control of the City and the employee.

M. Leases

The City has a policy to recognize a lease liability and a right-to-use asset (lease asset) in the financial statements with an initial, individual value of $5,000 or more with a lease term greater than one year. Variable payments based on future performance or usage of the underlying assets are not included in the measurement of the lease liability.

At the commencement of a lease, the lease liability is measured at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made.

Note 1 – Summary of Significant Accounting Policies (Continued)

M. Leases (Continued)

Lease assets are recorded at the amount of the initial measurement of the lease liabilities and modified by any lease payments made to the lessor at or before the commencement of the lease term, less any lease incentives received from the lessor at or before the commencement of the lease term along with any initial direct costs that are ancillary charges necessary to place the lease assets into service. Lease assets are amortized using the straight–line method over the shorter of the lease term or the useful life of the underlying asset, unless the lease contains a purchase option that the State has determined is reasonably certain of being exercised. In this case, the lease asset is amortized over the useful life of the underlying asset.

Key estimates and judgments related to leases include how the City determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- The City uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the City generally uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancelable period of the lease, plus any option periods that are reasonably certain to be exercised.
- Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option price that the City is reasonably certain to exercise. The City monitors changes in circumstances that would require a remeasurement of a lease and will remeasure any lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

Lease assets are reported as right-to-use along with other capital assets and lease liabilities are reported on the statement of net position.

N. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the plans and additions to/deductions from the plans' fiduciary net position have been determined on the same basis as they are reported by the plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

The following timeframes are used for pension reporting:

Valuation Date	June 30, 2021
Measurement Date	June 30, 2022
Measurement Period	July 1, 2021 to June 30, 2022

Gains and losses related to changes in total pension liability and fiduciary net position are recognized in pension expense systematically over time. The first amortized amounts are recognized in pension expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to pensions and are to be recognized in future pension expense. The amortization period differs depending on the source of the gain or loss. The difference between projected and actual earnings is amortized straight-line over 5 years. All other amounts are amortized straight-line over the average expected remaining service lives of all members that are provided with benefits (active, inactive, and retired) as of the beginning of the measurement period.

Note 1 – Summary of Significant Accounting Policies (Continued)

O. Other Postemployment Benefits ("OPEB")

For the purpose of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the City's OPEB Plan and additions to/deductions from the OPEB Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, the OPEB Plan recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments, which are reported at amortized cost.

The following timeframes are reported OPEB reporting:

OPEB	
Valuation Date	June 30, 2022
Measurement Date	June 30, 2022
Measurement Period	July 1, 2021 to June 30, 2022

Gains and losses related to changes in total OPEB liability and fiduciary net position are recognized in OPEB expense systematically over time. The first amortized amounts are recognized in OPEB expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to OPEB and are to be recognized in future OPEB expense. The amortization period differs depending on the sources of gain or loss. The difference between projected and actual earnings is amortized on a straight-line basis over 5 years. All other amounts are amortized on a straight-line basis over the average expected remaining service lives of all members that are provided with benefits (active, inactive, and retired) at the beginning of the measurement period.

P. Claims Payable

Claims payable in the Internal Service Fund represents estimates of claims against the City. The estimated claims payable represents the City's best estimate of the amount to be paid on workers' compensation and general liability claims. Losses for claims incurred but not reported are also recorded if the probable amount of loss can be reasonably estimated. The City is self-insured for general liability in the amount of $750,000 per claim and $250,000 per claim for GTrans. In addition, City also self-insured for workers' compensation for $750,000 per claim for both the City and GTrans. Losses in excess of $750,000 for the City and $250,000 for GTrans, up to $25,000,000 for general liability, and in excess of $750,000 for both the City and GTrans, up to the statutory limit for workers' compensation, are covered by outside insurance.

Q. Subscription Based Information Technology Arrangements Liabilities

The City recognizes subscription liabilities with an initial, individual value of $5,000 or more with a subscription term greater than one year in the government-wide and proprietary fund financial statements. Variable payments based on future performance of the City, usage of the underlying IT assets, or number of user seats are not included in the measurement of the subscription liability.

At the commencement of a subscription, the City initially measures the subscription liability at the present value of subscription payments expected to be made during the subscription term. Subsequently, the lease liability is reduced by the principal portion of subscription payments made.

Note 1 – Summary of Significant Accounting Policies (Continued)

Q. Subscription Based Information Technology Arrangements Liabilities (Continued)

Key estimates and judgments related to subscription liabilities include how the City determines (1) the discount rate it uses to discount the expected subscription payments to present value, (2) subscription term, and (3) subscription payments.

- The City uses the interest rate charged by the SBITA vendor as the discount rate. When the interest rate charged by the lessor is not provided, the City generally uses its estimated incremental borrowing rate as the discount rate for subscription liabilities.

- The subscription term includes the noncancellable period of the SBITA. Subscription payments included in the measurement of the subscription liability are composed of fixed payments.

The City monitors changes in circumstances that would require a remeasurement of its SBITA and will remeasure any subscription asset or liability if certain changes occur that are expected to significantly affect the amount of the subscription liability.

R. Long-Term Debt

In the Government-Wide Financial Statements and Proprietary Fund Financial Statements, long-term debt and other long-term obligations are reported as liabilities in the appropriate activities. Bond premium and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed when incurred.

The governmental fund financial statements do not present long-term liabilities. Consequently, long-term debt is shown as a reconciling item in the Reconciliation of the Governmental Funds Balance Sheet to the Government-Wide Statement of Net Position.

S. Property Taxes

Under California law, property taxes are assessed and collected by the counties for up to 1% of assessed property value, plus other increases approved by the voters. Property taxes collected are pooled and then allocated to the cities based on complex formulas. The following are key dates pertaining to property taxes:

January 1	Lien Date
June 30	Levy Date
November 1 and February 1	Due Dates
December 10 and April 10	Collection Dates

Distribution Dates:

November 18, 2022	Unsecured, redemptions, and SB813 taxes
December 20, 2022	Homeowners' exemption, secured, and SB813 taxes
January 20, 2023	Homeowners' exemption, secured, and SB813 taxes
February 17, 2023	Redemptions, secured, and SB813 taxes
March 18, 2023	Secured and SB813 taxes
April 20, 2023	Secured and SB813 taxes
May 19, 2023	Redemptions, homeowners' exemption, secured, and SB813 taxes
June 20, 2023	Homeowners' exemption, SB813 taxes
July 20, 2023	Secured and SB813 taxes
August 20, 2023	Secured, redemptions, unsecured, and SB813 taxes

Note 1 – Summary of Significant Accounting Policies (Continued)

T. Net Position and Fund Balances

In the Government-Wide Financial Statements and proprietary fund financial statements, net position is classified as follows:

Net Investment in Capital Assets – This component of net position consists of capital assets, net of accumulated depreciation and amortization, reduced by the outstanding balances of retention payable and debt that are attributable to the acquisition, construction, or improvement of those assets.

Restricted – This component of net position consists of restricted assets reduced by liabilities and deferred outflows and inflows of resources related to those assets.

Unrestricted – This component of net position is the amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted component of net position.

In the Governmental Fund Financial Statements, fund balances are classified as follows:

Nonspendable – Nonspendable fund balances are items that cannot be spent because they are not in spendable form, such as prepaid items and inventories, or items that are legally or contractually required to be maintained intact, such as principal of an endowment or revolving loan funds.

Restricted – Restricted fund balances encompass the portion of net fund resources subject to externally enforceable legal restrictions. This includes externally imposed restrictions by creditors, such as through debt covenants, grantors, contributors, laws or regulations of other governments, as well as restrictions imposed by law through constitutional provisions or enabling legislation.

Committed – Committed fund balances encompass the portion of net fund resources, the use of which is constrained by limitations that the government imposes upon itself at its highest level of decision making, normally the governing body, and that remain binding unless removed in the same manner. The City Council is considered the highest authority for the City. Adoption of a resolution by the City Council is required to commit resources or to rescind the commitment.

Assigned – Assigned fund balances encompass the portion of net fund resources reflecting the government's intended use of resources. Assignment of resources can be done by the highest level of decision making or by a committee or official designated for that purpose. The City Council has authorized by resolution the City Manager or the City Fiscal Officer for that purpose.

Unassigned – This amount is for any portion of the fund balances that do not fall into one of the above categories. The General Fund is the only fund that reports a positive unassigned fund balance amount. In other governmental funds, it is not appropriate to report a positive unassigned fund balance amount. However, in governmental funds other than General Fund, if expenditures incurred for specific purposes exceed the amounts that are restricted, committed or assigned to those purposes, it may be necessary to report a negative unassigned fund balance in that fund.

Spending Policy

Government-Wide Financial Statements and the Proprietary Fund Financial Statements

When expenses are incurred for purposes for which both restricted and unrestricted components of net position are available, the City's policy is to apply the restricted component of net position first, then the unrestricted component of net position as needed.

Note 1 – Summary of Significant Accounting Policies (Continued)

T. Net Position and Fund Balances (Continued)

Spending Policy (Continued)

Governmental Fund Financial Statements

When expenditures are incurred for purposes for which all restricted, committed, assigned and unassigned fund balances are available, the City's policy is to apply in the following order, except for instances wherein an ordinance specifies the fund balance:

- Restricted
- Committed
- Assigned
- Unassigned

U. Use of Estimates

The preparation of the basic financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

V. Implementation of New GASB Pronouncements

In May 2019, GASB issued Statement No. 91, *Conduit Debt Obligations*, to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This Statement achieves those objectives by clarifying the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improving required note disclosures. Implementation of this Statement did not have a significant effect to the City's financial statements for the fiscal year ended June 30, 2023.

In March 2020, GASB issued Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements* (GASB Statement No. 94), to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). Implementation of this Statement did not have a significant effect to the City's financial statements for the fiscal year ended June 30, 2023.

In May 2020, GASB issued Statement No. 96, *Subscription-Based Information Technology Arrangements* (GASB Statement No. 96), to better meet the information needs of financial statement users by (a) establishing uniform accounting and financial reporting requirements for SBITAs; (b) improving the comparability of financial statements among governments that have entered into SBITAs; and (c) enhancing the understandability, reliability, relevance, and consistency of information about SBITAs. Under this Statement, a government is required to recognize a subscription liability and an intangible right-to-use subscription asset. The effective date of GASB Statement No. 96 is for fiscal years beginning after June 15, 2022. Implementation of this Statement resulted in restatement of beginning balance of capital assets (Note 7) and long-term debt liabilities (Note 8) at July 1, 2022.

Note 1 – Summary of Significant Accounting Policies (Continued)

V. Implementation of New GASB Pronouncements (Continued)

In March 2022, GASB issued Statement No. 99, *Omnibus 2022,* to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing (1) practice issues that have been identified during implementation and application of certain GASB Statements and (2) accounting and financial reporting for financial guarantees. Implementation of this Statement did not have a significant effect to the City's financial statements for the fiscal year ended June 30, 2023

Note 2 – Stewardship, Compliance and Accountability

A. Deficit Net Position

In the Government-Wide Financial Statements, the City had a deficit unrestricted net position at June 30, 2023 for its governmental activities of $(115,019,564) and business-type activities of $(32,642,965). The deficit was mainly due to the reporting of the aggregate net pension liabilities, the aggregate net OPEB liabilities and the pension obligation bonds issued to pay for the unfunded pension liabilities. The aggregate net pension liabilities reported were $16,120,826 and $3,233,030 for governmental activities and business-type activities, respectively. The aggregate net OPEB liabilities were $64,768,264 and $8,020,898 for governmental activities and business-type activities, respectively. The Pension Obligation Bonds were $73,832,926 and $20,787,074 for governmental activities and business-type activities, respectively.

The following funds had a deficit fund balance/net position at June 30, 2023:

Nonmajor Governmental Funds:	
Public Safety Grants Special Revenue Fund	$ (57,980)
Internal Service Funds:	
Workers' Compensation Fund	(11,493,125)

In addition, the GTrans Enterprise had deficit unrestricted net position of $(24,503,020) at June 30, 2023.

The net position balance includes both short and long-term liabilities. The deficit balances are expected to be recovered through future interfund transfers and other revenues as applicable for this purpose.

B. Expenditures in Excess of Appropriations

The following funds had expenditures in excess of appropriations:

Fund	Appropriations	Expenditures	Excess of Expenditures over Appropriations
Major Governmental Funds:			
General Fund			
General government:			
Non-departmental	$ 1,015,399	$ 1,488,894	$ 473,495
Public works	6,634,386	6,887,999	253,613
Community development	2,618,308	2,620,660	2,352
Capital outlay	888,000	2,454,195	1,566,195
Debt service:			
Principal	-	592,688	592,688
Interest and fiscal charges	-	32,659	32,659

Note 2 – Stewardship, Compliance and Accountability (Continued)

B. Expenditures in Excess of Appropriations (Continued)

Fund	Appropriations	Expenditures	Excess of Expenditures over Appropriations
2006 Refunding COPs, Series A Debt Service Fund			
Interest and fiscal charges	401,340	402,117	777
2014 Taxable Lease Revenue Refunding Bonds Debt Service Fund			
Debt service:			
Interest and fiscal charges	441,011	441,157	146
2020 Taxable Pension Obligation Bonds Debt Service Fund			
Debt service:			
Principal retirement	2,859,250	2,859,799	549
Nonmajor Governmental Funds:			
Gas Tax Special Revenue Fund			
Public works	565,660	597,910	32,250
Debt service:			
Principal retirement	-	19,606	19,606
Public Safety Grants Special Revenue Fund			
Public safety	276,126	303,884	27,758
Debt service:			
Principal retirement	-	4,463	4,463
Public Works Grants Special Revenue Fund			
Recreation and human services	10,000	17,910	7,910
Human Services Grants Special Revenue Fund			
Capital Outlay	-	10,000	10,000
Debt service:			
Principal retirement	4,346	10,147	5,801

Note 3 – Cash and Investments

The City maintains a cash and investment pool, which includes cash balances and authorized investments of all funds. Certain restricted funds which are held and invested by independent outside custodians through contractual agreements are not pooled. These restricted funds include cash and investments with fiscal agents.

The City had the following cash and investments at June 30, 2023:

	Government-Wide Financial Statement		
	Governmental Activities	Business-Type Activities	Total
Cash and investments	$ 77,295,313	$ 25,240,370	$ 102,535,683
Cash and investments held by fiscal agents	13,807,281	-	13,807,281
Total cash and investments	$ 91,102,594	$ 25,240,370	$ 116,342,964

Note 3 – Cash and Investments (Continued)

The City's cash and investments at June 30, 2023, in more detail:

Cash:	
Petty cash	$ 7,200
Demand deposits	18,270,532
Total cash and cash equivalents	18,277,732
Investments:	
Money market mutual fund	48,133,970
U.S. Treasury	14,363,188
Negotiable certificates of deposit	2,632,368
Corporate notes	6,194,599
Local Agency Investment Fund	5,216,245
U.S. Government sponsored enterprise securities	5,969,728
Foreign negotiable certificates of deposit	1,747,853
Total investments	84,257,951
Total cash and investments	102,535,683
Cash and investments with fiscal agents	13,807,281
Total	$ 116,342,964

A. Deposits

The carrying amounts of the City's demand deposits were $18,270,532 at June 30, 2023. Bank balances at that date were $20,193,388, the total amount of which was collateralized or insured with accounts held by the pledging financial institutions in the City's name as discussed below.

The California Government Code requires California banks and savings and loan associations to secure the City's cash deposits by pledging securities as collateral. This Code states that collateral pledged in this manner shall have the effect of perfecting a security interest in such collateral superior to those of a general creditor. Thus, collateral for cash deposits is considered to be held in the City's name.

The market value of pledged securities must equal at least 110% of the City's cash deposits. California law also allows institutions to secure City deposits by pledging first trust deed mortgage notes having a value of 150% of the City's total cash deposits. The City may waive collateral requirements for cash deposits, deposits, which are fully insured up to $250,000 by the Federal Deposit Insurance Corporation ("FDIC"). The City did not waive the collateral requirement for deposits insured by FDIC.

The City follows the practice of pooling cash and investments of all funds, except for funds required to be held by fiscal agents under the provisions of bond indentures. Interest income earned on pooled cash and investments is allocated on an accounting period basis to the various funds based on the period-end cash and investment balances. Interest income from cash and investments with fiscal agents is credited directly to the related fund.

Note 3 – Cash and Investments (Continued)

B. Investments

Under the provisions of the City's investment policy, and in accordance with California Government Code, the following investments are authorized:

Authorized Investment Type	Maximum Maturity	Maximum Percentage of Portfolio *	Maximum Investment in One Issuer
Municipal securities	5 years	30%	5%
United States treasury obligations	5 years	No Limit	No Limit
U.S. Government sponsored enterprise securities	5 years	No Limit	25%
Bankers' acceptances	180 days	40%	5%
Commercial paper	270 days	25%	5%
Negotiable certificates of deposit	5 years	30%	5%
Federally insured time deposits	5 years	20%	Federally Insured
Collateralized time deposits	5 years	20%	Federally Insured
Certificate of deposit placement service ("CDARS")	5 years	30%	Federally Insured
Local Agency Investment Fund ("LAIF")	N/A	No Limit	No Limit
Medium-term notes	5 years	30%	5%
Asset-Backed, Mortgage-Backed, Mortgage Pass-Through Securities, and Collateralized Mortgage	5 years	20%	5%
Mutual funds	N/A	20%	10%
Money market mutual funds	N/A	20%	20%
Supranationals	5 years	30%	10%
Investment Trust of California ("CalTrust")	N/A	No Limit	No Limit

N/A - Not Applicable

* Excluding amounts held by bond trustees that are not subject to California Government Code restrictions.

The City is a participant in LAIF which is regulated by California Government Code Section 16429 under the oversight of the Treasurer of the State of California. The City's investments with LAIF at June 30, 2023, included a portion of the pool funds invested in Structured Notes and Asset-Backed Securities:

Structured Notes: debt securities (other than asset-backed securities) whose cash flow characteristics (coupon rate, redemption amount, or stated maturity) depend upon one or more indices and/or that have embedded forwards or options.

Asset-Backed Securities: generally, mortgage-backed securities that entitle their purchasers to receive a share of the cash flows from a pool of assets such as principal and interest repayments from a pool of mortgages (for example, Collateralized Mortgage Obligations) or credit card receivables.

As of June 30, 2023, the City had $5,216,245 invested in LAIF, which had invested 2.78% of the pool investment funds in Structured Notes and Asset-Backed Securities. The fair value of the City's portion in the pool is the same as the value of the pool shares and reported at amortized cost.

Note 3 – Cash and Investments (Continued)

C. Fair Value Measurement

At June 30, 2023, investments are reported at fair value. The following table presents the fair value measurements of investments on a recurring basis and the levels with GASB 72 fair value hierarchy in which the fair value measurements fall at June 30, 2023:

	Measurement Input			
Investment Type	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Uncategorized[3]	Total
Money market mutual fund	$ -	$ -	$ 48,133,970	$ 48,133,970
U.S. Treasury	14,363,188	-	-	14,363,188
Negotiable certificates of deposit [1]	-	2,632,368	-	2,632,368
Corporate notes[1]	-	6,194,599	-	6,194,599
Local Agency Investment Fund	-	-	5,216,245	5,216,245
U.S. Government sponsored enterprise securities [1]	-	5,969,728	-	5,969,728
Foreign negotiable certificates of deposit [2]	-	1,747,853	-	1,747,853
Cash and investments with fiscal agents:				
Money market mutual fund	-	-	13,807,281	13,807,281
Total	$ 14,363,188	$ 16,544,548	$ 67,157,496	$ 98,065,232

[1] Pricing based on Institutional Bond Quotes - evaluations based on various market and industry inputs.

[2] Pricing based on Intercontinental Exchange Extel Financial Ltd - evaluations based on various market factors.

[3] Cash and cash equivalent.

D. Risk Disclosures

<u>*Interest Rate Risk*</u> - As a means of limiting its exposure to fair value losses arising from rising interest rates, the City's investment policy limits investments to a maximum maturity of five years. At June 30, 2023, the City had the following investment maturities:

		Investment Maturities (in Years)				
Investment Type	Fair Value	Less Than 1 Year	1 to 2 Years	2 to 3 Years	3 to 4 Years	4 to 5 Years
Money market mutual fund	$ 48,133,970	$ 48,133,970	$ -	$ -	$ -	$ -
U.S. Treasury	14,363,188	4,541,608	2,737,475	3,405,764	1,881,690	1,796,651
Negotiable certificates of deposit	2,632,368	451,050	224,567	432,165	1,184,113	340,473
Corporate notes	6,194,599	1,771,818	1,726,336	1,047,712	640,955	1,007,778
Local Agency Investment Fund	5,216,245	5,216,245	-	-	-	-
U.S. Government sponsored enterprise securities	5,969,728	2,932,525	1,099,474	790,217	-	1,147,512
Foreign negotiable certificates of deposit	1,747,853	873,609	874,244	-	-	-
Cash and investments with fiscal agents:						
Money market mutual fund	13,807,281	13,807,281	-	-	-	-
Total	$ 98,065,232	$ 77,728,106	$ 6,662,096	$ 5,675,858	$ 3,706,758	$ 4,292,414

<u>*Custodial Credit Risk*</u> - For deposits, custodial credit risk is the risk that, in the event of the failure of a depository financial institution, the City will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer), the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

Note 3 – Cash and Investments (Continued)

D. Risk Disclosures (Continued)

Credit Risk - State law limits investments in commercial paper and corporate bonds to the top two ratings issued by nationally recognized statistical rating organizations (NRSROs). It is the City's policy to limit its investments in these investment types to the top rating issued by Standard & Poor's and Moody's Investors Service. At June 30, 2023, the City's credit risks, expressed on a percentage basis, were as follows:

Credit Quality Distribution for Securities
with Credit Exposure as a Percentage of Total Investments

Investment Type	Moody's Credit Rating	S&P's Credit Rating	% of Investments with Interest Rate Risk
Local Agency Investment Fund	Not Rated	Not Rated	6.19%
U.S. Treasury	AAA	Not Rated	17.05%
U.S. Government sponsored enterprise securities	AAA	AA+	7.09%
Negotiable certificates of deposit	Not Rated	Not Rated	3.12%
Foreign negotiable certificates of deposit	A2	Aa	2.07%
Corporate notes	A	A	7.35%
Money market mutual fund	P-1	Aa	57.13%
Total			100.00%

Concentration of Credit Risk - The City's investment policy states that no more than 5% of the City's total investment portfolio shall be invested in a single type or with a single financial institution. The only exception to these limits shall be the investment in U.S. Treasury and authorized pools. There are no investments in any one issuer than the external investment pools that represent 5% or more of total City investments.

Note 4 – Other Receivables

A. YMCA Receivables

In February 1994, the City entered into a long-term lease contract to lease land to the YMCA for construction of a new YMCA facility that would benefit the community. The facility opened on February 6, 1995 with a 30-year lease term, ending in 2024. Under the terms of the agreement, the maximum amount that the City could receive was $1,400,000. This amount is payable in monthly payments, with annual rent adjustments over a 30-year lease term. In January 2023, the monthly payment was increased from $71 to $367 per month. At the adjustment date, annual rent was equal to total rent of $1,400,000 less all previous payments, multiplied by the six-month average LAIF interest rate. The lease includes two 25-year options to renew and an option to purchase the land at the end of the lease for the amount of $1,400,000 reduced by the amount already paid as of the time of purchase. As of June 30, 2023, future lease payments from the YMCA, including interest, were $369,299. Since the City has not earned the revenue for the future lease payments, there was no revenue recognized or receivables reported at June 30, 2023 for these future lease payments.

B. State Mandated Claims Reimbursement

The City recorded an outstanding receivable of $731,858 for the State Mandated Claims Reimbursement (SB90 Claims) from the State of California (the "State"). The payments of the mandated claims reimbursement are subject to State approval and management cannot estimate the timing and amount of the payments that will be made and reported an allowance for doubtful accounts in the amount of $731,858. As a result, both the General Fund in the governmental fund financial statements and governmental activities in the government-wide financial statements reported zero balances for accounts receivable associated with the State Mandated Claims Reimbursement as of June 30, 2023.

Note 5 – Loans Receivable

Loans receivable consists of Home-Owner Occupied Deferred Loans and Spring Park Senior Villa Developer Loan as following:

	Balance July 1, 2022	Additions	Deletions	Allowance	Balance June 30, 2023
Home-Owner Occupied Deferred Loans					
CalHOME	$ 372,094	$ -	$ -	$ -	$ 372,094
State HOME Loans	1,594,850	-	(12,875)	-	1,581,975
Subtotal	1,966,944	-	(12,875)	-	1,954,069
Spring Park Senior Villa Developer Loan	3,632,103	86,224	-	(3,718,327)	-
Total	$ 5,599,047	$ 86,224	$ (12,875)	$ (3,718,327)	$ 1,954,069

A. Home-Owner Occupied Deferred Loans

The City issues deferred payment loans to home owners funded by the Federal Home Investment Partnerships Program ("HOME Program") and CalHOME to improve the living conditions of the lower income families. These loans are to be repaid to the City, and the repayments of the loans are used to fund future home-owner occupied deferred loans. As of June 30, 2023, the outstanding loan balance is $1,954,069.

B. Spring Park Senior Villa Developer Loan

The City entered into a development agreement on August 1, 2013, with Spring Park Senior Villa, Inc., a nonprofit organization for the development of the Spring Park Senior Villa in the City. The agreement provided funding for the development of 36 rental units and one manager unit ("the Project") up to $2,874,115 for construction. The loan bears 3% simple interest over a term of 55 years. The repayment of the loan is based on the residual receipts of the rental units. The affordability covenant also expires in 55 years after completion of the project. As of June 30, 2023, the City funded $2,874,115 for the development of the project and accrued interest in the amount of $844,212 which was required by the State of California. This results the City in reporting loans receivable in the amount of $3,718,327. However, management estimated that the loans will not be repaid due to negative residual receipts and reported an allowance for doubtful accounts in the amount of $3,718,327. As a result, both the Economic Development Grants Special Revenue Fund in the governmental fund financial statements and governmental activities in the government-wide financial statements reported zero balances for loans receivable associated with the Spring Park Senior Villa as of June 30, 2023.

Note 6 – Interfund Transactions

A. Government-Wide Financial Statements

Internal Balances - At June 30, 2023, the City had the following internal receivable and payable, which represents internal service charges between the governmental activities and business-type activities:

	Internal Payable
Internal Receivable	Business-Type Activities
Governmental Activities	$ 17,763,827

Note 6 – Interfund Transactions (Continued)

A. Government-Wide Financial Statements (Continued)

Transfers – For the year ended June 30, 2023, the City had the following transfers:

	Transfers Out
Transfers In	Business-Type Activities
Governmental Activities	$ 515,854

The purposes of the transfers were for subsidizing the governmental activities for public works engineering job costs and administrative costs.

B. Fund Financial Statements

Due From/To Other Funds - At June 30, 2023, the City had the following due from/to other funds:

	Due From Other Funds
Due To Other Funds	General Fund
Governmental Funds:	
Economic Development Grants Special Revenue Fund	$ 261,773
City Debt Service Fund	349,271
Nonmajor Governmental Funds	2,320,365
Proprietary Fund:	
GTrans Enterprise Fund	7,093,382
Total	$ 10,024,791

The above amounts resulted from temporary reclassifications made at June 30, 2023 to cover cash shortfalls.

Transfers In/Out – During the year ended June 30, 2023, the City had the following transfers in/out, which arise in the normal course of operations:

	Transfers In							
	Governmental Funds					Enterprise Funds		
Transfers Out	General Fund	Economic Development Grants Special Revenue	City Capital Projects Fund	City Debt Service	Nonmajor Governmental	Nonmajor Sewer Enterprise Fund	Internal Service Funds	Total

Typically, the General Fund has been used to liquidate the liability for compensated absences, claims payable, and net other postemployment benefits.

2006 Certificates of Participation, Series A – Original Issuance $12,495,000

In June 2006, the Agency issued the 2006 Refinancing Project, Series A Taxable Certificates of Participation in the amount of $12,495,000. The purpose of the issue was to refinance the City's 1999 Certificates of Participation in connection with a Memorandum of Understanding ("MOU") entered into with certain financial institutions.

Pursuant to the MOU, the Agency paid the financial institutions $19 million (the "Initial Amount") as prepayment of the 1999 Certificates, of which $18 million were funded by the 2006 Series A and B Certificates and the balance of $1 million from other available City funds. Upon payment of the Initial Amount, the 1999 Leases as well as the pledges and security interests granted in connection with the 1999 Leases will be terminated and the City's obligations under the Reimbursement Agreement for the 1999 Certificates will be terminated. The Initial Payment represents approximately 75% of the principal owed.

Interest rates for the 2006A Certificates range from 5.98% to 6.38% with principal maturing through July 1, 2030.

Mandatory prepayment of the 2006 Series A Certificates occurred in July 2008 and will occur again in July 2030. The certificates of participation debt service payments will be made from the debt service funds.

Note 8 – Long-Term Liabilities (Continued)

A. Governmental Activities (Continued)

2006 Certificates of Participation, Series A – Original Issuance $12,495,000 (Continued)

The amount outstanding at June 30, 2023 totaled $5,940,000. The annual debt service requirements on these certificates are as follows:

Fiscal Year	Principal	Interest	Total
2024	$ 665,000	$ 357,759	$ 1,022,759
2025	705,000	314,056	1,019,056

2029-2031	2,170,000	169,070	2,339,070
Total	$ 5,940,000	$ 1,492,283	$ 7,432,283

2007 Refunding Revenue Bonds, Series A – Original Issuance $2,800,000

In January 2007, the City issued the South Bay Regional Public Communications Authority Refunding Revenue Bonds, 2007 Series A in the amount of $2,800,000. The purpose of the bonds was to advance refund the South Bay Regional Public Communications Authority Revenue Bonds, 2001 Series A, to provide a reserve fund for the Bonds, and to pay certain costs of issuance of the Bonds. The 2001 Series A Bonds were fully redeemed as of January 1, 2012.

The bonds accrue interest at rates between 5% and 5.125%. Interest on the bonds is payable semiannually on each January 1 and July 1, commencing July 1, 2007. Principal payments are due in annual installments ranging from $70,000 to $175,000, commencing July 1, 2007 through January 1, 2031. The bonds are subject to optional and mandatory redemption prior to maturity. The refunding revenue bonds debt service payments will be made from the debt service funds.

The amount outstanding at June 30, 2023 totaled $1,915,000. The annual debt service requirements on these bonds are as follows:

Fiscal Year	Principal	Interest	Total
2024	$ 125,000	$ 60,575	$ 185,575
2025	130,000	54,325	184,325

2027	145,000	41,075	186,075
2028	155,000	33,825	188,825
2029-2031	505,000	52,232	557,232
Total	$ 1,195,000	$ 289,857	$ 1,484,857

Note 8 – Long-Term Liabilities (Continued)

A. Governmental Activities (Continued)

2014 Taxable Lease Revenue Refunding Bonds – Original Issuance $9,110,000

In December 2014, the City issued the Taxable Lease Revenue Refunding Bonds, Series 2014 in the amount of $9,110,000 to current refund 2006 Certificate of Participation, Series B. The current refunding resulted in an economic gain in the amount of $1,637,398 and saving in debt service payments in the amount of $2,360,051. The current refunding resulted in no deferred gains or losses as the bond proceeds net of the issuance discount was sufficient to cover repayment of 2006 Certificates of Participation, Series B, the interests due, and the issuance cost on the 2014 Taxable Lease Revenue Refunding Bonds.

The bonds bear interest at rates between 3.95% and 5%. Interest on the bonds is payable annually on each May 1 and November 1. Principal payments are due in annual installments ranging from $55,000 to $1,430,000, commencing May 1, 2018 through May 1, 2036. The bonds are subject to optional and mandatory redemption prior to maturity. The refunding revenue bonds debt service payments will be made from the debt service funds.

The amount outstanding at June 30, 2023 totaled $8,750,000. The annual debt service requirements on these bonds as follows:

Fiscal Year	Principal	Interest	Total
2024	$ 70,000	$ 435,799	$ 505,799
2025	70,000	433,034	503,034
2026	75,000	429,709	504,709
2027	75,000	426,148	501,148
2028	80,000	422,586	502,586
2029-2033	4,605,000	1,776,289	6,381,289
2034-2036	3,775,000	359,250	4,134,250
Total	$ 8,750,000	$ 4,282,814	$ 13,032,814

2017 Direct Purchase Lease

In June 2017, the City issued the Direct Purchase Lease in the amount of $1,635,000 to currently refund 2006 Certificate of Participation, Series C. The economic gain on the current refunding was $112,585 and the saving in debt service payments is $89,363.

The bonds bear interest at 2.07%. Interest on the bonds is payable annually on each July 1. Principal payments are due in annual installments ranging from $245,000 to $285,000, commencing July 1, 2018 through July 1, 2023. The refunding revenue bonds debt service payments will be made from the debt service funds.

In the event of default, the lender may exercise any one or more of the following remedies (a) enforcement of payments without termination, (b) termination of lease, (c) proceeding at law or in equity, or (d) remedies under the lease and facilities lease.

The amount outstanding at June 30, 2023 totaled $285,000. The annual debt service requirements on these bonds as follows:

Fiscal Year	Principal	Interest	Total
2024	$ 285,000	$ 2,950	$ 287,950

Note 8 – Long-Term Liabilities (Continued)

A. Governmental Activities (Continued)

2016 SCE On-Bill Financing Loan

On April 4, 2016, the City entered into a loan agreement with Southern California Edison ("SCE") for the Energy Management Solutions Incentives Application. The agreement provides zero- percent interest financing for the installation of certain energy efficient equipment for up to $126,580, of which is to be repaid over ten years through the Customer's electric utility bills.

SCE may determine the loan to be breached and the City to be in default if the City (1) sells, assigns or otherwise transfers ownership, possession or title of the site or the equipment, (2) fails to pay the money payment when due, (3) closes, discontinues or otherwise causes the termination of the service account(s), or (4) otherwise breaches this agreement, and the breach is not cured as specified therein. Following a breach, SCE shall have the right to declare the entire unpaid balance of the loan obligation due and payable.

The amount outstanding at June 30, 2023 totaled $29,065. The annual debt service requirements on this loan as follows:

Fiscal Year	Principal	Interest	Total
2024	$ 14,296	$ -	$ 14,296
2025	7,769	-	7,769
2026	7,000	-	7,000
Total	$ 29,065	$ -	$ 29,065

2020 Taxable Pension Obligation Bonds – Original Issuance $101,490,000 ($79,193,585 for Governmental Activities)

In November 2020, the City issued the Taxable Pension Obligation Bonds, Series 2020 in the amount of $101,490,000. The purpose of the bonds was to finance a portion of the City's unfunded accrued actuarial liability to the California Public Employees' Retirement System (CalPERS) for the benefit of the City's employees and to pay the costs of issuance of the bonds. Of the original $101,490,000 of bond principal issued, $79,193,585 was allocated to governmental activities and $22,296,415 was allocated to business-type activities.

The bonds accrue interest at rates between 1.081% and 3.363%. Interest on the bonds is payable semiannually on each April 1 and October 1, commencing April 1, 2021. Principal payments are due in annual installments ranging from $2,995,000 to $7,525,000, commencing April 1, 2021 through April 1, 2039. The bonds are not subject to optional and mandatory redemption prior to maturity. The bond debt service payments will be made from the debt service funds.

2028	4,131,689	1,965,558	6,097,247
2029-2033	22,476,540	8,025,107	30,501,647
2034-2038	26,323,422	4,167,588	30,491,010
2039	5,872,696	226,300	6,098,996
Total	$ 73,832,926	$ 23,051,220	$ 96,884,146

2021 Lease Revenue Bonds – Original Issuance $13,155,000

In September 2021, the City of Gardena Financing Agency issued the Lease Revenue Bonds, Series 2021 in the amount of $13,155,000. The purpose of the bonds was to fund various capital projects including the Gardena Community Aquatic & Senior Center, the Community Center, and various Park Improvement projects.

The bonds bear interest at rates between 3% and 5%. Interest on the bonds is payable annually on each May 1. Principal payments are due in annual installments ranging from $275,000 to $915,000, commencing May 1, 2022 through May 1, 2041. The bonds are subject to optional and mandatory redemption prior to maturity. The revenue bonds debt service payments will be made from the debt service funds. The unspent project fund is in the amount of $11,752,150 at June 30, 2023.

The amount outstanding at June 30, 2023 totaled $12,440,000. The annual debt service requirements on these bonds as follows:

Fiscal Year	Principal	Interest	Total
2024	$ 465,000	$ 476,000	$ 941,000
2025	490,000	452,750	942,750
2026	510,000	428,250	938,250
2027	540,000	402,750	942,750
2028	565,000	375,750	940,750
2029-2033	3,270,000	1,432,600	4,702,600
2034-2038	3,940,000	760,650	4,700,650
2039-2041	2,660,000	161,250	2,821,250
Total	$ 12,440,000	$ 4,490,000	$ 16,930,000

Note 8 – Long-Term Liabilities (Continued)

A. Governmental Activities (Continued)

Loans Payable

On August 1, 2013, the City entered into a loan agreement with the State of California Department of Housing and Community Development ("California HCD") for the funding of the Spring Park Senior Villa. The agreement provides funding for the development of the project for up to $2,974,115, of which, $2,874,115 is to be used for construction costs in the form of a construction loan and $100,000 to be used for activity delivery and administration costs in the form of grants. If the HOME-assisted rental housing does not meet the minimum affordability period of 55 years per the City's agreement with the California HCD, the repayment of all HOME funds to the State is required of the City. As of June 30, 2023, the City funded $2,874,115 for the development of the project and accrued interest in the amount of $884,212. This results in the loans payable in the amount of $3,718,327 to the California HCD. Please refer to Note 5B for additional information.

Lease Payable

The City has entered leases for the building, vehicle, and machine uses. The terms of the agreements range from 18 months to 60 months. The calculated interest rates used were between 0.185% to 3.305% based on the term of the agreements.

Principal and interest payments to maturity at June 30, 2023 are as follows:

Fiscal Year	Principal	Interest	Total
2024	$ 157,234	$ 9,164	$ 166,398
2025	97,214	7,105	104,319
2026	70,105	5,307	75,412
2027	52,690	3,596	56,286
2028	46,624	1,876	48,500
2029 - 2032	35,768	2,655	38,423
Total	$ 459,635	$ 29,703	$ 489,338

Subscription Liabilities

The City has entered into subscriptions for information technology arrangements. The terms of the arrangements range from 24 to 60 months with implicit rates used between 0.552% to of 3.305%. Principal and interest to maturity are as follows:

Fiscal Year	Principal	Interest	Total
2024	$ 414,695	$ 24,246	$ 438,941
2025	417,459	14,150	431,609
2026	135,589	4,183	139,772
2027	64,418	1,283	65,701
Total	$ 1,032,161	$ 43,862	$ 1,076,023

Legal Debt Margin

The City is subject to legal debt margin and the City's legal debt limit was in the amount of $302,781,508 at June 30, 2023.

Note 8 – Long-Term Liabilities (Continued)

A. Governmental Activities (Continued)

Compensated Absences

The long-term portion of compensated absences payable has been accrued for the Governmental Activities on the Government-Wide Financial Statements. In prior years, the General Fund has typically been used to liquidate the liability. The balance outstanding at June 30, 2023 was $9,224,976.

B. Business-Type Activities

The following is a summary of changes in long-term liabilities for business-type activities for the year ended June 30, 2023:

	Balance July 1, 2022 (As Restated)	Additions	Deletions	Balance June 30, 2023	Due within One Year	Due in more One Year
2020 Taxable Pension Obligation Bonds - publicly offered	$ 21,592,275	$ -	$ (805,201)	$ 20,787,074	$ 924,937	$ 19,862,137
Lease payable	158,923	26,483	(172,053)	13,353	13,353	-
Subscription liabilities	205,064	202,935	(128,432)	279,567	125,277	154,290
Compensated absences	1,957,424	1,091,857	(1,127,877)	1,921,404	384,281	1,537,123
Total	$ 23,913,686	$ 1,321,275	$ (2,233,563)	$ 23,001,398	$ 1,447,848	$ 21,553,550

2020 Taxable Pension Obligation Bonds – Original Issuance $101,490,000 ($22,296,415 for Business-Type Activities)

In November 2020, the City issued the Taxable Pension Obligation Bonds, Series 2020 in the amount of $101,490,000. The purpose of the bonds was to finance a portion of the City's unfunded accrued actuarial liability to the California Public Employees' Retirement System (CalPERS) for the benefit of the City's employees and to pay the costs of issuance of the bonds. Of the original $101,490,000 of bond principal issued, $79,193,585 was allocated to governmental activities and $22,296,415 was allocated to business-type activities.

The bonds accrue interest at rates between 1.081% and 3.363%. Interest on the bonds is payable semiannually on each April 1 and October 1, commencing April 1, 2021. Principal payments are due in annual installments ranging from $2,995,000 to $7,525,000, commencing April 1, 2021 through April 1, 2039. The bonds are not subject to optional and mandatory redemption prior to maturity. The bond debt service payments will be made from the debt service funds.

The amount outstanding for the business-type activities at June 30, 2023 totaled $20,787,074. The annual debt service requirements for the business-type activities on these bonds are as follows:

Fiscal Year	Principal	Interest	Total
2024	$ 924,937	$ 635,196	$ 1,560,133
2025	1,054,560	621,303	1,675,863
2026	1,114,978	603,355	1,718,333
2027	1,136,948	580,319	1,717,267
2028	1,163,312	553,420	1,716,732
2029-2033	6,328,459	2,259,536	8,587,995
2034-2038	7,411,575	1,173,418	8,584,993
2039	1,652,305	63,716	1,716,021
Total	$ 20,787,074	$ 6,490,263	$ 27,277,337

Note 8 – Long-Term Liabilities (Continued)

B. Business-Type Activities (Continued)

Lease Payable

The City's business-type activities have entered leases for the machine uses. The terms of the agreements range from 18 months to 60 months. The calculated interest rates used were between 0.185% to 3.305% based on the term of the agreements.

Principal and interest payments to maturity at June 30, 2023 are as follows:

Fiscal Year	Principal	Interest	Total
2024	$ 13,353	$ 147	$ 13,500

Subscription Liabilities

The City's business-type activities has entered into subscriptions for information technology arrangements. The terms of the arrangements range from 24 to 60 months with implicit rates used between 0.552% to of 3.305%. Principal and interest to maturity are as follows:

Fiscal Year	Principal	Interest	Total
2024	$ 125,277	$ 7,145	$ 132,422
2025	126,910	4,028	130,938
2026	16,097	850	16,947
2027	11,283	373	11,656
Total	$ 279,567	$ 12,396	$ 291,963

Compensated Absences

All vested vacation and compensatory leave time is recognized as an expense and as a liability in the business-type funds at the time the liability vests. GTrans and the Sewer Enterprise funds have been used to liquidate the liability. The balance outstanding at June 30, 2023 was $1,921,404.

Note 9 – Self-Insurance Programs

A. Self-Insurance Programs of the City

The City is self-insured for the first $750,000 of each workers' compensation claim for both the GTrans and the City, $750,000 each general liability claim and $250,000 of each GTrans claim against the City. In addition, the City carries insurance of individual general liability claims in excess of $750,000 to $25,000,000 with Public Risk Innovation Solutions Management ("PRISM"). Additionally, the City has health insurance coverage for the employees and their families with an annual maximum amount of $1 million for all services.

The City carries stop-loss insurance of individual health benefit claims in excess of $75,000 for Medicare retirees and $50,000 for all other members. At June 30, 2023, $18,340,358 has been accrued for the City's self-insurance programs, of which $4,811,358 is considered to be current. Said accruals represent estimates of amounts to be paid for reported claims and incurred but unreported claims based upon past experience, modified for current trends and information. While the ultimate amounts of losses incurred through June 30, 2023 are dependent on future developments, based upon information provided from the City Attorney, outside counsel and others involved with the administration of the programs, City management believes that the aggregate accrual is adequate to cover such losses. For the prior three (3) fiscal years, no settlements exceeded the City's insurance coverage.

Changes in the balances of claims liabilities during the past three years are as follows:

	Claims Payable					
	Beginning Balance	Expenses and Changes in Estimates	Claims Payments	Ending Balance	Due within One Year	Due in more than One Year
2020-2021	$ 9,412,603	$ 1,243,589	$ (51,718)	$ 10,604,474	$ 8,389,641	$ 2,214,833
2021-2022	10,604,474	6,221,285	(22,134)	16,803,625	12,477,264	4,326,361
2022-2023	16,803,625	8,658,461	(7,121,728)	18,340,358	4,811,358	13,529,000

B. Purchased Insurance

Property Insurance - Several insurance companies underwrite this insurance protection. The City is currently insured according to a schedule of covered property submitted by the City to Alliant Property Insurance Company. Total all-risk property insurance coverage is $100 million. There is a $25,000 per loss deductible.

Crime Insurance - The City purchases crime insurance coverage with a limit of $1 million per occurrence. This policy provides coverage for all City employees. There is a $2,500 per loss deductible.

C. Adequacy of Protection

During the past three fiscal years none of the above programs of protection have had settlements or judgments that exceeded pooled or insured coverage. There have been no significant reductions in insured liability coverage from coverage in the prior year.

Note 10 – Retirement Plans

A. California Public Employees' Retirement System ("CalPERS")

The following is the summary of net pension liability and related deferred outflows of resources and deferred inflows of resources at June 30, 2023 and pension expense for the year then ended.

	Governmental Activities	Business-Type Activities	Total
Deferred outflows of resources:			
Pension contribution made after measurement date:			
Miscellaneous	$ 1,003,640	$ 931,360	$ 1,935,000
Safety	3,126,759	-	3,126,759

Total pension expense	$ 39,532,599	$ 1,039,862	$ 40,572,461

Note 10 – Retirement Plans (Continued)

A. California Public Employees' Retirement System ("CalPERS") (Continued)

General Information about the Pension Plan

Plan Description

The City contribution to the California Public Employees Retirement System ("CalPERS"), an agent multiple-employer defined benefit pension plan for miscellaneous employees and a cost-sharing multiple-employer defined benefit plan for safety employees. CalPERS acts as a common investment and administrative agent for participating public entities within the State of California. Benefit provisions and all other requirements are established by state statue and City ordinance. A full description of the pension plan regarding number of employees covered, benefit provisions, assumptions (for funding, but not accounting purposes), and membership information are listed in the June 30, 2020 Annual Actuarial Valuation Report. This report and CalPERS' audited financial statements are publicly available reports that can be obtained at CalPERS' website under Forms and Publications.

Benefit Provided

CalPERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. A classic CalPERS member or PEPRA Safety member becomes eligible for service retirement upon attainment of age 50 with at least 5 years of credited service. PEPRA miscellaneous members become eligible for service retirement upon attainment of age 52 with at least 5 years of service. The service retirement benefit is a monthly allowance equal to the product of the benefit factor, years of service, and final compensation.

The final compensation is the monthly average of the member's highest 36 or 12 consecutive months' full-time equivalent monthly pay. Retirement benefits for classic miscellaneous employees are calculated as 2% of average final 12 months compensation. Retirement benefit for PEPRA miscellaneous employees are calculated as 2% of the average final 36 months compensation. Retirement benefits for classic safety employees are calculated as 3% of the average final 12 months compensation. Retirement benefits for PEPRA safety employees are calculated as 2.7% of average final 36 months.

Participant is eligible for non-industrial disability retirement if the participant becomes disabled and has at least 5 years credited service. There is no special age requirement. The standard non-industrial disability retirement benefit is a monthly allowance equal to 1.8 percent of final compensation, multiplied by service.

Industrial disability benefits are not offered to miscellaneous employees. The City provides industrial disability retirement benefit to safety employees. The industrial disability retirement benefit is a monthly allowance equal to 50 percent of final compensation.

An employee's beneficiary may receive the basic death benefit if the employee becomes deceased while actively employed. The employee must be actively employed with the City to be eligible for this benefit. An employee's survivor who is eligible for any other pre-retirement death benefit may choose to receive that death benefit instead of this basic death benefit. The basic death benefit is a lump sum in the amount of the employee's accumulated contributions, where interest is currently credited at 7.5 percent per year, plus a lump sum in the amount of one month's salary for each completed year of current service, up to a maximum of six months' salary. For purposes of this benefit, one month's salary is defined as the member's average monthly full-time rate of compensation during the 12 months preceding death. Upon the death of a retiree, a one-time lump sum payment of $500 will be made to the retiree's designated survivor(s), or to the retiree's estate.

Note 10 – Retirement Plans (Continued)

A. California Public Employees' Retirement System ("CalPERS") (Continued)

General Information about the Pension Plan (Continued)

Benefit Provided (Continued)

Benefit terms provide for annual cost-of-living adjustments to each employee's retirement allowance. Beginning the second calendar year after the year of retirement, retirement and survivor allowances will be annually adjusted on a compound basis by 2 percent.

Employees Covered by Benefit Terms

At June 30, 2021, the valuation date, the following employees were covered by the benefit terms:

	Plans		
	Miscellaneous	Safety	
		Classic	PEPRA
Active employees	293	59	27
Transferred and terminated employees	374	50	8
Retired Employees and Beneficiaries	420	244	0
Total	1,087	353	35

Contributions

Section 20814(c) of the California Public Employees' Retirement Law ("PERL") requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. The total plan contributions are determined through CalPERS' annual actuarial valuation process. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The employer is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. The required contribution rates are as follow:

Measurement Period June 30, 2022

	Plans			
	Miscellaneous		Safety	
	Classic	PEPRA	Classic	PEPRA
Employer Contribution Rate	9.250%	9.250%	25.590%	13.980%
Employee Contribution Rate	7.000%	6.750%	9.000%	13.750%

Current Fiscal Year Ended June 30, 2023

	Plans			
	Miscellaneous		Safety	
	Classic	PEPRA	Classic	PEPRA
Employer Contribution Rate	9.180%	9.180%	25.640%	13.660%
Employee Contribution Rate	7.000%	6.750%	9.000%	13.750%

Note 10 – Retirement Plans (Continued)

Net Pension Liability

Actuarial Methods and Assumption Used to Determine Total Pension Liability

The June 30, 2021 valuation was rolled forward to determine the June 30, 2022 total pension liability, based on following actuarial methods and assumptions:

Actuarial Cost Method	Entry Age Actuarial Cost Method
Actuarial Assumptions:	
Discount Rate	6.90%
Inflation	2.300%
Salary Increases	Varies by Entry Age and Service
Mortality Rate Table[1]	Derived using CalPERS' Membership Data for all Funds.
Post Retirement Benefit Increase	The lesser of contract COLA or 2.30% until Purchasing Power Protection Allowance floor on purchasing power applies, 2.30% thereafter

[1] The mortality table used for June 30, 2022 was developed based on CalPERS-specific data. The probabilities of mortality are based on the 2021 CalPERS Experience Study for the period from 2001 to 2019. Pre-retirement and Post-retirement mortality rates include generational mortality improvement using 80% of Scale MP-2020 published by the Society of Actuaries. For more details on this table, please refer to the CalPERS Experience Study and Review of Actuarial Assumptions report from Novermber 2021 that can be found on the CalPERS website.

Change of Assumptions

Effective with the June 30, 2021 valuation date (2022 measurement date), the accounting discount rate was reduced from 7.15% to 6.90%. In determining the long-term expected rate of return, CalPERS took into account long-term market return expectations as well as the expected pension fund cash flows. Projected returns for all asset classes are estimated, combined with risk estimates, and are used to project compound (geometric) returns over the long term. The discount rate used to discount liabilities was informed by the long-term projected portfolio return. In addition, demographic assumptions and the inflation rate assumption were changed in accordance with the 2021 CalPERS Experience Study and Review of Actuarial Assumptions.

Long-term Expected Rate of Return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations. Using historical returns of all of the funds' asset classes, expected compound (geometric) returns were calculated over the next 20 years using a building-block approach. The expected rate of return was then adjusted to account for assumed administrative expenses of 10 basis points.

Note 10 – Retirement Plans (Continued)

A. California Public Employees' Retirement System ("CalPERS") (Continued)

Net Pension Liability (Continued)

Long-term Expected Rate of Return (Continued)

The expected real rates of return by asset class are as followed:

Asset Class[1]	Assumed Asset Allocation	Real Return Years 1 - 10[1, 2]
Global Equity - Cap-weighted	30.00%	4.54%
Global Equity - Non-cap-weighted	12.00%	3.84%
Private Equity	13.00%	7.28%
Treasury	5.00%	0.27%
Mortgage-backed Securities	5.00%	0.50%
Investment Grade Corporates	10.00%	1.56%
High Yield	5.00%	2.27%
Emerging Market Debt	5.00%	2.48%
Private Debt	5.00%	3.57%
Real Assets	15.00%	3.21%
Leverage	-5.00%	-0.59%
	100.00%	

[1] An expected inflation of 2.30% used for this period.

[2] Figures are based on the 2021 Asset Liability Management study.

Discount Rate

The discount rate used to measure the total pension liability was 6.90%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Note 10 – Retirement Plans (Continued)

A. California Public Employees' Retirement System ("CalPERS") (Continued)

Changes in the Net Pension Liability

The following table shows the changes in net pension liability for the City's Miscellaneous Plan recognized over the measurement period.

Miscellaneous Plan	Increase (Decrease)		
	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (c) = (a) - (b)
Balance at June 30, 2021 (Valuation Date)	$ 182,840,031	$ 204,584,123	$ (21,744,092)
Changes recognized for the measurement period:			
Service Cost	3,211,338	-	3,211,338
Interest on the total pension liability	12,420,366	-	12,420,366
Changes of benefit terms	-	-	-
Difference between expected and actual experience	(4,506,679)	-	(4,506,679)
Changes of assumptions	5,350,605	-	5,350,605
Plan to plan resource movement	-	-	-
Contributions from the employer	-	2,100,703	(2,100,703)
Contributions from employees	-	1,242,880	(1,242,880)
Net investment income	-	(15,201,569)	15,201,569
Benefit payments, including refunds of employee contributions	(10,568,643)	(10,568,643)	-
Administrative expense	-	(127,444)	127,444
Other miscellaneous income/(expense)	-	-	-
Net changes during July 1, 2021 to June 30, 2022	5,906,987	(22,554,073)	28,461,060
Balance at June 30, 2022 (Measurement Date)	$ 188,747,018	$ 182,030,050	$ 6,716,968

Proportionate Share of Net Pension Liability and Pension Expense

The following table shows the City's safety plan's proportionate share of the risk pool collective net pension liability over the measure period.

Safety Plan	Increase (Decrease)		
	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (asset) (c) = (a) - (b)
Balance at June 30, 2021 (Valuation Date)	$ 229,573,818	$ 257,069,105	$ (27,495,287)
Balance at June 30, 2022 (Measurement Date)	245,640,403	233,003,515	12,636,888
Net Changes during 2021-2022	16,066,585	(24,065,590)	40,132,175

Note 10 – Retirement Plans (Continued)

A. California Public Employees' Retirement System ("CalPERS") (Continued)

Changes in the Net Pension Liability (Continued)

Proportionate Share of Net Pension Liability and Pension Expense (Continued)

The following is the approach established by the plan actuary to allocate the net pension liability and pension expense to the individual employers within the risk pool.

(1) In determining a cost-sharing plan's proportionate share, total amounts of liabilities and assets are first calculated for the risk pool as a whole on the valuation date (June 30, 2021). The risk pool's fiduciary net position ("FNP") subtracted from its total pension liability ("TPL") determines the net pension liability ("NPL") at the valuation date.

(2) Using standard actuarial roll forward methods, the risk pool TPL is then computed at the measurement date (June 30, 2022). Risk pool FNP at the measurement date is then subtracted from this number to compute the NPL for the risk pool at the measurement date. For purposes of FNP in this step and any later reference thereto, the risk pool's FNP at the measurement date denotes the aggregate risk pool's FNP at June 30, 2022 less the sum of all additional side fund (or unfunded liability) contributions made by all employers during the measurement period (2021-2022).

(3) The individual plan's TPL, FNP and NPL are also calculated at the valuation date. TPL is allocated based on the rate plan's share of the actuarial accrued liability. FNP is allocated based on the rate plan's share of market value assets.

(4) Two ratios are created by dividing the plan's individual TPL and FNP as of the valuation date from (3) by the amounts in step (1), the risk pool's total TPL and FNP, respectively.

(5) The plan's TPL as of the Measurement Date is equal to the risk pool TPL generated in (2) multiplied by the TPL ratio generated in (4). The plan's FNP as of the Measurement Date is equal to the FNP generated in (2) multiplied by the FNP ratio generated in (4) plus any additional side fund (or unfunded liability) contributions made by the employer on behalf of the plan during the measurement period.

(6) The plan's NPL at the Measurement Date is the difference between the TPL and FNP calculated in (5).

Deferred outflows of resources, deferred inflows of resources, and pension expense are allocated based on the City's share of net pension liability at the end of measurement date.

The City's proportionate share of the net pension liability was as follows:

June 30, 2021	-0.508390%
June 30, 2022	0.109403%
Change - Increase (Decrease)	0.617793%

Note 10 – Retirement Plans (Continued)

A. California Public Employees' Retirement System ("CalPERS") (Continued)

Changes in the Net Pension Liability (Continued)

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the plans as of the measurement date, calculated using the discount rate of 6.90%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage-point lower (5.90%) or 1 percentage-point higher (7.90%) than the current rate:

	Plan's Net Pension Liability (asset)		
	Discount Rate - 1% (5.90%)	Current Discount Rate (6.90%)	Discount Rate + 1% (7.90%)
Miscellaneous Plan	$ 31,558,549	$ 6,716,968	$ (13,690,648)
Safety Plan	$ 46,559,444	$ 12,636,888	$ (138,960,837)

Pension Plan Fiduciary Net Position

Detailed information about the plan's fiduciary net position is available in the separately issued CalPERS financial report.

Pension Expense (Credit) and Deferred Outflows and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2023, the City recognized pension expense in the amounts of $2,044,880 and $38,527,581 for the miscellaneous plan and safety plan, respectively.

As of measurement date of June 30, 2022, the City has deferred outflows and deferred inflows of resources related to pensions as follows:

Miscellaneous Plan		
	Deferred outflows of Resources	Deferred inflows of Resources
Pension contribution made after measurement date	$ 1,935,000	$ -
Changes of assumptions	3,678,541	-
Difference between expected and actual experience	-	(3,968,858)
Net difference between projected and actual earning on pension plan investments	9,875,888	-
Total	$ 15,489,429	$ (3,968,858)

Note 10 – Retirement Plans (Continued)

A. California Public Employees' Retirement System ("CalPERS") (Continued)

Pension Expense and Deferred Outflows and Deferred Inflows of Resources Related to Pensions (Continued)

Safety Plan	Deferred outflows of Resources	Deferred inflows of Resources
Pension contribution made after measurement date	$ 3,126,759	$ -
Changes of assumptions	1,274,182	-
Difference between expected and actual experience	522,995	(137,226)
Difference between projected and actual earnings on pension plan investments	1,995,544	-
Adjustment due to differences in proportions	1,569,333	(21,653,472)
Difference between City contributions and proportionate share of contributions	21,427,278	(9,613,995)
Total	$ 29,916,091	$ (31,404,693)

The amounts above are net of outflows and inflows recognized in the 2021-22 measurement period expense.

The expected average remaining service lifetime ("EARSL") is calculated by dividing the total future service years by the total number of plan participants (active, inactive, and retired). The EARSL for the miscellaneous plan and the safety risk pool for the 2021-22 measurement period is 3.2 and 3.7 years, which was obtained by dividing the total service years of 3,447 and 574,665 (the sum of remaining service lifetimes of the active employees) by 1,087 and 153,587 (the total number of participants: active, inactive, and retired), respectively.

$1,935,000 and $3,126,759 reported as deferred outflows of resources related to pensions for miscellaneous plan and safety plan, respectively, resulting from the City's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability and collectively net pension liability, respectively, in the year ending June 30, 2024.

Other amounts reported as deferred outflows and deferred inflows of resources related to pensions will be recognized in the future pension expense as follows:

Measurement Periods Ended June 30	Deferred Outflows/ (Inflows) of Resources	
	Miscellaneous Plan	Safety Plan
2023	$ 1,233,724	$ (2,226,956)
2024	1,537,321	(2,068,692)
2025	1,003,948	(1,537,019)
2026	5,810,578	1,217,306
2027	-	-
Thereafter	-	-
	$ 9,585,571	$ (4,615,361)

Note 10 – Retirement Plans (Continued)

B. Public Agency Retirement System ("PARS")

Defined Contribution Pension Plan

For all of its part-time employees who are not eligible for coverage under the CalPERS pension plan, the City provides pension benefits through a defined contribution plan. In a defined contribution plan, benefits depend solely on amounts contributed to the plan plus investment earnings. The plan is administered as part of the Public Agency Retirement Systems ("PARS"). The PARS Trust Agreement may be amended by a two-thirds majority or greater of the Member Agencies. The plan conforms to the requirements under Internal Revenue Code 401(a) and has received a favorable Letter of Determination from the Internal Revenue Service.

All part-time employees are eligible to participate from the date of employment. Federal legislation requires contributions of at least 7.5 percent to a retirement plan, and City Council resolved to match the employees' contributions up to 3.75 percent. The City's contributions for each employee (and interest earned by the accounts) are fully vested immediately. For the year ended June 30, 2023 the City's payroll covered by the plan was $832,258. The City made employer contributions in the amount of $30,431. There were 74 participants of the Plan as of June 30, 2023.

The assets of the defined contribution pension plan are those of the part-time employees and are not included in the accompanying financial statements.

Note 11 – Other Postemployment Benefits ("OPEB")

At June 30, 2023, total OPEB liability and related deferred outflows of resources and deferred inflows of resources are as follows:

	Governmental Activities	Business-Type Activities	Total
Deferred outflows of resources:			
OPEB contribution made after measurement date	$ 4,966,034	$ 734,925	$ 5,700,959
Change in assumptions	7,779,416	137,399	7,916,815
Differences between expected and actual experience	885,249	1,337,270	2,222,519
Differences in projected and actual earnings	13,084	386,621	399,705
Total deferred outflows of resources	$ 13,643,783	$ 2,596,215	$ 16,239,998
Total other postemployment benefit liabilities	$ 64,768,264	$ 8,020,898	$ 72,789,162
Deferred inflows of resources:			
Change in assumptions	$ 13,762,804	$ 639,876	$ 14,402,680
Differences between expected and actual experience	1,205,353	385,585	1,590,938
Total deferred inflows of resources	$ 14,968,157	$ 1,025,461	$ 15,993,618
OPEB expense	$ 2,914,204	$ 837,668	$ 3,751,872

Note 11 – Other Postemployment Benefits ("OPEB") (Continued)

General Information about the OPEB Plan

Plan Description

The City provides retiree healthcare benefits for employees who retire simultaneously from CalPERS and the City and who meet the qualifying criteria negotiated by the various City labor groups. The OPEB plan is a single employer plan with a trust, but without special funding situation, or non-employer contribution entities. The City offers insurance coverage from Kaiser Permanente and a self-insured PPO.

Miscellaneous employees hired prior to July 1, 2002 must be 55 years of age and have at least 13 years of full-time service with the City. Effective July 1, 2002, miscellaneous (non-management) employees must have at least 20 years of full-time service to qualify. Safety employees must be 50 years of age and have 25 years of full-time service in the police or fire department of the City. In October 2000, City fire services transferred to contracted services with the Los Angeles County Fire District. Postemployment benefits continue only for fire personnel retiring from service prior to that date.

The City's health plan year runs February through January with open-enrollment every January prior to the start of the new plan year. The monthly benefits to be paid by the City are $1,498 and $1,329 per month for the calendar years 2023 and 2022, respectively.

Eligibility

All of the Plan's employees became participants in accordance with a negotiated Memorandum of Understanding ("MOU") as negotiated by each group or bargaining unit. In order to receive benefits, eligible employees must meet the minimum requirements defined in their MOU. At June 30, 2022 valuation date, the following numbers of participants were covered by the benefit terms:

	Plans		
	Governmental Activities	**GTrans**	**Sewer**
Inactives currently receiving benefits	191	43	-
Inactives entitled to benefit payments	-	-	-
Active employees	219	101	4
Total	410	144	4

Contributions

	Fiscal Year Ended June 30, 2023		
	Governmental Activities	Gtrans	Total
Benefit payments	$ 3,216,034	$ 724,778	$ 3,940,812
Trust contributions	1,750,000	-	1,750,000
Total	$ 4,966,034	$ 724,778	$ 5,690,812

Note 11 – Other Postemployment Benefits ("OPEB") (Continued)

Net OPEB Liability

The City's Net OPEB liability was measured as of June 30, 2022, and total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2022.

Significant Actuarial Assumptions Used for Total OPEB Liability

The total OPEB liability, measured as of June 30, 2022, was determined using the following actuarial assumptions:

Actuarial Cost Method	Entry Age, Level Percent of Pay
Actuarial Assumptions:	
Actuarial Valuation Date	June 30, 2022
Valuation of Fiduciary Net Position	Governmental Activities and Gtrans: Fair value assets. Sewer: No assets held in an irrevocable trust as of the measurement date.
Recognition of deferred inflows and outflows of resources	Closed period equal to the average of the expected remaining service lives of all employees provided with OPEB.
Salary Increases	2.75%
Discount Rate	Governmental Activities and Sewer: 3.54% Gtrans: 6.25%
Inflation Rate	2.50%
Investment Rate of Return	6.25%, net OPEB plan investment expense
Healthcare Cost Trend Rate (City Plan)	6.50% for 2022, 6.00% for 2023, 5.50% for 2024, 5.25% for 2025-2029, 5.00% for 2030-2039, 4.75% for 2040-2049, 4.50% for 2050-2069 and 4.00% for 2070 and later years.
Healthcare Cost Trend Rate (Kaiser)	6.50% for 2022, 6.00% for 2023, 5.50% for 2024, 5.25% for 2025-2029, 5.00% for 2030-2039, 4.75% for 2040-2049, 4.50% for 2050-2069 and 4.00% for 2070 and later years.
Preretirement Mortality:	
Miscellaneous	Preretirement Mortality Rates for Public Agency Miscellaneous from CalPERS Experience Study (2000-2019).
Safety	Preretirement Mortality Rates for Public Agency Police and Fire from CalPERS Experience Study (2000-2019).
Preretirement Mortality:	
Miscellaneous	Post-retirement Mortality Rates for Public Agency Miscellaneous from CalPERS Experience Study (2000-2019).
Safety	Post-retirement Mortality Rates for Public Agency Police and Fire from CalPERS Experience Study (2000-2019).

Actuarial assumptions used in the June 30, 2022 valuation were based on a review of the plan experience during the period June 30, 2022 to June 30, 2022.

Total OPEB Liability

Change in Assumptions

Discount rate changed from 2.16% at June 30, 2021 to 3.54% at June 30, 2022 for the governmental activities and Sewer Enterprise's plans. No change in discount rate for GTrans Plan. Medical plan assumption, trend rate assumption, demographic assumption and mortality improvement scale were updated.

Note 11 – Other Postemployment Benefits ("OPEB") (Continued)

Total OPEB Liability (Continued)

Discount Rate

a. A long-term expected rate of return on OPEB plan investments – to the extent that the OPEB plan's fiduciary net position (if any) is projected to be enough to make projected benefit payments and assets are expected to be invested using a strategy to achieve that return.

b. A yield or index rate for 20-year, tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher – to the extent that the conditions in (a) are not met. To determine a resulting single (blended) rate, the amount of the plan's projected fiduciary net position (if any) and the amount of projected benefit payments is compared in each period of projected benefit payments. The discount rate used to measure the City's total OPEB liability is based on these requirements and the following information:

Reporting Date	Measurement Date	Long-Term Expected Return of Plan Investments	Bond Buyer 20-Bond GO Index	Discount Rate
June 30, 2023	June 30, 2022	6.25%	3.54%	3.54%

The discount rate used to measure total OPEB liability for Governmental Activities and Sewer was 3.54%. The discount rate used to measure the total OPEB liability for GTrans was 6.25% percent.

Investment Policy

The City's policy regarding the allocation of the plan's invested assets is established and may be amended by City management. The City participates in the California Employers' Retiree Benefit Trust (CERBT), a Section 115 trust fund dedicated to prefunding Other Postemployment Benefits for all eligible California public agencies.

The City has adopted the CERBT Strategy 1 portfolio with an objective to seek returns that reflect the broad investment performance of the financial markets through capital appreciation and investment income. The portfolio is invested in various asset classes in percentages approved by the CalPERS Board.

Asset Class Component	Target Allocation	Expected Real Rate of Return	Benchmark
Global Equity	57.00%	+/-2%	MSCI All Country Would Index IMI (net)
Fixed Income	27.00%	+/-2%	Bloomberg Barclays Long Liability Index
Treasury Inflation-Protected Securities	5.00%	+/-2%	Bloomberg Barclays Barclays US TIPS Index
Real Estate Ivestment Trusts	8.00%	+/-2%	FTSE EPRA/NAREIT Developed Liquid Index (net)
Commodities	3.00%	+/-2%	S&P GSCI Total Return Index
Cash	0.00%	+2%	91 Day Treasury Bill
	100.00%		

Note 11 – Other Postemployment Benefits ("OPEB") (Continued)

Total OPEB Liability (Continued)

Long-Term Expected Rate of Return

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. The calculated investment rate of return was set equal to the expected ten-year compound (geometric) real return plus inflation (rounded to the nearest 25 basis points, where appropriate). The table below provides the long-term expected real rates of return by asset class (based on published capital market assumptions). Change in Net OPEB Liability.

Asset Class	Assumed Asset Allocation	Real Rate of Return
Global ex-U.S. Equity	59.00%	4.80%
U.S. Fixed	25.00%	1.80%
TIPS	5.00%	1.60%
Real Estate	8.00%	3.70%
Commodities	3.00%	1.90%
	100.00%	

Rate of Return

For the year ended on the measurement date, the annual money-weighted rate of return on investments, net of investment expense, was -13.38 percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts invested.

Change in Net OPEB Liability

The following presents the changes in the net OPEB liability for the governmental activities' Retiree Health Plan:

	Increase (Decrease)		
	Total OPEB Liability (a)	**Fiduciary Net Position (b)**	**Net OPEB Liability (c) = (a) - (b)**
Balance at June 30, 2021	$ 76,481,166	$ 200,187	$ 76,280,979
Changes recognized for the measurement period:			
Service Cost	2,815,579	-	2,815,579
Interest on the total pension liability	1,688,245	-	1,688,245
Differences between expected and actual experience	303,548	-	303,548
Changes in assumptions and other inputs	(14,060,251)	-	(14,060,251)
Contributions - employer	-	2,286,676	(2,286,676)
Net investment income	-	(26,789)	26,789
Benefits payments	(2,286,676)	(2,286,676)	-
Administrative expenses	-	(51)	51
Net changes during July 1, 2021 to June 30, 2022	(11,539,555)	(26,840)	(11,512,715)
Balance at June 30, 2022 (Measurement Date)	$ 64,941,611	$ 173,347	$ 64,768,264

Note 11 – Other Postemployment Benefits ("OPEB") (Continued)

Change in Net OPEB Liability (Continued)

The following presents the changes in the net OPEB liability for the GTrans Enterprise's retiree OPEB Plan:

	Increase (Decrease)		
	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net OPEB Liability (c) = (a) - (b)
Balance at June 30, 2021	$ 11,625,436	$ 5,713,012	$ 5,912,424
Changes recognized for the measurement period:			
Service cost	300,182	-	300,182
Interest on the total OPEB liability	718,462	-	718,462
Differences between expected and actual experience	1,378,033	-	1,378,033
Changes in assumptions	(475,092)	-	(475,092)
Contributions - employer	-	873,696	(873,696)
Net investment income	-	(764,412)	764,412
Benefit payments	(873,696)	(873,696)	-
Administrative expenses	-	(1,447)	1,447
Net changes during July 1, 2021 to June 30, 2022	1,047,889	(765,859)	1,813,748
Balance at June 30, 2022 (Measurement Date)	$ 12,673,325	$ 4,947,153	$ 7,726,172

The following presents the changes in the net OPEB liability for the Sewer Enterprise Fund (nonmajor):

	Increase (Decrease)		
	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net OPEB Liability (c) = (a) - (b)
Balance at June 30, 2021	$ 536,098	$ -	$ 536,098
Changes recognized for the measurement period:			
Service Cost	32,554	-	32,554
Interest on the total OPEB liability	12,283	-	12,283
Differences between expected and actual experience	(214,606)	-	(214,606)
Changes in assumptions	(71,603)	-	(71,603)
Contributions - employer	-	-	-
Net investment income	-	-	-
Benefit payments	-	-	-
Administrative expenses	-	-	-
Net changes during July 1, 2021 to June 30, 2022	(241,372)	-	(241,372)
Balance at June 30, 2022 (Measurement Date)	$ 294,726	$ -	$ 294,726

Note 11 – Other Postemployment Benefits ("OPEB") (Continued)

Change in Net OPEB Liability (Continued)

Sensitivity of the net OPEB Liability to Changes in the Discount Rate

The following presents the net OPEB liability of the governmental activities and the Sewer's Retiree Health Plans, as well as what the governmental activities and the Sewer Enterprise's total OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.54 percent) or 1-percentage- point higher (4.54 percent) than the current discount rate:

	Plan's Net OPEB Liability		
	Discount Rate - 1% (2.54%)	Current Discount Rate (3.54%)	Discount Rate + 1% (4.54%)
Governmental Activities	$ 74,529,563	$ 64,768,264	$ 56,811,044
Sewer	$ 345,103	$ 294,726	$ 253,883

The following presents the net OPEB liability of the GTrans Enterprise Retiree Health Plan, as well as what the GTrans Enterprise Retiree Health Plan's total OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.25 percent) or 1-percentage- point higher (7.25 percent) than the current discount rate:

Plan's Net OPEB Liability		
Discount Rate - 1% (5.25%)	Current Discount Rate (6.25%)	Discount Rate + 1% (7.25%)
$ 9,418,573	$ 7,726,172	$ 6,324,936

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

Sensitivity of the Net OPEB Liability to Changes in the Health Care Cost Trend Rates

The following presents the total OPEB liability of the City, GTrans, and Sewer, as well as what the City's, GTrans', and Sewer's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates:

	Plan's Net OPEB Liability		
	1% Decrease	Current Trend	1% Increase
Governmental Activities	$ 55,571,695	$ 64,768,264	$ 76,563,587
GTrans	$ 6,123,471	$ 7,726,172	$ 9,712,583
Sewer	$ 240,811	$ 294,726	$ 365,490

Note 11 – Other Postemployment Benefits ("OPEB") (Continued)

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)

For the measurement period ended June 30, 2022, the governmental activities recognized expense of $2,914,204. At June 30, 2023, the City reported deferred outflows of resources and deferred inflows of resources related to governmental activities OPEB from the following sources:

	Deferred outflows of resources	Deferred inflows of resources
Difference between expected and actual experience	$ 885,249	$ (13,762,804)
Changes in assumptions	7,779,416	(1,205,353)
Net difference between projected and actual earnings on plan investments	13,084	-
Employer contributions made subsequent to the measurement date	4,966,034	-
Total	$ 13,643,783	$ (14,968,157)

For the measurement period ended June 30, 2022, GTrans recognized expense of $811,910. At June 30, 2023, the City reported deferred outflows of resources and deferred inflows of resources related to GTrans OPEB from the following sources:

	Deferred outflows of resources	Deferred inflows of resources
Difference between expected and actual experience	$ 1,325,250	$ (185,400)
Changes in assumptions	73,830	(554,016)
Net difference between projected and actual earnings on plan investments	386,621	-
Employer contributions made subsequent to the measurement date	724,778	-
Total	$ 2,510,479	$ (739,416)

For the measurement period ended June 30, 2022, Sewer recognized expense of $25,758. At June 30, 2023, the City reported deferred outflows of resources and deferred inflows of resources related to Sewer OPEB from the following sources:

	Deferred outflows of resources	Deferred inflows of resources
Difference between expected and actual experience	$ 12,020	$ (200,185)
Changes in assumptions	63,569	(85,860)
Employer contributions made subsequent to the measurement date	10,147	-
Total	$ 85,736	$ (286,045)

The difference between projected OPEB plan investment earnings and actual earnings is amortized over a five-year period. The remaining gains and losses are amortized over the expected average remaining service life. The expected average remaining service life is 7.8 years, 8.2 years, and 14.2 years for the governmental activities, the GTrans, and the Sewer, respectively, which was determined as of June 30, 2022, the beginning of the measurement period, for employees covered by the OPEB plan benefit terms.

Note 11 – Other Postemployment Benefits ("OPEB") (Continued)

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)

$4,966,034, $724,778, and $10,147 reported as deferred outflows of resources related to OPEB under the governmental activities, GTrans, and Sewer, respectively resulting from the City's contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ending June 30, 2024. Other amount reported as deferred inflows of resources related to OPEB will be recognized in the future OPEB expense as follows:

Measurement Periods Ended June 30	Deferred Outflows/(Inflows) of Resources		
	Governmental Activities	GTrans	Sewer
2023	$ (578,159)	$ 147,837	$ (16,079)
2024	(297,311)	143,094	(14,079)
2025	(49,412)	115,226	(14,079)
2026	(520,792)	311,828	(14,079)
2027	(1,670,111)	88,239	(16,449)
Thereafter	(3,174,623)	240,061	(135,691)
	$ (6,290,408)	$ 1,046,285	$ (210,456)

Note 12 – Deferred Compensation Plan

The City offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all City employees, permits them to defer a portion of their salaries until future years. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency. The plan assets are under the participants control and are principally invested in demand deposits and mutual funds and are held in trust for the exclusive benefit of the participants and their beneficiaries. The plan assets are not included in the accompanying financial statements. At June 30, 2023, the amount held by the Trustee for the City employees is $29,129,835.

Note 13 – Net Position and Fund Balances

A. Government-Wide Financial Statements

Net Investment in Capital Assets

The following is the calculation of net investment in capital assets at June 30, 2023:

	Governmental Activities	Business-Type Activities
Capital Assets, net of accumulated depreciation and amortization	$ 59,480,793	$ 60,259,791
Less: outstanding principal on capital related debt, net	(25,914,575)	(292,920)
Add: Unspent debt proceeds	11,752,150	-
Less: capital assets related accounts payable	(1,644,421)	(828,673)
Less: retention payable	(116,252)	-
Net investments in capital assets	$ 43,557,695	$ 59,138,198

Note 14 – Jointly Governed Organization

South Bay Regional Public Communications Authority

The City is a member of the South Bay Regional Public Communications Authority ("SBRPCA"), which provides financing and equipment for a police communications system for the City and the other member municipalities of SBRPCA - Hawthorne and Manhattan Beach. SBRPCA financial statements can be obtained from the SBRPCA at 4440 West Broadway, Hawthorne, California 90250.

Revenues, expenses and indebtedness incurred by the SBRPCA relating to services associated with central dispatch are divided by member agencies in accordance with set percentages; however, expenses incurred relating to specific equipment and services requested by an individual member agency for use by its own public safety services are paid entirely by that member agency. As of June 30, 2023, the City's percentage interest is 32.08%.

As of and for the year ended June 30, 2023, the latest available information, SBRPCA's audited financial information is as follows:

Total assets	$ 14,297,651
Total deferred outflows of resources	5,674,146
Total liabilities	12,659,596
Total deferred inflows of resources	2,123,049
Net position	$ 5,189,152
Total revenues	$ 13,196,777
Total expenses	(11,930,301)
Change in net position	$ 1,266,476

Note 15 – Commitments and Contingencies

The City participates in a number of federal and state assisted grant programs, which are subject to program compliance audits by the grantors or their representatives. Final closeout audits of these programs have not yet been completed. Accordingly, the City's ultimate compliance with applicable grant requirements will be established at some future date. Expenditures, if any, which may be disallowed by the granting agencies cannot be determined at this time, although the City expects such amounts, if any, to be immaterial.

The City is currently a party to various claims and legal proceedings. In management's opinion, the ultimate liabilities, if any, resulting from such claims and proceedings, will not materially affect the City's financial position.

The City had outstanding construction commitments in the amount of $35,243,250 as of June 30, 2023.

City of Gardena
Required Supplementary Information (Unaudited)
Notes to the Budgetary Comparison Schedule
For the Year Ended June 30, 2023

Note 1 - Budgetary Control and Accounting Policy

The City adopts annual budgets for the General Fund, special revenue funds, and debt service funds as well as adopts project length budgets for projects within the City Capital Projects Fund. During the year ended June 30, 2023, the City did not adopt a budget for the Asset Forfeiture Special Revenue Fund.

The City's budget is a detailed operating plan, which identifies estimated costs and results in relation to estimated revenues. The budget includes (1) the programs, projects, services, and activities to be provided during the fiscal year, (2) the estimated resources (inflows) and amounts available for appropriation and (3) the estimated charges to appropriations (outflows). The budget represents a process through which policy decisions are made, implemented, and controlled. The City's policy prohibits expending funds for which there is no legal appropriation.

The City's procedures for preparing the budgetary data reflected in the financial statements are:

- The budget is prepared under the City Manager's direction and adopted by the City Council, generally prior to June 30 of each year. It is revised periodically during the year by the City Council. The budget presented in the financial statements includes the original and final amounts.

- The budget serves as a policy document for the deliverance of public services; however, expenditures are individually approved by the City Council. The City Manager is authorized to transfer amounts within individual fund budgets without the approval of City Council. Additional appropriations during the year may be submitted to the City Council for review and approval.

- Budget information is presented for the governmental fund types. Budgeted revenue amounts represent the original budget modified by Council-authorized adjustments during the year, which were contingent upon new, or additional revenue sources. Budgeted expenditure amounts represent original appropriations adjusted for supplemental appropriations during the year.

- Total expenditures of each governmental fund may not legally exceed fund appropriations, and total expenditures for each department (for example: police department, public works department, community development department, etc.) may not legally exceed departmental appropriations. The City does not employ encumbrance accounting. The budgets conform, in all material respects, to U.S. GAAP.

- Appropriations lapse at year-end to the extent they have not been expended, except for capital projects appropriations which lapse when individual projects are completed.

[1] Historical information is presented only for measurement periods for periods after GASB 68 implementation in 2013-14. Additional years of information will be displayed as it becomes available.

[2] During Fiscal Year 2017-18, as a result of Governmental Accounting Standards Board Statement (GASB) No. 75, Accounting and Financial Reporting for Postemployment Benefit Plans Other than Pensions (GASB 75), CalPERS reported its proportionate share of activity related to postemployment benefits for participation in the State of California's agent OPEB plan. Accordingly, CalPERS recorded a one-time expense as a result of the adoption of GASB 75. Additionally, CalPERS employees participate in various State of California agent pension plans and during Fiscal Year 2017-18, CalPERS recorded a correction to previously reported financial statements to properly reflect its proportionate share of activity related to pensions in accordance with GASB Statement No. 68, Accounting and Financial Reporting for Pensions (GASB 68).

[3] Includ es o ne year's payroll growth using 2.80% payroll growth assumption for fiscal year ended June 30, 2022; 2.75% payroll growth assumption for fiscal years ended June 30, 2018-21; 3.00% payroll growth assumption for fiscal years ended June 30, 2014-17.

Notes to Schedule:

Benefit Changes: The figures above generally include any liability impact that may have resulted from voluntary benefit changes that occurre d on or before the Measurement Date. However, offers of Two Years Additional Service Credit (a.k.a. Golden Handshakes) that occurred after the Valuation Date are not included in the figures above, unless the liability impact is deemed to be material by the plan actuary.

Changes of Assumptions: Effective with the June 30, 2021 valuation date (2022 measurement date), the accounting discount rate was reduced from 7.15% to 6.90%. In determining the long-term expected rate of return, CalPERS took into account long-term market return expectations as well as the expected pension fund cash flows. Projected returns for all asset classes are estimated, combined with risk estimates, and are used to project comp ound (geometric) returns over the long term. The discount rate used to discount liabilities was informed by the long-term projected portfolio return. In addition, demographic assumptions and the inflation rate assumption were changed in accordance with the 2021 CalPERS Experience Study and Review of Actuarial Assumptions. The ac counting discount rate was 7.15% for measurement dates 2017 through 2021, 7.65% for measurement dates 2015 through 2016, and 7.50% for measurement date 2014.

California Public Employees' Retirement System ("CalPERS") - Miscellaneous Plan

	2013-14	2014-15	2015-16	2016-17	2017-18
Actuarially determined contribution	$ 1,628,415	$ 2,016,919	$ 2,317,060	$ 2,645,234	$ 3,015,630
Contributions in relation to the actuarially determined contribution[1]	(1,628,415)	(2,016,919)	(2,317,060)	(2,645,234)	(3,015,630)
Contribution deficiency (excess)	$ -	$ -	$ -	$ -	$ -
Covered payroll[2]	$ 17,651,457	$ 18,094,788	$ 19,012,911	$ 19,306,012	$ 19,929,430
Contributions as a percentage of covered payroll[2]	9.23%	11.15%	12.19%	13.70%	15.13%

[1] Employers are assumed to make contributions equal to the actuarially determined contributions. However, some employers may choose to make additional contributions towards their unfunded liability. Employer contributions for such plans exceed the actuarially determined contributions.

[2] Include es o ne year's payroll growth using 2.80% payroll growth assumption for fiscal year ended June 30, 2022; 2.75% payroll growth assumption for fiscal years ended June 30, 2018-21; 3.00% payroll growth assumption for fiscal years ended June 30, 2014-17.

Notes to Schedule:

The actuarial methods and assumptions used to set the actuarially determined contributions for Fiscal Year 2021-22 were derived from the June 30, 2019 funding valuation report.

Methods and assumptions used to determine contribution rates:

Actuarial cost method	Entry Age Normal Cost Method
Amortization method	Level percentage of payroll
Asset valuation method	Fair value
Inflation	2.50%
Salary increases	Varies by entry age and service
Payroll Growth	2.750%
Investment rate of return	7.00% net of pension plan investment and administrative expenses; includes Inflation.
Retirement age	The probabilities of retirement are based on the 2017 CalPERS Experience study for the period from 1997 to 2015.
Mortality	The probabilities of mortality are based on the 2017 CalPERS Experience Study for the period from 1997 to 2015. Pre-retirement and Post-retirement mortality rates include 15 years of projected mortality improvement using 90% of Scale MP-2016 published by the Society of Actuaries.

[1] Payroll from 2021-22 was assumed to increase by the 2.8 percent payroll growth assumption.

Notes to Schedule:

Change in Benefit Terms: There was no change in benefit terms.

Changes of Assumptions: Effective with the June 30, 2021 valuation date (2022 measurement date), the accounting discount rate was reduced from 7.15% to 6.90%. In determining the long-term expected rate of return, CalPERS took into account long-term market return expectations as well as the expected pension fund cash flows. Projected returns for all asset classes are estimated, combined with risk estimates, and are used to project comp ound (geometric) returns over the long term. The discount rate used to discount liabilities was informed by the long-term projected portfolio return. In addition, demographic assumptions and the inflation rate assumption were changed in accordance with the 2021 CalPERS Experience Study and Review of Actuarial Assumptions. The ac counting discount rate was 7.15% for measurement dates 2017 through 2021, 7.65% for measurement dates 2015 through 2016, and 7.50% for measurement date 2014. None in 2019-2021. In 2018, demographic assumptions and inflation rate were changed in accordance to the CalPERS Experience Study and Review of Assumptions December 2017. There were no changes in the discount rate. In 2017, the discount rate was reduced from 7.65 percent to 7.15 percent. In 2016, there were no changes. In 2015, amounts reported reflect an adjustment of the discount rate from 7.5 percent (net of administrative expense) to 7.65 percent (without a reduction for pension plan administrative expense). In 2014, amounts reported were based on the 7.5 percent discount rate.

NONMAJOR GOVERNMENTAL FUNDS

Consolidated Lighting District Special Revenue Fund **-** To account for monies received from property assessments restricted to fund district lighting activities.

Prop C Local Return Special Revenue Fund **-** To account for monies derived from Los Angeles County 1/2% sales tax, received from MTA and expended on streets and roads heavily used by public transit.

Gas Tax Special Revenue Fund **-** To account for funding from the State of California for the state and county gas tax allocation and the Senate Bill No. 1 (SB1) allocation.

Asset Forfeiture Special Revenue Fund **-** To account for monies that were seized from criminal activities and is to be used solely for law enforcement purposes.

Public Safety Grants Special Revenue Fund **-** Represents twenty-two funds used to fund various police activities. Four of the grants receive funding from the California Office of Traffic Safety. These grants fund sobriety checkpoints, saturation patrols, seatbelt enforcement, warrant/probation sweeps and additional activities to raise public awareness and reduce alcohol involved fatalities. Two grants from the U.S. Department of Justice provides funding for technological programs and equipment to improve public safety issues. One grant from Board of State and Community Corrections (“BSCC”) for establishing officer wellness units and support. Finally, The COPS grant and Traffic Safety grant are funds earmarked for any police activity that will increase public safety. The Federal Emergency Management Agency (“FEMA”) Coronavirus Pandemic Public Assistance Program provides support to meet emergency needs during the COVID-19 pandemic. The State Homeland Security Grant Program (“HSGP”) provides funding to prevent terrorism and other catastrophic events and to prepare local governments for the threats and hazards that pose the greatest risk to the security of the community.

Public Works Grants Special Revenue Fund **-** Represents fourteenth funds used to implement various capital improvements projects. The Artesia Boulevard Landscaping Assessment is received from property assessments and restricted to funding district landscaping activities. Several funds to account for various grants received from the California Department of Transportation or Caltrans to implement programs that promote pedestrian friendly areas, street and signal improvements. The Measure Proposition A Park Bond Safe neighborhood Parks Proposition of 1992 and 1996 is received from Los Angeles County Regional Park and Open Space District to be used for acquisition and improvements to parks. The South Coast AQMD fund is monies received from the motor vehicle tax to be expended on programs to reduce air pollution, which is necessary to comply with the California Clean Air Act of 1988. Measure R & Measure M funds are derived from Los Angeles County 1/2 cent sales tax approved by voters to meet the transportation needs of Los Angeles County. The program is to be used for transportation projects that have been approved by the Los Angeles County Metropolitan Transportation Authority ("MTA"). The Measure W fund is derived from Los Angeles County 2.5 cents parcel tax approved by voters in November 2018 to increase local water supply, improve water quality, and protect public health. This fund is use for Municipal Separate Storm Sewer System (“MS4”) programs and projects. Proposition 68 Fund to account for grant monies received from the Statewide Park Development and Community Revitalization Program (“SPP”) to create new parks and recreation opportunities in underserved communities.

Human Services Grants Special Revenue Fund **-** Represents seven funds. Two of the funds provide meals to the elderly and disabled funded by Aging Program. These meals are served at the Nakaoka Center or delivered directly to the participants. One grant provides for a socialization program for elderly persons suffering from Alzheimer's Disease or dementia. The two Family Child Care grants are funded by the California Department of Education Social Services (“CDSS”) and provides daycare and early education to qualified families. Once fund to account for the Los Angeles County Measure H Homeless grant to provide homeless prevention and referral services.

Community Development Block Grant (CDBG) Special Revenue Fund **-** To account for funding from HUD to fund programs that benefit low income, elderly or disabled individuals. A number of programs are funded with these monies, including an at-risk youth program, code enforcement, a handy worker program for small home repairs and access ramps, projects to improve or eliminate slum blight conditions, as well as assistance for landlords in designated areas to improve living conditions for qualified tenants.

American Rescue Plan Special Revenue Fund **-** To account for revenues and activities for American Rescue Plan Act funding which was provided to fund additional relief for individuals and businesses affected by the coronavirus pandemic.

[1] Net (expense)/revenue is the difference between the expenses and program revenues of a function or program. It indicates the degree to which a function or program is supported with its own fees and program specific grants versus its reliance upon funding from taxes and other general revenues.
-A number in parentheses are net expenses, indicating that expenses were greater than program revenues and therefore, general revenues were needed to finance that function or program.
-Numbers without parentheses are net revenues, meaning that program revenues were more than sufficient to cover expenses.

[1] Net (expense)/revenue is the difference between the expenses and program revenues of a function or program. It indicates the degree to which a function or program is supported with its own fees and program specific grants versus its reliance upon funding from taxes and other general revenues.
-A number in parentheses are net expenses, indicating that expenses were greater than program revenues and therefore, general revenues were needed to finance that function or program.
-Numbers without parentheses are net revenues, meaning that program revenues were more than sufficient to cover expenses.

In 1978, California voters passed Proposition 13 which set the property tax at a 1.00% fixed amount. This 1.00% is shared by all the taxing agencies for which the subject property resides within. In addition to 1.00% fixed amount, property owners are charged taxes as a percentage of assessed property values for the payment of any voter approved bonds.
Assessed valuation is based on 100% of full value in accordance with Section 135 of the California Revenue and Taxation Code.

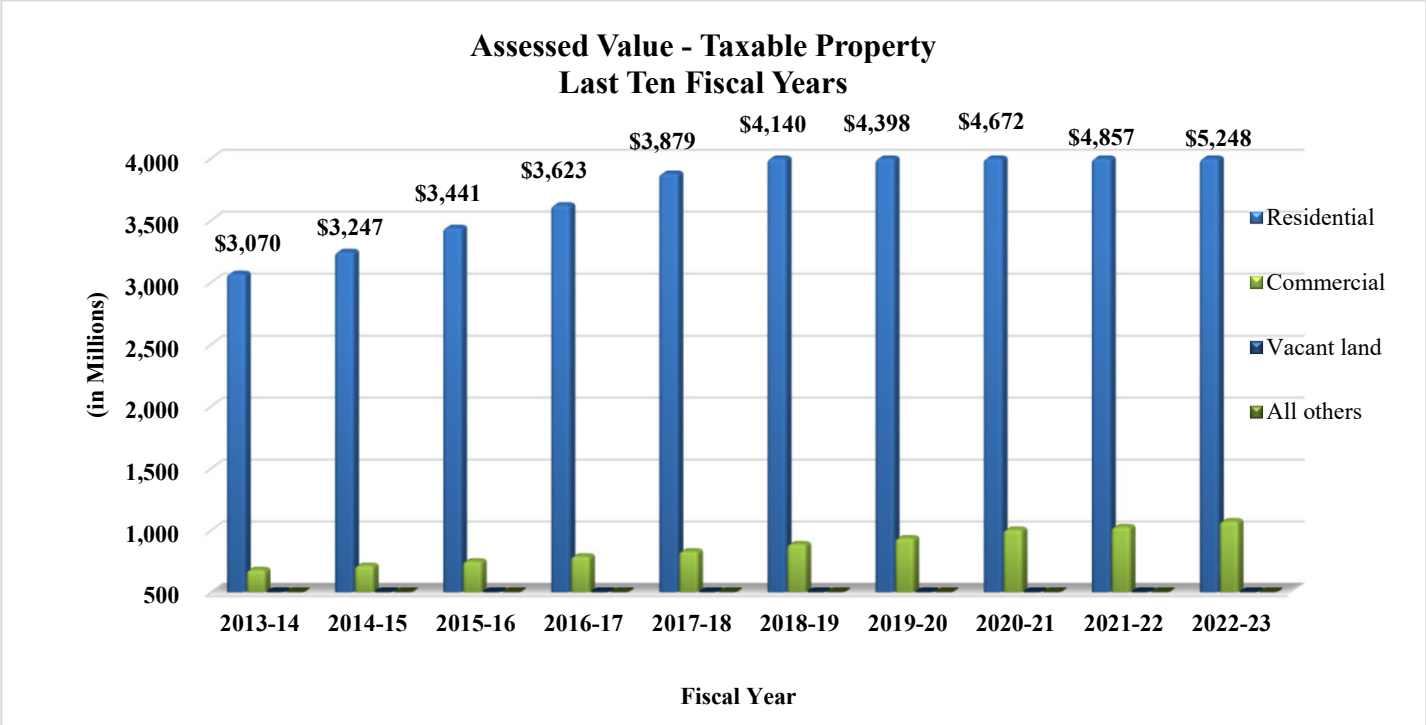
Notes: In 1978 the voters of the State of California passed Proposition 13 which limited taxes to a total maximum rate of 1% based upon the assessed value of the property being taxed. Each year, the assessed value of property may be increased by an "inflation factor" (limited to a maximum of 2%). With few exemptions, property is only reassessed as a result of new construction or at the time it is sold to a new owner. At that point, the property is reassessed based upon the added value of the construction or at the purchase price (market value) or economic value of the property sold. The assessed valuation data shown above represents the only data currently available with respect to the actual market value of taxable property and is subject to the limitation just mentioned.



-Exempt values are not included in Total.

(1) In 2006-07 certain report formatting changes have been made to comply with GASB 44 standard reporting requirements; therefore, the net of Homeowner Exemption is separated from previous years.

NOTES: Report formatting changes have been made to comply with GASB 44 standard reporting requirements.
Public Utility values are not included in this report.

(1) Tax Rate Areas: TRA 000576
-Tax rate limit: A state constitutional amendment (Proposition 13) provided that the tax rate was limited to 1% of full cash values, levied only by the County and shared with all other jurisdictions. All other jurisdictions and the County can levy a tax rate for voter-approved debt.

(2) Estimated Actual Value is derived from a series of calculations comparing median assessed values from 1940 to current median sales price and the Factor of Taxable Assessed Value is the result. This factor is changing from year to year; however, since the previous fiscal years calculating data is not available, the fiscal year 2007-08 factor is used.

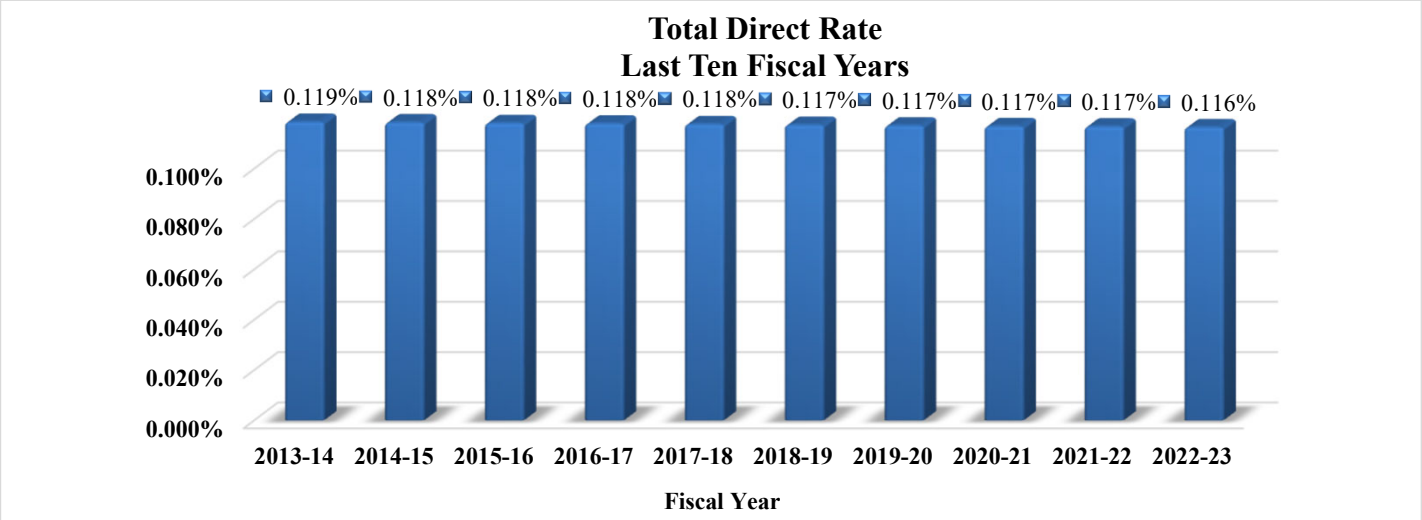
County of Los Angeles [(1)]	0.00000 %	0.00000 %	0.00000 %	0.00000 %	0.00000 %

Notes: General fund tax rates are representative and based upon the direct and overlapping rates for the largest General Fund tax rates area (TRA) by net taxable value.

Total Direct Rate [(1)] is weighted average of all individual direct rates applied by the government preparing the statistical section information. The percentages presented in the columns above do not sum across rows.



RDA rate is based on the largest RDA tax rate area (TRA) and includes only rate(s) from indebtedness adopted prior to 1989 per California State statute. RDA direct and overlapping rates are applied only to the incremental property values.

In 1978, California voters passed Proposition 13 which set the property tax at a 1.00% fixed amount. This 1.00% is shared by all the taxing agencies for which the subject property resides within. In addition to 1.00% fixed amount, property owners are charged taxes as a percentage of assessed property values for the payment of any voter approved bonds.

NET COMBINED TOTAL DEBT			$ 271,339,774

(1) The percentage of overlapping debt applicable to the City is estimated using taxable property value. Applicable percentages were estimated by determining the portion of the overlapping district's assessed value that is within the boundaries of the City divided by the district's total taxable assessed value.

(2) Excludes tax and revenue anticipation notes, enterprise revenue, mortgage revenue, non-bonded capital lease obligations, and sales tax revenue bonds.

Ratios to 2022-23 Assessed Valuation:

Direct Debt ($123,230,000)….	1.53%
Total Gross Overlapping Tax and Assessment Debt….	1.72%
Total Net Overlapping Tax and Assessment Debt….	1.68%
Gross Combined Total Debt….	3.39%
Net Combined Total Debt….	3.36%

Section 43605 of the Government Code of the State of California provides for a legal debt limit of 15% of gross assessed valuation. However, this provision was enacted when assessed valuation was based upon 25% OF MARKET VALUE. Effective with 1981-82 fiscal year, each parcel is now assessed at 100% of market value (as of the most recent change in ownership for that parcel). The Computations shown above reflect a conversion of assessed valuation data for each fiscal year from current full valuation perspective to the 25% level that was in effect at the time the legal debt margin was enacted by the State of California for local governments located within the State.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Independent Auditors' Report

To the Honorable Mayor and the Members of the City Council
of the City of Gardena
Gardena, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Gardena, California ("City"), as of and for the year ended June 30, 2023, and the related notes to the basic financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated December 7, 2023.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting ("internal control") as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the City's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT

To the Honorable Mayor and the Members of the City Council
of the City of Gardena
Gardena, California

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of the City of Gardena, California (the "City") Family Child Care Program (the "Program"), which comprise the balance sheet as of June 30, 2023 and the related statement of revenues, expenditures, and change in fund balance for the year then ended, and the related notes to the financial statements, as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Program as of June 30, 2023, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS") and the standard applicable to financial audits contained in *Governmental Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City and the Program and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter

As discussed in Note 1, the financial statements present only the Program and do not purport to, and do not, present fairly the financial position of the City of Gardena, California, as of June 30, 2023, the changes in its financial position, or where applicable, its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Program's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and G*overnment Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's Program's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Management has omitted Management's Discussion and Analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Supplementary Information

Our audit was conducted for the purpose forming an opinion on the financial statements of the Program. The Supplementary Information are presented for purposes of additional analysis and are not a required part of the financial statements of the Program. The Supplementary Information consists of the Reserve Fund Calculation – Center Based Program, the Schedule of Expenditures by State Categories, the Schedule of Claimed Administrative Costs, the Schedule of Claimed Equipment Expenditures, the Schedule of Claimed Expenditures for Renovations and Repairs, the Audited Enrollment, Attendance and Fiscal Report for Child Care and Development Programs, Child Care and Development Programs Certified Children Days of Enrollment and Attendance, and the Audited Reserve Account Activity Report, are the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the Program's financial statements.

The information has been subjected to the auditing procedures applied in the audit of the Program's financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Reserve Fund Calculation – Center Based Program, the Schedule of Expenditures by State Categories, the Schedule of Claimed Administrative Costs, the Schedule of Claimed Equipment Expenditures, the Schedule of Claimed Expenditures for Renovations and Repairs, the Audited Enrollment, Attendance and Fiscal Report for Child Care and Development Programs, Child Care and Development Programs Certified Children Days of Enrollment and Attendance, and the Audited Reserve Account Activity Report are fairly stated, in all material respects, in relation to the Program's financial statements as a whole.

Other Information

Management is responsible for the other information included in the Program's financial statements. The other information comprises the introductory and general information but does not include the Program's financial statements and our auditors' report thereon. Our opinion on the Program's financial statements do not cover the other information and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the Program's financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the Program's financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 1, 2023, on our consideration of the City's internal control over the Program's financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over Program's financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over the Program's financial reporting and compliance.

NOTES TO THE FINANCIAL STATEMENTS

This page intentionally left blank.

Note 1 – Summary of Significant Accounting Policies

A. Reporting Entity

The accompanying financial statements of the City of Gardena, California (the "City") Family Child Care Program (the "Program") includes the financial activities of the City's child care program. The financial operations of the Program are accounted for in the Family Child Care Special Revenue Fund (the "Fund") of the City. The City's child care program provides funding to child care facilities for children that are ages infant to thirteen years.

B. Measurement Focus Basis of Accounting

The financial statements are prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") and to meet the requirements of the California Department of Social Services ("CDSS").

The Program's financial activities are reported using "current financial resources" measurement focus and the modified accrual basis of accounting where revenues are recognized in the accounting period in which they become measurable and available to pay liabilities of the current period. Revenues considered susceptible to accrual include charges for services, federal and state grants and interest. For these purposes, the Program considers revenues to be available if they are collected within 60 days of the end of the current fiscal year. Expenditures are recognized in the accounting period in which the liability is incurred.

The accompanying financial statements are not intended to and does not present the financial position or results of operations of the City.

C. Cash and Investments

The Program's cash is pooled with the City's internal investment pool, which is considered to be cash on hand, demand deposits, and short-term investments with original maturity of three months or less from the date of acquisition.

D. Prepaid items

Certain payments to vendors reflect costs applicable to future accounting periods and are reported as prepaid items in the financial statements.

E. Deferred Inflows of Resources

In addition to liabilities, the balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of fund balance that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Program has one item reported in this category. The item arises only under a modified accrual basis of accounting for unavailable revenue. The governmental funds report unavailable revenues from one source: grant revenues. This amount is deferred and recognized as an inflow of resources in the period that the amounts become available.

Note 1 – Summary of Significant Accounting Policies (Continued)

F. Fund Balance

The Program only has restricted fund balance as defined below:

Restricted – Restricted fund balances encompass the portion of net fund resources subject to externally enforceable legal restrictions. This includes externally imposed restrictions by creditors, grantors, laws or regulations of other governments, as well as restrictions imposed by law through constitutional provisions or enabling legislation.

G. Use of Estimates

The preparation of the financial statements is prepared in accordance with U.S. GAAP and it requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Note 2 – Cash and Investments

The Program's share of the City's cash and investments at June 30, 2023 was $646,961.

Cash is deposited in the City's internal investment pool, which is reported at the amortized cost. The Program does not own specifically identifiable securities in the City's pool. Interest income is allocated based on average cash balances. Investment policies and associated risk factors applicable to the Program are those of the City and are included in the City's basic financial statements.

Note 3 – Reserve account

Child care and development contractors are allowed, with the CDSS approval, to maintain a reserve account from earned but unexpended child development contract funds. Only direct service child care and development programs that are funded under contract with the CDSS can expend the funds. In accordance with the stipulations of the Social Services Code, the Program maintains its reserve account in an interest-bearing account, and all interest earned is recorded in the appropriate reserve account. The reserve account balance at June 30, 2023 was $502,177. Upon termination of all child care contracts between the City and CDSS, the reserve account balance must be returned to CDSS.

The reserve account is restricted for child care and development programs but may be applied to any contracts that are eligible to contribute to that particular program type.

Note 4 – Parent Fees

Parent fees represent the portion of child care expenses that are paid by parents who do not qualify for the full subsidy. The parents pay the Program directly for their portion of the child care expenses. Due to the COVID-19 pandemic, the CDSS waived all parent fees for the year ended June 30, 2023.

Note 5 – Child Care and Development Contracts

The Program contracts with the CDSS to conduct a child care and development programs. Program reimbursement is the lesser of allowable costs incurred and a maximum funding amount. For the year ended June 30, 2023, the Program recognized $3,041,050 (excluding the $18,421 of $18,071 interest income and $350 of miscellaneous income) of the maximum contract amount of $3,696,440 from contract number CCTR-2085. The program reported total program revenues in the amount of $3,059,470 from contract numbers CCTR-2085 for the year ended June 30, 2023.

The Program had the following grant expenditures and corresponding grant receipts for the year ended June 30, 2023 for contract numbers CCTR-2085.

	Contract Number	Grant Award Amount	Grant Revenues Recognized	Miscellaneous and Interest Income	Grant Expenditures
Federal Grants:					
Child Development	CCTR-2085	$ 1,564,920	$ 1,495,932	$ 18,421	$ 1,514,353
Total federal grants		1,564,920	1,495,932	18,421	1,514,353
State Grants:					
Child Development	CCTR-2085	$ 2,131,520	$ 1,545,118	$ -	$ 1,592,991
Total state grants		2,131,520	1,545,118	-	1,592,991
Total		$ 3,696,440	$ 3,041,050	$ 18,421	$ 3,107,344

Note 6 – Pension Plan

The Program, as part of the City, contributes to the California Public Employees Retirement System ("CalPERS"), an agent multiple-employer defined benefit pension plan. CalPERS acts as a common investment and administrative agent for participating public entities within the State of California. The Program is charged by the City for its share of pension contributions based upon rates established by CalPERS for the City's general employees. For the year ended June 30, 2023, the Program reported $109,574 in pension contribution, including unfunded accrued liability contribution allocated to the Program.

For more detailed information about the City's CALPERS pension plan, refer to the City's 2023 Annual Comprehensive Financial Report.

Note 7 – Indirect Cost Allocation

Certain general and administrative costs are allocated to the Program by the City. The City's indirect cost rate of 10% was determined through a cost allocation plan and met the CDSS maximum allowed rate.

For the year ended June 30, 2023, the indirect cost allocated to the Program amounted to $83,337.

Note 8 – Self-Insurance Program

The Program is part of the City's self-insurance program for state unemployment insurance and employee long-term disability. The City is self-insured for the first $750,000 on each workers' compensation claims, and $750,000 on each general liability claim against the City. During the year ended June 30, 2023, the Program was not charged by the City's Self-Insurance Liability Fund for liability claims.

Note 9 – Commitments and Contingencies

The Program receives state and federal funds for child development services that are subject to review and audit by the grantors. Although such audits could result in disallowed expenditures under terms of the grants, it is believed that any repayments resulting from disallowances will not be material.

Note 10 – Reconciliation from Restricted Fund Balance to Reserve Ending Balance

The following is the reconciliation of restricted fund balance from the financial statements to CDSS Form 9530-A for the year ended June 30, 2023:

Restricted Fund Balance	$	433,377
Plus: Carryover reserve from prior year earned contract amount		68,710
Reserve Ending Balance	$	502,087

Note 11 – Subsequent Events

As of May 30, 2023, per *Section-General Provisions, Sub Section-L. Contractor's Termination for Convenience (5 CCR 18024*) of the CDSS Funding Terms and Conditions, the City provided the CDSS it's 90 days' notice of intent to terminate the Agreement. The contract between CDSS and the Program was terminated effective August 31, 2023, with the Program's last day being August 31, 2023.

SUPPLEMENTARY INFORMATION

City of Gardena Family Child Care Program
Vendor Number: 2180
Reserve Fund Calculation - Center Based Program
For the Year Ended June 30, 2023

	Reserve Amount
Project No. 19-2180-00-2 (Center Based)	
Contract No. CCTR-2085	

The allowable amount to transfer to (from) the Center Based Reserve Fund is the lesser of the following three calculations:

1. $ 3,696,440 (MRA) + $ 350 (Miscellaneous) + $ 8,833 (Interest) - $ 3,107,344 (Net cost) = $ 598,279 (Possible Reserve Amount)

2. ($ 3,413,684 (Service Earnings) - $ 350 (Miscellaneous) - $ 8,833 (Interest)) - ($ 3,107,344 (Net costs) - $ 350 (Miscellaneous) - $ 8,833 (Interest)) = $ 306,340 (Possible Reserve Amount)

3. $ 3,696,440 (MRA) x 15% (State Allowed %)) - $ 492,849 (Beginning Reserve) = $ 61,617 (Possible Reserve Amount)

Transfer to reserve for the year ended June 30, 2023	$ 61,617

City of Gardena Family Child Care Program
Notes to the Child Care and Development Programs Supplemental Information
For the Year Ended June 30, 2023

In accordance with the applicable requirements from the Funding Terms & Conditions:

1. Interest expense is only allowable as a reimbursable cost in certain circumstances when it has been preapproved by the administering state department or relates to the lease purchase, acquisition, or repair or renovation of early learning and care facilities owned or leased by the contractor. No interest expense was claimed to a child care and development contract for the year ended June 30, 2023.

2. All expenses claimed for reimbursement under a related party rent transaction must be supported by a fair market rental estimate from an independent appraiser, licensed by the California Office of Real Estate Appraisers. Related party rent expense claimed as a reimbursable expense for the year ended June 30, 2023, was $0.

3. Bad debt expense is unallowable unless it relates to uncollected family fees where documentation of adequate collection attempts exists. No bad debt expense was claimed to a child care and development contract for the year ended June 30, 2023.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE (INCLUDING THOSE CONTAINED IN THE *CDSS AUDIT GUIDE*) AND OTHER MATTERS BASED ON AN AUDIT OF THE PROGRAM'S FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Independent Auditors' Report

To the Honorable Mayor and the Members of the City Council
of the City of Gardena
Gardena, California

We have audited, in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and *California Department of Social Services Audit Guide* (the "*CDSS Audit Guide*"), issued by the California Department of Social Services, the financial statements of the City of Gardena, California (the "City") Family Child Care Program (the "Program"), which comprise the balance sheet as of June 30, 2023 and the related statement of revenues, expenditures, and change in fund balance for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated November 1, 2023.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the Program's financial statements, we considered the City's internal control over the Program's financial reporting ("internal control") as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Program's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Program's financial statements are free of material misstatement, we performed tests of the its compliance with certain provisions of laws, regulations, contacts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards.*

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* and the *CDSS Audit Guide* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON COMPLIANCE FOR THE FAMILY CHILD CARE PROGRAM REQUIRED BY CALIFORNIA DEPARTMENT OF SOCIAL SERVICES AUDIT GUIDE AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE

Independent Auditors' Report

To the Honorable Mayor and the Members of the City Council
of the City of Gardena
Gardena, California

Report on Compliance for Family Child Care Program Required by California Department of Social Services

Opinion on Family Child Care Program

We have audited the City of Gardena, California's (the "City") compliance with the types of compliance requirements identified as subject to audit in the *California Department of Social Services Audit Guide* (the "*CDSS Audit Guide*"), issued by the California Department of Social Services, that could have a direct and material effect on the City's Family Child Care Program (the "Program") for the year ended June 30, 2023.

In our opinion, the City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on the Family Child Care Program for the year ended June 30, 2023.

Basis for Opinion on Family Child Care Program

We conducted our audit of compliance in accordance with auditing standards accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, and the *CDSS Audit Guide*, issued by the California Department of Social Services. Our responsibilities under those standards and the *CDSS Audit Guide* are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of City and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for the Program. Our audit does not provide a legal determination of City's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the Program.

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the City's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the United States of America, *Government Auditing Standards*, and the *CDSS Audit Guide* will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about City's compliance with the requirements of the Program as a whole.

In performing an audit in accordance with auditing standards generally accepted in the United States of America, *Government Auditing Standards*, and the *CDSS Audit Guide*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding City's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.

- Obtain an understanding of City's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the *CDSS Audit Guide*, but not for the purpose of expressing an opinion on the effectiveness of City's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a compliance requirement on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a compliance requirement will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses may exist that have not been identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing on internal control over compliance and the results of that testing based on the requirements of the *CDSS Audit Guide*. Accordingly, this report is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT

To the Honorable Mayor and the Members of City Council
of the City of Gardena
Gardena, California

Report on the Financial Statements

Opinion

We have audited the accompanying financial statements of the GTrans Enterprise Fund ("GTrans") of the City of Gardena, California (the "City") as of and for the year ended June 30, 2023, and the related notes to the financial statements, as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of GTrans's as of June 30, 2023, and the changes in financial position, and, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS"), and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States ("*Government Auditing Standards*"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matters

Financial Statements Presentation

As discussed in Note 1B, the financial statements present only the GTrans and do not purport to, and do not present fairly the financial position of the City as of June 30, 2023, the changes in its financial positions, or where applicable, its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Change in Accounting Principle

As described in Note 1Q to the financial statements, in 2023, GTrans adopted new accounting guidance, GASB Statement No. 96, *Subscription-based Information Technology Arrangements*. Our opinion is not modified with respect this matter.

Responsibility of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about GTran's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the GTrans' ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America required that the Schedule of the GTrans' Proportionate Share of Net Pension Liability, the Schedule of Contributions – Pensions, the Schedule of Changes in Net Other Postemployment Benefits Liability and Related Ratios, and the Schedule of Contributions – Other Postemployment Benefits as listed in the table of contents be presented to supplement the financial statements. Such information, although not a part of the financial statements, is required by Governmental Accounting Stands Board ("GASB"), who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the Required Supplementary Information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the financial statements, and other knowledge we obtained during our audit of the financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the Management's Discussion and Analysis ("MD&A") that accounting principles generally accepted in the United States of America require to be presented to supplement the financial statements. Such missing information, although not a part of the financial statements, is required by the GASB, who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. Our opinion on the financial statements is not affected by this missing information.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the GTrans of the City' financial statements. The Schedule of Farebox Recovery Ratio Calculation and the Schedule of Proceeds Received and Expended are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the GTrans' financial statements. Such information has been subjected to the auditing procedures applied in the audit of the GTrans' financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Farebox Recovery Ratio Calculation and the Schedule of Proceeds Received and Expended are fairly stated, in all material respects, in relation to the GTrans' financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 7, 2023, on our consideration of the City's internal control over GTrans' financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over GTrans' financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over GTrans' financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over GTrans' financial reporting and compliance.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE (INCLUDING THOSE CONTAINED IN THE TDA STATUTES AND CALIFORNIA CODES OF REGULATIONS) AND OTHER MATTERS BASED ON AN AUDIT OF THE GTRANS' FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Independent Auditors' Report

To the Honorable Mayor and the Members of City Council
of the City of Gardena
Gardena, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States and the TDA Statutes and California Codes of Regulations, issued by California Department of Transportation, the financial statements of the GTrans Enterprise Fund ("GTrans") of the City of Gardena, California ("City"), as of and for the year ended June 30, 2023, and the related notes to the financial statements, and have issued our report thereon dated December 7, 2023.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the GTrans' financial statements, we considered the City's internal control over the GTrans' financial reporting ("internal control") as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the GTrans' financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report Compliance and Other Matters

As part of obtaining reasonable assurance about whether the GTrans' financial statements are free of material misstatement, we performed tests of the City's compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of the GTrans' financial statement amounts. However, providing an opinion on compliance with these provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON COMPLIANCE FOR THE TRANSIT OPERATOR REQUIRED BY THE TRANSPORTATION DEVELOPMENT ACT AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE

Independent Auditors' Report

To the Honorable Mayor and the Members of City Council
of the City of Gardena
Gardena, California

Report on Compliance for the Transit Operator Required by the Transportation Development Act

Opinion on the City as the Transit Operator

We have audited the City of Gardena, California's (the "City") compliance with the types of compliance requirements described in §6667 of the California Code of Regulation, Title 21, Division 3, Chapter 3, Article 5.5 applicable to the City's compliance as a Transit Operator for the year ended June 30, 2023.

In our opinion, the City complied, in all material respects, with the compliance requirements referred to above that are applicable to the City as transit operator for the year ended June 30, 2023.

Basis for Opinion on the Compliance for the Transit Operator Required by the Transportation Development Act

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America ("GAAS"); the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States ("Government Auditing Standards"); and Transportation Development Act ("TDA") Statutes and California Code of Regulations, July 2018 ("TDA Guidebook"), issued by the California Department of Transportation Division of Rail and Mass Transportation. Our responsibilities under those standards and the TDA Guidebook are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for the City as a transit operator. Our audit does not provide a legal determination of the City's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the City as a transit operator.

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the City's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the TDA Guidebook will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the City's compliance with the requirements of the transit operator as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the TDA Guidebook, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the City's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.

- Obtain an understanding of the City's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the TDA Guidebook, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a compliance requirement on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a compliance requirement of the transit operator will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weakness in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing on internal control over compliance and the results of that testing based on the requirements of the §6667 of the California Codes of Regulation, Title 21, Division 3, Chapter 3, Article 5.5. Accordingly, this report is not suitable for any other purpose.

INDEPENDENT ACCOUNTANTS' REPORT

To the Honorable Mayor and the Members of City Council
of the City of Gardena
Gardena, California

We have examined the City of Gardena, California's ("City") compliance with the compliance requirements for Measure R as described in Los Angeles County's the Traffic Relief and Rail Expansion Ordinance #08-01 for the year ended June 30, 2023. The City's management is responsible for City's compliance with those requirements. Our responsibility is to express an opinion on the City's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the City complied, in all material respects, with the compliance requirements referenced above. An examination involves performing procedures to obtain evidence about the City's compliance with those requirements. The nature, timing, and extent of the procedures selected dependent on our judgment, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Attestation standards established by the American Institute of Certified Public Accountants require that we request a written statement from the City stating that the City's compliance that we examined has been accurately measured or evaluated.

We are required to be independent and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to the engagement.

Our examination does not provide a legal determination of the City's compliance with these requirements.

In our opinion, the City complied with the aforementioned requirements for the year ended June 30, 2023, is fairly stated, in all material respects.

This report is intended solely for the information and use of the members of the Measure R Independent Taxpayer Oversight Committee, the City Council, and management and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record, and its distribution is not limited.

Note 1 – Summary of Significant Accounting Policies

A. The Reporting Entity

The financial statements of GTrans, previously known as the Municipal Bus Lines, Enterprise Fund ("GTrans") of the City of Gardena, California (the "City") are intended to present the financial position and results of the operations of the bus line services. The financial statements of the GTrans are included in the basic financial statements of the City. The Annual Comprehensive Financial Report can be obtained from the City's Finance Department (1700 West 162nd Street, Gardena, CA 90247) and the City's website (www.cityofgardena.org).

As an operator of a public transportation system, the City is eligible for Transportation Development Act ("TDA") Public Utilities Code Section 99260 ("TDA Section 99260") funds. These funds were allocated by the Los Angeles County Metropolitan Transportation Authority ("MTA") to supplement the City's transit operations.

B. Financial Statements Presentation, Measurement Focus, and Basis of Accounting

The accompanying financial statements present only the GTrans and are not intended to present the financial position, changes in financial position, or cash flows of the City in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

The accounting policies of the GTrans are in accordance with U.S. GAAP applicable to governmental units. The Governmental Accounting Standards Board ("GASB") is the accepted standard-setting body for establishing accounting and financial reporting principles.

The financial statements are prepared using the *"economic resources"* measurement focus and the accrual basis of accounting. Accordingly, all assets, deferred outflows of resources, liabilities, and deferred inflows of resources (whether current or noncurrent) are included on the Statement of Net Position. The Statement of Revenues, Expenses, and Changes in Net Position present increases (revenues) and decreases (expenses) in total net position. Under accrual basis of accounting, revenues are recognized in the accounting period in which they are earned and expenses are recognized in the period when a liability is incurred.

Operating revenues are those revenues that are generated from the primary operations of the GTrans. All other revenues are reported as nonoperating revenues. Operating expenses are those expenses that are essential to the primary operations of the GTrans. All other expenses are reported as nonoperating expenses.

C. Cash and Cash Equivalents

GTrans' cash is pooled with the City's internal investment pool. Cash on hand and demand deposits pooled with the City are considered as cash and cash equivalents.

D. Grants

Grant revenues and receivables are recorded when earned on grants that have been approved and funded by the grantor. Grant sources include Federal Transit Administration, Transportation Development Act, State Transit Assistance, Measure R, Measure M, Proposition 1B, Proposition A, and Proposition C.

Note 1 – Summary of Significant Accounting Policies (Continued)

E. Inventories

Inventories consist of materials and supplies which are valued at cost on a first-in, first-out basis. Inventories are recorded as an expense when consumed for financial statement purposes, but recorded as inventory when purchased.

F. Prepaid items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in the financial statements.

G. Capital Assets

GTrans' capital assets include buildings, buses, vehicles, furniture and equipment which are recorded at historical cost or estimated historical cost if actual cost is not available. Donated capital assets are valued at their acquisition value. GTrans' policy is to capitalize all assets with a unit cost of $5,000 or more, and a useful life of more than one year. Capital assets used in operations are depreciated over their estimated useful lives using the straight-line method. The lives used for depreciation purposes are as follows:

The intangible right-to-use asset includes lease asset or subscription-based information technology arrangements ("SBITA") asset ("subscription asset"). These intangible assets are recorded at the amount of the initial measurement of the lease liabilities or SBITA liabilities ("subscription liabilities") and adjusted by any lease made to the lessor or subscription payments to the SBITA vendor at or before the commencement of the lease or subscription term, less any incentives received from the lessor or SBITA vendor at or before the commencement of the lease or subscription term along with any initial direct costs that are ancillary charges necessary to place the lease assets into service or subscription implementation costs. Lease assets are amortized using the straight-line method over the shorter of the lease term or the useful life of the underlying asset, unless the lease contains a purchase option that GTrans has determined is reasonably certain of being exercised. In this case, the lease asset is amortized over the useful life of the underlying asset. Subscription assets are amortized over the shorter of the subscription term or the useful life of the underlying IT assets.

Buildings/structures and improvements	40 years
Machinery and equipment	3-15 years
Buses	12 years
Furniture and fixtures	3-10 years
Infrastructure	30-60 years

H. Deferred Outflows and Inflows of Resources

The statement of net position reports separate sections for deferred outflows of resources and deferred inflows of resources, when applicable.

Deferred Outflows of Resources represent a consumption of net assets that applies to future periods.

Deferred Inflows of Resources represent an acquisition of net assets that applies to future periods.

I. Unearned Revenue

Unearned revenue is recognized for transactions for which revenue has not yet been earned. Typical transactions recorded as unearned revenues are prepaid charges for services; grants received but not yet earned.

Note 1 – Summary of Significant Accounting Policies (Continued)

J. Compensated Absences

It is the City's policy to accrue annual leave when incurred. A liability is recorded for unused sick leave balances only to the extent that it is probable that the unused balances will result in termination payments. This is estimated by including in the liability the unused balances of employees currently entitled to receive termination benefits, as well as those who are expected to become eligible to receive termination benefits as a result of continuing their employment with the City. Other amounts of unused sick leave are excluded from the liability since their payment is contingent solely upon the occurrence of a future event (illness) which is outside the control of the City and the employee.

K. Leases

Lessee

GTrans has a policy to recognize a lease liability and a right-to-use asset (lease asset) in the financial statements with an initial, individual value of $5,000 or more with a lease term greater than one year. Variable payments based on future performance or usage of the underlying assets are not included in the measurement of the lease liability.

At the commencement of a lease, the lease liability is measured at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made.

Lease assets are recorded at the amount of the initial measurement of the lease liabilities and modified by any lease payments made to the lessor at or before the commencement of the lease term, less any lease incentives received from the lessor at or before the commencement of the lease term along with any initial direct costs that are ancillary charges necessary to place the lease assets into service. Lease assets are amortized using the straight–line method over the shorter of the lease term or the useful life of the underlying asset, unless the lease contains a purchase option that the State has determined is reasonably certain of being exercised. In this case, the lease asset is amortized over the useful life of the underlying asset.

Key estimates and judgments related to leases include how GTrans determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- GTrans uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, GTrans generally uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancelable period of the lease, plus any option periods that are reasonably certain to be exercised.
- Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option price that GTrans is reasonably certain to exercise. GTrans monitors changes in circumstances that would require a remeasurement of a lease and will remeasure any lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

Lease assets are reported as right-to-use along with other capital assets and lease liabilities are reported on the statement of net position.

Note 1 – Summary of Significant Accounting Policies (Continued)

L. Subscription Based Information Technology Arrangements Liabilities

GTrans recognizes subscription liabilities with an initial, individual value of $5,000 or more with a subscription term greater than one year. Variable payments based on future performance, usage of the underlying IT assets, or number of user seats are not included in the measurement of the subscription liability.

At the commencement of a subscription, GTrans initially measures the subscription liability at the present value of subscription payments expected to be made during the subscription term. Subsequently, the lease liability is reduced by the principal portion of subscription payments made.

Subscription assets are recorded at the amount of the initial measurement of the subscription liabilities, less any payments made to the SBITA vendor before the commencement of the subscription term, and capitalizable initial implementation cost, less any incentives received from the SBITA vendor at or before the commencement of the subscription term.

- Preliminary Project Stage: Outlays are expensed as incurred.
- Initial Implementation Stage: Outlays are capitalized as an addition to the subscription asset.
- Key estimates and judgments related to subscription liabilities include how the City determines (1) the discount rate it uses to discount the expected subscription payments to present value, (2) subscription term, and (3) subscription payments.
- Operation and Additional Implementation Stage: Outlays are expensed as incurred unless they meet specific capitalization criteria.

Upon adoption, GTrans elected to exclude the capitalizable outlays associated with the initial implementation stage and the operation and additional implementation stage that were incurred prior to the implementation of this Statement in the measurement of subscription assets as of July 1, 2022.

Subscription assets are reported in capital assets and subscription liabilities are reported with long-term liabilities on the statement of net position. Subscription assets are amortized using the straight-line method over the shorter of the subscription term or the useful life of the underlying IT asset, unless the subscription contains a purchase option that GTrans has determined is reasonably certain of being exercised. In this case, the subscription asset is amortized over the useful life of the underlying IT asset.

- GTrans uses the interest rate charged by the SBITA vendor as the discount rate. When the interest rate charged by the lessor is not provided, GTrans generally uses its estimated incremental borrowing rate as the discount rate for subscription liabilities.
- The subscription term includes the noncancellable period of the SBITA. Subscription payments included in the measurement of the subscription liability are composed of fixed payments.

GTrans monitors changes in circumstances that would require a remeasurement of its SBITA and will remeasure any subscription asset or liability if certain changes occur that are expected to significantly affect the amount of the subscription liability.

Note 1 – Summary of Significant Accounting Policies (Continued)

M. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the plans and additions to/deductions from the plans' fiduciary net position have been determined on the same basis as they are reported by the plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value in the CalPERS trust.

The following timeframes are used for pension reporting:

CalPERS	June 30, 2023
Valuation Date	June 30, 2021
Measurement Date	June 30, 2022
Measurement Period	July 1, 2021 to June 30, 2022

Gains and losses related to changes in total pension liability and fiduciary net position are recognized in pension expense systematically over time. The first amortized amounts are recognized in pension expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to pensions and are to be recognized in future pension expense. The amortization period differs depending on the sources of the gain or loss. The difference between projected and actual earnings is amortized on a straight-line basis over 5 years. All other amounts are amortized on a straight-line basis over the average expected remaining service lives of all members that are provided with benefits (active, inactive, and retired) as of the beginning of the measurement period.

N. Other Postemployment Benefits ("OPEB") Plan

For the purpose of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the City's OPEB Plan and additions to/deductions from the OPEB Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, the OPEB Plan recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value in the CalPERS trust.

The following timeframes are used for OPEB reporting:

OPEB	June 30, 2023
Valuation Date	June 30, 2022
Measurement Date	June 30, 2022
Measurement Period	July 1, 2021 to June 30, 2022

Gains and losses related to changes in total OPEB liability and fiduciary net position are recognized in OPEB expense systematically over time. The first amortized amounts are recognized in OPEB expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to OPEB and are to be recognized in future OPEB expense. The amortization period differs depending on the sources of the gain or loss. The difference between projected and actual earnings is amortized on a straight-line basis over 5 years. All other amounts are amortized on a straight-line basis over the average expected remaining service lives of all members that are provided with benefits (active, inactive, and retired) as of the beginning of the measurement period.

Note 1 – Summary of Significant Accounting Policies (Continued)

O. Net Position

Net position is classified as follows:

Net Investment in Capital Assets – This component of net position consists of capital assets, net of accumulated depreciation and amortization, reduced by the outstanding balances of accounts payable, retention payable, and debt that are attributable to the acquisition, construction, or improvement of those assets.

Restricted – This component of net position consists of restricted assets reduced by liabilities and deferred outflows and inflows of resources related to those assets.

Unrestricted – This component of net position is the net amount of the assets, deferred outflows of resources, liabilities, and related inflows of resources that are not included in the determination of net investment in capital assets or the restricted component of net position.

At June 30, 2023, there was no "restricted" component of net position for the GTrans.

P. Use of Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions. These estimates and assumptions affect certain reported amounts and disclosures. Accordingly, actual results could differ from these estimates and assumptions.

Q. Implementation of New GASB Pronouncements

During the fiscal year ended June 30, 2023, implemented the following new GASB pronouncements:

In May 2020, GASB issued Statement No. 96, Subscription-Based Information Technology Arrangements (GASB Statement No. 96), to better meet the information needs of financial statement users by (a) establishing uniform accounting and financial reporting requirements for SBITAs; (b) improving the comparability of financial statements among governments that have entered into SBITAs; and (c) enhancing the understandability, reliability, relevance, and consistency of information about SBITAs. Under this Statement, a government is required to recognize a subscription liability and an intangible right-to-use subscription asset. The effective date of GASB Statement No. 96 is for fiscal years beginning after June 15, 2022. Implementation of this Statement resulted in restatement of beginning balance of capital assets (Note 4) and long-term debt liabilities (Note 6) at July 1, 2022.

Note 2 – Cash and Investments

Petty cash and the GTrans' share of the City's cash and investments at June 30, 2023 was $21,522,326.

Cash is deposited in the City's internal investment pool, which is reported at the amortized cost. GTrans does not own specifically identifiable securities in the City's pool. Interest income is allocated based on average cash balances. Investment policies and associated risk factors applicable to GTrans are those of the City and are included in the City's basic financial statements. Please refer to the City's Annual Comprehensive Financial Report for related disclosures for cash and investments.

Note 3 – Due from Other Governments

Due from other governments consisted of the following at June 30, 2023:

Los Angeles County Metropolitan Transportation Authority	$ 2,467,295
South Coast Air Quality Management District	350,000
U.S. Department of Transportation Federal Transit Administration	708,139
Total	$ 3,525,434

Note 4 – Capital Assets

Summary of changes in capital assets of the GTrans for the year ended June 30, 2023 is as follows:

	Balance July 1, 2022 (As Restated)	Additions	Deletions	Reclassification	Balance June 30, 2023
Nondepreciable assets:					
Land	$ 12,956,405	$ -	$ -	$ -	$ 12,956,405
Construction in progress	4,870,249	3,182,735		(248,550)	7,804,434
Total nondepreciable assets	17,826,654	3,182,735	-	(248,550)	20,760,839
Capital assets, being depreciated:					
Building	26,962,077	-	-	-	26,962,077

Furniture and fixtures	1,625,521	-	(12,482)	26,850	1,639,889
Infrastructure	1,010,673	-	-	-	1,010,673
Total capital assets, being depreciated	97,204,480	-	(1,579,972)	248,550	95,873,058
Less accumulated depreciation:	(56,182,590)	(3,253,834)	1,579,972	-	(57,856,452)
Total capital assets, being depreciated, net	41,021,890	(3,253,834)	-	248,550	38,016,606
Intangible assets, being amortized:					
Right-to-use lease assets	304,112	26,484	(304,112)	-	26,484
Right-to-use subscription assets	167,231	163,804	-	-	331,035
Total intangible assets, being amortized	471,343	190,288	(304,112)	-	357,519
Less accumulated amortization:	(152,056)	(250,352)	304,112	-	(98,296)
Total intangible assets, being amortized, net	319,287	(60,064)	-	-	259,223
Total capital assets, net	$ 59,167,831	$ (131,163)	$ -	$ -	$ 59,036,668

Depreciation and amortization expenses of the GTrans were in the amounts of $3,253,834 and $250,352, respectively for the year ended June 30, 2023.

Note 5 – Unearned Revenues

Unearned revenues represent excess operating and excess capital assistance. The following represents the amount at June 30, 2023:

Proposition A - Local Return	$ 4,073,233
Proposition A - Fare Subsidy	2,731,309
Measure M - Local Return	5,098,086
Measure R - Bus Operations	4,775,307
Measure R - Capital	361,499
California Department of Transportation - Low Carbon Transit Operation Program	269,739
Others	77,300
Total	$ 17,386,473

Note 6 – Long-Term Liabilities

Summary of changes in long-term liabilities of the GTrans for the year ended June 30, 2023 are as follows:

	Balance July 1, 2022 (As Restated)	Additions	Deletions	Balance June 30, 2023	Due within One Year	Due in more One Year
2020 Taxable Pension Obligation Bonds - publicly offered	$20,634,119	$ -	$ (769,284)	$19,864,835	$ 883,679	$18,981,156
Lease payable	158,923	26,484	(172,054)	13,353	13,353	-
Subscription payable	167,231	163,804	(102,451)	228,584	100,280	128,304
Compensated absences	1,782,774	1,038,967	(1,020,876)	1,800,865	360,173	1,440,692
Total	$22,743,047	$ 1,229,255	$ (2,064,665)	$21,907,637	$ 1,357,485	$20,550,152

2020 Taxable Pension Obligation Bonds – Original Issuance $101,490,000 ($22,296,415 for Business-Type Activities)

In November 2020, the City issued the Taxable Pension Obligation Bonds, Series 2020 in the amount of $101,490,000. The purpose of the bonds was to finance a portion of the City's unfunded accrued actuarial liability to the California Public Employees' Retirement System (CalPERS) for the benefit of the City's employees and to pay the costs of issuance of the bonds. Of the original $101,490,000 of bond principal issued $21,306,850 was allocated to GTrans.

The bonds accrue interest at rates between 1.081% and 3.363%. Interest on the bonds is payable semiannually on each April 1 and October 1, commencing April 1, 2021. Principal payments are due in annual installments ranging from $210,000 and $7,525,000, commencing April 1, 2021 through April 1, 2039. The bonds are not subject to optional and mandatory redemption prior to maturity. The bond debt service payments will be made from the debt service funds.

The amount outstanding at June 30, 2023 totaled $19,864,835. The annual debt service requirement on these bonds are as follows:

Note 6 – Long-Term Liabilities (Continued)

2020 Taxable Pension Obligation Bonds – Original Issuance $101,490,000 ($22,296,415 for Business-Type Activities) (Continued)

Fiscal Year	Principal	Interest	Total
2024	$ 883,679	$ 606,862	$ 1,490,541
2025	1,007,520	593,589	1,601,109
2026	1,065,243	576,441	1,641,684
2027	1,086,233	554,433	1,640,666
2028	1,111,421	528,733	1,640,154
2029-2033	6,046,170	2,158,747	8,204,917
2034-2038	7,080,977	1,121,078	8,202,055
2039	1,583,592	60,874	1,644,466
Total	$19,864,835	$ 6,200,757	$26,065,592

Lease Payable

GTrans has entered leases for the machine and equipment uses. The terms of the agreement was 24 months. The calculated interest rate used was 2.024%.

Principal and interest payments to maturity at June 30, 2023 are as follows:

Fiscal Year	Principal	Interest	Total
2024	$ 13,353	$ 147	$ 13,500

Subscription Payable

GTrans has entered into subscriptions for information technology arrangements. The terms of the arrangements range from 24 to 60 months with implicit rates used between 0.552% to of 3.305%. Principal and interest to maturity are as follows:

Principal and interest payments to maturity at June 30, 2023 are as follows:

Fiscal Year	Principal	Interest	Total
2024	$ 100,280	$ 5,775	$ 106,055
2025	100,924	3,329	104,253
2026	16,097	850	16,947
2027	11,283	373	11,656
Total	$ 228,584	$ 10,327	$ 238,911

Compensated Absences

All vested vacation and compensatory leave time are recognized as an expense and as a liability in the business-type funds at the time the liability vests. GTrans funds have been used to liquidate the liability. The balance outstanding at June 30, 2023 was $1,800,865.

Note 7 – Employees' Retirement Plan

General Information about the Pension Plan

Plan Description

The GTrans participates in the City's pension plan. The City contributes to the California Public Employees Retirement System ("CalPERS") miscellaneous plan, an agent multiple-employer defined benefit pension plan. CalPERS acts as a common investment and administrative agent for participating public entities within the State of California. Benefit provisions and all other requirements are established by state statue and City ordinance. A full description of the pension plan regarding number of employees covered, benefit provisions, assumptions (for funding, but not accounting purposes), and membership information are listed in the Annual Actuarial Valuation Report. This report and CalPERS' audited financial statements are publicly available reports that can be obtained at CalPERS' website under Forms and Publications (www.calpers.ca.gov/page/forms-publications).

Benefit Provided

CalPERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. A classic CalPERS member becomes eligible for service retirement upon attainment of age 50 with at least 5 years of credited service. PEPRA miscellaneous members become eligible for service retirement upon attainment of age 52 with at least 5 years of service. The service retirement benefit is a monthly allowance equal to the product of the benefit factor, years of service, and final compensation. The final compensation is the monthly average of the member's highest 36 or 12 consecutive months' full-time equivalent monthly pay. Retirement benefits for classic miscellaneous employees are calculated as 2% of average final 12 months compensation. Retirement benefits for PEPRA miscellaneous employees are calculated as 2% of the average final 36 months compensation.

Participant is eligible for non-industrial disability retirement if the participant becomes disabled and has at least 5 years credited service. There is no special age requirement. The standard non-industrial disability retirement benefit is a monthly allowance equal to 1.8 percent of final compensation, multiplied by service.

Industrial disability benefits are not offered to miscellaneous employees.

An employee's beneficiary may receive the basic death benefit if the employee becomes deceased while actively employed. The employee must be actively employed with the City to be eligible for this benefit. An employee's survivor who is eligible for any other pre-retirement death benefit may choose to receive that death benefit instead of this basic death benefit. The basic death benefit is a lump sum in the amount of the employee's accumulated contributions, where interest is currently credited at 7.65 percent per year, plus a lump sum in the amount of one month's salary for each completed year of current service, up to a maximum of six months' salary. For purposes of this benefit, one month's salary is defined as the member's average monthly full-time rate of compensation during the 12 months preceding death. Upon the death of a retiree, a one-time lump sum payment of $500 will be made to the retiree's designated survivor(s), or to the retiree's estate.

Benefit terms provide for annual cost-of-living adjustments to each employee's retirement allowance. Beginning the second calendar year after the year of retirement, retirement and survivor allowances will be annually adjusted on a compound basis by 2 percent.

Note 7 – Employees' Retirement Plan (Continued)

General Information about the Pension Plan (Continued)

Employees Covered by Benefit Terms

At June 30, 2021, the valuation date, the following GTrans' employees were covered by the benefit terms under the City's miscellaneous plan:

Active employees	130
Transferred and terminated employees	66
Retired Employees and Beneficiaries	74
Total	270

Contributions

Section 20814(c) of the California Public Employees' Retirement Law ("PERL") requires that the employer contribution rates for all public employers are determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. The total plan contributions are determined through CalPERS' annual actuarial valuation process. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The employer is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. For the measurement period ended June 30, 2022, the employer's contribution rates were 9.25%. The active classic miscellaneous employee contribution rate was 7% of annual pay and the active PEPRA miscellaneous employee contribution rate was 6.75% of annual pay.

Net Pension Liability

Actuarial Methods and Assumption Used to Determine Total Pension Liability

For the measurement period ended June 30, 2022, the total pension liability was determined by rolling forward the June 30, 2021 total pension liability. The June 30, 2021 total pension liabilities were based on the following actuarial methods and assumptions:

Actuarial Cost Method	Entry Age Normal
Actuarial Assumptions:	
Discount Rates	6.90%
Inflation	2.30%
Salary Increases	Varies by Entry Age and Service
Mortality Rate Table[1]	Derived using CalPERS's Membership Data for all Funds.
Post Retirement Benefit Increase	In 2021, the lesser of contract COLA or 2.30% until Purchasing Power Protection allowance floor on purchasing power applies, 2.30% thereafter

[1] The mortality table used was developed based on CalPERS-specific data. The probabilities of mortality are based on the 2021 CalPERS Experience Study for the period from 2001 to 2019. Pre-retirement and Post-retirement mortality rates include generational mortality improvement using 80% of Scale MP-2020 published by the Society of Actuaries. For more details on this table, please refer to the CalPERS Experience Study and Review of Actuarial Assumptions report from November 2021 that can be found on the CalPERS website.

Note 7 – Employees' Retirement Plan (Continued)

Net Pension Liability (Continued)

Change of Assumptions

Effective with the June 30, 2021 valuation date (2022 measurement date), the accounting discount rate was reduced from 7.15% to 6.90%. in determining the long-term expected rate of return, CalPERS took into account long-term market return expectations as well as the expected pension and fund cash flows. Projected returns for all asset classes are estimated, combined with risk estimates, and are used to project compound (geometric) returns over the long term. The discount rate used to discount liabilities was informed by the long-term projected portfolio return. In addition, demographic assumptions and the inflation rate assumption were changed in accordance with the 2021 CalPERS Experience Study and Review of Actuarial Assumptions.

Long-Term Expected Rate of Return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations. Using historical returns of all of the funds' asset classes, expected compound (geometric) returns were calculated over the next 20 years using a building-block approach. The expected rate of return was then adjusted to account for assumed administrative expenses of 10 Basis points.

The expected real rates of return by asset class for 2022 are as follows:

Asset Class[1]	Assumed Asset Allocation	Real Return[1, 2]
Global Equity - Cap-weighted	30.00%	4.54%
Global Equity - Non-Cap-weighted	12.00%	3.84%
Private Equity	13.00%	7.28%
Treasury	5.00%	0.27%
Mortgage-backed Securities	5.00%	0.50%
Investment Grade Corporates	10.00%	1.56%
High Yield	5.00%	2.27%
Emerging Market Debt	5.00%	2.48%
Private Debt	5.00%	3.57%
Real Assets	15.00%	3.21%
Leverage	-5.00%	-0.59%
	100.00%	

[1]An expected inflation of 2.30% used for this period.

[2]Figures are based on the 2021 Asset Liability Management study.

Discount Rate

The discount rate used to measure the total pension liability was 6.90%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Note 7 – Employees' Retirement Plan (Continued)

Changes in the Net Pension Liability

Proportionate Share of Net Pension Liability

GTrans' proportionate share of net pension liability of the City's miscellaneous plan is determined by the City's CalPERS long term projected contribution made by GTrans over the total miscellaneous plan contribution. The following table shows GTrans' proportionate share of the City's miscellaneous plan net pension liability over the measurement period ended June 30, 2022.

	Increase (Decrease)		
	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (c) = (a) - (b)
Balance at June 30, 2021 (Valuation Date)	$ 85,386,294	$ 95,541,439	$ (10,155,145)
Balance at June 30, 2022 (Measurement Date)	85,617,067	82,570,200	3,046,867
Net Changes during 2021-2022	230,773	(12,971,239)	13,202,012

The GTrans' proportionate shares of the net pension liabilities are as follows:

Measurement Date	2022
June 30, 2021	46.7030%
June 30, 2022	45.3608%
Change - Increase (Decrease)	-1.3422%

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the Plan as of the measurement date of June 30, 2022, calculated using the discount rate of 6.90%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage-point lower (5.90%) or 1 percentage-point higher (7.90%) than the current rate:

	Plan's Net Pension Liability		
Measurement Date	Discount Rate - 1% (5.90%)	Current Discount Rate (6.90%)	Discount Rate + 1% (7.90%)
June 30, 2022	$ 14,315,195	$ 3,046,867	$ (6,210,181)

Pension Plan Fiduciary Net Position

Detailed information about the plan's fiduciary net position is available in the separately issued CalPERS financial report.

Pension Expense and Deferred Outflows and Inflows of Resources Related to Pensions

For the measurement period ended June 30, 2022, the GTrans incurred a pension expense of $993,526.

Note 7 – Employees' Retirement Plan (Continued)

Pension Expense and Deferred Outflows and Inflows of Resources Related to Pensions (Continued)

As of measurement date of June 30, 2022, GTrans had deferred outflows and deferred inflows of resources related to pensions as follows:

	Measurement Date June 30, 2022	
	Deferred outflows of resources	Deferred inflows of resources
Contribution made after the measurement date	$ 877,731	$ -
Difference between expected and actual experience	-	(1,800,304)
Changes in assumption	1,668,613	-
Net difference between projected and actual earning on pension plan investments	4,479,777	-
Total	$ 7,026,121	$ (1,800,304)

The amounts above are net of outflows and inflows of resources recognized in the 2021-2022 measurement period expense.

The expected average remaining service lifetime ("EARSL") is calculated by dividing the total future service years by the total number of plan participants (active, inactive, and retired). The EARSL for the miscellaneous plan for the 2021-2022 measurement periods is 3.2 years, which was obtained by dividing the total service years of 3,447 (the sum of remaining service lifetimes of the active employees) by 1,087 (the total number of participants: active, inactive, and retired), respectively.

$877,731 reported as deferred outflows of resources related to pensions resulting from the GTrans' portion of the City's contributions subsequent to the measurement date are recognized as a reduction of the net pension liability in the year ending June 30, 2024. Other amounts reported as deferred outflows and deferred inflows of resources related to pensions will be recognized in the future pension expense as follows:

Deferred Outflows/ (Inflows) of Resources Miscellaneous Plan	
Year Ended June 30	Amounts
2023	$ 559,626
2024	697,340
2025	455,398
2026	2,635,722
2027	-
Thereafter	-
Total	$ 4,348,086

Note 8 – Net Other Postemployment Benefits Liability ("OPEB")

General Information about the OPEB Plan

Plan Description

Plan Administration

The City's governing board administers the Postemployment Benefits Plan (the "Plan"). The Plan is a single employer defined benefit plan that is used to provide postemployment benefits other than pensions ("OPEB") for eligible retirees. The Plan provides medical insurance benefits to eligible retirees of the transportation enterprises. Benefits are provided through the City's self-insured plan and Kaiser. The City's governing board has the authority to establish and amend the benefit terms as contained within the labor agreements.

Benefits Provided

The City provides retiree health benefits to eligible retirees and dependents based on employment group and the employee's classification as either Classic or PEPRA under CalPERS.

Gardena Municipal Employees Association (GMEA) members:

Tier 1: Classic employees hired before July 1, 2002 are eligible to retire at age 55 with 13 years of service. City paid health coverage is at the two-party plan rate.

Tier 2: Employees hired between July 1, 2002 and July 1, 2021:

a) Classic employees hired on or after July 1, 2002 and before January 1, 2013 may retire at age 55 with 20 years of service. City paid health coverage is at the retiree only plan rate.

b) PEPRA employees hired on or after January 1, 2013 and before July 1, 2021, are eligible to retire at age 62 with 20 years of service. City paid health coverage is at the retiree only plan rate.

Tier 3: Employees hired on or after July 1, 2021 earn benefits by the following minimum requirements:

a) Twenty (20) years of full-time service with the City earns 75% of single party rate; or

b) Twenty-five (25) years of full-time service earns 100% of the single party rate; and

c) Enrollment in an any health insurance plan offered by the City for the minimum years of service; and

d) Age fifty-five (55) years for Classic employees or sixty-two (62) years for PEPRA employees for full CalPERS service retirement; and

e) Retiree coverage shall terminate upon the date the retiree becomes Medicare eligible or death of the retiree, whichever occurs first.

Gardena Municipal Employees Organization (GMEO) members:

Tier 1: Classic employees hired before March 15, 2000 are eligible to retire at age 55 with 13 years of service. City paid health coverage is at the two-party plan rate.

Note 8 – Net Other Postemployment Benefits Liability ("OPEB") (Continued)

General Information about the OPEB Plan (Continued)

Plan Description (Continued)

Benefits Provided (Continued)

Tier 2: Employees hired between March 15, 2000 and January 1, 2013:

a) Classic employees hired between March 15, 2000 and December 31, 2008 may retire at age 55 with 13 years of service. City paid health coverage is at the retiree only plan rate. Spousal coverage is available with an employee contribution of $175 per month.

b) Classic employees hired on or after January 1, 2009, are eligible to retire at age 55 with 13 years of service. City paid health coverage is at the retiree only plan rate. Spousal coverage is available with an employee contribution of $250 per month.

Tier 3: PEPRA employees hired on or after January 1, 2013, are eligible to retire at age 62 with 20 years of service. City paid health coverage is at the retiree only plan rate. Spousal coverage is available with an employee contribution of $250 per month

Tier 4: Employees hired on or after July 1, 2021 earn benefits by the following minimum requirements:

a) Twenty (20) years of full-time service with the City earns 75% of single party rate; or

b) Twenty-five (25) years of full-time service earns 100% of the single party rate; and

c) Enrollment in an any health insurance plan offered by the City for the minimum years of service; and

d) Age fifty-five (55) years for Classic employees and age sixty-two (62) for PEPRA employees for full CalPERS service retirement; and

e) Retiree coverage shall terminate upon the date the retiree becomes Medicare eligible or death of the retiree, whichever occurs first.

The benefits provided for retirees are the same as for active employees of the City. Lifetime benefits are provided for eligible GMEA and GMEO members hired before July 1, 2021. Benefits cease at age 65 for all members hired on or after July 1, 2021. The City contributes to the cost of health premiums up to the applicable cap of $1,498 and $1,329 per month for the calendar years 2023 and 2022.

Eligibility

All of the Plan's employees became participants in accordance with a negotiated Memorandum of Understanding ("MOU") as negotiated by each group or bargaining unit. In order to receive benefits, eligible employees must meet the minimum requirements defined in their MOU. At June 30, 2022, measurement date, the following numbers of participants were covered by the benefit terms:

Note 8 – Net Other Postemployment Benefits Liability ("OPEB") (Continued)

General Information about the OPEB Plan (Continued)

Eligibility (Continued)

Inactive plan members or beneficiaries currently receiving benefit payments	43
Active employees	101
Total	144

Contributions

As the plan sponsor, the City determines the contributions needed to fund the OPEB Plan. The City pays the liability on a pay-as-you-go basis. The City participates in the California Employers' Retiree Benefit Trust (CERBT) in accordance with GASB 75, which provides a means to fund the annual OPEB costs.

Net OPEB Liability

The GTrans net OPEB liabilities were measured as of June 30, 2022, and total liabilities used to calculate the net OPEB liabilities were determined by actuarial valuation as of June 30, 2022.

Significant Actuarial Assumptions Used for Total OPEB Liability

The net OPEB liability, measured as of June 30, 2022 was determined using the following actuarial assumptions:

Actuarial Cost Method	Entry Age, Level Percent of Pay
Actuarial of Fiduciary Net Position	Fair value of assets
Recognition of deferred inflows and outflows of resources	Closed period equal to the average of the expected remaining service lives of all employees provided with OPEB
Salary Increases	2.75%
Inflation Rate	2.50%
Investment Rate of Return	6.25%, net of OPEB plan investment expense
Healthcare Cost Trend Rate (City Plan)	6.50% for 2022, 6.00% for 2023, 5.50% for 2024, 5.25% for 2025-2029, 5.00% for 2030-2039, 4.75% for 2040-2049, 4.50% for 2050-2069 and 4.00% for 2070 and later years. Medicare ages: 6.00% for 2022, 5.50 precent for 2023, 5.00% for 2024, 4.50% for 2025-2029, 4.25% for 2030-20269, and 4.00% for 2070 and later years.
Healthcare Cost Trend Rate (Kaiser)	6.50% for 2022, 6.00% for 2023, 5.50% for 2024, 5.25% for 2025-2029, 5.00% for 2030-2039, 4.75% for 2040-2049, 4.50% for 2050-2069 and 4.00% for 2070 and later years. Medicare ages: 4.50% for 2022-2029 and 4.00% for 2030 and later years.
Preretirement Mortality	Preretirement Mortality Rates for Public Agency Miscellaneous from CalPERS Experience Study (2000-2019).
Postretirement Mortality	Post-retirement Mortality Rates for Public Agency Miscellaneous from CalPERS Experience Study (2000-2019).

Note 8 – Net Other Postemployment Benefits Liability ("OPEB") (Continued)

Net OPEB Liability (Continued)

Long-Term Expected Rate of Return

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. The calculated investment rate of return was set equal to the expected ten-year compound (geometric) real return plus inflation (rounded to the nearest 25 basis points, where appropriate). The table below provides the long-term expected real rates of return by asset class (based on published capital market assumptions).

Asset Class	Assumed Asset Allocation	Real Rate of Return
Global ex-U.S. Equity	59.00%	4.80%
Fixed Income	25.00%	1.80%
TIPS	5.00%	1.60%
Real Estate	8.00%	3.70%
Commodities	3.00%	1.90%
	100.00%	

Discount Rate

GASB 75 requires a discount rate that reflects the following: a) The long-term expected rate of return on OPEB plan investments – to the extent that the OPEB plan's fiduciary net position (if any) is projected to be enough to make projected benefit payments and assets are expected to be invested using a strategy to achieve that return. b) A yield or index rate for 20-year, tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher – to the extent that the conditions in (a) are not met.

To determine a resulting single (blended) rate, the amount of the plan's projected fiduciary net position (if any) and the amount of projected benefit payments is compared in each period of projected benefit payments. The discount rate used to measure the GTrans's total OPEB liability is based on these requirements and the following information:

Long-Term Expected Return of Plan Investments	Fidelity GO AA 20 Years Municipal Index	Discount Rate
6.25%	3.54%	6.25%

Note 8 – Net Other Postemployment Benefits Liability ("OPEB") (Continued)

Net OPEB Liability (Continued)

Change in Net OPEB Liability

The following tables show the GTrans' Change in Net OPEB Liability over the measurement period ended June 30, 2022.

	2023 Increase (Decrease)		
	Total OPEB Liability (a)	Plan Fiduciary Net Position (b)	Net OPEB Liability (c) = (a) - (b)
Balance at June 30, 2021	$ 11,625,436	$ 5,713,012	$ 5,912,424
Changes recognized for the measurement period:			
Service Cost	300,182	-	300,182
Interest on the total OPEB liability	718,462	-	718,462
Difference between expected and actual experience	1,378,033	-	1,378,033
Changes of assumptions	(475,092)	-	(475,092)
Contributions - employer	-	873,696	(873,696)
Net investment income	-	(764,412)	764,412
Benefits payment	(873,696)	(873,696)	-
Administrative expenses	-	(1,447)	1,447
Net changes during July 1, 2021 to June 30, 2022	1,047,889	(765,859)	1,813,748
Balance at June 30, 2022 (Measurement Date)	$ 12,673,325	$ 4,947,153	$ 7,726,172

[1]Amount includes any implicit subsidy associated with benefits paid.

Sensitivity of the net OPEB Liability to Changes in the Discount Rate

The following tables present the total OPEB liability of the GTrans, as well as what the GTrans' total OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.25 percent) or 1-percentage-point higher (7.25 percent) than the current discount rate.

	Plan's Net OPEB Liability		
Measurement Date	Discount Rate - 1% (5.25%)	Current Discount Rate (6.25%)	Discount Rate + 1% (7.25%)
June 30, 2022	$ 9,418,573	$ 7,726,172	$ 6,324,936

Sensitivity of the Total OPEB Liability to Changes in the Health Care Cost Trend Rates

The following tables present the total OPEB liability of the GTrans, as well as what the GTrans' total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates for measurement dates June 30, 2022.

	Plan's Net OPEB Liability		
Measurement Date	1% Decrease	Current Trend	1% Increase
June 30, 2022	$ 6,123,471	$ 7,726,172	$ 9,712,583

Note 8 – Net Other Postemployment Benefits Liability ("OPEB") (Continued)

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the measurement period ended June 30, 2022, the GTrans recognized OPEB expenses of $811,910. At June 30, 2023, the GTrans reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	2023	
	Deferred outflows of resources	Deferred inflows of resources
Difference between expected and actual experience	$ 1,325,250	$ (185,400)
Changes of assumptions	73,830	(554,016)
Net difference between projected and actual earnings on plan investments	386,621	-
Employer contributions made subsequent to the measurement date	724,778	-
Total	$ 2,510,479	$ (739,416)

$724,778 reported as deferred outflows of resources related to OPEB resulting from the GTrans' portion of the City's contributions subsequent to the measurement date are recognized as a reduction of the net OPEB liability in the year ending June 30, 2024. Other amounts reported as deferred outflows and deferred inflows of resources related to other postemployment benefits will be recognized in the future other postemployment benefits expense as follows:

Deferred Outflows/ (Inflows) of Resources	
Year Ending June 30	2023
2023	$ 147,837
2024	143,094
2025	115,226
2026	311,828
2027	294,691
Thereafter	33,609
Total	$ 1,046,285

Note 9 – Capital Contributions

The following represents the different sources of capital contributions for the year ended June 30, 2023:

Proposition 1B - Security Bridge	$ 7,015
Municipal Operator Service Improvement Program ("MOSIP")	877,150
Federal Transit Assistance Funds	1,281,673
State Transit Assistance	27,804
The Los Angeles County Metropolitan Transportation Authority:	
Information Technology Systems	586,877
Bus Signal	154,328
Solar Project	811
Mobile Source Air Pollution Reduction Review Committee ("MSRC")	
Natural Gas Infrastructure Program	251,178
Low Carbon Transit Program	84
Total	$ 3,186,920

Note 10 – Related Party Transactions

Certain general and administrative costs are allocated to the GTrans by the City based upon an approved cost allocation plan. Such allocated costs were $2,305,675 was included as other operating expenses in the accompanying statement of revenues, expenses, and changes in net position for the year ended June 30, 2023.

Due to the City in the amount of $7,093,382 reported in the accompanying statement of net position was resulted from the short-term cash borrowing.

Note 11 – Net Investment In Capital Assets

The following is the calculation of net investment in capital assets at June 30, 2023.

	2023
Capital assets, net of accumulated depreciation and amortization	$ 59,036,668
Less: capital assets related accounts payable	(828,673)
Less: lease payable	(228,584)
Less: subscription payable	(13,353)

Note 12 – Commitments & Contingencies

A. Lawsuits

The GTrans is presently involved in certain matters of litigation that have arisen in the normal course of conducting the GTrans' business. Management believes, based upon consultation with attorneys that these cases, in the aggregate, are not expected to result in a material adverse financial impact on the GTrans. Additionally, the GTrans' management believes that the GTrans' insurance programs are sufficient to cover any potential losses should an unfavorable outcome materialize.

Note 12 – Commitments & Contingencies (Continued)

B. Federal and State Grant Programs

The City participates in Federal and State grant programs for GTrans, the principal of which are subject to program compliance audits pursuant to the Single Audit Act as amended and applicable State requirements. Accordingly, the City's compliance with applicable grant requirements will be established at a future date. The amount of expenditures which may be disallowed by the granting agencies cannot be determined at this time, although GTrans management anticipates such amounts, if any, will be immaterial.

GTrans's Proportionate Share of the Fiduciary Net Position as a Percentage of the Total Pension Liability	96.44%	111.89%	73.56%	74.28%	76.06%

[1] Historical information is presented only for measurement periods after GASB 68 implementation in 2013-14.

Notes to Schedule:

Change in Benefit Terms: There were no changes in benefit terms.

Changes of Assumptions: In 2022, the accounting discount rate was reduced from 7.15% to 6.90%. In determining the long-term expected rate of return, CalPERS took into account long-term market return expectations as well as the expected pension fund cash flows. Projected returns for all asset classes are estimated, combined with risk estimates, and are used to project compound (geometric) returns over the long term. The discount rate used to discount liabilities was informed by the long-term projected portfolio return. In addition, demographic assumptions and the inflation rate assumption were changed in accordance with the 2021 CalPERS Experience Study and Review of Actuarial Assumptions. In 2021, 2020 and 2019, there were no changes. In 2018, demographic assumptions and inflation rate were changed in accordance to the CalPERS Experience Study and Review of Actuarial Assumptions December 2017. There were no changes in the discount rate. In 2017, the discount rate was reduced from 7.65 percent to 7.15 percent. In 2016, there were no changes. In 2015, amounts reported reflect an adjustment of the discount rate from 7.5 percent (net of administrative expense) to 7.65 percent (without a reduction for pension plan administrative expense.) In 2014, amounts reported were based on the 7.5 percent discount rate.

City of Gardena

Gardena City Council Meeting

AGENDA REPORT SUMMARY

Agenda Item No. 12.C
Section: DEPARTMENTAL ITEMS - ADMINISTRATIVE SERVICES
Meeting Date: December 12, 2023

TO: THE HONORABLE MAYOR AND MEMBERS OF THE GARDENA CITY COUNCIL

AGENDA TITLE: Approve contracts with AT&T Business and AT&T Corp (AT&T Consulting) for the purchase of Voice Over Internet Protocol (VOIP) services and AT&T Consulting Services for an estimated total of $30,213 for the period January 1, 2024 through June 30, 2025

COUNCIL ACTION REQUIRED:

S**taff Recommendation: Approve Purchase and Contract**

RECOMMENDATION AND STAFF SUMMARY:

At the October 24, 2023 City Council Meeting, the City Council authorized the City Manager to execute the authorization to order forms for cellular and data services, enabling the City of Gardena to participate in the State of California Network and Telecommunications (CALNET) program through June 30, 2025. The City conducted various meetings with AT&T, to analyze our existing phone infrastructure and setup, to see how the City could utilize new technology and the CALNET program to save City funds.

The City determined, with the assistance of a professional consultant with AT&T, it could revitalize its current phone infrastructure and replace this with a fully operating VOIP system. In doing these changes the City would save an estimated $486,000 for the 18 month period from January 1, 2024 through June 30, 2025.

Therefore staff recommends, that the City Council approve the purchase of VOIP services and AT&T Consulting Services for an estimated total of $30,213 for the period January 1, 2024 through June 30, 2025, to save an estimated $486,000 compared to our current rates.

FINANCIAL IMPACT/COST:

Fund Type	**FY 2023-2024**	**FY 2023-2024**	**Total**
General Fund	$16,190	$12,381	$28,571
GTrans Fund	$547	$1,095	$1,642
Total	$16,737	$13,476	$30,213

Solution

We've assessed your information and developed a VOIP solution that addresses your business needs. The solution includes the following components:

- **IP Flexible Reach** is a managed Voice over IP (VoIP) solution that provides inbound and outbound calling on your data network, giving you long distance and international calling for all your sites globally and local calling for your U.S. and Most of World (MoW) sites. IP Flexible Reach adds VoIP calling capabilities to your data network.

The contents of the Proposal (except for pricing applicable to E-Rate funded services) are unpublished, proprietary, and confidential and may not be copied, disclosed, or used, in whole or in part, without the express written permission of AT&T Intellectual Property or affiliated companies, except to the extent required by law and insofar as is reasonably necessary in order to review and evaluate the information contained herein.

IP Flexible Reach Enhanced Features Package—The Enhanced Features Package option can help you boost employee productivity, enhance disaster recovery, optimize your network, and maximize the experience of your customers.

Management Options

A web-based Customer Portal is available for feature self-management and reporting

- Max DID Policing
- Anonymous Call Rejection
- Account Codes
- Authorization Codes
- Sequential Ringing
- Simultaneous Ringing

Appearance Option

- Configurable Calling Line ID

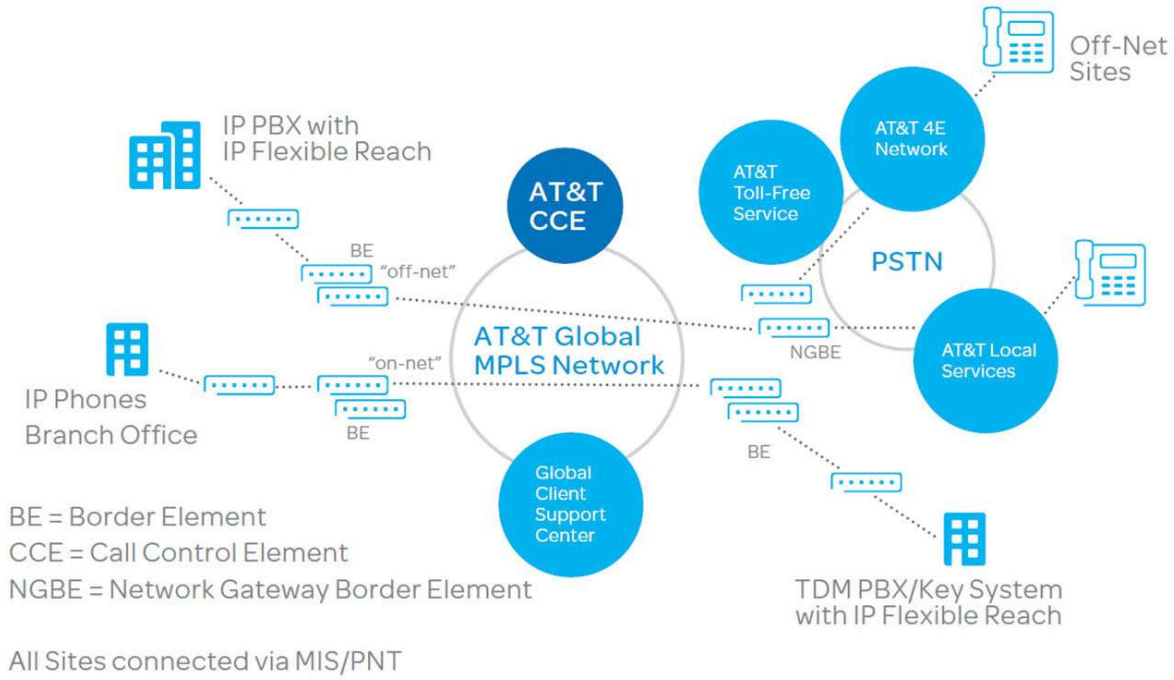
Authorization/Restriction Options

- Operator Assistance / Directory Assistance
- Domestic
- International
- Toll-Free

Call Forwarding Options

Set by user with Feature Access Codes (FAC) or through the Portal

- Call Forwarding Always
- Call Forwarding Selective
- Call Forwarding Busy
- Call Forwarding Not reachable
- Call Forwarding No Answer



Call Transfer Options

Controlled from customer IP-PBX

- Call Transfer Blind (SIP REFER)
- Call Transfer Consult (SIP REFER)

AT&T Advantages

AT&T gives you the following advantages:

- **#1 in Customer Satisfaction**—AT&T is tops in customer satisfaction for business wireline service delivered to large enterprise customers for the fifth straight year in the J.D. Power Business Wireline Satisfaction study.[1]
- **Global Business Communications Leader**—Nearly 2.5 million businesses, from small businesses to the largest global companies, turn to AT&T. This includes approximately 2,000 of the largest multinational customers (MNCs) that do business on more than two continents and have significant networking requirements in the U.S.
- **Investing in Our Network**—AT&T is consistently one of the top annual investors of capital in the U.S. Over the past five years (2018-2022), we invested more than $140 billion in our wireless and wireline networks, including capital investments and acquisition of wireless spectrum.

You've seen from our proposal that we understand your objectives and have the expertise and resources to support them. We look forward to working with you to implement the VOIP solution and help you achieve your business goals.

Important Information

IP Flexible Reach is provided by AT&T Corp.
Proposal Validity Period—The information and pricing contained in this proposal is valid for a period of 30 days from the date written on the proposal cover page unless rescinded or extended in writing by AT&T.
Terms and Conditions—This Proposal is conditioned upon negotiation of mutually acceptable terms and conditions.
Proposal Pricing—Pricing proposed herein is based upon the specific product/service mix and locations outlined in this Proposal. Any changes or variations in the proposed terms and conditions, the products/services/quantities, length of term, locations, and/or design described herein may result in different pricing. Prices quoted do not include applicable taxes, surcharges, or fees. In accordance with the tariffs or other applicable service agreement terms, Customer is responsible for payment of such charges.
Providers of Service—Subsidiaries and affiliates of AT&T Inc. provide products and services under the AT&T brand. Either AT&T Corp. or AT&T Mobility National Accounts LLC is the proposer for itself and on behalf of its service-providing affiliates.
Software—Any software used with the products and services provided in connection with this Proposal will be governed by the written terms and conditions applicable to such software. Title to software remains with AT&T or its supplier. Customer must comply with all such terms and conditions, and they will take precedence over any agreement between the parties as relates to such software.

1. Introduction

AT&T Consulting is pleased to provide this Scope of Work (SoW) to the City of Gardena (CoG) to address specific initiatives related to their existing premise-based Cisco Unified Communications infrastructure.

2. Description of Work

AT&T Consulting will implement IP Flexible Reach (SIP trunks) to replace the existing ISDN PRI service for access to the PSTN. Migration to SIP is done in stages and requires the use of a Session Border Controller (SBC). An SBC must be used to terminate carrier provisioned SIP trunks for voice traffic. The installation of an SBC is important as it provides a demarcation point between the carrier and the City's network. It also provides added security by preventing the carrier from terminating SIP trunks directly to CoG's UCM cluster. Existing Cisco voice gateways can be used as SBCs. It is assumed that two locations will receive SIP trunks to provide automatic failover capabilities for all CoG locations.

The migration to SIP is a multi-step process. First, AT&T Consulting will configure the existing Cisco voice gateways to terminate AT&T circuits connected to an AT&T managed router. In addition, these voice gateways (routers) will be configured to conform to the requirements established for IP Flex Reach service terminating on Cisco Unified Border Element (CUBE).

AT&T Consulting will make the appropriate additions and modifications to the City of Garden's UCM cluster to allow for inbound and outbound calling over IP Flex Reach. The IP Flex Reach turn up will include test numbers that will be used to validate call routing.

After the turn-up is completed, Trunk Call Routing (TCR) must be configured to ensure automatic failover occurs between both SIP trunks. AT&T Consulting will test both SIP trunks to ensure TCR is in place and failover occurs successfully for both circuits.

Once TCR has been tested successfully, telephone numbers can be ported. The City of Gardena will provide a list of Direct Inward Dial (DID) telephone numbers to port to SIP. AT&T Consulting will be an active participant during the porting process to ensure telephone numbers have been migrated to SIP and to ensure any applicable configuration changes are made to the UCM cluster.

3. Deliverables

The following deliverables are expected outcomes of this engagement:

- Configuration of existing Cisco voice gateways
- Configuration of existing UCM cluster
- Completion of IP Flex turn-up

Confidential Information: This agreement is for use by authorized employees of the Parties hereto only and is not for general distribution within or outside their companies.
© 2023 AT&T Intellectual Property. All rights reserved. AT&T and the AT&T logo are trademarks of AT&T Intellectual Property.

- Trunk Call Routing configuration
- Testing of SIP and Trunk Call Routing
- Support for number porting

4. Approach

AT&T Consulting will sponsor a project kick-off meeting to review this SOW, obtain any information required from City of Gardena but not yet received, and discuss working arrangements not defined in this SOW.

Each party will designate a Single Point of Contact (SPOC) that has the authority to represent such party and has decision-making authority for most matters. All material communications should be conducted through the SPOCs. Such communications should either be in writing or summed up in writing. However, it is recognized that for the sake of efficiency, there will need to be direct communications between AT&T Consulting team members and various City of Gardena employees. Any conversation that may have a material outcome on the success of the engagement will need to be documented and sent to the SPOCs.

A project schedule will be developed and agreed to early in the engagement. This project schedule will highlight key milestones, deliverable dates, responsible parties, and any predecessor activities. The project schedule will be maintained throughout the engagement and progress will be tracked against it.

During the course of this effort, AT&T Consulting will apply its proprietary methodology to leverage its knowledge gained in similar engagements.

AT&T Consulting, in coordination with City of Gardena, will establish a mutually agreeable working schedule and delivery plan as the first phase of this engagement.

5. Project Dependencies

To manage any necessary changes to scope, deliverables, resource availability, or underlying project assumptions, we will use AT&T's standard Change Control Process.

- Timely access to network devices, systems, locations, documentation, and key stakeholders who are vital to the information collection phase of this project
- Scheduling of meetings or receiving timely feedback
- Other than authorized Denial of Service (DoS) attacks, testing activities performed by AT&T Consulting in connection with AT&T Consulting's services are not intended to interfere with or in any way disrupt any activities of City of Gardena before, during, or after the activities. Nevertheless, testing services may cause interruptions in network service.

Confidential Information: This agreement is for use by authorized employees of the Parties hereto only and is not for general distribution within or outside their companies.
© 2023 AT&T Intellectual Property. All rights reserved. AT&T and the AT&T logo are trademarks of AT&T Intellectual Property.

- Appropriate access to customer personnel, vendors, or other entities, or the receipt of current, accurate data, documentation, or systems
- Product vendor(s) are able to remedy hardware or software that fails to perform to specification and be remedied in the timeframe required to meet the engagement schedule.
- Product vendor(s) are able to deliver all necessary hardware and software in a commercially reasonable timeframe.

6. Assumptions

The assumptions below were used by AT&T Consulting to scope this engagement based on information provided to it by City of Gardena. If any of these assumptions prove to be invalid, the parties agree to resolve the situation via the Change Order Process. Notwithstanding the foregoing, neither of the principal parties is bound to use the Change Order Process in the event of a material breach by the other party.

- Unless mutually agreed otherwise between the parties, working hours for this engagement will be City of Gardena's normal workday (Monday to Friday, 8AM to 5PM, excluding holidays), with the exception of any work that would interfere with City of Gardena’s business or operations, such as upgrades to live equipment.
- There will not be any special conditions or restrictions that would affect a productive workday.
- Delays caused by factors outside of the reasonable control of AT&T will be addressed via the Change Order Process.
- Unless otherwise specified in this Statement of Work, Deliverables will be furnished using Microsoft Office products (Word, Excel, PowerPoint, Project, Visio) or in PDF form as appropriate.
- City of Gardena’s other vendors and their personnel will be cooperative and forthcoming with information.
- All items listed in the Customer Responsibilities section of the SOW are met, delivered, or provided (as appropriate) in a timely manner.
- AT&T Consulting estimates that approximately 0-25% of the consultant work required will be performed on site, depending on City of Gardena requirements. Consultants work 40 hours per week during local standard business hours, with travel time allotted during the work week for on-site activities.
- City of Gardena has ordered the necessary circuits by the start of the Detailed Design phase.
- AT&T Consulting implementation activities will cover up to 2 locations.

Confidential Information: This agreement is for use by authorized employees of the Parties hereto only and is not for general distribution within or outside their companies.
© 2023 AT&T Intellectual Property. All rights reserved. AT&T and the AT&T logo are trademarks of AT&T Intellectual Property.

- If required, AT&T Consulting's consultants will have access to systems, hardware, computer rooms, wiring closets, etc. that are necessary to accomplish the deliverables of this engagement.

- AT&T Consulting will not provide, test or be responsible for interoperability between or to systems not identified in this SOW.

- All environmental conditions (e.g., power, air conditioning, rack, and floor space) are either currently available or will be provided by City of Gardena within the agreed upon schedule for this engagement.

- All equipment is in working order, performs appropriately, and is at currently supported software, hardware, and firmware revision levels.

- All communications facilities (e.g., WAN circuits, LAN cabling) between locations that are necessary for this engagement are either currently available or will be provided by City of Gardena within the agreed upon schedule for this engagement.

- All required hardware, firmware, and software that are necessary for this engagement are either currently available or will be provided by City of Gardena within the agreed upon schedule for this engagement.

- All test and system configuration work will be started when all equipment at all sites has been installed.

7. Completion Criteria

This engagement will be deemed completed when the following items have been accomplished:

- All Deliverables specified in this SOW have been submitted to the City of Gardena SPOC.

8. Customer Responsibilities

City of Gardena agrees to provide timely access to all personnel, resources (including all necessary hardware, software, network access, adequate and secure workspace, and telephone access) and requested information that is deemed necessary by AT&T Consulting to ensure that AT&T Consulting can fulfill its commitments stated herein. When possible, AT&T Consulting will make reasonable efforts to provide lead-time to City of Gardena. Typically, this notification will occur at the weekly status meetings. However, it may be necessary from time to time to have a faster response level. In these cases, City of Gardena agrees to respond within 3 business days.

City of Gardena also specifically agrees to:

Confidential Information: This agreement is for use by authorized employees of the Parties hereto only and is not for general distribution within or outside their companies.
© 2023 AT&T Intellectual Property. All rights reserved. AT&T and the AT&T logo are trademarks of AT&T Intellectual Property.

- Assign a Single Point of Contact (SPOC) to represent City of Gardena. The SPOC will have decision-making authority for most matters that may arise. Ensure that customer's SPOC be available to meet with AT&T Consulting a minimum of once a week for progress updates. The City of Gardena SPOC will be responsible to:
    - Facilitate the scheduling of interviews and information gathering sessions within City of Gardena's organization, unless other arrangements are agreed upon by the SPOCs.
    - Identify and coordinate with the appropriate individuals to review draft deliverables. These reviews must be within the agreed upon timeframe in order to maintain the engagement schedule.
- Provide stakeholder contact information, relevant to this project, prior to the start of the engagement.
- Identify primary on-site contacts and key personnel necessary to conduct required assessment activities in accordance with the project schedule.
- Provide input to and approval of the project schedule.
- Ensure that City of Gardena provided materials will be available on or before the date required as per the project schedule.
- Make City of Gardena resources (e.g., network, application, personnel, and third party vendors) available at appropriate points in this engagement.
- Make appropriate representatives available for the presentation of the final deliverables.
- Provide AT&T Consulting with all relevant documentation and information as it pertains to the business requirements and current network environment at the kickoff meeting.
- Provide all information and materials required for this Statement of Work on a timely basis. To the best of City of Gardena's ability, all information will be complete and accurate.
- Provide all required access (logins, passwords, facilities, personnel, etc.) to AT&T Consulting at the start of the engagement.

If City of Gardena fails to perform any of the responsibilities set forth herein, the parties agree to resolve the situation via the Change Order Process. Notwithstanding the foregoing, neither of the principal parties is bound to use the Change Order Process in the event of a material breach by the other party.

Confidential Information: This agreement is for use by authorized employees of the Parties hereto only and is not for general distribution within or outside their companies.

9. Communications Plan

a) Kickoff Meeting

- This SOW will be reviewed and any questions or issues will either be resolved at the meeting or will be documented and the results communicated in writing as soon as practical.
- All key stakeholders within City of Gardena will be identified and their email and phone numbers provided for future reference. Ideally, most if not all of these stakeholders will attend the kickoff meeting.
- All individuals that are to receive the weekly status reports will be identified. The agreed upon form of delivery (e.g., hard copy, email) should also be specified.

b) Project Schedule

AT&T Consulting, in coordination with City of Gardena, will jointly develop a project schedule that will, at a minimum, identify milestones and deliverable dates.

c) Status Reports

A status report will be provided weekly and reviewed in the status review meeting.

d) Status Meetings

- The initial expectation is that they will be held weekly, although the timing may be adjusted based on the needs of the engagement.
- At a minimum, the City of Gardena and AT&T Consulting SPOCs will be in attendance. Additional parties will be invited based on the needs of the engagement.
- AT&T Consulting will provide an update as to the overall status of the engagement and plans for the coming week that will involve City of Gardena personnel or resources.
- Discussion and resolution of any non-critical issues that are occurring.
- Review of any issues that have been escalated.
- Notification to the other party of any planned absences of key personnel.
- Review of the Project Schedule.

Confidential Information: This agreement is for use by authorized employees of the Parties hereto only and is not for general distribution within or outside their companies.
© 2023 AT&T Intellectual Property. All rights reserved. AT&T and the AT&T logo are trademarks of AT&T Intellectual Property.

10. Escalation Process

In the event of any issues arising under this SOW, either party may initiate the escalation process by contacting the representative of the other party. If the individuals at any level cannot resolve a performance deficiency to the parties' reasonable satisfaction within the specified period following referral, a party may require that the matter be escalated to the next level. At each level, the parties' representatives will attempt in good faith to address the issue as expeditiously as feasible.

a) AT&T Consulting Escalation Path

KRISTEN FITZGERALD	BUSINESS DEVELOPMENT MANAGER 1 ATC	(424) 225-4294
JAMES THOMAS	SALES DIRECTOR CONSULTING SERVICES ATC	(213) 880-0910

b) City of Gardena Escalation Path

To be completed at engagement kickoff.

Name	Title	Phone Number
	SPOC	

11. Initiation of Work

In order for work to begin, AT&T Consulting will require receipt of the fully executed SOW and any required documents (e.g., purchase order, professional services attachment) 30 days prior to the initiation of work. The kickoff meeting will mark the official start of this engagement.

If for any reason both parties agree to start the engagement (i.e., conduct the kickoff meeting) later than 15 Jan 2024, any reference in this SOW to a specific start or completion date of a deliverable or other event shall be extended by one business day for each business day that the kickoff meeting is delayed.

12. Timeline

Based on the information provided to AT&T Consulting by City of Gardena and on our professional experience, AT&T Consulting estimates that the work will be completed in approximately 40 hours over a 6-month period. During the course of this engagement, additional information may be available about the

Confidential Information: This agreement is for use by authorized employees of the Parties hereto only and is not for general distribution within or outside their companies.
© 2023 AT&T Intellectual Property. All rights reserved. AT&T and the AT&T logo are trademarks of AT&T Intellectual Property.

engagement that may impact the estimated timeline. Changes to the estimated timeline will be addressed via the Change Order Process.

13. Engagement Team

Title	Qty	Responsibility
Sr. Consultant – UC	1	The Sr. Consultant - UC is an expert in Unified Communications, including SIP migrations.

14. Charges, Expenses and Invoicing

As consideration for providing the Services detailed in this SOW, UCI will pay AT&T on a time-and-materials basis in accordance with the standard CalNet NextGen rates as indicated in the table below.

The rate structure for this engagement is:

Title	CalNet4 ID #	Number of Resources	Hourly Rate per Person	Estimated Hours	Estimated Labor Charge
Sr. Consultant - UC	ATTSC	1	$250	40	$10,000
Total					**$10,000**

Both parties agree and acknowledge that this engagement is a variable cost offering and should not be considered a “fixed price bid” nor a “not to exceed” quote. The estimated cost of the work defined in this SOW is **$10,000.00**. Changes to the cost may occur only through the Change Order Process.

The above charges and fees exclude travel and travel-related expenses such as hotel accommodations, meal, transportation (airfare, taxi, rental car, mileage, airport parking), etc., taking into account the locale, duration, and timing of the travel. The charges also do not include any taxes or other governmental charges that may apply. All quotes are in US dollars.

Customer agrees to reimburse AT&T Consulting for all travel and travel-related costs incurred in accordance with the above guidelines and the AT&T Contract.

Pricing is based on the defined scope of work as set forth in this SOW. Any additions or changes to this SOW may necessitate changes in pricing. Pricing herein assumes no material project delays will occur that would require AT&T to stop or delay work.

Confidential Information: This agreement is for use by authorized employees of the Parties hereto only and is not for general distribution within or outside their companies.
© 2023 AT&T Intellectual Property. All rights reserved. AT&T and the AT&T logo are trademarks of AT&T Intellectual Property.

AT&T Consulting will provide regular status updates to City of Gardena so that the budgetary impacts may be monitored as work progresses. If during the course of the engagement it is determined that the work will extend past the expected duration, then the Change Order Process will be used to provide additional funding.

15. Change Order Process

To manage any necessary changes to scope, deliverables, resource availability, or underlying project assumptions, we will utilize AT&T Consulting's standard Change Control Process. The process is summarized as follows:

1. Upon recognition of a potential change, City of Gardena and AT&T Consulting will mutually agree upon the nature of the change.

2. AT&T Consulting will determine the effect of the potential change and document the specifics of the change using AT&T Consulting's standard Change Request template. Change Requests will be assigned a unique control number for convenient reference and management.

3. The Change Request will be provided in draft form to City of Gardena's primary project contact for review in a timely manner. Any immediate and unavoidable impact on the Services, such as critical path delays being caused by the potential Change Request, will be communicated as soon as possible to City of Gardena leadership.

4. City of Gardena and AT&T Consulting will come to agreement on the terms of the Change Request and City of Gardena will sign the Change Request document. Prior to incurring any additional effort or cost related to the Change Request, AT&T Consulting must be in receipt of a signed Change Request document.

Confidential Information: This agreement is for use by authorized employees of the Parties hereto only and is not for general distribution within or outside their companies.

City of Gardena

Gardena City Council Meeting

AGENDA REPORT SUMMARY

Agenda Item No. 13.A
Section: DEPARTMENTAL ITEMS - COMMUNITY DEVELOPMENT
Meeting Date: December 12, 2023

TO: THE HONORABLE MAYOR AND MEMBERS OF THE GARDENA CITY COUNCIL

AGENDA TITLE: INTRODUCTION OF ORDINANCE NO. 1863, Making minor amendments to Ordinance No. 1851 which adopted by reference the 2022 Edition of the California Building Standards Code relating to fence permits and rodent-proofing, amending Section 18.42.070.f of the Gardena Municipal Code and finding the action is exempt from the California Environmental Quality Act pursuant to the Common Sense Exemption of CEQA Guidelines Section 15061(b)(3)

COUNCIL ACTION REQUIRED:

Staff Recommendation: Introduce Ordinance No. 1863 and set a public hearing on the adoption for the meeting of January 9, 2024.

RECOMMENDATION AND STAFF SUMMARY:

On May 23, 2023, the City Council adopted Ordinance No. 1851 adopting these Codes and making certain amendments. The Ordinance was then sent to the California Building Standards Code (CBSC).

On August 3, 2023, the City received notice from the CBSC rejecting changes that were made with regard to the Appendix on rodent proofing and the requirement for permits for fences and retaining walls. In response, staff is recommending that the Appendix on rodent proofing that was previously adopted be deleted and that changes be made with regard to fences and retaining walls as shown in the redline of the Ordinance attached.

The Ordinance includes a determination that adoption is not subject to CEQA pursuant to the common sense exemption set forth in CEQA Guidelines section 15061(b)(3).

_____

Clint Osorio, City Manager

City of Gardena
City Council Meeting

AGENDA STAFF REPORT

AGENDA TITLE:

INTRODUCTION OF ORDINANCE 1863, AN ORDINANCE OF THE CITY OF GARDENA, CALIFORNIA, MAKING MINOR AMENDMENTS TO ORDINANCE NO. 1851 WHICH ADOPTED BY REFERENCE THE 2022 EDITION OF THE CALIFORNIA BUILDING STANDARDS CODE RELATING TO FENCE PERMITS AND RODENTPROOFING, AMENDING SECTION 18.42.070F OF THE GARDENA MUNICIPAL CODE AND FINDING THE ACTION EXEMPT FROM THE CALIFORNIA ENVIRONMENTAL QUALITY ACT PURSUANT TO THE COMMON SENSE EXEMPTION OF CEQA GUIDELINES SECTION 15061(b)(3)

RECOMMENDATION:

Staff respectfully recommends that the City Council introduce Ordinance No. 1863 and set a public hearing on the adoption for the meeting of January 9, 2024.

BACKGROUND:

California law requires cities to adopt the California Building Standards Code (CBSC) which is set forth in Title 24 of the California Code of Regulations. On May 23, 2023 the City Council adopted Ordinance No. 1851 adopting these Codes and making certain amendments. The Ordinance was then sent to the CBSC.

On August 3, 2023, the City received notice from the BSC rejecting changes that were made with regard to the Appendix on rodent proofing and the requirement for permits for fences and retaining walls. In response, staff is recommending that the Appendix on rodent proofing that was previously adopted be deleted and that changes be made with regard to fences and retaining walls as shown in the redline of the Ordinance attached hereto.

When adopting the California State Building Standards Code by reference, state law requires that it first be introduced and then the City Council set a public hearing date, after

which the City Council may adopt the Ordinance. Additionally, prior to adoption the City Council is required to adopt a resolution setting for the findings and rationale for the amendments to the California Building Standards Code as required by law. The same procedure is being followed for the amendment to the Building and Residential Codes. A resolution justifying the changes to the Building Code is attached, but will be adopted at the same time as the Ordinance is adopted. Upon adoption, the Ordinance and Resolution will again be sent to the California Building Standards Commission in accordance with State law.

In addition to amending Title 15, the Ordinance eliminates section 18.42.070F from the Zoning Code. This section created confusion as it erroneously implied that there was a separate fence permit that was issued by the Planning Division in addition to the building permit.

CEQA

The Ordinance includes a determination that adoption is not subject to CEQA pursuant to the common sense exemption set forth in CEQA Guidelines section 15061(b)(3). Rodent proofing is not an Appendix that is adopted by the California Building Standards Code and the changes to the fence permit requirements are being adopted are for the protection of the public health and safety and will not have any environmental effects.

FISCAL REVIEW/COST

There will be no fiscal impact as a result of the adoption of the subject Ordinance.

IN CONCLUSION, Staff respectfully recommends that the City Council introduce Ordinance No. 1863 and set a public hearing on its adoption for its regularly scheduled meeting of January 9, 2024, at which time Resolution No. 6649 will also be adopted.

Submitted by: Greg Tsujiuchi Date: December 12, 2023

Attachments:
Ordinance No. 1863
Resolution No. 6649

ORDINANCE NO. 1863

AN ORDINANCE OF THE CITY OF GARDENA, CALIFORNIA, MAKING MINOR AMENDMENTS TO ORDINANCE NO. 1851 WHICH ADOPTED BY REFERENCE THE 2022 EDITION OF THE CALIFORNIA BUILDING STANDARDS CODE RELATING TO FENCE PERMITS AND RODENTPROOFING, AMENDING SECTION 18.42.070.F OF THE GARDENA MUNICIPAL CODE AND FINDING THE ACTION IS EXEMPT FROM THE CALIFORNIA ENVIRONMENTAL QUALITY ACT PURSUANT TO THE COMMON SENSE EXEMPTION OF CEQA GUIDELINES SECTION 15061(b)(3)

WHEREAS, California Health & Safety Code Section 18901 et seq. provides that the Building Standards Commission shall adopt a California Building Standards Code ("CBSC") based on specified uniform codes with input from various State Departments; and

WHEREAS, the City is required to adopt the CBSC and may make changes if certain findings are met; and

WHEREAS, on May 23, 2023, the City Council of the City of Gardena adopted Ordinance No. 1851 and sent a copy to the California Building Standards Commission ("Commission"); and

WHEREAS, the City received a letter from the Commission regarding certain changes to the CBSC that were made which were not found to be acceptable; and

WHEREAS, the City Council would like to revise certain provisions that it adopted in Ordinance No. 1851 consistent with the direction of the Commission and make a corresponding change to the Zoning Code relating to fence permits as the language erroneously indicates that there is a separate permit required; and

WHEREAS, on December 12, 2023 the City Council introduced this Ordinance and set a public hearing for January 9, 2024; and

WHEREAS, Gardena Municipal Code section 18.52.030 which incorporates the state planning and zoning law for how zoning changes should be processed; and

WHEREAS, Government Code section 65853 provides that an ordinance which does not change property from one zone to another or imposes, modifies, or removes a regulation may be processed as an ordinary ordinance and need not comply with the zoning amendment procedures; and

WHEREAS, the deletion of section 18.42.070F simply eliminates language which created confusion, but does not eliminate the requirement to obtain permits for fences and retaining walls in accordance with the California Building Code and California Residential

Code so that the zoning procedures are not applicable; and

WHEREAS, on January 9, 2024, the City Council held a duly noticed public hearing on this Ordinance; and

WHEREAS, the City Council took into account all evidence presented, both written and oral;

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF GARDENA DOES ORDAIN AS FOLLOWS:

SECTION 1. Section 15.06.010 of the Gardena Municipal Code is hereby amened to read as follows:

15.06.010 Adoption of Building Code.

Except as may otherwise be provided in this Title, the California Building Code, 2022 Edition (Parts 1 and 2 of Title 24 of the California Code of Regulations), and only Appendices ~~F (Rodentproofing),~~ J (Grading)~~,~~ and P (Emergency Housing). are hereby adopted by reference and made a part of this chapter as though set forth in full herein. These provisions of Title 24, Parts 1 and 2 shall comprise the Building Code of the City of Gardena.

SECTION 2. Section 15.06.020 of the Gardena Municipal Code which amended Section 105.2, item 2 of the California Building Code is hereby amended to read as follows:

15.06.020 Work exempt from permits.

Section 105.2, items 2 and 4 are hereby amended to read as follows:

2. Fences ~~Wood, chain-link, plastic, metal or similar fences~~ not over 6 feet in height ~~or masonry, concrete fence not over 3 feet in height above the lowest adjacent grade unless supporting a surcharge or impounding class I, II or III-A liquids~~.

4. Retaining walls that are not over ~~4~~ 3 feet ~~(1219 mm)~~ in height measured from the bottom of the footing to the top of the wall, unless supporting a surcharge or impounding Class I, II or IIIA liquids.

SECTION 3. Section 15.10.010 of the Gardena Municipal Code which amended Section R105.2 of the California Residential Code, is hereby amended to read as follows:

15.10.020 Work exempt from permits.

Section R105.2 of the 2022 California Residential Code, items 2 and 4 under “Building” are hereby amended to read as follows:

2. ~~Wood, chain-link, plastic, metal or similar~~ Ffences not over 6 feet in height. ~~or masonry, concrete fence not over 3 feet in height above the lowest adjacent grade unless supporting a surcharge or impounding class I, II or III-A liquids.~~

4. Retaining walls that are not over ~~4~~ 3 feet ~~(1219 mm)~~ in height measured from the bottom of the footing to the top of the wall, unless supporting a surcharge or impounding Class I, II or IIIA liquids.

SECTION 4. Section 18.42.070F of the Gardena Municipal Code is hereby deleted:

~~F. Permit Procedure. No person shall erect, construct or alter a fence or wall unless a permit therefor has been issued by the building and safety division. No permit shall be issued until all fences, walls and hedges on the property conform to the provisions of this section.~~

~~1. Applications. An application for a permit shall be filed by the owner or other person having the right to the possession of the land for which the permit is sought.~~

~~2. Fees. All permit applications shall be accompanied by a filing fee in an amount established by city council resolution, payable to the city to defray the costs incurred by the city in processing the application.~~

SECTION 5. CEQA. The City Council finds that the adoption of the California Buildings Standards Code and local amendments thereof is exempt from the California Environmental Quality Act ("CEQA") under CEQA Guideline section 15061(b)(3) (the commonsense exemption). The action is largely administrative in nature and designed to improve and not degrade environmental quality such that there is no possibility that adopting this Ordinance would adversely affect the environment in any manner that could be significant. Further, except for the amendments that have been adopted, these Codes apply by default.

SECTION 6. Severability. If any provision of this Ordinance is declared to be invalid by a court of competent jurisdiction, it shall not affect any remaining provision hereof. The City Council of the City of Gardena hereby declares that it would have adopted this Ordinance despite any partial invalidity of its provisions.

SECTION 7. Effective Date. This Ordinance shall take effect on the 31st day after adoption.

SECTION 8. Certification. The City Clerk is directed to certify the passage and adoption of this Ordinance; cause it to be entered into the City's book of original ordinances; make a note of the passage and adoption in the records of this meeting; and, within fifteen (15)

days after the passage and adoption of this Ordinance, cause it to be published or posted in accordance with California law.

Passed, approved, and adopted this 9th day of January, 2024.

APPROVED AS TO FORM:

LISA E. KRANITZ, Assistant City Attorney

RESOLUTION NO. 6649

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF GARDENA, CALIFORNIA, SETTING FORTH FINDINGS FOR REQUIRED AMENDMENTS TO THE 2022 CALIFORNIA STATE BUILDING CODE RELATIVE TO LOCAL CLIMATIC, TOPOGRAPHIC AND GEOLOGIC CONDITIONS RELATING TO PERMITS FOR FENCES

WHEREAS, California Health & Safety Code Section 18901 et seq. provides that the Building Standards Commission shall adopt a California Building Standards Code ("CBSC") based on specified uniform codes with input from various State Departments; and

WHEREAS, the City is required to adopt the CBSC and may make changes if certain findings are met; and

WHEREAS, on May 23, 2023, the City Council of the City of Gardena adopted Ordinance No. 1851 and sent a copy to the California Building Standards Commission ("CBSC"); and

WHEREAS, the City received a letter from the Commission regarding certain changes to the CBSC that were made which were not found to be acceptable; and

WHEREAS, the City Council would like to revise certain provisions of the Codes that it adopted in Ordinance No. 1851 consistent with the direction of the CBSC and make a corresponding change to the Zoning Code relating to fence permits as the language erroneously indicates that there is a separate permit required; and

WHEREAS, Health and Safety Code Section 17958.7 requires that the City Council, before making any modifications or changes to the CBSC, shall make an express finding that such changes or modifications are reasonably necessary because of local climatic, geologic, or topographic conditions;

NOW, THEREFORE, THE CITY OF GARDENA, DOES HEREBY RESOLVE AS FOLLOWS:

SECTION 1. A copy of Ordinance No. 1863 is attached hereto as Exhibit A.

SECTION 2. Findings Justifying Changes.

A. The change to section 15.06.010 is in compliance with the direction received from the California State Buildings Commission.

B. The changes to section 15.06.020, items 2 and 4 of Section 105.2 of the California Building Code and the changes to section 15.10.020, items 2 and 4 of Section 105.2 of the California Residential Code reducing the height of fences and

retaining walls which require permits are justified by the following local geological conditions. Gardena is prone to seismic activity due to the existence of active earthquake faults in the Southern California area. Due to the high geologic activities in this area, amendments are required to address and clarify special needs for structures in a seismically active area.

SECTION 2. The Community Development Department shall file copies of Resolution this Resolution with the California Building Standards Commission as required by Health and Safety Code Section 17958.7.

SECTION 3. The City Clerk shall certify to the passage and adoption of this resolution; shall cause the same to be entered among the original resolutions of said City; and shall make a minute of the passage and adoption thereof in the records of the proceedings of the City Council of said City in the minutes of the meeting at which the same is passed and adopted.

SECTION 4. This resolution shall be effective immediately.

Passed, approved, and adopted this ____ day of _____, 2024.

Gardena City Council Meeting

AGENDA REPORT SUMMARY

Agenda Item No. 13.B
Section: DEPARTMENTAL ITEMS - COMMUNITY DEVELOPMENT
Meeting Date: December 12, 2023

TO: THE HONORABLE MAYOR AND MEMBERS OF THE GARDENA CITY COUNCIL

AGENDA TITLE: INTRODUCTION OF ORDINANCE NO. 1860, Repealing and readopting Chapter 18.43 of the Gardena Municipal Code relating to Density Bonus laws and finding the Ordinance to be exempt pursuant to the common sense exemption of CEQA Guidelines Section 15061(b)(3)

COUNCIL ACTION REQUIRED:

Staff Recommendation: Conduct a Public Hearing and Introduce Ordinance No. 1860

RECOMMENDATION AND STAFF SUMMARY:

State law includes provisions of law known as the Density Bonus Law ("DBL") which provides incentives for developers to provide affordable housing. The DBL requires the City to adopt an ordinance regarding implementing this law and to keep the ordinance current.

Since 2012, the DBL has been amended by more than 18 bills adopted by the Legislature. Each time, the City must update its Density Bonus Ordinance to ensure that the City's regulations that are consistent with State law. For this reason, staff is recommending that the City repeal Chapter 18.43 in its entirety and adopt a new Chapter 18.43 which will adopt the State DBL by reference as it is amended from time to time.

On November 7, 2023, the Planning Commission considered the recommendation to the City on the ordinance involving repealing and readopting Chapter 18.43 of the Gardena Municipal Code relating to Density Bonus laws. At the close of the public hearing, the Commission adopted Resolution No. PC 19-23, recommending that the City Council adopt Ordinance No. 1860, by a 4-0 vote.

This zone text amendment is exempt from the California Environmental Quality Act (CEQA) pursuant to the common sense exemption set forth in Guidelines section 15061(b)(3).

FINANCIAL IMPACT/COST:

None.

AGENDA STAFF REPORT

AGENDA TITLE:

INTRODUCTION OF ORDINANCE 1860, Repealing and readopting Chapter 18.43 of the Gardena Municipal Code relating to Density Bonus laws and finding the Ordinance to be exempt pursuant to the common sense exemption of CEQA Guidelines Section 15061(b)(3)

RECOMMENDATION:

Staff Recommendation: Conduct Public Hearing and Introduce Ordinance No. 1860.

BACKGROUND:

State law includes provisions of law known as the Density Bonus Law ("DBL") which provides incentives for developers to provide affordable housing. The DBL requires the City to adopt an ordinance regarding implementing this law and to keep the ordinance current.

In July 2012, the City Council adopted Ordinance No. 1739, adding Chapter 18.43 of the Gardena Municipal Code, establishing the City's density bonus procedures in accordance with Government Code Section 65915, which Chapter has been amended numerous times as state law had been amended. Consistent with State law, the City's Density Bonus Ordinance allows a developer to increase density on a property above the maximum allowed density set forth in the City's General Plan Land Use Plan and corresponding zoning designation.

In exchange for the increased density, a certain number of new affordable dwelling units must be reserved at below market rates. A project which provides the requisite amount of affordable housing is also eligible for incentives/concessions and waivers of development standards. An incentive or concession is basically a reduction in site development standards or a modification of zoning code requirements or architectural design requirements that result in identifiable and actual cost reductions. The number of

incentives or concessions a project receives is dependent on the type and amount of affordable housing provided.

Waivers are required where the development standard would have the effect of physically precluding the construction of an affordable development. There is no limit to the number of waivers a developer may request.

While affordable housing is the usual method for an applicant to achieve a density bonus, these provisions also apply to applicants who donate land or provide childcare facilities.

Since 2012, the DBL has been amended by more than 18 bills adopted by the Legislature. Each time, the City must update its Density Bonus Ordinance to ensure that the City's regulations that are consistent with State law. For this reason, staff is recommending that the City repeal Chapter 18.43 in its entirety and adopt a new Chapter 18.43 which will adopt the State DBL by reference as it is amended from time to time. Chapter 18.43 does set forth procedures and contain certain requirements that are not included in the state law.

2023 LEGISLATIVE SESSION

This past Legislative session, there were several bills that amended the density bonus provisions. The following is a summary of the changes under these amendments, and which would be adopted by reference under Ordinance No. 1860:

- A housing project that is 100 percent affordable for lower income units is now entitled to five incentives instead of four. The lower income requirement does not apply to:
    - Managers' unit(s); and
    - Moderate income units which may account for up to 20 percent of the total units.
- A for-sale housing project that includes at least 16 percent of the units for very low income or at least 45 percent for persons and families of moderate income is entitled to four incentives.

- The language was amended to make clear that the maximum allowable residential density or base density is the greatest number of units allowed under the general plan, specific plan, or zoning ordinance.

- Allows for up to an additional 50 percent density bonus stacked on top of other density bonuses for a 100 percent combined density bonus when certain housing is provided.

- An applicant must agree and ensure that an affordable for-sale unit is sold to and occupied by an income-qualified person or family.

- The definition of what constitutes a development standard has been amended to provide that it includes a regulation that is adopted by the city or that is enacted by initiative or referendum.

COMPLIANCE WITH HOUSING PROGRAMS of 2021 – 2029 HOUSING ELEMENT

Adoption of this Ordinance will satisfy the program contained in the City's 6th Cycle Housing Element for the 2021 – 2029 period which required the City to update its Density Bonus Ordinance. Adoption will automatically incorporate the changes to the DBL that will become effective on January 1, 2025.

ENVIRONMENTAL REVIEW

This zone text amendment is exempt from the California Environmental Quality Act (CEQA) pursuant to the common sense exemption set forth in Guidelines section 15061(b)(3) that CEQA only applies to projects which have the potential for causing a significant effect on the environment and where it can be seen with certainty that there is no possibility that the activity will have a significant effect, the activity is not subject to CEQA. The primary changes in this Ordinance are to bring the City's Zoning Code into compliance with recent legislation regarding density bonus. As these requirements are already in place due to the fact that State law preempts the City's ordinances, there are no actual changes due to this clean-up.

PLANNING COMMISSION ACTION

On November 7, 2023, the Planning Commission considered the recommendation to the City on the ordinance involving repealing and readopting Chapter 18.43 of the Gardena Municipal Code relating to Density Bonus laws. At the close of the public hearing, the Commission adopted Resolution No. PC 19-23, recommending that the City Council adopt Ordinance No. 1860, by a 4-0 vote.

Since the Planning Commission meeting one non-substantive change was made to add 18.43 060G, which simply makes clear the requirement of state law requiring replacement of affordable housing. As this is already a requirement of law, it was not necessary to return the item to the Planning Commission.

RESOLUTION NO. PC 19-23

A RESOLUTION OF THE PLANNING AND ENVIRONMENTAL QUALITY COMMISSION OF THE CITY OF GARDENA, CALIFORNIA RECOMMENDING THAT THE CITY COUNCIL ADOPT ORDINANCE NO. 1860 REPEALING AND READOPTING CHAPTER 18.43 OF THE GARDENA MUNICIPAL CODE RELATING TO DENSITY BONUS LAWS AND FINDING THE ORDINANCE TO BE EXEMPT PURSUANT TO THE COMMON SENSE EXEMPTION OF CEQA GUIDELINES SECTION 15061(b)(3)

THE PLANNING COMMISSION OF THE CITY OF GARDENA, CALIFORNIA, DOES HEREBY RESOLVE AS FOLLOWS:

SECTION 1. RECITALS.

A. In February 2023 the City adopted its 6th Cycle Housing Element for the 2021-2029 period.

B. The Housing Element included a program to update the City's Density Bonus Ordinance.

C. Given the complexity of the Density Bonus Law and the frequency with which it is amended, the City desires to adopt the law by reference with local implementation procedures.

D. On November 7, 2023 the Planning Commission of the City of Gardena held a duly noticed public hearing on the draft Ordinance at which time it considered all evidence, both written and oral.

NOW, THEREFORE, THE PLANNING AND ENVIRONMENTAL QUALITY CONTROL COMMISSION OF THE CITY OF GARDENA DOES HEREBY RESOLVE AS FOLLOWS:

The Planning Commission hereby recommends that the City Council adopt the Ordinance attached hereto as Exhibit A repealing and readopting Chapter 18.43 of the Gardena Municipal Code relating to density bonus laws. For all the reasons set forth in the reasoning provided by staff, the Planning Commission believes that these changes represent good land use practices which are required by public necessity, convenience and the general welfare.

PASSED, APPROVED, AND ADOPTED this 7th day of November 2023.

ORDINANCE NO. 1860

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF GARDENA, CALIFORNIA, REPEALING AND READOPTING CHAPTER 18.43 OF THE GARDENA MUNICIPAL CODE RELATING TO DENSITY BONUS LAWS AND FINDING THE ORDINANCE TO BE EXEMPT PURSUANT TO THE COMMON SENSE EXEMPTION OF CEQA GUIDELINES SECTION 15061(b)(3)

WHEREAS, in February 2023 the City adopted its 6th Cycle Housing Element for the 2021-2029 period; and

WHEREAS, the Housing Element included a program to update the City's Density Bonus Ordinance; and

WHEREAS, given the complexity of the Density Bonus Law and the frequency with which it is amended, the City desires to adopt the law by reference with local implementation procedures; and

WHEREAS, on November 7, 2023, the Planning Commission held a duly noticed public hearing on proposed Ordinance No. 1860 at which time it considered all evidence presented, both written and oral; and

WHEREAS, after the close of the public hearing the Planning Commission adopted Resolution No. PC 19-23 recommending that the City Council adopt the proposed Ordinance; and

WHEREAS, on December 12, 2023, the City Council held a duly noticed public hearing on proposed Ordinance No. 387 at which time it considered all evidence presented, both written and oral;

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF GARDENA, CALIFORNIA, DOES HEREBY ORDAIN AS FOLLOWS:

SECTION 1. Chapter 18.43 of the Gardena Municipal Code is hereby repealed and a new Chapter 18.43 is hereby added to read as follows:

CHAPTER 18.43
DENSITY BONUS AND OTHER INCENTIVES

18.43.010 Purpose.

The purpose of this Chapter is to implement the requirements of the Density Bonus Law set forth at Government Code section 65915, *et seq*.

18.43.020 Adoption by reference.

The state Density Bonus Law, set forth at Chapter 4.3 of the Planning and Zoning law of California and found at Government Code sections 65915 through 65918,

as the same may be amended from time to time, is hereby adopted by reference as the City of Gardena's Density Bonus provisions and shall be implemented in accordance with this Chapter.

18.43.030 Definitions.

In addition to the definitions set forth in the Density Bonus Law, the following definitions shall apply to this chapter:

"Affordable housing agreement" shall mean an agreement between the city and the applicant guaranteeing the affordability of the rental or ownership affordable units in accordance with this chapter and Government Code Section 65915.

"Director" shall mean the Director of Community Development or the Director's designee.

18.43.040 Applicability.

This Chapter shall apply to any housing development that is entitled to receive a density bonus pursuant to the state Density Bonus Law.

18.43.050 Procedures.

A. Application submittal. An application for a density bonus, including an incentive or concession and waiver, shall be filed concurrently with an application for a housing development and shall be processed concurrently.

B. Application contents. An application for a density bonus shall include the following information:

1. The number of density bonus units being requested;

2. A reduced parking ratio request pursuant to Government Code section 65915(p);

3. An incentive(s) or concession(s) request pursuant to Government Code section 65915(d) that results in identifiable and actual cost reductions to provide for the affordable housing; and

4. A waiver(s) or reduction of development standard(s) request pursuant to Government Code section 65915(e) that would have the effect of physically precluding the construction of the housing development at the densities or with the allowed incentive(s) or concession(s).

C. If an application for a density bonus is incomplete, the applicant shall be timely notified of such incompleteness in accordance with the provisions of applicable law.

D. If a proposed housing development would be inconsistent with the City's Zoning Code or the state Density Bonus Law, the applicant shall be provided notice of such inconsistency in accordance with the Housing Accountability Act, Government Code section 65589.5.

E. A density bonus application shall be approved or denied in conjunction with the housing development application by the body approving such application within the time frames required for approval of such development.

18.43.060 Requirements.

A. The applicant for a density bonus shall enter into a regulatory agreement with the City in a form to be approved by the City Attorney and said agreement shall be recorded against the property. The regulatory agreement shall be approved by the body approving the underlying project. If an appeal is taken of the project, then the regulatory agreement shall be approved by the decision maker on appeal.

B. The applicant shall be required to pay the City's costs for any third-party consultants required to assist the City in drafting a regulatory agreement, developing guidelines, verifying the eligibility of owners or tenants of the affordable units, or any other matter relating to the density bonus.

C. The required affordable dwelling units shall be constructed concurrently with market-rate units unless both the body approving the underlying project and the developer agree within the affordable housing agreement to an alternative schedule for development.

D. The exterior design and construction of the affordable dwelling units shall be consistent with the exterior design and construction of the total project development and shall be consistent with any affordable residential development standards that may be prepared by the City.

1. The affordable units shall be similar in size and number of bedrooms to the market-rate units. If the development project includes a range of unit sizes, then the affordable units shall provide a range of unit sizes in proportion to the market-rate units.

2. If the project includes a subdivision, the lots with affordable units shall be of similar size to the lots with market rate units. If the development project includes a range of lot sizes, the lots with affordable units shall be no smaller than the smallest lots with market-rate units.

E. The affordable units shall have the same amenities as the market rate units, including the same access to and enjoyment of common open space, parking, storage, and other facilities in the residential development, provided at an affordable rent or at affordable ownership cost specified by Health and Safety Code section 50052.5 and California Code of Regulations Title 25, Section 6910

– 6924, as the same may be amended from time to time. Developers are strictly prohibited from discriminating against tenants or owners of affordable units in granting access to and full enjoyment of any community amenities available to other tenants or owners outside of their individual units.

F. If the development project is for units that will be sold, then the affordable dwelling units shall also be for-sale units. The regulatory agreement may make provisions for rental of the units for the same level of affordability that qualified the applicant for the density bonus if the unit is not sold within a period of time specified in the agreement.

G. The development project shall be subject to the replacement requirements for low and very-low income housing as required by Government Code section 65915(c)(3).

SECTION 2. Effective Date. This Ordinance shall take effect on the thirty-first day after passage.

SECTION 3. CEQA. This Ordinance is categorically exempt from CEQA pursuant to the common sense exemption set forth in Guidelines section 15061(b)(3) that CEQA only applies to projects which have the potential for causing a significant effect on the environment and where it can be seen with certainty that there is no possibility that the activity will have a significant effect, the activity is not subject to CEQA. This Ordinance enacts a procedure as required by state law and does not change the density, intensity, or allowed uses and passage of this Ordinance would not have other effects on the environment. The changes are not for any specific project but is regulatory in nature and therefore will not impact any environmental resource of hazardous or critical concern, will not create cumulative impacts, or impacts to scenic highways, hazardous waste sites, or historical resources. This Ordinance simply implements state law. As such, staff is directed to file a Notice of Exemption pursuant to CEQA Guidelines sections 15061(b)(3).

SECTION 4. Severability. If any provision of this Ordinance is held to be unconstitutional, it is the intent of the City Council that such portion of this Ordinance be severable from the remainder and that the remainder be given full force and effect.

SECTION 5. Certification. The City Clerk shall certify to the adoption of this Ordinance.

PASSED, APPROVED AND ADOPTED this _____ day of _____, 2023.

City of Gardena

Gardena City Council Meeting

AGENDA REPORT SUMMARY

Agenda Item No. 14.A
Section: DEPARTMENTAL ITEMS - ELECTED & CITY MANAGER'S OFFICES
Meeting Date: December 12, 2023

TO: THE HONORABLE MAYOR AND MEMBERS OF THE GARDENA CITY COUNCIL

AGENDA TITLE: INTRODUCTION OF ORDINANCE NO. 1861, Amending Section 2.60.100 (Open Market Procedure) of Chapter 2.60 (Purchasing System) of Title 2 (Administration and Personnel) of the Gardena Municipal Code

COUNCIL ACTION REQUIRED:

Staff Recommendation: Introduce Ordinance No. 1861, and Adopt the Ordinance at the next City Council meeting on January 9, 2024.

RECOMMENDATION AND STAFF SUMMARY:

Staff respectfully recommends that the City Council introduce Ordinance No. 1861, and adopt the ordinance at the next City Council meeting on January 9, 2024.

Ordinance No. 1861 proposes an amendment to section 2.60.100 of the Gardena Municipal Code, and is being submitted for City Council's consideration to increase the City Manager's approval limit for purchases of supplies, equipment and contractual services and the sale of personal property of an estimated value from the current limit of $30,000 to $50,000.

The last time the City increased City Manager approval limit was in 2017. In the over six years since that increase, with inflation increasing at a rapid pace, costs have consistently gone up for everything including; purchases of supplies, equipment and contract services; resulting in more projects exceeding the authority of the City Manager. In addition to the increased costs, staff completed a recent survey of cities in California and found that the average purchasing authority for cities of similar size to Gardena was $55,000.

Therefore, staff recommends increasing the City Manager's purchasing approval limit from $30,000 to $50,000.

ORDINANCE NO. 1861

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF GARDENA, CALIFORNIA, AMENDING SECTION 2.60.100 (OPEN MARKET PROCEDURE) OF CHAPTER 2.60 (PURCHASING SYSTEM) OF TITLE 2 (ADMINISTRATION AND PERSONNEL) OF THE GARDENA MUNICIPAL CODE

THE CITY COUNCIL OF THE CITY OF GARDENA, CALIFORNIA, DOES HEREBY ORDAIN, AS FOLLOWS:

SECTION 1. Section 2.60.100 of the Gardena Municipal Code is amended to read, as follows:

2.60.100 Open market procedure.

Except as otherwise required under federal or state law, purchases of supplies, equipment and contractual services and the sale of personal property of an estimated value of fifty thousand dollars ($50,000) or less may be made in the open market by the purchasing officer. Purchases greater than fifty thousand dollars ($50,000) shall be approved by the City Council. The purchasing officer shall attempt to obtain information relating to prices and availability of such supplies, equipment or services from different sources prior to making the purchase. Whenever possible, local vendors shall be included as sources.

SECTION 2. Severability. If any section, subsection, subdivision, paragraph, sentence, clause or phrase of this ordinance, or any part thereof is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portion of this ordinance or any part thereof. The City Council hereby declares that it would have passed each section, subsection, subdivision, paragraph, sentence, clause or phrase thereof, irrespective of the fact that any one or more section, subsection, subdivision, paragraph, sentence, clause or phrase be declared unconstitutional.

SECTION 3. Certification. The City Clerk shall certify the passage of this ordinance and shall cause the same to be entered in the book of original ordinances of said City; shall make a minute passage and adoption thereof in the records of the meeting at which time the same is passed and adopted; and shall, within fifteen (15) days after the passage and adoption thereof, cause the same to be published as required by law, in a publication of general circulation.

DocuSign Envelope ID: 6B8DFC95-D589-4000-B26D-F9F5DAA52AF6

SECTION 4. Effective Date. This ordinance shall not become effective or be in force until thirty (30) days from and after the date of its adoption.

Passed, approved, and adopted this 9th day of January, 2024.

AGENDA REPORT SUMMARY

Agenda Item No. 14.B
Section: DEPARTMENTAL ITEMS - ELECTED & CITY MANAGER'S OFFICES
Meeting Date: December 12, 2023

TO: THE HONORABLE MAYOR AND MEMBERS OF THE GARDENA CITY COUNCIL

AGENDA TITLE: INTRODUCTION OF ORDINANCE NO. 1862, Amending Section 3.24.020 (Delegation of claims authority to city manager) of Chapter 3.24 (Claims and Demands Against the City) of Title 3 (Revenue and Finance) of the Gardena Municipal Code

COUNCIL ACTION REQUIRED:

Staff Recommendation: Introduce Ordinance No. 1862, and Adopt the Ordinance at the next City Council meeting on January 9, 2024.

RECOMMENDATION AND STAFF SUMMARY:

Staff respectfully recommends that the City Council introduce Ordinance No. 1862, and adopt the ordinance at the next City Council meeting on January 9, 2024.

Ordinance No. 1862 proposes an amendment to section 3.24.020 of the Gardena Municipal Code, and is being submitted for City Council's consideration to increase the City Manager's authorization to allow, compromise or settle a claim against the City from the current amount of $25,000 to $50,000.

The last time the City increased City Manager authorization limit was in 2014. In the over nine years since that increase, inflation costs have consistently gone up for everything including; compromise and settlement claims against the City.

Therefore, staff recommends increasing City Manager's authority to allow, compromise, or settle a claim against the City from the current amount of $25,000 to $50,000.

ORDINANCE NO. 1862

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF GARDENA, CALIFORNIA, AMENDING SECTION 3.24.020 (DELEGATION OF CLAIMS AUTHORITY TO CITY MANAGER) OF CHAPTER 3.24 (CLAIMS AND DEMANDS AGAINST THE CITY) OF TITLE 3 (REVENUE AND FINANCE) OF THE GARDENA MUNICIPAL CODE

WHEREAS, Section 3.24.020 of the Gardena Municipal Code, last amended in 2014, currently authorizes the City Manager to allow, compromise, or settle claims in an amount not to exceed twenty-five thousand dollars ($25,000.00); and

WHEREAS, the City Council wishes to increase the City Manager's authority with regard to claims so that claims can be more expeditiously settled;

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF GARDENA, CALIFORNIA, DOES HEREBY ORDAIN, AS FOLLOWS:

SECTION 1. Section 3.24.020 of the Gardena Municipal Code is amended to read, as follows:

3.24.020 Delegation of claims authority to city manager.

A. The City Manager or his designee is authorized and directed to perform, on behalf of the City, all functions relating to claims against the City, in the manner provided in California Government Code section 900 et seq.

B. The City Manager or his designee is authorized to allow, compromise or settle a claim against the City, if the payment thereof does not exceed fifty thousand dollars ($50,000).

SECTION 2. Severability. If any section, subsection, subdivision, paragraph, sentence, clause or phrase of this ordinance, or any part thereof is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portion of this ordinance or any part thereof. The City Council hereby declares that it would have passed each section, subsection, subdivision, paragraph, sentence, clause or phrase thereof, irrespective of the fact that any one or more section, subsection, subdivision, paragraph, sentence, clause or phrase be declared unconstitutional.

SECTION 3. Certification. The City Clerk shall certify the passage of this ordinance and shall cause the same to be entered in the book of original ordinances of said City; shall make a minute passage and adoption thereof in the records of the meeting at which time the same is passed and adopted; and shall, within fifteen (15) days after the passage and adoption thereof, cause the same to be published as

DocuSign Envelope ID: 67AAA7AB-5040-4F4B-B841-54518F58AC75

required by law, in a publication of general circulation.

SECTION 4. Effective Date. This ordinance shall not become effective or be in force until thirty (30) days from and after the date of its adoption.

Passed, approved, and adopted this 9th day of January, 2024.

City of Gardena

Gardena City Council Meeting

AGENDA REPORT SUMMARY

Agenda Item No. 14.C
Section: DEPARTMENTAL ITEMS - ELECTED & CITY MANAGER'S OFFICES
Meeting Date: December 12, 2023

TO: THE HONORABLE MAYOR AND MEMBERS OF THE GARDENA CITY COUNCIL

AGENDA TITLE: INTRODUCTION OF ORDINANCE NO. 1864, Amending Section 2.04.170 of the Gardena Municipal Code Setting the Compensation of the Mayor and Members of the City Council as Authorized by Senate Bill 329

COUNCIL ACTION REQUIRED:

Staff Recommendation: Introduce Ordinance Number 1864 and Adopt the Ordinance at the next City Council meeting on January 9, 2024.

RECOMMENDATION AND STAFF SUMMARY:

State law regulates maximum compensation for councilmembers and when those adjustments can become effective. The compensation schedule for general law cities has not been adjusted since 1984, meaning that city council compensation has not kept pace with inflation. On June 29, 2023, Governor Gavin Newsom signed into law Senate Bill 329 (“SB 329”). The bill allows cities a one-time chance to “reset” city council salaries to take into account inflation, the work done by local government officials, and the need to ensure that people are not discouraged from seeking city office due to the low pay and high demands of that office.

State Senator Dodd (who is the author of SB 329) wrote in introduction this bill:

> "City Councilmembers have one of the hardest jobs in California government. They deal with a wide range of issues, from street maintenance to emergency response duties. And all too often, they do this job with very little financial compensation. No one runs for City Council in order to make money. But the low levels of pay make it much harder for them to balance their careers and personal obligations with the calling to serve their community. The Legislature has not raised the base pay amounts for City Councilmembers since 1984. It's time those amounts caught up to the present economic reality, especially with the rapid increase in inflation we've seen recently. Raising the pay will also make it easier for members of marginalized communities to serve. City Councils should be reflective of the communities they represent and I believe raising their compensation is an important step to achieving that equitable outcome."

The City of Gardena City Council last voted for a Council salary adjustment in 2002. Gardena Municipal Code 2.04.170 sets salaries for City Council Members, including the Mayor at $650

per month. In accordance with Government Code 36516.1, GMC 2.04.170 also provides the Mayor additional compensation in the amount of $300 per month. Gardena City Council salaries have not changed since 2002 (21 years).

SB 329 increased the maximum amount of salary, based upon the population of the city that may be approved by an ordinance passed by the City Council. The new salary amount for City Council Members in Gardena and all other cities of 50,000 to 75,000 population could be $1,600 per month.

The increased limits may be applied any time after January 1, 2024. However, Government Code 36516.5 provides that changes in council compensation do not apply during the term of a councilmember's term of office. Any council salary increase may only take effect when at least one council member begins a new term. Accordingly, should the Council adopt an ordinance to increase the salary, such new salary will not take effect until after the March 2024 election.

SB 329 does not affect Government Code 36516.1, which allows the Council to approve additional compensation for an elected Mayor. There is no set maximum amount for the Mayor's compensation, per Government Code 36516.1. The City Council has the authority to adjust the Mayor's compensation at their discretion at any time.

At the November 14, 2023, city council meeting, staff presented a report on Senate Bill 329 for the City Council's discussion and consideration. At the conclusion of the City Council's discussion on November 14, 2023, the City Council directed staff to bring back an ordinance for further consideration.

Proposed Ordinance Number 1864 has been prepared for introduction to amend Gardena municipal code section 2.04.170, which would increase the compensation of each member of the City Council, including the Mayor from $650 to $1,600 per month as authorized by Government Code Section 36516 and pursuant to Senate Bill 329. In addition, the proposed Ordinance would increase the additional compensation received by the Mayor pursuant to Government Code Section 36516.1 from $300 to $1,000 per month.

FINANCIAL IMPACT/COST:

ORDINANCE NO. 1864

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF GARDENA, CALIFORNIA, AMENDING SECTION 2.04.170 OF THE GARDENA MUNICIPAL CODE SETTING THE COMPENSATION OF THE MAYOR AND MEMBERS OF CITY COUNCIL AS AUTHORIZED BY SENATE BILL 329

WHEREAS, Senate Bill 329 was adopted to "reset" city council salaries to reflect the important work done by city council members, to take into account the impacts of inflation and economic realities on those who serve as city council members, and to encourage more persons to consider service as council members by making the compensation more reflective of the time and work being performed; and

WHEREAS, the City Council has not had an increase in compensation since 2002 therefore its salaries were no longer reflective of the time and effort put forth by an elected official in the City; and

WHEREAS, reasonable council member compensation acknowledges the civic commitment of service and provides an additional incentive for a diverse candidate pool as possible; and

WHEREAS, the City Council reviewed and discussed the value and important impacts of Senate Bill 329 on the future governance of the City and found that it agreed with the intent of the state legislature; and

WHEREAS, under Senate Bill 329, the salaries for the City Council of the City of Gardena may be set at $1,600 per month based on the City's population; and

WHEREAS, pursuant to Government Code section 36516.5, salary increases set forth herein may take effect only when at least one member of the Council commences a new term; and

WHEREAS, SB 329 does not affect Government Code 36516.1, which allows the Council to approve additional compensation for an elected Mayor. The Attorney General has ruled that the prohibition against "mid-term" salary increases applicable to Council Members (pursuant to Government Code Section 36516.5) does not apply to directly-elected Mayors. The additional compensation for performing mayoral duties is not received as "a councilperson." 89 Ops.Cal.Atty.Gen. 159 (2006); and

WHEREAS, the City Council now desires to amend the Gardena Municipal Code relating to the compensation paid to persons elected to serve the people of Gardena as City Councilmembers and Mayor as authorized by state law and pursuant to Senate Bill 329 and Government Code 36516.1.

DocuSign Envelope ID: 0C23611A-100C-4A74-80DA-F65CE831C39E

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF GARDENA, CALIFORNIA, DOES HEREBY ORDAIN, AS FOLLOWS:

SECTION 1. Section 2.04.170 of the Gardena Municipal Code is amended to read, as follows:

2.04.170 Compensation of Mayor and City Council.

A. Pursuant to Government Code Section 36516 each member of the City Council, including the Mayor, shall receive as compensation a salary of one thousand and six hundred dollars ($1,600) per month. That the salary shall become payable only on or after the date upon which one or more members of the City Council become eligible therefore by virtue of beginning a new term of office as provided for in California Government Code Section 36516.5.

B. Pursuant to Government Code Section 36516.1 the Mayor shall receive as compensation an additional one thousand dollars ($1,000) per month.

C. Any amounts paid to the Mayor or members of the City Council for reimbursements pursuant to Government Code section 36514.5 or for retirement and health and welfare benefits shall not be included in determining salary pursuant to this section.

SECTION 2. Severability. If any section, subsection, subdivision, paragraph, sentence, clause or phrase of this ordinance, or any part thereof is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portion of this ordinance or any part thereof. The City Council hereby declares that it would have passed each section, subsection, subdivision, paragraph, sentence, clause or phrase thereof, irrespective of the fact that any one or more section, subsection, subdivision, paragraph, sentence, clause or phrase be declared unconstitutional.

SECTION 3. Certification. The City Clerk shall certify the passage of this ordinance and shall cause the same to be entered in the book of original ordinances of said City; shall make a minute passage and adoption thereof in the records of the meeting at which time the same is passed and adopted; and shall, within fifteen (15) days after the passage and adoption thereof, cause the same to be published as required by law, in a publication of general circulation.

DocuSign Envelope ID: 0C23611A-100C-4A74-80DA-F65CE831C39E

SECTION 4. Effective Date. This ordinance shall not become effective or be in force until thirty (30) days from and after the date of its adoption.

Passed, approved, and adopted this 9th day of January, 2024.

Gardena City Council Meeting

AGENDA REPORT SUMMARY

Agenda Item No. 15.A
Section: DEPARTMENTAL ITEMS - POLICE
Meeting Date: December 12, 2023

TO: THE HONORABLE MAYOR AND MEMBERS OF THE GARDENA CITY COUNCIL

AGENDA TITLE: Authorization to Purchase Seven (7) Patrol Vehicles from National Auto Fleet Group in the Amount of $367,104 and Expend Build-Out Costs in the Amount of $199,127 for a total of $566,231

COUNCIL ACTION REQUIRED:

Staff Recommendation: Authorize Purchase and Build-Out Costs

RECOMMENDATION AND STAFF SUMMARY:

Staff respectfully recommends that the City Council authorize the Police Department to purchase seven (7) new 2024 Dodge Durango Pursuit AWD vehicles from National Auto Fleet Group for a total cost of $367,104 which includes a 10.25% state sales tax and $8.75 tire tax for each vehicle.

The ongoing replacement of capital equipment is necessary to maintain a fleet inventory that is safe, efficient, and reliable. This purchase of seven (7) new patrol vehicles will replace the older vehicles that have reached the end of their useful service life due to age, mileage, and general wear and tear.

National Auto Fleet Group will sell and deliver the new vehicles available under the Sourcewell Master Vehicle Contract #120716, formerly known as the National Joint Powers Alliance (NJPA) contract. The total price for each vehicle, including state sales tax and tire tax, is $52,443. Terms are net 30 days, and delivery is within 120 to 180 days thereafter. Seven (7) vehicles will be assigned to patrol and will be purchased using the City's Vehicle Replacement Fund.

The total build-out costs for outfitting the vehicles with the necessary South Bay Regional Public Communications Authority (SBRPCA) equipment is approximately $28,447 for each of the seven (7) patrol vehicles. The total cost of the buildouts is $199,127.

FINANCIAL IMPACT/COST:

Fiscal Year 2023-2024- $566,231 using the City's Vehicle Replacement Fund

City of Gardena
City Council Meeting

Agenda Item No.:
Department: Police
Meeting Date: December 12, 2023

AGENDA STAFF REPORT

AGENDA TITLE: AUTHORIZATION TO PURCHASE SEVEN (7) PATROL VEHICLES FROM NATIONAL AUTO FLEET GROUP IN THE AMOUNT OF $367.103.89 AND EXPEND BUILD-OUT COSTS IN THE AMOUNT OF $199,126.69.

RECOMMENDATION:

Staff respectfully recommends that Council authorize the Police Department to purchase seven (7) new 2024 Dodge Durango Pursuit AWD vehicles from National Auto Fleet Group at a total cost of $367,103.89, including a 10.25% state sales tax and an $8.75 tire tax per vehicle. Staff also requests Council authorization to expend the vehicle buildouts in the total amount of $199,126.69.

BACKGROUND:

In 2014, the Police Department transitioned our Police fleet to Police Interceptors. Unfortunately, Ford will not have any Police Interceptors available in 2024, due to their strike and backlog of vehicles owed to government contracts. The only Police vehicles available to order for this fiscal budget is the Dodge Durango Pursuit. The Dodge is the closest in vehicle similarity as the Ford Explorer.

The ongoing replacement of capital equipment is necessary to maintain a fleet inventory that is safe, efficient, and reliable. This purchase of seven new patrol vehicles will replace the older vehicles that have reached the end of their useful service life due to age, mileage, and general wear and tear. Currently, the Police Department has thirty-one (31) black-and-white patrol vehicles in the fleet, with a plan to replace five units per year through the Vehicle Replacement Fund. This year we are requesting seven (7) vehicles due to the scarcity of police vehicles in the market, the need to replace older vehicles, and two (2) vehicles damaged beyond repair. The two (2) totaled vehicles (P11 and GT1) were damaged, beyond repair, due to the actions of "at fault" suspects in Police related incidents.

Police Department staff obtained a quote via National Auto Fleet Group for seven (7) new 2024 Dodge Durango Pursuit AWD vehicles. The total cost of each vehicle, including state sales tax and tire tax, is $52,443.41 for each patrol unit. These vehicles are available

under the Sourcewell Master Vehicle Contract #09-1521-NAF, formerly known as the National Joint Powers Alliance (NJPA) contract. The seven (7) new Dodge Durango Pursuit vehicles will replace seven (7) older Police Interceptors that are currently in service or have been damaged beyond repair.

South Bay Regional Public Communications Authority is our local vendor for vehicle buildouts. The quoted price of an entirely new vehicle setup is $28,446.67 per patrol vehicle, resulting in a total build-out cost of $199,126.69.

Over the years, SBRPCA staff have worked to find the most reasonable prices on equipment that we purchase through them. However, due to us switching to Dodge Durango vehicles this year, due to the unavailability of Ford vehicles for the 2024 year, we will have to purchase all new parts for the build-outs. The price per vehicle build-out is listed below.

P-5	$28,446.67
P-7	$28,446.67
P-9	$28,446.67
P-11	$28,446.67
P-12	$28,446.67
P-20	$28,446.67
GT1	$28,446.67
Total:	**$199,126.69**

The City can take advantage of the Sourcewell Master Vehicle Contract and purchase the Dodge Durango Pursuit at a discount. MSRP for the vehicles is $49,825.00 each or a total cost of $348,775.00 for seven (7). Because of the Sourcewell Master Vehicle Contract, each of the police units will cost $47,265.00 or a total of $330,855.00, a savings of $17,920.00.

The seven (7) Ford Police Interceptor vehicles that are being replaced will have their police-related equipment removed and then sent to auction. Some of the recycled equipment is not reusable in the new patrol vehicles, as they have become incompatible with the length and width of the new police models.

CONCLUSION:

Staff respectfully recommends that the City Council approve the purchase and build-out costs for seven (7) new 2024 Dodge Durango Pursuit AWD vehicles.

Gardena City Council Meeting

AGENDA REPORT SUMMARY

Agenda Item No. 16.A
Section: DEPARTMENTAL ITEMS - PUBLIC WORKS
Meeting Date: December 12, 2023

TO: THE HONORABLE MAYOR AND MEMBERS OF THE GARDENA CITY COUNCIL

AGENDA TITLE: Award Construction Contract for the Gardena Community Aquatic and Senior Center Project, JN 978, to New Dynasty Construction Company, in the amount of $16,870,644. Additionally Approve the Project Plans & Specifications, $34,675 Additional Services Agreement with RJM Design Group, $195,340 Additional Services Agreement with Griffin Structures, 10% of Project Contingency, and Budget Appropriation of $6,206,867 from General Fund Reserve.

COUNCIL ACTION REQUIRED:

Staff Recommendations:

- **Award Construction Contract**
- **Approve Project Plans & Specifications**
- **Approve Additional Design Services**
- **Approve Additional Construction Administration Services**
- **Approve Project Contingency**
- **Approve Additional Budget Appropriation**

RECOMMENDATION AND STAFF SUMMARY:

In March 2022, the City Council approved the conceptual design and to proceed with the final design and construction document phase for the Gardena Community Aquatic and Senior Center Project. All approved conceptual design elements have been retained, and additionally incorporated the photovoltaic infrastructure, Audio & Visual (A&V), and key card security systems into the construction documents.

The proposed Senior Center, spanning approximately 12,000 square feet on two levels, incorporates the programs identified in the grant application, community outreach, and the conceptual design development phase. The Senior Center will feature a reception/lobby, restroom, conference room, office, breakroom, storage room, and kitchen/pantry. Additionally, shared use program rooms, a study lounge, balcony, custodial and IT/electrical rooms will be available. The building will be equipped with fiber optic communication capability, an audiovisual system, security key cards, and photovoltaic system.

The new Aquatic Center will encompass 7,020 square feet and will include a 25-yard, 8-lane, ¾-meter diving stand, and pool exercise/leisure area. The Aquatic Center will feature a main entrance, outdoor showers, bleacher seating, seat walls, shade structures, a pool

equipment/mechanical room, and pool storage. The outdoor courtyard will accommodate exercise stations, ADA accessible drinking fountain, picnic tables, site lighting and furnishings, tree and shrub planting, irrigation, hardscape paving, walls, barbecue grill and lawn area, and ADA parking stalls, utility service lines and all other incidental elements.

In September 2021, the City Council selected the architectural firm RJM Design Group to develop design and construction documents for the project. Over the past 24 months, staff has been collaborating with RJM to prepare the construction documents, obtain all jurisdictional plan check approvals, complete the demolition, and relocate the franchise utility lines.
Initially, the prequalified contractor method was utilized, and bids were obtained on September 5, 2023, in the amount of $19,784,000 (Swinerton) and $21,487,701 (Morillo). The bids were approximately 40% higher than the Architect's estimate. Therefore, the City Council rejected all bids and the prequalified contractor list for the project and directed that the project be re-bid on the open market with modified requirements.

Subsequently, the Project Plans and Specifications have been modified to reduce the contractor's minimum requirements, amended to include all the Request for Information (RFI) and addenda responses from the previous bid process. Additionally, the photovoltaic, Audio/Visual/Telecommunication/Security scopes have been modified to be constructed per plan in-lieu of design and build in an effort to reduce the construction cost.

In October 2023, the revised Project Plans and Specifications were published as a bid request in CR Planwell, Gardena Valley News, and the City's website. The following two (2) bids were received on November 21, 2023:

1.	New Dynasty Construction Co., Tustin CA	$16,870,644
2.	Morillo Construction, Inc., Pasadena CA	$18,425,000

The New Dynasty Construction Company submitted the lowest responsive bid, $2,913,356 less than the previously rejected low bid in September 2023. The contractor holds a state contractor license and possesses verified successful construction experience in projects of a comparable nature. The general contractor was required to have a minimum of three (3) comparable project experience, each with a value of at least $5M. Two (2) of these projects specifically required construction of public-use aquatic centers and two-story buildings within the last 10 years.

Furthermore, the pool subcontractor was required to have a proven track record of a minimum of three (3) commercially designed municipal and/or public-use swimming pools within the last 10 years. Each of these pools must have incorporated a minimum size of 4,000 square feet of water surface area.

Established in 2011, New Dynasty Construction Co. is a general building and engineering

contractor with focus on a large and broad category across local, state, and federal infrastructure projects such as municipal buildings, education, health, recreation facilities and has completed 30 public projects.

The project is expected to commence construction in early March 2024 and is anticipated to be substantially complete by March 2025, pending inclement weather and material lead times. Staff respectfully recommends that the City Council award construction contract for the Gardena Community Aquatic and Senior Project, JN 978, to New Dynasty Construction, Company in the amount of $16,870,644 and additionally:

- Approve the plans and specifications.
- Approve $34,675 for RJM Design Group to compensate the amended scope of photovoltaic, A&V and key card security systems.
- Approve an additional $195,340 for construction administration services with Griffin Structures to amend the specialized deputy inspection services as required by the Community Development Department permits. These special inspection services include tasks such as concrete, shotcrete, masonry, structural steel welding, bolting at the fabrication plant, etc. The payments to be under Time-and-Materials (T&M) and Labor-Hour services as needed.
- Approve 10% of construction award amount, $1,690,000 to be utilized as a contingency for construction and/or consultant support services.
- Approve an additional budget appropriation of $6,206,867 from General Fund Reserve to complete the project.

GENERAL NOTES:

1. THE CONTRACTOR SHALL VERIFY ALL DIMENSIONS AND CONDITIONS BEFORE STARTING WORK.
2. THE ENGINEER DOES NOT WARRANT THE ACCURACY OF SCALED DIMENSIONS ON ANY PLAN. ALL DIMENSIONS SHALL BE AS DESIGNATED ON THE PLANS. THE CONTRACTOR SHALL PROTECT ALL PUBLIC AND PRIVATE PROPERTY
3. DURING THE PERFORMANCE OF WORK DONE UNDER THE CONTRACT, THE CONTRACTOR SHALL TAKE THE NECESSARY PRECAUTIONS TO AVOID ANY DAMAGE TO ANY STRUCTURES ADJACENT TO THE PROJECT BOUNDARIES.
4. EXISTING UTILITIES SHOWN ARE BASED ON AVAILABLE RECORDS OF PARENT UTILITY COMPANIES AND MAY NOT ACCURATELY REPRESENT THEIR ACTUAL LOCATIONS. PRIOR TO BEGINNING ANY CONSTRUCTION, THE CONTRACTOR SHALL VERIFY THE ACTUAL LOCATIONS (VERTICAL AND HORIZONTAL) OF ALL UTILITIES, IN THE FIELD OR COORDINATE SUCH INDEPENDENT VERIFICATION WITH THE PARENT UTILITY COMPANIES AND PROVIDE THE CITY WITH THE POTHOLE INFORMATION. THE CONTRACTOR SHALL PROTECT IN PLACE OR COORDINATE WITH PARENT COMPANY FOR THE RELOCATION OF CONFLICTING UTILITIES ENCOUNTERED DURING CONSTRUCTION.
5. ADJUST UTILITY VALVE COVERS, UTILITY BOXES, TRAFFIC SIGNAL BOXES, ETC. TO FINISH GARDE. PAYMENT SHALL BE INCLUDED IN THE APPLICABLE CONSTRUCTION BID ITEM AND REFER TO CONSTRUCTION NOTE AND/OR SPECIFICATIONS.
6. PROVIDE TRAFFIC CONTROL PER TECHNICAL PROVISIONS.
7. ALL SURVEY CENTERLINE TIES AND MONUMENTS THAT ARE DAMAGED OR REMOVED SHALL BE RE-ESTABLISHED. THE SURVEYOR SHALL ALSO ESTABLISH CENTERLINE MONUMENTS AND TIES AT ALL STREET INTERSECTIONS WITHIN THE PROJECT LIMITS WHERE NONE EXISTED PRIOR TO CONSTRUCTION. SEE TECHNICAL PROVISIONS.
8. 24 HOUR NOTICE FOR ALL INSPECTIONS REQUIRED.
9. CONTRACTORS SHALL REMOVE AND DISPOSE OF ALL TRASH AND BROKEN BRANCHES BEFORE AND AFTER PAVING.
10. PRIOR TO CUTTING OF ANY ROOTS, CALL PARKS DIVISION AT (310) 217-9564 FOR APPROVAL.
11. CONTRACTOR SHALL BE RESPONSIBLE FOR COORDINATION, OBTAINING NECESSARY APPLICABLE PERMITS WITH LOCAL AGENCIES AND OTHER OWNERS HAVING JURISDICTION AND PREPARING REQUIRED DOCUMENTATION NECESSARY FOR PERMITTING.
12. PROTECT ALL STORM DRAINS, CATCH BASINS, ETC. WITH SAND BAGS, FABRIC, AND OTHER APPROPRIATE BEST MANAGEMENT PRACTICES PER PROJECT SWPPP.
13. THE CONTRACTOR SHALL NOTIFY UNDERGROUND SERVICE ALERT (USA) AT 1-800-422-4133 TWO WORKING DAYS PRIOR TO ANY EXCAVATION WORK.
14. THE CITY OF GARDENA BUILDING DIVISION ENFORCES CBC CHAPTER 11B FOR DISABLED ACCESS COMPLIANCE AND DOES NOT REVIEW OR APPROVE PLANS FOR ADA COMPLIANCE. REFERENCE CBC CHAPTER 11B.

PROJECT INFORMATION:

PROJECT AREA: 32,450 S.F. (0.74 ± ACRES)

AREA DISTURBED: 41,380 S.F. (0.95 ± ACRES)

CUT: 850 CUBIC YARDS

FILL: 1,200 CUBIC YARDS

LEGAL DESCRIPTION:

A PORTION OF LOT 21 OF TRACT NO. 10901, IN THE CITY OF GARDENA, COUNTY OF LOS ANGELES, STATE OF CALIFORNIA, AS PER MAP RECORDED IN BOOK 254 PAGES 31 AND 32 OF MAPS, IN THE OFFICE OF THE COUNTY RECORDER OF SAID COUNTY.

AND

LOTS 11 AND 12 OF TRACT NO. 10901, IN THE CITY OF GARDENA, COUNTY OF LOS ANGELES, STATE OF CALIFORNIA, AS PER MAP RECORDED IN BOOK 254, PAGES 31 AND 32 OF MAPS, IN THE OFFICE OF THE COUNTY RECORDER OF SAID COUNTY.

DEFERRED SUBMITTALS:

1. ELEVATOR GUIDE RAILS AND SUPPORT BRACKETS AS DESCRIBED ON PLANS AND IN SPECIFICATIONS
2. FIRE SPRINKLER SYSTEM AS DESCRIBED ON PLANS AND IN SPECIFICATIONS
3. FIRE ALARM SYSTEM AS DESCRIBED ON PLANS AND IN SPECIFICATIONS
4. ROOF ACCESS LADDER AS DESCRIBED ON PLANS AND IN SPECIFICATIONS
5. SEISMIC BRACING OF PLUMBING PIPE AS DESCRIBED ON PLANS AND IN SPECIFICATIONS
6. SHORING PLANS AS DESCRIBED ON PLANS AND IN SPECIFICATIONS
7. BLEACHERS AS DESCRIBED ON PLANS AND IN SPECIFICATIONS

NOTE:

INSTALLATION OF DEFERRED SUBMITTAL ITEMS SHALL NOT BE STARTED UNTIL DETAILS, PLANS, AND SPECIFICATIONS ARE APPROVED BY THE OWNER AND BUILDING DEPARTMENT. ALLOW 30 DAYS FOR OWNER REVIEW. THE PLANS AND SPECIFICATIONS SHALL FIRST BE REVIEWED AND SIGNED BY THE LANDSCAPE ARCHITECT BEFORE SUBMITTAL TO THE OWNER FOR REVIEW. CONTRACTOR TO SCHEDULE DEFERRED APPROVAL SUBMITTALS WELL IN ADVANCE TO ALLOW FOR BOTH ARCHITECT AND OWNER REVIEW.

STATEMENTS:

ENGINEER OF RECORD:

ALL EASEMENTS SHOWN ON THIS PLAN ARE BASED ON PRELIMINARY TITLE REPORTS BY FIDELITY NATIONAL TITLE CO. (ORDER NO. 987-30076643-1RV, DATED OCT. 28, 2021), LAWYERS TITLE (FILE NO. 2182547649, DATED SEPT. 7, 2018), AND FIDELITY NATIONAL TITLE CO. (ORDER NO. 989-30033538-D-DL1, DATED FEB. 9, 2021).

THESE PLANS AND SPECIFICATIONS, AND COPIES THEREOF, AS INSTRUMENTS OF SERVICE, ARE AND SHALL REMAIN THE PROPERTY OF RJM DESIGN GROUP, INC. THEY ARE NOT TO BE USED IN WHOLE OR IN PART FOR ANY OTHER PROJECT WITHOUT THE WRITTEN AUTHORIZATION OF RJM DESIGN GROUP, INC.

GENERAL NOTES:

A. ALL WORK SHALL BE DONE IN ACCORDANCE WITH THE APPLICABLE SECTIONS OF THE 2021 "GREENBOOK" STANDARD SPECIFICATIONS FOR PUBLIC WORKS CONSTRUCTION, 2016 EDITION OF APWA STANDARD PLANS AND SPECIFICATIONS FOR PUBLIC WORKS CONSTRUCTION AND STATE STANDARD SPECIFICATIONS, CALIFORNIA BUILDING CODE, CALIFORNIA PLUMBING CODE, CALIFORNIA, CALIFORNIA MECHANICAL CODE, CALIFORNIA ENERGY CODE, CALIFORNIA GREEN BUILDING STANDARD CODE, ALL SAFETY ORDERS OF THE STATE INDUSTRIAL COMMISSION, TITLE 3, RULES AND REGULATIONS OF THE NATIONAL BOARD OF FIRE UNDERWRITING, STATE OF CALIFORNIA TITLE 24, SECTION T-20-1401 THROUGH T-20-1406, AND TITLE 20, SECTION 1401-1406 ENERGY REGULATIONS, AND CALGREEN,

B. THE DESIGN ADEQUACY AND SAFETY OF EXCAVATION, ERECTION, BRACING, SHORING, TEMPORARY SUPPORTS, ETC., IS THE SOLE RESPONSIBILITY OF THE CONTRACTOR, AND HAS NOT BEEN CONSIDERED BY THE LANDSCAPE ARCHITECT OR CONSULTANTS. THE CONTRACTOR IS RESPONSIBLE FOR PROVIDING THE NECESSARY SAFETY PRECAUTIONS AND MEASURES NECESSARY TO EXECUTE THE WORK. OBSERVATION VISITS TO THE SITE BY THE LANDSCAPE ARCHITECT OR ANY OF HIS/HER CONSULTANTS SHALL NOT INCLUDE INSPECTION OF THE ABOVE ITEMS.

C. DO NOT WILLFULLY PROCEED WITH CONSTRUCTION AS DESIGNED WHEN IT IS OBVIOUS THAT UNKNOWN AND / OR GRADE DIFFERENCES EXIST THAT MAY NOT HAVE BEEN KNOWN DURING DESIGN. SUCH CONDITIONS SHALL BE IMMEDIATELY BROUGHT TO THE ATTENTION OF THE OWNER'S REPRESENTATIVE.

D. THE CONTRACTOR SHALL NOTIFY THE OWNER'S ENGINEER TWO (2) WORKING DAYS PRIOR TO START OF CONSTRUCTION.

E. IT SHALL BE THE CONTRACTOR'S RESPONSIBILITY TO CONDUCT HIS OPERATIONS IN SUCH A MANNER SO AS TO PREVENT DAMAGE TO EXISTING SUBSTRUCTURES. IN THE EVENT OF SUBSTRUCTURE DAMAGE, THE CONTRACTOR SHALL BEAR FULL RESPONSIBILITY AND TOTAL EXPENSE FOR REPAIR AND / OR REPLACEMENT OF SAID SUBSTRUCTURE.

F. THE CONTRACTOR SHALL PROVIDE 72-HOUR NOTICE TO AFFECTED UTILITIES WHEN RELOCATION IS REQUIRED.

G. WORKING HOURS SHALL BE IN ACCORDANCE WITH THE SECTION OF THE SPECIFICATIONS AS DETERMINED BY OWNER.

H. THE CONTRACTOR SHALL NOT BLOCK DRIVEWAYS, PEDESTRIAN ACCESS, ACCESSIBLE ROUTES, OR VEHICULAR TRAFFIC DURING THE PROCESS OF CONSTRUCTION.

I. THE CONTRACTOR SHALL BE RESPONSIBLE FOR TRAFFIC CONTROL IN THE PUBLIC RIGHT OF WAY AND NEW DRIVE AISLES IN ACCORDANCE WITH ALL APPLICABLE CODES.

J. THE CONTRACTOR WILL COMPLY TO CA-MUTCD WATCH MANUAL DURING CONSTRUCTION.

K. CONTRACTOR SHALL NOTIFY UNDERGROUND SERVICE ALERT BEFORE START OF CONSTRUCTION (811).

L. THE CONTRACTOR SHALL BE RESPONSIBLE FOR ALL EROSION CONTROL DURING CONSTRUCTION AND MAINTENANCE PERIOD.

M. THE CONTRACTOR SHALL BE RESPONSIBLE FOR INSTALLING A 6' HIGH TEMPORARY CHAINLINK CONSTRUCTION FENCE WITH LOCKABLE GATES AROUND ALL CONSTRUCTION AREAS. FENCING SHALL BE PROVIDED WITH CONTINUOUS GREEN MESH WINDSCREEN. CONTRACTOR SHALL REVIEW ALIGNMENT / LOCATION OF CONSTRUCTION FENCING WITH OWNER'S REPRESENTATIVE FOR APPROVAL PRIOR TO CONSTRUCTION. CONTRACTOR SHALL MAINTAIN FENCING UNTIL OWNER'S ACCEPTANCE OF THE WORK. OR CONTRACTOR MAY CONTINUE TO USE AND TAKE OWNERSHIP OF THE EXISTING TEMPORARY CHAINLINK FENCE, AND REMOVE AND DISPOSE THEM AT THE FINAL CONSTRUCTION.

N. CONTRACTOR SHALL BE RESPONSIBLE FOR SECURING ALL NECESSARY PERMITS AND APPLICABLE FEES.

O. MAINTAIN SANITARY TOILET FACILITIES DURING CONSTRUCTION AS REQUIRED BY APPLICABLE REGULATIONS.

P. THE GENERAL CONTRACTOR WARRANTS TO THE OWNER AND THE LANDSCAPE ARCHITECT THAT ALL MATERIALS AND EQUIPMENT FURNISHED WILL BE NEW UNLESS OTHERWISE SPECIFIED, AND THAT ALL WORK WILL BE OF GOOD QUALITY, FREE FROM FAULTS AND DEFECTS.

Q. PAVING, MASONRY AND CONCRETE SUBCONTRACTORS ARE TO COORDINATE WITH THE ELECTRICIAN, DRAINLINE SUBCONTRACTOR AND IRRIGATION SUBCONTRACTOR FOR SLEEVING, PIPING AND/OR CONDUIT INSTALLATION UNDER OR THROUGH HARDSCAPE ELEMENTS. ALL WORK SHALL BE COORDINATED BY THE GENERAL CONTRACTOR.

R. VERIFY ALL EASEMENTS, PROPERTY LINES OR LIMIT OF WORK LINES PRIOR TO COMMENCING WORK.

S. IN THE CASE OF DISCREPANCIES IN THE DRAWINGS, SPECIFICATIONS SHALL TAKE PRECEDENCE OVER DETAILS, AND DETAILS SHALL TAKE PRECEDENCE OVER PLANS.

T. SUBSTITUTIONS MUST BE APPROVED IN WRITING BY THE OWNER. SEE SPECIFICATIONS.

U. THE CONTRACT DRAWINGS AND SPECIFICATIONS REPRESENT THE FINISHED PROJECT UNLESS OTHERWISE SHOWN; THEY DO NOT INDICATE THE METHOD OF CONSTRUCTION. THE GENERAL CONTRACTOR SHALL SUPERVISE AND DIRECT THE WORK, AND SHALL BE SOLELY RESPONSIBLE FOR ALL CONSTRUCTION MEANS, METHODS, TECHNIQUES, SEQUENCES AND PROCEDURES. OBSERVATION VISITS TO THE SITE BY FIELD REPRESENTATIVES OF THE LANDSCAPE ARCHITECT AND THEIR CONSULTANTS SHALL NOT INCLUDE INSPECTIONS OF THE PROTECTIVE MEASURES OR THE CONSTRUCTION PROCEDURES REQUIRED FOR SAME, WHICH ARE THE SOLE RESPONSIBILITY OF THE GENERAL CONTRACTOR. ANY SUPPORT SERVICES PERFORMED BY THE LANDSCAPE ARCHITECT AND HIS CONSULTANTS DURING CONSTRUCTION SHALL BE DISTINGUISHED FROM CONTINUOUS AND DETAILED INSPECTION SERVICES, WHICH ARE FURNISHED BY OTHERS. THESE SUPPORT SERVICES PERFORMED BY THE LANDSCAPE ARCHITECT AND HIS CONSULTANTS, WHETHER OF MATERIALS OR WORK, AND WHETHER PERFORMED PRIOR TO, DURING OR AFTER COMPLETION OF CONSTRUCTION, ARE PERFORMED SOLELY FOR THE PURPOSE OF ASSISTING IN QUALITY CONTROL AND IN ACHIEVING CONFORMANCE WITH CONTRACT DRAWINGS AND SPECIFICATIONS BUT THEY DO NOT GUARANTEE GENERAL CONTRACTOR'S PERFORMANCE, AND SHALL NOT BE CONSTRUED AS SUPERVISION OF CONSTRUCTION.

V. CONSTRUCTION ACTIVITIES SHALL NOT INTERFERE WITH ADJACENT EXISTING CONDITIONS. EXISTING SIDEWALKS/BIKEWAYS SHALL REMAIN ACCESSIBLE TO THE PUBLIC THROUGH THE DURATION OF CONSTRUCTION. ALL NECESSARY PROVISIONS SHALL BE MADE TO PROTECT THE SAFETY OF THE GENERAL PUBLIC.

W. DO NOT SCALE THESE DRAWINGS.

NOTICE TO CONTRACTOR:

A. THE CONTRACTOR SHALL BE RESPONSIBLE FOR EXAMINING THE SITE PRIOR TO MOBILIZATION AND THE BEGINNING OF CONSTRUCTION. ANY EXISTING ELEMENTS TO BE PROTECTED IN PLACE, WHICH SHOW ANY TYPE OF DAMAGE (E.G. CRACKED CONCRETE, DAMAGE TO TREES, ETC.), SHOULD BE BROUGHT TO THE ATTENTION OF THE city. OTHERWISE, CONTRACTOR MAY BE HELD RESPONSIBLE FOR REPAIRING OR REPLACING ANY DAMAGED EXISTING ELEMENTS-TO-REMAIN AT HIS EXPENSE.

B. A DIGITAL FILE OF THE HORIZONTAL CONTROL INCLUDING HARDSCAPE WALKWAYS AND PARKING WILL BE PROVIDED TO THE CONTRACTOR PRIOR TO THE START OF CONSTRUCTION TO ASSIST THE SURVEYOR IN THE LAYOUT OF THESE AREAS AND THE PREPARATION OF THE STAKING PLAN.

C. EXISTING UTILITIES WERE OBTAINED FROM OWNER AND AGENCY RECORDS - NOT 'AS BUILT' DRAWINGS. CONTRACTOR MUST POTHOLE AND HAND EXCAVATE WHEN COMPLETING ANY SUB-SURFACE WORK, RELOCATE, LOWER, OR REALIGN ANY UTILITY ENCOUNTERED. MINIMUM DEPTH OVER NEW OR RELOCATED UTILITY IS 24". THE CONTRACTOR SHALL ASCERTAIN THE TRUE VERTICAL AND HORIZONTAL LOCATION AND SIZE OF ANY UNDERGROUND UTILITIES AND SHALL BE RESPONSIBLE FOR DAMAGE TO ANY PUBLIC OR PRIVATE UTILITIES, SHOWN OR NOT SHOWN HEREON.

D. CONTRACTOR SHALL VERIFY ALL CONDITIONS AND DIMENSIONS AT THE JOB SITE AND NOTIFY THE LANDSCAPE ARCHITECT OR HIS REPRESENTATIVE OF ANY DIMENSIONAL ERRORS, OMISSIONS, OR DISCREPANCIES BEFORE BEGINNING OR FABRICATING ANY WORK.

E. DO NOT SCALE THESE DRAWINGS.

SURVEY RESPONSIBILITY NOTES:

A. NOTE: CONTRACTOR SHALL BE SOLELY RESPONSIBLE FOR PROVIDING COMPLETE, TIMELY AND ACCURATE FIELD LAYOUT OF THE PROPOSED SITE IMPROVEMENTS INCLUDING, BUT NOT NECESSARILY LIMITED TO, HORIZONTAL AND VERTICAL CONTROL AND DIMENSIONAL COORDINATION AS NECESSARY TO CONSTRUCT THE WORK IN ACCORDANCE WITH THE CONTRACT DOCUMENTS. REFER TO SHEET C-4.01 FOR THE HORIZONTAL CONTROL PLAN. FOR VERTICAL CONTROL, REFER TO THE BENCHMARK. THIS SURVEY WORK SHALL BE PERFORMED BY OWNER'S DESIGNATED REPRESENTATIVE AND SHALL PROVIDE FOR THE SURVEY AND STAGING OF ALL CONSTRUCTION ELEMENTS AS INDICATED IN PLANS.

B. AN AUTOCAD-COMPATIBLE .DWG FILE OF THE PROPOSED IMPROVEMENTS SHALL BE PROVIDED TO THE CONTRACTOR PRIOR TO THE START OF CONSTRUCTION FOR USE IN PREPARING THE NECESSARY FIELD SURVEYING / LAYOUT OF PROPOSED IMPROVEMENTS BY THE OWNER'S AUTHORIZED REPRESENTATIVE. THE USE OF THIS DIGITAL FILE SHALL BE THE SOLE RESPONSIBILITY OF THE CONTRACTOR AND IS INTENDED TO ASSIST THE SURVEYOR IN THE LAYOUT OF THE PROPOSED IMPROVEMENTS.

C. THESE ELECTRONIC FILES ARE NOT CONSTRUCTION DOCUMENTS. DIFFERENCES MAY EXIST BETWEEN THESE ELECTRONIC FILES AND CORRESPONDING HARD COPY CONSTRUCTION DOCUMENTS ISSUED FOR PUBLIC BID. IN THE EVENT THAT A CONFLICT ARISES BETWEEN THE SIGNED OR SEALED HARD COPY CONSTRUCTION DOCUMENTS AND THE ELECTRONIC FILES, THE SIGNED OR SEALED HARD COPY CONSTRUCTION DOCUMENTS SHALL GOVERN. THE CONTRACTOR IS RESPONSIBLE FOR DETERMINING IF ANY CONFLICT EXISTS AND SHALL BRING ANY DISCREPANCIES TO THE PROJECT LANDSCAPE ARCHITECT'S ATTENTION PRIOR TO ANY FIELD LAYOUT. BY THE CONTRACTOR'S USE OF THESE ELECTRONIC FILES, THEY ARE NOT RELIEVED OF THEIR DUTY TO FULLY COMPLY WITH THE CONTRACT DOCUMENTS, INCLUDING, AND WITHOUT LIMITATION, THE NEED TO CHECK, CONFIRM, AND COORDINATE ALL DIMENSIONS AND DETAILS, TAKE FIELD MEASUREMENTS, VERIFY FIELD CONDITIONS, AND COORDINATE THE WORK WITH THAT OF OTHER CONTRACTORS FOR THE PROJECT.

D. THE DIGITAL INFORMATION PROVIDED BY RJM DESIGN GROUP, INC. SHALL NOT BE USED FOR ANY PURPOSE OTHER THAN FOR THE PROJECT DESCRIBED ABOVE AND SHALL NOT BE RELEASED TO ANY OTHER PARTY WITHOUT THE WRITTEN CONSENT OF RJM DESIGN GROUP, INC. THE INFORMATION CONTAINED ON THE ELECTRONIC MEDIA IS AN INSTRUMENT OF PROFESSIONAL SERVICES AND SHALL REMAIN THE PROPERTY OF RJM DESIGN GROUP, INC.

E. PROJECT SURVEYOR: STARLIGHT SURVEYING
SURVEYOR ADDRESS: 17955 SKY PARK CIR, SUITE F, IRVINE, CA 92614
SURVEYOR NAME: TED KRULL
LICENSE NO.: PLS 5848
SURVEY NAME/NO: AMC 21-266
SURVEY DATE: NOV. 2021 & JAN. 2022

F. THE CONTRACTOR IS REQUIRED TO LOCATE AND TIE OUT SURVEY MONUMENTS IN THE PROJECT AREA PRIOR TO CONSTRUCTION. SEE SPECIFICATION SECTION 3-10.4, PERMANENT SURVEY MARKERS FOR FURTHER DETAILS.

ADA ACCESSIBLE ROUTE NOTES

* SEE ADDITIONAL COUNTY OF LOS ANGELES ACCESSIBILITY GENERAL NOTES - SHEET T-1.04

A. ACCESSIBLE ROUTE AS INDICATED IS A BARRIER-FREE ACCESS ROUTE WITHOUT ANY ABRUPT VERTICAL CHANGES EXCEEDING ¼" BEVELED AT 2 HORIZONTAL : 1 VERTICAL MAXIMUM SLOPE, EXCEPT THAT LEVEL CHANGES DO NOT EXCEED ¼" VERTICAL AND IS AT LEAST 48" WIDE. SURFACE IS SLIP RESISTANT, STABLE, FIRM AND SMOOTH. CROSS-SLOPE DOES NOT EXCEED 2% AND SLOPE IN THE OF TRAVEL IS LESS THAN 5% UNLESS OTHERWISE INDICATED. (P.O.T.) SHALL BE MAINTAINED FREE OF OVERHANGING OBSTRUCTIONS TO 80" MINIMUM (11B-307.4) AND PROTRUDING OBJECTS GREATER THAN 4" PROJECTION FROM WALL AND ABOVE 27" AND LESS THAN 80" (11B-204/11B-307). THE CONTRACTOR SHALL VERIFY THAT ALL BARRIERS IN THE PATH OF TRAVEL HAVE BEEN REMOVED OR WILL BE REMOVED UNDER THIS PROJECT, AND PATH OF TRAVEL COMPLIES WITH CBC 11B-206.

B. GATES AT PATH OF TRAVEL MUST COMPLY WITH EXIT DOOR REQUIREMENT (CBC SECTION 1010). GATES IN THE PATH OF TRAVEL SHALL HAVE PANIC HARDWARE.

C. PROVIDE DIRECTIONAL SIGNS TO IDENTIFY AN APPARENT AND CONVENIENT PATH OF TRAVEL FOR PERSONS WITH DISABILITIES. LOCATION OF ALL DIRECTIONAL SIGNS IS INDICATED ON THIS PLAN. SIGNS TO COMPLY WITH SECTION 11B-216.3 / 11B-703.

D. SURFACE SLOPES OF ACCESSIBLE PARKING SPACES SHALL BE THE MINIMUM POSSIBLE AND SHALL NOT EXCEED ONE UNIT VERTICAL TO 50-UNITS HORIZONTAL (2-PERCENT SLOPE) IN ANY DIRECTION (11B-502.4).

E. RAMP SHALL NOT ENCROACH INTO ANY ACCESSIBLE PARKING SPACE OR THE ADJACENT ACCESS AISLE. THE MAXIMUM CROSS SLOPE IN ANY DIRECTION OF AN ACCESSIBLE PARKING SPACE AND ADJACENT ACCESS AISLE SHALL NOT EXCEED 2 PERCENT (1109A.8.2).

F. PROVIDE A BUMPER OR CURB IN EACH PARKING AREA TO PREVENT ENCROACHMENT OF CARS OVER THE REQUIRED WIDTH OF WALKWAYS (11B-502.7.2).

G. PROVIDE A CONTINUOUS COMMON SURFACE FOR WALKS AND SIDEWALKS, NOT INTERRUPTED BY STEPS OR BY ABRUPT CHANGES IN LEVEL EXCEEDING 1/2". (11B-403) SHOULD CHANGE NOT EXCEEDING 1/2" OCCUR, THEY SHALL BE BEVELED WITH A SLOPE NO GREATER THAN ONE UNIT VERTICAL TO 2 UNITS HORIZONTAL (50 PERCENT), EXCEPT THAT LEVEL CHANGES NOT EXCEEDING 1/4" MAY BE VERTICAL (11B-403.4, FIG 11B-303.2 & 11B-303.3).

H. PROVIDE A CURB RAMP FOR ABRUPT CHANGES IN LEVEL GREATER THAN 1/2" (11B-303.4).

I. WALK AND SIDEWALK SURFACE CROSS SLOPES SHALL NOT EXCEED 1/4" PER FOOT (11B-403.3).

J. WALKS, SIDEWALKS, AND PEDESTRIAN WAYS SHALL BE FREE OF GRATINGS WHENEVER POSSIBLE. FOR GRATINGS LOCATED IN THE SURFACE OF ANY OF THESE AREAS, GRID OPENINGS IN GRATINGS SHALL BE LIMITED TO ½" IN THE DIRECTION OF TRAFFIC FLOW. IF GRATINGS HAVE ELONGATED OPENINGS, THEY SHALL BE PLACED SO THAT THE LONG DIMENSION IS PERPENDICULAR TO THE DOMINANT DIRECTION OF TRAVEL (11B-302.3. FIG11B-302.3).

K. MAXIMUM SLOPES OF ADJOINING GUTTERS, ROAD SURFACE IMMEDIATELY ADJACENT TO THE CURB RAMP OR ACCESSIBLE ROUTE, SHALL NOT EXCEED ONE UNIT VERTICAL TO 20 UNITS HORIZONTAL (5 PERCENT SLOPE) WITH 4 FEET OF THE TOP AND BOTTOM OF THE CURB RAMP (11B-406.2.1). THE SLOPE OF THE FANNED OR PARALLEL CURB RAMPS SHALL NOT EXCEED ONE UNIT VERTICAL TO 12 HORIZONTAL (8.3 PERCENT SLOPE)(11B-406.3.1 & 11B-406.4.1).

L. THE MAXIMUM SLOPE OF A RAMP THAT SERVES ANY EXIT WAY, PROVIDES ACCESS FOR PERSONS WITH PHYSICAL DISABILITIES, OR IS IN THE ACCESSIBLE ROUTE OF TRAVEL SHALL BE 1 FOOT RISE IN 12 FEET OF HORIZONTAL RUN (8.3 PERCENT GRADIENT). THE LEAST POSSIBLE SLOPE SHALL BE USED FOR ANY RAMP (11B-405.2).

GENERAL PROJECT INFORMATION

PLAN CHECK NO _____ DISTRICT NO _____
JOB ADDRESS _____ CITY _____ ZIP _____

NOTE: Numbers in the parenthesis ( ) refer to sections of the 2017 edition of the Los Angeles County Building Code, Table (T) & Building Code Manual (BCM).

Please blueprint these General Notes on your plans.

The State of California delegates to the local jurisdiction the authority to ensure compliance with Title 24, Part 2 of the California Code of Regulations. This correction list indicates specific areas of Title 24, Part 2 which are applicable to your project. Please be aware that the owner(s) of this building and his/her consultants are responsible for compliance with the most current Federal Regulations contained in the Americans with Disabilities Act (ADA) and Fair Housing Act (FHA). Where the ADA & FHA requirements exceed those contained in Title 24, Part 2, it is the owners responsibility and consultants to ensure compliance with the most current ADA & FHA regulations, as the County/City is not delegated the authority to plan review or inspect projects for ADA & FHA compliance.

A. APPLICATION AND ADMINISTRATION

1. Public accommodations shall maintain in operable working condition those features of facilities and equipment that are required to be accessible to and useable by persons with disabilities. Isolated or temporary interruptions in service or accessibility due to maintenance or repairs shall be permitted. **§11B-108**

B. BUILDING BLOCKS

FLOOR OR GROUND SURFACES

1. Floor and ground surfaces shall be stable, firm, and slip resistant. **§11B-302.1**
2. Carpet or carpet tile shall be securely attached and shall have a firm cushion, pad, or backing or no cushion or pad. Carpet or carpet tile shall have a level loop, textured loop, level cut pile, or level cut/uncut pile texture. Pile height shall be ½ inch maximum. **§11B-302.2, Figure 11B-302.2**

CHANGES IN LEVEL

3. Vertical changes in level for floor or ground surfaces may be ¼ inch high maximum and without edge treatment. Changes in level greater than ¼ inch and not exceeding ½ inch in height shall be beveled with a slope not steeper than 1:2. **§11B-303, Figures 11B-303.2 & 11B-303.3**
4. Changes in level greater than ½ inch in height shall be ramped and shall comply with the requirements of 11B-405 Ramps or 11B-406 Curb Ramps as applicable. **§11B-303**
5. Abrupt changes in level exceeding 4 inches in a vertical dimension between walks, sidewalks or other pedestrian ways and adjacent surfaces or features shall be identified by warning curbs at least 6 inches in height above the walk or sidewalk surface or by guards or handrails with a guide rail centered 2 inches minimum and 4 inches maximum above the surface of the walk or sidewalk. These requirements do not apply between a walk or sidewalk and an adjacent street or driveway. **§11B-303.5**

TURNING SPACE

6. Circular turning spaces shall be a space of 60 inches diameter minimum and may include knee and toe clearance complying with 11B-306 Knee and Toe Clearance. **§11B-304.3.1**
7. T-Shaped turning spaces shall be a T-shaped space within a 60 inch square minimum with arms and base 36 inches wide minimum. Each arm of the T shall be clear of obstructions 12 inches minimum in each direction and the base shall be clear of obstructions 24 inches minimum. **§11B-304.3.2, Figure 11B-304.3.2**

KNEE AND TOE CLEARANCE

8. For lavatories and built-in dining and work surfaces required to be accessible, toe clearance shall be provided that is 30 inches in width and 9 inches in height above the finish floor or ground for a depth of 19 inches minimum. **§11B-306.2.1**
9. Toe clearance shall extend 19 inches maximum under lavatories for toilet and bathing facilities and 25 inches maximum under other elements. **§11B-306.2.2**
10. At lavatories in toilet and bathing facilities, knee clearance shall be provided that is 30 inches in width for a depth of 11 inches at 9 inches above the finish floor or ground and for a depth of 8 inches at 27 inches above the finish floor or ground increasing to 29 inches high minimum above the finish floor or ground at the front edge of a counter with a built-in lavatory or at the front edge of a wall-mounted lavatory fixture. **§11B-306.3.3, Figure 11B-306.3(c)**
11. At dining and work surfaces required to be accessible, knee clearance shall be provided that is 30 inches in width at 27 inches above the finish floor or ground for a depth of at least 19 inches. **§11B-306.3**

PROTRUDING OBJECTS

12. Except for handrails, objects with leading edges more than 27 inches and less than 80 inches above the finish floor or ground shall protrude no more than 4 inches horizontally into the circulation path. Handrails may protrude 4½ inches maximum. **§11B-307.2, Figure 11B-307.2**
13. Freestanding objects mounted on posts or pylons shall overhang circulation paths no more than 12 inches when located from 27 to 80 inches above the finish floor or ground. **§11B-307.3, Figure 11B-307.3(a)**
14. Protruding objects shall not reduce the clear width required for accessible routes. **§11B-307.5**
15. Lowest edge of a sign or other obstruction, when mounted between posts or pylons separated with a clear distance greater than 12 inches, shall be less than 27 inches or more than 80 inches above the finish floor or ground. **§11B-307.3, Figure 11B-307.3(b)**
16. Vertical clearance shall be at least 80 inches high on circulation paths except at door closers and door stops, which may be 78 inches minimum above the finish floor or ground. **§11B-307.4**
17. Guardrails or other barriers with a leading edge located 27 inches maximum above the finish floor or ground shall be provided where the vertical clearance on circulation paths is less than 80 inches high. **§11B-307.4, Figure 11B-307.4**
18. Where a guy support is used within either the width of a circulation path or 24 inches maximum outside of a circulation path, a vertical guy brace, sidewalk guy or similar device shall be used to prevent a hazard or an overhead obstruction. **§11B-307.4.1, Figure 11B-307.4.1**

REACH RANGES

19. Electrical controls and switches intended to be used by the occupant of a room or area to control lighting and receptacle outlets, appliances or cooling, heating and ventilating equipment shall be located within allowable reach ranges. Low reach shall be measured to the bottom of the outlet box and high reach shall be measured to the top of the outlet box. **§11B-308.1.1**
20. Electrical receptacle outlets on branch circuits of 30 amperes or less and communication system receptacles shall be located within allowable reach ranges. Low reach shall be measured to the bottom of the outlet box and high reach shall be measured to the top of the outlet box. **§11B-308.1.2.**
21. High forward reach that is unobstructed shall be 48 inches maximum and the low forward reach shall be 15 inches minimum above the finish floor or ground. **§11B-308.2.1, Figure 11B-308.2.1**
22. High forward reach shall be 48 inches maximum where the reach depth is 20 inches or less and 44 inches maximum where the reach depth exceeds 20 inches. High forward reach shall not exceed 25 inches in depth. **§11B-308.2.2, Figure 11B-308.2.2**
23. High side reach shall be 48 inches maximum and the low side reach shall be 15 inches minimum above the finish floor where the side reach is unobstructed or the depth of any obstruction does not exceed 10 inches. **§11B-308.3.1, Figure 11B-308.3.1**
24. High side reach shall be 46 inches maximum above the finish floor or ground where the high side reach is over an obstruction more than 10 inches but not more than 24 inches in depth. **§11B-308.3.2, Figure 11B-308.3.2**

25. Obstructions for high side reach shall not exceed 34 inches in height and 24 inches in depth. **§11B-308.3.2, Figure 11B-308.3.2**
26. Obstructed high side reach for the top of washing machines and clothes dryers shall be permitted to be 36 inches maximum above the finish floor. **§11B-308.3.2**
27. Obstructed high side reach for the operable parts of fuel dispensers shall be permitted to be 54 inches maximum measured from the surface of the vehicular way where fuel dispensers are installed on existing curbs. **§11B-308.3.2**

OPERABLE PARTS

28. Operable parts shall be operable with one hand and shall not require tight grasping, pinching, or twisting of the wrist. Force required to activate operable parts shall be 5 pounds maximum. **§11B-309.4**

C. ACCESSIBLE ROUTES

DETECTABLE WARNINGS AND DETECTABLE DIRECTIONAL TEXTURE

1. Detectable warning surfaces shall be yellow and approximate FS 33538 of Federal Standard 595C. **§11B-705.1.1.3.1**
2. Detectable warning surfaces shall provide a 70 percent minimum visual contrast with adjacent walking surfaces. Contrast in percent shall be determined by:

   Contrast percent = [(B1-B2)/B1] x 100 where

   B1 = light reflectance value (LRV) of the lighter area and

   B2 = light reflectance value (LRV) of the darker area

   §11B-705.1.1.3.2 (See exception)

DOORS, DOORWAYS, AND GATES

3. Doors, doorways, and gates providing user passage shall be provided in accordance with 11B-206.5 Doors, Doorways, and Gates. **§11B-206.5**
4. Doors, doorways and gates that are part of an accessible route shall comply with 11B-404 Doors, Doorways, and Gates. **§11B-404.1**
5. Door openings shall provide a clear width of 32 inches minimum. Clear openings of doorways with swinging doors shall be measured between the face of the door and the stop, with the door open 90 degrees. Openings more than 24 inches deep shall provide a clear opening of 36 inches minimum. There shall be no projections into the required clear opening width lower than 34 inches above the finish floor or ground. Projections into the clear opening width between 34 inches and 80 inches above the finish floor or ground shall not exceed 4 inches. **§11B-404.2.3**
6. Swinging doors and gates shall have maneuvering clearances complying with Table 11B-404.2.4.1. **§11B-404.2.4.1**
7. Doorways less than 36 inches wide without doors or gates, sliding doors, or folding doors shall have maneuvering clearances complying with Table 11B-404.2.4.2. **§11B-404.2.4.2**
8. Maneuvering clearances for forward approach shall be provided when any obstruction within 18 inches of the latch side an interior doorway, or within 24 inches of the latch side of an exterior doorway, projects more than 8 inches beyond the face of the door, measured perpendicular to the face of the door or gate. **§11B-404.2.4.3**
9. Thresholds, if provided at doorways, shall be ½ inch high maximum. Raised thresholds and changes in level at doorways shall comply with 11B-302 Floor or Ground Surfaces and 11B-303 Changes in Level. **§11B-404.2.5**
10. Handles, pulls, latches, locks, and other operable parts on doors and gates shall comply with 11B-309.4 Operation. Operable parts of such hardware shall be 34 inches minimum and 44 inches maximum above the finish floor or ground. Where sliding doors are in the fully open position, operating hardware shall be exposed and usable from both sides. **§11B-404.2.7**
11. The force for pushing or pulling open a door or gate other than fire doors shall be as follows: **§11B-404.2.9**
    a. Interior hinged doors and gates: 5 pounds maximum.
    b. Sliding or folding doors: 5 pounds maximum.

    c. Required fire doors: the minimum opening force allowable by the appropriate administrative authority, not to exceed 15 pounds.
    d. Exterior hinged doors: 5 pounds maximum.
12. Swinging door and gate surfaces within 10 inches of the finish floor or ground measured vertically shall have a smooth surface on the push side extending the full width of the door or gate. Parts creating horizontal or vertical joints in these surfaces shall be within 1/16 inch of the same plane as the other and be free of sharp or abrasive edges. Cavities created by added kick plates shall be capped. **§11B-404.2.10**

RAMPS

13. Ramp runs shall have a running slope not steeper than 1:12 (8.33%). **§11B-405.2**
14. Cross slope of ramp runs shall not be steeper than 1:48 (2.083%). **§11B-405.3**
15. Floor or ground surfaces of ramp runs shall comply with 11B-302 Floor or Ground Surfaces. Changes in level other than the running slope and cross slope are not permitted on ramp runs. **§11B-405.4**
16. The clear width of a ramp run shall be 48 inches minimum. **§11B-405.5**
17. The rise for any ramp run shall be 30 inches maximum. **§11B-405.6**
18. Ramps shall have landings at the top and the bottom of each ramp run. **§11B-405.7**
19. Landings shall comply with 11B-302 Floor or Ground Surfaces. Changes in level are not permitted. **§11B-405.7.1**
20. The landing clear width shall be at least as wide as the widest ramp run leading to the landing. **§11B-405.7.2**
21. Top landings shall be 60 inches wide minimum. **§11B-405.7.2.1**
22. The landing clear length shall be 60 inches long minimum. **§11B-405.7.3**
23. Bottom landings shall extend 72 inches minimum in the direction of ramp run. **§11B-405.7.3.1**
24. Ramps that change direction between runs at landings shall have a clear landing 60 inches minimum by 72 inches minimum in the direction of downward travel from the upper ramp run. **§11B-405.7.4**
25. Where doorways are located adjacent to a ramp landing, maneuvering clearances required by 11B-404.2.4 and 11B-404.3.2 shall be permitted to overlap the required landing area. Doors, when fully open, shall not reduce the required ramp landing width by more than 3 inches. Doors, in any position, shall not reduce the minimum dimension of the ramp landing to less than 42 inches. **§11B-405.7.5**
26. Ramp runs shall have compliant handrails per 11B-505 Handrails. **§11B-405.8**
27. Edge protection complying with 11B-405.9.2 Curb or Barrier shall be provided on each side of ramp runs and at each side of ramp landings. **§11B-405.9 (See exceptions)**
28. A curb, 2 inches high minimum, or barrier shall be provided that prevents the passage of a 4 inch diameter sphere, where any portion of the sphere is within 4 inches of the finish floor or ground surface. To prevent wheel entrapment, the curb or barrier shall provide a continuous and uninterrupted barrier along the length of the ramp. **§11B-405.9.2**
29. Landings subject to wet conditions shall be designed to prevent the accumulation of water. **§11B-405.10**

HANDRAILS

30. Handrails shall be provided on both sides of stairs and ramps. **§11B-505.2**
31. Handrails shall be continuous within the full length of each stair flight or ramp run. Inside handrails on switchback or dogleg stairs and ramps shall be continuous between flights or runs. **§11B-505.3**
32. Top of gripping surfaces of handrails shall be 34 inches minimum and 38 inches maximum vertically above walking surfaces, stair nosings, and ramp surfaces. Handrails shall be at a consistent height above walking surfaces, stair nosings, and ramp surfaces. **§11B-505.4**
33. Clearance between handrail gripping surfaces and adjacent surfaces shall be 1½ inches minimum. Handrails may be located in a recess if the recess is 3 inches maximum deep and 18 inches minimum clear above the top of the handrail. **§11B-505.5**

34. Handrail gripping surfaces shall be continuous along their length and shall not be obstructed along their tops or sides. The bottoms of handrail gripping surfaces shall not be obstructed for more than 20 percent of their length. Where provided, horizontal projections shall occur 1½ inches minimum below the bottom of the handrail-gripping surface. **§11B-505.6**
35. Handrail gripping surfaces with a circular cross section shall have an outside diameter of 1¼ inches minimum and 2 inches maximum. **§11B-505.7.1**
36. Handrail gripping surfaces with a non-circular cross section shall have a perimeter dimension of 4 inches minimum and 6¼ inches maximum, and a cross-section dimension of 2¼ inches maximum. **§11B-505.7.2**
37. Handrail gripping surfaces shall extend beyond and in the same direction of stair flights and ramp runs in accordance with Section 11B-505.10 Handrail Extensions. **§11B-505.10**
38. Ramp handrails shall extend horizontally above the landing for 12 inches minimum beyond the top and bottom of ramp runs. Extensions shall return to a wall, guard, or the landing surface, or shall be continuous to the handrail of an adjacent ramp run. **§11B-505.10.1**
39. At the top of a stair flight, handrails shall extend horizontally above the landing for 12 inches minimum beginning directly above the first riser nosing. Extensions shall return to a wall, guard, or the landing surface, or shall be continuous to the handrail of an adjacent stair flight. **§11B-505.10.2**
40. At the bottom of a stair flight, handrails shall extend at the slope of the stair flight for a horizontal distance equal to one tread depth beyond the last riser nosing. The horizontal extension of a handrail shall be 12 inches long minimum and a height equal to that of the sloping portion of the handrail as measured above the stair nosings. Extension shall return to a wall, guard, or the landing surface, or shall be continuous to the handrail of an adjacent stair flight. **§11B-505.10.3**

STAIRWAYS

41. A stair is defined as a change in elevation, consisting of one or more risers. **§11B-202**
42. All steps on a flight of stairs shall have uniform riser heights and uniform tread depths. Risers shall be 4 inches high minimum and 7 inches high maximum. Treads shall be 11 inches deep minimum. Curved stairways with winder treads are permitted at stairs which are not part of a required means of egress. (See exception) **§11B-504.2**
43. Open risers are not permitted. **§11B-504.3 (See exceptions)**
44. Interior stairs shall have the upper approach and lower tread marked by a stripe providing clear visual contrast. Exterior stairs shall have the upper approach and all treads marked by a stripe providing clear visual contrast. The stripe shall be a minimum of 2 inches wide to a maximum of 4 inches wide placed parallel to, and not more than 1 inch from, the nose of the step or upper approach. The stripe shall extend the full width of the step or upper approach and shall be of material that is at least as slip resistant as the other treads of the stair. A painted stripe shall be acceptable. Grooves shall not be used to satisfy this requirement. **§11B-504.4.1**
45. The radius of curvature at the leading edge of the tread shall be ½ inch maximum. Nosings that project beyond risers shall have the underside of the leading edge curved or beveled. Risers shall be permitted to slope under the tread at an angle of 30 degrees maximum from vertical. The permitted projection of the nosing shall extend 1¼ inches maximum over the tread below. **§11B-504.5 (See exception for existing buildings)**
46. Stairs shall have handrails complying with Section 11B-505 Handrails. **§11B-504.6**
47. Stair treads and landings subject to wet conditions shall be designed to prevent the accumulation of water. **§11B-504.7**
48. Floor identification signs required by Chapter 10, Section 1022.9 complying with Sections 11B-703.1 Signs General, 11B-703.2 Raised Characters, 11B-703.3 Braille and 11B-703.5 Visual Characters shall be located at the landing of each floor level, placed adjacent to the door on the latch side, in all enclosed stairways in buildings two or more stories in height to identify the floor level. At the exit discharge level, the sign shall include a raised five pointed star located to the left of the identifying floor level. The outside diameter of the star shall be the same as the height of the raised characters. **§11B-504.8**

CURB RAMPS, BLENDED TRANSITIONS AND ISLANDS

49. Perpendicular ramp runs shall have a running slope not steeper than 1:12 (8.33%). **§11B-406.2.1**

50. For perpendicular ramps, where provided, curb ramp flares shall not be steeper than 1:10. **§11B-406.2, Figure 11B-406.2.2**
51. The running slope of the curb ramp segments shall be in-line with the direction of sidewalk travel. Ramp runs shall have a running slope not steeper than 1:12 (8.33%). **§11B-406.3.1, Figure 11B-406.3.2**
52. A turning space 48 inches minimum by 48 inches minimum shall be provided at the bottom of the curb ramp. The slope of the turning space in all directions shall be 1:48 maximum (2.083%). **§11B-406.3.2**
53. Blended transition ramps hall have a running slope not steeper than 1:20 (5%). **§11B-406.4.1**
54. Curb ramps and the flared sides of curb ramps shall be located so that they do not project into vehicular traffic lanes, parking spaces, or parking access aisles. Curb ramps at marked crossings shall be wholly contained within the markings, excluding any flared sides. **§11B-406.5.1**
55. The clear width of curb ramp runs (excluding any flared sides), blended transitions, and turning spaces shall be 48 inches minimum. **§11B-406.5.2**
56. Landings shall be provided at the tops of curb ramps and blended transitions (parallel curb ramps shall not be required to comply). The landing clear length shall be 48 inches minimum. The landing clear width shall be at least as wide as the curb ramp, excluding any flared sides, or the blended transition leading to the landing. The slope of the landing in all directions shall be 1:48 (2.083%) maximum. **§11B-406.5.3**
57. Grade breaks at the top and bottom of curb ramp runs shall be perpendicular to the direction of the ramp run. Grade breaks shall not be permitted on the surface of ramp runs and turning spaces. Surface slopes that meet at grade breaks shall be flush. **§11B-406.5.6**
58. The cross slope of curb ramps and blended transitions shall be 1:48 (2.083%) maximum. **§11B-406.5.7**
59. Counter slopes of adjoining gutters and road surfaces immediately adjacent to and within 24 inches of the curb ramp shall not be steeper than 1:20 (5%). The adjacent surfaces at transitions at curb ramps to walks, gutters, and streets shall be at the same level. **§11B-406.5.8**
60. The bottom of diagonal curb ramps shall have a clear space 48 inches minimum outside active traffic lanes of the roadway. Diagonal curb ramps provided at marked crossings shall provide the 48 inches minimum clear space within the markings. **§11B-406.5.9**
61. Curb ramps and blended transitions shall have detectable warnings complying with 11B-705 Detectable Warnings. **§11B-406.5.12**
62. Raised islands in crossings shall be cut through level with the street or have curb ramps at both sides. The clear width of the accessible route at islands shall be 60 inches wide minimum. Where curb ramps are provided, they shall comply with 11B-406 Curb Ramps, Blended Transitions and Islands. Landings complying with 11B-406.5.3 Landings and the accessible route shall be permitted to overlap. Islands shall have detectable warnings complying with 11B-705 Detectable Warnings and Detectable Directional Texture. **§11B-406.6, Figure 11B-406.6**

D. GENERAL SITE AND BUILDING ELEMENTS

1. Where parking spaces are provided, accessible parking spaces shall be provided in number and kind required per Section 11B-208 Parking Spaces. **§11B-208.1**
2. Where passenger loading zones, drop-off zones, and/or bus stops are provided, accessible passenger loading zones, drop-off zones, and/or bus stops are required.

E. PLUMBING FIXTURES AND FACILITIES

DRINKING FOUNTAINS

1. Drinking fountains shall comply with Sections 11B-307 Protruding Objects and 11B-602 General Requirements. **§11B-602.1**
2. Units shall have a clear floor or ground space complying with Section 11B-305 Clear Floor or Ground Space positioned for a forward approach and centered on the unit. Knee and toe clearance complying with Section 11B-306 Knee and Toe Clearance shall be provided. **§11B-602.2**

3. Spout outlets shall be 36 inches maximum above the finish floor or ground. **§11B-602.4**
4. The spout shall be located 15 inches minimum from the vertical support and 5 inches maximum from the front edge of the unit, including bumpers. **§11B-602.5**
5. The spout shall provide a flow of water 4 inches high minimum and shall be located 5 inches maximum from the front of the unit. The angle of the water stream shall be measured horizontally relative to the front face of the unit. Where spouts are located less than 3 inches from the front of the unit, the angle of the water stream shall be 30 degrees maximum. Where spouts are located between 3 inches and 5 inches maximum from the front of the unit, the angle of the water stream shall be 15 degrees maximum. **§11B-602.6**
6. Spout outlets of drinking fountains for standing persons shall be 38 inches minimum and 43 inches maximum above the finish floor or ground. **§11B-602.7**
7. Wall and post-mounted cantilevered drinking fountains shall be 18 inches minimum and 19 inches maximum in depth. **§11B-602.8**
8. All drinking fountains shall either be located completely within alcoves, positioned completely between wing walls, or otherwise positioned so as not to encroach into pedestrian ways. The protected area within such a drinking fountain is located shall be 32 inches wide minimum and 18 inches deep minimum, and shall comply with Section 11B-305.7 Maneuvering Clearance. When used, wing walls or barriers shall protect horizontally at least as far as the drinking fountain and to within 6 inches vertically from the floor or ground surface. **§11B-602.9**

TOILET AND BATHING ROOM CLEARANCES

9. Doors to unisex toilet rooms and unisex bathing rooms shall have privacy latches. **§11B-213.2.1**
10. Mirrors located above the lavatories or countertops shall be installed within the bottom edge of the reflecting surface 40 inches maximum above the finish floor or ground. Mirrors not located above the lavatories or countertops shall be installed with the bottom edge of the reflecting surface 35 inches maximum above the finish floor or ground. **§11B-603.3**
11. Coat hooks shall be located within one of the reach ranges specified in Section 11B-308. Shelves shall be located 40 inches minimum and 48 inches maximum above the finish floor. Medicine cabinets shall be located in a usable shelf no higher than 44 inches maximum above the finish floor. **§11B-603.4**
12. Where towel or sanitary napkin dispensers, waste receptacles, or other accessories are provided in toilet facilities, at least one of each type shall be located on an accessible route. All operable parts, including coin slots, shall be 40 inches maximum above the finish floor. Baby changing stations are not required to comply with Section 11B-603.5 (See exception) **§11B-603.5**

WATER CLOSETS AND TOILET COMPARTMENTS

13. Flush controls shall be hand operated or automatic. Hand operated flush controls shall comply with Section 11B-309.4 Operation except they shall be located 44 inches maximum above the floor. Flush controls shall be located on the open side of the water closet except in ambulatory accessible compartments complying with Section 11B-604.8.2 Ambulatory Accessible Compartments. **§11B-604.6**
14. Toilet paper dispensers shall comply with Section 11B-309.4 Operation and shall be 7 inches minimum and 9 inches maximum in front of the water closet measured to the centerline of the dispenser. The outlet of the dispenser shall be below the grab bar, 19 inches minimum above the finish floor and shall not be located behind the grab bars. Dispensers shall not be of a type that control delivery or that does not allow continuous paper flow. **§11B-604.7**
15. Urinals shall be the stall-type or the wall-hung type with the rim 17 inches maximum above the finish floor or ground. Urinals shall be 13½ inches deep minimum measured from the outer face of the urinal rim to the back of the fixture. **§11B-605.2**
16. Flush controls shall be hand operated or automatic. Hand operated flush controls shall comply with Section 11B-309 Operable Parts except that the flush control shall be mounted at a maximum height of 44 inches above the finish floor. **§11B-605.4**
17. For lavatories and sinks, a clear floor space complying with Section 11B-305 Clear Floor or Ground Surfaces, positioned for a forward approach, and knee and toe clearance complying with Section 11B-306 Knee and Toe Clearance shall be provided. **§11B-606.2**

18. Lavatories and sinks shall be installed with the front of the higher of the rim or counter surface 34 inches maximum above the finish floor or ground. **§11B-606.3**

SIGNS RELATED TO TOILETS AND BATHING FACILITIES

19. Entrances leading to toilet rooms and bathing rooms complying with 11B-603 Toilet and Bathing Rooms shall be identified by a geometric symbol complying with 11B-703.7.2.6 Toilet and Bathing Room Geometric Symbols. Where existing toilet rooms or bathing rooms do not comply with 11B-603 Toilet and Bathing Rooms, directional signs indicating the location of the nearest compliant toilet room or bathing room within the facility shall be provided. Signs shall comply with 11B-703.5 Visual Characters and shall include the International Symbol of Accessibility complying with 11B-703.7.2.1 ISA. Where existing toilet rooms or bathing rooms do not comply with 11B-603 Toilet and Bathing Rooms, the toilet rooms or bathing rooms complying with 11B-603 Toilet and Bathing Rooms shall be identified by the International Symbol of Accessibility complying with 11B-703.7.2.1 ISA. Where clustered single user toilet rooms or bathing facilities are permitted to use exceptions to 11B-213.2 Toilet and Bathing Rooms, toilet rooms or bathing facilities complying with 11B-603 Toilet and Bathing Rooms shall be identified by the International Symbol of Accessibility complying with 11B-703.7.2.1 ISA unless all toilet rooms and bathing facilities comply with 11B-603 Toilet and Bathing Rooms. Existing buildings that have been remodeled to provide specific toilet rooms or bathing rooms for public use that comply with these building standards shall have the location of and the directions to these rooms posted in or near the building lobby or entrance on a sign complying with 11B-703.5 Visual Characters, including the International Symbol of Accessibility complying with 11B-703.7.2.1 ISA. **§11B-216.8**
20. Pictograms shall comply with the following:
    a. Pictograms shall have a field height of 6 inches minimum. Characters and Braille shall not be located in the pictogram field. **§11B-703.6.1**
    b. Pictograms and their field shall have a non-glare finish. Pictograms shall contrast with their field with either a light pictogram on a dark field or a dark pictogram on a light field. **§11B-703.6.2**
    c. Pictograms shall have text descriptors located directly below the pictogram field. Text descriptors shall comply with 11B-703.2 Raised Characters, 11B-703.3 Braille and 11B-703.4 Installation Height and Location. **§11B-703.6.3**
    d. The installation height and location of Pictogram signs shall be per **§11B-703.4.1.**
21. Symbols shall comply with the following:
    a. Doorways leading to toilet rooms and bathing rooms shall be identified by a geometric symbol complying with 11B-703.7.2.6 Toilet and Bathing Facilities Geometric Symbols. The symbol shall be mounted at 58 inches minimum and 60 inches maximum above the finish floor or ground surface measured from the centerline of the symbol. Where a door is provided the symbol shall be mounted within 1 inch of the vertical centerline of the door. **§11B-703.7.2.6 (See exception)**
    b. Men's toilet and bathing facilities shall be identified by an equilateral triangle, ¼ inch thick with edges 12 inches long and a vertex pointing upward. The triangle symbol shall contrast with the door, either light on a dark background or dark on a light background. **§11B-703.7.2.6.1**
    c. Women's toilet and bathing facilities shall be identified by a circle, ¼ inch thick and 12 inches in diameter. The circle symbol shall contrast with the door, either light on a dark background or dark on a light background. **§11B-703.7.2.6.2**
    d. Unisex toilet and bathing facilities shall be identified by a circle, ¼ inch thick and 12 inches in diameter with a ¼ inch thick triangle with a vertex pointing upward superimposed on the circle and within the 12-inch diameter. The triangle symbol shall contrast with the circle symbol, either light on a dark background or dark on a light background. The circle symbol shall contrast with the door, either light on a dark background or dark on a light background. **§11B-703.7.2.6.3**

WASHING MACHINE AND CLOTHES DRYERS

22. Washing machines and clothes dryer's operable parts must comply with Section 11B-309 Operable Parts. **§11B-611.3**
23. Top loading machines shall have the door to the laundry compartment located 36 inches maximum above the finish floor. Front loading machines shall have the bottom of the opening to the laundry compartment located 15 inches minim and 36 inches maximum above the finish floor. **§11B-611.4**

17. Two-way communication systems that are provided to gain admittance to a building or facility or to restricted areas within a building or facility shall provide both audible and visual signals. Handset cords, if provided, shall be 29 inches long minimum. **§11B-230.1, §11B-708**
18. Common use or public use system interface of communications systems between a residential dwelling unit and a site, building, or floor entrance shall include the capability of supporting voice and TTY communication with the residential dwelling unit interface. **§11B-708.4.1**
19. Residential dwelling unit system interface of communications systems between a residential dwelling unit and a site, building, or floor entrance shall include a telephone jack capable of supporting voice and TTY communication with the common use or public use system interface. **§11B-708.4.2**

TELEPHONES

20. Where coin-operated public pay telephones, coin less public pay telephones, public closed-circuit telephones, public courtesy phones, or other types of public telephones are provided, public telephones shall be provided in accordance with 11B-217 Telephones for each type of public telephone provided. For purposes of this section, a bank of telephones shall be considered to be two or more adjacent telephones. **§11B-217.1**
21. Except drive-up only public telephones, where public telephones are provided, wheelchair accessible telephones complying with 11B-704.2 shall be provided in accordance with Table 11B-217.2. **§11B-217.2**
22. All public telephones shall have volume controls complying with 11B-704.3. **§11B-217.3**
23. TTYs complying with 11B-704.4 shall be provided in accordance with 11B-217.4.
24. Where a bank of telephones in the interior of a building consists of three or more public pay telephones, at least one public pay telephone at the bank shall be provided with a shelf and an electrical outlet in accordance with 11B-704.5. **§11B-217.5 (See exception)**

F. COMMUNICATION ELEMENTS AND FEATURES

FIRE ALARM SYSTEMS

1. Where fire alarm systems and carbon monoxide alarm systems provide audible alarm coverage, alarms shall comply with 11B-215 Fire Alarm Systems. **§11B-215.1 (See exception)**
2. Alarms in public use areas and common use areas shall comply with 702 Chapter 9, Section 907.5.2.3.1. **§11B-215.2**
3. Where employee work areas have audible alarm coverage, the wiring system shall be designed so that visible alarms complying with 702 Chapter 9, Section 907.5.2.3.2 can be integrated into the alarm system. **§11B-215.3**
4. Fire alarm systems shall have permanently installed audible and visible alarms complying with NFPA 72 (1999 or 2002 edition) (incorporated by reference, see "Referenced Standards" in Chapter 1), except that the maximum allowable sound level of audible notification appliances complying with section 4-3.2.1 of NFPA 72 (1999 edition) shall have a sound level no more than 110 dB at the minimum hearing distance from the audible appliance. In addition, alarms in guest rooms required to provide communication features shall comply with sections 4-3 and 4-4 of NFPA 72 (1999 edition) or sections 7.4 and 7.5 of NFPA 72 (2002 edition). and Chapter 9, Sections 907.5.2.1 and 907.5.2.3. **§11B-702.1**

ASSISTIVE LISTENING SYSTEMS

5. Assistive listening systems shall be provided in assembly areas, including conference and meeting rooms, used for the purpose of entertainment, educational or civic gatherings, or similar purposes. **§202, §11B-219.2**

   Note: Assembly areas include, but are not limited to, classrooms, lecture halls, courtrooms, public meeting rooms, public hearing rooms, legislative chambers, motion picture houses, auditoria, theaters, playhouses, dinner theaters, concert halls, centers for the performing arts, amphitheaters, arenas, stadiums, grandstands, or convention centers. **§202, §11B-219.2**
6. Assistive listening system shall provide an amplification system utilizing transmitters, receivers, and coupling devices to bypass the acoustical space between a sound source and a listener by means of induction loop, radio frequency, infrared, or direct-wired equipment. **§202**
7. Where a building contains more than one assembly area under one management, the total number of required receivers may be calculated using the total number of seats in the assembly areas provided that all receivers are usable with all systems. **§11B-219.3 (See exception)**
8. Twenty-five percent minimum of receivers provided for assistive listening systems, but no fewer than two, shall be hearing-aid compatible with except when all seats in an assembly area are served by means of an induction loop. **§11B-219.3**
9. When assistive-listening systems are limited to specific areas or seats, such areas or seats shall be within a 50-foot viewing distance of the stage or playing area and shall have a complete view of the stage or playing area. **§11B-219.4**
10. Permanently installed assistive-listening systems are required in areas if (1) they have fixed seating and (2a) they accommodate at least 50 persons or (2b) they have audio-amplification systems, except those used exclusively for paging and/or background music. **§11B-219.2, §11B-219.5**
11. Portable assistive-listening systems may serve more than one conference or meeting rooms if an adequate number of electrical outlets or other supplementary wiring is provided and permanently installed systems are not required. **§11B-219.5**
12. Receivers required for use with an assistive listening system shall include a 1/8 inch standard mono jack. **§11B-706.2**
13. Receivers required to be hearing aid compatible shall interface with telecoils in hearing aids through the provision of neck loops. **§11B-706.3**
14. Assistive listening systems shall be capable of providing a sound pressure level from 110 – 118 dB with a dynamic range on the volume control of 50 dB. **§11B-706.4**
15. Signal-to-noise ratio for internally generated noise in assistive listening systems shall be 18 dB minimum. **§11B-706.5**
16. Peak clipping shall not exceed 18 dB of clipping relative to the peaks of speech. **§11B-706.6**

**TWO-WAY COMMUNICATION SYSTEM

SITE IMPROVEMENT PLANS
FOR
COMMUNITY AQUATICS & SENIOR CENTER
1654 W. 160TH ST.
GARDENA, CA
COUNTY OF LOS ANGELES
STATE OF CALIFORNIA

GENERAL NOTES:

1. ALL GRADING AND CONSTRUCTION SHALL CONFORM TO THE CITY OF GARDENA BUILDING CODE AND THE 2019 CALIFORNIA BUILDING CODE OR LATEST ADOPTED EDITION AND UNLESS SPECIFICALLY NOTED ON THESE PLANS.
2. ANY MODIFICATIONS OF OR CHANGES TO APPROVED GRADING PLANS MUST BE APPROVED BY THE BUILDING OFFICIAL.
3. NO GRADING SHALL BE STARTED WITHOUT FIRST NOTIFYING THE BUILDING OFFICIAL A PRE-GRADING MEETING AT THE SITE IS REQUIRED BEFORE THE START OF THE GRADING WITH THE FOLLOWING PEOPLE PRESENT: OWNER, GRADING CONTRACTOR, DESIGN CIVIL ENGINEER, SOILS ENGINEER, GEOLOGIST, COUNTY GRADING INSPECTOR(S) OR THEIR REPRESENTATIVES, AND WHEN REQUIRED THE ARCHEOLOGIST OR OTHER JURISDICTIONAL AGENCIES. PERMITTEE OR HIS AGENT ARE RESPONSIBLE FOR ARRANGING PRE-GRADE MEETING AND MUST NOTIFY THE BUILDING OFFICIAL AT LEAST TWO BUSINESS DAYS PRIOR TO PROPOSED PRE-GRADE MEETING.
4. APPROVAL OF THESE PLANS REFLECT SOLELY THE REVIEW OF PLANS IN ACCORDANCE WITH THE COUNTY OF LOS ANGELES BUILDING CODES AND DOES NOT REFLECT ANY POSITION BY THE COUNTY OF LOS ANGELES OR THE DEPARTMENT OF PUBLIC WORKS REGARDING THE STATUS OF ANY TITLE ISSUES RELATING TO THE LAND ON WHICH THE IMPROVEMENTS MAY BE CONSTRUCTED. ANY DISPUTES RELATING TO TITLE ARE SOLELY A PRIVATE MATTER NOT INVOLVING THE COUNTY OF LOS ANGELES OR THE DEPARTMENT OF PUBLIC WORKS.
5. ALL GRADING AND CONSTRUCTION ACTIVITIES SHALL COMPLY WITH COUNTY OF LOS ANGELES CODE, TITLE 12, SECTION 12.12.030 THAT CONTROLS AND RESTRICTS NOISE FROM THE USE OF CONSTRUCTION AND GRADING EQUIPMENT FROM THE HOURS OF 8:00 PM TO 6:30 AM, AND ON SUNDAYS AND HOLIDAYS. (MORE RESTRICTIVE CONSTRUCTION ACTIVITY TIMES MAY GOVERN, AS REQUIRED BY THE DEPARTMENT OF REGIONAL PLANNING AND SHOULD BE SHOWN ON THE GRADING PLANS WHEN APPLICABLE.)
6. CALIFORNIA PUBLIC RESOURCES CODE (SECTION 5097.98) AND HEALTH AND SAFETY CODE (SECTION 7050.5) ADDRESS THE DISCOVERY AND DISPOSITION OF HUMAN REMAINS. IN THE EVENT OF DISCOVERY OR RECOGNITION OF ANY HUMAN REMAINS IN ANY LOCATION OTHER THAN A DEDICATED CEMETERY, THE LAW REQUIRES THAT GRADING IMMEDIATELY STOPS AND NO FURTHER EXCAVATION OR DISTURBANCE OF THE SITE, OR ANY NEARBY AREA WHERE HUMAN REMAINS MAY BE LOCATED, OCCUR UNTIL THE FOLLOWING HAS BEEN MEASURES HAVE BEEN TAKEN:
   a. THE COUNTY CORONER HAS BEEN INFORMED AND HAS DETERMINED THAT NO INVESTIGATION OF THE CAUSE OF DEATH IS REQUIRED, AND
   b. IF THE REMAINS ARE OF NATIVE AMERICAN ORIGIN, THE DESCENDANTS FROM THE DECEASED NATIVE AMERICANS HAVE MADE A RECOMMENDATION FOR THE MEANS OF TREATING OR DISPOSING, WITH APPROPRIATE DIGNITY, OF THE HUMAN REMAINS AND ANY ASSOCIATED GRAVE GOODS.
7. THE LOCATION AND PROTECTION OF ALL UTILITIES IS THE RESPONSIBILITY OF THE PERMITTEE.
8. ALL EXPORT OF MATERIAL FROM THE SITE MUST GO TO A PERMITTED SITE APPROVED BY THE BUILDING OFFICIAL OR A LEGAL DUMPSITE. RECEIPTS FOR ACCEPTANCE OF EXCESS MATERIAL BY A DUMPSITE ARE REQUIRED AND MUST BE PROVIDED TO THE BUILDING OFFICIAL UPON REQUEST.
9. A COPY OF THE GRADING PERMIT AND APPROVED GRADING PLANS MUST BE IN THE POSSESSION OF A RESPONSIBLE PERSON AND AVAILABLE AT THE SITE AT ALL TIMES.
10. SITE BOUNDARIES, EASEMENTS, DRAINAGE DEVICES, RESTRICTED USE AREAS SHALL BE LOCATED PER CONSTRUCTION STAKING BY FIELD ENGINEER OR LICENSED SURVEYOR. PRIOR TO GRADING, AS REQUESTED BY THE BUILDING OFFICIAL, ALL PROPERTY LINES, EASEMENTS, AND RESTRICTED USE AREAS SHALL BE STAKED.
11. NO GRADING OR CONSTRUCTION SHALL OCCUR WITHIN THE PROTECTED ZONE OF ANY OAK TREE AS REQUIRED PER TITLE CHAPTER 22.56 OF THE COUNTY OF LOS ANGELES ZONING CODE. THE PROTECTED ZONE SHALL MEAN THAT AREA WITHIN THE DRIP LINE OF AN OAK TREE EXTENDING THERE FROM A POINT AT LEAST FIVE FEET OUTSIDE THE DRIP LINE, OR 15 FEET FROM THE TRUNK(S) OF A TREE, WHICHEVER IS GREATER.

    IF AN OAK TREE PERMIT IS OBTAINED: (ADD THE FOLLOWING NOTE:)

    ALL GRADING AND CONSTRUCTION WITHIN THE PROTECTED ZONE OF ALL OAK TREES SHALL BE PER OAK TREE PERMIT NO. . ALL RECOMMENDATIONS IN THE PERMIT AND ASSOCIATED OAK TREE REPORT MUST BE COMPLIED WITH AND ARE A PART OF THE GRADING PLAN. A COPY OF THE OAK TREE PERMIT AND ASSOCIATED REPORTS SHALL BE MAINTAINED IN THE POSSESSION OF A RESPONSIBLE PERSON AND AVAILABLE AT THE SITE AT ALL TIMES.
12. THE STANDARD RETAINING WALL DETAILS SHOWN ON THE GRADING PLANS ARE FOR REFERENCE ONLY. STANDARD RETAINING WALLS ARE NOT CHECKED, PERMITTED, OR INSPECTED PER THE GRADING PERMIT. A SEPARATE RETAINING WALL PERMIT IS REQUIRED FOR ALL STANDARD RETAINING WALLS.

    NOTE: THIS NOTE ONLY APPLIES TO STANDARD RETAINING WALLS. GEOGRID FABRIC AND SEGMENTAL RETAINING WALLS DO NOT REQUIRE A SEPARATE RETAINING WALL PERMIT. DETAILS AND CONSTRUCTION NOTES FOR ALL GEOGRID WALLS MUST BE ON THE GRADING PLAN.
13. A PREVENTIVE PROGRAM TO PROTECT THE SLOPES FROM POTENTIAL DAMAGE FROM BURROWING RODENTS IS REQUIRED PER SECTION J101.8 OF THE COUNTY OF LOS ANGELES BUILDING CODE. OWNER IS TO INSPECT SLOPES PERIODICALLY FOR EVIDENCE OF BURROWING RODENTS AND A FIRST EVIDENCE OF THEIR EXISTENCE SHALL EMPLOY AN EXTERMINATOR FOR THEIR REMOVAL.
14. WHERE A GRADING PERMIT IS ISSUED AND THE BUILDING OFFICIAL DETERMINES THAT THE GRADING WILL NOT BE COMPLETED PRIOR TO NOVEMBER 1, THE OWNER OF THE SITE ON WHICH THE GRADING IS BEING PERFORMED SHALL, ON OR BEFORE OCTOBER 1, FILE OR CAUSE TO BE FILED WITH THE BUILDING OFFICIAL AN ESCP PER SECTION J110.8.3 OF THE COUNTY OF LOS ANGELES BUILDING CODE.
15. TRANSFER OF RESPONSIBILITY: IF THE FIELD ENGINEER, THE SOILS ENGINEER, OR THE ENGINEERING GEOLOGIST OF RECORD IS CHANGED DURING GRADING, THE WORK SHALL BE STOPPED UNTIL THE REPLACEMENT HAS AGREED IN WRITING TO ACCEPT THEIR RESPONSIBILITY WITHIN THE AREA OF TECHNICAL COMPETENCE FOR APPROVAL UPON COMPLETION OF THE WORK. IT SHALL BE THE DUTY OF THE PERMITTEE TO NOTIFY THE BUILDING OFFICIAL IN WRITING OF SUCH CHANGE PRIOR TO THE RECOMMENCEMENT OF SUCH GRADING.

GENERAL GEOTECHNICAL NOTES

16. ALL WORK MUST BE IN COMPLIANCE WITH THE RECOMMENDATIONS INCLUDED IN THE GEOTECHNICAL CONSULTANT'S REPORT(S) AND THE APPROVED PLANS AND SPECIFICATIONS.
17. GRADING OPERATIONS MUST BE CONDUCTED UNDER PERIODIC INSPECTIONS BY THE GEOTECHNICAL CONSULTANTS AS REQUIRED BY THE CITY OF GARDENA.
18. THE SOIL ENGINEER SHALL PROVIDE SUFFICIENT INSPECTIONS DURING THE PREPARATION OF THE NATURAL GROUND AND THE PLACEMENT AND COMPACTION OF THE FILL TO BE SATISFIED THAT THE WORK IS BEING PERFORMED IN ACCORDANCE WITH THE PLAN AND APPLICABLE CODE REQUIREMENTS.
19. ROUGH GRADING MUST BE APPROVED BY A FINAL ENGINEERING GEOLOGY AND SOILS ENGINEERING REPORT. AN AS-BUILT GEOLOGIC MAP MUST BE INCLUDED IN THE FINAL GEOLOGY REPORT. PROVIDE A FINAL REPORT STATEMENT THAT VERIFIES WORK WAS DONE IN ACCORDANCE WITH REPORT RECOMMENDATIONS AND CODE PROVISIONS (SECTION J105.12 OF THE COUNTY OF LOS ANGELES BUILDING CODE). THE FINAL REPORT(S) MUST BE SUBMITTED TO THE CITY OF GARDENA FOR REVIEW AND APPROVAL.
20. ALL REQUIRED THIRD-PARTY TESTING TO BE PROVIDED AT CONTRACTORS EXPENSE.

FILL NOTES

21. GRADING WORK IS TO ONLY FOLLOW THE DEMOLITION RECOMMENDATIONS IN THE SOILS REPORT.
    a. OVEREXCAVATION AND PREP. FOR THE FUTURE BUILDING PAD IS NOT REQUIRED FOR ROUGH GRADING.

21. ALL FILL SHALL BE COMPACTED TO THE FOLLOWING MINIMUM RELATIVE COMPACTION CRITERIA:
    a. 90 PERCENT OF MAXIMUM DRY DENSITY WITHIN 40 FEET BELOW FINISH GRADE.
    b. 93 PERCENT OF MAXIMUM DRY DENSITY DEEPER THAN 40 FEET BELOW FINISH GRADE, UNLESS A LOWER RELATIVE COMPACTION (NOT LESS THAN 90 PERCENT OF MAXIMUM DRY DENSITY) IS JUSTIFIED BY THE GEOTECHNICAL ENGINEER.

    THE RELATIVE COMPACTION SHALL BE DETERMINED BY A.S.T.M. SOIL COMPACTION TEST D1557-91 WHERE APPLICABLE: WHERE NOT APPLICABLE, A TEST ACCEPTABLE TO THE BUILDING OFFICIAL SHALL BE USED. (SECTION J107.5 OF THE COUNTY OF LOS ANGELES BUILDING CODE.)
22. FIELD DENSITY SHALL BE DETERMINED BY A METHOD ACCEPTABLE TO THE BUILDING OFFICIAL. (SECTION J107.5 OF THE COUNTY OF LOS ANGELES BUILDING CODE.) HOWEVER, NOT LESS THAN 10% OF THE REQUIRED DENSITY TEST, UNIFORMLY DISTRIBUTED, AND SHALL BE OBTAINED BY THE SAND CONE METHOD.
23. SUFFICIENT TESTS OF THE FILL SOILS SHALL BE MADE TO DETERMINE THE RELATIVE COMPACTION OF THE FILL IN ACCORDANCE WITH THE FOLLOWING MINIMUM GUIDELINES:
    a. ONE TEST FOR EACH TWO-FOOT VERTICAL LIFT.
    b. ONE TEST FOR EACH 1,000 CUBIC YARDS OF MATERIAL PLACED.
    c. ONE TEST AT THE LOCATION OF THE FINAL FILL SLOPE FOR EACH BUILDING SITE (LOT) IN EACH FOUR-FOOT VERTICAL LIFT OR PORTION THEREOF.
    d. ONE TEST IN THE VICINITY OF EACH BUILDING PAD FOR EACH FOUR-FOOT VERTICAL LIFT OR PORTION THEREOF.
24. SUFFICIENT TESTS OF FILL SOILS SHALL BE MADE TO VERIFY THAT THE SOIL PROPERTIES COMPLY WITH THE DESIGN REQUIREMENTS, AS DETERMINED BY THE SOIL ENGINEER INCLUDING SOIL TYPES, SHEAR STRENGTHS PARAMETERS AND CORRESPONDING UNIT WEIGHTS IN ACCORDANCE WITH THE FOLLOWING GUIDELINES:
    a. PRIOR AND SUBSEQUENT TO PLACEMENT OF THE FILL, SHEAR TESTS SHALL BE TAKEN ON EACH TYPE OF SOIL OR SOIL MIXTURE TO BE USED FOR ALL FILL SLOPES STEEPER THAN THREE (3) HORIZONTAL TO ONE VERTICAL.
    b. SHEAR TEST RESULTS FOR THE PROPOSED FILL MATERIAL MUST MEET OR EXCEED THE DESIGN VALUES USED IN THE GEOTECHNICAL REPORT TO DETERMINE SLOPE STABILITY REQUIREMENTS. OTHERWISE, THE SLOPE MUST BE REEVALUATED USING THE ACTUAL SHEAR TEST VALUE OF THE FILL MATERIAL THAT IS IN PLACE.
    c. FILL SOILS SHALL BE FREE OF DELETERIOUS MATERIALS.
25. FILL SHALL NOT BE PLACED UNTIL STRIPPING OF VEGETATION, REMOVAL OF UNSUITABLE SOILS, AND INSTALLATION OF SUBDRAIN (IF ANY) HAVE BEEN INSPECTED AND APPROVED BY THE SOIL ENGINEER. THE BUILDING OFFICIAL MAY REQUIRE A "STANDARD TEST METHOD FOR MOISTURE, ASH, ORGANIC MATTER, PEAT OR OTHER ORGANIC SOILS" ASTM D-2974-87 ON ANY SUSPECT MATERIAL. DETRIMENTAL AMOUNTS OF ORGANIC MATERIAL SHALL NOT BE PERMITTED IN FILLS. SOIL CONTAINING SMALL AMOUNTS OF ROOTS MAY BE ALLOWED PROVIDED THAT THE ROOTS ARE IN A QUANTITY AND DISTRIBUTED IN A MANNER THAT WILL NOT BE DETRIMENTAL TO THE FUTURE USE OF THE SITE AND THE SOILS ENGINEER APPROVES THE USE OF SUCH MATERIAL.
26. ROCK OR SIMILAR MATERIAL GREATER THAN 12 INCHES IN DIAMETER SHALL NOT BE PLACED IN THE FILL UNLESS RECOMMENDATIONS FOR SUCH PLACEMENT HAVE BEEN SUBMITTED BY THE SOIL ENGINEER AND APPROVED IN ADVANCE BY THE BUILDING OFFICIAL. LOCATION, EXTENT, AND ELEVATION OF ROCK DISPOSAL AREAS MUST BE SHOWN ON AN "AS BUILT" GRADING PLAN.
27. CONTINUOUS INSPECTION BY THE SOIL ENGINEER, OR A RESPONSIBLE REPRESENTATIVE, SHALL BE PROVIDED DURING ALL FILL PLACEMENT AND COMPACTION OPERATIONS WHERE FILLS HAVE A DEPTH GREATER THAN 30 FEET OR SLOPE SURFACE STEEPER THAN 2:1. (SECTION J107.8 OF THE COUNTY OF LOS ANGELES BUILDING CODE)
28. CONTINUOUS INSPECTION BY THE SOIL ENGINEER, OR A RESPONSIBLE REPRESENTATIVE, SHALL BE PROVIDED DURING ALL SUBDRAIN INSTALLATION. (PER THE CITY OF GARDENA BUILDING CODE)
29. FILL SLOPES IN EXCESS OF 2:1 STEEPNESS RATIO ARE TO BE CONSTRUCTED BY THE PLACEMENT OF SOIL AT SUFFICIENT DISTANCE BEYOND THE PROPOSED FINISH SLOPE TO ALLOW COMPACTION EQUIPMENT TO BE OPERATED AT THE OUTER LIMITS OF THE FINAL SLOPE SURFACE. THE EXCESS FILL IS TO BE REMOVED PRIOR TO COMPLETION OF ROUGH GRADING. OTHER CONSTRUCTION PROCEDURES MAY BE USED WHEN IT IS DEMONSTRATED TO THE SATISFACTION OF THE BUILDING OFFICIAL THAT THE ANGLE OF SLOPE, CONSTRUCTION METHOD AND OTHER FACTORS WILL HAVE EQUIVALENT EFFECT. (SECTION J107.5 OF THE COUNTY OF LOS ANGELES BUILDING CODE.)

GENERAL

1. ALL PROPERTY CORNERS SHALL BE CLEARLY DELINEATED IN THE FIELD PRIOR TO COMMENCEMENT OF ANY CONSTRUCTION/GRADING.
2. ALL WORK UNDER THIS GRADING PERMIT SHALL BE LIMITED TO WORK WITHIN THE PROPERTY LINES. ALL WORK WITHIN THE ROAD RIGHT-OF-WAY WILL REQUIRE SEPARATE PLANS AND AN ENCROACHMENT PERMIT.
3. GRADING SHALL BE DONE UNDER THE SUPERVISION OF A SOIL ENGINEER IN CONFORMANCE WITH RECOMMENDATIONS OF GEOTECHNICAL INVESTIGATION PROPOSED COMMUNITY AQUATIC AND SENIOR CENTER BY SOUTHERN CALIFORNIA GEOTECHNICAL, INC. DATED NOVEMBER 18, 2021 AND RESULTS OF INFILTRATION TESTING BY SOUTHERN CALIFORNIA GEOTECHNICAL DATED NOVEMBER 19, 2021. THESE REPORTS ARE A PART OF THESE PLANS.
4. COMPACTED FILL TO SUPPORT ANY STRUCTURES SHALL COMPLY WITH SECTION 1803.5 CBC. PROJECTS WITHOUT PRELIMINARY SOILS REPORT SHALL HAVE DETAILED SPECIFICATIONS SATISFYING REQUIREMENTS IN SECTION 1803.5 CBC PREPARED BY THE EOR.
5. THE CONTRACTOR SHALL NOTIFY BUILDING AND SAFETY AT LEAST 24 HOURS IN ADVANCE TO REQUEST FINISHED LOT GRADE AND DRAINAGE INSPECTION. THIS INSPECTION MUST BE APPROVED PRIOR TO BUILDING PERMIT FINAL INSPECTION FOR EACH LOT.

DRAINAGE AND EROSION/DUST CONTROL

6. DRAINAGE ACROSS THE PROPERTY LINE SHALL NOT EXCEED THAT WHICH EXISTED PRIOR TO GRADING. EXCESS OR CONCENTRATED DRAINAGE SHALL BE CONTAINED ON SITE OR DIRECTED TO AN APPROVED DRAINAGE FACILITY.
7. THE GROUND IMMEDIATELY ADJACENT TO THE BUILDING FOUNDATION SHALL BE SLOPED AWAY WITH 2% MINIMUM FOR A MINIMUM DISTANCE OF 10 HORIZONTAL FEET. SWALES WITHIN 10 FEET FROM BUILDING SHALL HAVE 2% MINIMUM SLOPE.
8. NO OBSTRUCTION OF NATURAL WATER COURSES SHALL BE PERMITTED.
9. DURING ROUGH GRADING OPERATIONS AND PRIOR TO CONSTRUCTION OF PERMANENT DRAINAGE STRUCTURES, TEMPORARY DRAINAGE CONTROL (BEST MANAGEMENT PRACTICES, BMP'S) SHALL BE PROVIDED TO PREVENT PONDING WATER AND DAMAGE TO ADJACENT PROPERTIES.
10. DUST SHALL BE CONTROLLED BY WATERING OR OTHER APPROVED METHODS.
11. ALL EXISTING DRAINAGE COURSES ON THE PROJECT SITE MUST CONTINUE TO FUNCTION. PROTECTIVE MEASURES AND TEMPORARY DRAINAGE PROVISIONS MUST BE USED TO PROTECT ADJOINING PROPERTIES DURING GRADING OPERATIONS.

COMPLETION OF WORK

12. A REGISTERED CIVIL ENGINEER SHALL PREPARE FINAL COMPACTION REPORT/GRADING REPORT AND IT SHALL BE SUBMITTED FOR REVIEW AND APPROVAL. THE REPORT SHALL ALSO PROVIDE BUILDING FOUNDATION DESIGN PARAMETERS INCLUDING ALLOWABLE SOIL PRESSURES, EXPANSION INDEX AND REMEDIAL MEASURES IF EI>20, WATER SOLUBLE SULFATE CONTENT, CORROSIVITY AND REMEDIAL MEASURES IF NECESSARY.
13. THE COMPACTION REPORT SHALL INCLUDE THE SPECIAL INSPECTION VERIFICATIONS LISTED IN TABLE 1704.7 OF THE CALIFORNIA BUILDING CODE.
14. A REGISTERED CIVIL ENGINEER SHALL SUBMIT TO BUILDING AND SAFETY WRITTEN CERTIFICATION OF COMPLETION OF GRADING IN ACCORDANCE WITH THE APPROVED GRADING PLAN PRIOR TO REQUESTING INSPECTION AND ISSUANCE OF THE BUILDING PERMIT. CERTIFICATION SHALL INCLUDE LINE GRADE, SURFACE DRAINAGE, ELEVATION, AND LOCATION OF PERMITTED GRADING ON THE LOT.

CONSTRUCTION NOTES/ESTIMATE OF QUANTITIES

NO.	DESCRIPTION	QUANTITY
	GENERAL CONSTRUCTION NOTES	SEE BID SCHEDULE
1	CONSTRUCT 3" A.C. OVER 6" A.B. PAVEMENT OVER 12" COMPACTED SUBGRADE (PARKING STALLS) - VERIFY WITH SOILS ENGINEER	
2	CONSTRUCT CONCRETE SURFACE PER LANDSCAPE ARCHITECT PLANS	
3	CONSTRUCT CURB PER CITY STD. ST-7, TYPE C-4, C.F. PER PLAN	
4	CONSTRUCT 6" CURB & GUTTER PER CITY STD. ST-7, TYPE C-2, C.F. PER PLAN, MODIFY FOR 2' WIDE GUTTER TO MATCH EXIST.

NOTICE TO CONTRACTOR:

THE ESTIMATES OF IMPROVEMENT AND GRADING QUANTITIES AS SHOWN HEREON ARE PROVIDED FOR SATISFYING PLAN CHECK INFORMATION REQUIREMENTS ONLY. THE CONTRACTOR SHALL PERFORM AN INDEPENDENT ESTIMATE OF ALL IMPROVEMENT QUANTITIES, INCLUDING GRADING QUANTITIES, AND SHALL USE SAME AS A BASIS FOR THEIR BID(S) AND CONTRACT(S).

NOTICE TO CONTRACTOR

CAUTION: THE ENGINEER PREPARING THESE PLANS WILL NOT BE RESPONSIBLE FOR, OR LIABLE FOR, UNAUTHORIZED CHANGES TO, OR USES OF THESE PLANS. ALL CHANGES TO THE PLANS MUST BE IN WRITING, AND MUST BE APPROVED BY THE PREPARER OF THESE PLANS.

THE EXISTENCE AND LOCATION OF ANY UNDERGROUND UTILITY FACILITIES SHOWN ON THESE PLANS WERE OBTAINED BY A SEARCH OF AVAILABLE RECORDS. THE LOCATIONS SHOWN ARE APPROXIMATE AND SHALL BE CONFIRMED IN THE FIELD BY THE CONTRACTOR. THE CONTRACTOR SHALL BE RESPONSIBLE FOR MAKING ANY NECESSARY ADJUSTMENTS TO ALIGNMENT AND/OR GRADE OF THE PROPOSED IMPROVEMENTS. THE CONTRACTOR IS REQUIRED TO TAKE DUE PRECAUTIONARY MEASURES TO PREVENT DAMAGE TO ANY UTILITY FACILITIES SHOWN AND ANY OTHER FACILITIES NOT SHOWN ON THESE PLANS.

ALL CONTRACTORS AND SUBCONTRACTORS PERFORMING WORK SHOWN ON THESE PLANS AGREE THAT, IN ACCORDANCE WITH GENERALLY ACCEPTED CONSTRUCTION PRACTICES, THEY WILL BE REQUIRED TO ASSUME SOLE AND COMPLETE RESPONSIBILITY FOR JOB SITE CONDITIONS DURING THE COURSE OF CONSTRUCTION OF THE PROJECT. THIS INCLUDES PROVIDING FOR THE SAFETY OF ALL PERSONS AND PROPERTY AND SHALL APPLY CONTINUOUSLY AND NOT BE LIMITED TO NORMAL WORKING HOURS. THE CONTRACTORS AND SUBCONTRACTORS FURTHER AGREE TO DEFEND, INDEMNIFY AND HOLD HARMLESS THE OWNER AND DESIGN PROFESSIONAL FROM ANY AND ALL LIABILITY, REAL OR ALLEGED, IN CONNECTION WITH THE PERFORMANCE OF WORK ON THIS PROJECT, EXCEPT FOR LIABILITY ARISING FROM THE SOLE NEGLIGENCE OF THE OWNER OR THE DESIGN PROFESSIONAL.

EXISTING UNDERGROUND STRUCTURES

THE EXISTENCE AND LOCATION OF ANY UNDERGROUND PIPES OR CONDUITS SHOWN ON THESE PLANS ARE OBTAINED BY A SEARCH OF THE AVAILABLE RECORDS. TO THE BEST OF OUR KNOWLEDGE, THERE ARE NO EXISTING UTILITIES EXCEPT AS SHOWN ON THESE PLANS. THE CONTRACTOR IS REQUIRED TO TAKE THE PRECAUTIONARY MEASURES TO PROTECT THE UTILITY LINES SHOWN AND ANY OTHER LINES NOT OF RECORD OR NOT SHOWN ON THESE PLANS. IT SHALL BE THE CONTRACTOR'S RESPONSIBILITY TO NOTIFY THE OWNERS OF THE UTILITIES OR STRUCTURES CONCERNED BEFORE STARTING WORK. CONTRACTOR FURTHER ASSUMES ALL LIABILITY AND RESPONSIBILITY FOR THE UNDERGROUND UTILITY PIPES, CONDUITS OR STRUCTURES SHOWN OR NOT SHOWN ON THESE PLANS; LOCATE ALL UTILITIES BEFORE CONSTRUCTION.

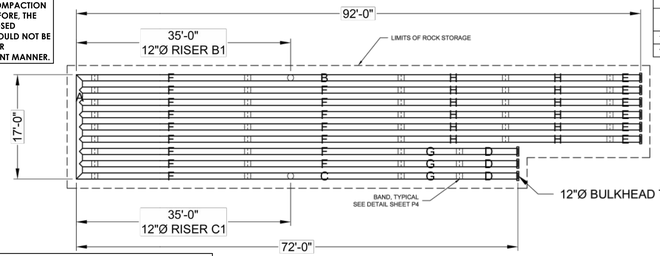
DATE DIRECTOR OF PUBLIC WORKS



SHT. 6 OF 195 DWG. NO. 5-2606

PLOT DATE: 9/26/2023

NOTE TO CONTRACTOR:

THIS BMP WAS DESIGNED IN CONJUNCTION WITH TESTED ONSITE SOIL INFILTRATION RATES THAT CAN BE SIGNIFICANTLY REDUCED IF THE SOILS ARE EXPOSED TO EXCESSIVE DISTURBANCE OR COMPACTION DURING CONSTRUCTION. THEREFORE, THE SUBGRADE SOILS WITHIN PROPOSED INFILTRATION SYSTEM AREAS SHOULD NOT BE OVEREXCAVATED, UNDERCUT OR COMPACTED IN ANY SIGNIFICANT MANNER.

OR APPROVED EQUAL

12"Ø RISER C1	TBD	TBD

SYSTEM DESCRIPTION:

FROM LID PLAN:
- **REQUIRED STORM WATER QUALITY DESIGN VOLUME ($SWQD_V$) = 1,870 cf**
- **REQUIRED $SWQD_V$ FLOW RATE = 0.31 cfs**

ALL REQUIRED TREATMENT FLOW WILL PASS THOUGH CDS UNIT AND INTO UNDERGROUND INFILTRATION SYSTEM. RUNOFF IN EXCESS OF REQUIRED FLOW AND VOLUME WILL BYPASS SYSTEM TO CURB DRAIN IN HARVARD AVE.

THE UNDERSIGNED HEREBY APPROVES THE ATTACHED (5) PAGES INCLUDING THE FOLLOWING:
- **PIPE STORAGE = 610 CF**
- **MAINLINE PIPE GAGE = 16**
- **WALL TYPE = PERFORATED**
- **DIAMETER = 12"**
- **FINISH = ALT2**
- **CORRUGATION = 2 2/3x1/2**

CUSTOMER _____ DATE _____

ASSEMBLY
SCALE: 1" = 20'
STRUCTURAL BACKFILL STORAGE: 1,196 CF
TOTAL STORAGE PROVIDED: 1,806 CF
LOADING: H20
PIPE INV. = 39.3±

NOTES
- THE PIPE SHOULD BE FULLY PERFORATED IN ACCORDANCE WITH AASHTO M 36, SECTION 8.3.2.2, AND USING CLASS 2 PERFORATIONS. THE TOTAL OPEN AREA OF THE PERFORATIONS WILL BE A MINIMUM OF 2.3% OF THE PIPE SURFACE AREA.
- BULKHEADS SHALL BE 12-GAGE OR HEAVIER STEEL AND THE COATING WILL MATCH THE SPECIFIED CMP COATING. BULKHEAD PLATES SHALL BE FULLY WELDED ONTO THE CMP WITH STEEL REINFORCEMENT AS REQUIRED. THE STEEL REINFORCEMENT SHALL BE POST COATED WITH ZINC RICH PAINT PER AASHTO M 36. BULKHEAD DESIGNS SHALL SATISFY THE REQUIREMENTS SHOWN IN CHAPTER 8 OF THE NCSPA CSP DESIGN MANUAL AND CALCULATIONS SHALL BE PROVIDED TO THE ENGINEER OF RECORD (EOR) FOR APPROVAL UPON REQUEST.
- ALL FITTINGS SHALL BE STRUCTURALLY CHECKED FOR REINFORCEMENTS PER ASTM A998 AND PROVIDED TO THE EOR FOR APPROVAL UPON REQUEST.
- CONNECTING BANDS FOR INFILTRATION SYSTEMS SHALL BE ANY TYPE, BUT MUST BE AT LEAST 12" WIDE. BANDS SHALL MATCH THE SPECIFIED CMP COATING AND MEET THE REQUIREMENTS OF AASHTO M 36.
- ALL METALLIC COATINGS AFFECTED BY MANUFACTURING FABRICATION SHALL BE REPAIRED PER AASHTO M 36 SECTION 11 REQUIREMENTS (E.G. ZINC-RICH PAINT ON ALL WELDS). IF POLYMER COATINGS ARE USED THE REPAIR OF DAMAGED COATINGS WILL BE IN CONFORMANCE WITH AASHTO M 245 SECTION 11 REQUIREMENTS.
- ACCESS LADDERS SHALL BE ATTACHED BY THE MANUFACTURER PRIOR TO DELIVERY, NOT INSTALLED ON THE JOBSITE.

The design and information shown on this drawing is provided as a service to the project owner, engineer and architect by Contech Engineered Solutions LLC ("Contech"). Neither this drawing, nor any part thereof, may be used, reproduced or modified in any manner without the prior written consent of Contech. Failure to comply is done at the user's own risk and Contech expressly disclaims any liability or responsibility for such use.
If discrepancies between the supplied information upon which the drawing is based and actual field conditions are encountered, it is the responsibility of the project owner or engineer of record to contact Contech immediately for re-evaluation of the design. Contech also expressly disclaims any responsibility for missing, incomplete or inaccurate information supplied by others.

CONSTRUCTION LOADS

FOR TEMPORARY CONSTRUCTION VEHICLE LOADS, AN EXTRA AMOUNT OF COMPACTED COVER MAY BE REQUIRED OVER THE TOP OF THE PIPE. THE HEIGHT-OF-COVER SHALL MEET THE MINIMUM REQUIREMENTS SHOWN IN THE TABLE BELOW. THE USE OF HEAVY CONSTRUCTION EQUIPMENT NECESSITATES GREATER PROTECTION FOR THE PIPE THAN FINISHED GRADE COVER MINIMUMS FOR NORMAL HIGHWAY TRAFFIC.

PIPE SPAN, INCHES	AXLE LOADS (kips)			
	18-50	50-75	75-110	110-150
	MINIMUM COVER (FT)			
12-42	2.0	2.5	3.0	3.0
48-72	3.0	3.0	3.5	4.0
78-120	3.0	3.5	4.0	4.0
126-144	3.5	4.0	4.5	4.5

*MINIMUM COVER MAY VARY, DEPENDING ON LOCAL CONDITIONS. THE CONTRACTOR MUST PROVIDE THE ADDITIONAL COVER REQUIRED TO AVOID DAMAGE TO THE PIPE. MINIMUM COVER IS MEASURED FROM THE TOP OF THE PIPE TO THE TOP OF THE MAINTAINED CONSTRUCTION ROADWAY SURFACE.

CONSTRUCTION LOADING DIAGRAM

SPECIFICATION FOR CORRUGATED STEEL PIPE-ALUMINIZED TYPE 2 STEEL

SCOPE

THIS SPECIFICATION COVERS THE MANUFACTURE AND INSTALLATION OF THE CORRUGATED STEEL PIPE (CSP) DETAILED IN THE PROJECT PLANS.

MATERIAL

THE ALUMINIZED TYPE 2 STEEL COILS SHALL CONFORM TO THE APPLICABLE REQUIREMENTS OF AASHTO M274 OR ASTM A929.

PIPE

THE CSP SHALL BE MANUFACTURED IN ACCORDANCE WITH THE APPLICABLE REQUIREMENTS OF AASHTO M36 OR ASTM A760. THE PIPE SIZES, GAGES AND CORRUGATIONS SHALL BE AS SHOWN ON THE PROJECT PLANS.

ALL FABRICATION OF THE PRODUCT SHALL OCCUR WITHIN THE UNITED STATES.

HANDLING AND ASSEMBLY

SHALL BE IN ACCORDANCE WITH RECOMMENDATIONS OF THE NATIONAL CORRUGATED STEEL PIPE ASSOCIATION (NCSPA).

INSTALLATION

SHALL BE IN ACCORDANCE WITH AASHTO STANDARD SPECIFICATIONS FOR HIGHWAY BRIDGES, SECTION 26, DIVISION II OR ASTM A798 AND IN CONFORMANCE WITH THE PROJECT PLANS AND SPECIFICATIONS. IF THERE ARE ANY INCONSISTENCIES OR CONFLICTS THE CONTRACTOR SHOULD DISCUSS AND RESOLVE WITH THE SITE ENGINEER.

IT IS ALWAYS THE RESPONSIBILITY OF THE CONTRACTOR TO FOLLOW OSHA GUIDELINES FOR SAFE PRACTICES.

ANTI-FLOTATION PROVISIONS DUE TO HIGH GROUNDWATER OR OTHER FLOTATION CONCERNS ARE SITE-SPECIFIC DESIGN CONSIDERATIONS AND SHALL BE SPECIFIED BY ENGINEER OF RECORD.

MATERIAL SPECIFICATION
NOT TO SCALE

The design and information shown on this drawing is provided as a service to the project owner, engineer and architect by Contech Engineered Solutions LLC ("Contech"). Neither this drawing, nor any part thereof, may be used, reproduced or modified in any manner without the prior written consent of Contech. Failure to comply is done at the user's own risk and Contech expressly disclaims any liability or responsibility for such use.
If discrepancies between the supplied information upon which the drawing is based and actual field conditions are encountered, it is the responsibility of the project owner or engineer of record to contact Contech immediately for re-evaluation of the design. Contech also expressly disclaims any responsibility for missing, incomplete or inaccurate information supplied by others.

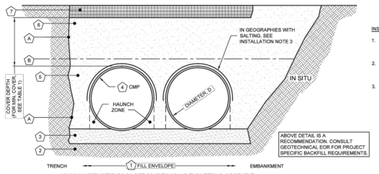
CONTECH PROPOSAL DRAWING



12"Ø PERFORATED UNDERGROUND RETENTION SYSTEM - 725765-010
GARDENA AQUATICS AND SENIOR CENTER
GARDENA, CA
SITE DESIGNATION:

PROJECT No.	SEQ. No.	DATE
725765	010	08/22/2023
DESIGNED	DRAWN	
RLH	RLH	
CHECKED	APPROVED	
SHEET NO. P2 OF 5		

TABLE 1:

DIAMETER, D	MIN. COVER	CORR. PROFILE
8"-10"	12"	1 1/2" x 1/4"
12"-48"	12"	2 2/3" x 1/2"
>48"-96"	12"	3" x 1", 5" x 1"
>96"	D/8	3" x 1", 5" x 1"

- STRUCTURAL BACKFILL MUST EXTEND TO LIMITS OF THE TABLE
- TOTAL HEIGHT OF COMPACTED COVER FOR FLEXIBLE PAVEMENT SHALL BE MEASURED FROM TOP OF PIPE TO BOTTOM OF FLEXIBLE PAVEMENT OR TOP OF RIGID PAVEMENT.

INSTALLATION NOTES

1. WHEN PLACING THE FIRST LIFTS OF BACKFILL IT IS IMPORTANT TO MAKE SURE THAT THE BACKFILL IS PROPERLY COMPACTED UNDER AND AROUND THE PIPE HAUNCHES.
2. OTHER ALTERNATE BACKFILL MATERIAL MAY BE ALLOWED BASED ON ONSITE SITE SPECIFIC CONDITIONS, AS APPROVED BY SITE ENGINEER.
3. IF SALTING AGENTS FOR SNOW AND ICE REMOVAL ARE USED ON OR NEAR THE PROJECT, A GEOMEMBRANE BARRIER IS RECOMMENDED BETWEEN THE SALTED ZONE AND THE PIPE. THE GEOMEMBRANE LINER IS INTENDED TO HELP PROTECT THE SYSTEM FROM THE POTENTIAL ADVERSE EFFECTS THAT MAY RESULT FROM A CHANGE IN THE SURROUNDING ENVIRONMENT OVER A PERIOD OF TIME. PLEASE REFER TO THE CORRUGATED METAL PIPE DETENTION DESIGN GUIDE FOR ADDITIONAL INFORMATION.

TABLE 2:

CMP RETENTION STANDARD BACKFILL SPECIFICATIONS

	MATERIAL LOCATION	MATERIAL SPECIFICATION	DESCRIPTION	
1	FILL ENVELOPE WIDTH	PER ENGINEER OF RECORD	MINIMUM TRENCH WIDTH MUST ALLOW ROOM FOR PROPER COMPACTION OF HAUNCH MATERIALS UNDER THE PIPE. THE SUGGESTED MINIMUM TRENCH WIDTH, OR EOR RECOMMENDATION: PIPE = D + 16" PIPE = 12": 1.5D + 12"	MINIMUM EMBANKMENT WIDTH (IN FEET) FOR INITIAL FILL ENVELOPE: PIPE = D+ 3.0D PIPE 24" - 144": D + 4'0" PIPE > 144": D + 10'0"
2	FOUNDATION	**AASHTO 26.5.2** - PER ENGINEER OF RECORD	PRIOR TO PLACING THE BEDDING, THE FOUNDATION MUST BE CONSTRUCTED TO A UNIFORM AND STABLE GRADE. IN THE EVENT THAT UNSUITABLE FOUNDATION MATERIALS ARE ENCOUNTERED DURING EXCAVATION, THEY SHALL BE REMOVED AND FOUNDATION BROUGHT BACK TO GRADE WITH A FILL MATERIAL APPROVED BY THE ENGINEER OF RECORD.	
3	BEDDING	**AASHTO M 43: 3, 357, 4, 467, 6, 56, 57**	ENGINEER OF RECORD TO DETERMINE IF BEDDING IS REQUIRED. PIPE MAY BE PLACED ON THE TRENCH BOTTOM OF A RELATIVELY LOOSE, NATIVE SUITABLE WELL GRADED GRANULAR MATERIAL THAT IS ROUGHLY SHAPED TO FIT THE BOTTOM OF THE PIPE, 2" MIN DEPTH. THE BEDDING MATERIAL MAY BE SUITABLE OPEN GRADED GRANULAR BEDDING CONFORMING TO AASHTO SOIL CLASSIFICATIONS A1, A2, OR A3 WITH MAXIMUM PARTICLE SIZE OF 3" PER AASHTO 26.3.8.1	
4			CORRUGATED METAL PIPE	
5	BACKFILL	FREE-DRAINING, ANGULAR, WASHED-STONE PER **AASHTO M 43: 3, 357, 4, 467, 5, 56, 57** OR APPROVED EQUAL *	HAUNCH ZONE MATERIAL SHALL BE HAND SHOVELED OR SHOVEL SLICED INTO PLACE TO ALLOW FOR PROPER COMPACTION WITHOUT SOFT SPOTS. BACKFILL SHALL BE PLACED IN 8" +/- LOOSE LIFTS AND COMPACTED TO 90% STANDARD PROCTOR PER AASHTO T 99. BACKFILL SHALL BE PLACED SUCH THAT THERE IS NO MORE THAN A TWO LIFT (16") DIFFERENTIAL BETWEEN ANY OF THE PIPES AT ANY TIME DURING THE BACKFILL PROCESS. THE BACKFILL SHOULD BE ADVANCED ALONG THE LENGTH OF THE SYSTEM TO AVOID DIFFERENTIAL LOADING. WHERE CONVENTIONAL COMPACTION TESTING IS NOT PRACTICAL, THE MATERIAL SHALL BE MECHANICALLY COMPACTED UNTIL NO FURTHER YIELDING OF MATERIAL IS OBSERVED UNDER THE COMPACTOR. ****IN AREAS WITH HIGH WATER TABLE FLUCTUATIONS THAT INTERACT WITH THE PIPE ZONE, CONSIDER INSTALLING A GEOTEXTILE SEPARATION LAYER TO PREVENT SOIL MIGRATION.**
6	COVER MATERIAL	UP TO MIN. COVER - **AASHTO M 145: A-1, A-2, A-3** ABOVE MIN. COVER - PER ENGINEER OF RECORD	COVER MATERIAL MAY INCLUDE NON-BITUMINOUS, GRANULAR ROADBASE MATERIAL WITHIN MIN COVER LIMITS	
7	RIGID OR FLEXIBLE PAVEMENT (IF APPLICABLE)	PER ENGINEER OF RECORD	FLEXIBLE PAVEMENT SHOULD NOT BE COUNTED AS PART OF THE FILL HEIGHT OVER THE CMP. FINAL BACKFILL MATERIAL SELECTION AND COMPACTION REQUIREMENTS SHALL FOLLOW THE PROJECT PLANS AND SPECIFICATIONS PER THE ENGINEER OF RECORD.	
8	OPTIONAL SIDE GEOTEXTILE	NONE	GEOTEXTILE LAYER IS RECOMMENDED ON SIDES OF EXCAVATION TO PREVENT SOIL MIGRATION.	
9	GEOTEXTILE BETWEEN LAYERS	NONE	IF SOIL TYPES DIFFER AT ANY POINT ABOVE PIPE INVERT, A GEOTEXTILE LAYER IS RECOMMENDED TO BE PLACED BETWEEN THE LAYERS TO PREVENT SOIL MIGRATION.	

NOTES:
- FOR MULTIPLE BARREL INSTALLATIONS, THE RECOMMENDED STANDARD SPACING BETWEEN PARALLEL PIPE RUNS SHALL BE THE PIPE DIAMETER /2 BUT NO LESS THAN 12" FOR DIAMETERS <72". FOR 72" AND LARGER DIAMETERS, THE MINIMUM SPACING IS 36". CONTACT YOUR CONTECH REPRESENTATIVE FOR NONSTANDARD SPACING.
- APPROVED REGIONAL EQUIVALENTS FOR SECTION 5 INCLUDE CA-7, MIDOT 6AA, 6A, OR 5G, PROVIDED THEY MEET THE PARTICLE SIZES INDICATED.

GENERAL NOTES
1. CONTECH TO PROVIDE ALL MATERIALS UNLESS NOTED OTHERWISE.
2. FOR FABRICATION DRAWINGS WITH DETAILED STRUCTURE DIMENSIONS AND WEIGHT, PLEASE CONTACT YOUR CONTECH ENGINEERED SOLUTIONS LLC REPRESENTATIVE. www.ContechES.com
3. CDS WATER QUALITY STRUCTURE SHALL BE IN ACCORDANCE WITH ALL DESIGN DATA AND INFORMATION CONTAINED IN THIS DRAWING. CONTRACTOR TO CONFIRM STRUCTURE MEETS REQUIREMENTS OF PROJECT.
4. STRUCTURE SHALL MEET AASHTO HS-20 LOAD RATING, ASSUMING EARTH COVER OF 0' - 2', AND GROUNDWATER ELEVATION AT, OR BELOW, THE OUTLET PIPE INVERT ELEVATION. ENGINEER OF RECORD TO CONFIRM ACTUAL GROUNDWATER ELEVATION. CASTINGS SHALL MEET AASHTO M306 AND BE CAST WITH THE CONTECH LOGO.
5. IF REQUIRED, PVC HYDRAULIC SHEAR PLATE IS PLACED ON SHELF AT BOTTOM OF SCREEN CYLINDER. REMOVE AND REPLACE AS NECESSARY DURING MAINTENANCE CLEANING.
6. CDS STRUCTURE SHALL BE PRECAST CONCRETE CONFORMING TO ASTM C-478 AND AASHTO LOAD FACTOR DESIGN METHOD.

INSTALLATION NOTES
A. ANY SUB-BASE, BACKFILL DEPTH, AND/OR ANTI-FLOTATION PROVISIONS ARE SITE-SPECIFIC DESIGN CONSIDERATIONS AND SHALL BE SPECIFIED BY ENGINEER OF RECORD.
B. CONTRACTOR TO PROVIDE EQUIPMENT WITH SUFFICIENT LIFTING AND REACH CAPACITY TO LIFT AND SET THE CDS MANHOLE STRUCTURE.
C. CONTRACTOR TO INSTALL JOINT SEALANT BETWEEN ALL STRUCTURE SECTIONS AND ASSEMBLE STRUCTURE.
D. CONTRACTOR TO PROVIDE, INSTALL AND GROUT INLET AND OUTLET PIPE(S). MATCH PIPE INVERTS WITH ELEVATIONS SHOWN. ALL PIPE CENTERLINES TO MATCH PIPE OPENING CENTERLINES.
E. CONTRACTOR TO TAKE APPROPRIATE MEASURES TO ASSURE UNIT IS WATER TIGHT, HOLDING WATER TO FLOWLINE INVERT MINIMUM. IT IS SUGGESTED THAT ALL JOINTS BELOW PIPE INVERTS ARE GROUTED.

STRUCTURE WEIGHT
APPROXIMATE HEAVIEST PICK = 6500 LBS.
STRUCTURE IS DELIVERED IN 3 PIECES

MAX FOOTPRINT = Ø4'-10"

NOTE TO CONTRACTOR:

CONTRACTOR TO SCHEDULE A SITE WALK WITH THE CITY PRIOR TO START OF DEMOLITION TO VERIFY ALL ITEMS TO BE DEMOLISHED.

ENGINEER OF RECORD STATEMENT

ALL EASEMENTS HAVE BEEN SHOWN AS PER PROVIDED PRELIMINARY TITLE REPORTS BY FIDELITY NATIONAL TITLE CO. (ORDER NO. 987-30076643-18V, DATED OCT. 28, 2021). LAWYERS TITLE (FILE NO. 218254769, DATED SEPT. 7, 2018). AND FIDELITY NATIONAL TITLE CO. (ORDER NO. 989-30033538-D-DL1, DATED FEB. 9, 2021).

THOMAS E. CARCELLI, P.E. — 10/2/2023 DATE

NOTE TO CONTRACTOR:

ALL WORK OUTSIDE OF THE PROPERTY LINES WILL REQUIRE A SEPARATE ENCROACHMENT PERMIT BY THE CITY OF GARDENA.

DEMOLITION GENERAL NOTES

1. CONTRACTOR SHALL CONDUCT A SURVEY OF EXISTING CONDITIONS AND CORRELATE WITH REQUIREMENTS INDICATED TO DETERMINE AND VERIFY THE EXTENT OF DEMOLITION REQUIRED.
2. CONTRACTOR SHALL RECORD EXISTING CONDITIONS BY USE OF PRE-CONSTRUCTION PHOTOGRAPHS, PRE-CONSTRUCTION VIDEOTAPES, AND DRAWINGS AS APPROPRIATE.
3. A SURVEY SHALL BE PERFORMED AS WORK PROGRESSES TO DETECT HAZARDS RESULTING FROM DEMOLITION ACTIVITIES.
4. CONTRACTOR SHALL KEEP INVENTORY AND RECORD THE CONDITION OF ITEMS TO BE REMOVED.
5. LOCATE ALL EXISTING UTILITIES WHETHER SHOWN HEREON OR NOT AS THE FIRST ITEM OF WORK AND PROTECT THEM FROM DAMAGE. NOTIFY OWNER IMMEDIATELY IF DAMAGE OCCURS AND ASSUME FULL RESPONSIBILITY FOR EXPENSE OF REPAIR OR REPLACEMENT. NOTIFY OWNER'S REPRESENTATIVE IMMEDIATELY SHOULD FIELD CONDITIONS VARY FROM THOSE SHOWN ON PLAN.
6. WHEN UNANTICIPATED ELECTRICAL, STRUCTURAL, OR OTHER ELEMENTS INCLUDING STORM DRAIN, WATER AND SEWER LINES THAT CONFLICT WITH INTENDED DESIGN ARE ENCOUNTERED, CONTRACTOR SHALL INVESTIGATE AND MEASURE THE NATURE AND EXTENT OF CONFLICT AND CONTRACTOR SHALL PROMPTLY SUBMIT A WRITTEN REPORT TO THE CITY.
7. CONTRACTOR SHALL LOCATE, IDENTIFY, DISCONNECT, AND SEAL OR CAP OFF INDICATED UTILITY SERVICES AND MECHANICAL/ELECTRICAL SYSTEMS SERVING AREAS TO BE SELECTIVELY DEMOLISHED AND:
   - SHALL ARRANGE TO SHUT OFF INDICATED UTILITIES WITH UTILITY COMPANIES.
   - IF SERVICES/SYSTEMS ARE REQUIRED TO BE REMOVED, RELOCATED, OR ABANDONED, BEFORE PROCEEDING WITH DEMOLITION CONTRACTOR SHALL PROVIDE TEMPORARY SERVICES/SYSTEMS THAT BYPASS AREA OF DEMOLITION AND THAT MAINTAIN CONTINUITY OF SERVICES/SYSTEMS TO OTHER PARTS OF BUILDING AND SITE.
   - SHALL CUT OFF PIPE OR CONDUIT IN WALLS TO BE REMOVED, CAP, VALVE, OR PLUG AND SEAL REMAINING PORTION OF PIPE OR CONDUIT AFTER BYPASSING; WHERE ENTIRE WALL IS TO BE REMOVED, EXISTING SERVICES/SYSTEMS MAY BE REMOVED WITH REMOVAL OF THE WALL. CONTRACTOR SHALL CUT OFF PIPE OR CONDUIT SO IT WILL NOT BE VISIBLE IN FINISHED CONSTRUCTION.
9. CONTRACTOR SHALL PROTECT EXISTING SERVICES/SYSTEMS INDICATED AGAINST DAMAGE DURING DEMOLITION OPERATIONS.
10. INACTIVE OR ABANDONED UTILITIES SHALL BE DISCONNECTED, REMOVED, AND PLUGGED OR CAPPED SUBJECT TO THE LOCAL GOVERNING AGENCIES.
11. ACTIVE UTILITIES SHALL BE PROTECTED BY AND AT THE EXPENSE OF THE CONTRACTOR. KEEP ANY REQUIRED UTILITY IN OPERATING CONDITION DURING THE ENTIRE PERIOD OF WORK, INCLUDING EXISTING IRRIGATION SYSTEMS FOR LANDSCAPE MAINTENANCE.
12. DO NOT WILLFULLY PROCEED WITH CONSTRUCTION WHEN IT IS OBVIOUS THAT KNOWN OBSTRUCTIONS EXIST THAT MAY NOT HAVE BEEN KNOWN DURING DESIGN. SUCH CONDITIONS SHALL BE IMMEDIATELY BROUGHT TO THE ATTENTION OF THE OWNER'S AUTHORIZED REPRESENTATIVE. ASSUME RESPONSIBILITY FOR ALL NECESSARY REVISION DUE TO FAILURE TO GIVE SUCH NOTIFICATION.
13. CONTRACTOR SHALL CONDUCT DEMOLITION AND DEBRIS-REMOVAL OPERATIONS TO ENSURE MINIMUM INTERFERENCE WITH ROADS, STREETS, WALKS, WALKWAYS, AND OTHER ADJACENT OCCUPIED AND USED FACILITIES.
14. CONTRACTOR SHALL PROVIDE TEMPORARY BARRICADES AND OTHER PROTECTION REQUIRED TO PREVENT INJURY TO PEOPLE AND DAMAGE TO ADJACENT BUILDINGS AND FACILITIES TO REMAIN AND:
   - SHALL PROVIDE TEMPORARY WEATHER PROTECTION, DURING THE INTERVAL BETWEEN DEMOLITION OF EXISTING CONSTRUCTION ON EXTERIOR SURFACES AND NEW CONSTRUCTION, TO PREVENT WATER LEAKAGE AND DAMAGE TO STRUCTURE AND INTERIOR AREAS.
   - SHALL PROTECT WORK THAT IS TO REMAIN OR THAT IS EXPOSED DURING DEMOLITION OPERATIONS.
   - SHALL COVER AND PROTECT EQUIPMENT THAT HAS NOT BEEN REMOVED.
15. CONTRACTOR SHALL PROVIDE AND MAINTAIN SHORING, BRACING, AND STRUCTURAL SUPPORTS AS REQUIRED TO PRESERVE STABILITY AND PREVENT MOVEMENT, SETTLEMENT, OR COLLAPSE OF CONSTRUCTION AND FINISHES THAT REMAIN, AND TO PREVENT UNEXPECTED OR UNCONTROLLED MOVEMENT OR COLLAPSE OF CONSTRUCTION BEING DEMOLISHED. CONTRACTOR SHALL STRENGTHEN OR ADD NEW SUPPORTS WHEN REQUIRED DURING PROGRESS OF DEMOLITION.
16. DEMOLITION AND REMOVAL WORK SHALL BE CAREFULLY PERFORMED TO AVOID DAMAGE TO EXISTING TREES NOTED ON THE PLANS TO REMAIN.
17. ALL WORK SHALL CONFORM TO THE REQUIREMENTS OF THE LATEST ADOPTED EDITIONS OF THE UNIFORM BUILDING CODE, THE AMERICANS WITH DISABILITIES ACT, AND ALL OTHER APPLICABLE LOCAL AND STATE CODES, ORDINANCES AND REGULATIONS.
18. CONTRACTOR SHALL USE METHODS REQUIRED TO COMPLETE THE WORK WITHIN THE LIMITATIONS OF GOVERNING REGULATIONS AND AS FOLLOWS:
   - SHALL NEATLY CUT OPENINGS AND HOLES PLUMB, SQUARE, AND TRUE TO DIMENSIONS REQUIRED, USING CUTTING METHODS LEAST LIKELY TO DAMAGE CONSTRUCTION TO REMAIN OR ADJOINING CONSTRUCTION. USE HAND TOOLS OR SMALL POWER TOOLS DESIGNED FOR SAWING OR GRINDING, NOT HAMMERING AND CHOPPING, TO MINIMIZE DISTURBANCE OF ADJACENT SURFACES. TEMPORARILY COVER OPENINGS TO REMAIN.
   - SHALL CUT OR DRILL FROM THE EXPOSED OR FINISHED SIDE INTO CONCEALED SURFACES TO AVOID MARRING EXISTING FINISHED SURFACES.
   - SHALL NOT USE CUTTING TORCHES UNTIL WORK AREA IS CLEARED OF FLAMMABLE MATERIALS. AT CONCEALED SPACES, SUCH AS DUCT AND PIPE INTERIORS, VERIFY CONDITION AND CONTENTS OF HIDDEN SPACE BEFORE STARTING FLAME-CUTTING OPERATIONS. MAINTAIN FIRE WATCH AND PORTABLE FIRE-SUPPRESSION DEVICES DURING FLAME-CUTTING OPERATIONS.
   - SHALL MAINTAIN ADEQUATE VENTILATION WHEN USING CUTTING TORCHES.
   - SHALL REMOVE DECAYED, TERMITE-INFESTED, VERMIN-INFESTED, OR OTHERWISE DANGEROUS OR UNSUITABLE MATERIALS AND PROMPTLY DISPOSE OF OFF-SITE.
   - SHALL LOCATE DEMOLITION EQUIPMENT AND REMOVE DEBRIS AND MATERIALS SO AS NOT TO IMPOSE EXCESSIVE LOADS ON STRUCTURES TO REMAIN.
19. CLEAR THE SITE OF GRASS, WEED GROWTH, RUBBISH, DEBRIS, PAVEMENT, CONCRETE, INACTIVE OR ABANDONED FACILITIES (VERIFIED BY THE AGENCY), THAT ARE TO BE REMOVED FOR CONSTRUCTION OF THE SITE IMPROVEMENTS TO THE LIMITS AND DEPTHS SHOWN ON THE PLANS.
20. ABANDONED UNDERGROUND FACILITIES (VERIFIED BY THE AGENCY), ROOTS THREE INCHES IN DIAMETER AND LARGER, AND ROCKS AND BROKEN MASONRY LARGER THAN 4 INCHES IN ANY DIMENSION SHALL BE REMOVED TO A MINIMUM DEPTH OF 12" BELOW FINISH GRADE.
21. ALL DELETERIOUS MATERIALS WITHIN THE LIMITS OF THE WORK SHALL BE DISPOSED OF OFF-SITE BY THE CONTRACTOR, WHO SHALL MAKE ALL NECESSARY ARRANGEMENTS AND PAY ALL RELATED COSTS.
22. CONTRACTOR SHALL REMOVE DEMOLISHED MATERIALS FROM PROJECT SITE AND LEGALLY DISPOSE OF THEM AT THE CONTRACTOR'S EXPENSE IN AN EPA-APPROVED LANDFILL AND:
   - SHALL NOT ALLOW DEMOLISHED MATERIALS TO ACCUMULATE ON-SITE.
   - SHALL REMOVE AND TRANSPORT DEBRIS IN A MANNER THAT WILL PREVENT SPILLAGE ON ADJACENT SURFACES AND AREAS.
23. CONTRACTOR SHALL NOT BURN DEMOLISHED MATERIALS.
24. CONTRACTOR SHALL CLEAN ADJACENT STRUCTURES AND IMPROVEMENTS OF DUST, DIRT, AND DEBRIS CAUSED BY DEMOLITION OPERATIONS AND RETURN ADJACENT AREAS TO CONDITION EXISTING BEFORE DEMOLITION OPERATIONS BEGAN.

DEMOLITION NOTES

			ESTIMATED QUANTITY
	1	SAWCUT AND REMOVE EXISTING CONCRETE CONCRETE OR PAD (COMPLETE) AND DISPOSE ****	3,460 SF
	2	REMOVE EXISTING WALL FOOTING (COMPLETE) AND DISPOSE	135 LF
	3	REMOVE EXISTING DRIVEWAY AND GUTTER (COMPLETE) AND DISPOSE	2 EA
	4	REMOVE EXISTING A.C./A.B. PAVEMENT (COMPLETE) AND DISPOSE	170 LF
	5	PROTECT IN PLACE - POTHOLE AND LOCATE EXISTING UNDERGROUND UTILITY LINES TO PROTECT AS REQUIRED	-
	6	REMOVE EXISTING CURB AND GUTTER (COMPLETE) AND DISPOSE	170 LF
	7	REMOVE EXISTING LANDSCAPE/IRRIGATION AND CAP AT LIMITS OF DEMOLITION AND DISPOSE **	585 SF

** CAP AND REMOVE IRRIGATION LINES AS REQ'D

**** SEE SOILS REPORT FOR ADDITIONAL DEMOLITION REQUIREMENTS

NOTE TO CONTRACTOR:

ALL UTILITIES SHOULD BE SHUT OFF AND CAPPED PER UTILITY COMPANY REQUIREMENTS.
CONTRACTOR SHALL COORDINATE WITH APPROPRIATE UTILITY COMPANY PRIOR TO COMMENCEMENT OF WORK.

NOTE TO CONTRACTOR:

INSTALL 6-FOOT CHAIN LINK FENCE WITH WINDSCREEN AND GATES, WHERE NECESSARY, ALONG THE PERIMETER OF THE SITE AS NEEDED. CONTRACTOR SHALL PROTECT THESE FENCES AND KEEP AREA FULLY SECURE DURING DEMOLITION. PROJECT FENCE, GATE, PRIVATE SCREEN, PERIMETER WATER POLLUTION CONTROL SHALL BECOME THE PROPERTY OF THE CITY AND SHALL REMAIN IN PLACE AT THE COMPLETION OF DEMOLITION.

NOTE TO CONTRACTOR:

- LOCATION OF EXISTING FACILITIES SHOWN HEREON ARE BASED ON THE EXISTING TOPOGRAPHIC SURVEY PERFORMED BY civTEC, INC., DATED FEBRUARY, 2021. FIELD OBSERVATION AND A SEARCH OF AVAILABLE RECORDS AND MAY NOT REPRESENT ACTUAL CONDITIONS.
- CONTRACTOR MUST FIELD LOCATE ALL UTILITIES (LOCATION AND DEPTH) WITHIN WORK AREA AS A FIRST ITEM OF WORK AND VERIFY PROPOSED DESIGN IS VALID.
- CONTRACTOR SHALL PROTECT IN PLACE THE UTILITY LINES SHOWN AND ANY OTHER LINES NOT OF RECORD OR NOT SHOWN ON THESE PLANS. CONTRACTOR SHALL BE RESPONSIBLE FOR ANY DAMAGE TO THE EXISTING UTILITY LINES.
- CONTRACTOR TO VERIFY AND INFORM THE CITY OF ANY FACILITIES ENCOUNTERED IN THE FIELD WHICH IS NOT SHOWN ON THIS PLAN, OR DIFFERS IN LOCATION OR SIZE, PRIOR TO REMOVAL.
- THE CITY MAY IDENTIFY AND REMOVE ANY ITEMS THEY WISH TO RETAIN PRIOR TO THE CONTRACTOR MOVE IN.

NOTE TO CONTRACTOR:

EXACT LOCATION OF EXISTING UNDERGROUND STORM DRAIN LINES ON-SITE ARE UNKNOWN. CONTRACTOR SHALL:

- VERIFY LOCATION, SIZE, ELEVATIONS OF EXISTING STORM DRAIN AND VERIFY DESIGN AS A FIRST ITEM OF WORK. NOTIFY ENGINEER IMMEDIATELY OF ANY REQUIRED CHANGE IN DESIGN.
- CAP EXISTING STORM DRAIN AT DEMOLITION LIMITS - NOTIFY ENGINEER OF ALL LOCATIONS, SIZES AND INVERT ELEVATIONS AT COMPLETION OF DEMOLITION.
- IF INLET PIPES ARE FOUND CONNECTING TO EXISTING GRATES THAT ARE REMOVED DURING THE CONSTRUCTION OF THIS PROJECT (OR PIPES ARE DAMAGED OR REMOVED DURING CONSTRUCTION) THAT RUN OUTSIDE OF DEMOLITION LIMITS, NOTIFY ENGINEER IMMEDIATELY OF THE LOCATION AND SIZE TO INSURE CONTINUITY OF DRAINAGE UPSTREAM.

SOILS ENGINEER STATEMENT

THESE GRADING PLANS WERE REVIEWED AND APPROVED, AND THAT THEY COMPLY WITH ALL THE REQUIREMENTS AND RECOMMENDATIONS OF THE GEOTECHNICAL/SOILS REPORT (GEOTECHNICAL INVESTIGATION PROPOSED COMMUNITY AQUATIC AND SENIOR CENTER BY SOUTHERN CALIFORNIA GEOTECHNICAL, INC. DATED NOVEMBER 18, 2021 AND RESULTS OF INFILTRATION TESTING BY SOUTHERN CALIFORNIA GEOTECHNICAL DATED NOVEMBER 19, 2021) AND GEOTECHNICAL/SOILS ENGINEER.

NAME — 10/5/2023 DATE

REGISTERED PROFESSIONAL ENGINEER GREGORY K. MITCHELL No. 2964 GEOTECHNICAL STATE OF CALIFORNIA

SCALE: 1" = 10'
0 5 10 20

NOTE TO CONTRACTOR REGARDING GRADING WITHIN AREA OF PROPOSED INFILTRATION SYSTEM:

INFILTRATION RATES CAN BE SIGNIFICANTLY REDUCED IF THE SOILS ARE EXPOSED TO EXCESSIVE DISTURBANCE OR COMPACTION DURING CONSTRUCTION. COMPACTION OF THE SOILS AT THE BOTTOM OF THE INFILTRATION SYSTEM CAN SIGNIFICANTLY REDUCE THE INFILTRATION ABILITY OF THE BASINS. THEREFORE, THE SUBGRADE SOILS WITHIN PROPOSED INFILTRATION SYSTEM AREAS SHOULD NOT BE OVER-EXCAVATED, UNDERCUT OR COMPACTED IN ANY SIGNIFICANT MANNER.

A REPRESENTATIVE FROM THE GEOTECHNICAL ENGINEER SHOULD BE ON-SITE DURING THE CONSTRUCTION OF THE PROPOSED INFILTRATION SYSTEM TO IDENTIFY THE SOIL CLASSIFICATION AT THE BASE OF THE SYSTEM. IT SHOULD BE CONFIRMED THAT THE SOILS AT THE BASE OF THE PROPOSED INFILTRATION SYSTEMS CORRESPOND WITH THOSE PRESENTED IN THE INFILTRATION REPORT TO ENSURE THAT THE PERFORMANCE OF THE SYSTEMS WILL BE CONSISTENT WITH THE RATES REPORTED HEREIN.

WE RECOMMEND THAT SCRAPERS AND OTHER RUBBER-TIRED HEAVY EQUIPMENT NOT BE OPERATED ON THE BASIN BOTTOM, OR AT LEVELS LOWER THAN 2 FEET ABOVE THE BOTTOM OF THE SYSTEM, PARTICULARLY WITHIN BASINS. AS SUCH, THE BOTTOM 24 INCHES OF THE INFILTRATION SYSTEM SHOULD BE EXCAVATED WITH NON-RUBBER-TIRED EQUIPMENT, SUCH AS EXCAVATORS

CONSTRUCTION NOTES

GENERAL CONSTRUCTION NOTES

1. CONSTRUCT 3" A.C. OVER 6" A.B. PAVEMENT OVER 12" COMPACTED SUBGRADE (PARKING STALLS) - VERIFY WITH SOILS ENGINEER
2. CONSTRUCT CONCRETE SURFACE PER LANDSCAPE ARCHITECT PLANS
3. CONSTRUCT CURB PER CITY STD. ST-7, TYPE C-4, C.F. PER PLAN
4. CONSTRUCT 6" CURB & GUTTER PER CITY STD. ST-7, TYPE C-2, C.F. PER PLAN, MODIFY FOR 2' WIDE GUTTER TO MATCH EXIST.
5. CONSTRUCT CURB FACE TRANSITION PER DETAIL 1, SHEET C-0.02
6. CONSTRUCT ADA CURB RAMP PER CALTRANS DRAWING A88A, CASE A AND DETAIL B
7. CONSTRUCT FULL-DEPTH A.C. PAVEMENT PER DETAIL 2, SHEET C-0.02
8. CONSTRUCT 3' WIDE V-GUTTER PER DETAIL 3, SHEET C-0.02
9. RECONSTRUCT NORTHERLY SECTION OF EXISTING DRIVEWAY PER CITY STD. ST-2
10. PROTECT IN PLACE
11. CONSTRUCT MOUNTABLE 6" CURB & GUTTER PER SPPWC STD. PLAN 121-3, TYPE B2-6, C.F. PER PLAN, MODIFY FOR 2' WIDE GUTTER TO MATCH EXIST.
12. CONSTRUCT TRANSITION FROM MOUNTABLE CURB & GUTTER TO STANDARD CURB & GUTTER
13. CONSTRUCT ADA CURB RAMP PER CALTRANS DRAWING A88A, CASE C WITHOUT RETAINING CURB AT BACK
14. CONSTRUCT ADA CURB RAMP PER CALTRANS DRAWING A88A, CASE G

STORM DRAIN CONSTRUCTION NOTES

*** NOTE TO CONTRACTOR:**

CONTRACTOR TO VERIFY ELEVATION PRIOR TO CONSTRUCTION AND NOTIFY CITY AND CIVIL ENGINEER IMMEDIATELY OF ANY DISCREPANCY.

**** NOTE TO CONTRACTOR:**

VERIFY EXACT SIZE, LOCATION AND INVERT OF BUILDING SEWER P.O.C. AND SIZE AND LOCATION OF BUILDING WATER P.O.C. WITH PLUMBING DRAWINGS PRIOR TO CONSTRUCTION AND COORDINATE INSTALLATION.

NOTE TO CONTRACTOR:

LOCATE ALL EXISTING UTILITIES AS A FIRST ITEM OF WORK AND PROTECT THEM IN PLACE AS REQUIRED.

EXISTING UNDERGROUND STRUCTURES

THE EXISTENCE AND LOCATION OF ANY UNDERGROUND PIPES OR CONDUITS SHOWN ON THESE PLANS ARE OBTAINED BY A SEARCH OF THE AVAILABLE RECORDS. TO THE BEST OF OUR KNOWLEDGE, THERE ARE NO EXISTING UTILITIES EXCEPT AS SHOWN ON THESE PLANS. THE CONTRACTOR IS REQUIRED TO TAKE THE PRECAUTIONARY MEASURES TO PROTECT THE UTILITY LINES SHOWN AND ANY OTHER LINES NOT OF RECORD OR NOT SHOWN ON THESE PLANS. IT SHALL BE THE CONTRACTOR'S RESPONSIBILITY TO NOTIFY THE OWNERS OF THE UTILITIES OR STRUCTURES CONCERNED BEFORE STARTING WORK. CONTRACTOR FURTHER ASSUMES ALL LIABILITY AND RESPONSIBILITY FOR THE UNDERGROUND UTILITY PIPES, CONDUITS OR STRUCTURES SHOWN OR NOT SHOWN ON THESE PLANS. LOCATE ALL UTILITIES BEFORE CONSTRUCTION.

ENGINEER OF RECORD STATEMENT

ALL EASEMENTS HAVE BEEN SHOWN AS PER PROVIDED PRELIMINARY TITLE REPORTS BY FIDELITY NATIONAL TITLE CO. (ORDER NO. 987-30076643-18V, DATED OCT. 28, 2021), LAWYERS TITLE (FILE NO. 218254769, DATED SEPT. 7, 2018), AND FIDELITY NATIONAL TITLE CO. (ORDER NO. 989-30033538-D-DL1, DATED FEB. 9, 2021).

85	CONNECT PRIVATE SEWER LINE TO BLDG. SEWER LINE - SEE BUILDING PLUMBING PLANS	5 EA
86	CONNECT SEWER LINE TO DRINKING FOUNTAIN PER MANUFACTURES SPECIFICATIONS	2 EA
87	CONNECT TO EXISTING SEWER LINE WITH CUT-IN SADDLE	1 EA

NOTICE TO THE CONTRACTOR

THE ESTIMATES OF IMPROVEMENT AND GRADING QUANTITIES AS SHOWN HEREON ARE PROVIDED FOR SATISFYING PLAN CHECK INFORMATION REQUIREMENTS ONLY. THE CONTRACTOR SHALL PERFORM AN INDEPENDENT ESTIMATE OF ALL IMPROVEMENT QUANTITIES INCLUDING GRADING QUANTITIES, AND SHALL USE SAME AS A BASIS FOR HIS BID(S) AND CONTRACT(S).

GOLDEN STATE WATER COMPANY NEW SERVICE INSTALLATION NOTES:

1. METER BOX PLACEMENT SHALL BE PER GSWC STD. DWG. NO. P-28 AND/OR AS SHOWN ON PLANS. NO METERS SHALL BE INSTALLED BEYOND LIMITS OF PUBLIC RIGHT OF WAY WITHOUT EASEMENTS, UNLESS OTHERWISE INDICATED ON PLANS.
2. 12" MINIMUM SPACING BETWEEN SERVICE TAPS, EXCEPT ON ACP AND PVC MAINS WHERE 24" MINIMUM SPACING SHALL BE PROVIDED.
3. FOR HDPE SERVICE LINES, SNAKE THE SERVICE LINE IN THE TRENCH TO PROVIDE ENOUGH SLACK TO ALLOW AT LEAST ONE FOOT OF THERMAL CONTRACTION PER 100 FEET OF LENGTH. ATTACH TRACER WIRE TO HDPE SERVICE LINE.
4. NO JOINTS PERMITTED IN SERVICE LINES UNLESS AN ELBOW IS USED FOR THE 2" WATER SERVICE CONNECTION.
5. ALL NEW SERVICES SHALL BE INSTALLED USING SERVICE SADDLES.
6. FOR 5/8" x 3/4" METER, USE AN A24 ADAPTER.
7. FOR 3/4" x 3/4" METER, USE AN A34 ADAPTER.
8. FOR A 1" ANGLE METER VALVE, 1" COPPER PACK JOINT X ¾" METER NUT MAY BE UTILIZED WHEN SPECIFIED ON CONSTRUCTION PLANS.
9. SERVICES SHALL BE INSTALLED A MINIMUM OF 10 FEET FROM ALL SEWER LATERALS AND PROPOSED STREET TREE OR STREET LIGHT LOCATIONS.
10. IN AREAS WITH CORROSIVE SOILS USE HDPE SERVICE LINES WITH TRACER WIRE.
11. USE SILVER SOLDER (LEAD FREE) FOR ALL COPPER SERVICE WORK.
12. APPLICANT TO INSTALL BACKFLOW PREVENTION ASSEMBLY PER REQUIREMENTS OF GSWC'S CROSS-CONNECTION CONTROL POLICY ON ALL SERVICES AS CALLED FOR ON THE PLANS.
13. CURB MARKING WILL BE AS ALLOWED BY THE LOCAL GOVERNING AGENCY.

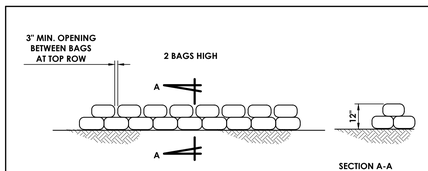
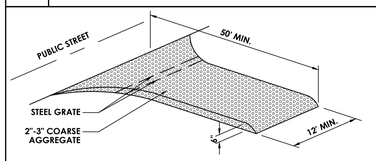
DEPARTMENT OF PUBLIC WORKS - ENGINEERING
WATER / SEWER PLAN
COMMUNITY AQUATICS & SENIOR CENTER
C-2.01

APPROVED BY:
DATE — DIRECTOR OF PUBLIC WORKS



SHT. 11 OF 195 DWG. NO. 5-2606

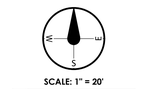
PLOT DATE: 9/26/2023



NPDES NOTES:

1. CONSTRUCTION SITE BEST MANAGEMENT PRACTICES (BMPS) FOR THE MANAGEMENT OF STORM WATER AND NON-STORMWATER DISCHARGES SHALL BE DOCUMENTED ON THE GRADING PLAN. ARRANGEMENTS SHALL BE MADE BY THE DEVELOPER TO RETAIN THE SWPPP AND/OR THE EROSION/SEDIMENT CONTROL PLAN ON THE JOBSITE THROUGHOUT THE TIME OF CONSTRUCTION. THE IMPLEMENTATION AND MAINTENANCE OF SITE BMPS IS REQUIRED TO MINIMIZE JOBSITE EROSION AND SEDIMENTATION. ARRANGEMENTS SHALL BE MADE BY THE CONTRACTOR TO MAINTAIN THOSE BMPs THROUGHOUT THE TIME OF CONSTRUCTION.
2. EROSION CONTROL BMPS SHALL BE IMPLEMENTED AND MAINTAINED TO MINIMIZE THE ENTRAINMENT OF SOIL IN RUNOFF FROM DISTURBED SOIL AREAS ON CONSTRUCTION SITES.
3. SEDIMENT CONTROL BMPS SHALL BE IMPLEMENTED AND MAINTAINED TO MINIMIZE THE TRANSPORT OF SOIL FROM THE CONSTRUCTION SITE.
4. GRADING SHALL BE PHASED TO LIMIT THE NUMBER OF DISTURBED AREAS EXPOSED TO THE EXTENT FEASIBLE.
5. AREAS THAT ARE CLEARED AND GRADED SHALL BE LIMITED TO ONLY THE PORTION OF THE SITE THAT IS NECESSARY FOR CONSTRUCTION. THE CONSTRUCTION SITE SHALL BE MANAGED TO MINIMIZE THE EXPOSURE TIME OF DISTURBED SOIL AREAS THROUGH PHASING AND SCHEDULING OF GRADING AND THE USE OF TEMPORARY AND PERMANENT SOIL STABILIZATION.
6. ONCE DISTURBED, SLOPES (TEMPORARY OR PERMANENT) SHALL BE STABILIZED IF THEY WILL NOT BE WORKED WITHIN 14 DAYS. ALL SLOPES SHALL BE STABILIZED PRIOR TO A PREDICTED STORM EVENT. CONSTRUCTION SITES SHALL BE REVEGETATED AS EARLY AS FEASIBLE AFTER SOIL DISTURBANCE.
7. STOCKPILES OF SOIL SHALL BE PROPERLY CONTAINED TO ELIMINATE OR REDUCE SEDIMENT TRANSPORT FROM THE SITE TO STREETS, DRAINAGE FACILITIES OR ADJACENT PROPERTIES VIA RUNOFF, VEHICLE TRACKING, OR WIND.
8. CONSTRUCTION SITES SHALL BE MAINTAINED IN SUCH A CONDITION THAT A STORM DOES NOT CARRY WASTES OR POLLUTANTS OFF THE SITE. DISCHARGES OTHER THAN STORMWATER (NON-STORMWATER DISCHARGES) ARE PROHIBITED, EXCEPT AS AUTHORIZED BY AN INDIVIDUAL NPDES PERMIT, THE STATEWIDE GENERAL PERMIT-CONSTRUCTION ACTIVITY. POTENTIAL POLLUTANTS INCLUDE BUT ARE NOT LIMITED TO: SOLID OR LIQUID CHEMICAL SPILLS; WASTES FROM PAINTS, STAINS, SEALANTS, SOLVENTS, DETERGENTS, GLUES, LIME, PESTICIDES, HERBICIDES, FERTILIZERS, WOOD PRESERVATIVES, AND ASBESTOS FIBERS, PAINT FLAKES OR STUCCO FRAGMENTS; FUELS, OILS LUBRICANTS, AND HYDRAULIC, RADIATOR OR BATTERY FLUIDS; CONCRETE AND RELATED CUTTING OR CURING RESIDUES; FLOATABLE WASTES; WASTES FROM ENGINE/EQUIPMENT STEAM CLEANING OR CHEMICAL DEGREASING; WASTES FROM STREET CLEANING; AND SUPER-CHLORINATED POTABLE WATER FROM LINE FLUSHING AND TESTING. DURING CONSTRUCTION, DISPOSAL OF SUCH MATERIALS SHOULD OCCUR IN A SPECIFIED AND CONTROLLED TEMPORARY AREA ON-SITE PHYSICALLY SEPARATED FROM POTENTIAL STORMWATER RUNOFF, WITH ULTIMATE DISPOSAL IN ACCORDANCE WITH LOCAL, STATE AND FEDERAL REQUIREMENTS.
9. RUNOFF FROM EQUIPMENT AND VEHICLE WASHING SHALL BE CONTAINED AT THE CONSTRUCTION SITE AND MUST NOT BE DISCHARGED TO RECEIVING WATERS OR THE LOCAL STORM DRAIN SYSTEM.
10. APPROPRIATE BMPS FOR CONSTRUCTION-RELATED MATERIALS, WASTES, SPILLS OR RESIDUES SHALL BE IMPLEMENTED TO ELIMINATE OR REDUCE TRANSPORT FROM THE SITE TO STREETS, DRAINAGE FACILITIES, OR ADJOINING PROPERTIES BY WIND OR RUNOFF.
11. ALL CONSTRUCTION CONTRACTORS AND SUBCONTRACTOR PERSONNEL ARE TO BE MADE AWARE OF THE REQUIRED BMPS AND GOOD HOUSEKEEPING MEASURES FOR THE PROJECT SITE AND ANY ASSOCIATED CONSTRUCTION STAGING AREAS.
12. DISCHARGING CONTAMINATED GROUNDWATER PRODUCED BY DEWATERING GROUNDWATER THAT HAS INFILTRATED INTO THE CONSTRUCTION SITE IS PROHIBITED. DISCHARGING OF CONTAMINATED SOILS VIA SURFACE EROSION IS ALSO PROHIBITED. DISCHARGING NON-CONTAMINATED GROUNDWATER PRODUCED BY DEWATERING ACTIVITIES MAY REQUIRE A NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) PERMIT FROM THE REGIONAL WATER QUALITY CONTROL BOARD.
13. BMPS SHALL BE MAINTAINED AT ALL TIMES. IN ADDITION, BMPS SHALL BE INSPECTED PRIOR TO PREDICTED STORM EVENTS AND FOLLOWING STORM EVENTS.
14. AT THE END OF EACH DAY OF CONSTRUCTION ACTIVITY, ALL CONSTRUCTION DEBRIS AND WASTE MATERIALS SHALL BE COLLECTED AND PROPERLY DISPOSED OF IN TRASH OR RECYCLE BINS.

SE-8 GRAVEL BAG DETAILS — SCALE: N.T.S.



NOTE: PLACE 4" PVC DRAIN PIPE IN EXISTING GUTTER FLOWLINE WITH A.C. RAMP AT DRIVEWAYS IF STREET CURB & GUTTER DRAINAGE FLOW IS BLOCKED.

NOTE: A RUMBLE RACK IS REQUIRED AT BOTH ENTRANCES TO THE SITE UNTIL THE ASPHALT HAS BEEN INSTALLED.

NOTE: CONTRACTOR SHALL REPAIR ALL DAMAGED CURB & GUTTER IN PUBLIC RIGHT-OF-WAY TO THE SATISFACTION OF THE CITY PRIOR TO PROJECT CLOSE-OUT.

TC-1 STABILIZED CONSTRUCTION ENTRANCE — SCALE: N.T.S.

LIMITS OF CONSRUCTION

EROSION AND SEDIMENT CONTROL GENERAL NOTES

1. ALL WORK SHALL BE IN ACCORDANCE WITH THE EROSION CONTROL PLANS, THE PROJECT'S BMPs, AND THE RECOMMENDATIONS OF SOILS REPORT.
2. EROSION CONTROL MEASURES SHALL BE IN PLACE AT THE END OF EACH WORKING DAY WHENEVER THE DAILY RAINFALL PROBABILITY EXCEEDS 40%.
3. EQUIPMENT AND WORKERS FOR EMERGENCY WORK SHALL BE MADE AVAILABLE AT ALL TIMES DURING THE RAINY SEASON. NECESSARY MATERIALS SHALL BE AVAILABLE ON SITE AND STOCKPILED AT CONVENIENT LOCATIONS TO FACILITATE RAPID CONSTRUCTION OF TEMPORARY EROSION CONTROL DEVICES AT ALL TIME.
4. CONTROLS SHALL BE SET UP AND MAINTAINED AS CONSTRUCTION PROCEEDS. ADJUSTMENTS TO THE EROSION CONTROL PLANS ARE ALLOWABLE AS REQUIRED AND APPROVED BY CITY.
5. ALL EROSION AND SEDIMENT CONTROL MEASURES SHALL IMPLEMENT STRUCTURAL AND NONSTRUCTURAL BEST MANAGEMENT PRACTICES (BMP) IN CONFORMANCE WITH THE GUIDELINES OF THE CALIFORNIA STORM WATER BMP HANDBOOKS.
6. AFTER A RAINSTORM, ALL SEDIMENT AND DEBRIS SHALL BE REMOVED FROM STREETS, CHECK BERMS AND DESILTING BASINS. ANY GRADED SLOPE SURFACE PROTECTION MEASURES DAMAGED DURING A RAINSTORM SHALL BE IMMEDIATELY REPAIRED. INSPECT CATCH BASINS FOR GRAVEL BAGS THAT MAY HAVE FALLEN IN AND BLOCKED DRAINAGE.
7. THE PERMITTEE AND CONTRACTOR SHALL BE RESPONSIBLE AND SHALL TAKE NECESSARY PRECAUTIONS TO PREVENT TRESPASS ONTO AREAS WHERE IMPOUNDED WATER CREATED A HAZARDOUS CONDITION.
8. AFTER CONSTRUCTION, INSPECT CATCH BASINS TO INSURE BMPs HAVE NOT FALLEN IN AND CLEAN OUT ANY CONSTRUCTION-RELATED DEBRIS.

GRAVEL BAGS

1. GENERAL: GRAVELBAG SHALL INCLUDE PROVIDING ALL LABOR, MATERIALS, AND EQUIPMENT TO FABRICATE AND INSTALL GRAVEL BAGS AS REQUIRED TO FACILITATE THE CONTROL OF EROSION.
2. LOCATION: GRAVEL BAGS SHALL BE PLACED PER PLAN, AND IN LOCATIONS SPECIFIED BY THE CITY, AND IN LOCATIONS DEEMED NECESSARY BY THE CONTRACTOR.
3. FABRICATION: GRAVEL BAGS SHALL BE FABRICATED USING FACTORY SEWN OR SEALED BAGS OF WOVEN POLYPROPYLENE, TREATED TO RESIST DEGRADATION BY ULTRAVIOLET LIGHT AND HAVING SUFFICIENT RESISTANCE TO TEARING TO ALLOW RELOCATION OF BAGS WITHIN SIX MONTHS OF INITIAL PLACEMENT WITH A LOSS OF NOT MORE THAN FIVE PERCENT OF THE BAGS.

   THE BAGS SHALL BE FILLED WITH SUBROUNDED TO ROUNDED GRAVEL LESS THAN 3/4-INCH IN DIAMETER, WITH LESS THAN FIVE PERCENT OF MATERIAL PASSING A NO. 30 SIEVE. THE FILLED BAGS SHALL HAVE THE OPEN ENDS SECURELY FASTENED PRIOR TO DELIVERY TO THE SITE.
4. INSTALLATION: GRAVEL BAGS SHALL BE INSTALLED IN A SIDE BY SIDE MANNER TO ENTRAP SILT AND MUD, AND TO DIVERT THE FLOW OF WATER, NOTWITHSTANDING THE OTHER REQUIREMENTS OF THIS SPECIFICATION, FAILURE OF THE BAGS TO PERFORM THIS FUNCTION SHALL BE REASON TO REJECT THEIR INSTALLATION.

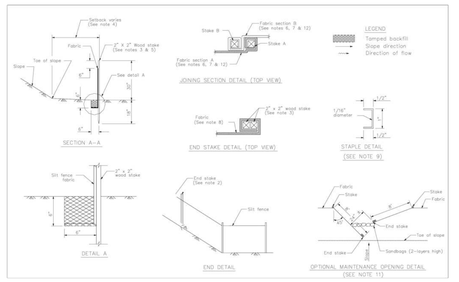
   GRAVEL BAGS SHALL BE INSTALLED WITH THE WIDEST FACE AGAINST THE GROUND SURFACE OR THE UNDERLYING COURSE OF BAGS, AND PRESSED IN PLACE TO CONFORM TO THE UNDERLYING SURFACE. THE BAGS SHALL BE PLACED WITH THE TIED ENDS IN THE "UPHILL" OR "UPSTREAM" DIRECTION, BEGINNING AT THE LOWEST OR MOST DOWNSTREAM BAG, TIED ENDS WILL BE TUCKED UNDER BAG. SUBSEQUENT BAGS WITHIN ONE COURSE OF BAGS SHALL BE PLACED SO AS TO REST UPON THE TIED END OF THE PREVIOUSLY PLACED BAG, WITH NOT LESS THAN 10 PERCENT OF THE BAG IN CONTACT WITH THE PREVIOUS BAG, AND NOT MORE THAN 20 PERCENT IN CONTACT.

   SUBSEQUENT COURSES OF BAGS SHALL BE PLACED AS DESCRIBED PREVIOUSLY, WITH THE MID-POINT OF THE BAGS STRADDLING THE JOINTS OF BAGS IN THE UNDERLYING ROW.

   CONSTRUCTION OF A GRAVELBAG BERM PERPENDICULAR TO THE DIRECTION OF FLOW SHALL INCORPORATE BAGS PLACED IN A "PYRAMID" CONFIGURATION, WITH ALL INDIVIDUAL BAGS ORIENTED PERPENDICULAR TO THE DIRECTION OF FLOW. THE BERM SHALL BE CONSTRUCTED WITH A SPECIFIED NUMBER OF ROWS AT THE BOTTOM (IN CONTACT WITH THE GROUND), WITH SUCCESSIVELY FEWER ROWS IN EACH OVERLYING COURSE. THE UPSTREAM AND DOWNSTREAM FACES OF THE BERM SHALL BE NO STEEPER THAN 1 1/2 FEET HORIZONTAL TO 1 VERTICAL.

   DAMAGE WHICH COULD FORESEEBLY BE PREVENTED BY PROPER GRAVELBAG INSTALLATION SHALL BE THE CONTRACTOR'S RESPONSIBILITY.

STORMWATER MITIGATION MEASURES (BMPs)



THE FOLLOWING BMP'S AS OUTLINED IN, BUT NOT LIMITED TO, THE BEST MANAGEMENT PRACTICE HANDBOOK, CALIFORNIA STORMWATER QUALITY TASK FORCE, SACRAMENTO, CALIFORNIA 2019, OR THE LATEST REVISED EDITION, APPLY DURING THE CONSTRUCTION OF THIS PROJECT. (ADDITIONAL MEASURES MAY BE REQUIRED IF DEEMED APPROPRIATE BY CITY INSPECTORS)

THOMAS E. CARCELLI, P.E. — 10/2/2023 DATE

SURVEYOR:

TED KRULL, PLS 5848
STARLIGHT SURVEYING, INC.
17955 SKY PARK CIR. STE F
IRVINE, CA. 92614
(949) 757-0613
DATES OF SURVEY: NOV. 2021 AND JAN. 2022

GENERAL NOTES

1. CONTRACTOR SHALL REFERENCE ARCHITECTURAL AND/OR LANDSCAPE PLANS FOR ADDITIONAL HARDSCAPE REQUIREMENTS AND DETAILS.
2. CONTRACTOR SHALL REMOVE AND DISPOSE OF EXISTING LANDSCAPE AND HARDSCAPE IMPROVEMENTS AS NECESSARY TO CONSTRUCT IMPROVEMENTS SHOWN HEREON.
3. ALL SIDEWALKS, CURB RETURNS, AND ACCESS POINTS SHALL MEET TITLE 24 AND AMERICANS WITH DISABILITIES ACT (ADA) REQUIREMENTS.

NOTE TO CONTRACTOR:

A. CONTRACTOR SHALL BE SOLELY RESPONSIBLE FOR PROVIDING COMPLETE, TIMELY AND ACCURATE FIELD LAYOUT OF THE PROPOSED SITE IMPROVEMENTS INCLUDING, BUT NOT NECESSARILY LIMITED TO, HORIZONTAL AND VERTICAL CONTROL AND DIMENSIONAL COORDINATION AS NECESSARY TO CONSTRUCT THE WORK IN ACCORDANCE WITH THE CONTRACT DOCUMENTS. THIS SURVEY WORK SHALL BE PERFORMED BY A LICENSED LAND SURVEYOR AND SHALL PROVIDE FOR THE SURVEY AND STAGING OF ALL CONSTRUCTION ELEMENTS INCLUDING BUT NOT LIMITED TO BUILDING LOCATIONS, PAVING EDGES/ALIGNMENT FENCING, WALLS, LIGHT FIXTURES, SIGNS, MOW CURBS, SEATING, SHADE STRUCTURES AND APPURTENANCES, CURB AND GUTTER ALIGNMENTS, CATCH BASINS, DRAINS, ETC.

B. AN AUTOCAD-COMPATIBLE .DWG FILE OF THE PROPOSED IMPROVEMENTS SHALL BE PROVIDED TO THE CONTRACTOR PRIOR TO THE START OF CONSTRUCTION FOR HIS USE IN PREPARING THE NECESSARY FIELD SURVEYING / LAYOUT OF PROPOSED IMPROVEMENTS. THE USE OF THIS DIGITAL FILE SHALL BE THE SOLE RESPONSIBILITY OF THE CONTRACTOR AND IS INTENDED TO ASSIST THE SURVEYOR IN THE LAYOUT OF THE PROPOSED IMPROVEMENTS.

THESE ELECTRONIC FILES ARE NOT CONSTRUCTION DOCUMENTS. DIFFERENCES MAY EXIST BETWEEN THESE ELECTRONIC FILES AND CORRESPONDING HARD COPY CONSTRUCTION DOCUMENTS ISSUED FOR PUBLIC BID. IN THE EVENT THAT A CONFLICT ARISES BETWEEN THE SIGNED OR SEALED HARD COPY CONSTRUCTION DOCUMENTS AND THE ELECTRONIC FILES, THE SIGNED OR SEALED HARD COPY CONSTRUCTION DOCUMENTS SHALL GOVERN. THE CONTRACTOR IS RESPONSIBLE FOR DETERMINING IF ANY CONFLICT EXISTS AND SHALL BRING ANY DISCREPANCIES TO THE PROJECT LANDSCAPE ARCHITECT'S ATTENTION PRIOR TO ANY FIELD LAYOUT. BY THE CONTRACTOR'S USE OF THESE ELECTRONIC FILES, THEY ARE NOT RELIEVED OF THEIR DUTY TO FULLY COMPLY WITH THE CONTRACT DOCUMENTS, INCLUDING, AND WITHOUT LIMITATION, THE NEED TO CHECK, CONFIRM, AND COORDINATE ALL DIMENSIONS AND DETAILS, TAKE FIELD MEASUREMENTS, VERIFY FIELD CONDITIONS, AND COORDINATE THE WORK WITH THAT OF OTHER CONTRACTORS FOR THE PROJECT.

THE DIGITAL INFORMATION PROVIDED BY civTEC SHALL NOT BE USED FOR ANY PURPOSE OTHER THAN FOR THE PROJECT DESCRIBED ABOVE AND SHALL NOT BE RELEASED TO ANY OTHER PARTY WITHOUT THE WRITTEN CONSENT OF civTEC. THE INFORMATION CONTAINED ON THE ELECTRONIC MEDIA IS AN INSTRUMENT OF PROFESSIONAL SERVICES AND SHALL REMAIN THE PROPERTY OF civTEC.

NOTE RE: FRANCHISE UNDERGROUND LINES:

FRANCHISE CONDUITS ARE LOCATED BENEATH THE PROPOSED UTILITY LINES CROSSING EAST AND WEST, WITH A MINIMUM CLARENCE OF ONE (1) FOOT BELOW THE PROPOSED LINES.

SCALE: 3/4" = 1'-0"

SIGNAGE TYPE:

A ADA PARKING SIGN
(USED ON ALL ADA STALLS, INCLUDING VAN)
CALTRANS STD. SIGN #R99C

B ADA ADDITIONAL PARKING SIGN PER CBC 11B-502.8. INSTALL ON WALL/FENCE, LOCATION PER ENLARGEMENT SHEET T-1.03.

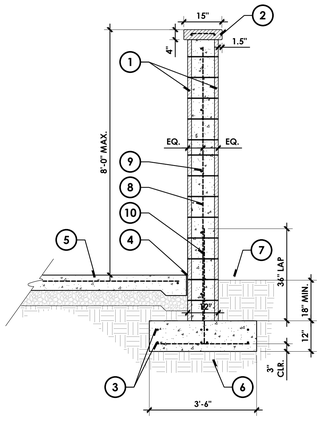
C ADA VAN PARKING SIGN
(USED ONLY ON VAN ACCESSIBLE STALLS, INSTALLED BELOW ADA PARKING SIGN) CALTRANS STD. SIGN #R7-8B

LEGEND:

1. 4"x4" EXTRUDED ALUMINUM POWDER COATED POST WITH POST CAP. POST TO BE LOCATED AS SHOWN LANDSCAPE CONSTRUCTION PLAN, SEE SHEET L-1.01.
2. FINISH GRADE - SEE CIVIL PLANS.
3. POURED-IN-PLACE CONCRETE FOOTING AND REINFORCEMENT,AS SHOWN THIS DETAIL.
4. 90% MINIMUM COMPACTED, MOISTURE-CONDITIONED SUBGRADE PER GEOTECHNICAL REPORT.
5. ADJACENT CONCRETE PAVING PER DETAIL 1, THIS SHEET.
6. PROVIDE FABRICATED ALUMINUM PANEL(S) WITH SILK SCREEN GRAPHICS SIGN EACH WITH (2) BOLTS & WASHERS AND MOUNTING CHANNEL. SEE CONSTRUCTION PLAN L-1.01 AND NOTES BELOW FOR SIGN TYPE AND LOCATION. MINIMUM 7'-0" CLEARANCE FROM FINISHED GRADE TO BOTTOM OF LOWEST SIGN.
7. ½" EXPANSION JOINT MATERIAL SURROUNDING POST AT SLAB ONLY. SEE SPECIFICATIONS. PROVIDE CORE DRILL IN CONCRETE PAVING / FOOTING TWICE THE WIDTH OF THE POST, TO THE DEPTH OF 18". SECURE WITH SUPER POR-ROK, OR APPROVED EQUAL, TO ½" BELOW ADJACENT FINISH SURFACE. APPLY ½" BEAD OF "GUN GRADE" POLYMER SEALANT BY: PECORA, OR APPROVED EQUAL, TO TOP OF SUPER POR-ROK BACKFILL. SEALANT COLOR TO MATCH ADJACENT CONCRETE. SLOPE TO DRAIN AT POST BASE.
8. CONTINUOUS EXPANSION JOINT PER DETAIL 2, SHEET L-2.01.
9. SAWCUT CONTROL JOINT PER SHEET 2, SHEET L-2.01.

NOTES:

A. CONTRACTOR TO STAKE OUT PROPOSED LOCATION OF SIGN IN FIELD FOR REVIEW AND APPROVAL BY CITY PRIOR TO INSTALLATION.



B. PROVIDE SCALED SHOP DRAWINGS FOR REVIEW AND APPROVAL PRIOR TO CONSTRUCTION.

C. CONTRACTOR TO SUBMIT SAMPLE OF THE SIGN FOR REVIEW AND APPROVAL BY COUNTY PRIOR TO FABRICATION PER SPECIFICATIONS.

D. REGULATORY SIGNS SHALL BE NO LESS THAN 17" BY 22" IN SIZE AS SHOWN, WITH LETTERING NOT LESS THAN 1" IN HEIGHT.

E. CONCRETE AND REINFORCING INFORMATION INDICATED HEREIN, ARE MINIMUMS AND ARE BASED ON INFORMATION CONTAINED IN THE PROJECT GEOTECHNICAL REPORT AVAILABLE REPORT AT THE TIME OF PREPARATION OF THESE DOCUMENTS.

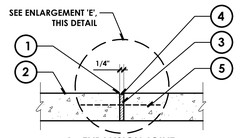
6 CONCRETE MASONRY BLOCK PERIMETER WALL

SECTION - CONCRETE BLOCK PERIMETER WALL
SCALE: 1/2" = 1'-0"

LEGEND:

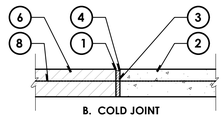
1. 12" X 8" X 16" INTEGRAL COLOR, PRECISION CONCRETE BLOCK. SOLID GROUT ALL CELLS. COLOR: NATURAL GRAY - TO MATCH ARCHITECTURE.
2. POURED-IN-PLACE CONCRETE CAP TO RECEIVE 'TOP CAST' ETCH CODE NO. 05 RETARDANT FINISH, OR APPROVED EQUAL. CONCRETE CAP TO OVERHANG 1.5" BEYOND SPLIT FACE BLOCK FINISH.
3. POURED-IN-PLACE CONCRETE FOOTING WITH (4) #5 CONTINUOUS REBAR TOP AND BOTTOM PER STRUCTURAL ENGINEER, AS SHOWN THIS DETAIL.
4. CONTINUOUS EXPANSION JOINT PER DETAIL 2, SHEET L-2.01.
5. ADJACENT CONCRETE PAVING PER DETAIL 2, SHEET L-2.01.
6. 90% MINIMUM COMPACTED, MOISTURE-CONDITIONED SUBGRADE PER GEOTECHNICAL REPORT. SEE SPECIFICATIONS.
7. FINISH GRADE. SEE CIVIL PLANS.
8. #6 REBAR AT 16" O.C. VERTICAL.
9. #5 REBAR AT 24" O.C. HORIZONTAL.
10. #6 DOWELS TO MATCH VERTICAL REINFORCEMENT. ALTERNATE BENDS.

NOTES:



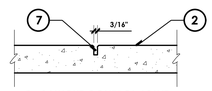
A. VERIFY FIELD CONDITIONS PRIOR TO CONSTRUCTION.

B. CONTRACTOR TO PROVIDE COLOR / FINISH SAMPLE FOR REVIEW AND APPROVAL PRIOR TO FABRICATION.

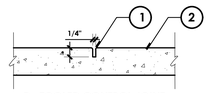


C. CONTRACTOR TO PROVIDE 8' LONG MOCKUP OF WALL END CONDITION AND WALL CAP FOR REVIEW AND APPROVAL PRIOR TO CONSTRUCTION. MOCKUP SHALL NOT BE PART OF PRODUCTION CONSTRUCTION.

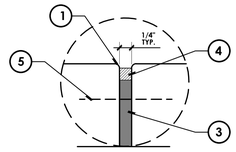
D. SEE GEOTECHNICAL REPORT (PAVEMENT RECOMMENDATIONS) FOR CONCRETE TYPE AND STRENGTH.



3 CONCRETE JOINTS



A. EXPANSION JOINT



B. COLD JOINT

C. SAWCUT CONTROL JOINT

D. TOOLED CONTROL JOINT

E. EXPANSION JOINT ENLARGEMENT

LEGEND:

1. 1/4" RADIUS EDGE.
2. PAVING FINISH SURFACE PER PLAN.
3. ½" DECK-O-FOAM EXPANSION MATERIAL BY: W.R. MEADOWS, OR APPROVED EQUAL. INSTALL PER MANUF. SPECS. (909) 469-2606.
4. NON-SAG TWO-PART POLYURETHANE SEALER (DYNA TRED) BY: PECORA CORPORATION (800) 523-6688, OR APPROVED EQUAL.

FOR BID PURPOSES:
COLOR SHALL BE:
A. "LIMESTONE" (039) IN FIELDS OF NATURAL GREY CONCRETE.
B. "BEIGE" (595) IN FIELDS OF COLORED CONCRETE.
FINAL SEALANT COLOR SELECTION SHALL BE PER OWNER UPON REVIEW AND APPROVAL OF CONTRACTOR PROVIDED PAVING SAMPLES IN THE FIELD. SEE SPECIFICATIONS.

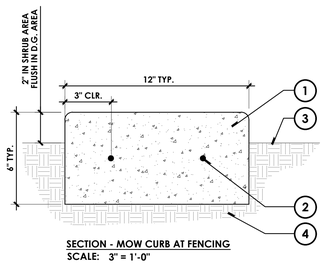
5. SPEED-DOWEL AT 24" O.C. AT ALL EXPANSION JOINTS W/ #4 REBAR, MODEL NO. PSD 12/ #4 TS. WITH PSD/#4 BL BASE. CONTACT: AZTEC CONCRETE ACCESSORIES (800) 531-3355.
6. EXISTING CONCRETE PAVING.
7. SAWCUT JOINT. SINGLE BLADE WITH 1/16" BEVEL AND CONTINUOUS CRACK CHASER. SEE SAWCUT CONTROL JOINT TABLE BELOW FOR DEPTH OF SAWCUTS.
8. #3 REBAR AT 24" O.C.

NOTES:

A. LOCATE SAWCUT JOINTS PER SPECIFICATIONS UNLESS OTHERWISE INDICATED ON PLANS. SEE GEOTECHNICAL REPORT FOR MAXIMUM JOINT SPACING BASED ON SIDEWALK WIDTH. SEE PLANS FOR JOINT LOCATIONS. NOTIFY OWNER'S REPRESENTATIVE IF JOINT SPACING ON PLANS DOES NOT CONFORM TO GEOTECHNICAL REPORT IN ANY AREAS.

B. SEALANT COLOR TO MATCH ADJACENT PAVING.

C. ALL EXPANSION JOINT SEALANT TO BE SEEDED WITH SILICA SAND.



D. ALL AQUATICS AREA REBAR TO BE FIBERGLASS.

E. ALL SKIMMERS AT POOL COPING SHALL BE SURROUNDED BY EXPANSION JOINT MATERIAL.

SAWCUT CONTROL JOINT TABLE

TOTAL CONCRETE THICKNESS	DEPTH OF SAWCUT
4"	1"
5"	1.25"

D. CONCRETE AND REINFORCING INFORMATION INDICATED HEREIN, ARE MINIMUMS AND ARE BASED ON INFORMATION CONTAINED IN THE PROJECT GEOTECHNICAL REPORT AVAILABLE AT THE TIME OF PREPARATION OF THESE DOCUMENTS. PRIOR TO START OF CONSTRUCTION, THE CONTRACTOR SHALL OBTAIN AND REVIEW THE RECOMMENDATIONS CONTAINED IN THE LATEST AND FINAL APPROVED GEOTECHNICAL REPORT SPECIFIC TO THIS PROJECT. THE CONTRACTOR SHALL PROVIDE ADDITIONAL CONCRETE, REINFORCING, SUB-BASE MATERIALS, SUB-BASE PREPARATION SUCH AS COMPACTION, MOISTURE CONDITIONING, ETC., AS MAY BE REQUIRED BY THE LATEST AND FINAL APPROVED PROJECT GEOTECHNICAL REPORT.

E. PROVIDE 1/4" CROSS FALL PER 12" RUN ON ALL PAVING - MINIMUM. SEE CIVIL PLANS.

F. SEE DETAIL 3, THIS SHEET FOR CONCRETE JOINTS.

G. CONTRACTOR TO PROVIDE MIN. 4' x 4' MOCKUP OF CONCRETE SLAB FOR REVIEW AND APPROVAL PRIOR TO ANY CONSTRUCTION.

2 PEDESTRIAN CONCRETE PAVING (POOL DECKING)

SECTION - CONCRETE POOL DECKING
SCALE: 1-1/2" = 1'-0"

LEGEND:

1. 6" PEDESTRIAN CONCRETE PAVING - REFER TO LANDSCAPE CONSTRUCTION PLAN FOR FINISH.
2. CRUSHED MISCELLANEOUS BASE. COMPACTION PER GEOTECH REPORT. REFER TO GEOTECHNICAL REPORT AND POOL PLANS. SLOPE TO DRAIN AS REQUIRED. SEE CIVIL PLANS.
3. FIBERGLASS REINFORCEMENT PER GEOTECHNICAL REPORT.
4. FINISH GRADE. SEE CIVIL PLANS.
5. 90% MINIMUM COMPACTED, MOISTURE-CONDITIONED SUBGRADE PER GEOTECHNICAL REPORT. SEE SPECIFICATIONS.
6. 1/2" TOOLED RADIUS.
7. THICKENED EDGE PER GEOTECHNICAL REPORT.
8. ADJACENT POOL COPING AND GUTTER. SEE POOL DETAILS, SHEET SP3.31.
9. 4" PVC RIBBED CENTER BULB WATERSTOP. SEE POOL DETAILS, SHEET SP1.2.

NOTES:

A. PROVIDE 12'x12' MOCKUP PER SPECIFICATIONS.

B. SEE PLANS AND SPECIFICATIONS FOR SEALERS AND FINISHES.

C. SEE GEOTECHNICAL REPORT (PAVEMENT RECOMMENDATIONS) FOR CONCRETE TYPE AND STRENGTH. SEE SPECIFICATIONS.

D. AT CONCLUSION OF ROUGH GRADING OF SITE, CONTRACTOR TO SCHEDULE SITE SOIL TESTING TO TEST SITE SOIL EXPANSION INDEX. HARDSCAPE CONSTRUCTION SHALL NOT COMMENCE UNTIL TEST RESULTS HAVE BEEN REVIEWED BY PROJECT GEOTECHNICAL ENGINEER.

E. PROVIDE 1/4" CROSS FALL PER 12" RUN ON ALL PAVING - MINIMUM. SEE CIVIL PLANS.

F. MISCELLANEOUS CRUSHED AGGREGATE BASE SHALL COMPLY/BE INSTALLED PER THE STANDARD SPECIFICATIONS FOR PUBLIC WORKS CONSTRUCTION LATEST EDITION.

G. CONCRETE AND REINFORCING INFORMATION INDICATED HEREIN, ARE MINIMUMS AND ARE BASED ON INFORMATION CONTAINED IN THE PROJECT GEOTECHNICAL REPORT AVAILABLE AT THE TIME OF PREPARATION OF THESE DOCUMENTS. PRIOR TO START OF CONSTRUCTION, THE CONTRACTOR SHALL OBTAIN AND REVIEW THE RECOMMENDATIONS CONTAINED IN THE LATEST AND FINAL APPROVED GEOTECHNICAL REPORT SPECIFIC TO THIS PROJECT. THE CONTRACTOR SHALL PROVIDE ADDITIONAL CONCRETE, REINFORCING, SUB-BASE MATERIALS, SUB-BASE PREPARATION SUCH AS COMPACTION, MOISTURE CONDITIONING, ETC., AS MAY BE REQUIRED BY THE LATEST AND FINAL APPROVED PROJECT GEOTECHNICAL REPORT.

H. ALL POOL DECKING REBAR TO BE FIBERGLASS.

NOTES:

A. ALL FENCE MEMBERS TO BE 11 GAUGE UNLESS OTHERWISE NOTED.

B. CONTRACTOR TO PROVIDE SHOP DRAWING OF PROPOSED FENCING FOR OWNER'S AUTHORIZED REPRESENTATIVE'S REVIEW AND APPROVAL PRIOR TO FABRICATION.

C. WELDING: BEVEL ALL MEMBERS PRIOR TO WELDING. ALL WELDS SHALL BE CONTINUOUS AND GROUND SMOOTH.

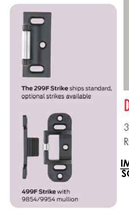
D. FABRICATION SHALL BE PER FIELD MEASUREMENTS CONDUCTED BY CONTRACTOR.

E. CONTRACTOR TO PROVIDE SCALED SHOP DRAWING OF PROPOSED FENCING GATE HARDWARE, HINGES, LOCKS, ETC. FOR OWNER'S AUTHORIZED REPRESENTATIVE'S REVIEW AND APPROVAL PRIOR TO FABRICATION.

F. ALL TUBULAR STEEL FENCING SHALL RECEIVE THE FOLLOWING APPLICATIONS TO ALL TUBULAR MEMBERS: SURFACE PREPARATION: ZINC THERMAL SPRAYED METALIZED FINISH (2 MIL MINIMUM) AS PROVIDED BY ZINC NATION OR APPROVED EQUAL. SEE SPECIFICATIONS. CONTACT: WHITNEY BLAKESLEE (714) 239-6190. FINISH: TNEMEC COATING PER SPECIFICATIONS, OR APPROVED EQUAL. COLOR: 'DOVE GRAY' (38GR) BY TNEMEC. FINAL COLOR TO BE SELECTED & APPROVED BY CITY. CONTACT: DUSTIN KAATZ (310) 637-2363.

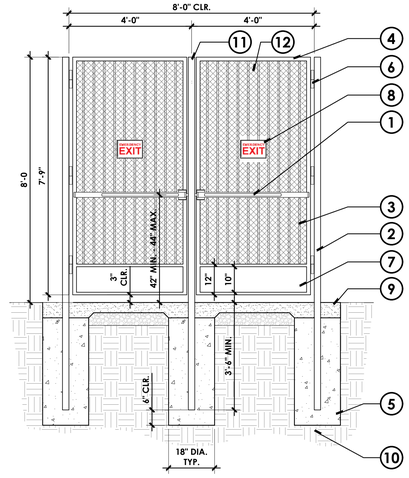
G. CONTRACTOR TO INSTALL MOCK-UP OF 16 LINEAR FEET OF TUBULAR STEEL FENCE FOR REVIEW & APPROVAL BY OWNER'S REPRESENTATIVE PRIOR TO COMPLETE INSTALLATION.

2 TUBULAR STEEL FENCE



98-F/99-F Rim exit device

98-F and 99-F Rim fire exit devices for all types of single doors up to 4' x 10' (1219mm x 3048mm) or 8' x 10' (2438mm x 3048mm) double doors with 9954 or 9854 mullion, UL listed for fire exit hardware. See page 76 for detailed information on UL listed fire exit hardware label and door opening size information. Devices are ANSI A156.3 – 2014 Grade 1. The 98-F device has a smooth mechanism case and the 99-F device has a grooved case. The rim device is non-handed except when the following device options are used: -2 (double cylinder) or 5S (signal switch). See opposite page for available outside trim and device functions.



Finishes – US3, US3A, US4, US4A, US10, US26, US26D, US26D-AM Antimicrobial, US28, 313, 315 & 643E. US15 and US32D available with 98 Series only.

model 3612F

ADA Filtered Stainless Steel Bottle Filler and Drinking Fountain

FEATURES & BENEFITS

ADA COMPLIANCE
ADA-compliant bottle filling station and dual-height high-low drinking fountain required for wheelchair use, and for the standing person.

FRONT APPROACH
All three water stations face frontward and the overall footprint needed is only 73 inches wide, saving 33% of the hardscape required for access compliance. This also allows the fountain to be placed with its back to within 8 inches of a wall or a fence.

BOTTLE FILLER
The ADA-compliant open design bottle filling station offers a 17" high bottle area, and open sides making this push button operated bottle filling station more accessible to users.

STAINLESS STEEL VALVES
The push-button activated valves offers the only all stainless steel valve body that is machined out of solid bar stock, is fully serviceable through the front of the push button assembly offering access to the water control cartridge and integral water supply strainer, and with front access to the water stream height adjustment for easy maintenance without having to remove the valve. Operating pressure range of 30 to 90 psi (2.1 to 6.2 bar).

BUBBLER HEAD
Polished chrome plated brass bubbler head with integral 5/8" dia. threaded shank for vandal resistant strength, and top-down access for nozzle replacement or water line service, with .45 gpm flow rate.

CONSTRUCTION
Heavy-duty stainless steel with silver powder-coated color finish, and stainless-steel drinking fountain bowls. Modular construction allows for easy replacement or rearrangement of drinking fountain bowls and bottle filler modules.

DRAIN CLEAN-OUT
Top-down access to the drain allows the fountain to be cleaned without taking the unit apart, good for outdoor settings with drain-cloggings and or leaves.

OPTIONS

Pet Fountain: Model 3670, dog bowl attachment for 3600 series pedestal fountains.

Hose Bib: Model 3660, lockable hose bib attachment for 3600 series pedestal fountains.

Installation Aid: Model MTG.3600, mounting guide for 3600 series pedestal fountains.

Freeze-Resistant Option: Model 3612FR. ADA stainless steel freeze-resistant bottle filler and dual fountain.

For more information, visit www.hawsco.com or call (888) 640-4297.

SPECIFICATIONS

Model 3612F outdoor, ADA-compliant pedestal mounted bottle filler and high-low drinking fountain shall include a heavy-duty stainless steel pedestal with matte silver powder-coating. 3000 gallon carbon block filter reduces chlorine (taste and odor) and lead, and removes 99.99% of cysts with mounting bracket, push-button operated stainless steel valves with front-accessible cartridge and flow adjustment, polished chrome-plated brass vandal-resistant shielded bubbler heads with integral 5/8" dia. threaded shank, and top-down access for nozzle and/or removable nozzles, and sensor-opening bottle filler with quick-fill 1 gpm flow rate. 100% lead-free waterways, polished chrome plated vandal-resistant waste strainers with top-down clean-out access to the drain, vandal-resistant access plates, integral mounting feet, and 1-1/2" dia waste

APPLICATIONS

The 3612F offers a solution for the changing needs of outdoor settings as well as outdoor wheel chair access, appealing to all users through accessibility and style. Ideal for schools, recreational parks, universities, and other outdoor areas where hydration facilities are needed. Model meets all current Federal Regulations for the disabled including those in the Americans with Disabilities Act, Haws manufactures drinking fountains, faucets and electric water coolers to be lead-free by all known definitions including NSF/ANSI/CAN 61-Section 9, NSF/ANSI Standards 42 & 53, NSF/ANSI/ CAN 372, California Proposition 65, and the Federal Safe Drinking Water Act. This product is compliant to California Health and Safety Code 116875 (AB 1953-2006), and NSF/ ANSI/CAN 61, G s. l.

GENERAL NOTES

DESIGN LOADS

BUILDING CODE	CBC 2019 (BASED ON IBC 2018)
LIVE LOADS	5 PSF
SNOW LOAD	5 PSF
WIND LOADS	115 MPH[1] 3-Sec. Gust, RISK CATEGORY II & EXPOSURE C

1.- 115 MPH ACCORDING THE ULTIMATE WIND SPEED MAPS OF ASCE 7-16 IS EQUIVALENT TO THE NOMINAL WIND SPEED OF 90 MPH ACCORDING ASCE 7-05 AND IBC 2018 EQ 16-33.

STRUCTURAL STEEL

1.- ALL STRUCTURAL SHAPES SHALL BE COLD FORMED HSS ASTM A500 GRADE C, UNLESS OTHERWISE NOTED, TYPICAL MECHANICAL PROPERTIES FOR HSS PRODUCTS:

SQUARE AND RECTANGULAR	50,000 PSI YIELD / 62,000 PSI TENSILE
ROUND PIPE	46,000 PSI YIELD / 62,000 PSI TENSILE

2.- ALL GALVANIZED STEEL TUBE PRODUCTS ARE MANUFACTURED PER ASTM A500, TYPICAL MECHANICAL PROPERTIES ACHIEVED FOR GALVANIZED TUBE PRODUCTS:

ROUND TUBE	45,000 PSI YIELD / 48,000 PSI TENSILE

3.- ALL PLATES SHALL COMPLY WITH ASTM A572 GRADE 50.

4.- ALL STEEL TUBING SHALL BE TRIPLE COATED FOR RUST PROTECTION USING THE IN-LINE ELECTROPLATING COAT PROCESS. TUBING SHALL BE INTERNALLY COATED WITH ZINC AND ORGANIC COATINGS TO PREVENT CORROSION AS MANUFACTURED BY ALLIED TUBE & CONDUIT.

5.- STRUCTURAL STEEL SHALL BE DETAILED, FABRICATED AND ERECTED IN ACCORDANCE WITH A.I.S.C. SPECIFICATIONS.

6.- ALL SHOP WELDS SHALL BE EXECUTED IN ACCORDANCE WITH THE LATEST EDITION OF THE AMERICAN WELDING SOCIETY (AWS) D1.1 SPECIFICATIONS. ALL WELDS SHALL BE CONTINUOUS WHERE LENGTH IS NOT GIVEN, UNLESS OTHERWISE SHOWN OR NOTED ON DRAWINGS. ALL WELDS SHALL DEVELOP THE FULL STRENGTH OF THE WEAKER MEMBER. ALL WELDS SHALL BE MADE USING E70XX .045 WIRE.

7.- SHOP CONNECTIONS SHALL BE WELDED UNLESS NOTED OTHERWISE. FIELD CONNECTIONS SHALL BE AS INDICATED ON THE DRAWINGS (IF REQUIRED). ALL FILLET WELDS SHALL BE A MINIMUN OF 3/16" UNLESS OTHERWISE NOTED. FIELD WELDS SHALL NOT BE ALLOWED.

8.- ALL HIGH STRENGTH BOLTS SHALL COMPLY WITH ASTM A325 TYPE 1 OR A490 TYPE 1. ALL NUTS SHALL COMPLY WITH ASTM A563DH, AND WASHERS SHALL COMPLY WITH ASTM F436.

9.- ALL HIGH STRENGTH BOLTS SHALL BE TIGHTENED TO A SNUG TIGHT CONDITION.

10.- ALL STAINLESS STEEL BOLTS / STUDS SHALL COMPLY WITH ASTM F-593, ALLOY GROUP 1 OR 2 ALL NUTS SHALL COMPLY WITH ASTM F-594 ALLOY GROUP 1 OR 2.

11.- ALL STRUCTURAL STEEL SHALL BE PAINTED WITH ONE SHOP COAT (2.5 TO 3.5 MILS THICK MIN). THIS COAT IS A WEATHER RESISTANT POWDER COATING BASED ON POLYESTER TGIC (MANUFACTURED BY SHERWIN WILLIAMS OR TIGER DRYLAC). TO ACHIEVE OPTIMUM ADHESION, IT IS RECOMMENDED THAT THE PROPER TREATMENT AND DRYING TAKE PLACE BEFORE COATING. POLYESTER POWDER (TGIC) SPECIFICATIONS SHALL BE AS FOLLOWS:

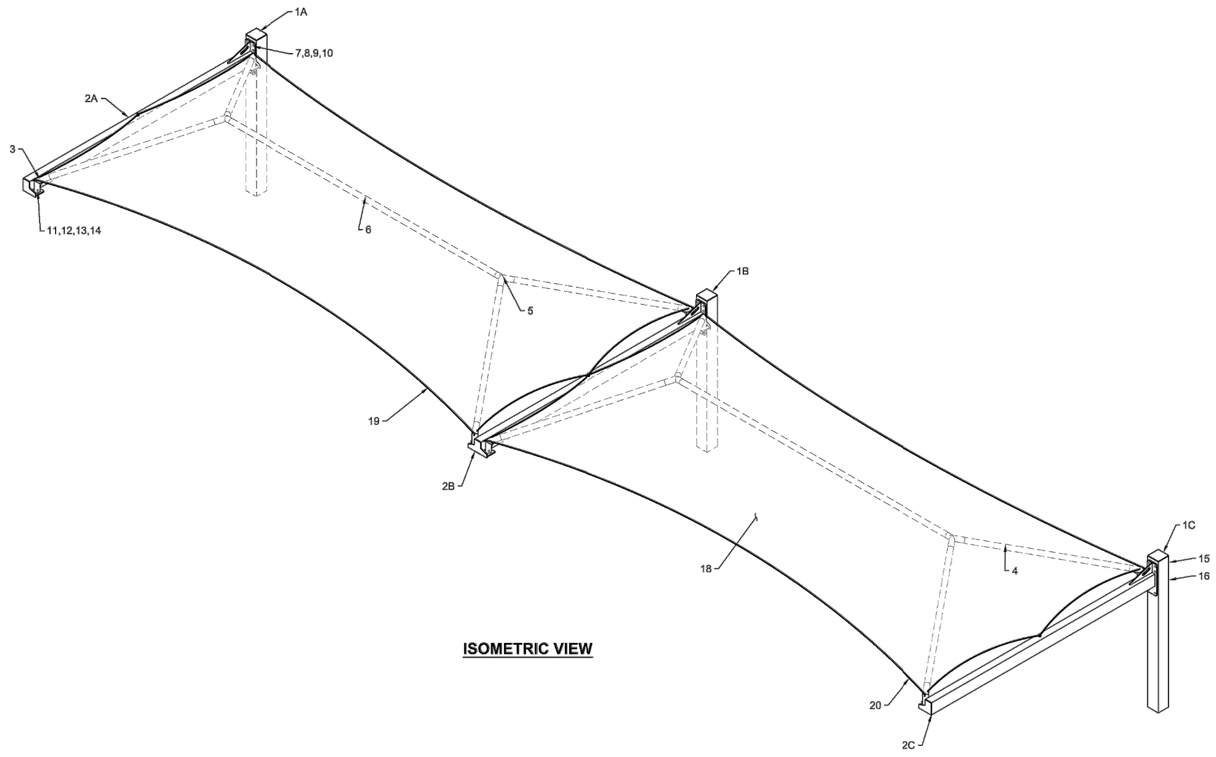
- PENCIL HARDNESS (ASTM D-3363)
- HUMIDITY (ASTM D-2247)
- SOLVENT RESISTANCE (PCI METHOD) - 50 DBL RUBS SL. SOFTNES

FABRIC SPECIFICATION

1.- FABRIC SHALL BE SYNTHESIS COMMERCIAL 95-340FR, A HIGH DENSITY POLYETHYLENE WITH ULTRA VIOLET ADDITIVES, WITH MONOFILAMENT AND TAPE CONSTRUCTION GIVING A STABLE MATERIAL AND LOCK-STITCH KNITTED.

2.- FABRIC SPECIFICATIONS:

	SOLID COLORS
-TEAR STRENGTH	WARP 208 LBS WEFT 496 LBS
- BURST STRENGTH	353 LBS
- FADING	MINIMUM FADING AFTER 5 YEARS
- LIFE EXPECTANCY	A MINIMUM OF 8 YEARS CONTINUOUS EXPOSURE TO THE SUN



3.- FIRE TEST ON FABRIC: ASTM E 84, FLAME SPREAD INDEX 25, SMOKE DEVELOPED INDEX 105.

4.- THREAD-PTFE (TEFLON) USED MEET THE FOLLOWING SPECIFICATIONS: HIGH STRENGTH, LOW SHRINKAGE, WIDE TEMPERATURE RANGE, FLEX & ABRASION RESISTANT AND UV RADIATION IMMUNITY. LOCKSTITCH - 1200 DENIER. CHAINSTITCH THREAD - 2400 DENIER

AIRCRAFT CABLE

1.- WIRE ROPE CABLE SHALL BE 7x19 STRAND CORE GALVANIZED WIRE ROPE WITH A BREAKING STRENGTH VALUE OF 14,400 LBS (3/8" DIAMETER).

2.- CABLES SHALL BE FED THROUGH THE FABRIC SLEEVES AROUND THE PERIMETER OF THE CANOPY AND TENSIONED UNTIL THE FABRIC PANELS (DESIGNED PURPOSELY UNDERSIZED) REACH A TAUNT APPEARANCE. ANY LONG TERM CABLE SAG SHALL BE MINIMIZED DURING THE MAINTENANCE RE-TIGHTENING VISITS AS REQUIRED.

SHT. 27 OF 195 DWG. NO. 5-2606

REINFORCED CONCRETE NOTES

1.- CONCRETE WORK SHALL BE EXECUTED IN ACCORDANCE WITH THE LATEST EDITION OF THE AMERICAN CONCRETE INSTITUTE SPECIFICATION FOR STRUCTURAL CONCRETE ACI 301 AND BUILDING CODE ACI 318.
CONCRETE SPECIFICATIONS, SHALL BE AS FOLLOWS:
- 28 DAY STRENGTH: 2500 PSI
- SLUMP: 3-5
- PORTLAND CEMENT SHALL CONFORM TO C-150
- AGGREGATE SHALL CONFORM TO ASTM C-33

2.- ALL REINFORCEMENT STEEL SHALL CONFORM TO ASTM A-615 GRADE 60; AND SHALL BE DETAILED, FABRICATED AND PLACED IN ACCORDANCE WITH THE LATEST ACI SPECIFICATION FOR STRUCTURAL CONCRETE ACI 301, ACI DETAILING MANUAL AND CRSI MANUAL OF STANDARD PRACTICE.

3.- ALL ANCHOR BOLTS SET IN NEW CONCRETE (WHEN APPLICABLE) SHALL COMPLY WITH ASTM F-1554 GRADE 55 (GALVANIZED).

4.- ALL NON-SHRINK GROUT SHALL HAVE A MINIMUM 28 DAYS COMPRESSIVE STRENGTH OF 5000 PSI, AND SHALL COMPLY THE REQUIREMENTS OF ASTM C109, ASTM C939, ASTM C1090, ASTM C1107, WHEN APPLICABLE.

LEGEND:

1. INSTALL (5) 18'X14' FULL HIP CANTILEVER SHADE STRUCTURES BY: USA SHADE. CONTACT: DEVIN CHRISTENSEN AT (714) 427-6981. INSTALL PER MANUFACTURER'S RECOMMENDATIONS AND SPECIFICATIONS. LOCATION AS SHOWN ON LANDSCAPE CONSTRUCTION PLAN, SHEET L-1.02.
2. ADJACENT CONCRETE POOL DECK PAVING PER CONSTRUCTION PLAN, SEE SHEET L-1.01 AND DETAIL 2, SHEET L-2.02.
3. ADJACENT PERIMETER WALL. SEE DETAIL 2, SHEET L-2.02 FOR WALL CONDITION AT SHADE STRUCTURE POSTS. SEE CONSTRUCTION PLAN, SHEET L-1.02 FOR LOCATIONS.

NOTES:

A. ALL STEEL EDGES TO BE ROUNDED SMOOTH TO PREVENT FABRIC DAMAGE.
B. ALL STEEL POSTS AND STEEL TUBING COMPONENTS TO RECEIVE POLYESTER POWDER-COAT FINISH, COLOR: 'TELE-GRAY' (15892). FINAL COLOR TO BE SELECTED & APPROVED BY CITY.
C. FABRIC HDPE SHADE CLOTH SHALL BE COLOR: 'TURQUOISE'. FINAL COLOR TO BE SELECTED & APPROVED BY CITY. CONTRACTOR TO SUBMIT SCALED SHOP DRAWINGS/SAMPLES PRIOR TO ACQUISITION AND INSTALLATION FOR REVIEW AND APPROVAL.
D. ALL HAND HOLDS TO HAVE REINFORCED EDGING AND REMOVABLE ACCESS PANELS.
E. STRUCTURAL ENGINEERING FOR SHADE STRUCTURE(S) PROVIDED BY: USA SHADE. CONTACT: DEVIN CHRISTENSEN AT (949) 929-8173. SEE SHEETS L-2.15 - L-2.17 FOR STRUCTURAL ENGINEERING PLANS AND PROVIDED STRUCTURAL CALCULATIONS BY STATE OF CALIFORNIA LICENSED STRUCTURAL ENGINEER.
F. FOOTINGS SHALL BE DESIGNED TO IMPEDE IN NO WAY AND IMPART AND/OR TRANSFER NO LOADS OR FORCES ONTO ADJACENT CONSTRUCTION IMPROVEMENTS (SEAT WALLS, RETAINING WALLS, CONCRETE PAVING, PAVERS, PILASTERS, SITE FURNISHINGS, ETC.)

SHADE STRUCTURE BASIS OF DESIGN ENGINEERED BY USA SHADE. CONTACT: DEVIN CHRISTENSEN AT (949) 929-8173.

GENERAL NOTES

DESIGN LOADS

BUILDING CODE	CBC 2019 (BASED ON IBC 2018)
LIVE LOADS	5 PSF
SNOW LOAD	5 PSF
WIND LOADS	115 MPH[1] 3-Sec. Gust, RISK CATEGORY II & EXPOSURE C

1.- 115 MPH ACCORDING THE ULTIMATE WIND SPEED MAPS OF ASCE 7-16 IS EQUIVALENT TO THE NOMINAL WIND SPEED OF 90 MPH ACCORDING ASCE 7-05 AND IBC 2018 EQ 16-33.

STRUCTURAL STEEL

1.- ALL STRUCTURAL SHAPES SHALL BE COLD FORMED HSS ASTM A500 GRADE C, UNLESS OTHERWISE NOTED, TYPICAL MECHANICAL PROPERTIES FOR HSS PRODUCTS:

SQUARE AND RECTANGULAR	50,000 PSI YIELD / 62,000 PSI TENSILE
ROUND PIPE	46,000 PSI YIELD / 62,000 PSI TENSILE

2.- ALL GALVANIZED STEEL TUBE PRODUCTS ARE MANUFACTURED PER ASTM A500, TYPICAL MECHANICAL PROPERTIES ACHIEVED FOR GALVANIZED TUBE PRODUCTS:

ROUND TUBE	45,000 PSI YIELD / 48,000 PSI TENSILE

3.- ALL PLATES SHALL COMPLY WITH ASTM A572 GRADE 50.

4.- ALL STEEL TUBING SHALL BE TRIPLE COATED FOR RUST PROTECTION USING THE IN-LINE ELECTROPLATING COAT PROCESS. TUBING SHALL BE INTERNALLY COATED WITH ZINC AND ORGANIC COATINGS TO PREVENT CORROSION AS MANUFACTURED BY ALLIED TUBE & CONDUIT.

5.- STRUCTURAL STEEL SHALL BE DETAILED, FABRICATED AND ERECTED IN ACCORDANCE WITH A.I.S.C. SPECIFICATIONS.

6.- ALL SHOP WELDS SHALL BE EXECUTED IN ACCORDANCE WITH THE LATEST EDITION OF THE AMERICAN WELDING SOCIETY (AWS) D1.1 SPECIFICATIONS. ALL WELDS SHALL BE CONTINUOUS WHERE LENGTH IS NOT GIVEN, UNLESS OTHERWISE SHOWN OR NOTED ON DRAWINGS. ALL WELDS SHALL DEVELOP THE FULL STRENGTH OF THE WEAKER MEMBER. ALL WELDS SHALL BE MADE USING E70XX .045 WIRE.

7.- SHOP CONNECTIONS SHALL BE WELDED UNLESS NOTED OTHERWISE. FIELD CONNECTIONS SHALL BE AS INDICATED ON THE DRAWINGS (IF REQUIRED). ALL FILLET WELDS SHALL BE A MINIMUM OF 3/16" UNLESS OTHERWISE NOTED. FIELD WELDS SHALL NOT BE ALLOWED.

8.- ALL HIGH STRENGTH BOLTS SHALL COMPLY WITH ASTM A325 TYPE 1 OR A490 TYPE 1. ALL NUTS SHALL COMPLY WITH ASTM A563DH, AND WASHERS SHALL COMPLY WITH ASTM F436.

9.- ALL HIGH STRENGTH BOLTS SHALL BE TIGHTENED TO A SNUG TIGHT CONDITION.

10.- ALL STAINLESS STEEL BOLTS / STUDS SHALL COMPLY WITH ASTM F-593, ALLOY GROUP 1 OR 2 ALL NUTS SHALL COMPLY WITH ASTM F-594 ALLOY GROUP 1 OR 2.

11.- ALL STRUCTURAL STEEL SHALL BE PAINTED WITH ONE SHOP COAT (2.5 TO 3.5 MILS THICK MIN), THIS COAT IS A WEATHER RESISTANT POWDER COATING BASED ON POLYESTER TGIC (MANUFACTURED BY SHERWIN WILLIAMS OR TIGER DRYLAC). TO ACHIEVE OPTIMUM ADHESION, IT IS RECOMMENDED THAT THE PROPER TREATMENT AND DRYING TAKE PLACE BEFORE COATING. POLYESTER POWDER (TGIC) SPECIFICATIONS SHALL BE AS FOLLOWS:

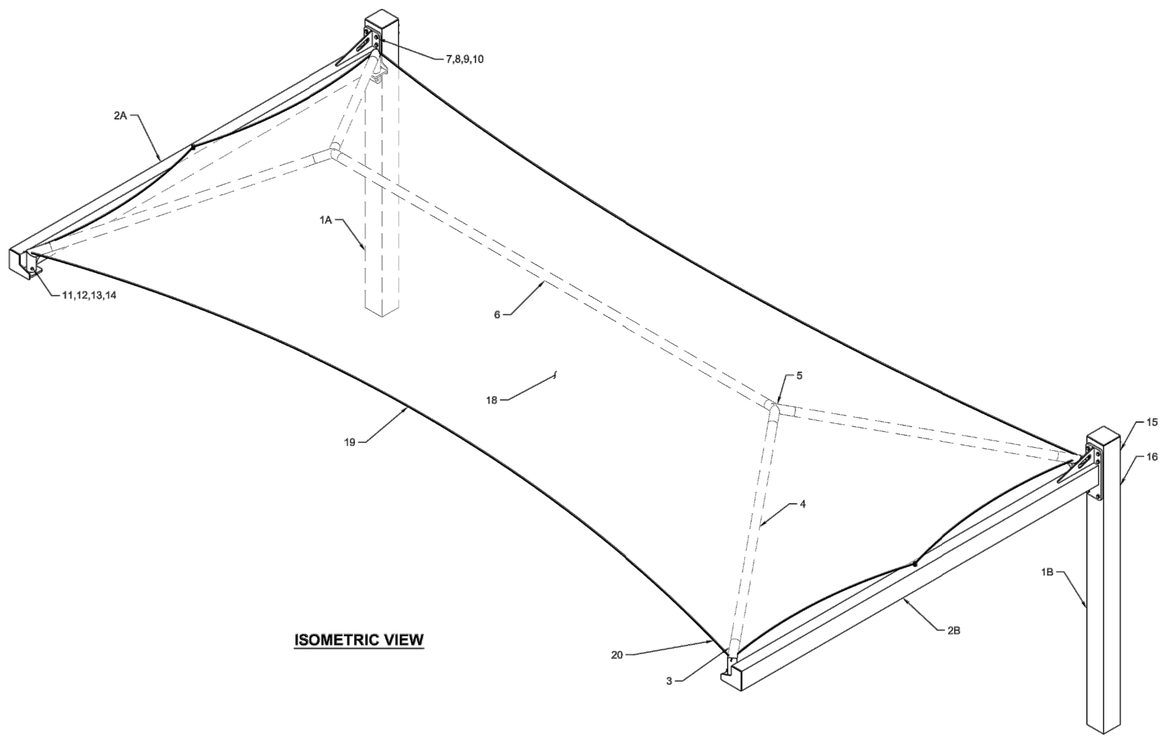
- PENCIL HARDNESS (ASTM D-3363)
- HUMIDITY (ASTM D-2247)
- SOLVENT RESISTANCE (PCI METHOD) - 50 DBL RUBS SL. SOFTNES

FABRIC SPECIFICATION

1.- FABRIC SHALL BE SYNTHESIS COMMERCIAL 95-340FR, A HIGH DENSITY POLYETHYLENE WITH ULTRA VIOLET ADDITIVES, WITH MONOFILAMENT AND TAPE CONSTRUCTION GIVING A STABLE MATERIAL AND LOCK-STITCH KNITTED.

2.- FABRIC SPECIFICATIONS:

	SOLID COLORS
-TEAR STRENGTH	WARP 208 LBS WEFT 486 LBS
- BURST STRENGTH	353 LBS
- FADING	MINIMUM FADING AFTER 5 YEARS
- LIFE EXPECTANCY	A MINIMUM OF 8 YEARS CONTINUOUS EXPOSURE TO THE SUN



3.- FIRE TEST ON FABRIC: ASTM E 84, FLAME SPREAD INDEX 25, SMOKE DEVELOPED INDEX 105.

4.- THREAD-PTFE (TEFLON) USED MEET THE FOLLOWING SPECIFICATIONS: HIGH STRENGTH, LOW SHRINKAGE, WIDE TEMPERATURE RANGE, FLEX & ABRASION RESISTANT AND UV RADIATION IMMUNITY. LOCKSTITCH - 1200 DENIER. CHAINSTITCH THREAD - 2400 DENIER

AIRCRAFT CABLE

1.- WIRE ROPE CABLE SHALL BE 7x19 STRAND CORE GALVANIZED WIRE ROPE WITH A BREAKING STRENGTH VALUE OF 7,000 LBS (1/4" DIAMETER).

2.- CABLES SHALL BE FED THROUGH THE FABRIC SLEEVES AROUND THE PERIMETER OF THE CANOPY AND TENSIONED UNTIL THE FABRIC PANELS (DESIGNED PURPOSELY UNDERSIZED) REACH A TAUNT APPEARANCE. ANY LONG TERM CABLE SAG SHALL BE MINIMIZED DURING THE MAINTENANCE RE-TIGHTENING VISITS AS REQUIRED.

SHT. 31 OF 195 DWG. NO. 5-2606

REINFORCED CONCRETE NOTES

1.- CONCRETE WORK SHALL BE EXECUTED IN ACCORDANCE WITH THE LATEST EDITION OF THE AMERICAN CONCRETE INSTITUTE SPECIFICATION FOR STRUCTURAL CONCRETE ACI 301 AND BUILDING CODE ACI 318.
CONCRETE SPECIFICATIONS, SHALL BE AS FOLLOWS:
- 28 DAY STRENGTH: 2500 PSI
- SLUMP: 3-5
- PORTLAND CEMENT SHALL CONFORM TO C-150
- AGGREGATE SHALL CONFORM TO ASTM C-33

2.- ALL REINFORCEMENT STEEL SHALL CONFORM TO ASTM A-615 GRADE 60; AND SHALL BE DETAILED, FABRICATED AND PLACED IN ACCORDANCE WITH THE LATEST ACI SPECIFICATION FOR STRUCTURAL CONCRETE ACI 301, ACI DETAILING MANUAL AND CRSI MANUAL OF STANDARD PRACTICE.

3.- ALL ANCHOR BOLTS SET IN NEW CONCRETE (WHEN APPLICABLE) SHALL COMPLY WITH ASTM F-1554 GRADE 55 (GALVANIZED).

4.- ALL NON-SHRINK GROUT SHALL HAVE A MINIMUM 28 DAYS COMPRESSIVE STRENGTH OF 5000 PSI, AND SHALL COMPLY THE REQUIREMENTS OF ASTM C109, ASTM C939, ASTM C1090, ASTM C1107, WHEN APPLICABLE.

5.- SOIL PARAMETERS FOR FOOTING ANALYSIS; TABLE 1806.2, CLASS : 5

Project Community Aquatics & Senior Center, Gardena CA
Reference Evapotranspiration (ETo): 50.1

Glasir Design Irrigation Consulting CID#6004-glasirdesign.com

Hydrozone # /Planting Description[a]	Plant Factor (PF)	Irrigation Method[b]	Irrigation Efficiency (IE)[c]	ETAF (PF/IE)	Landscape Area (sq. ft.)	ETAF x Area	Estimated Total Water Use (ETWU)[d]
Regular Landscape Areas							
#1 low shrub	0.2	Bubblers	0.81	0.25	5,394	1,331.85	41,369.98
#2 turf rotary	0.8	Bubblers	0.81	0.99	722	713.09	22,149.89
#3 med trees	0.5	Bubblers	0.81	0.62	1,450	895.06	27,802.41
#4 med pots	0.5	Drip	0.81	0.62	44	27.16	843.66
			Totals		7,610	2,967.16	92,165.94
Special Landscape Areas							
#5 pool				1	7,020	7,020.00	218,055.24
				1			
			Totals		7,020	7,020.00	218,055.24
				ETWU Total			310,221.18
				Maximum Allowed Water Allowance (MAWA)[e]			324,427.06

[a] Refer to legend for Hydrozone description.

[d] ETWU (Annual Gallons Required) = Eto x 0.62 x ETAF x Area
w here 0.62 is a conversion factor that converts acre-inches per acre per year to gallons per square foot per year.

[e] MAWA (Annual Gallons Allowed) = (Eto) (.62) [(ETAF x LA) + ((1-ETAF) x SLA)]
w here 0.62 is a conversion factor that converts acre-inches per acre per year to gallons per square foot per year, LA is the total landscape area in square feet, SLA is the total special landscape area in square feet, and ETAF is .55 for residential areas and 0.45 for non-residential areas.

ETAF Calculations

Regular Landscape Areas

Total ETAF x Area	2,967
Total Area	7,610
Average ETAF	0.39

Average ETAF for Regular Landscape Areas must be 0.55 or below for residential areas, and 0.45 or below for non-residential areas.

All Landscape Areas Including SLA

Total ETAF x Area	9,987.16
Total Area	14,630
Sitewide ETAF	0.68

5. PLANTING TABLETS - REFER TO SPECIFICATIONS FOR QUANTITY AND PLACEMENT.
6. SCARIFY SIDES AND BOTTOM OF PLANTING PIT.
7. NATIVE UNDISTURBED SOIL.
8. SET TOP OF ROOTBALL 2" ABOVE SURROUNDING GRADE AND SLOPE FOR DRAINAGE.

3 SHRUB PLANTING

PLANTING NOTES

1. ALL TREES WITHIN A SPECIES SHALL HAVE MATCHING & UNIFORM FORM.
2. ALL LANDSCAPED AREAS TO RECEIVE AUTOMATED IRRIGATION.
3. REFER TO PLANTING SPECIFICATIONS FOR SOIL PREPARATION, FERTILIZATION, MULCHING, AND OTHER ADDITIONAL PLANTING INFORMATION.
4. ALL PLANT MATERIAL SHALL BE APPROVED BY THE LANDSCAPE ARCHITECT/DISTRICT PRIOR TO INSTALLATION.
5. FINAL LOCATION OF ALL PLANT MATERIALS SHALL BE SUBJECT TO THE APPROVAL OF THE LANDSCAPE ARCHITECT/DISTRICT.
6. CONTRACTOR SHALL NOTIFY THE COUNTY PROJECT MANAGER/COUNTY INSPECTOR 48 HOURS PRIOR TO COMMENCEMENT OF WORK TO COORDINATE PROJECT INSPECTION SCHEDULES.
7. SEE DETAILS AND SPECIFICATIONS FOR STAKING METHOD, PLANT PIT DIMENSIONS AND BACKFILL REQUIREMENTS.
8. IF CONFLICTS ARISE BETWEEN SIZE OF AREAS AND PLANS, CONTRACTOR TO CONTACT LANDSCAPE ARCHITECT FOR RESOLUTION. FAILURE TO MAKE SUCH CONFLICTS KNOWN TO THE LANDSCAPE ARCHITECT WILL RESULT IN CONTRACTOR'S LIABILITY TO RELOCATE THE MATERIALS.
9. CONTRACTOR SHALL SUBMIT FOR APPROVAL PHOTOS OF ALL BOXED TREES. PHOTOS SHOULD INCLUDE A PERSON FOR SCALE PURPOSES. ALL BOX TREES SHALL BE OF QUALITY AS DETERMINED BY THE OWNER/LANDSCAPE ARCHITECT. MATERIAL FOUND UNSUITABLE FOR THE DESIGN OR SPECIFICATION INTENT WILL BE REJECTED. THE CONTRACTOR SHALL ALSO SUBMIT WRITTEN SPECIFICATIONS FOR ALL PLANT MATERIAL SPECIFIED ON THIS PROJECT PRIOR TO PLACING ORDER. FAILURE TO DO SO COULD RESULT IN THE REPLACEMENT (AT CONTRACTOR'S EXPENSE) OF ANY PLANTS DETERMINED UNACCEPTABLE BY LANDSCAPE ARCHITECT/DISTRICT.
10. IT IS THE CONTRACTOR'S RESPONSIBILITY TO FURNISH PLANT MATERIALS FREE OF PESTS OR PLANT DISEASES. PRE-SELECTED OR 'TAGGED' MATERIAL MUST BE INSPECTED BY THE CONTRACTOR AND CERTIFIED PEST AND DISEASE FREE. IT IS THE CONTRACTOR'S OBLIGATION TO WARRANTY ALL PLANT MATERIALS PER THE SPECIFICATIONS.
11. CONTRACTOR SHALL BE RESPONSIBLE FOR MAKING HIM/HERSELF FAMILIAR WITH ALL UNDERGROUND UTILITIES, PIPELINES AND STRUCTURES. CONTRACTOR SHALL TAKE SOLE RESPONSIBILITY FOR ANY COST INCURRED DUE TO DAMAGE OF SAID UTILITIES. CONTRACTOR SHOULD CALL UNDERGROUND SERVICE ALERT (2) FULL WORKING DAYS BEFORE COMMENCING ANY DIGGING. PHONE 811 FOR U.S.A
12. CONTRACTOR SHALL NOT PROCEED WITH CONSTRUCTION AS DESIGNED WHEN IT IS OBVIOUS THAT UNKNOWN OBSTRUCTIONS AND/OR GRADE DIFFERENCES EXIST THAT MAY NOT HAVE BEEN KNOWN DURING DESIGN. SUCH CONDITIONS SHALL BE IMMEDIATELY BROUGHT TO THE ATTENTION OF THE COUNTY PROJECT MANAGER. THE CONTRACTOR SHALL ASSUME FULL RESPONSIBILITY FOR ALL NECESSARY REVISIONS DUE TO FAILURE TO GIVE SUCH NOTIFICATION.
13. CONTRACTOR SHALL BE RESPONSIBLE FOR ANY COORDINATION WITH SUBCONTRACTORS AND CONSTRUCTION MANAGER AS REQUIRED TO ACCOMPLISH PLANTING OPERATIONS.
14. LANDSCAPE CONTRACTOR TO RECEIVE SITE GRADED TO +0.10. CONTRACTOR SHALL OBTAIN LETTER OF GRADE CERTIFICATION FROM OWNER PRIOR TO PROJECT EXECUTION.
15. PLANT MATERIAL QUANTITIES ARE GIVEN FOR CONVENIENCE ONLY. PLANT SYMBOLS AND SPECIFIED SPACING SHALL TAKE PRECEDENCE. CONTRACTOR SHALL VERIFY PLANT MATERIAL QUANTITIES PER PLAN.
16. CONTRACTOR TO ASSURE POSITIVE DRAINAGE IN ALL PLANTING AREAS - 2% MINIMUM ALLOWED.
17. AFTER ROUGH GRADES HAVE BEEN ESTABLISHED IN PLANTING AREAS, CONTRACTOR SHALL HAVE SOIL SAMPLES TAKEN AT THE LOCATIONS INDICATED BY ⊕ DESIGNATION (3 TOTAL). CONTRACTOR SHALL INFORM SOIL TESTING LAB OF THE PLANT MATERIAL SPECIFIED IN SOIL TESTING LOCATIONS (NATIVE TREES & SHRUBS, ORNAMENTAL TREES & SHRUBS, PALM TREES, BERMUDA SOD, ETC.) SO THAT APPROPRIATE PLANTING RECOMMENDATIONS CAN BE GIVEN. THESE SAMPLES SHALL BE TESTED BY WAYPOINT ANALYTICAL OR APPROVED EQUAL. CONTACT: JOE KIEFER (714) 282-8777 FOR SOIL FERTILITY, AGRICULTURAL SUITABILITY TEST AND SOIL PREPARATION RECOMMENDATIONS. TWO SAMPLES SHALL BE TAKEN AT EACH LOCATION: (1) GROUND LEVEL TO 10" DEEP, (2) 24" TO 36" DEEP. EACH SAMPLE SHALL CONTAIN APPROXIMATELY 1 QUART OF SOIL AND BE LABELED PER LOCATION AND DEPTH. CONTRACTOR SHALL INSTALL SOIL PREPARATION AND BACKFILL MIX TO CONFORM TO THESE RECOMMENDATIONS ONLY UPON RECEIPT OF WRITTEN CHANGE ORDER FROM OWNER. SUBMIT SOIL REPORT TO CITY'S ENGINEER PRIOR TO PLANTING.
18. GROUND COVERS AND SHRUBS SHALL BE TRIANGULARLY SPACED, UNLESS OTHERWISE INDICATED.
19. ALL SOIL FOR LANDSCAPE PLANTING AREAS OR BERMS SHALL BE OBTAINED FROM ON- SITE EXCAVATIONS. SHOULD IMPORT SOIL BE NECESSARY, INDICATE SOURCE LOCATION. SEE PROJECT GEOTECHNICAL REPORT. SOIL SHALL BE SANDY LOAM CONTAINING NO TOXIC CHEMICALS OR ELEMENTS WHICH MAY INHIBIT OR RETARD NORMAL PLANT GROWTH. SOIL TESTING RESULTS SHALL BE SUBMITTED AND APPROVED PRIOR TO SOIL IMPLEMENTATION.
20. ALL LANDSCAPED AREAS (EXCLUDING TURF) SHALL BE MULCHED WITH A 3" DEEP LAYER OF MULCH, PER SPECIFICATIONS, AT THE CONCLUSION OF PLANTING OPERATIONS.
21. AT EDGES OF PLANTING AREAS, THE CENTER LINE OF THE LAST ROW OF SHRUBS AND/OR GROUND COVER SHALL BE LOCATED NO FARTHER FROM OR CLOSER TO THE EDGE THAN ONE-HALF THE SPECIFIED ON-CENTER SPACING.
22. REMOVE ALL NURSERY STAKES AND ESPALIER RACKS IMMEDIATELY AFTER INSTALLATION, UPON PROVIDING SUPPORT PER DETAILS, THIS SHEET.
23. ROOT BARRIER NOTE: ALL TREES PLANTED WITHIN 8' OF ANY HARDSCAPE ELEMENT (SIDEWALKS, WALLS, D.G., PAVERS, CURBS, ETC.) SHALL RECEIVE ROOT BARRIER BY "DEEP ROOT CORP.". (714) 898-0863. NUMBER OF PANELS PER TREE PER MANUFACTURER'S RECOMMENDATION. SEE SPECIFICATIONS.
24. ALL MULCH AREAS ON SLOPES TO RECEIVE JUTE NETTING. SEE SPECIFICATIONS.
25. CONTRACTOR SHALL BE RESPONSIBLE FOR MAINTAINING PROTECTION OF ALL EXISTING SHRUB AND TURF AREAS TO REMAIN DURING CONSTRUCTION. DAMAGED SHRUB AND TURF AREAS SHALL BE REPAIRED OR REPLACED AT THE CONTRACTOR'S EXPENSE. TURF AREAS WITHIN EXISTING IRRIGATION RENOVATION/RETROFIT ZONES AS INDICATED ON THE PROJECT IRRIGATION PLANS SHALL BE MAINTAINED AND REPAIRED IF NEEDED WITH NEW SOD.
26. PER PROJECT GEOTECH REPORT: WHERE NEW TREES OR LARGE LARGE SHRUBS ARE TO BE LOCATED IN CLOSE PROXIMITY OF NEW CONCRETE FLATWORK, RIGID MOISTURE / ROOT BARRIERS SHOULD BE PLACED AROUND THE PERIMETER OF THE FLATWORK TO AT LEAST 2 FEET IN DEPTH IN ORDER TO PROTECT THE FLATWORK FROM POTENTIAL ROOT AND MOISTURE DAMAGE. EXISTING MATURE TREES NEED FLATWORK SHOULD ALSO INCLUDE RIGID MOISTURE / ROOT BARRIERS PLACED AT LEAST 2 FEET IN DEPTH BELOW THE TOP OF THE FLATWORK. SEE PLANS AND SPECS FOR LOCATIONS.

STATEMENT OF GENERAL CONFORMANCE
THE DRAWINGS OR SHEETS LISTED IN THE INDEX ON THIS SHEET HAVE BEEN PREPARED BY OTHER DESIGN PROFESSIONALS OR CONSULTANTS WHO ARE LICENSED AND/OR AUTHORIZED TO PREPARE SUCH DRAWINGS IN THIS STATE. IT HAD BEEN EXAMINED BY ME FOR:

1. DESIGN INTENT AND APPEARS TO MEET THE APPROPRIATE REQUIREMENTS OF TITLE 24, CALIFORNIA CODE OF REGULATIONS AND THE PROJECT SPECIFICATIONS PREPARED BY ME
2. COORDINATION WITH MY PLANS AND SPECIFICATIONS AND IS ACCEPTABLE FOR INCORPORATION INTO THE CONSTRUCTION OF THE PROJECT.

THIS STATEMENT OF GENERAL CONFORMANCE "SHALL" NOT BE CONSTRUED AS RELIEVING ME OF MY RIGHTS, DUTIES AND RESPONSIBILITIES UNDER SECTION 4-336, 4-341 AND 4-344 OF TITLE 24, PART 1 (TITLE 24, PART 1 SECTION 4-317) (B))

I CERTIFY THAT ALL DRAWINGS OR SHEETS LISTED IN THE INDEX ON THIS SHEET (CIVIL, STRUCTURAL, MECHANICAL, PLUMBING, ELECTRICAL, FIRE PROTECTION AND THEATRICAL) ARE IN GENERAL CONFORMANCE AND HAVE BEEN COORDINATED.

GENERAL CONFORMANCE STATEMENT

SVA ARCHITECTS IS THE DESIGNATED ARCHITECT OF RECORD AS REQUIRED BY THE STATE OF CALIFORNIA. THE ARCHITECT OF RECORD SHALL REVIEW SUBMITTALS AND COORDINATE SUBMITTALS AND DEFERRED SUBMITTALS THROUGH THE CITY OF GARDENA. DEFERRED SUBMITTALS SHALL NOT BE INSTALLED UNTIL THEIR DESIGN AND SUBMITTAL DOCUMENTS HAVE BEEN APPROVED BY THE CITY OF GARDENA.

THE BUILDING OFFICIAL SHALL BE NOTIFIED IN WRITING BY THE OWNER IF THE ARCHITECT OF RECORD IS CHANGED OR IS UNABLE TO CONTINUE TO PERFORM THE DUTIES. THE OWNER SHALL DESIGNATE A SUBSTITUTE ARCHITECT OR ENGINEER OF RECORD WHO SHALL PERFORM ALL OF THE DUTIES REQUIRED OF THE ORIGINAL ARCHITECT OF RECORD.

REVIEW AND COMMENT ON SUBMITTALS AND DEFERRED SUBMITTALS SHALL NOT RELIEVE THE AUTHOR OF THE DOCUMENTS OR THE CONTRACTOR FROM COMPLIANCE WITH ALL APPLICABLE CODES AND THE REQUIREMENTS OF THE DRAWINGS AND SPECIFICATIONS. THE REVIEW IS ONLY FOR GENERAL CONFORMANCE WITH THE DESIGN CONCEPT OF THE PROJECT AND GENERAL COMPLIANCE WITH INFORMATION GIVEN IN THE CONTRACT DOCUMENTS. THE CONTRACTOR IS RESPONSIBLE FOR CONFIRMING AND CORRELATING ALL QUANTITIES AND DIMENSIONS, SELECTING FABRICATION PROCESSES AND TECHNIQUES OF CONSTRUCTION, COORDINATING HIS WORK WITH THAT OF OTHER TRADES, AND PERFORMING HIS WORK IN A SAFE AND SATISFACTORY MANNER.

ARCHITECT OF RECORD

THE FOLLOWING ITEMS ARE DESIGN-BUILD SYSTEMS AND WILL BE A DEFERRED SUBMITTAL BY THE CONTRACTOR AT A LATER DATE. THE CONTRACTOR SHALL BE RESPONSIBLE FOR ENGINEERING AND CALCULATIONS FOR APPLICABLE ITEMS. THE CONTRACTOR SHALL RETAIN THE SERVICES OF A CIVIL OR STRUCTURAL ENGINEER WHO SHALL BE RESPONSIBLE FOR THE DESIGN. THE CONTRACTOR SHALL SUBMIT CALCULATIONS AND SHOP DRAWINGS TO THE ARCHITECT OF RECORD, WHO SHALL REVIEW THEM WITH NOTATION INDICATING THAT THE DEFERRED SUBMITTAL DOCUMENTS HAVE BEEN FOUND TO BE IN GENERAL CONFORMANCE WITH THE DESIGN OF THE BUILDING. THE SUBMITTAL ITEMS SHALL NOT BE INSTALLED UNTIL THEIR DESIGN AND SUBMITTAL DOCUMENTS HAVE BEEN APPROVED BY THE GOVERNING AGENCY. THE CONTRACTOR IS RESPONSIBLE FOR SUBMITTAL OF THE DEFERRED SUBMITTAL DOCUMENTS.

1. ELEVATOR GUIDE RAILS AND SUPPORT BRACKETS AS DESCRIBED ON PLANS AND IN SPECIFICATIONS.
2. FIRE SPRINKLER SYSTEM AS DESCRIBED ON PLANS AND IN SPECIFICATIONS
3. FIRE ALARM SYSTEM AS DESCRIBED ON PLANS AND IN SPECIFICATIONS
4. ROOF ACCESS LADDERS AS DESCRIBED ON PLANS AND IN SPECIFICATIONS
5. SEISMIC BRACING OF PLUMBING PIPE AS DESCRIBED ON PLANS AND IN SPECIFICATIONS
6. SHORING PLANS AS DESCRIBED ON PLANS AND IN SPECIFICATIONS
7. BLEACHERS AS DESCRIBED ON PLANS AND IN SPECIFICATIONS

NOTE: INSTALLATION OF DEFERRED SUBMITTAL ITEMS SHALL NOT BE STARTED UNTIL DETAILS, PLANS, AND SPECIFICATIONS ARE APPROVED BY THE OWNER AND BUILDING DEPARTMENT. ALLOW 30 DAYS FOR OWNER REVIEW. THE PLANS AND SPECIFICATIONS SHALL FIRST BE REVIEWED AND SIGNED BY THE LANDSCAPE ARCHITECT BEFORE SUBMITTAL TO THE OWNER FOR REVIEW. CONTRACTOR TO SCHEDULE DEFERRED APPROVAL SUBMITTALS WELL IN ADVANCE TO ALLO FOR BOTH ARCHITECT AND OWNER REVIEW.

DEFERRED SUBMITTALS

1. THESE DOCUMENTS AND THE IDEAS AND DESIGNS INCORPORATED HEREIN, AS AN INSTRUMENT OF PROFESSIONAL SERVICE, ARE THE PROPERTY OF SVA ARCHITECTS, INC., AND ARE NOT TO BE USED, IN WHOLE OR IN PART FOR ANOTHER PROJECT WITHOUT THE WRITTEN AUTHORIZATION OF SVA ARCHITECTS, INC.

2. THE WORK SHOWN ON THESE DRAWINGS AS EXISTING CONDITIONS WAS PREPARED FROM INFORMATION FURNISHED BY THE OWNER. WHILE THIS INFORMATION IS BELIEVED TO BE RELIABLE, SVA ARCHITECTS,INC. IS NOT RESPONSIBLE FOR THE ACCURACY OR ADEQUACY OF ANY WORK SHOWN AS EXISTING NOR IS SVA ARCHITETS, INC. RESPONSIBLE FOR ANY ERRORS OR OMISSIONS WHICH MAY HAVE BEEN INCORPORATED INTO THESE DRAWINGS AS A RESULT.

3. EACH BIDDER SHALL POSSESS AT THE TIME OF BID A CLASS B OR THE APPROPRIATE CLASS C CONTRACTOR'S LICENSE PURSUANT TO PUBLIC CONTRACT CODE SECTION 3300 AND BUSINESS AND PROFESSIONS CODE SECTION 7028.15. THE SUCCESSFUL BIDDER MUST MAINTAIN THE LICENSE THROUGHOUT THE DURATION OF THIS CONTRACT.

4. CONTRACTOR IS RESPONSIBLE FOR FIRE SAFETY DURING CONSTRUCTION AND THE DURATION OF THIS CONTRACT PER 2013 CALIFORNIA FIRE CODE, CHAPTER 33.

5. INSPECTOR OF RECORD REQUIREMENTS: A. ONE OR MORE INSPECTORS EMPLOYED BY THE OWNER IN ACCORDANCE WITH THE REQUIREMENTS OF TITLE 24 OF THE CALIFORNIA CODE OF REGULATIONS WILL BE ASSIGNED TO THE WORK. THE INSPECTORS DUTIES ARE SPECIFICALLY DEFINED IN SECTION 4-342 OF SAID TITLE 24, PART 1.

6. ALL CONSTRUCTION SHALL BE IN ACCORDANCE WITH THE REQUIREMENTS OF THE APPLICABLE CODES. ALL ENGINEERING SHALL COMFORM WITH ALL APPLICABLE MUNICIPAL, STATE AND FEDERAL REGULATIONS HAVING JURISDICTION INCLUDING ACCESSIBILITY STANDARDS AND ADA REQUIREMENTS.

7. GRADING PLANS, DRAINAGE IMPRPOVEMENTS, ROAD AND ACCESS REQUIREMENTS AND ENVIROMENTAL HEALTH CONCIDERATIONS SHALL COMPLY WITH ALL LOCAL ORDINANCES.

8. DRINKING WATER SHALL COMPLY WITH ALL LOCAL HEALTH DEPARTMENT REQUIREMENTS.

9. DO NOT SCALE THE DRAWINGS. THE DRAWINGS ARE NOT NECESSARILY TO SCALE. THE CONTRACTOR SHALL VERIFY ALL CONDITIONS AND DIMENSIONS IN THE FIELD PRIOR TO BIDDING AND START OF CONSTRUCTION. IF DISCREPANCIES ARE FOUND, THE ARCHITECT SHALL BE NOTIFIED FOR CLARIFICATION BEFORE COMMENCING WORK.

10. ALL DIMENSIONS ARE TO FACE OF CONCRETE, FACE OF MASONRY UNITS, CENTERLINE OF COLUMNS AND BEAMS, OR FACE OF STUDS, UNLESS OTHERWISE NOTED. FINISH FLOOR ELEVATIONS ARE TO TOP OF CONCRETE SLAB OR TOP OF INTERIOR PAVING UNLESS NOTED OTHERWISE. CEILING HEIGHT DIMENSIONS ARE TO FINISHED SURFACES UNLESS NOTED OTHERWISE.

11. THE CIVIL, STRUCTURAL, MECHANICAL, PLUMBING, AND ELECTRICAL DRAWINGS ARE SUPPLEMENTAL TO THE ARCHITECTURAL DRAWINGS. IT SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR TO CHECK WITH THE ARCHITECTURAL DRAWINGS BEFORE PROCEEDING WITH INSTALLATION OF CIVIL, STRUCTURAL MECHANICAL, PLUMBING, AND ELECTRICAL WORK. SHOULD THERE BE ANY DISCREPANCIES BETWEEN THE ARCHITECT'S AND THE CONSULTING ENGINEER'S DRAWINGS AND SPECIFICATIONS THAT WOULD CAUSE A CONFLICT, IT SHALL BE BROUGHT TO THE ARCHITECTS ATTENTION FOR CLARIFICATION PRIOR TO INSTALLATION OF SAID WORK. ANY WORK INSTALLED IN CONFLICT WITH THE ARCHITECTURAL DRAWINGS SHALL BE CORRECTED BY THE CONTRACTOR AT HIS EXPENSE AND AT NO ADDITIONAL COST TO THE OWNER OR ARCHITECT.

12. ALL SYMBOLS AND ABBREVIATIONS USED ON THE DRAWINGS ARE CONSIDERED TO BE CONSTRUCTION STANDARDS. IF THE CONTRACTOR HAS QUESTIONS REGARDING ABBREVIATIONS OR THEIR EXACT MEANING, THE ARCHITECT SHALL BE NOTIFIED FOR CLARIFICATION.

13. DETAILS MARKED "TYPICAL" SHALL APPLY IN ALL SIMILAR CASES UNLESS SPECIFICALLY INDICATED OTHERWISE.

14. THERE SHALL BE NO TRENCHES OR EXCAVATIONS 5' OR MORE IN DEPTH INTO WHICH A PERSON IS REQUIRED TO DECEND UNLESS A PERMIT IS OBTAINED FROM THE STATE OF CALIFORNIA DIVISION OF INDUSTRIAL SAFETY PRIOR TO THE ISSUANCE OF A BUILDING OR GRADING PERMIT.

15. THE CONSTRUCTION OR DEMOLITION OF ANY BUILDING, STRUCTURE, SCAFFOLDING OR FALSEWORK MORE THAN 3 STORIES OR 36' IN HEIGHT REQUIRES A PERMIT FROM THE STATE OF CALIFORNIA DIVISION OF INDUSTRIAL SAFETY PRIOR TO THE ISSUANCE OF A BUILDING PERMIT.

16. ALL CONSTRUCTION SHALL PERFORMED IN ACCORDANCE WITH THE STATE CONSTRUCTION SAFETY ORDERS ENFORCED BY THE STATE DIVISION OF INDUSTRIAL SAFETY.

17. DIMENSIONS AND CONDITIONS AT THE JOB SITE SHALL BE VERIFIED BY ALL CONTRACTORS. IT IS THE RESPONSIBILITY OF THE CONTRACTOR TO EXAMINE THE EXISTING CONDITIONS PRIOR TO SUBMITTING BIDS TO THE OWNER SINCE PROPOSALS MUST TAKE INTO CONSIDERATION ALL SUCH CONDITIONS THAT MAY AFFECT THE WORK. DISCREPANCIES IN THE DRAWINGS OR BETWEEN THE DRAWINGS AND ACTUAL FIELD CONDITION SHALL BE REPORTED TO THE ARCHITECT. REVISED DRAWINGS OR INSTRUCTIONS SHALL BE ISSUED BY THE OWNER PRIOR TO THE INSTALLATION OF ANY WORK.

18. NO CHANGES ARE TO BE MADE ON THESE PLANS WITHOUT THE KNOWLEDGE OR CONSENT OF THE ARCHITECT/ENGINEER WHOSE SIGNATURE APPEARS HEREON.

19. LOCATIONS OF ALL UTILITIES SHOWN ARE APPROXIMATE AND CONTRACTOR SHALL EXERCISE EXTREME CAUTION IN EXCAVATING AND TRENCHING ON THIS SITE TO AVOID INTERCEPTING EXISTING PIPING OR CONDUITS. IT SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR TO LOCATE ALL EXISTING UTILITIES WHETHER SHOWN HEREON OR NOT AND TO PROTECT THEM FROM DAMAGE. THE ARCHITECT IS NOT RESPONSIBLE FOR THE LOCATION OF UNDERGROUND UTILITIES OR STRUCTURES WHETHER OR NOT SHOWN OR DETAILED AND INSTALLED BY ANY OTHER CONTRACT. THE CONTRACTOR SHALL IMMEDIATELY NOTIFY THE ARCHITECT SHOULD ANY UNIDENTIFIED CONDITIONS BE DISCOVERED. THE CONTRACTOR SHALL BEAR ALL EXPENSE OF REPAIR OR REPLACEMENT OF UTILITIES OR OTHER PROPERTY DAMAGED BY OPERATIONS IN CONJUNCTION WITH THE PROSECUTION OF THIS WORK.

FIRE SAFETY

1. FIRE SAFETY DURING CONSTRUCTION AND THE DURATION OF THIS CONTRACT:
   - A. GENERAL: FIRE SAFETY DURING CONSTRUCTION SHALL COMPLY WITH 2019 CALIFORNIA FIRE CODE TITLE 24, PART 9, CHAPTER 33.
   - B. ACCESS ROADS: FIRE DEPARTMENT ACCESS ROADS SHALL BE ESTABLISHED AND MAINTAINED IN ACCORDANCE WITH SECTION 1410.
   - C. WATER SUPPLY: WATER MAINS AND HYDRANTS SHALL BE OPERATIONAL IN ACCORDANCE WITH SECTION 1412.
   - D. BUILDING ACCESS: ACCESS TO BUILDINGS FOR THE PURPOSE OF FIREFIGHTING SHALL BE PROVIDED. CONSTRUCTION MATERIAL SHALL NOT BLOCK ACCESS TO BUILDINGS, HYDRANTS OR FIRE APPLIANCES.
   - E. FIRE WATCH: MAINTAIN FIRE WATCH WHEN REQUIRED BY THE BUILDING OFFICIAL AND/OR WHEN EXISTING FIRE PROTECTION SYSTEMS ARE SHUT DOWN FOR ALTERATIONS. FIRE WATCH SHALL REMAIN IN EFFECT UNTIL EXISTING FIRE PROTECTION SYSTEMS ARE RETURNED TO SERVICE OR AS ALLOWED BY THE BUILDING OFFICIAL.
2. CONTRACTOR REQUIRED TO COMPLY WITH CURRENT CODE AND CITY STANDARDS.
3. CONTRACTOR IS RESPONSIBLE FOR FIRE SAFETY DURING CONSTRUCTION AND THE DURATION OF THIS CONTRACT PER 2019 CALIFORNIA FIRE CODE, CHAPTER 33.

PLAN CHECK NOTES

1. THE CITY OF GARDENA BUILDING DEVISION ENFORCES THE CALIFORNIA BUILDING CODE (CBC) TITLE 24 CHAPTER 11B FOR DISABLED ACCESS COMPLIANCE AND DOES NOT REVIEW OR APPROVE PLANS FOR COMPLIANCE WITH THE AMERICANS WITH DISABILITIES ACT (ADA).

ACCESSIBILITY NOTES

1. SITE DEVELOPMENT

A. GRADE AND DEVELOP SITE SUCH THAT ALL PRIMARY BUILDING ENTRANCES ARE ACCESSIBLE TO THE PHYSICALLY DISABLED FROM THE PUBLIC WAY AND DISABLED PARKING PROVIDED.

B. ONE ACCESSIBLE ROUTE SHALL CONNECT ACCESSIBLE BUILDINGS, FACILITIES AND SPACES ON THE SAME SITE. WHERE MORE THAN ONE ROUTE IS PROVIDED, ALL ROUTES SHALL BE ACCESSIBLE

C. IF AN ACCESSIBLE ROUTE HAS A CHANGE IN LEVEL GREATER THAN 1/2", THEN A CURB RAMP, RAMP, ELEVATOR, OR PLATFORM LIFT SHALL BE PROVIDED.

D. ALL WALKS, HALLS, CORRIDORS, AISLES, AND OTHER SPACES THAT ARE PART OF AN ACCESSIBLE ROUTE SHALL PROVIDE A MINIMUM CLEAR WIDTH OF 48 INCHES AND A CLEAR HEIGHT OF 80 INCHES.

2. WALKS AND SIDEWALKS

A. WALKS AND SIDEWALKS SUBJECT TO THESE REGULATIONS SHALL HAVE A CONTINUOUS COMMON SURFACE, NOT INTERRUPTED BY STEPS OR BY ABRUPT CHANGES IN LEVEL EXCEEDING 1/2", AND SHALL BE A MINIMUM OF 48 INCHES IN WIDTH.

B. ALL SIDEWALKS SHALL BE STABLE, FIRM AND SLIP RESISTANT.

C. SURFACE CROSS SLOPES SHALL NOT EXCEED 1:48 (CBC 11B-403.3).

D. WALKS, SIDEWALKS AND PEDESTRIAN WAYS SHALL BE FREE OF GRATINGS WHENEVER POSSIBLE GRATINGS LOCATED IN THE SURFACE OF ANY OF THESE AREAS, GRID OPENINGS IN THE GRATING SHALL BE LIMITED TO 1/2" IN THE DIRECTION OF TRAFFIC FLOW.

E. ABRUPT CHANGES IN LEVEL ALONG ANY ACCESSIBLE ROUTE SHALL NOT EXCEED 1/2". WHEN CHANGES DO OCCUR, THEY SHALL BE BEVELED WITH A SLOPE NO GREATER THAN 1:2 EXCEPT THAT LEVELS NOT EXCEEDING 1/4" MAY BE VERTICAL.

F. WHEN CHANGES IN LEVELS GREATER THAN 1/2" ARE NECESSARY THEY SHALL COMPLY WITH THE REQUIREMENTS FOR CURB RAMPS OR RAMPS AS REQUIRED.

G. WALKS SHALL BE PROVIDED WITH A LEVEL AREA NOT LESS THAN 60" SQUARE AT A DOOR OR GATE THAT SWINGS TOWARD THE WALK, AND NOT LESS THAN 48" WIDE BY 44" DEEP AT A DOOR OR GATE THAT SWINGS AWAY FROM THE WALK. SUCH WALKS SHALL EXTEND 24" TO THE SIDE OF THE STRIKE EDGE OF A DOOR OR GATE THAT SWINGS TOWARD THE WALK.

H. WHEN THE SLOPE IN THE DIRECTION OF TRAVEL OF ANY WALK EXCEEDS 5%, IT MUST COMPLY WITH THE PROVISIONS FOR PEDESTRIAN RAMPS (PER CBC 11B-405).

I. ALL WALKS WITH CONTINUOUS GRADIENTS SHALL HAVE LEVEL AREAS AT LEAST 5 FEET IN LENGTH AT INTERVALS NOT EXCEEDING 400 FEET.

3. ENTRANCES AND DOORWAYS

A. PRIMARY ENTRANCES TO BUILDINGS AND FACILITIES SHALL BE MADE ACCESSIBLE TO THE DISABLED.

B. ACCESSIBLE ENTRANCES SHALL BE IDENTIFIED WITH AT LEAST ONE "ISA" SIGN AND WITH ADDITIONAL DIRECTIONAL SIGNS AS REQUIRED VISIBLE FROM APPROACHING PEDESTRIAN WAYS.

C. LATCHING AND LOCKING DOORS THAT ARE HAND ACTIVATED AND ARE IN THE PATH OF TRAVEL, SHALL BE OPERABLE WITH A SINGLE EFFORT BY LEVER TYPE HARDWARE, PANIC BARS, PUSH-PULL ACTIVATING BARS OR OTHER HARDWARE DESIGNED TO PROVIDE PASSAGE WITHOUT REQUIRING THE ABILITY TO GRASP THE OPENING HARDWARE.

D. HAND ACTIVATED DOOR HARDWARE SHALL BE CENTERED BETWEEN 34" AND 44" ABOVE THE FLOOR (CBC 11B-404.2.7).

E. THE FLOOR OR LANDING ON EACH SIDE OF AN ENTRANCE OR PASSAGE DOOR SHALL BE LEVEL AND CLEAR. THE LEVEL AND CLEAR AREA SHALL BE A MINIMUM 60" SQUARE IN THE DIRECTION OF THE DOOR SWING AND A MINIMUM 44" SQUARE OPPOSITE THE DIRECTION OF DOOR SWING (48" IF THE DOOR HAS BOTH LATCH AND CLOSER). THE SQUARES SHALL BE MEASURED AT RIGHT ANGLES TO THE PLANE OF THE DOOR IN ITS CLOSED POSITION. SEE NOTE I BELOW FOR STRIKE SIDE REQUIREMENTS.

F. THE WIDTH OF THE LEVEL AND CLEAR AREA ON THE SIDE TO WHICH THE DOOR SWINGS SHALL EXTEND 24" PAST THE STRIKE EDGE OF THE DOOR FOR EXTERIOR DOORS AND 18" PAST THE STRIKE EDGE FOR INTERIOR DOORS AND THE PRIMARY ENTRANCE TO THE DWELLING UNIT.

G. THE FLOOR OR LANDING SHALL BE NOT MORE THAN 1/2" LOWER THAN THE THRESHOLD OF THE DOORWAY. CHANGE IN LEVEL BETWEEN 1/4" AND 1/2" SHALL BE BEVELED NO GREATER THAN 1:2.

H. THE BOTTOM 10 INCHES OF ALL DOORS EXCEPT SLIDING AND POCKET DOORS SHALL HAVE A SMOOTH UNINTERRUPTED SURFACE TO ALLOW THE DOOR TO BE OPENED BY A WHEELCHAIR FOOTREST WITHOUT CREATING A TRAP OR HAZARDOUS CONDITION.

I. MAXIMUM EFFORT TO OPERATE DOORS SHALL NOT EXCEED 5 LBS FOR EXTERIOR DOORS AND 5 LBS FOR INTERIOR DOORS. SUCH PULL OR PUSH EFFORT SHALL BE APPLIED AT RIGHT ANGLES TO HINGED DOORS AND AT THE CENTER PLANE OF SLIDING OR FOLDING DOORS. COMPENSATING DEVICES OR AUTOMATIC DOOR OPERATORS MAY BE UTILIZED TO MEET THE ABOVE STANDARDS. THE AUTHORITY HAVING JURISDICTION MAY INCREASE THE MAXIMUM EFFORT TO OPERATE FIRE DOORS TO ACHIEVE POSITIVE LATCHING, BUT NOT TO EXCEED 15 LBS MAX.

J. EXIT DOORS MUST OPEN FROM THE INSIDE WITHOUT A KEY, OR ANY SPECIAL KNOWLEDGE OR EFFORT. EXIT DOORS FROM BUILDINGS OR ROOMS SERVING 10 OR FEWER OCCUPANTS MAY HAVE A NIGHT LATCH, DEADBOLT OR SECURITY CHAIN, AS LONG AS THE DOORS CAN STILL BE OPENED FROM THE INSIDE WITHOUT A KEY, SPECIAL KNOWLEDGE OR EFFORT. IN ADDITION, THESE DEVICES ARE NOT MOUNTED MORE THAN 48" ABOVE THE FLOOR. MANUALLY OPERATED EDGE BOLTS, SURFACE MOUNTED FLUSH BOLTS AND SURFACE BOLTS ARE PROHIBITED. WHEN EXIT DOORS ARE USED IN PAIRS AND AUTOMATIC FLUSH BOLTS ARE USED, THE DOOR LEAF WITH THE FLUSH BOLT MUST HAVE NO DOORKNOB OR SURFACE MOUNTED HARDWARE. THE UNLATCHING OF ANY LEAF MUST NOT REQUIRE MORE THAN ONE OPERATION.

K. EVERY REQUIRED EXIT MUST BE LARGE ENOUGH TO PERMIT A DOOR AT LEAST 3'-0" WIDE BY 6'-8" HIGH. EXIT DOORS SHALL OPEN AT LEAST 90 DEGREES AND PROVIDE A CLEAR WIDTH OF AT LEAST 32".

L. THRESHOLDS AT ALL EXTERIOR DOORS SHALL BE NO HIGHER THAN 1/2". SUCH THRESHOLDS SHALL BE BEVELED NO GREATER THAN 1:2.

M. THE FLOOR LANDING IMMEDIATELY OUTSIDE THE ENTRY MAY BE SLOPED UP TO 1/8" PER FOOT IN THE DIRECTION AWAY FROM THE PRIMARY ENTRANCE FOR DRAINAGE.

N. THE SPACE BETWEEN TWO CONSECUTIVE DOOR OPENINGS IN A VESTIBULE, SERVING OTHER THAN A REQUIRED EXIT STAIRWAY, MUST HAVE AT LEAST 48" OF CLEAR SPACE FROM ANY DOOR OPENING INTO THE VESTIBULE WHEN THE DOOR IS OPEN 90 DEGREES FROM ITS CLOSED POSITION. DOORS IN SERIES MUST SWING IN THE SAME DIRECTION OR AWAY FROM THE SPACE BETWEEN THE DOORS.

4. STAIRWAYS

A. STAIRWAYS SHALL HAVE HANDRAILS ON EACH SIDE. STAIRWAYS SHALL HAVE INTERMEDIATE HANDRAILS WHERE REQUIRED SUCH THAT ALL PORTIONS OF THE STAIRWAY WIDTH REQUIRED FOR EGRESS CAPACITY ARE WITHIN 30 INCHES OF A HANDRAIL. INTERMEDIATE HANDRAILS SHALL BE SPACED AT EQUAL INTERVALS WITHIN THE WIDTH OF THE STAIRWAY AND BE CONTINUOUS FOR THE ENTIRE LENGTH.

B. HANDRAILS MUST BE 34 TO 38 INCHES ABOVE THE NOSING OF THE TREADS AND MUST EXTEND IN THE DIRECTION OF THE STAIR RUN FOR AT LEAST 12" BEYOND THE TOP NOSING AND 12" PLUS THE TREAD WIDTH BEYOND THE BOTTOM NOSING.

C. ENDS SHALL BE RETURNED OR SHALL TERMINATE IN A NEWEL POST OR SAFETY TERMINAL.

D. HANDRAILS PROJECTING FROM A WALL SHALL HAVE A SPACE OF NOT LESS THAN 1-1/2-INCH BETWEEN THE WALL AND THE HANDRAIL.

E. THE HANDGRIP PORTION OF HANDRAILS SHALL BE NOT LESS THAN 1-1/4-INCHES NOR MORE THAN 1 1/2-INCHES IN CROSS-SECTIONAL DIMENSION OR THE SHAPE SHALL PROVIDE AN EQUIVALENT GRIPPING SURFACE AND SHALL HAVE A SMOOTH SURFACE WITH NO SHARP OR ABRASIVE CORNERS AND ALL EDGES MUST HAVE A MINIMUM 1/8" RADIUS.

F. THE UPPER APPROACH AND THE LOWER TREAD OF EACH INTERIOR STAIR SHALL BE MARKED BY A STRIP OF CLEARLY CONTRASTING COLOR THE FULL WIDTH OF THE TREAD AT LEAST 2-INCHES WIDE PLACED PARALLEL TOAND NOT MORE THAN 1-INCH FROM THE NOSE OF THE STEP OR LANDING TO ALERT THE VISUALLY IMPAIRED. THE STRIP SHALL BE OF A MATERIAL THAT IS AT LEAST AS SLIP RESISTANT AS THE OTHER TREADS OF THE STAIR.

G. WHERE STAIRWAYS OCCUR OUTSIDE A BUILDING, THE UPPER APPROACH AND ALL TREADS SHALL BE MARKED BY A STRIP OF CLEARLY CONTRASTING COLOR AT LEAST 2-INCHES WIDE AND PLACED PARALLEL TO AND NOT MORE THAN 1-INCH FROM THE NOSE OF THE STEP OR LANDING TO ALERT THE VISUALLY IMPAIRED. THE STRIP SHALL BE OF A MATERIAL THAT IS AT LEAST AS SLIP RESISTANT AS THE OTHER TREADS OF THE STAIR. A PAINTED STRIP SHALL BE ACCEPTABLE.

H. ALL TREAD SURFACES SHALL BE SLIP RESISTANT.

I. TREADS SHALL HAVE A SMOOTH, ROUNDED OR CHAMFERED EXPOSED EDGES, AND NO ABRUPT EDGES AT THE NOSING (LOWER FRONT EDGE).

J. NOSING SHALL NOT PROJECT MORE THAN 1-1/4 INCH PAST THE FACE OF THE RISER BELOW.

K. STAIR RISERS SHALL BE SOLID PER CBC 11B-504.

5. SANITARY FACILITIES

A. WHEELCHAIR ACCESSIBLE WATER CLOSET COMPARTMENTS SHALL BE EQUIPPED WITH A DOOR THAT HAS AN AUTOMATIC CLOSING DEVICE, AND SHALL HAVE A CLEAR UNOBSTRUCTED OPENING WIDTH OF 32-INCHES WHEN LOCATED AT THE END AND 34-INCHES WHEN LOCATED AT THE SIDE WITH THE DOOR POSITION AT AN ANGLE OF 90 DEGREES FROM ITS CLOSED POSITION.

B. TOILET FLUSH CONTROLS SHALL BE OPERABLE WITH ONE HAND, AND SHALL NOT REQUIRE TIGHT GRASPING, PINCHING, OR TWISTING OF THE WRIST. CONTROLS FOR FLUSH VALVES SHALL BE MOUNTED ON THE WIDE SIDE OF THE TOILET AREAS, NO MORE THAN 44-INCHES ABOVE THE FLOOR. THE FORCE REQUIRED TO ACTIVATE CONTROLS SHALL BE NO GREATER THAN 5 POUNDS PER FOOT.

C. WHERE URINALS ARE PROVIDED AT LEAST ONE WITH A RIM PROJECTING A MINIMUM OF 14-INCHES FROM THE WALL AND AT A MAXIMUM OF 17-INCHES ABOVE THE FLOOR SHALL BE PROVIDED.

D. URINAL FLUSH CONTROLS SHALL BE OPERABLE WITH ONE HAND, AND SHALL NOT REQUIRE TIGHT GRASPING, PINCHING, OR TWISTING OF THE WRIST AND SHALL BE MOUNTED NO MORE THAN 44" ABOVE THE FLOOR. THE FORCE REQUIRED TO ACTIVATE CONTROLS SHALL BE NO GREATER THAN 5 POUNDS PER FOOT.

E. HOT WATER AND DRAIN PIPES UNDER LAVATORIES SHALL BE INSULATED OR OTHERWISE COVERED.

F. FAUCET CONTROLS AND OPERATING MECHANISMS SHALL BE OPERABLE WITH ONE HAND AND SHALL NOT REQUIRE TIGHT GRASPING, PINCHING OR TWISTING OF THE WRIST. THE FORCE REQUIRED TO ACTIVATE CONTROLS SHALL BE NO GREATER THAN 5 POUNDS PER FOOT. LEVER OPERATED, PUSH TYPE AND ELECTRONICALLY CONTROLLED MECHANISMS ARE EXAMPLES OF ACCEPTABLE DESIGNS. SELF-CLOSING VALVES ARE ALLOWED IF THE FAUCET REMAINS OPEN FOR AT LEAST 10 SECONDS.

G. MIRRORS SHALL BE MOUNTED WITH THE BOTTOM GLASS EDGE NOT MORE THAN 40-INCHES ABOVE THE FLOOR.

H. LOCATE TOWEL, SANITARY NAPKIN, AND WASTE RECEPTACLES WITH ALL OPERABLE PARTS NOT MORE THAN 40-INCHES FROM THE FLOOR.

I. TOILET TISSUE DISPENSERS SHALL BE LOCATED ON THE WALL OR PARTITION WITHIN 7" TO 9" TO CENTERLINE FROM THE FRONT EDGE OF THE TOILET SEAT, MOUTED BELOW THE GRAB BAR, AT A MINIMUM HEIGHT OF 19 INCHES, AND 36 INCHES MAXIMUM TO THE FAR EDGE FROM THE REAR WALL. DISPENSERS SHALL PERMIT CONTINUOUS FLOW AND NOT CONTROL DELIVERY (CBC 11B-604.7).

J. GRAB BARS, TUB AND SHOWER SEATS, FASTENERS AND MOUNTING DEVICES SHALL BE DESIGNED FOR 250 LB. PER CBC 1607A.8.2.

K. GRAB BARS:
1. THE DIAMETER OR WIDTH OF THE GRIPPING SURFACE OF A GRAB BAR SHALL BE 1-1/4" TO 1-1/2" OR THE SHAPE SHALL PROVIDE AN EQUIVALENT GRIPPING SURFACE.
2. IF THE GRAB BARS ARE MOUNTED ADJACENT TO A WALL, THE SPACE BETWEEN THE WALL AND THE GRAB BARS SHALL BE 1-1/2".
3. A GRAB BAR AND ANY WALL OR OTHER SURFACE ADJACENT SHALL BE FREE OF ANY SHARP OR ABRASIVE ELEMENTS.
4. GRAB BARS SHALL NOT ROTATE WITHIN THEIR FITTINGS.
5. EDGES SHALL HAVE A MINIMUM RADIUS OF 1/8".

6. SWITCHES CONTROLS AND ELECTRICAL OUTLETS

A. RECEPTACLE OUTLETS SHALL BE 15" MIN ABOVE THE FINISHED FLOOR TO THE BOTTOM OF THE BOX PER CBC 11B-308.1.2.

B. SWITCHES SHALL BE 48" MAX. ABOVE THE FINISHED FLOOR TO THE TOP OF THE BOX (11B-308.1.1).

C. IF REACH IS OVER AN OBSTRUCTION (FOR EXAMPLE, A BASE CABINET) BETWEEN 20" AND 25" IN DEPTH, THE MAXIMUM HEIGHT IS REDUCED TO 44" FOR FORWARD APPROACH, OR 46" FOR SIDE APPROACH PROVIDED THE OBSTRUCTION IS NO MORE THAN 24" IN DEPTH. THE OBSTRUCTION MAY NOT EXTEND MORE THAN 25" FROM THE WALL BENEATH THE CONTROL.

D. THE CENTER OF FIRE ALARM INITIATING DEVICES (BOXES) SHALL BE LOCATED 48" ABOVE THE LEVEL OF THE FLOOR, WORKING PLATFORM, GROUND SURFACE OR SIDEWALK.

E. IF EMERGENCY WARNING SYSTEMS ARE REQUIRED THEY SHALL ACTIVATE A MEANS OF WARNINGTHE HEARING IMPAIRED. FLASHING VISUAL WARNING SHALL HAVE A FREQUENCY OF NOT MORE THAN 60 FLASHES PER MINUTE.

GENERAL NOTES

1. THESE DOCUMENTS AND THE IDEAS AND DESIGNS INCORPORATED HEREIN, AS AN INSTRUMENT OF PROFESSIONAL SERVICE, ARE THE PROPERTY OF SVA ARCHITECTS, AND ARE NOT TO BE USED, IN WHOLE OR IN PART FOR ANOTHER PROJECT WITHOUT THE WRITTEN AUTHORIZATION OF SVA ARCHITECTS.

2. THE WORK SHOWN ON THESE DRAWINGS AS EXISTING CONDITIONS WAS PREPARED FROM INFORMATION FURNISHED BY THE OWNER, WHILE THIS INFORMATION IS BELIEVED TO BE RELIABLE, SVA ARCHITECTS INC. IS NOT RESPONSIBLE FOR THE ACCURACY OR ADEQUACY OF ANY WORK SHOWN AS EXISTING NOR IS SVA ARCHITECTS INC. RESPONSIBLE FOR ANY ERRORS OR OMISSIONS WHICH MAY HAVE BEEN INCORPORATED INTO THESE DRAWINGS AS A RESULT.

3. EACH BIDDER SHALL POSSESS AT THE TIME OF BID A CLASS B OR THE APPROPRIATE CLASS C CONTRACTOR'S LICENSE PURSUANT TO PUBLIC CONTRACT CODE SECTION 3300 AND BUSINESS AND PROFESSIONS CODE SECTION 7028.15. THE SUCCESSFUL BIDDER MUST MAINTAIN THE LICENSE THROUGHOUT THE DURATION OF THIS CONTRACT.

4. FIRE SAFETY DURING CONSTRUCTION AND THE DURATION OF THIS CONTRACT:

A. GENERAL: FIRE SAFETY DURING CONSTRUCTION SHALL COMPLY WITH 2016 CALIFORNIA FIRE CODE TITLE 24, PART 9, CHAPTER 33.

B. ACCESS ROADS: FIRE DEPARTMENT ACCESS ROADS SHALL BE ESTABLISHED AND MAINTAINED IN ACCORDANCE WITH SECTION 1410.

C. WATER SUPPLY: WATER MAINS AND HYDRANTS SHALL BE OPERATIONAL IN ACCORDANCE WITH SECTION 1412.

D. BUILDING ACCESS: ACCESS TO BUILDINGS FOR THE PURPOSE OF FIREFIGHTING SHALL BE PROVIDED. CONSTRUCTION MATERIAL SHALL NOT BLOCK ACCESS TO BUILDINGS, HYDRANTS OR FIRE APPLIANCES.

E. ALTERATIONS OF BUILDINGS: SHALL COMPLY WITH APPLICABLE PROVISIONS OF SECTIONS 1405, 1411, 1413, AND 1415.

G. FIRE WATCH: MAINTAIN FIRE WATCH WHEN REQUIRED BY THE BUILDING OFFICIAL AND WHEN EXISTING FIRE PROTECTION SYSTEMS ARE SHUT DOWN FOR ALTERATIONS, FIRE WATCH SHALL REMAIN IN EFFECT UNTIL EXISTING FIRE PROTECTION SYSTEMS ARE RETURNED TO SERVICE OR AS ALLOWED BY THE BUILDING OFFICIAL.

5. PENETRATIONS TO FIRE RATED MATERIALS OR ASSEMBLIES SHALL BE RESTORED TO EQUAL RATING. FIRE STOP SYSTEMS AS LISTED BY UNDERWRITERS LABORATORIES SHALL BE INSTALLED PER FIRE RESISTANCE DIRECTORY. FIRE STOP SYSTEMS SHALL BE AS SPECIFIED.

6. STATEMENT (TITLE 24, PART 6): NONRESIDENTIAL ENERGY STANDARDS COMPLIANCE: THE DESIGN INDICATED HEREIN COMPLIES WITH THE REQUIREMENTS OF THE ENERGY CONSERVATION STANDARDS OF TITLE 24, PART 6, CALIFORNIA CODE OF REGULATIONS. THE PROPOSED BUILDING(S) WILL BE IN COMPLIANCE WITH THE ENERGY CONSERVATION STANDARDS PROVIDED IT (THEY) IS (ARE) BUILT ACCORDING TO THESE DRAWINGS AND SPECIFICATIONS AND PROVIDED ANY FUTURE IMPROVEMENTS ARE COMPLETED ACCORDING TO THE REQUIREMENTS OF TITLE 24, PART 6, CALIFORNIA CODE OF REGULATIONS. THESE PLANS AND SPECIFICATIONS HAVE BEEN PREPARED TO INCLUDE ALL SIGNIFICANT ENERGY CONSERVATION FEATURES REQUIRED FOR COMPLIANCE WITH THE STANDARDS. BUILDING AREAS THAT ARE UNCONDITIONED AND/OR NOT SUBJECT TO THE STANDARDS ARE INDICATED ON THE PLANS.

ENVELOPE MANDATORY MEASURES:

A. INSTALLED INSULATING MATERIALS SHALL HAVE BEEN CERTIFIED BY THE MANUFACTURER TO COMPLY WITH THE CALIFORNIA QUALITY STANDARDS FOR INSULATING MATERIAL.

B. ALL INSULATING MATERIALS SHALL BE INSTALLED IN COMPLIANCE WITH THE FLAME SPREAD RATING AND SMOKE DENSITY REQUIREMENTS OF [TITLE 24, PART 2, CALIFORNIA BUILDING CODE, SECTIONS 719 AND 2603.]

C. ALL EXTERIOR JOINTS AND OPENINGS IN THE BUILDING ENVELOPE THAT ARE POTENTIAL AND OBSERVABLE SOURCES OF AIR LEAKAGE SHALL BE CAULKED, GASKETED, WEATHERSTRIPPED OR OTHERWISE SEALED.

D. SITE CONSTRUCTED DOORS, AND WINDOWS SHALL BE CAULKED BETWEEN THE UNIT AND THE BUILDING, AND SHALL BE WEATHERSTRIPPED (EXCEPT FOR UNFRAMED GLASS DOORS AND FIRE DOORS).

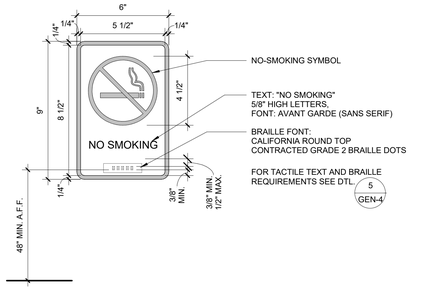
E. MANUFACTURED DOORS AND WINDOWS INSTALLED SHALL HAVE AIR INFILTRATION RATES CERTIFIED BY THE MANUFACTURER IN ACCORDANCE WITH TITLE 24, PART 6, CALIFORNIA CODE OF REGULATIONS, SECTION 116(a)1.

F. MANUFACTURED FENESTRATION PRODUCTS IN THE ENVELOPE OF THE BUILDING, INCLUDING, BUT NOT LIMITED TO, WINDOWS, SLIDING GLASS DOORS, FRENCH DOORS, SKYLIGHTS, CURTAIN WALLS, AND GARDEN WINDOWS MUST BE LABELED FOR U-VALUE IN ACCORDANCE WITH THE (NFRC) NATIONAL FENESTRATION RATING COUNCIL'S INTERIM U-VALUE RATING PROCEDURE.

G. DEMISING WALL INSULATION SHALL BE INSTALLED IN ALL OPAQUE PORTIONS OF FRAMED WALLS (EXCEPT DOORS).

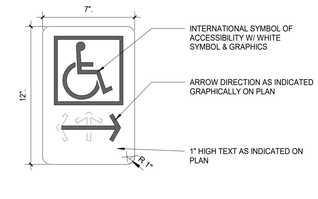
7. INSPECTOR OF RECORD REQUIREMENTS: A. ONE OR MORE INSPECTORS EMPLOYED BY THE OWNER IN ACCORDANCE WITH THE REQUIREMENTS OF TITLE 24 OF THE CALIFORNIA CODE OF REGULATIONS WILL BE ASSIGNED TO THE WORK. THE INSPECTORS DUTIES ARE SPECIFICALLY DEFINED IN SECTION 4-342 OF SAID TITLE 24, PART 1 AND IN ADDITION SHALL BE AS STIPULATED IN INTERPRETATION OF REGULATION DOCUMENT IR A-8. B. INSPECTOR SHALL BE CERTIFIED AS A CLASS [2] INSPECTOR THROUGH THE DIVISION OF THE STATE ARCHITECT INSPECTOR EXAMINATION PROGRAM. INSPECTOR SHALL ALSO BE SPECIFICALLY APPROVED BY THE DIVISION OF THE STATE ARCHITECT FOR THIS PROJECT AT LEAST 10 DAYS PRIOR TO THE START OF ANY WORK FOR THIS PROJECT.

8. ALL WORK SHOWN ON THESE DRAWINGS SHALL COMPLY WITH THE REQUIREMENTS OF TITLE 24, CALIFORNIA CODE OF REGULATIONS (CCR).



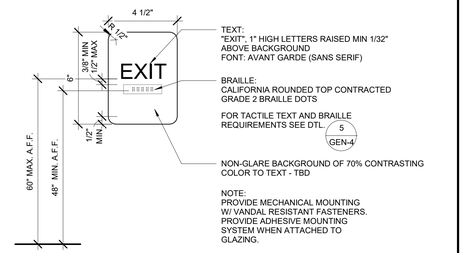
9. CHANGES TO THE APPROVED DRAWINGS AND SPECIFICATIONS SHALL BE MADE BY AN ADDENDUM OR A CCD APPROVED BY THE DIVISION OF THE STATE ARCHITECT.

10. GRADING PLANS, DRAINAGE IMPRPOVEMENTS, ROAD AND ACCESS REQUIREMENTS AND ENVIROMENTAL HEALTH CONCIDERATIONS SHALL COMPLY WITH ALL LOCAL ORDINANCES.



11. DRINKING WATER SHALL COMPLY WITH ALL LOCAL HEALTH DEPARTMENT REQUIREMENTS.

12. ALL CONSTRUCTION SHALL BE IN ACCORDANCE WITH THE REQUIREMENTS OF THE APPLICABLE CODES. ALL ENGINEERING SHALL COMFORM WITH ALL APPLICABLE MUNICIPAL, STATE AND FEDERAL REGULATIONS HAVING JURISDICTION INCLUDING ACCESSIBILITY STANDARDS AND ADA REQUIREMENTS.



13. DO NOT SCALE THE DRAWINGS. THE DRAWINGS ARE NOT NECESSARILY TO SCALE. THE CONTRACTOR SHALL VERIFY ALL CONDITIONS AND DIMENSIONS IN THE FIELD PRIOR TO BIDDING AND START OF CONSTRUCTION. IF DISCREPANCIES ARE FOUND, THE ARCHITECT SHALL BE NOTIFIED FOR CLARIFICATION BEFORE COMMENCING WOR

ATTACH SIGNS USING THREE FLATHEAD VANDAL RESISTANT COUNTERSUNK SCREWS AND ADHESIVE. SIGNS SHALL BE CENTERED ON THE DOOR AND MOUNTED BEING A 4'-10" MINIMUM AND A 5'-0" MAXIMUM ABOVE FINISH FLOOR LINE TO CENTER OF SIGN.

TOILET ROOM DOOR SIGNAGE - WOMEN | 1 1/2" = 1'-0" | 2

VISUAL CHARACTERS TO COMPLY WITH CBC SECTION 11B-703.5

CHARACTER PROPORTIONS

RAISED CHARACTERS ON SIGNS SHALL BE SELECTED FROM FONTS WHERE THE WIDTH OF THE UPPERCASE LETTER "O" IS 60 PERCENT MINIMUM AND 110 PERCENT MAXIMUM OF THE HEIGHT OF THE UPPERCASE LETTER "I".

STROKE PROPORTION

STROKE THICKNESS OF THE UPPERCASE LETTER "I" SHALL BE 10% MINIMUM AND 20% MAXIMUM OF THE HEIGHT OF THE CHARACTER.

FIGURE 11B-703.3.1
BRAILLE MEASUREMENT

CALIFORNIA CONTRACTED GRADE 2 BRAILLE SHALL BE USED WHEREVER BRAILLE IS REQUIRED. INDIVIDUAL BRAILLE DOTS SHALL EACH BE DISTINCT AND SEPARATE. EACH DOT SHALL BE ROUNDED OR DOMED IN LIEU OF SQUARE SIDED AND FLAT TOPPED. *PER CBC TABLE 11B-703.3.1, DOT BASE DIAMETER SHALL BE 0.059" TO 0.063", DISTANCE BETWEEN TWO DOTS IN THE SAME CELL SHALL BE 0.100", DISTANCE BETWEEN CORRESPONDING DOTS IN ADJACENT CELLS SHALL BE 0.300", DOT HEIGHT SHALL BE 0.025" TO 0.037", AND DISTANCE BETWEEN CORRESPONDING DOTS FROM ONCE CELL DIRECTLY BELOW SHALL BE 0.395" TO 0.400"*

WIDTH TO HEIGHT PROPORTION TEMPLATE

BRAILLE SPACING TEMPLATE PER CALIFORNIA BUILDING CODE (CBC) AND CALIFORNIA CODE OF REGULATIONS (CCR), TITLE 24, PART 2

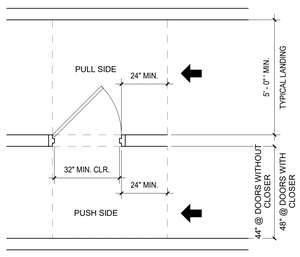
ACCESSIBLE TOILET COMPARTMENTS:



1. SEE TOILET ROOM FLOOR PLAN FOR ACCESSIBLE TOILET LOCATION.
2. VERIFY TOILET ACCESSORIES & TYPE OF PARTITION IN SPECS.
3. PROVIDE BACKING IN WALL & TOILET PARTITION FOR GRAB BAR ANCHORAGE.
4. COMPARTMENT DOOR AT ACCESSIBLE WATER CLOSET COMPARTMENT TO PROVIDE 18" STRIKE-SIDE CLEARANCE.
5. NOT USED.
6. OPENING HARDWARE IS CENTERED BETWEEN 34" AND 44" ABOVE FINISH FLOOR (CBC 11B-404.2.7).
7. TOILET PAPER DISPENSER SHALL PERMIT CONTINUOUS PAPER FLOW AND SHALL NOT CONTROL DELIVERY (CBC 11B-604.9.6).
8. ACCESSIBLE COMPARTMENT DOOR EQUIPPED WITH AN AUTOMATIC CLOSING DEVICES (3 SECONDS MIN. SWEEP TIME FROM OPEN POSITION OF 70 DEGREES TO A POINT 3" FROM THE LATCH).
9. SEE ACCESSIBILITY NOTES FOR ADDITIONAL REQUIREMENTS.
10. FLUSH CONTROL SHALL BE ON WIDE SIDE OF TOILET COMPARTMENT AT ALL ACCESSIBLE STALLS, TYP.
11. WHERE ONLY ONE TYPE OF TOILET FIXTURE OR ACCESSORY IS USED, IT SHALL BE POSITIONED FOR ACCESSIBILITY.

OUTLETS SECTION

REACH RANGES AND MOUNTING HEIGHTS | 3/8" = 1'-0" | 4

GRAB BARS | 3" = 1'-0" | 3

H. LOCATE TOWEL, SANITARY NAPKIN, AND WASTE RECEPTACLES WITH ALL OPERABLE PARTS NOT MORE THAN 40 INCHES FROM THE FLOOR.

I. LOCATE TOILET TISSUE DISPENSERS ON THE WALL OR PARTITION WITH CENTERLINE BETWEEN 7 AND 9 INCHES FROM THE FRONT EDGE OF THE TOILET.

J. GRAB BARS, TUB AND SHOWER SEATS, FASTENERS AND MOUNTING DEVICES SHALL BE DESIGNED FOR 250 LB. PER LINEAR FOOT LOAD.

K. GRAB BARS (REFER DETAIL 4/GEN-4):

1) THE DIAMETER OR WIDTH OF THE GRIPPING SURFACE OF A GRAB BAR SHALL BE 1-1/4" TO 1-1/2" OR THE SHAPE SHALL PROVIDE EQUIVALENT GRIPPING SURFACE.
2) IF THE GRAB BARS ARE MOUNTED ADJACENT TO A WALL, THE SPACE BETWEEN THE WALL AND GRAB BARS SHALL BE 1-1/2".
3) A GRAB BAR AND ANY WALL OR OTHER SURFACE ADJACENT SHALL BE FREE OF ANY SHARP OR ABRASIVE ELEMENTS.
4) GRAB BARS SHALL NOT ROTATE WITHIN THEIR FITTINGS.
5) EDGES SHALL HAVE A MINIMUM RADIUS OF 1/8".

L. THERE SHALL BE NO SHARP OR ABRASIVE SURFACES UNDER LAVATORIES.

4. DRINKING FOUNTAINS: (REFER TO DETAIL 7/GEN-4)

A. ON ANY FLOOR WHERE DRINKING FOUNTAINS ARE PROVIDED, AT LEAST ONE FOUNTAIN SHALL BE ACCESSIBLE. SPECIFY ACCESSIBLE DRINKING FOUNTAINS AND SHOW THEM INSTALLED IN ALCOVES OR IN A LOCATION WHICH DOES NOT ENCROACH INTO A PEDESTRIAN WAY. PROVIDE AT LEAST ONE SET OF DRINKING FOUNTAINS IN EACH 'DRINKING FOUNTAIN AREA' WHERE ONE FOUNTAIN IS ACCESSIBLE TO INDIVIDUALS IN WHEELCHAIRS PLUS ONE WHICH IS ACCESSIBLE TO INDIVIDUALS WHO HAVE DIFFICULTY BENDING OR STOOPING.

B. THE DRINKING FOUNTAIN SHALL BE A MINIMUM OF 18 INCHES IN DEPTH AND THERE SHALL BE A CLEAR AND UNOBSTRUCTED KNEE SPACE UNDER THE DRINKING FOUNTAIN NOT LESS THAN 27 INCHES IN HEIGHT AND 8 INCHES IN DEPTH. THE DEPTH MEASUREMENT BEING TAKEN FROM THE FRONT EDGE OF THE FOUNTAIN. ADDITIONALLY THERE SHALL BE TOE CLEARANCE OF 9 INCHES IN HEIGHT ABOVE THE FLOOR, AND 17 INCHES IN DEPTH FROM THE FRONT EDGE OF THE FOUNTAIN. A SIDE APPROACH DRINKING FOUNTAIN IS NOT ACCEPTABLE.

C. THE BUBBLER SHALL BE ACTIVATED BY A CONTROL WHICH IS EASILY OPERATED BY A PERSON WITH DISABILITY SUCH AS A HAND-OPERATED LEVER TYPE LOCATED WITHIN 6 INCHES OF THE FRONT OF THE DRINKING FOUNTAIN. THE BUBBLER OUTLET ORIFICE SHALL BE LOCATED WITHIN 6 INCHES OF THE FRONT OF THE DRINKING FOUNTAIN AND SHALL BE WITHIN 36 INCHES OF THE FLOOR. THE WATER STREAM FROM THE BUBBLER SHALL BE SUBSTANTIALLY PARALLEL TO THE FRONT EDGE OF THE DRINKING FOUNTAIN. THE SPOUT SHALL PROVIDE A FLOW OF WATER THAT IS AT LEAST 4 INCHES HIGH SO AS TO ALLOW THE INSERTION OF A CUP OR GLASS UNDER THE FLOW OF WATER. THE FORCE REQUIRED TO ACTIVATE THE CONTROLS SHALL BE NO GREATER THAN 5 LB.

5. NOT USED.

6. SWITCHES, CONTROLS AND ELECTRICAL OUTLETS: (REFER TO DETAIL 5/GEN-4)

A. THE BOTTOM OF RECEPTACLE OUTLETS SHALL BE NOT LESS THAN 15 INCHES ABOVE THE FLOOR OR WORKING PLATFORM.

B. THE TOP OF THE OUTLET BOX OF SWITCHES INTENDED TO BE USED BY THE OCCUPANT OF THE ROOM OR AREA TO CONTROL LIGHTING AND RECEPTACLE OUTLETS, APPLIANCES, OR COOLING, HEATING AND VENTILATING EQUIPMENT, SHALL BE NOT LESS THAN 3 FEET NOR MORE THAN 4 FEET ABOVE THE FLOOR OR WORKING PLATFORM.

C. IF REACH IS OVER AN OBSTRUCTION (FOR EXAMPLE, A BASE CABINET) BETWEEN 20" AND 25" IN DEPTH, THE MAXIMUM HEIGHT IS REDUCED TO 44" FOR FORWARD APPROACH, OR 46" FOR SIDE APPROACH PROVIDED THE OBSTRUCTION IS NO MORE THAN 24" IN DEPTH. THE OBSTRUCTION MAY NOT EXTEND MORE THAN 25" FROM THE WALL BENEATH THE CONTROL.

D. THE TOP OF OPERABLE PART OF THE FIRE ALARM INITIATING DEVICES (BOXES) SHALL BE LOCATED 48" ABOVE THE LEVEL OF THE FLOOR, WORKING PLATFORM, GROUND SURFACE, OR SIDEWALK.

E. IF EMERGENCY WARNING SYSTEMS ARE REQUIRED THEY SHALL ACTIVATE A MEANS OF WARNING THE HEARING IMPAIRED. FLASHING VISUAL WARNING SHALL HAVE A FREQUENCY OF NOT MORE THAN 60 FLASHES PER MINUTE.

7. ADDITIONAL COMPLIANCE REQUIREMENTS:

A. COUNTERTOPS AND WORK SURFACES SHALL BE ACCESSIBLE (HEIGHT BETWEEN 28" AND 34" AFF) W/ ACCESSIBLE CLEAR SPACE BELOW PER CBC 11B-902.1.

B. WARNING SYSTEMS SHALL COMPLY WITH NFPA 72 AND 72G (AS AMENDED BY CHAPTER 35) AND SHALL PROVIDE VISUAL ALARMS (I.E. STROBES) IN RESTROOMS, CORRIDORS, MULTI-PURPOSES ROOMS, LOBBIES, MEETING ROOMS, AND ANY OTHER COMMON USE ROOMS (CBC 1007.12).

1. RAMPS AND STAIRWAYS
REFER TO ACCESSIBILITY NOTES ON SHEET A00.2 AND ELSEWHERE IN THESE DRAWINGS

2. ENTRANCES AND DOORWAYS: (REFER TO DETAIL 3/GEN-4)

A. PRIMARY ENTRANCES TO BUILDINGS AND FACILITIES SHALL BE MADE ACCESSIBLE TO THE DISABLED.

B. RECESSED DOOR MATS SHALL BE ANCHORED TO PREVENT INTERFERENCE WITH WHEELCHAIRS.

C. ACCESSIBLE ENTRANCES SHALL BE IDENTIFIED WITH AT LEAST ONE SIGN (INTERNATIONAL SYMBOL OF ACCESSIBILITY) AND WITH ADDITIONAL DIRECTIONAL SIGNS AS REQUIRED VISIBLE FROM APPROACHING PEDESTRIAN WAYS.

D. THE FLOOR OR LANDING ON EACH SIDE OF AN ENTRANCE OR PASSAGE DOOR SHALL BE LEVEL AND CLEAR. THE LEVEL AND CLEAR AREA SHALL BE A MINIMUM 60" SQUARE IN THE DIRECTION OF THE DOOR SWING AND A MINIMUM 44" SQUARE OPPOSITE THE DIRECTION OF DOOR SWING. THE SQUARES SHALL BE MEASURED AT RIGHT ANGLES TO THE PLANE OF THE DOOR IN ITS CLOSED POSITION. SEE NOTE E. BELOW FOR STRIKE SIDE CLEARANCES.

E. THE WIDTH OF THE LEVEL AND CLEAR AREA ON THE SIDE TO WHICH THE DOOR SWINGS SHALL EXTEND 24" PAST THE STRIKE EDGE OF THE DOOR FOR EXTERIOR DOORS AND 18" PAST THE STRIKE EDGE FOR INTERIOR DOORS.

F. THE FLOOR OR LANDING SHALL BE NOT MORE THAN 1/2" LOWER THAN THE THRESHOLD OF THE DOORWAY. CHANGE IN LEVEL BETWEEN 1/4" AND 1/2" SHALL BE BEVELED NO GREATER THAN 1:2.

G. THE SPACE BETWEEN TWO CONSECUTIVE DOOR OPENINGS IN A VESTIBULE, SERVING OTHER THAN A REQUIRED EXIT STAIRWAY, MUST HAVE AT LEAST 48" OF CLEAR SPACE FROM ANY DOOR OPENING INTO THE VESTIBULE WHEN THE DOOR IS OPEN 90 DEGREES FROM ITS CLOSED POSITION. DOOR IN SERIES MUST SWING IN THE SAME DIRECTION OR AWAY FROM THE SPACE BETWEEN THE DOORS.

H. WHERE A PAIR OF DOORS, MANUALLY OR AUTOMATICALLY OPERATED, IS UTILIZED, AT LEAST ONE OF THE DOORS SHALL PROVIDE A CLEAR, UNOBSTRUCTED OPENING 32" WIDE W/ THE LEAF POSITIONED 90 DEGREES FROM ITS CLOSED POSITION.

I. THE BOTTOM 10" OF ALL DOORS EXCEPT AUTOMATIC AND SLIDING SHALL HAVE A SMOOTH, UNINTERRUPTED SURFACE TO ALLOW THE DOOR TO OPEN BY A WHEELCHAIR FOOTREST WITHOUT CREATING A TRAP OR HAZARDOUS CONDITION. WHERE NARROW FRAME DOORS ARE USED A 10" HIGH SMOOTH PANEL SHALL BE INSTALLED ON THE PUSH SIDE OF THE DOOR, WHICH WILL ALLOW THE DOOR TO BE OPENED BY A WHEELCHAIR FOOTREST WITHOUT CREATED A TRAP OR HAZARDOUS CONDITION.

J. MAXIMUM EFFORT TO OPERATED DOORS SHALL NOT EXCEED 5 LB. SUCH PULL OR PUSH EFFORT SHALL BE APPLIED AT RIGHT ANGLES TO HINGED DOORS AND AT THE CENTER PLANE OF SLIDING OR FOLDING DOORS. COMPENSATING DEVICES OR AUTOMATIC DOOR OPERATORS MAY BE UTILIZED TO MEET THE ABOVE STANDARDS. WHEN FIRE DOORS ARE REQUIRED, THE MAXIMUM EFFORT TO OPERATE THE DOOR MAY BE INCREASED TO THE MAXIMUM ALLOWABLE BY THE APPROPRIATE ADMINISTRATIVE AUTHORITY, NOT TO EXCEED 15 POUNDS.

3. SANITARY FACILITIES: (REFER TO DETAIL 2/GEN-4)

A. WATER CLOSET COMPARTMENTS SHALL BE EQUIPPED WITH A DOOR THAT HAS AN AUTOMATIC CLOSING DEVICE, AND SHALL HAVE A CLEAR UNOBSTRUCTED OPENING WIDTH OF 32" INCHES WHEN LOCATED AT THE END AND 34" INCHES WHEN LOCATED AT THE SIDE WITH THE DOOR POSITION AT AN ANGLE OF 90 DEGREES AWAY FROM ITS CLOSED POSITION.

B. TOILET FLUSH CONTROLS SHALL BE OPERABLE WITH ONE HAND, AND SHALL NOT REQUIRE TIGHT GRASPING, PINCHING, OR TWISTING OF THE WRIST. CONTROLS FOR FLUSH VALVES SHALL BE MOUNTED ON THE WIDE SIDE OF THE TOILET AREAS, NO MORE THAN 44" INCHES ABOVE THE FLOOR. THE FORCE REQUIRED TO ACTIVATE CONTROLS SHALL BE NO GREATER THAN 5 POUNDS PER FOOT.

C. WHERE URINALS ARE PROVIDED AT LEAST ONE WITH A RIM PROJECTING A MINIMUM OF 14 INCHES FROM THE WALL AND AT A MAXIMUM OF 17 INCHES ABOVE THE FLOOR SHALL BE PROVIDED.

D. URINAL FLUSH CONTROLS SHALL BE OPERABLE WITH ONE HAND, AND SHALL NOT REQUIRE TIGHT GRASPING, PINCHING, OR TWISTING OF THE WRIST AND SHALL BE MOUNTED NO MORE THAN 44" ABOVE THE FLOOR. THE FORCE REQUIRED TO ACTIVE CONTROLS SHALL BE NO GREATER THAN 5 POUNDS PER FOOT.

E. HOT WATER AND ALL DRAIN PIPES UNDER LAVATORIES SHALL BE INSULATED OR OTHERWISE COVERED.

F. FAUCET CONTROLS AND OPERATING MECHANISMS SHALL BE OPERABLE WITH ONE HAND AND SHALL NOT REQUIRE TIGHT GRASPING, PINCHING, OR TWISTING OF THE WRIST. THE FORCE REQUIRED TO ACTIVATE CONTROLS SHALL BE NO GREATER THAN 5 POUNDS PER FOOT. LEVER OPERATED, PUSH-TYPE AND ELECTRONICALLY CONTROLLED MECHANISMS ARE EXAMPLES OF ACCEPTABLE DESIGNS. SELF-CLOSING VALVES ARE ALLOWED IF THE FAUCET REMAINS OPEN FOR AT LEAST 10 SECONDS.

G. MIRRORS SHALL BE MOUNTED WITH THE LOWEST REFLECTIVE EDGE NOT MORE THAN 40 INCHES ABOVE THE FLOOR.

PATH OF TRAVEL
PATH OF TRAVEL (P.O.T) AS INDICATED MEETS THE FOLLOWING REQUIREMENTS:
1. IS A BARRIER-FREE ACCESSIBLE ROUTE WITHOUT ANY ABRUPT LEVEL CHANGES EXCEEDING 1/2" BEVELED AT A SLOPE NOT STEEPER THAN 1:2 EXCEPT THAT LEVEL CHANGES ARE 1/4" MAX VERTICAL & IS AT LEAST 48" WIDE.
2. SURFACE SHALL BE STABLE, FIRM AND SLIP RESISTANT.
3. CROSS-SLOPE SHALL NOT BE STEEPER THAN 1:48 AND RUNNING SLOPE SHALL NOT BE STEEPER THAN 1:20 UNLESS OTHERWISE INDICATED (SEC 11B-403.3)
4. P.O.T. SHALL BE MAINTAINED FREE OF OVERHANGING OBSTRUCTIONS TO 80" MINIMUM (SECTION 11B-307.4) AND PROTRUDING OBJECTS GREATER THAN 4" PROJECTION FROM WALL SURFACE BETWEEN 27" AND 80" ABOVE FINISH FLOOR OR GROUND (SECTION 11B-307.2).
5. PROVIDE FLUSH TRANSITIONS AT ANY ADJOINING JOINTS BETWEEN DIFFERENT WALK SURFACES IN P.O.T.

DESIGN PROFESSIONAL IN GENERAL RESPONSIBLE CHARGE STATEMENT:
THE P.O.T. IDENTIFIED IN THESE CONSTRUCTION DOCUMENTS IN COMPLIANT WITH THE CURRENT APPLICABLE CALIFORNIA BUILDING CODE ACCESSIBILITY PROVISIONS FOR **PATH OF TRAVEL REQUIREMENTS FOR ALTERATIONS, ADDITIONS AND STRUCTURAL REPAIRS.** AS PART OF THE DESIGN OF THIS PROJECT, THE POT WAS EXAMINED AND ANY ELEMENTS, COMPONENTS OR PORTIONS OF THE P.O.T. THAT WERE DETERMINED TO BE NONCOMPLIANT 1) HAVE BEEN IDENTIFIED AND 2) THE CORRECTIVE WORK NECESSARY TO BRING THEM INTO COMPLIANCE HAS BEEN INCLUDED WITHIN THE SCOPE OF THIS PROJECT'S WORK THROUGH DETAILS, DRAWINGS AND SPECIFICATIONS INCORPORATED INTO THESE CONSTRUCTION DOCUMENTS. ANY NONCOMPLIANT ELEMENTS, COMPONENTS OR PORTIONS OF THE POT THAT WILL NOT BE CORRECTED BY THIS PROJECT BASED UPON THE VALUATION THRESHOLD OR A FINDING OF UNREASONABLE HARDSHIP ARE SO INDICATED IN THESE CONSTRUCTION DOCUMENTS.

DURING CONSTRUCTION, IF P.O.T. ITEMS WITHIN THE SCOPE OF THE PROJECT REPRESENTED AS CODE COMPLIANT ARE FOUND TO BE NONCONFORMING BEYOND REASONABLE CONSTRUCTION TOLERANCES, THEY SHALL BE BROUGHT INTO COMPLIANCE WITH THE CBC AS PART OF THIS PROJECT BY MEANS OF A CONSTRUCTION CHANGE DOCUMENT.

FIRE MASER PLAN NOTES

1. APPROVED BUILDING ADDRESS NUMBERS, BUILDING NUMBERS OR APPROVED BUILDING IDENTIFICATION SHALL BE PROVIDED AND MAINTAINED SO AS TO BE PLAINLY VISIBLE AND LEGIBLE FROM THE STREET FRONTING THE PROPERTY. THE NUMBERS SHALL CONTRAST WITH THEIR BACKGROUND, BE ARABIC NUMERALS OR ALPHABET LETTERS, AND BE A MINIMUM OF 4 INCHES HIGH WITH A MINIMUM STROKE WIDTH OF 0.5 INCH. FIRE CODE 505.1

2. AN APPROVED KEY BOX, LISTED IN ACCORDANCE WITH UL 1037 SHALL BE PROVIDED AS REQUIRED BY FIRE CODE 506. THE LOCATION OF EACH KEY BOX SHALL BE DETERMINED BY THE FIRE INSPECTOR.

3. PROVIDE AN APPROVED AUTOMATIC FIRE SPRINKLER SYSTEM IN ACCORDANCE WITH PROVISIOINS SET FORTH IN BUILDING CODE SECTION 903.3. REASON: NFPA 13 FIRE SPRINKLER PLANS SHALL BE SUBMITTED TO THE SPRINKLER PLAN CHECK UNIT FOR REVIEW AND APPROVAL PRIOR TO INSTALLATION IN ACCORDANCE WITH FIRE CODE 901.2.

4. PORTABLE FIRE EXTINGUISHERS SHALL BE INSTALLED AND MAINTAINED ALL OCCUPANCY GROUPS AND AT SUCH LOCATIONS AS REQUIRED BY FIRE CODE 906 AND CALIFORNIA CODE OF REGULATIONS, TITLE 19, DIVISION 1, CHAPTER 3. THE FINAL NUMBER AND LOCATION OF ALL EXTINGUISHERS SHALL BE DETERMINED BY THE LOCAL AREA FIRE INSPECTOR.

5. ALL ELEVATORS SHALL BE EQUIPPED TO OPERATE WITH A STANDARDIZED FIRE SERVICE ELEVATOR KEY IN ACCORDANCE WITH FIRE CODE 606.8. BUILDING CODE 3003.3

6. DUMPSTERS AND CONTAINERS WITH AN INDIVIDUAL CAPACITY OF 1.5 CUBIV YARDS OR MORE SHALL NOT BE STORED IN BUILDINGS OR PLACED WITHIN 5 FEET OF COMBUSTIBLE WALLS, OPENINGS OR COMBUSTIBLE ROOF EAVES, UNLESS AREAS CONTAIN DUMPSTERS OR CONTAINERS OR CONTAINERS ARE PROTECTED BY AN APPROVED AUTOMATIC FIRE SPRINKLER SYSTEM. FIRE CODE 304.3.3.

7. CURTAIN, DRAPERIES, FABRIC HANGINGS AND SIMILAR COMBUSTIBLE DECORATIVE MATERIALS SUSPENDED FROM WALLS OR CEILINGS SHALL MEET THE FLAME PROPAGATION PERFORMANCE CRITERIA OF NFPA 701.

8. FIRE DEPARTMENT CONNECTIONS SHALL BE LOCATED ON THE STREET-ADDRESS SIDE OF BUILDINGS, FACING APPROVED FIRE APPARATUS ACCESS ROADS, WITHIN 150 FEET (VIA VEHICULAR ACCESS) OF AN ACCESSIBLE PUBLIC FIRE HYDRANT, AND AS CLOSE TO THE STREET CURB FACE AS POSSIBLE, FULLY VISIBLE, AND RECOGNIZABLE FROM THE STREET, FIRE APPARATUS ACCESS ROAD OR NEAREST POINT OF FIRE DEPARTMENT VEHICLE ACCESS OR AS OTHERWISE APPROVED BY THE FIRE CODE OFFICIAL. FIRE DEPARTMENT CONNECTIONS SHALL BE LOCATED A MINIMUM OF 25 FEET (7,620 MM) FROM THE STRUCTURE. WHEN THIS DISTANCE CANNOT BE ACHIEVED, A MINIMUM TWO-HOUR, FIRE-RESISTIVE WALL SHALL BE PROVIDED FOR THE STRUCTURE WITH NO OPENINGS IN THE WALL, FOR 25 FEET (7,620 MM) IN EITHER DIRECTION FROM THE FIRE DEPARTMENT CONNECTION. THE REQUIRED FIRE-RESISTIVE CONSTRUCTION AND LACK OF OPENINGS SHALL EXTEND FOR THE FULL HEIGHT OF THE WALL OR BUILDING AS DETERMINED BY THE FIRE CODE OFFICIAL. THE FIRE CODE OFFICIAL MAY ALLOW SUFFICIENTLY PROTECTED OVERHEAD OPENINGS. FIRE DEPARTMENT CONNECTIONS SHALL BE LOCATED NOT LESS THAN 24 INCHES (609.6 MM) NORMORE THAN 42 INCHES (1,066.8 MM) ABOVE GRADE. FIRE CODE 912.2.1.

9. THE MEANS OF EGRESS TRAVEL, INCLUDING THE EXIT DISCHARGE, SHALL BE ILLUMINATED AT ALL TIMES THE BUILDING SPACE SERVED BY THE MEANS OF EGRESS IS OCCUPIED WITH A LIGHT INTENSITY OF NOT LESS THAN 1 FOOT-CANDLE AT THE WALKING SURFACE AS REQUIRED BY BUILDING CODE 1008.2.

10. IN THE EVENT OF POWER SUPPLY FAILURE IN ROOMS, SPACES AND BUILDINGS THAT REQUIRE TWO OR MORE MEANS OF EGRESS, AN EMERGENCY ELECTRICAL SYSTEM FOR A DURATION OF NOT LESS THAN 90 MINUTES IN ACCORDANCE WITH THE PROVISIONS SET FORTH IN BUILDING CODE 1008.3.

11. EGRESS DOORS SHALL BE READILY OPENABLE FROM THE EGRESS SIDE WITHOUT THE USE OF A KEY OR ANY SPECIAL KNOWLEDGE OR EFFORT IN ACCORDANCE WITH BUILDING CODE 1010.1.19.

12. EXIT SIGNS SHALL BE ILLUMINATED AT ALL TIMES. TO ENSURE CONTINUED ILLUMINATION FOR A DURATION OF NOT LESS 90 MINUTES IN CASE OF PRIMARY POWER LOSS, THE SIGN ILLUMINATION MEANS SHALL BE CONNECTED TO AN EMERGENCY POWER SYSTEM PROVIDED FROM STORAGE BATTERIES, UNIT EQUIPMENT OR AN ON-SITE GENERATOR.

13. THE MEANS OF EGRESS TRAVEL SHALL BE ILLUMINATED AT ANY TIME THE BUILDING IS OCCUPIED WITH A LIGHT INTENSITY OF NOT LESS THAN 1 FOOT-CANDLE AT THE FLOOR LEVEL. BUILDING CODE 1008.2.1.

14. THE PATH OF EGRESS TRAVEL TO EXITS SHALL BE MARKED BY READILY VISIBLE EXIT SIGNS TO CLEARLY INDICATE THE DIRECTION OF EGRESS TRAVEL AS REQUIRED BY BUILDING CODE 1013.1; AND SHALL BE INTERNALLY OR EXTERNALLY ILLUMINATED AS REQUIRED BY SECTION 1013.3 AND 1013.5. NOTE: ADDITIONAL EXIT SIGNS MAY BE REQUIRED AT THE TIME OF FIELD INSPECTION

15. EACH DOOR IN A MEANS OF EGRESS FROM A GROUP A, OR ASSEMBLY AREA NOT CLASSIFIED AS AN ASSEMBLY OCCUPANCY, HAVING AN OCCUPANT LOAD OF 50 OR MORE SHALL NOT BE PROVIDED WITH A LATCH OR LOCK UNLESS IT IS PANIC HARDWARE OF FIRE EXIT HARDWARE. PROVIDE APPROVED PANIC HARDWARE ON REQUIRED EXIT DOORS, TITLE, 24 SECTIONS 1010.1.10.

16. THE MAXIMUM OCCUPANT LOAD FOR AN ASSEMBLY USE SHALL NOT EXCEED THE OCCUPANT LOAD AS DETERMINED IN ACCORDANCE WITH TITLE 24 SECTION 1004.1, TABLE 1004.1.1.

17. COMPLY WITH POSTING OF ROOM CAPACITY. FIRE CODE 1004.3 TITLE 24, SECTION 1004.3. (SUBJECT TO FIELD INSPECTION APPROVAL).

18. BLEACHERS, GRANDSTANDS, SHALL COMPLY WITH SECTION 1029.1.1 CBC AND ICC 300.

19. ALL ELEVATORS SHALL BE EQUIPPED TO OPERATE WITH A STANDARDIZED FIRE SERVICE ELEVATOR KEY IN ACCORDANCE WITH FIRE CODE 606.8. BUILDING CODE 3003.3

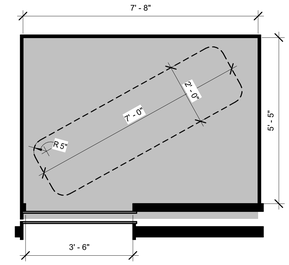
20. FIRE DEPARTMENT CONNECTIONS SHALL BE LOCATED ON THE STREET-ADDRESS SIDE OF BUILDINGS, FACING APPROVED FIRE APPARATUS ACCESS ROADS, WITHIN 150 FEET (VIA VEHICULAR ACCESS) OF AN ACCESSIBLE PUBLIC FIRE HYDRANT, AND AS CLOSE TO THE STREET CURB FACE AS POSSIBLE, FULLY VISIBLE, AND RECOGNIZABLE FROM THE STREET, FIRE APPARATUS ACCESS ROAD OR NEAREST POINT OF FIRE DEPARTMENT VEHICLE ACCESS OR AS OTHERWISE APPROVED BY THE FIRE CODE OFFICIAL. FIRE DEPARTMENT CONNECTIONS SHALL BE LOCATED A MINIMUM OF 25 FEET (7,620 MM) FROM THE STRUCTURE. WHEN THIS DISTANCE CANNOT BE ACHIEVED, A MINIMUM TWO-HOUR, FIRE-RESISTIVE WALL SHALL BE PROVIDED FOR THE STRUCTURE WITH NO OPENINGS IN THE WALL, FOR 25 FEET (7,620 MM) IN EITHER DIRECTION FROM THE FIRE DEPARTMENT CONNECTION. THE REQUIRED FIRE-RESISTIVE CONSTRUCTION AND LACK OF OPENINGS SHALL EXTEND FOR THE FULL HEIGHT OF THE WALL OR BUILDING AS DETERMINED BY THE FIRE CODE OFFICIAL. THE FIRE CODE OFFICIAL MAY ALLOW SUFFICIENTLY PROTECTED OVERHEAD OPENINGS. FIRE DEPARTMENT CONNECTIONS SHALL BE LOCATED NOT LESS THAN 24 INCHES (609.6 MM) NORMORE THAN 42 INCHES (1,066.8 MM) ABOVE GRADE. FIRE CODE 912.2.1

21. ALL FIRE HYDRANTS SHALL MEASURE 6" X 4" X 2-1/2", BRASS OR BRONZE, CONFORMING TO AMERICAN WATER WORKS ASSOCIATION STANDARD C503, OR APPROVED EQUAL.

22. ALL REQUIRED PUBLIC FIRE HYDRANTS SHALL BE INSTALLED, TESTED AND ACCEPTED PRIOR TO BEGINNING CONSTRUCTION. FIRE CODE 501.4.

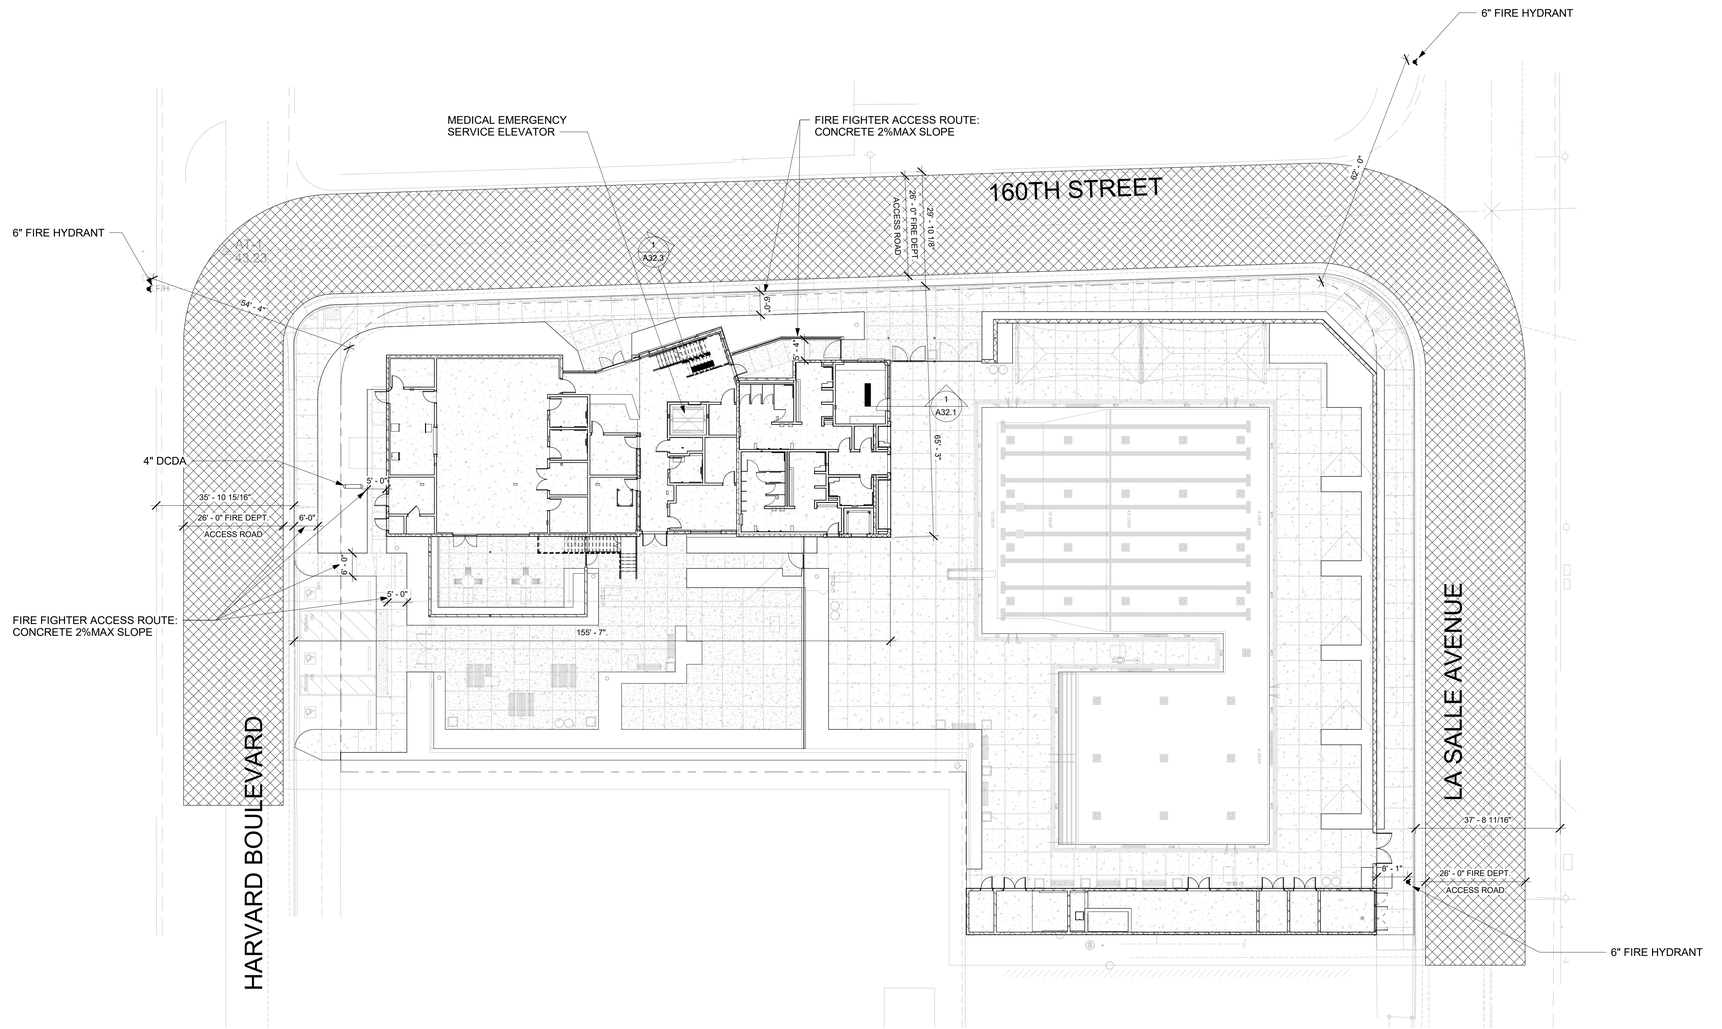
23. PROVIDE AN APPROVED MANUAL FIRE OR AUTOMATIC SMOKE DETECTION SYSTEM IN ACCORDANCE WITH THE PROVISIONS SET FORTH IN FIRE CODE 907. REASON: FIRE CODE 907.2.1 FIRE ALARM AND SMOKE DETECTION PLANS SHALL BE SUBMITTED TO THE FIRE ALARM PLAN CHECK UNIT FOR REVIEW AND APPROVAL PRIOR TO INSTALLATION IN ACCORDANCE WITH FIRE CODE 901.2.

24. ELEVATORS SHALL BE PROVIDED WITH PHASE I EMERGENCY RECALL OPERATION AND PHASE II EMERGENCY IN-CAR OPERATION IN ACCORDANCE WITH CALIFORNIA CODE OF REGULATIONS, TITLE 8, DIVISION 1, CHAPTER 4, SUBCHAPTER 6, ELEVATOR SAFETY ORDERS. BUILDING CODE 3003.2



25. ALL NEW BUILDINGS SHALL HAVE APPROVED RADIO COVERAGE FOR EMERGENCY RESPONDERS WITHIN THE BUILDING BASED UPON THE EXISTING COVERAGE LEVELS OF THE PUBLIC SAFETY COMMUNICATION SYSTEMS OF THE JURISDICTION, MEASURED AT THE EXTERIOR OF THE BUILDING IN ACCORDANCE WITH FIRE CODE 510. NEW BUILDINGS THAT CAN DEMONSTRATE MINIMUM RADIO COVERAGE SIGNAL STRENGTH THROUGHOUT THE INTERIOR OF THE BUILDING MAY BE EXEMPT PER FIRE CODE 510. WHEN AN APPROVED EMERGENCY RESPONDER RADIO COVERAGE SYSTEM IS PROVIDED, PLANS SHALL BE SUBMITTED TO THE FIRE ALARM PLAN CHECK UNIT FOR REVIEW AND APPROVAL PRIOR TO INSTALLATION. FIRE CODE 510.5.1.

26. THE KITCHEN IN THIS PROJECT IS NOT A COMMERCIAL KITCHEN. FOR A COMMERCIAL KITCHEN: EACH REQUIRED COMMERCIAL KITCHEN EXHAUST HOOD AND DUCT SYSTEM SHALL HAVE A TYPE I HOOD PROTECTED WITH AN APPROVED AUTOMATIC FIRE-EXTINGUISHING SYSTEM INSTALLED IN ACCORDANCE WITH BUILDING CODE 904.2.1. FIRE CODE 609



27. INTERIOR WALL AND CEILING FINISHES SHALL BE CLASSIFIED IN ACCORDANCE WITH BUILDING CODE 803 AND TABLE 803.9. FIRE CODE SEC. 803 TABLE 803.3

THE REQUIRED FIRE FLOW IS BASED ON THE FOLLOWING CALCULATION

TYPE OF CONSTRUCTION PER THE BUILDING CODE: TYPE IIIB
FIRE-FLOW CALCULATION AREA: 11,916 SQ.FT.
FIRE FLOW BASED ON THE FIRE-FLOW CALCULATION AREA: 2,250 GPM
REDUCTION FOR FIRE SPRINKLERS (MAXIMUM 50%): 1,250 GPM
TOTAL FIRE FLOW REQUIRED: 1,500 GPM

DOOR NOTES LEGEND

1. LETTER "P" FOLLOWING DOOR TYPE LETTER IN SCHEDULE INDICATES A PAIR OF DOORS. SCHEDULED DIMENSION IS TOTAL FRAME OPENING. BOTH DOOR LEAVES ARE THE SAME SIZE UNLESS OTHERWISE NOTED.

2. LETTER "X" FOLLOWING DOOR TYPE LETTER IN SCHEDULE INDICATES A FIXED PANEL ABOVE DOOR LEAF. DOOR LEAF IS TO BE 7'-0" HIGH. SCHEDULED DIMENSION IS HEIGHT OF ACTIVE DOOR LEAF PLUS FIXED PANEL. FIXED PANEL SHALL BE OF SAME MATERIAL, CONSTRUCTION, THICKNESS, AS FINISH AS ACTIVE DOOR AND PROVIDED BY THE SAME MANUFACTURER AS DOOR.

3. LOUVERS IN FIRE-RATED DOOR ASSEMBLIES TO BE FLFD (FUSIBLE LINK FIRE DAMPER), LOUVERS IN EXTERIOR DOORS TO BE VANDAL-PROOF SECURITY TYPE.

4. GLAZING, ALL GLAZING PANELS IN FIRE-RATED DOOR ASSEMBLIES TO BE RATED GLASS. ALL OTHER GLAZING PANELS IN DOORS TO BE TEMPERED GLASS UNLESS OTHERWISE NOTED.

5. ALL DOORS NOTED AS 1-HOUR, AND 1 1/2-HOUR FIRE-RATED ASSEMBLIES SHALL MEET THE ADDITIONAL REQUIREMENTS OF MAXIMUM 450 F TEMPERATURE RISE ABOVE AMBIENT AFTER 30 MINUTES OF THE FIRE TEST. (CBC SEC. 1005.3.3.5 AND 1005.3.4.4).

6. THICKNESS: ALL DOORS TO BE 1 3/4" THICK UNLESS OTHERWISE NOTED.

7. ALL EXTERIOR DOORS TO HAVE WEATHERSTRIPPING ALL SIDES PER TITLE 24, SECTION T20-1451-1542.

8. ALL WOOD DOORS TO BE SOLID-CORE TYPE.

9. EXIT DOORS SERVING 50 OR MORE OCCUPANTS SHALL OPEN IN THE DIRECTION OF EXIT.

10. EVERY EXIT DOOR SHALL BE OPENABLE FROM THE INSIDE WITHOUT THE USE OF A KEY OR ANY SPECIAL KNOWLEDGE OR EFFORT. ANY SPECIAL LOCKING DEVICES SHALL BE OF THE APPROVED TYPE. CBC CHAPTER 33 AND UFC SECTION 12.104(B).

11. DOOR HARDWARE SHALL COMPLY WITH THE FOLLOWING PER CBC 11B-404.2

    1. OPERABLE BY A SIMPLE EFFORT, NOT GRASPING WRIST MOVEMENT (LEVERS, PANIC DEVICES, OR PULLS).
    2. 5-LB CLOSURE PRESSURE AT INTERIOR DOORS.
    3. 5-LB CLOSURE PRESSURE AT EXTERIOR DOORS.
    4. 5-LB CLOSURE PRESSURE AT FIRE DOORS.
    5. WHEN FIRE DOORS ARE REQUIRED, THE MAXIMUM EFFORT TO OPERATE THE DOOR MAY BE INCREASED TO THE MINIMUM ALLOWABLE BY THE APPROPRIATE ADMINISTRATIVE AUTHORITY, NOT TO EXCEED 15 POUNDS.

12. ALL DOORS INDICATED AS FIRE-RATED ASSEMBLIES TO HAVE CLOSURES AND SMOKE SEALS.

13. ON DOORS IN ALUMINUM FRAMES, PROVIDE ARMORED STRIKE ON JAMB OF ALUMINUM FRAME.

14. EXIT DOORS SHALL HAVE A READILY VISIBLE, DURABLE SIGN ON OR ADJACENT TO THE DOOR STATING, "THIS DOOR TO REMAINED UNLOCKED DURING BUSINESS HOURS." THE SIGN SHALL HAVE 1" HIGH LETTERS ON A CONTRASTING BACKGROUND. THE LOCKING DEVICE MUST BE OF A TYPE THAT WILL BE READILY DISTINGUISHABLE AS LOCKED.

15. DOORS SHALL BE A MINUMUM OF 36" WIDE X 80" HIGH WITH NO SINGLE LEAF EXCEEDING 4'-0" IN WIDTH.

16. BOTTOM 10" OF DOOR TO HAVE SMOOTH UNINTERUPTED SURFACE FOR OPENING BY WHEELCHAIR FOOT REST.

17. CENTER OF HARDWARE TO BE 30" TO 40" ABOVE FLOOR. LATCHING AND LOCKING DOOR TO BE OPERABLE WITH A SINGLE EFFORT BY LEVER OR PUSH-PULL TYPE HARDWARE.

18. PROVIDE DOOR SYMBOLS ON DOORWAYS LEADING TO SANITARY FACILITIES (SEE TOILET ROOM DOOR SIGNAGE). CENTER SYMBOLS ON DOORS AT 60" HEIGHT, AND FINISH IN COLOR CONTRASTING TO THAT OF THE DOOR.

19. THRESHOLDS SHALL BE 1/2" HIGH MAXIMUM WITH A 2:1 DEGREE BEVELED EDGE.

20. THRESHOLD HEIGHT BETWEEN 1/4" AND 1/2" SHALL BE BEVELED AT MAZIMUM 50% SLOPE.

21. ALL EXTERIOR DOOR SHALL HAVE PERIMETER DOOR SOUND SEAL/GASKET.

22. EACH DOOR IN A MEANS OF EGRESS FROM A GROUP A, OR ASSEMBLY AREA NOT CLASSIFIED AS AN ASSEMBLY OCCUPANCY, HAVING AN OCCUPANT LOAD OF 50 OR MORE SHALL NOT BE PROVIDED WITH A LATCH OR LOCK UNLESS IT IS PANIC HARDWARE OR FIRE EXIT HARDWARE. CBC 1010.1.10 CFC 1010.1.10

HANGER WIRE AT METAL DECK

1 1/2" = 1'-0" | 10

NOTES:

1. STRUTS SHALL NOT REPLACE HANGER WIRES.
2. THE MINIMUM ACCEPTABLE ANGLE IS DETERMINED SUCH THAT THE WIRES DO NOT INTERFERE WITH THE RUNNERS, LIGHT FIXTURES, ETC. AND REMAIN STRAIGHT AND UNOBSTRUCTED.

SUSPENSION AND BRACING ASSEMBLY

3" = 1'-0" | 6

SUSPENDED LAY-IN CEILING NOTES:
(FOR CEILING SYSTEMS WHOSE TOTAL WEIGHT, INCLUDING AIR CONDITIONING/HEATING GRILLS AND LIGHT FIXTURES, DOES NOT EXCEED 4 PSF)

1- CEILING SYSTEM GENERAL NOTES:

1.01- CEILING SYSTEM COMPONENTS SHALL COMPLY WITH ASTM C635-07 AND SECTION 5.1 OF ASTM E580-10A.
1.02- THE CEILING GRID SYSTEM MUST BE RATED HEAVY DUTY AS DEFINED BY ASTM C635-08.
1.03- CEILING SYSTEMS. THE FOLLOWING CEILING SYSTEM(S) ISARE PART OF THE SCOPE OF THIS PROJECT:
MANUFACTURER'S NAME: ARMSTRONG WORLD INDUSTRIES
PRODUCT EVALUATION REPORT TYPE AND NUMBER: ESR1308
MANUFACTURER'S MODEL NUMBER - MAIN RUNNER: 7501
MANUFACTURER'S CATALOG NUMBER - CROSS RUNNER: XL7549 & XL7528
1.04- SEISMIC WALL CLIP:
MANUFACTURER'S MODEL: BERC2 WITH 7800 MOLDING
1.05- CEILING PANELS SHALL NOT SUPPORT ANY LIGHT FIXTURES, AIR TERMINALS OR DEVICES.
1.06- FOR CEILING INSTALLATIONS UTILIZING ACOUSTICAL TILE PANELS OF MINERAL OR GLASS FIBER, IT IS NOT MANDATORY TO PROVIDE ¾" CLEARANCE BETWEEN THE ACOUSTICAL TILE PANELS AND THE WALL ON THE SIDES OF THE CEILING WHICH ARE FREE TO SLIP. FOR ALL OTHER CEILING PANEL TYPES, PROVIDE ¾" CLEARANCE BETWEEN THE CEILING PANEL AND THE WALL ON THE SIDES OF THE CEILING FREE TO SLIP.

2- MATERIALS:

2.01- CEILING WIRE SHALL BE CLASS 1 ZINC COATED (GALVANIZED) CARBON STEEL CONFORMING TO ASTM A641-09A. WIRE SHALL BE #12 GAGE (0.106" DIAMETER) WITH SOFT TEMPER AND MINIMUM TENSILE STRENGTH = 70 KSI.
2.02- GALVANIZED SHEET STEEL (INCLUDING THAT USED FOR METAL STUD AND TRACK COMPRESSION STRUTS/POST) SHALL CONFORM TO ASTM A653-11, OR OTHER EQUIVALENT SHEET STEEL LISTED IN SECTION A2.1 OF THE NORTH AMERICAN SPECIFICATION FOR THE DESIGN OF COLD-FORMED STEEL STRUCTURAL MEMBERS 2007, INCLUDING SUPPLEMENT 2 DATED 2010 (AISI S100-07/S2-10). MATERIAL 43 MIL (18 GAGE) AND LIGHTER SHALL HAVE MINIMUM YIELD STRENGTH OF 33 KSI. MATERIAL 54 MIL (16 GAGE) AND HEAVIER SHALL HAVE A MINIMUM YIELD STRENGTH OF 50 KSI.
2.03- ELECTRICAL METALLIC TUBE (EMT) SHALL BE ANSI C80.3/UL 797 CARBON STEEL WITH G90 GALVANIZING. EMT SHALL HAVE MINIMUM YIELD STRENGTH (FY) OF 30 KSI AND MINIMUM ULTIMATE STRENGTH (FU) OF 48 KSI.

3- ATTACHMENT OF HANGER AND BRACING WIRES:

3.01- SEPARATE ALL CEILING HANGER AND BRACING WIRES AT LEAST SIX (6) INCHES FROM ALL UNBRACED DUCTS, PIPES, CONDUIT, ETC.
3.02- HANGER AND BRACING WIRES SHALL NOT ATTACH TO OR BEND AROUND OBSTRUCTIONS INCLUDING BUT NOT LIMITED TO: PIPING, DUCTWORK, CONDUIT AND EQUIPMENT.
3.03- HANGER WIRES THAT ARE MORE THAN ONE (HORIZONTAL) IN SIX (VERTICAL) OUT OF PLUMB SHALL HAVE COUNTER-SLOPING WIRES.
3.04- SLACK SAFETY WIRES SHALL BE CONSIDERED HANGER WIRES FOR INSTALLATION AND TESTING REQUIREMENTS.
3.05- HANGER AND BRACING WIRE ANCHORAGE TO THE STRUCTURE SHALL BE INSTALLED IN SUCH A MANNER THAT THE DIRECTION OF THE ANCHORAGE ALIGNS CLOSELY WITH THE DIRECTION OF THE WIRE. (E.G. BRACING WIRE CEILING CLIPS MUST BE BENT AS SHOWN IN THE DETAILS AND ROTATED AS REQUIRED TO ALIGN CLOSELY WITH THE DIRECTION OF THE WIRE, SCREW EYES IN WOOD MUST BE INSTALLED SO THEY ALIGN CLOSELY WITH THE DIRECTION OF THE WIRE, ETC.)

4- FASTENERS AND WELDING:

4.01- SHEET METAL SCREWS SHALL COMPLY WITH ASTM C1513-10, ASME B18.6.4-89 (R2005). PENETRATION OF SCREWS THROUGH JOINED MATERIAL SHALL NOT BE LESS THAN THREE EXPOSED THREADS.
4.02- EXPANSION ANCHORS SHALL BE:
IN GENERAL: EXPANSION ANCHORS DO NOT OCCUR FOR CEILING CONNECTIONS TO ROOF ABOVE (BUILDING ONLY HAS BARE METAL DECK)
EXPANSION ANCHORS TO CMU WALLS: 3/8" DIAMETER HILTI KB-TZ W/ 2" EMBED INSTALLED PER ICC ESR-3785 AND GENERAL NOTES ON SHEET S0.2.
4.03- POWER-ACTUATED FASTENERS SHALL BE:
SHOT PINS TO WALL: 0.157 HILTI X-U SHOT PIN INSTALLED W/ 1" EMBED PER ICC ESR-2269
4.04- IF NOT OTHERWISE SPECIFIED IN THE EVALUATION REPORT, POWER-ACTUATED FASTENERS INSTALLED IN STEEL SHALL BE INSTALLED SO THE ENTIRE POINTED END OF THE FASTENER IS DRIVEN THROUGH THE STEEL MEMBER.
4.05- POWER-ACTUATED FASTENERS IN CONCRETE ARE NOT PERMITTED FOR BRACING WIRES.
4.06- CONCRETE REINFORCEMENT AND PRESTRESSING TENDONS SHALL BE LOCATED BY NON-DESTRUCTIVE MEANS PRIOR TO INSTALLING POST - INSTALLED ANCHOR.
4.07- WELDING SHALL BE IN ACCORDANCE WITH AWS D1.3 USING E60XX SERIES ELECTRODES.

5- TESTING: ALL FIELD TESTING MUST BE PERFORMED IN THE PRESENCE OF THE PROJECT INSPECTOR.

5.01- POST-INSTALLED ANCHORS IN CONCRETE USED TO SUPPORT HANGER WIRES SHALL BE TESTED AT A FREQUENCY OF 10 PERCENT. POWER ACTUATED FASTENERS IN CONCRETE SHALL BE FIELD TESTED FOR 200 LBS. IN TENSION. ALL OTHER POST-INSTALLED ANCHORS IN CONCRETE SHALL BE TESTED IN ACCORDANCE WITH CBC SECTION 1913A.7.
5.02- POST-INSTALLED ANCHORS IN CONCRETE USED TO ATTACH BRACING WIRES SHALL BE TESTED AT A FREQUENCY OF 50 PERCENT IN ACCORDANCE WITH CBC SECTION 1913A.7.

6- LIGHT FIXTURES:

6.01- ALL LIGHT FIXTURES SHALL BE POSITIVELY ATTACHED TO THE CEILING SUSPENSION SYSTEMS BY MECHANICAL MEANS TO RESIST A HORIZONTAL FORCE EQUAL TO THE WEIGHT OF THE FIXTURE. A MINIMUM OF TWO SCREWS OR APPROVED FASTENERS ARE REQUIRED AT EACH LIGHT FIXTURE, PER ASTM E580, SECTION 5.3.1.
6.02- SURFACE-MOUNTED LIGHT FIXTURES SHALL BE ATTACHED TO THE MAIN RUNNER WITH AT LEAST TWO POSITIVE CLAMPING DEVICES. THE CLAMPING DEVICE SHALL COMPLETELY SURROUND THE SUPPORTING CEILING RUNNER AND BE MADE OF STEEL WITH A MINIMUM THICKNESS OF #14 GAGE. ROTATIONAL SPRING CATCHES DO NOT COMPLY. A #12 GAGE SLACK SAFETY WIRE SHALL BE CONNECTED FROM EACH CLAMPING DEVICE TO THE STRUCTURE ABOVE. PROVIDE ADDITIONAL SUPPORTS WHEN LIGHT FIXTURES ARE EIGHT (8) FEET OR LONGER OR EXCEED 56 LB. MAXIMUM SPACING BETWEEN SUPPORTS SHALL NOT EXCEED EIGHT (8) FEET.
60.03- LIGHT FIXTURES WEIGHING LESS THAN OR EQUAL TO 10 LB. SHALL HAVE A MINIMUM OF ONE (1) #12 GAGE SLACK SAFETY WIRE CONNECTED FROM THE FIXTURE HOUSING TO THE STRUCTURE ABOVE.
6.04- LIGHT FIXTURES WEIGHING LESS THAN OR EQUAL TO 10 LB. SHALL HAVE A MINIMUM OF ONE (1) #12 GAGE SLACK SAFETY WIRE CONNECTED FROM THE FIXTURE HOUSING TO THE STRUCTURE ABOVE.
6.05- LIGHT FIXTURES WEIGHING GREATER THAN 10 LB. BUT LESS THAN OR EQUAL TO 56 LBS. MAY BE SUPPORTED DIRECTLY ON THE CEILING RUNNERS, BUT THEY SHALL HAVE A MINIMUM OF TWO (2) #12 GAGE SLACK SAFETY WIRES CONNECTED FROM THE FIXTURE HOUSING AT DIAGONAL CORNERS TO THE STRUCTURE ABOVE.
EXCEPTION: ALL LIGHT FIXTURES GREATER THAN TWO BY FOUR FEET WEIGHING LESS THAN 56 LBS. SHALL HAVE A #12 GAGE SLACK SAFETY WIRE AT EACH CORNER.
6.06- ALL LIGHT FIXTURES WEIGHING GREATER THAN 56 LB. SHALL BE INDEPENDENTLY SUPPORTED BY NOT LESS THAN FOUR (4) TAUT #12 GAGE HANGER WIRES (ONE AT EACH CORNER) ATTACHED FROM THE FIXTURE HOUSING TO THE STRUCTURE ABOVE OR OTHER APPROVED HANGERS. THE FOUR (4) TAUT #12 GAGE WIRES OR OTHER APPROVED HANGERS, INCLUDING THEIR ATTACHMENT TO THE STRUCTURE ABOVE, SHALL BE CAPABLE OF SUPPORTING FOUR (4) TIMES THE WEIGHT OF THE FIXTURE.

7- SERVICES WITHIN THE CEILING:

7.01- ALL FLEXIBLE SPRINKLER HOSE FITTING MOUNTING BRACKETS, CEILING-MOUNTED AIR TERMINALS OR OTHER SERVICES SHALL BE POSITIVELY ATTACHED TO THE CEILING SUSPENSION SYSTEMS BY MECHANICAL MEANS. SCREWS OR APPROVED FASTENERS ARE REQUIRED. A MINIMUM OF TWO ATTACHMENTS ARE REQUIRED AT EACH COMPONENT.
7.02- CEILING-MOUNTED AIR TERMINALS OR OTHER SERVICES WEIGHING LESS THAN OR EQUAL TO 20 LB. SHALL HAVE ONE (1) #12 GAGE SLACK SAFETY WIRE ATTACHED FROM THE TERMINAL OR SERVICE TO THE STRUCTURE ABOVE.
7.03- FLEXIBLE SPRINKLER HOSE FITTINGS, CEILING-MOUNTED AIR TERMINALS OR OTHER SERVICES WEIGHING MORE THAN 20 LB. BUT LESS THAN OR EQUAL TO 56 LB. SHALL HAVE TWO (2) #12 GAGE SLACK SAFETY WIRES (AT DIAGONAL CORNERS) CONNECTED FROM THE TERMINAL OR SERVICE TO THE STRUCTURE ABOVE.
7.04- FLEXIBLE SPRINKLER HOSE FITTINGS, CEILING-MOUNTED AIR TERMINALS OR OTHER SERVICES WEIGHING MORE THAN 56 LB. SHALL BE SUPPORTED DIRECTLY FROM THE STRUCTURE ABOVE BY NOT LESS THAN FOUR (4) TAUT #12 GAGE HANGER WIRES ATTACHED FROM THE TERMINAL OR SERVICE TO THE STRUCTURE ABOVE OR OTHER APPROVED HANGERS.

8- OTHER DEVICES WITHIN THE CEILING:

8.01- ALL LIGHTWEIGHT MISCELLANEOUS DEVICES, SUCH AS STROBE LIGHTS, OCCUPANCY SENSORS, SPEAKERS, EXIT SIGNS, ETC., SHALL BE ATTACHED TO THE CEILING GRID. IN ADDITION, DEVICES WEIGHING MORE THAN 10 LBS. SHALL HAVE A #12 GAGE SLACK SAFETY WIRE ANCHORED TO THE STRUCTURE ABOVE. DEVICES WEIGHING MORE THAN 20 LB. SHALL BE SUPPORTED INDEPENDENTLY FROM THE STRUCTURE ABOVE.

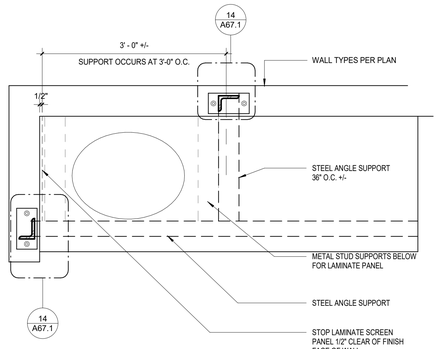
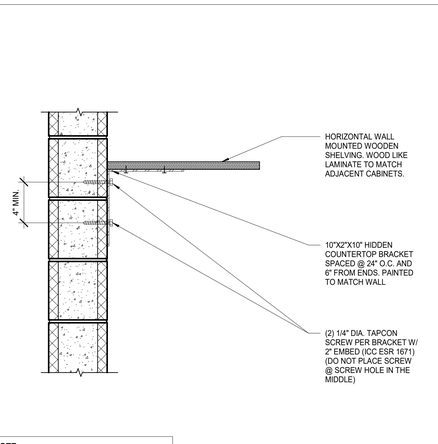
LAV COUNTER SUPPORT | 1 1/2" = 1'-0" | 14



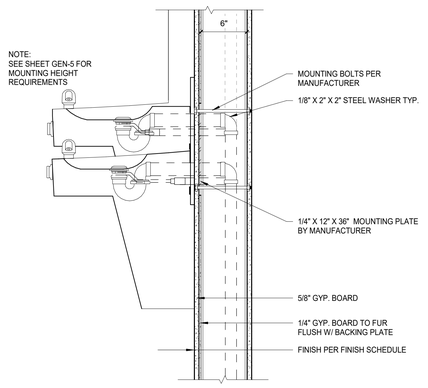
* FIRE TREATED WOOD REQUIRED PER CBC 603 FOR WOOD BLOCKING

LAVATORY COUNTERTOP | 1 1/2" = 1'-0" | 10

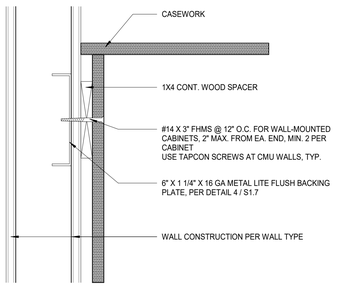


NOTE:
THERE SHALL BE NO SHARP OR ABRASIVE SURFACES BELOW COUNTER.
SEE DETAIL 3/- FOR ANCHORAGE, TYP.

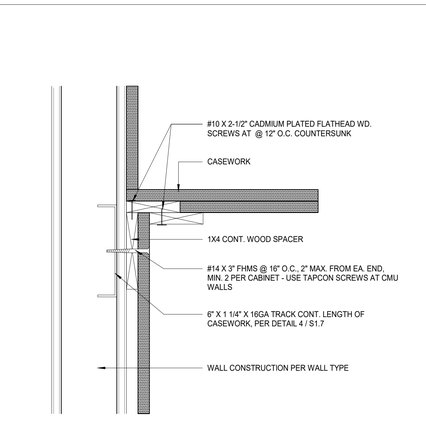
COUNTER AT CMU | 1 1/2" = 1'-0" | 12



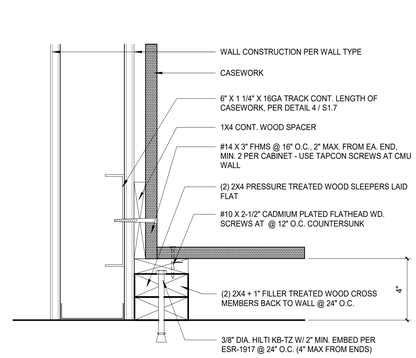
LAVATORY SUPPORT LAYOUT | 1" = 1'-0" | 11



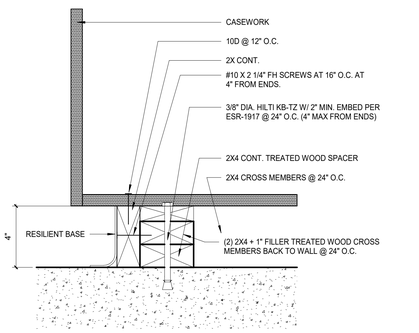
NOTE:
THERE SHALL BE NO SHARP OR ABRASIVE SURFACES BELOW COUNTER.



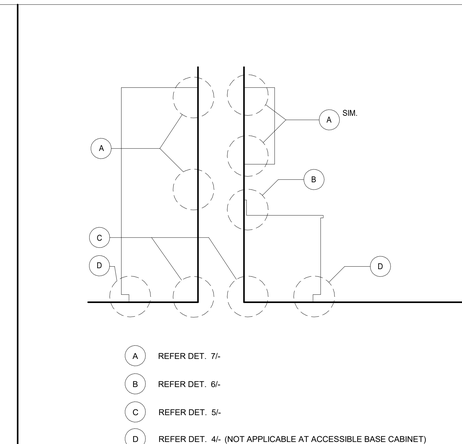
SHELF AT CMU | 1 1/2" = 1'-0" | 9



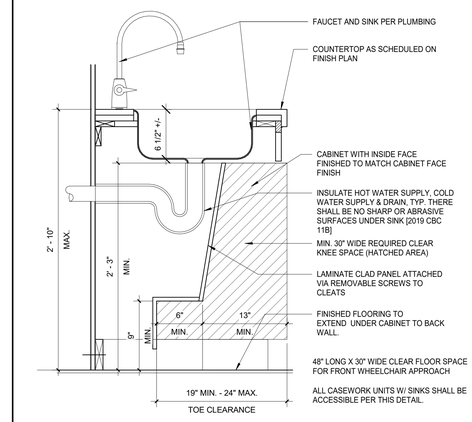
DRINKING FOUNTAIN ATTACHMENT | 1 1/2" = 1'-0" | 8



TYP. ANCHORAGE @ WALL | 3" = 1'-0" | 7



MID ANCHORAGE @ WALL | 3" = 1'-0" | 6



BASE ANCHORAGE @ WALL | 3" = 1'-0" | 5

BASE ANCHORAGE @ FRONT | 3" = 1'-0" | 4

TYPICAL ANCHORAGE | 1/2" = 1'-0" | 3

ACCESSIBLE CASEWORK | 1 1/2" = 1'-0" | 2

CASEWORK NOTES

1. CASEWORK SHALL COMPLY W/ THE REQUIREMENTS OF THE WOODWORK INSTITUTE.
2. ALL CABINET DIMENSIONS INDICATED ARE NOMINAL OUTSIDE DIMENSIONS.
3. FILLER STRIPS ARE REQUIRED AT ENDS OF CABINETS WHERE CABINETS ARE ADJACENT TO WALLS.
4. ALL FILLER STRIPS AT TALL AND WALL CABINETS TO HAVE TOP AND BOTTOM RETURNS.
5. ALL PLAN DIMENSIONS OF CASEWORK ARE CABINET DIMENSIONS ONLY AND DO NOT INCLUDE TOPS.
6. PROVIDE FINISHED END PANELS FOR SUPPORT OF COUNTERTOPS AT UNDERCOUNTER EQUIPMENT OR KNEE SPACES WHERE THERE IS NO ADJACENT WALL OR CABINET THAT CAN BE USE FOR SUPPORT.
7. FINISH ALL EXPOSED PORTIONS OF CASEWORK AND COUNTERTOPS.
8. ALL UNITS, INCLUDING OPEN UNITS, SHALL HAVE CASEWORK MANUFACTURER'S STANDARD CABINET LINER UNLESS OTHERWISE NOTED.
9. ALL TOE SPACES SHALL BE 4" IN HEIGHT AND 3" IN DEPTH AND SHALL RETURN TO WALL WHERE ENDS OF CABINETS ARE EXPOSED.
10. ALL SHELVING SHALL BE ADJUSTABLE UNLESS OTHERWISE NOTED.
11. ALL COUNTERTOPS SHALL BE OF MAXIMUM PRACTICAL LENGTHS REQUIRED TO CONFORM TO OVERALL BASE CABINET DIMENIONS.
12. PROVIDE BACKSPLASH COUNTERTOP RETURN AT ENDS OF COUNTERTOPS WHERE ADJACENT TO WALL OR OTHER FULL HEIGHT CASEWORK.
13. ALL SINKS, SINK TRIM & ELECTRICAL ITEMS SHALL BE FURNISHED BY OTHER THAN THE CASEWORK MANUFACTURER UNLESS OTHERWISE NOTED.
14. ALL OTHER COUNTERTOPS SHALL BE PLASTIC LAMINATE UNLESS OTHERWISE NOTED.
15. ALL W.I. CASEWORK TO BE FACE FRAME MODEL.

GENERAL NOTES:

1. DETAILS OF CONSTRUCTION NOT SHOWN SHALL BE OF SAME NATURE AS THOSE SHOWN FOR SIMILAR CONDITIONS. REFER TO THE TYPICAL DETAIL SHEETS FOR TYPICAL DETAILS OF CONSTRUCTION. TYPICAL DETAILS APPLY TO ALL CONSTRUCTION UNLESS SPECIFICALLY NOTED OR SHOWN OTHERWISE. WHERE CONDITIONS REQUIRE MODIFICATIONS OF A TYPICAL DETAIL, THE CONTRACTOR SHALL SUBMIT MODIFIED DETAIL OR APPROVAL BY THE ENGINEER OF RECORD PRIOR TO FABRICATION AND INSTALLATION. DETAILS OF CONSTRUCTION NOT SHOWN SHALL BE OF SAME NATURE AS THOSE SHOWN FOR SIMILAR CONSTRUCTION.
2. CONTRACTOR SHALL CONSIDER THE PROJECT SPECIFICATIONS A PART OF THE CONTRACT DOCUMENTS. WHERE INFORMATION IS CONFLICTING, SPECIFIC DETAILS SHALL GOVERN OVER TYPICAL DETAILS WHICH SHALL GOVERN OVER THESE NOTES WHICH SHALL GOVERN OVER SPECIFICATIONS.
3. ALL DIMENSIONS ON STRUCTURAL DRAWINGS SHALL BE CHECKED AGAINST ARCHITECTURAL DIMENSIONS. DO NOT SCALE DRAWINGS. IF DIMENSIONS ARE OMITTED OR NOT CLEAR, CONTACT THE ARCHITECT (ARCH) OR STRUCTURAL ENGINEER OF RECORD (SEOR). ALL DIMENSIONS RELATED TO EXISTING CONDITIONS SHALL BE FIELD VERIFIED BY THE CONTRACTOR. DIMENSIONS ARE TO THE FACE OF STUDS, AND TO CENTERLINE OF COLUMNS UNO.
4. IT IS THE CONTRACTOR'S RESPONSIBILITY TO IMMEDIATELY NOTIFY THE SEOR OF ANY CONFLICTS BETWEEN THE STRUCTURAL DRAWINGS AND OTHER DRAWINGS; OR EXISTING CONDITIONS NOT SHOWN OR DIFFERENT FROM THOSE SHOWN ON DRAWINGS PRIOR TO COMMENCEMENT OF WORK. THE CONTRACTOR IS NOT TO ORDER MATERIAL OR CONSTRUCT ANY PORTION OF THE BUILDING THAT IS IN CONFLICT UNTIL THE CONFLICT IS RESOLVED WITH THE AFFECTED PARTIES.
5. THE STRUCTURAL DRAWINGS AND SPECIFICATIONS REPRESENT THE FINISHED STRUCTURE. UNLESS OTHERWISE SHOWN THEY DO NOT INDICATE METHOD OF CONSTRUCTION. THE CONTRACTOR SHALL PROVIDE ALL MEASURES NECESSARY TO PROTECT THE CONSTRUCTION AND ALL ADJACENT PROPERTIES DURING CONSTRUCTION. SUCH MEASURES SHALL INCLUDE BUT ARE NOT LIMITED TO BRACING, SHORING OF LOADS DUE TO CONSTRUCTION EQUIPMENT, ETC. OBSERVATION VISITS TO THE SITE BY THE ARCHITECT OR SEOR SHALL NOT INCLUDE OBSERVATION OF THE ABOVE ITEMS.
6. SUBSTITUTION REQUESTS FOR MATERIALS SPECIFIED ON THE STRUCTURAL DRAWINGS MAY BE CONSIDERED WITH MATERIALS HAVING EQUIVALENT OR GREATER CAPACITY AND PERFORMANCE. CURRENT EVALUATION REPORTS AND PRODUCT INFORMATION SHALL BE PROVIDED TO THE STRUCTURAL ENGINEER DEMONSTRATING THE REQUIRED CAPACITY AND PERFORMANCE OF THE MATERIAL TO BE SUBSTITUTED. WRITTEN APPROVAL FROM THE SEOR SHALL BE OBTAINED PRIOR TO THE SUBSTITUTION OF ANY MATERIAL SPECIFIED ON THE STRUCTURAL DOCUMENTS.
7. IT IS THE CONTRACTOR'S RESPONSIBILITY TO COMPLY WITH THE PERTINENT SECTIONS OF THE "CONSTRUCTION SAFETY ORDERS" ISSUED BY THE STATE OF CALIFORNIA, LATEST EDITION, AND ALL OSHA REQUIREMENTS AS THEY APPLY TO THIS PROJECT. THE ARCHITECT, SEOR, AND THE OWNER DO NOT ACCEPT ANY RESPONSIBILITY FOR THE CONTRACTOR'S FAILURE TO COMPLY WITH THESE REQUIREMENTS.
8. ALL WORK IS NEW (N) UNLESS INDICATED AS EXISTING (E).
9. CONSTRUCTION MATERIALS SHALL BE DISTRIBUTED WHEN PLACED ON THE STRUCTURE SUCH THAT LOADS DO NOT EXCEED DESIGN LIVE LOADS OR RESULT IN AN UNBALANCED CONDITION.
10. REFER TO THE PROJECT SPECIFICATIONS FOR SHOP DRAWING REQUIREMENTS AND SUBMITTALS.

STRUCTURAL DESIGN CRITERIA:

1. CODES:
   ALL WORK SHALL BE IN CONFORMANCE WITH THE CALIFORNIA BUILDING CODE (CBC) 2019 EDITION, INCLUDING ALL AMENDMENTS. ALL STANDARDS USED SHALL BE THE LATEST VERSION APPROVED BY THE CODE ENFORCEMENT AGENCY ON THE DATE OF THE PERMIT ISSUANCE UNLESS SPECIFICALLY NOTED OTHERWISE.
2. DESIGN LIVE LOAD

	LOAD
ROOF	20 PSF
FLOOR	80 PSF

3. WIND DESIGN INFORMATION

RISK CATEGORY = III	Kz = 0.98	Kd =0.85	Kzt = 1.0
BASIC WIND SPEED Vfm = 94 MPH (3 SEC GUST)			EXPOSURE = C
INTERNAL PRESSURE COEFF. = +/- 0.18			

4. SEISMIC DESIGN INFORMATION

I = 1.25	RISK CATEGORY = III			SITE CLASS = D	
S_S = 1.795	S1 = 0.636	SDS = 1.196	SD1 = 1.196		
SEISMIC DESIGN CATEGORY = D					
ANALYSIS PROCEDURE = EQUIV. LATERAL FORCE PROCEDURE OR LINEAR DYNAMIC PROCEDURE (RESPONSE SPECTRUM)					
BUILDING	SLRS : A7: SPECIAL REINF. MASONRY SHEAR WALLS				
	Rho = 1.3	R = 5	Cd = 3.5	Ω = 2.5	Cs = 0.30
CANOPY	SLRS : G2: SPECIAL STEEL CANTILEVER COLUMN				
	Rho = 1.0	R = 2.5	Cd = 2.5	Ω = 1.25	Cs = 0.6

5. RAIN INTENSITY
   (PER NOAA ATLAS 14 POINT PRECIPITATION FREQUENCY ESTIMATES)

   PRIMARY DRAINAGE: 60 MIN DURATION/100YR RETURN PERIOD: 1.50 IN /HOUR
   SECONDARY DRAINAGE: 15 MIN DURATION/100YR RETURN PERIOD: 3.09 IN /HOUR

EXISTING UNDERGROUND UTILITY NOTES:

1. THE ARCHITECT AND ENGINEERS ARE NOT RESPONSIBLE FOR THE LOCATIONS OF EXISTING UNDERGROUND UTILITIES WHETHER OR NOT SHOWN ON THE DRAWINGS. THE LOCATION OF ANY EXISTING UNDERGROUND UTILITIES SHOWN ON THE DRAWINGS ARE APPROXIMATE. THE CONTRACTOR SHALL IMMEDIATELY NOTIFY THE OWNER SHOULD ANY SUCH UNIDENTIFIED CONDITIONS BE DISCOVERED.
2. THE CONTRACTOR SHALL BE RESPONSIBLE FOR ANY DAMAGES WHICH MAY RESULT FROM HIS FAILURE TO EXACTLY LOCATE AND PRESERVE ALL EXISTING UNDERGROUND UTILITIES.

CONTRACTOR RESPONSIBILITY NOTE:

1. EACH CONTRACTOR RESPONSIBLE FOR THE CONSTRUCTION OF A MAIN LATERAL-FORCE-RESISTING SYSTEM, DESIGNATED ON PLANS SHALL SUBMIT A WRITTEN STATEMENT OF RESPONSIBILITY TO THE BUILDING OFFICIAL AND THE OWNER PRIOR TO THE COMMENCEMENT OF WORK ON THE SYSTEM OR COMPONENT. THE CONTRACTOR'S STATEMENT OF RESPONSIBILITY SHALL CONTAIN THE FOLLOWING:

   A. ACKNOWLEDGMENT OF AWARENESS OF THE SPECIAL REQUIREMENTS.

   B. ACKNOWLEDGMENT THAT CONTROL WILL BE EXERCISED TO OBTAIN CONFORMANCE WITH THE CONSTRUCTION DOCUMENTS APPROVED BY THE BUILDING OFFICIAL.

   C. PROCEDURES FOR EXERCISING CONTROL WITHIN THE CONTRACTOR'S ORGANIZATION, THE METHOD AND FREQUENCY OF REPORTING AND THE DISTRIBUTION OF THE REPORTS.

   D. IDENTIFICATION AND QUALIFICATIONS OF THE PERSON(S) EXERCISING SUCH CONTROL AND THEIR POSITION(S) IN THE ORGANIZATION.

FOUNDATION AND SLAB ON GRADE NOTES:

1. SEE SOIL REPORT BY: SOUTHERN CALIFORNIA GEOTECHNICAL
   REPORT NO.: 21G242-1 DATED: 11/18/2021

   SOILS REPORT SHALL BE CONSIDER A PART OF THESE CONSTRUCTION DOCUMENTS.
2. ALLOWABLE FTG VERTICAL BEARING PRESSURE
   DEAD LOAD + LIVE LOAD = ...2500 PSF
   DEAD LOAD + LIVE LOAD + LATERAL LOAD = ...3325 PSF

   FOR BUILDINGS LOCATED WITHIN 5FT OF PROPERTY LINE.....1500 PSF

   ALLOWABLE FTG LATERAL BEARING PRESSURE IS 250 PSF PER FT OF DEPTH
   ALLOWABLE FTG COEFFICIENT OF FRICTION FOR SLIDING: 0.25
3. THE CONTRACTOR SHALL CONFORM TO ALL RECOMMENDATIONS AND CONDITIONS INDICATED IN THE SOIL REPORT. THE GEOTECHNICAL ENGINEER SHALL OBSERVE ALL FOOTING EXCAVATIONS PRIOR TO PLACING CONCRETE.
4. SUBSURFACE SOIL PREPARATION:
   A. ALL EXISTING UNDOCUMENTED FILL SHALL BE REMOVED AND RECOMPACTED. ALL TOPSOILS SHALL BE REMOVED AS REQUIRED BY THE GEOTECHNICAL ENGINEER
   B. GEOTECHNICAL ENGINEER SHALL BE RETAINED DURING THE OVEREXCAVATION PROCESS. THE ACTUAL DEPTH OF REMOVAL WILL BE DETERMINED DURING GRADING OPERATIONS.
   C. OFFSITE FILL MATERIAL SHALL BE APPROVED BY THE GEOTECHNICAL ENGINEER PRIOR TO PLACEMENT.
5. SPREAD FOOTINGS ARE CENTERED UNDER WALLS AND COLUMNS, UNO.
6. FOOTING ELEVATIONS ARE NOTED ON THE PLANS AND DETAILS . IN ANY CASE, FOOTINGS SHALL BEAR ON FIRM UNDISTURBED SOIL OR ENGINEERED FILL OR BEDROCK , IN ACCORDANCE WITH THE SOIL REPORT AND DETAILS SHOWN.
7. CONTRACTOR SHALL PROTECT ALL UTILITY LINES, ETC. ENCOUNTERED DURING EXCAVATION AND BACKFILLING.
8. FOOTING BACKFILL AND UTILITY TRENCH BACKFILL WITHIN BUILDING AREA SHALL BE MECHANICALLY COMPACTED IN LAYERS WITH THE APPROVAL OF THE GEOTECHNICAL ENGINEER. FLOODING IS NOT PERMITTED.
9. ALL TRENCHES SHALL COMPLY WITH APPLICABLE OSHA REQUIREMENTS.
10. ALL EXCAVATIONS SHALL BE PROPERLY BACKFILLED WITH NON-EXPANSIVE SOIL BUT NOT BEHIND RETAINING WALLS BEFORE CONCRETE OR MASONRY ATTAINS ITS FULL DESIGN STRENGTH.
11. THE DESIGN OF ALL RETAINING WALLS AND SUBTERRANEAN BUILDING WALLS INDICATED ON THESE DRAWINGS IS BASED ON DRAINED SOILS.
12. CONSTRUCTION JOINTS (CJ) AND SAWCUT (SC) JOINTS IN SLABS SHALL OCCUR WHERE LOCATED ON PLANS AND DETAILS. CJ'S SHALL HAVE FORMED POUR STOPS. CONSTRUCTION JOINTS IN WALLS AND FOOTINGS NEED NOT OCCUR AT THE SAME LOCATION, UNO.
13. SEE ARCHITECT'S PLANS FOR LOCATIONS OF SLAB SLOPES, DEPRESSIONS, CURBS, DRAINS, NON-STRUCTURAL PARTITIONS AND OTHER EMBEDDED ITEMS NOT SHOWN ON THE STRUCTURAL PLANS.
14. ALL GRADING, FOUNDATION FOOTINGS, AND DRAINAGE PLANS SHALL BE REVIEWED BY THE GEOTECHNICAL ENGINEER UPON SUBMITTAL. A CERTIFIED LETTER BY THE GEOTECHNICAL ENGINEER IS REQUESTED STATING THAT THE RECOMMENDATIONS CONTAINED WITHIN THE SOILS REPORT HAVE BEEN INCORPORATED INTO THE PROJECT PLANS AND SPECIFICATIONS PRIOR TO CONSTRUCTION.
15. PRIOR TO THE CONTRACTOR REQUESTING A BUILDING DEPARTMENT FOUNDATION INSPECTION, THE SOILS ENGINEER SHALL ADVISE THE BUILDING OFFICIAL IN WRITING THAT:
   A. THE BUILDING PAD WAS PREPARED IN ACCORDANCE WITH THE SOILS REPORT.
   B. THE UTILITY TRENCHES HAVE BEEN PROPERLY BACKFILLED AND COMPACTED.
   C. THE FOUNDATION EXCAVATIONS COMPLY WITH THE INTENT OF THE SOILS REPORT.
   D. GENERAL GRADING AND COMPACTION COMPLIES WITH THE SOILS REPORT.

SHORING AND EXCAVATIONS NOTES:

1. THE CONTRACTOR SHALL PROVIDE FOR THE DESIGN, APPROVALS, PERMITS, INSTALLATION AND MONITORING OF ALL TEMPORARY SHORING AND BRACING AS REQUIRED TO SUPPORT EXISTING FRAMING WHERE SUPPORT ELEMENTS (BEAMS, COLUMNS, AND BEARING WALLS) ARE TO BE REMOVED.
2. ALL WORK SHALL BE PERFORMED IN ACCORDANCE WITH THE LATEST EDITION OF THE CALIFORNIA CONSTRUCTION SAFETY ORDERS (CAL-OSHA).
3. TEMPORARY CUTS SHALL NOT EXCEED SLOPES RECOMMENDED IN THE SOIL REPORT, NOR THOSE SHOWN ON THE SHORING DRAWINGS FOR CONSTRUCTION OF FOUNDATIONS.
4. THE INSTALLATION OF SHORING AND EXCAVATIONS SHALL BE PERFORMED UNDER THE CONTINUOUS INSPECTION AND APPROVAL OF THE GEOTECHNICAL ENGINEER.
5. THE DESIGN OF THE SHORING SYSTEM SHALL BE BASED UPON RECOMMENDATIONS CONTAINED IN THE SOIL REPORT. THE SHORING CONTRACTOR SHALL FAMILIARIZE HIMSELF WITH ALL DATA THEREIN AND SHALL KEEP A COPY OF THE REPORT AT THE JOB SITE AT ALL TIMES.
6. THE STRUCTURAL ENGINEER RESPONSIBLE FOR THE SHORING DESIGN (HEREAFTER CALLED THE SHORING ENGINEER) SHALL MAKE PERIODIC VISITS TO THE JOB SITE FOR THE PURPOSE OF OBSERVING THE INSTALLATION OF THE SHORING SYSTEM. OBSERVATIONS SHALL INCLUDE, BUT SHALL NOT BE LIMITED TO, THE FOLLOWING:

   A. PRIOR TO THE START OF INSTALLATION, MEET WITH THE GEOTECHNICAL ENGINEER AND SHORING CONTRACTOR TO REVIEW ALL ASPECTS OF THE DESIGN AND INSTALLATION OF THE SHORING.
   B. REVIEW OF CONDITIONS AT COMPLETION OF EXCAVATION. THE CONTRACTOR SHALL NOTIFY THE SHORING ENGINEER AT LEAST 48 HOURS PRIOR TO EACH OF THE ABOVE REQUIRED OBSERVATIONS.
7. CONTROL POINTS SHALL BE ESTABLISHED BY A LICENSED SURVEYOR TO MONITOR ANY HORIZONTAL AND VERTICAL MOVEMENTS OF THE SHORING. INITIAL READINGS SHALL BE SUBMITTED TO THE BUILDING OFFICIAL, AND WEEKLY DATA SHALL BE SUBMITTED AS EXCAVATION PROGRESSES AND THROUGHOUT THE CONSTRUCTION PERIOD. ADDITIONAL READINGS SHALL BE OBTAINED WHEN REQUESTED BY THE BUILDING OFFICIAL, SHORING ENGINEER OR GEOTECHNICAL ENGINEER. IF ANY HORIZONTAL OR VERTICAL MOVEMENT OCCURS, THE GEOTECHNICAL ENGINEER, THE SHORING ENGINEER AND THE STRUCTURAL ENGINEER SHALL EVALUATE SUCH MOVEMENT AND RECOMMEND CORRECTIVE MEASURES, IF NECESSARY BEFORE EXCAVATION IS CONTINUED.

REINFORCING STEEL NOTES:

1. REINFORCING GRADES FOR CONCRETE OR MASONRY:

ALL BARS EXCEPT THOSE TO BE WELDED	ASTM A615, GRADE 60
TIES AND STIRRUPS	ASTM A615, GRADE 60
WELDED WIRE FABRIC	ASTM A1064
ALL BARS TO BE WELDED	ASTM A706, GRADE 60
ALL BARS IN THE CONCRETE SHEARWALL INDICATED ON WALL ELEVATION INCLUDING SUPPORTING WALL FOOTING LONGITUDINAL BARS (WF), AND ALL GRADE BEAMS (GB)	A706, GRADE 60

2. MAINTAIN MINIMUM CONCRETE COVER FROM FACE OF CONCRETE TO EDGE OF ALL REINFORCEMENT AS FOLLOWS (U.N.O.):
   (SEE PLAN/ SECTION FOR CONCRETE W/ FIRE RATING.)

CONDITION	COVER
CONCRETE POURED AGAINST EARTH	3"
CONCRETE POURED IN FORMS AND EXPOSED TO WEATHER OR EARTH	
-#6 BARS AND LARGER	2"
-#5 BARS AND SMALLER	1 1/2"
INTERIOR COLUMNS AND BEAMS	1 1/2"
INTERIOR WALL FACES AND RAISED SLABS	1"
STRUCTURAL SLABS ON GRADE	
-FROM BOTTOM OF SLAB	2"
-FROM TOP OF SLAB	1 1/2"
OTHER CONCRETE NOT EXPOSED TO WEATHER OR EARTH FOR #11 BARS AND SMALLER	1"

   PROVIDE THE LARGEST COVER REQUIRED FOR ALL APPLICABLE CONDITIONS. WHERE #3 STIRRUPS OR TIES ARE USED, ENSURE THAT THE COVER FOR LONGITUDINAL BARS IS ADEQUATE.
3. REINFORCEMENT SHALL BE PLACED IN ACCORDANCE WITH THE CONCRETE REINFORCING STEEL INSTITUTE (CRSI) "MANUAL OF STANDARD PRACTICE". EACH REINFORCING BAR SHALL BE WIRED TO A CROSS BAR AT A MAXIMUM SPACING OF 24" O.C. PROVIDE ALL ACCESSORIES NECESSARY TO SUPPORT REINFORCING IN POSITIONS SHOWN ON THE PLANS.
4. SPLICES IN CONTINUOUS REINFORCEMENT AS USED IN WALLS, FOOTINGS, SLABS, ETC., SHALL HAVE A CLASS "B" LAP (1' - 6" MIN) AND THE SPLICES IN ADJACENT BARS SHALL BE NOT LESS THAN 5' - 0" APART. VERTICAL WALL BARS SHALL BE SPLICED AT OR NEAR FLOOR LINES. BARS MAY BE WIRED TOGETHER AT SPLICES OR LAPS EXCEPT FOR TOP REINFORCING OF BEAMS AND SLABS OR WHERE SPECIFICALLY DETAILED TO BE SEPARATED. WELDED WIRE FABRIC SHALL BE LAPPED 12" MINIMUM.
5. ALL DOWELS, ANCHOR BOLTS AND OTHER HARDWARE TO BE SET IN CONCRETE SHALL BE TIED IN PLACE PRIOR TO PLACEMENT OF CONCRETE. NO WET SETTING, STABBING, RODDING OR OTHER MOVEMENT OF EMBEDDED ITEMS SHALL BE PERFORMED DURING PLACEMENT OF CONCRETE.
6. BEND REINFORCING BARS COLD.
7. STEEL SHALL BE KEPT CLEAN AND FREE OF RUST.
8. DOWELS BETWEEN FOOTING AND WALLS OR COLUMNS SHALL BE THE SAME GRADE, SIZE AND SPACING AS THE MAIN REINFORCING U.N.O.
9. ALL BARS SHALL BE MARKED SO THEIR IDENTIFICATION CAN BE MADE WHEN THE FINAL IN PLACE INSPECTION IS MADE.
10. CHAIRS OR SPACERS FOR REINFORCING SHALL BE NON-FERROUS OR PLASTIC COATED WHEN RESTING ON EXPOSED SURFACES.

MASONRY NOTES:

1. MASONRY UNITS SHALL DEVELOP THE FOLLOWING MINIMUM 28 DAY PRISM COMPRESSIVE STRENGTHS IN ACCORDANCE WITH THE BUILDING CODE:

MINIMUM 28 DAY COMPRESSIVE STRENGTH			
LOCATION	fm	TYPE S MORTAR PER ASTM C270	GROUT PER CBC 2103A.3
ALL MASONRY U.N.O	2000 PSI	2000 PSI	2000 PSI

2. CONCRETE BLOCK SHALL CONFORM TO ASTM C90 MEDIUM WEIGHT. CLAY BRICK LOCK SHALL CONFORM TO ASTM C652
3. PRISM TEST SHALL BE PERFORMED FOR MASONRY WITH f'm OVER 2000 PSI FOR CBC 2105A.2
4. VERTICAL REINFORCING SHALL BE FULL HEIGHT OF WALL AND SHALL BE BRACED AT 6' - 8" MAXIMUM TO PREVENT MOVEMENT WHILE GROUTING.
5. HORIZONTAL REINFORCING SHALL BE IN BOND BEAM UNITS AND TIED SECURELY TO VERTICAL REINFORCING.
6. DOWELS, ANCHORS, AND OTHER EMBEDDED ITEMS SHALL BE TIED SECURELY IN PLACE TO PREVENT MOVEMENT WHILE GROUTING. WET SETTING OR STABBING IS NOT ALLOWED.
7. MAXIMUM GROUT LIFTS SHALL NOT EXCEED 8' - 0" AND CLEANOUTS AT THE BOTTOM OF ALL CELLS SHALL BE USED UNLESS THE LIFT IS 4' - 0" OR LESS. THE CLEANOUTS SHALL BE SEALED BEFORE GROUTING. GROUT FOR EACH POUR SHALL BE STOPPED 1 1/2" BELOW THE TOP OF A BLOCK COURSE EXCEPT AT THE FINAL COURSE. ALL GROUT SHALL BE THOROUGHLY CONSOLIDATED BY VIBRATING IMMEDIATELY AFTER PLACING. SHAKING OR RODDING REBAR IS NOT ALLOWED. FILL ALL CELLS WITH GROUT.
8. BLOCK SHALL BE PLACED IN RUNNING BOND AND SHALL BE 8"x8"x16" NOMINAL UNITS, UNO. WHERE BLOCK IS REQUIRED TO BE PLACED IN STACK BOND (SEE ARCH), OPEN-ENDED UNITS (I.E., "SPEED BLOCK") SHALL BE USED.
9. THE CONTRACTOR IS RESPONSIBLE FOR DETERMINING THE SAFETY OF LIFT HEIGHT FOR OPEN ENDED OR FIELD MODIFIED BLOCKS.
10. LAYOUT OF MASONRY BLOCK UNITS SHALL BE RUNNING BOND, U.N.O. BLOCK MODULES/MORTAR JOINTS SHOWN ON THESE DRAWINGS ARE FOR PRESENTATION PURPOSES ONLY, AND NOT INTENDED TO SUPERSEDE ARCHITECTURAL DESIGN REQUIREMENTS.
11. WALL REINFORCEMENT SEE PLANS & ELEVATIONS
12. PROVIDE VERTICAL CONTROL JOINTS IN CMU WALLS AS SHOWN ON PLAN. UNLESS NOTED OTHERWISE VERTICAL CONTROL JOINTS SHALL OCCUR AT 25' - 0" O.C. MAXIMUM ALONG WALL LENGTH, AT FOUNDATION STEPS, FLOOR OR ROOF JOINTS, WALL HEIGHT CHANGES, AND 24" MINIMUM PAST ONE SIDE OF OPENINGS > 6' - 0" WIDE, U.N.O. ON PLANS
13. WHEN THE AMBIENT TEMPERATURE FALLS BELOW 40°F, OR EXCEEDS 100°F, PROVSIONS OF TMS602 / ACI 530 / ASCE6. ARTICLE 1.8C OR ARTICLE 1.8D SHALL BE IMPLEMENTED.

STRUCTURAL CONCRETE NOTES:

1. CONCRETE SHALL BE MIXED, PLACED AND CURED IN ACCORDANCE WITH ACI 318, 2014 EDITION, AND PROJECT SPECIFICATIONS.
2. CONCRETE SHALL NOT BE DROPPED THROUGH REINFORCING STEEL (AS IN WALLS) SO AS TO CAUSE SEGREGATION OF AGGREGATES. IN SUCH CASES, HOPPERS AND VERTICAL CHUTES OR TRUNKS SHALL BE USED. CHUTES OR TRUNKS SHALL BE OF VARIABLE LENGTHS SO THAT FREE UNCONFINED FALL OF CONCRETE SHALL NOT EXCEED SIX FEET. A SUFFICIENT NUMBER OF CHUTES OR TRUNKS SHALL BE USED TO ENSURE THE CONCRETE IS KEPT LEVEL AT ALL TIMES.
3. CONSTRUCTION JOINTS SHALL BE CLEANED AND ROUGHENED BY REMOVING THE ENTIRE SURFACE TO EXPOSE CLEAN AGGREGATE SOLIDLY EMBEDDED IN THE MORTAR MATRIX. SLUSH WITH A COAT OF NEAT CEMENT BEFORE PLACING CONCRETE. SEE PLANS AND DETAILS FOR LOCATION AND TYPE OF CONSTRUCTION JOINT. LOCATIONS OF ADDITIONAL CONSTRUCTION JOINTS NOT SHOWN ON THESE PLANS SHALL BE SUBMITTED FOR APPROVAL BY THE EOR PRIOR TO PLACING ANY CONCRETE.
4. STRUCTURAL CONCRETE SHALL MEET THE FOLLOWING DESIGN CRITERIA:

LOCATION	MIN 28-DAY COMP STRENGTH	CONC TYPE[a]	MAX AGGR. SIZE	MAX W/C RATIO	MAX SLUMP[b]	CEMENT TYPE
FOUNDATIONS STEM WALLS, PILASTER	4000 PSI	NWC	1 1/2"	0.45	4"	II / V
SLAB ON GRADE	4000 PSI	NWC	1"	0.45	4"	II / V
FILL OVER METAL DECK	3000 PSI	LWC	3/4"	0.45	6"	II / V
ALL OTHER STRUCTURAL CONCRETE NO NOTED..	4000 PSI	NWC	1"	0.50	6"	II / V

   a. MAXIMUM DRY WEIGHT OF LIGHTWEIGHT CONCRETE SHALL BE 110 PCF .
   b. SLUMP MEASURED PRIOR TO SUPERPLASTICIZER, WHERE OCCURS.
5. CONCRETE MIX DESIGN AND TESTING SHALL MEET THE REQUIREMENTS OF THE BUILDING CODE, AND SPECIFICATIONS. ALL CONCRETE MIXES SHALL BE DESIGNED BY A RECOGNIZED TESTING LAB STAMPED AND SEALED BY A LICENSED CALIFORNIA CIVIL ENGINEER AND SUBMITTED TO THE SEOR FOR REVIEW PRIOR TO CONCRETE PLACEMENT. STRUCTURAL CONCRETE MIXES SHALL CONSIST OF 5 SACK MINIMUM U.N.O.
6. AGGREGATES IN NORMAL WEIGHT CONCRETE SHALL CONFORM TO ASTM C-33 (HANSONROCK). AGGREGATES IN LIGHT WEIGHT CONCRETE SHALL CONFORM TO ASTM C-330.
7. COMPRESSIVE STRENGTH TEST REPORTS SHALL BE SUBMITTED TO THE BUILDING DEPARTMENT AND THE SEOR.
8. PORTLAND CEMENT SHALL BE AS NOTED ABOVE FOR ALL CONCRETE CONFORMING TO ASTM C150, LOW ALKALI. MILL TESTS WITH CERTIFICATES OF COMPLIANCE SHALL BE SUBMITTED.
9. FLY ASH OR OTHER POZZOLANS CONFORMING TO ASTM C618 CLASS N OR F MAY BE USED AS A PARTIAL SUBSTITUTION FOR PORTLAND CEMENT UP TO A MAXIMUM OF 15% TOTAL CEMENTITIOUS MATERIALS BY WEIGHT IF THE MIX DESIGN IS PROPORTIONED PER ACI 318, SECTION 26.4.3.
10. CONCRETE MIXING OPERATIONS, ETC. SHALL CONFORM TO ASTM C94.
11. LEAN CONCRETE, WHERE SPECIFICALLY INDICATED, SHALL CONTAIN 2 SACKS OF CEMENT PER CUBIC YARD OF CONCRETE.
12. DRYPACK OR NONSHRINK GROUT SHALL HAVE A MINIMUM 28 DAY COMPRESSIVE STRENGTH OF 2 TIMES THE SUPPORTING CONCRETE STRENGTH, AND SHALL BE OF FIVE STAR GROUT, SIKA GROUT 212, OR APPROVED EQUAL WITH VALID CODE REPORT (LARR,ICC;ESR,IAPMO ER). FOR THICK GROUT LAYERS FOLLOW MANUFACTURER'S GUIDELINES TO ATTAIN THE REQUIRED STRENGTH, WHICH MAY INCLUDE THE ADDITION OF PEA GRAVEL.
13. DO NOT USE ANY CONCRETE OR GROUT CONTAINING CHLORIDES. WATER USED IN MIX SHALL BE CLEAN AND POTABLE.
14. FOR INTERIOR SLABS-ON-GRADE AND ALL OTHER SLABS RECEIVING ADHERED FLOORING FINISHES (I.E., GLUED, ETC.), THE MAXIMUM W/C RATIO SHALL NOT EXCEED 0.45. CURING COMPOUNDS USED ON CONCRETE THAT IS TO RECIEVE FINISHES SHALL BE COMPATIBLE WITH TILE AND ADHESIVES OR GROUTS IN ACCORDANCE WITH MANUFACTURER'S DATA AND BE APPROVED BEFORE USE.
15. MAINTAIN CONCRETE ABOVE 50 DEGREES FAHRENHEIT AND IN A MOIST CONDITION FOR A MINIMUM OF 7 DAYS AFTER PLACEMENT UNLESS OTHERWISE ACCEPTED BY SEOR.
16. SEE ARCHITECTURAL DRAWINGS FOR WALL OPENINGS, WALL OFFSETS, CHAMFERS, KERFS, DRIPS AND FOR EXTENT OF DEPRESSIONS, RAMPS, ETC. PROVIDE SLEEVES FOR ALL PIPES THROUGH CONCRETE WALLS AND FOOTINGS WHERE SHOWN ON THESE DRAWINGS. CORING IS NOT PERMITTED WITHOUT PRIOR APPROVAL BY THE SEOR.
17. SEE ARCHITECT'S PLANS FOR LOCATIONS OF SLAB SLOPES, DEPRESSIONS, CURBS, DRAINS, NON-STRUCTURAL PARTITIONS AND OTHER EMBEDDED ITEMS NOT SHOWN ON THE STRUCTURAL PLANS.
18. EXPOSED CORNERS OF SLABS, BEAMS, WALLS, COLUMNS, ETC. SHALL BE FORMED WITH 3/4" CHAMFER, U.N.O.
19. CONSTRUCTION JOINTS (CJ) AND SAWCUT (SC) JOINTS IN SLABS SHALL OCCUR WHERE LOCATED ON PLANS AND DETAILS. CJ'S SHALL HAVE FORMED POUR STOPS. CONSTRUCTION JOINTS IN WALLS AND FOOTINGS NEED NOT OCCUR AT THE SAME LOCATION, U.N.O.

STRUCTURAL STEEL NOTES:

1. DESIGN, FABRICATION AND ERECTION OF STRUCTURAL STEEL SHALL CONFORM TO THE SPECIFICATIONS AND STANDARD OF THE AMERICAN INSTITUTE OF STEEL CONSTRUCTION (AISC), AS CONTAINED IN THE 15TH EDITION OF "AISC MANUAL OF STEEL CONSTRUCTION".

2. ALL STRUCTURAL STEEL SHALL BE ERECTED PLUMB AND TRUE TO LINE. TEMPORARY BRACING SHALL BE INSTALLED AND SHALL BE LEFT IN PLACE UNTIL OTHER MEANS IS PROVIDED TO ADEQUATELY BRACE THE STRUCTURE.

3. PROVIDE THE FOLLOWING MATERIALS FOR STRUCTURAL STEEL U.N.O.:

STRUCTURAL STEEL GRADES:		
A.	ALL WIDE FLANGE SECTIONS	ASTM A992
B.	SQUARE OR RECTANGULAR HOLLOW STRUCTURAL SECTIONS (HSS)	ASTM A500, GRADE C (F_y= 50 KSI)
C.	ROUND HOLLOW STRUCTURAL SECTION (HSS)	ASTM A500,GRADE C (F_y= 46KSI)
C.	PIPES	ASTM A53 TYPE E OR S, GRADE B (F_y=35 KSI)
E.	PLATES, ANGLES, CHANNELS & TEES	ASTM A36
F.	ALL PLATES PART OF SLRS	ASTM A572, GRADE 50
G.	MACHINE BOLTS (MB)	ASTM A307
H.	HIGH STRENGTH BOLTS (HSB)	ASTM F3125 GRADE A325 GRADE A490
I.	WELDED HEADED STUDS	ASTM A29
J.	THREADED RODS FOR ANCHOR BOLTS	ASTM F1554, GRADE 36

4. 1/8" THICK PLATES AND THICKER SHALL BE GAS CUT OR SAW CUT EXCEPT AS OTHERWISE NOTED, ALL BOLTS SHALL BE HIGH STRENGTH BOLTS. EXCEPT OTHERWISE NOTED, ALL BOLT HOLES SHALL BE STANDARD HOLES.

5. ALL CONNECTIONS NOT SHOWN SHALL CONFORM TO THE "AISC MANUAL OF STEEL CONSTRUCTION" AND SHALL BE SUBMITTED ON SHOP DRAWINGS FOR REVIEW BY SEOR PRIOR TO FABRICATION.

6. ALL WELDED HEADED STUDS, THREADED STUDS, AND DEFORMED BARS SHALL BE NELSON, OR EQUIVALENT, AND WELDED (IN ACCORDANCE WITH MANUFACTURER'S RECOMMENDATIONS BY CERTIFIED WELDERS) SO AS TO FULLY DEVELOP THE TENSILE CAPACITY OF THE CONNECTOR.

7. BOLTS WITH UPSET THREADS ARE NOT ALLOWED. USE THE APPROPRIATE NUT AND WASHER TYPE FOR THE SPECIFIED BOLT.

8. ALL STEEL FABRICATION SHALL BE PERFORMED BY A AISC OR CITY OF LOS ANGELES CERIFIED FABRICATOR.

9. ALL STRUCTURAL STEEL AND MISCELLANEOUS STEEL PERMANENTLY EXPOSED TO THE ELEMENTS SHALL BE HOT DIP GALVANIZED AFTER FABRICATION UNLESS A WEATHER PROOF COATING IS SPECIFIED BY THE ARCHITECT U.N.O. STAINLESS AND WEATHERING STEELS ARE EXCEPTED WHERE SPECIFIED.

10. SEE ARCHITECTURAL DRAWINGS FOR NAILER HOLES. WELDED STUDS OR OTHER ITEMS NOT SHOWN IN THESE DRAWINGS. WHERE STEEL IS EMBEDDED IN CONCRETE OR MASONRY, PROVIDE HOLES AS REQUIRED FOR PASSAGE OF CONTINUOUS REINFORCING BARS WHERE INDICATED ON DRAWINGS. DO NOT CUT HOLES IN STRUCTURAL STEEL WITHOUT PRIOR APPROVAL OF SEOR.

11. ALL ARCHITECTURALLY EXPOSED STRUCTURAL STEEL (AESS) SHALL COMPLY WITH AISC CODE OF STANDARD PRACTICE, SECTION 10.

12. PLACE NON-SHRINK OR DRYPACK GROUT UNDER ALL BASE PLATES AND ALLOW TO CURE BEFORE APPLYING LOADS.

13. ALL OPEN HSS ENDS SHALL BE CAPPED. MIN 1/4" STEEL CAP. PROVIDE SQUARE WELD ALL AROUND, CAP PLATE TO HSS.

14. FOR STRUCTURAL STEEL, IN ADDITION TO THE REQUIREMENTS OF SPECIFICATION SECTION A3.1c, HOT ROLLED SHAPES WITH FLANGES 1 1/2" THICK AND THICKER SHALL HAVE MINIMUM CHARPY V-NOTCH TOUGHNESS OF 20 FT-LB AT 70°F. PLATES 2" THICK AND THICKER SHALL HAVE A MINIMUM CHARPY V-NOTCH TOUGHNESS OF 20FT-LB AT 70°F.

HIGH-STRENGTH BOLT NOTES:

1. SEE STRUCTURAL STEEL NOTES THIS SHEET FOR ADDITIONAL INFORMATION.

2. ALL HIGH-STRENGTH BOLTS SHALL CONFORM TO ASTM F-3125 Gr. A-325 OR Gr. A-490, NUTS SHALL CONFORM TO ASTM A-563 AND WASHERS SHALL CONFORM TO ASTM F-436.

3. HIGH STRENGTH BOLTS SHALL BE INSTALLED IN ACCORDANCE WITH THE CURRENT EDITION OF THE "AISC SPECIFICATION FOR STRUCTURAL JOINTS USING HIGH-STRENGTH BOLTS". SLIP CRITICAL BOLTS (SC) SHALL BE USED FOR ALL "SEISMIC LOAD RESISTING SYSTEM" (SLRS) MEMBER STEEL-TO-STEEL CONNECTIONS.

4. PAINT SHALL NOT BE PERMITTED ON CONTACT SURFACES UNLESS NOTED OTHERWISE. CONTACT SURFACES OF BOLTED PARTS SHALL BE DESCALED AND FREE OF DIRT, OIL, BURRS, PITS, AND OTHER DEFECTS WHICH PREVENT SOLID SEATING OF PARTS.

5. FAYING SURFACE SHALL BE "CLASS A" FOR SLIP CRITICAL BOLTS (SC).

6. SLIP-CRITICAL JOINT ASSEMBLIES SHALL BE FULLY PRE-TENSIONED BY TURN-OF-NUT TIGHTENING, CALIBRATED WRENCH TIGHTENING, INSTALLATION OF ALTERNATE DESIGN BOLTS OR BY DIRECT TENSION INDICATOR TIGHTENING.

WELDING NOTES:

1. WELDING PROCEDURES, ELECTRODES AND WELDER QUALIFICATIONS SHALL CONFORM TO THE "CODE FOR WELDING IN BUILDING CONSTRUCTION", AMERICAN WELDING SOCIETY (AWS), D1.1, D1.8 AND THE AISC "SPECIFICATIONS FOR THE DESIGN, FABRICATION AND ERECTION OF STRUCTURAL STEEL FOR BUILDINGS".

2. ALL WELDERS SHALL HAVE EVIDENCE OF PASSING THE AWS STANDARD QUALIFICATION TESTS, AND SHALL BE CERTIFIED FOR THE WORK THEY ARE PERFORMING.

3. PROJECT WELDING SHALL BE PERFORMED ONLY IN ACCORDANCE WITH WELDING PROCEDURE SPECIFICATIONS (WPS) SUBMITTED BY THE CONTRACTOR AND REVIEWED BY THE SEOR AND PROJECT WELDING INSPECTOR. THE WPS SHALL BE IN ACCORDANCE WITH AWS D1.1-D1.4 & D1.8 CURRENT EDITION.

4. ALL WELDS WITHIN MEMBERS DESIGNATED AS PART OF THE SEISMIC LOAD RESISTING SYSTEM (SLRS) SHALL CONFORM TO THE DETAILING, MATERIALS, WORKMANSHIP, TESTING, AND INSPECTION REQUIREMENTS PER AWS D1.8 AND MUST HAVE A MIN. CVN TOUGHNESS OF 20 FT-LB @ 0°F PER AISC 341 A3.4B.

5. WHERE WELDS ARE DESIGNATED AS DEMAND CRITICAL, THEY SHALL BE MADE WITH A FILLER METAL CAPABLE OF PROVIDING A MINIMUM CHARPY V-NOTCH (CVN) TOUGHNESS OF 20 FT-LB AT 0°F AND 40 FT-LB AT 70°F. SEE AISC 341-16 SECTION A3.4B FOR ADDITIONAL REQUIREMENTS.

6. WELDING OF STRUCTURAL STEEL SHALL BE PERFORMED PER AWS D1.1 & D1.8 USING E70XX ELECTRODES UNLESS OTHERWISED NOTED.

7. WELDING OF REINFORCING BARS SHALL BE PERFORMED PER AWS D1.4 USING E80XX ELECTRODES.

8. WELDING OF METAL DECK AND LIGHT GAGE STEEL SHALL BE IN ACCORDANCE WITH AWS D1.3.

9. ALL GROOVE OR BUTT WELDS SHALL BE COMPLETE PENETRATION WELDS. ALL EXPOSED BUTT WELDS SHALL BE GROUND SMOOTH.

10. ALL EXPOSED WELDS ON ARCHITECTURALLY EXPOSED STRUCTURAL STEEL (AESS) SHALL COMPLY WITH AISC CODE OF STANDARD PRACTICE, SECTION 10.

11. FIELD WELDS HAVE BEEN INDICATED WHERE THEY ARE EXPECTED TO OCCUR. THE CONTRACTOR SHALL DETERMINE THE ACTUAL FIELD WELDING NECESSARY TO COMPLETE THE PROJECT AND INCLUDE ALL ASSOCIATED COSTS WITHIN THE BASE BID.

12. ALL WELDS (SHOP AND FIELD) REQUIRE SPECIAL INSPECTION.

13. ALL FULL PENETRATION WELDS SHALL BE ULTRA-SONIC TESTED PER AWS D1.1 & AISC 341 J6.2.

MOMENT FRAME AND COMPLETE JOINT PENETRATION CONNECTION NOTES:

WELDING ELECTRODES
A. SMAW E8018*
B. FCAW E80 SERIES*

* WELD METAL SHALL BE CAPABLE OF DELIVERING A MINIMUM OF 20 FT-LBS AT -0°F AND 40FT-LBS @ 70°F AS MEASURED BY A CHARPY V-NOTCH IMPACT TEST PER AWS D1.1AND D1.8, APPENDIX III.

* BASE METAL FOR STRUCTURAL SHAPES IN SIZE GROUP 4 & 5 W/ t/f > 11/2" SHALL BE CAPABLE OF DELIVERING A MINIMUM OF 20 FT-LBS AT 70°. F AS MEASURED BY A CHARPY V-NOTCH IMPACT TEST PER A.I.S.C. MANUAL OF STEEL CONSTRUCTION, LATEST EDITION.

STRUCTURAL STEEL
1. ALL WELDING SHALL BE IN ACCORDANCE WITH THE AMERICAN WELDING SOCIETY (AWS) STRUCTURAL WELDING CODE FOR STEEL AWS D1.1-10 AND D1.8.

2. WELDING PROCEDURE SPECIFICATIONS (WPS) SHALL BE SUBMITTED TO THE ENGINEER FOR APPROVAL, PRIOR TO THE BEGINNING OF WELDING OPERATIONS. THE WPS SHALL INCLUDE THE WELDING PARAMETERS RECOMMENDED BY THE ELECTRODE MANUFACTURER. SEE AWS D1.1 APPENDIX E, FORM E-1. JOINT DETAILS TO SUIT EXISTING CONDITIONS. THE WELDING ELECTRODE MANUFACTURER'S SPECIFICATIONS SHALL BE ATTACHED TO THE WPS. ALL WELDERS AND INSPECTORS SHALL BE INFORMED OF THE WPS AND SHALL RETAIN A COPY.

3. SEE AWS FOR PREQUALIFIED SMAW WPS'S.

4. SEE AWS FOR PREQUALIFIED FCAW WPS'S.

5. WELDING TO BE DONE BY WELDERS CERTIFIED BY AWS.

6. ONLY SHIELDED METAL ARC WELDING (SMAW) WITH LOW HYDROGEN ELECTRODES OR FLUX CORE ARC WELDING (FCAW), EITHER GAS SHIELDED OF SELF SHIELDED, SHALL BE USED. FOR SMAW, THE TYPICAL REQUIREMENTS SHALL BE ACCORDING TO NOTE #3 ABOVE. WELDING PROCEDURES SHALL MEET THE REQUIREMENTS OF AWS D1.1 4.6.2, OR SHALL BE QUALIFIED BY TEST. FOR FCAW, THE TYPICAL REQUIREMENTS SHALL BE ACCORDING TO NOTE #4 ABOVE. THE WELDING PROCEDURE SHALL MEET THE REQUIREMENTS OF AWS D1.1 4.14.1.6.

7. INDIVIDUAL WELDS SHALL BE CARRIED CONTINUOUSLY TO COMPLETION BEFORE THE JOINT IS ALLOWED TO COOL BELOW THE MINIMUM SPECIFIED PREHEAT AND INTERPASS TEMPERATURE.

8. AT ALL COMPLETE PENETRATION WELDS, WELD BEADS SHALL BE PEENED AFTER EACH PASS, WITH THE EXCEPTION OF THE ROOT PASS AND THE SURFACES PASSES, AS FOLLOWS: TURN SLAG GUN 90 DEG. AND MAKE A MINIMUM OF 4 PASSES WITH DULL CHISEL.

9. PREHEATING IS REQUIRED ON ALL TACK WELDS NOT INCORPORATED INTO FINAL WELDS. SEE AWS D1.1, SECTION 3.3.7.

10. FOR BEAM FLANGE REINFORCEMENT PLATES, THE ROLLING DIRECTION OF GRAIN SHALL BE INDICATED ON THE PLATE AND INSTALLED SO THAT THE GRAIN DIRECTION IS PARALLEL TO THE LONGITUDINAL AXIS OF THE MEMBER.

11. FULL TIME VISUAL INSPECTION BY AN AWS QC-1 QUALIFIED INSPECTOR IS REQUIRED FOR ALL WELDING.

12. 100% ULTRASONIC WELD TESTING BY THE INSPECTOR IS REQUIRED FOR ALL COMPLETE PENETRATION WELDS.

13. AMPEREAGE, VOLTAGE, POLARITY AND ELECTRODE STICK OUT SHALL BE VERIFIED TO BE IN COMPLIANCE WITH THE ELECTRODE MANUFACTURER'S RECOMMENDATIONS.

14. REMOVE B.U. BARS AND WELD TABS AT ALL FLANGE COMPLETE JOINT PENETRATION (CJP) WELDS AT DUCTILE MOMENT FRAME CONNECTIONS. TYPICAL UNLESS NOTED OTHERWISE.

COLD-FORMED STEEL FRAMING NOTES:

1. DESIGN, FABRICATION AND ERECTION OF COLD-FORMED STEEL FRAMING SHALL CONFORM TO THE SPECIFICATIONS AND STANDARD OF THE AMERICAN IRON AND STEEL INSTITUTE (AISI), AS CONTAINED IN THE "SPECIFICATION FOR THE DESIGN OF COLD-FORMED STEEL STRUCTURAL MEMBERS", LATEST EDITION, INCLUDING ALL APPLICABLE AMENDMENTS.

2. ALL COLD-FORMED STEEL FRAMING SHALL BE ERECTED PLUMB AND TRUE TO LINE. TEMPORARY BRACING SHALL BE INSTALLED AND LEFT IN PLACE UNTIL OTHER MEANS IS PROVIDED TO ADEQUATELY BRACE THE STRUCTURE.

3. COLD-FORMED STEEL GRADES:
A. 18 GA (43 MILS) OR THINNER .....ASTM A1003 GRADE 33 (FY = 33 KSI)
B. 16 GA (54 MILS) AND THICKER .....ASTM A1003 GRADE 50 (FY = 50 KSI)

4. ALL COLD-FORMED STEEL FRAMING SHALL BE BRACED AS REQUIRED BY SECTION D3 OF THE AISI SPECIFICATION.

5. SUBMIT COLD-FORMED STEEL FRAMING SHOP DRAWINGS AND SPECIFICATIONS TO THE SEOR FOR REVIEW PRIOR TO FABRICATION.

6. COLD-FORMED STEEL STUDS AND TRACKS ARE TO BE ATTACHED WITH SHEET METAL SCREWS (SMS) WITH SIZES CALLED OUT ON THE DETAILS. PENETRATION OF SCREWS THROUGH JOINED MATERIAL SHOULD NOT BE LESS THAN 3 EXPOSED THREADS. SCREWS ARE TO BE INSTALLED AND TIGHTENED IN ACCORDANCE WITH SCREW MANUFACTURER'S RECOMMENDATIONS.

7. ALL HOLES FOR BOLTS SHOULD BE SHALL BE STANDARD HOLES.

8. GALVANIZED COATING SHALL COMPLY WITH ASTM A924.

9. COLD-FORMED STEEL FRAMING SHALL BE PER STEEL STUD MANUFACTURER'S ASSOCIATION (SSMA), ICC ER-3064P.

METAL DECK NOTES (FILLED & UNFILLED):

1. MATERIAL FOR METAL DECK SHALL HAVE A MIN YIELD STRENGTH OF 50 KSI AND CONFORM TO ASTM A653-SS GRADE 33 WITH GALVANIZED G60 COATING COMPLYING WITH ASTM A525.

2. SEE TYPICAL DETAILS FOR REINFORCING OF DECK AROUND OPENINGS. CONTRACTOR SHALL COORDINATE SIZE AND LOCATIONS OF OPENINGS WITH THE VARIOUS TRADES. NO LOADS SHALL BE HUNG FROM DECK WITHOUT APPROVAL OF SEOR.

3. FLOOR AND ROOF DECK IS DESIGNED FOR UNSHORED CONSTRUCTION, UNO. MAINTAIN 3 SPAN CONDITION WHEREVER POSSIBLE (2 SPAN MIN) EXCEPT AT STAIR LANDING AND WHERE NOTED OTHERWISE ON PLANS.

4. PROVIDE 2" MINIMUM BEARING AT ALL SUPPORTS. END LAPS OF METAL DECK SHALL BE A MINIMUM OF 2" AND SHALL OCCUR ONLY OVER SUPPORTS. DECK SHALL BE LAID OUT SO THAT A LOW FLUTE FALLS ON EACH PARALLEL SUPPORT.

5. INSTALL DECK BY WELDING. USE 3/4" DIAMETER PUDDLE WELDS OR WELDED STUDS TO SUPPORTS SPACED AS SHOWN ON CONSTRUCTION DRAWINGS. SPACING FOR TOP SEAM, SIDE SEAM, BUTTON PUNCH, OR PUNCHLOK CONNECTION SHALL BE IN ACCORDANCE WITH DRAWINGS. SEE TYPICAL METAL DECK DETAILS.

6. SUBMIT SHOP DRAWINGS FOR METAL DECK TO THE SEOR FOR REVIEW PRIOR TO FABRICATION. SHOP DRAWINGS SHALL SHOW TYPE OF DECK, LAYOUT OF DECK, THE SIZE AND LOCATION OF ANY OPENINGS OF WIDTH GREATER THAN 1'-0", AND ATTACHMENT METHOD.

7. ALTERNATES TO TYPE OF DECK AND FASTENING MAY BE USED WITH THE APPROVAL OF THE SEOR. DECK PROPERTIES SHALL BE EQUAL TO OR GREATER THAN THOSE SHOWN ON THE PLANS. ANY DECK OR METHOD OF FASTENING SHALL HAVE LATEST EVALUATION REPORT PER CURRENT CODE APPROVING THE DECK FOR THE APPLICATION.

8. METAL DECK WITH CONCRETE FILL SHALL HAVE POSITIVE VENTING. DO NOT EMBED PIPES, SLEEVES, CONDUIT, ETC IN CONCRETE TOPPING UNO.

9. CONCRETE FILL OVER METAL DECK SHALL NOT BE OVER-POURED TO ACHIEVE LEVEL FLOOR.

ROUGH CARPENTRY/ WOOD NOTES:

1. ALL GRADES SPECIFIED ARE MINIMUM GRADES REQUIRED.

2. DOUGLAS FIR (DF) SHALL BE GRADED BY THE WESTERN WOOD PRODUCTS ASSOCIATION GRADING RULES, AND ASTM D245.

3. REDWOOD SHALL BE GRADED BY THE CALIFORNIA REDWOOD ASSOCIATION, REDWOOD INSPECTION SERVICE.

4. SILL PLATES SHALL BE PRESSURE-TREATED (PT) DOUGLAS FIR #1. REDWOOD IS PERMITTED WITH SEOR APPROVAL.

5. TOP PLATES, SILL PLATES, STUDS SHALL BE.....DF #1
JOISTS, RAFTERS, PURLINS, BEAMS & POSTS SHALL BE .....DF #1 (U.N.O.)
LOAD BEARING STUDS SHALL BE.....DF #1

6. MOISTURE CONTENT OF SAWN LUMBER SHALL NOT EXCEED 18% WHEN FRAMING STARTS OR SHEATHING IS APPLIED. ANY NONCOMPLIANT WORK SHALL BE REJECTED AND REFRAMED WITH ACCEPTABLE LUMBER.

7. TIMBERS 4" NOMINAL IN THE LEAST DIMENSION SHALL NOT CONTAIN BOXED HEART.

8. SILL PLATES SHALL BE PRESSURE-TREATED AND SHALL BE BOLTED TO CONCRETE WITH 5/8" DIAMETER ANCHOR BOLTS AT 48" O.C. MAX, U.N.O. WITH A BOLT BETWEEN 4" TO 12" FROM THE END OF EACH PIECE OF SILL (2 BOLTS MIN EACH PIECE). PIECE OF SILL SHALL BE CONSIDERED ENDED WHERE PLATE IS CUT OUT OVER ONE-THIRD OF CROSS-SECTION.

9. ANCHOR BOLTS FOR STRUCTURAL WALLS SHALL HAVE 12" EMBEDMENT (U.N.O.)
MEASURED FROM TOP OF SLAB.

10. STUD BEARING WALLS AND PARTITIONS SHALL HAVE DOUBLE TOP PLATES LAPPED AT WALL AND PARTITION INTERSECTIONS. JOINTS IN UPPER AND LOWER MEMBERS OF DOUBLE TOP PLATES SHALL BE STAGGERED AT LEAST 4' - 0".

11. HOLES IN WOOD AND STEEL MEMBERS FOR BOLTS SHALL BE THE NOMINAL BOLT DIAMETER PLUS 1/16".

12. ALL BOLTS IN WOOD SHALL BE ASTM A307 STANDARD BOLTS, U.N.O. BOLTS AND SCREWS SHALL BE TIGHTENED AT TIME OF ERECTION AND RETIGHTENED BEFORE CLOSING IN OR AT THE COMPLETION OF THE JOB.

13. HOLES IN WOOD FOR LAG SCREW SHANK SHALL BE BORED TO THE SAME DIAMETER AND DEPTH AS THE SHANK, AND FOR THE THREADED PORTION BORED WITH A BIT NOT LARGER THAN 40% TO 70% OF THE SHANK DIAMETER.

14. LAG SCREWS AND SCREWS SHALL BE SCREWED AND NOT DRIVEN INTO PLACE. BOLT HOLES SHALL BE A MINIMUM OF 1/32" TO A MAXIMUM 1/16" LARGER THAN THE BOLT DIAMETER. HOLES SHALL BE ACCURATELY ALIGNED IN MAIN MEMBERS AND SIDE PLATES. BOLTS SHALL NOT BE FORCIBLY DRIVEN.

15. METAL FRAMING CONNECTORS SHALL BE MANUFACTURED BY SIMPSON STRONG TIE COMPANY (CURRENT CATALOG), OR "USP" WITH EQUIVALENT ICC PUBLISHED VALUES AND SHALL BE INSTALLED PER SPECIFICATIONS, NO EXCEPTIONS.

16. INSTALL WINDOWS AND DOORS IN STUD WALLS AFTER DEAD LOADS ARE APPLIED, AND PROVIDE A 1/2" SHIM SPACE AT THE HEAD CONDITION.

17. STEEL WASHERS SHALL BE PROVIDED UNDER HEADS AND NUTS OF ALL BOLTS AND LAG SCREWS WHICH BEAR ON WOOD. STANDARD CUT WASHERS MAY BE USED IN ALL CASES EXCEPT SILL PLATES AND WOOD LEDGERS AGAINST CONCRETE OR MASONRY. NOTE, WASHERS UNDER CARRIAGE BOLT HEADS SHALL BE LARGE ENOUGH TO ALLOW FOR SQUARE SHOULDERS.

18. ONLY LOAD BEARING AND/OR SHEAR WALLS ARE SHOWN
SEE ARCHITECTURAL DRAWINGS FOR ALL OTHER PARTITIONS.

19. ELEVATIONS SHOWN ON PLANS ARE FROM FINISHED FIRST FLOOR, DATUM ELEVATION = 0' - 0".

20. ALL EXTERIOR WALLS AND INTERIOR BEARING WALLS ARE 2x6 STUDS @ 16" O.C. TYPICAL, U.N.O.

21. ALL EXTERIOR STUD WALLS SHALL BE COMPLETELY SHEATHED WITH 15/32" APA RATED SHEATHING, EXPOSURE-1 (32/16).

22. INTERIOR STRUCTURAL SHEATHED WALLS ARE SHOWN ON PLANS AND SHALL HAVE 15/32" APA RATED SHEATHING EXPOSURE-1, (32/16),TYPICAL U.N.O.

23. ALL STRUCTURAL WALL SHEATHING IS SPLICED ON 2" NOMINAL BLOCKING AT HORIZONTAL JOINTS, U.N.O.

24. STRUCTURAL FLOOR AND ROOF SHEATHING SHALL BE AS ON PLAN AND SHALL BE APA RATED SHEATHING (32/16).
NOTE: 1/8" GAP SHALL BE PROVIDED BETWEEN ADJACENT PANELS. PANELS WITH GRADE STAMP INDICATION "SIZED FOR SPACING" MAY BE USED TO FACILITATE THIS REQUIREMENT. SEE PLANS FOR REQUIRED BOUNDARY AND EDGE NAILING NOT LISTED BELOW. FLOOR SHEATHING SHALL BE GLUED AND NAILED PER PLAN.

(* - SHEATHING @ EXTERIOR DECKS SHALL BE EXTERIOR RATED PLYWOOD.)

BN = BOUNDARY NAILING
EN = EDGE NAILING
FN = FIELD NAILING

25. SEE PLANS FOR LOCATION OF NOMINAL 2X FLAT BLOCKING AT ROOF SHEATHING PANEL JOINTS. SEE THIS SHEET FOR PLY CLIP REQUIREMENTS AT UNBLOCKED ROOF PANEL JOINTS. T&G SHEATHING IS NOT REQUIRED WHERE JOINTS ARE BLOCKED.

26. (S) INDICATES METAL FRAMING CONNECTORS MANUFACTURED BY SIMPSON STRONG TIE COMPANY (CURRENT CATALOG) OR "USP" WITH EQUIVALENT ICC PUBLISHED VALUES AND SHALL BE INSTALLED PER SPECIFICATIONS, NO EXCEPTIONS.

27. FASTENERS, INCLUDING NAILS, NUTS AND WASHERS, IN CONTACT WITH PRESERVATIVE - TREATED WOOD SHALL BE OF HOT-DIPPED ZINC COATED GALVANIZED STEEL OR STAINLESS STEEL.

GLUED-LAMINATED FRAMING NOTES:

1. SIMPLE SPANS..... DF COMB. 24F-V4
CONTINUOUS OR CANTILEVER..... DF COMB. 24F-V8

2. STRUCTURAL GLUED-LAMINATED (GLULAM) TIMBER OF SOFTWOOD SPECIES SHALL BE IN CONFORMANCE WITH ANSI/AITC STANDARD A190.1 AND ASTM D3737, OR OTHER CODE APPROVED DESIGN, MANUFACTURING AND/OR QUALITY ASSURANCE PROCEDURES. MEMBERS SHALL BE MARKED WITH THE ENGINEERED WOOD SYSTEM APA EWS TRADEMARK INDICATING CONFORMANCE WITH THE MANUFACTURING, QUALITY ASSURANCE, AND MARKING PROVISIONS OF ANSI/AITC STANDARD A190.1. THE MANUFACTURER OR SELLER SHALL SUBMIT CERTIFICATES OF CONFORMANCE.

3. GLULAM TIMBERS SHALL BE MANUFACTURED TO MEET THE FOLLOWING REQUIREMENTS.

- NDS 24F-V4 REQUIREMENTS: Fb=1850 PSI TOP AND 2400 PSI BOTTOM; Fv=265 PSI ; E=1,800,000 PSI WITH 1600 FT RADIUS CAMBER UNLESS OTHERWISE NOTED ON THE DRAWINGS.
- NDS 24F-V8 REQUIREMENTS: Fb=2400 PSI TOP AND BOTTOM: Fv=265 PSI; E=1,800,000 PSI WITH 1600 FT RADIUS CAMBER UNLESS OTHERWISE NOTED ON THE DRAWINGS.
- NO CAMBER AT CANTILEVER PORTION UNO ON PLANS.

4. OTHER GLULAM TIMBER COMBINATIONS AS SPECIFIED IN APA'S CODE REPORT NER-486.

STATEMENT OF SPECIAL INSPECTIONS:

1. THE OWNER SHALL EMPLOY ONE OR MORE SPECIAL INSPECTORS TO PROVIDE INSPECTIONS DURING CONSTRUCTION. THE SPECIAL INSPECTOR SHALL BE A QUALIFIED PERSON WHO SHALL DEMONSTRATE COMPETENCE, TO THE SATISFACTION OF THE BUILDING OFFICIAL, FOR INSPECTION OF THE PARTICULAR TYPE OF CONSTRUCTION OR OPERATION REQUIRING SPECIAL INSPECTION.
2. SPECIAL INSPECTIONS ARE NOT REQUIRED WHERE THE WORK IS DONE ON THE PREMISES OF A FABRICATOR REGISTERED AND APPROVED TO PERFORM SUCH WORK WITHOUT SPECIAL INSPECTION. APPROVED FABRICATORS MUST SUBMIT A CERTIFICATE OF COMPLIANCE FOR OFFSITE FABRICATIONS SUCH AS STRUCTURAL STEEL, PRECAST CONCRETE, GLUED LAMINATED TIMBER, ETC.
3. ALL INSPECTIONS SHALL BE PERFORMED BY INDEPENDENT SPECIAL INSPECTORS. JOB SITE VISITS BY THE STRUCTURAL ENGINEER OR BUILDING OFFICIAL DO NOT CONSTITUTE AND ARE NOT A SUBSTITUTE FOR INSPECTIONS BY A SPECIAL INSPECTOR.
4. ALL INSPECTION REPORTS SHALL BE SUBMITTED TO BUILDING OFFICIAL AND SEOR. THE FINAL REPORTS BY THE SPECIAL INSPECTOR(S) MUST CERTIFY THAT THE ENTIRE STRUCTURAL SYSTEM COMPLIES WITH THE APPROVED PLANS AND SPECIFICATIONS.
5. IT IS SOLELY THE CONTRACTOR'S RESPONSIBILITY TO SEE THAT THESE INSPECTIONS ARE PERFORMED.
6. WORK REQUIRING SPECIAL INSPECTION SHALL BE INSPECTED BY THE SPECIAL INSPECTOR WHO IS PRESENT IN THE AREA WHERE THE WORK IS PERFORMED AND AT THE COMPLETION OF WORK. CONTINUOUS INSPECTION CONSISTS OF FULL-TIME INSPECTION; PERIODIC INSPECTION CONSISTS OF PART-TIME OR INTERMITTENT INSPECTION.
7. THE FOLLOWING SPECIAL INSPECTIONS ARE IN ADDITION TO INSPECTIONS BY THE BUILDING OFFICIAL. THIS LIST IS NOT INTENDED TO BE ALL INCLUSIVE.

TABLE 1705.3

REQUIRED VERIFICATION AND INSPECTION OF CONCRETE CONSTRUCTION

VERIFICATION AND INSPECTION	CONTINUOUS	PERIODIC	REFERENCED STANDARD[a]	CBC REFERENCE
1. INSPECTION OF REINFORCING STEEL, INCLUDING PRESTRESSING TENDONS, AND PLACEMENT	-	X	ACI 318: 3.5, 7.1-7.7	-
2. INSPECTION OF REINFORCING STEEL WELDING IN ACCORDANCE WITH TABLE 1705A.2.1, ITEM 5B.	-	-	AWS D1.4; ACI 318: 3.5.2	-
3. INSPECTION OF ANCHORS TO BE INSTALLED IN CONCRETE PRIOR TO AND DURING PLACEMENT OF CONCRETE WHERE ALLOWABLE LOADS HAVE BEEN INCREASED OR WHERE STRENGTH DESIGN IS USED.	X	-	ACI 318: 8.1.3, 21.2.8	1908.5, 1909.1
4. INSPECTION OF ANCHORS POST-INSTALLED IN HARDENED CONCRETE.[b]	-	X	ACI 318: 3.8.6, 8.1.3, 21.2.8	1909.1
5. VERIFYING USE OF REQUIRED DESIGN MIX.	-	X	ACI 318: CH 4, 5.2-5.4	1904.2, 1910.2, 1910.3
6. AT THE TIME FRESH CONCRETE IS SAMPLED TO FABRICATE SPECIMENS FOR STRENGTH TESTS, PERFORM SLUMP AND AIR CONTENT TESTS, AND DETERMINE THE TEMPERATURE OF THE CONCRETE	X	-	ASTM C172 ASTM C31; ACI 318: 5.6, 5.8	1910.10
7. INSPECTION OF CONCRETE AND SHOTCRETE PLACEMENT FOR PROPER APPLICATION TECHNIQUES.	X	-	ACI 318; 5.9, 5.10	1910.6, 1910.7, 1910.8
8. INSPECTION FOR MAINTENANCE OF SPECIFIED CURING TEMPERATURE AND TECHNIQUES	-	X	ACI 318: 5.11-5.13	1910.9
9. INSPECTION OF PRESTRESSED CONCRETE:				
A. APPLICATION OF PRESTRESSING FORCES.	X	-	ACI 318: 18.20	-
B. GROUTING OF BONDED PRESTRESSING TENDONS IN THE SEISMIC-FORECE-RESISTING SYSTEM	X	-	ACI 318: 18.18.4	-
10. ERECTION OF PRECAST CONCRETE MEMBERS.	-	X	ACI 318: CH 16	-
11. VERIFICATION OF IN-SITU CONCRETE STRENGTH, PRIOR TO STRESSING OF TENDONS IN POSTTENSIONED CONCRETE AND PRIOR TO REMOVAL OF SHORES AND FORMS FROM BEAMS AND STRUCTURAL SLABS.	-	X	ACI 318: 6.2	-
12. INSPECT FORMWORK FOR SHAPE, LOCATION AND DIMENSIONS OF THE CONCRETE MEMBER BEING FORMED.[c]	-	X	ACI 318: 6.1.1	-

FOR SI: 1 INCH = 25.4 MM

a. WHERE APPLICABLE, SEE ALSO SECTION 1705A.11, SPECIAL INSPECTIONS FOR SEISMIC RESISTANCE.
b. SPECIFIC REQUIREMENTS FOR SPECIAL INSPECTIONS SHALL BE INCLUDED IN THE RESEARCH REPORT FOR THE ANCHOR ISSUED BY AN APPROVED SOURCE IN ACCORDANCE WITH ACI 355.2 OR SHALL BE APPROVED BY THE BUILDING OFFICIAL PRIOR TO COMMENCEMENT OF THE WORK.
c. INSTALLATION OFF ALL ADHESIVE ANCHORS IN THE HORIZONTAL AND UPWARDS INCLINED POSITIONS SHALL BE PERFORMED BY AN ACI/CRSI CERTIFIED ANCHOR INSTALLER

TABLE 1705.6

REQUIRED VERIFICATION AND INSPECTION OF SOILS

VERIFICATION AND INSPECTION TASK	CONTINUOUS DURING TASK LISTED	PERIODICALLY DURING TASK LISTED
1. VERIFY MATERIALS BELOW SHALLOW FOUNDATIONS ARE ADEQUATE TO ACHIEVE THE DESIGN BEARING CAPACITY	-	X
2. VERIFY EXCAVATIONS ARE EXTENDED TO PROPER DEPTH AND HAVE REACHED PROPER MATERIAL.	-	X
3. PERFORM CLASSIFICATION AND TESTING OF COMPACTED FILL MATERIALS.	-	X
4. VERIFY USE OF PROPER MATERIALS, DENSITIES AND LIFT THICKNESSES DURING PLACEMENT AND COMPACTION OF COMPACTED FILL.	X	-
5. PRIOR TO PLACEMENT OF COMPACTED FILL, OBSERVE SUBGRADE AND VERIFY THAT SITE HAS BEE N PREPARED PROPERLY.	-	X

TABLE 1705.2.1

REQUIRED VERIFICATION AND INSPECTION OF STEEL CONSTRUCTION

VERIFICATION AND INSPECTION	CONTINUOUS	PERIODIC	REFERENCED STANDARD	CBC REFERENCE
1. MATERIAL VERIFICATION OF HIGH-STRENGTH BOLTS, NUTS AND WASHERS:				
A. IDENTIFICATION MARKINGS TO CONFORM TO ASTM STANDARDS SPECIFIED IN THE APPROVED CONSTRUCTION DOCUMENTS.	-	X	AISC 360, SECTION A3.3 AND APPLICABLE ASTM MATERIAL STANDARDS	-
B. MANUFACTURER'S CERTIFICATE OF COMPLIANCE REQUIRED.	-	X	-	-
2. INSPECTION OF HIGH-STRENGTH BOLTING:				
A. SNUG-TIGHT JOINTS.	-	X	AISC 360, SECTION M2.5	-
B. PRETENSIONED AND SLIP-CRITICAL JOINTS USING TURN-OF-NUT WITH MATCH MARKING, TWIST-OFF BOLT OR DIRECT TENSION INDICATOR METHODS OF INSTALLATION.	-	X		
C. PRETENSIONED AND SLIP-CRITICAL JOINTS USING TURN-OF-NUT WITHOUT MATCH MARKING OR CALIBRATED WRENCH METHODS OF INSTALLATION.	X	-		
3. MATERIAL VERIFICATION OF STRUCTURAL STEEL AND COLD-FORMED STEEL DECK:				
A. FOR STRUCTURAL STEEL, IDENTIFICATION MARKINGS TO CONFORM TO AISC 360.	-	X	AISC 360, SECTION A3.1	2203.1
B. FOR OTHER STEEL. IDENTIFICATION MARKINGS TO CONFORM TO ASTM STANDARDS SPECIFIED IN THE APPROVED CONSTRUCTION DOCUMENTS.	-	X	APPLICABLE ASTM MATERIAL STANDARDS	-
C. MANUFACTURER'S CERTIFIED TEST REPORTS.	-	X	-	-
4. MATERIAL VERIFICATION OF WELD FILLER MATERIALS:				
A. IDENTIFICATION MARKINGS TO CONFORM TO AWS SPECIFICATION IN THE APPROVED CONSTRUCTION DOCUMENTS.	-	X	-	-
B. MANUFACTURER'S CERTIFICATE OF COMPLIANCE REQUIRED.	-	X	-	-
5. INSPECTION OF WELDING:				
A. STRUCTURAL STEEL AND COLD-FORMED STEEL DECK:				
1) COMPLETE AND PARTIAL JOINT PENETRATION GROOVE WELDS.	X	-	AWS D1.1	1705.2.2
2) MULTIPASS FILLET WELDS.	X	-		
3) SINGLE-PASS FILLET WELDS > 5/16"	X	-		
4) PLUG AND SLOT WELDS.	X	-		
5) SINGLE-PASS FILLET WELDS < 5/16"	-	X		
6) FLOOR AND ROOF DECK WELDS.	-	X	AWS D1.3	-
B. REINFORCING STEEL.				
1) VERIFICATION OF WELDABILITY OF REINFORCING STEEL OTHER THAN ASTM A 706.	-	X	AWS D1.4 ACI318: SECTION 3.5.2	-
2) REINFORCING STEEL RESISTING FLEXURAL AND AXIAL FORCES IN INTERMEDIATE AND SPECIAL MOMENT FRAMES, AND BOUNDARY ELEMENTS OF SPECIAL STRUCTURAL WALLS OF CONCRETE AND SHEAR REINFORCEMENT.	X	-		
3) SHEAR REINFORCEMENT.	X	-		
4) OTHER REINFORCING STEEL.	-	X		
6. INSPECTION OF STEEL FRAME JOINT DETAILS FOR COMPLIANCE.				
A. DETAILS SUCH AS BRACING AND STIFFENING.	-	X	-	1705.2.2
B. MEMBER LOCATIONS.	-	X		
C. APPLICATION OF JOINT DETAILS AT EACH CONNECTION.	-	X		

TMS 602-16 TABLE 4

LEVEL 2 REQUIRED VERIFICATION AND INSPECTION OF MASONRY CONSTRUCTION

VERIFICATION AND INSPECTION	FREQUENCY OF INSPECTION			
	CONTINUOUS	PERIODIC	TMS 402/ ACI 530/ ASCE 5	TMS 602/ACI 530.1/ASCE 6
1. AS MASONRY CONSTRUCTION BEGINS,VERIFY THAT THE FOLLOWING ARE IN COMPLIANCE:				
A. PROPORTIONS OF SITE-PREPARED MORTAR	-	X	-	ART. 2.1, 2.6 A, & 2.6 C
B. GRADE AND SIZE OF PRESTRESSING TENDONS AND ANCHORAGES	-	X	-	ART. 2.4 B & 2.4 H
C. GRADE, TYPE AND SIZE OF REINFORCEMENT, CONNECTORS, ANCHOR BOLTS, AND PRESTRESSING TENDONS AND ANCHORAGES	-	X	-	ART. 3.4 & 3.6 A
D. PRESTRESSING TECHNIQUE	-	X		ART. 3.6 B
E. PROPERTIES OF THIN-BED MORTAR FOR AAC MASONRY	X[b]	X[c]	-	ART. 2.1 C.1
F. SAMPLE PANEL CONSTRUCTION	-	X	-	ART. 1.6 D
2. PRIOR TO GROUTING, VERIFY THAT THE FOLLOWING ARE IN COMPLIANCE:				
A. GROUT SPACE	-	X	-	ART. 3.2 D & 3.2 F
B. PLACEMENT OF PRESTRESSING TENDONS AND ANCHORAGES	-	X	SEC. 10.8 & 10.9	ART. 2.4 & 3.6
C. PLACEMENT OF REINFORCEMENT, CONNECTORS, AND ANCHOR BOLTS	-	X	SEC 6.1, 6.3.1, 6.3.6, & 6.3.7	ART. 3.2 E & 3.4
D. PROPORTIONS OF SITE-PREPARED GROUT AND PRESTRESSING GROUT FOR BONDED TENDONS	-	X	-	ART. 2.6 B & 2.4 G.1.b
3. VERIFY COMPLIANCE OF THE FOLLOWING DURING CONSTRUCTION:				
A. MATERIALS AND PROCEDURES WITH THE APPROVED SUBMITTALS	-	X	-	ART. 1.5
B. PLACEMENT OF MASONRY UNITS AND MORTAR JOINT CONSTRUCTION	-	X	-	ART. 3.3 B
C. SIZE AND LOCATION OF STRUCTURE MEMBERS	-	X	-	ART. 3.3 F
D. TYPE,SIZE AND LOCATION OF ANCHORS, INCLUDING OTHER DETAILS OF ANCHORAGE OF MASONRY TO STRUCTURAL MEMBERS, FRAMES, OR OTHER CONSTRUCTION	-	X	SEC. 1.2.1(e), 6.2.1, & 6.3.1	-
E. WELDING OF REINFORCEMENT	X	-	SEC.6.1.6.1.2	-
F. PREPARATION, CONSTRUCTION, AND PROTECTION OF MASONRY DURING COLD WEATHER (TEMPERATURE BELOW 40°F(4.4°C))OR HOT WEATHER (TEMPERATURE ABOVE90°F(32.2°C))		X	-	ART. 1.8 C & 1.8 D
G. APPLICATION AND MEASUREMENT OF PRESTRESSING FORCE	X		-	ART. 3.6 B
H. PLACEMENT OF GROUT AND PRESTRESSING GROUT FOR BONDED TENDONS IS IN COMPLIANCE	X		-	ART. 3.5 & 3.6 C
I. PLACEMENT OF AAC MASONRY UNITS AND CONSTRUCTION OF THIN-BED MORTAR JOINTS	X[b]	X[c]	-	ART. 3.3 B.9 & 3.3 F.1.b
4. OBSERVE PREPARATION OF GROUT SPECIMENS, MORTAR SPECIMENS, AND/OR PRISMS	-	X	-	ART. 1.4 B.2.a.3, 1.4 B.2.b.3, 1.4 B.2.c.3, 1.4 B.3, & 1.4 B.4

(a) FREQUENCY REFERS TO THE FREQUENCY OF INSPECTION, WHICH MAY BE CONTINUOUS DURING THE LISTED TASK OR PERIODICALLY DURING THE LISTED TASK, AS DEFINED IN THE TABLE.
(b) REQUIRED FOR THE FIRST 5000 SQUARE FEET (465 SQUARE METERS) OF AAC MASONRY
(c) REQUIRED AFTER THE FIRST 5000 SQUARE FEET (465 SQUARE METERS) OF AAC MASONRY

WOOD LATERAL LOAD RESISTING SYSTEM SPECIAL INSPECTION:

1705.11.2 STRUCTURAL WOOD.
CONTINUOUS SPECIAL INSPECTION IS REQUIRED DURING FIELD GLUING OPERATION OF ELEMENTS OF THE SEISMIC FORCE-RESISTING SYSTEM. PERIODIC SPECIAL INSPECTION IS REQUIRED FOR NAILING, BOLTING, ANCHORING AND OTHER FASTENING OF COMPONENTS WITHIN THE SEISMIC FORCE-RESISTING SYSTEM, INCLUDING WOOD SHEAR WALLS, WOOD DIAPHRAGMS, DRAG STRUTS, BRACES, SHEAR PANELS AND HOLD0DOWNS.

EXCEPTION:
SPECIAL INSPECTION IS NOT REQUIRED FOR WOOD SHEAR WALLS, SHEAR PANELS AND DIAPHRAGMS, INCLUDING NAILING, BOLTING, ANCHORING AND OTHER FASTENING TO OTHER COMPONENTS OF THE SEISMIC FORCE0RESISTING SYSTEM, WHERE THE FASTENER SPACING IF THE SHEATHING IS MORE THAN 4INCHES (102MM) ON CENTER (O/C)

STRUCTURAL OBSERVATIONS:

1. VISUAL OBSERVATIONS WILL BE PERFORMED AT THE DISCRETION OF THE OWNER, ARCHITECT, SEOR, AND AS REQUIRED BY THE BUILDING OFFICIAL IN ACCORDANCE WITH THE BUILDING CODE.
2. IT IS THE RESPONSIBILITY OF THE GENERAL CONTRACTOR TO NOTIFY THE STRUCTURAL ENGINEER AS TO WHEN EACH MAJOR PHASE OF CONSTRUCTION IS READY FOR OBSERVATION A MINIMUM OF FIVE (5) WORKING DAYS IN ADVANCE.
3. THE CONTRACTOR SHALL BE RESPONSIBLE FOR ENSURING THAT NAILING, REINFORCEMENT, WELDS, CONNECTIONS, ETC. ARE VISIBLE FOR OBSERVATION WHEN THE SEOR IS ON SITE AND FOR ANY SCHEDULING DELAYS DUE TO NONCOMPLIANT ITEMS FOUND DURING THE OBSERVATION.
4. THE FOLLOWING MAJOR PHASES OF CONSTRUCTION REQUIRE A SITE VISIT AND STRUCTURAL OBSERVATION REPORT FROM THE SEOR:

City of Gardena
Committee I-3: Structural Observation

STRUCTURAL OBSERVATION PROGRAM
AND DESIGNATION OF THE
STRUCTURAL OBSERVER

PROJECT ADDRESS: 1645 W166th Street Gardena, CA 90247 PERMIT APPL. NO.: _____
Description of Work: New aquatics center
Owner: _____ Architect: Robert Simons Engineer: Young K. Nam

STRUCTURAL OBSERVATION
(only checked items are required)

Firm or Individual to be responsible for the Structural Observation:
Name: VCA Engineers Inc Phone: (949)679.0870 Calif. Registration: S4029

FOUNDATION	WALL	FRAME	DIAPHRAGM

NOTES:
1. Ldh = HOOK DEVELOPMENT LENGTH.
2. Ld = DEVELOPMENT LENGTH.
3. db = REINFORCING BAR DIAMETER
4. SEE BUILDING CODE AND ACI 318-14 VERSION FOR ALL REQUIREMENTS NOT NOTED.
5. FOR LIGHTWEIGHT CONCRETE MULTIPLY Ldh AND Ld VALUES SHOWN BY 1.33.
6. TOP BARS ARE HORIZONTAL WITH MORE THAN 12" OF FRESH CONCRETE CAST BELOW BARS. ALL OTHER BARS ARE "OTHER" BARS.
7. STANDARD HOOK Ldh DOES NOT ACCOUNT FOR THE EFFECT OF TIES. CONFINED HOOK Ldh MAY BE USED WHERE ACI 318-14 25.4.3 APPLIES.
8. VALUES SHOWN ABOVE ARE FOR GRADE 60 (FY=60 KSI) REINFORCEMENT.
9. SPLICE LENGTHS SHOWN ARE FOR CLEAR SPACING NOT LESS THAN 2db, CONCRETE COVER NOT LESS THAN db.
10. IF EPOXY-COATED REINFORCEMENT IS USED, THE DEVELOPMENT/LAP SPLICE LENGTHS HEREIN SHALL BE MULTIPLIED BY APPLICABLE FACTORS IN ACI 318-14 SECTIONS 25.4.2.4 OR 25.4.3.2.
11. IN LIEU OF LAP SPLICES, PROVIDE TYPE 2 COUPLERS PER IAPMO ER 0129. STAGGER COUPLERS SO THAT COUPLERS DO NOT OCCUR IN ROW.

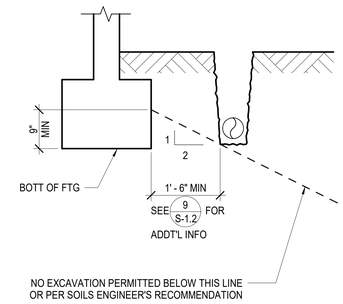
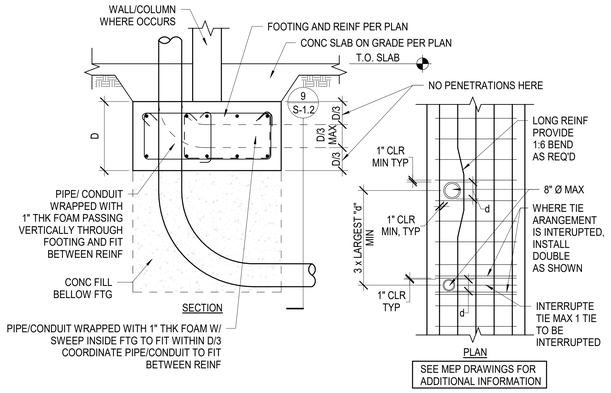
AN



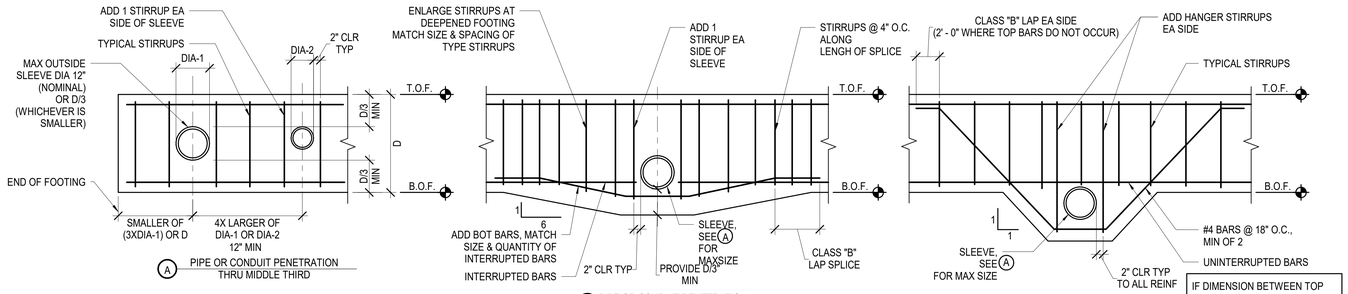
NOTES:
1. FOOTINGS POURED AGAINST EARTH ARE SUBJECT TO APPROVAL OF GEOTECH. ENGR.
2. FOOTING WIDTHS SHALL NOT BE MORE THAN 4" WIDER THAN SHOWN ON PLAN.
3. FORMWORK NOT PERMITTED BELOW GRADE UNLESS FULLY FORMED.
4. FOUNDATION CONCRETE MAY BE PLACED DIRECTLY INTO NEAT EXCAVATIONS PROVIDED THE FOUNDATION TRENCH WALLS ARE STABLE AS DETERMINED BY THE GEOTECHNICAL ENGINEER. THE MINIMUM FORMWORK SHOWN ON THE DRAWINGS IS MANDATORY TO ENSURE CLEAN EXCAVATIONS IMMEDIATELY PRIOR TO AND DURING THE PLACING OF CONCRETE.
5. CONT CLEAN-OUT STAKES NOT PERMITTED IN THE FTG AREA.
6. AFTER CONCRETE HAS SET, REMOVE LAITANCE AND SCUM.

1 S-1.2 FOOTING POURED AGAINST EARTH
SCALE:N.T.S.



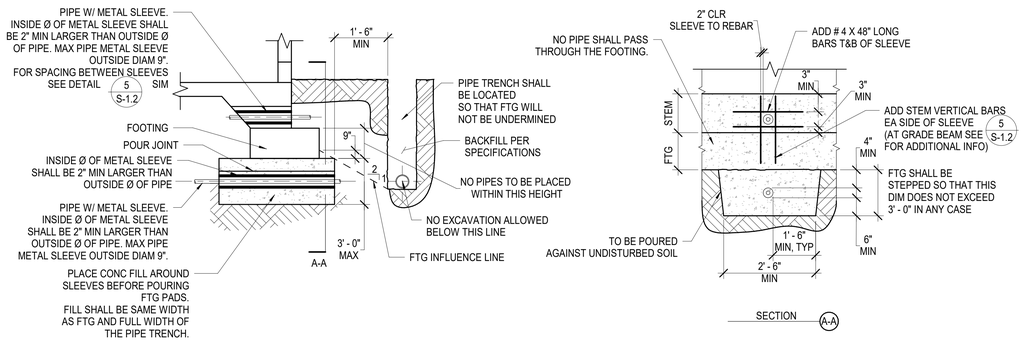
NOTES:
1. PROVIDE ADEQUATE SUPPORT FOR LONGITUDINAL REINFORCEMENT WITHIN 6" OF JOINT USING FOOTING TIES, VERTICAL DOWELS OR OTHER MEANS.
2. SECTIONS SHOWN ARE AT CENTER OF FOOTING IN LONGITUDINAL DIRECTION.

2 S-1.2 CONSTRUCTION JOINT AT FOOTING/ GRADE BEAM
SCALE:N.T.S.



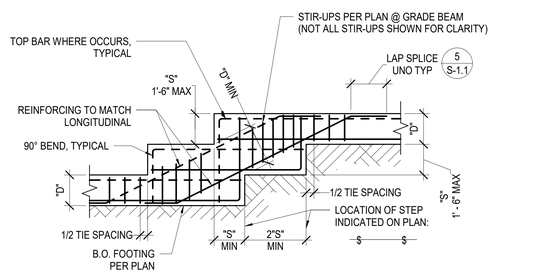
NOTE:
THE CONTRACTOR SHALL BE RESPONSIBLE FOR SHORING OR OTHERWISE MAINTAINING THE SIDES OF THE EXCAVATION FROM CAVE-INS UNTIL ALL BACKFILL IS COMPLETED PER SPECIFICATIONS AND GEOTECHNICAL REPORT.

3 S-1.2 TYPICAL EXCAVATION PARALLEL TO FOOTING
SCALE:N.T.S.



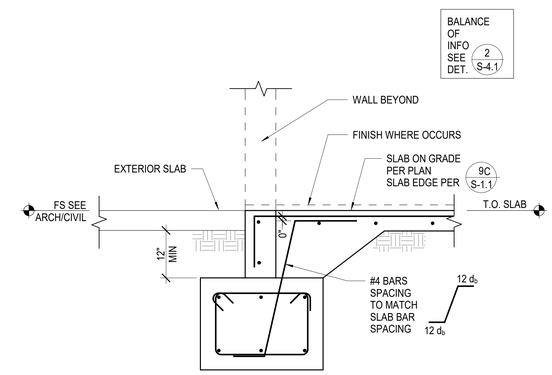
4 S-1.2 PIPE/ CONDUIT SWEEP THRU FOOTING
SCALE:N.T.S.

IF DIMENSION BETWEEN TOP OF SLEEVE AND BOTTOM OF FOOTING IS GREATER THAN OR EQUAL TO 4" NO ADDTIONAL REINFORECEMENT IS REQUIRED.
SEE DET. 9 S-1.2



NOTES:
1. DO NOT CUT REINFORCING AT (A) OR (C) ONLY CUT INTERRUPTED REINFORCING AT (B) .
2. PROVIDE MINIMUM 2" CLEAR BETWEEN SLEEVE AND REINFORCING .
3. INSIDE Ø OF METAL SLEEVE SHALL BE 2" MIN LARGER THAN OUTSIDE Ø OF PIPE.
4. CAULK SEAL GAP AT SLEEVE-TO-PIPE/CONDUIT INTERFACE ON EXTERIOR SIDE OF FOOTING .
5. IF PIPE OR CONDUIT PENETRATION OCCURS AT EITHER TOP OR BOTTOM REBAR SPLICE LOCATION PROVIDE 2 ADDITIONAL SHEAR STIRRUPS FOR A TOTAL OF 4 SHEAR STIRRUPS ON EACH SIDE OF PENETRATION .

5 S-1.2 TYPICAL PIPE OR CONDUIT PENETRATIONS THRU CONTINUOUS FOOTINGS
SCALE:N.T.S.



NOTES:
1. CONTRACTOR SHALL COORDINATE ALL PIPE LOCATIONS WITH BUILDING FOUNDATION REQUIREMENTS.
2. IF REQUIREMENTS AS SHOWN CANNOT BE MET, STEP FOOTING PER TYPICAL 'STEPPED FOOTING' DETAIL.
3. REFERENCE CBC SECTION 1805A.4.7

9 S-1.2 PIPE TRENCH FOOTING DETAIL
SCALE:N.T.S.

NOTES:
1. FOR FTG REINFORCING SEE PLANS AND DETAILS.
2. VERTICAL WALL DOWELS SHALL EXTEND TO BOTTOM OF FOOTING.
3. TRANSVERSE STEEL NOT SHOWN FOR CLARITY.
4. TWO STEPS ARE SHOWN, DETAIL FOR SINGLE STEP OR ADDITIONAL STEPS IS SIMILAR.

8 S-1.2 TYPICAL STEPPED FOOTING GRADE BEAM

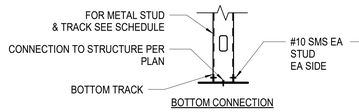
> 12' - 0" ≤ 16' - 0"	DET. A - 1	(2) 8"X16 GA METAL STUDS (800S162-54)



2. ALL STUDS AND TRACKS SHALL CONFORM TO ASTM A1003.
   a. 18GA AND LIGHTER: MINIMUM YIELD POINT OF 33 KSI
   b. 16GA AND HAVIER: MINIMUM YIELD POINT OF 50 KSI.
   c. ALL STUDS AND TRACKS SHALL BE MANUFACTURED BY CURRENT MEMBERS OF THE STEEL STUD MANUFACTURERS ASSOCIATION (SSMA) LISTED IN ICC REPORT NO. ESR-3064P. ALL STUDS AND TRACKS SHALL COMPLY WITH ICC REPORT NO. ESR-3064P.
3. ALL FRAMING COMPONENTS SHALL BE CUT SQUARELY OR ON ANGLE (SUCH AS BRACING) TO SQUARELY FIT AGAINST ABUTTING MEMBERS. MEMBERS SHALL BE HELD FIRMLY POSITION UNTIL PROPERLY FASTENED.
4. STUD AND TRACKS SHALL BE ATTACHED BY WELDING AND SHEET METAL SCREWS AS NOTED ON THE DRAWINGS.
5. MANUFACTURER PROVIDED PUNCH-OUTS MAY BE LOCATED ALONG THE CENTERLINE OF THE WEBS OF THE FRAMING MEMBERS. PUNCH-OUTS SHALL HAVE A MINIMUM CENTER-TO-CENTER SPACING OF 24". PUNCH-OUT SHALL HAVE A MAXIMUM WIDTH OF HALF THE MEMBER DEPTH OR 2 1/2", WHICHEVER IS LESS, AND MAXIMUM LENGTH OF 4 1/2".
6. SPLICES IN STUDS AND BRACES SHALL NOT PERMITTED.
7. ALL FRAMING SHALL BE COORDINATED WITH GLAZING MANUFACTURERS, MECHANICAL, ELECTRICAL, PLUMBING AND OTHER TRADES.
8. PROVIDE 0.08" THICK x 1.1" SQUARE OR 1.425" ROUND WASHERS FOR ALL POWDER ACTUATED FASTENERS.
9. LOCATE PUNCHOUTS 10" CLEAR OF CONNECTIONS. IF PUNCH IS CLOSER THAN 10" TO CONNECTION, SEE DETAIL 13 / S-1.4 DET "C"

NOTES:
1. INSTALLATION OF SURE-BOARD SHEAR WALLS MUST BE IN ACCORDANCE WITH IAPMO ES REPORT NUMBER 0126 AND MANUFACTURER'S PUBLISHED INSTALLATION INSTRUCTIONS.
2. ALL PANEL EDGES MUST BE BLOCKED, FRAMING MEMBERS SUCH AS STUDS, TOP AND BOTTOM TRACKS ARE CONSIDERED BLOCKING; PANEL EDGES THAT DO NOT FALL ON FRAMING MEMBERS MUST BE BLOCKED WITH STUDS, TRACK, OR CONTINUOUS FLAT STRAP MATERIAL WITH MINIMUM THICKNESS AND STEEL PROPERTIES AS THE STUD FRAMING MEMBERS PER THE TABLE.
3. SEE PLAN FOR SHEAR WALL BOUNDARY FRAMING MEMBERS.
4. SEE PLAN FOR SHEAR WALL HOLD DOWN ANCHOR.
5. ALL SURE-BOARD STEEL FRAMING SHALL BE 16GA, 24" SPACING MAX.
6. PROVIDE STEEL FRAMING PER BEARING WALL SCHEDULE IF GAGE NOTED IN BEARING WALL SCHEDULE IS THICKER THAN STEEL MINIMUM GAGE SHOWN IN SCHEDULE ABOVE.
7. STEEL STUDS & TRACKS SHALL COMPLY WITH ASTM A653 GR 50 (3.3.3 IAMPO ER 126)
8. A MINIMUM PANEL SIZE OF 16"X96" IS ACCEPTABLE, PROVIDED ALL PERIMETER EDGES ARE FASTENED TO FRAMING MEMBERS AT THE REQ'D SPACING(4.2.2.3 IAPMO ER 126)
9. THE STEEL FACE OF SURE-BOARD PANEL SHALL BE IN CONTACT WITH THE FRAMING.
10. COLLECTOR POSTS AT EACH END OF SHEAR WALL SHALL BE MINIMUM DOUBLE STUD & SAME GAGE AS FRAMING METERIAL (3.3.3 ER-0126)
11. SERIES 200 SURE-BOARD FULLY BLOCKED, W/ SCREW PER SCHEDULE
12. SCREWS SHALL PENETRATE AT LEAST 3 EXPOSED THREADS INTO FRAMING MEMBERS. SCREW HEADS SHALL BE DRIVEN FLUSH WITH PANEL SURFACE.(4.2.2.2 ER-0126)
13. JAMB STUDS SHALL BE 16GA WITH 15/8" FLANGE "S" SECTION TO MATCH WALL DEPTH.

5 S-1.7 TYPICAL SURE-BOARD SHEAR WALL SCHEDULE

SCALE: 3/4" = 1'-0"
REF DET.8 / S-5.1

NOTES:
1. LOCATE CUT-OUTS NEXT TO STUD FRAMING TYPICAL, & 16" MIN. FROM END OF WALL. FOR LARGE OPENINGS.
2. LARGE BLOCKOUT MAYBE LOCATED AS REQUIRED IN THE SHEAR PANEL.
3. DO NOT CUT MORE THAN 1 LARGE CUT-OUT IN ANY SINGLE SHEAR PANEL.
4. DO NOT OVER CUT ANY OPENINGS.
